Intensive study of texts written by African American authors. The course varies in topic and may concentrate on a selection of works by a major African American writer or a particular African American literary movement or theme since 1900.
Interdisciplinary Option: African Studies and the African Diaspora
Outcomes:
Students will be able to demonstrate an understanding of African American literature and culture with specialized attention to a major or distinctive feature of the African American literary tradition since 1900

ENGL 390 Advanced Seminar (3 Credit Hours)
Pre-requisites: Junior standing
This course is required of all English majors. It offers an advanced, intensive study of a period, author, genre, theme or critical issue in a seminar setting. Topics are announced when the course is offered.
Outcomes:
Students will be able to recognize the ways that the subject matter of the seminar relates to the production, representation, and interpretation of artistic culture

ENGL 392 Advanced Creative Nonfiction Workshop (3 Credit Hours)
Pre-requisites: ENGL 319 Writing Creative Nonfiction
This is a workshop in writing creative nonfiction, furthering work done in ENGL 319, Writing Creative Nonfiction. Students will write in different genres (e.g., memoir, travel writing, speculative essay, nature writing, the spiritual essay), and will further their study in using both traditional and experimental literary techniques in nonfiction.
Outcomes:
Students will deepen their learning of traditional and innovative methods of writing creative nonfiction, applying them to their original creative nonfictions and discussing and critiquing them in fellow students' work

ENGL 393 Teaching English to Adults: Internship (1-3 Credit Hours)
Pre-requisites: Sophomore Standing or above
This course offers training and practical experience in tutoring adults in written and spoken English in a volunteer literacy program at Loyola University. Students examine literacy issues and write a research paper. This course satisfies the Engaged Learning requirement.
Outcomes:
Students will be able to demonstrate understanding of societal and cultural factors affecting literacy, and will develop communication and critical thinking skills

ENGL 394 Internship (3 Credit Hours)
Pre-requisites: Junior standing, six English courses
This course provides on-the-job experience for majors in adapting their writing and analytical skills to the needs of such fields as publishing, editing, and public relations.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students will be able to analyze their experience in terms of the skills they brought to their jobs, what they learned about the fields they worked in, and what new skills they developed as a result of their experiences

ENGL 395 Honors Tutorial (3 Credit Hours)
Content will vary each time the course is offered, but in general will entail in-depth study of a literary genre or a major author or theme in literature.
Course equivalencies: ENGL 395H / ENGL 395
Outcomes:
Students will strengthen their capacity to analyze literature and to discuss it, both orally and in writing, and will be able to demonstrate understanding of the materials studied and of relevant theoretical and critical perspectives

ENGL 397 Advanced Writing Workshop: Poetry (3 Credit Hours)
Pre-requisites: ENGL 317
Students will read master poets as models and will write and revise poems of their own, which will be discussed by the class in a workshop format.
Outcomes:
Students will produce original poems, building upon skills honed in ENGL 317; They will also be able to demonstrate a deepening understanding of the critical skills necessary for analyzing and discussing original poetry, theirs and their fellow students'

ENGL 398 Advanced Writing Workshop: Fiction (3 Credit Hours)
Pre-requisites: ENGL 318
This course allows students to develop further their skills in writing and analyzing original fiction begun in ENGL 318, in a supportive workshop atmosphere.
Outcomes:
Students will produce original short stories, building upon skills honed in ENGL 318; They will also be able to demonstrate a deepening understanding of the critical skills necessary for analyzing and discussing original fiction, theirs and their fellow students'

ENGL 399 Special Studies in Literature (3 Credit Hours)
Subject matter of this course will be designated by a subscript whenever the course is offered. Usually taken as an independent study.
Outcomes:
Students will be able to demonstrate understanding of the topic of the course, and of the research and critical skills necessary to analyze and discuss it; Usually students will work independently and produce a research paper, under the direction of a faculty member

English (BA)

The undergraduate major program equips students with the skills and concepts that make the English major an asset in the modern world. In addition to literary analysis in both traditional and contemporary forms, the major helps students explore historical and cultural developments and invites them into the worlds of textual studies and digital humanities. All courses at all levels of the program encourage students to become clear and effective writers.

Curriculum

Twelve courses (36 hours), nine of which (27 hours) must be at the 300-level. Up to three elective courses (9 hours) may be drawn from UCLR-E 100 and advanced 200-level (ENGL 270 and above) courses. At least one course must be among those designated by the department as "multicultural." The Advanced Seminar (ENGL 390 Advanced Seminar) is considered the capstone of the major. These courses must also meet the following criteria:

Code	Title	Hours
Literary Theory		
ENGL 354	Contemporary Critical Theory	3
or ENGL 355	Studies in Literary Criticism	
Shakespeare		
Select one of the following: [1]		3
ENGL 326	Shakespeare: Selected Major Plays [2]	
ENGL 327	Studies in Shakespeare [2]	
Capstone: Advanced Seminar		
ENGL 390	Advanced Seminar [3]	3
Literature in English Before 1900		
Select at least one course prior to 1700: [4]		3
ENGL 306A	Studies in Women Writers Before 1700	
ENGL 312A	Studies in World Literature in English Before 1700	
ENGL 313A	Border Literature Before 1700	
ENGL 320	English Literature: Medieval Period	
ENGL 321	Intro to Anglo-Saxon

ENGL 384C	Studies in African American Literature Since 1900	
Elective Courses		
Complete five elective courses		15
Total Hours		**36**

1. Note that ENGL 274 Exploring Shakespeare will **not** fulfill this requirement for English majors.
2. If both ENGL 326 Shakespeare: Selected Major Plays and ENGL 327 Studies in Shakespeare are taken, one may be used to satisfy the literature prior to 1700 requirement.
3. Open to students with junior or senior standing; students may take an additional ENGL 390 Advanced Seminar if they wish.
4. If a student takes both ENGL 326 Shakespeare: Selected Major Plays and ENGL 327 Studies in Shakespeare, One of these may be used to satisfy this requirement; the other will satisfy the Shakespeare requirement.

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as

complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

English (BA/BSED)

TEACHING LICENSURE

The Department of English works closely with the School of Education (https://www.luc.edu/education/) to ensure that English majors who wish to teach high-school English are well prepared to do so and proceed smoothly towards both their degree in English and certification as teachers.

Regardless of the year in which they arrived at Loyola, students seeking certification must take all requirements for the Major. In addition, use two of their electives to take ENGL 303 Grammar: Principles & Pedagogy and CIEP 350 Adolescent Literature in the School of Education.

In addition to their English major, students interested in teaching high school English must apply to the School of Education BSED in Secondary Education (p. 798). Students are considered Dual-Degree Students and will earn both a BA and a BSED. Students planning to teach should see Reid Leber in the School of Education their freshman year to ensure that they fulfill all of the requirements for the degree, major and Illinois licensure.

The assistant director of undergraduate programs for teacher preparation in the Department of English, Dr. Elissa Stogner, serves as liaison with the School of Education and advises English-education majors as they fulfill the requirements of both their major in English and their major in secondary education.

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

College of Arts and Sciences Graduation Requirements

ENGL 384C	Studies in African American Literature Since 1900	3

Transfer-Student Residency Requirement

At least 18 credit hours of ENGL courses must be completed at Loyola.

LEARNING OUTCOMES

English majors will:

- be able to perform close readings of literature and other kinds of texts, paying careful attention to textual detail.
- demonstrate an understanding of human diversity as it is represented in literature and other kinds of texts.
- be able to communicate their ideas clearly, in writing that employs appropriate word choice, diction, structure, and mechanics.
- be able to create focused and well-supported arguments and analyses.
- where applicable, demonstrate their understanding of literary and cultural theories by incorporating them into their work in precise and effective ways.
- where applicable, demonstrate their ability to employ in their own creative works their understanding of the conventions and techniques of particular literary genres.
- where applicable, demonstrate their knowledge of textual genres, histories, movements, traditions, and innovations.
- demonstrate an understanding of how texts reflect and affect societies and cultures.

English Honors

The English Honors Program

To graduate with honors in English, students in the English Honors Program must take three Advanced Seminars (ENGL 390 Advanced Seminar or ENGL 395 Honors Tutorial), all of which count towards the major either as electives or as courses satisfying historical period requirements. Students in the Creative Writing Concentration may substitute one Advanced Workshop (ENGL 392 Advanced Creative Nonfiction Workshop, ENGL 397 Advanced Writing Workshop: Poetry, or ENGL 398 Advanced Writing Workshop: Fiction) for ENGL 390 Advanced Seminar. In order to be admitted to the English Honors Program, a student should have completed at least two English courses beyond composition and must have an average of at least 3.4 in all English courses. The student must maintain this average throughout the program. In some cases, ENGL 399 Special Studies in Literature (Independent Study) can be substituted for one of the honors tutorials. Students interested in the English Honors Program should contact the director of undergraduate programs.

Sigma Tau Delta

Loyola sponsors a chapter of Sigma Tau Delta, the International English Honor Society. Sigma Tau Delta, a member of the Association of College Honor Societies, confers distinction for high achievement in the study of the English language and of literature in English, promotes interest in such study, and encourages creative and critical writing. Active members receive and have the opportunity to contribute to the society's award-winning literary publication, *The Rectangle*, and are eligible to compete for writing awards and scholarships. To be eligible for membership in Loyola's chapter, students must major or minor in English, have at least a B average in English, rank in the highest 35 percent of their class overall and have completed three semesters. New members are inducted in the spring. Interested students should contact the director of undergraduate programs.

English Minor

Curriculum

Code	Title	Hours
UCLR 100E	Interpreting Literature - English (or an advanced 200-level course of ENGL 270 or above)	3
ENGL 270 or above		3

English 300-Level Course		3
English 300-Level Course		3
English 300-Level Course		3
English 300-Level Course		3

A list of undergraduate English courses can be found here (p. 360).

English with a Creative Writing Concentration (BA)

A CWC is offered within the regular English major, and is intended for students interested in and committed both to their own creative work (fiction and/or poetry and/or creative nonfiction) and to the study of literature from a writer's point of view.

Curriculum

Code	Title	Hours

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Fine and Performing Arts

The Department of Fine and Performing Arts (DFPA) is comprised of four distinct areas of study: Dance (http://luc.edu/dance/), Fine Arts (http://luc.edu/finearts/), Music (http://luc.edu/music/), and Theatre (http://luc.edu/theatre/). These areas are combined to promote dynamic artistic and academic opportunities for our students. Approximately 80 full and part time faculty members, actively involved in creative work, performance, and independent scholarship, teach and train over 400 student majors and minors in the department.

Students can choose a course of study from any of our 8 different majors or 11 different minors, or simply choose to explore a class in the art that interests them.

Our students are challenged to attentively experience and critically engage different aesthetic experiences, to develop and improve communication skills, and to relate the artistic experience to other fields. Our undergraduate programs prepare students for graduate work and employment in many dynamic cultural professions. The academic programs of the DFPA are complemented throughout the year by over 100 public presentations, performances, and exhibitions.

Our Mission

The Department of Fine and Performing Arts engages the transformative power of art to enrich the individual and connect communities. We provide students with theory and skill-based instruction within the context of a strong Jesuit liberal arts curriculum, and we engage audiences through extensive public programming in Dance, Fine Arts, Music, and Theatre. For more information, contact us at dfpa@luc.edu.

- Music with a Concentration in Vocal Performance (BA) (p. 413)
- Musical Theatre Minor (p. 414)
- Photography (BA) (p. 415)
- Photography Minor (p. 417)
- Sculpture and Ceramics (BA) (p. 417)
- Sculpture and Ceramics Minor (p. 418)
- Shakespeare Studies Minor (p. 536)
- Studio Art Minor (p. 419)
- Teaching Artist Minor (p. 419)
- Theatre (BA) (p. 420)
- Theatre Minor (p. 422)
- Visual Communication (BA) (p. 422)
- Visual Communication Minor (p. 423)

Undergraduate Policies and Procedures

Please see Undergraduate Policies and Procedures (p. 2050) for academic policies that supersede those of academic units within the University.

ARTS (ARTS)

ARTS 200 Introduction to Teaching Artistry (3 Credit Hours)
Introduction to teaching artistry with an emphasis on art education, art integration and community-based arts practices.
Outcomes:
Students will identify and describe the practice of teaching artistry, reflect on a direct experience with an art organization, and create a lesson plan

ARTS 201 Grant Writing for the Arts (2 Credit Hours)
Introduction to grant writing for the arts. The course concludes with a completed grant proposal.
Outcomes:
Students will identify how to find grants that support the arts and engage in the process of applying for a grant or other arts funding

ARTS 397 Fieldwork in Arts Education (3 Credit Hours)
Credit given for arts education work outside the university undertaken under the guidance professional arts educators. Students keep an hour and activity log and write reflective evaluative papers. Permission of the Department of Fine and Performing Arts Specific outcomes and credit hours assigned to be determined by the student in consultation with the Teaching Artistry Faculty Coordinator and the project supervisor

DANCE (DANC)

DANC 111 Ballet I: Introduction to Ballet Theory and Technique (3 Credit Hours)
Ballet I is designed to introduce the concepts and vocabulary of ballet with a focus on developing student's body awareness and control. Students will learn about the art form of ballet in relationship to theatre, music and other forms of dance.
Knowledge Area: Artistic Knowledge and Experience
Course equivalencies: THTR111/DANC111
Outcomes:
Students will improve their posture, flexibility and coordination; They will develop a reference for enjoying ballet performances and create a foundation for further dance training

DANC 121 Modern Dance I: Theories and Techniques (3 Credit Hours)
Modern Dance I is designed to increase student's body awareness, strength, flexibility and musicality. The course studies the technique and theory of Fall and Recovery developed by Doris Humphrey.
Knowledge Area: Artistic Knowledge and Experience
Course equivalencies: THTR121/DANC121
Outcomes:
Students will develop a basic dance technique and be able to describe and demonstrate the differences between modern dance and ballet; They will understand the history of the development of modern dance as a uniquely American art form

DANC 131 Jazz Dance I: Theories and Techniques (3 Credit Hours)
Jazz I is designed to increase the student's body awareness, enjoyment of movement and appreciation of Jazz dance in theatrical productions. May be repeated once for credit.
Knowledge Area: Artistic Knowledge and Experience
Course equivalencies: THTR131/DANC131
Outcomes:
Students will improve their strength, coordination, flexibility and correct posture; They will develop basic skills and vocabulary for performing Jazz movements and a framework to view dance in theatrical productions

DANC 212 Ballet Dance II: Theory and Technique (2 Credit Hours)
Prerequisite Skills: Students should be familiar with the five feet and arm positions and be able to work in 5th position of the feet. Dancers should demonstrate correct alignment of the pelvis and spine in plie and releve and while working at the barre. Dancer must be able to execute correct articulation of the feet and leg in tendu. They should be familiar with basic petite allegro and action of the feet, hips and legs while jumping. This is a continuing ballet class designed to build on established vocabulary and movement fundamentals with emphasis on ballet as a theatrical art form.
This course satisfies the Engaged Learning requirement.
Course equivalencies: THTR212/DANC212
Outcomes:
This class further develops strength, posture, flexibility and coordination; Progressions include more work en relev at the barre, development of leg extensions, single leg jumping and more complex movement combinations; Students will develop awareness of a dancer's role in a ballet production

DANC 213 Ballet III: Advanced Continuing Ballet (2 Credit Hours)
Pre-requisite skills: Student must demonstrate correct alignment and articulation at the barre and in the center when standing in first or fifth position. Student should have introductory proficiency in pirouettes en dehors and en dedans as well as petit allegro. This course serves students who have achieved proficiency in the basic elements of Continuing Ballet, but need to develop skills to meet the Intermediate level. Course focuses on reinforcing foundational technique in alignment and articulation and provides opportunities to develop strength, coordination and vocabulary required to advance to 311 Intermediate Ballet.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students will increase their awareness of overall dance alignment and articulation; They will develop strength, coordination and vocabulary preparing them for Intermediate Ballet; Students will enhance their ability to travel across the floor as well as conduct pirouettes; Adagio work in the center and grand allegro is introduced

DANC 222 Modern Dance II: Theory and Technique (2 Credit Hours)
Prerequisite Skills: Dancers should be able to maintain correct alignment of the legs, back and pelvis standing and shifting their weight. Must be familiar with 1st and 2nd position of the legs and demonstrate basic articulation of the legs in tendu and jumping. This course is designed to further increase student's body awareness, strength, flexibility and musicality. We will study the technique and theory of Fall and Recovery developed by Doris Humphrey as well as learn short excerpts of repertory to be analyzed. May be repeated once for credit.
This course satisfies the Engaged Learning requirement.
Course equivalencies: THTR222/DANC222
Outcomes:
Students will further develop their modern dance technique and be able to execute more physically challenging falls and longer and more complex movement combinations

DANC 224 Majors Modern II (1 Credit Hour)
This course is designed for Dance majors to increase their body awareness, strength, flexibility and musicality through the study the technique and theory of Fall and Recovery developed by Doris Humphrey. Restricted to Dance Majors.
Outcomes:
Students will develop their modern dance technique including falls and longer and more complex movement combinations; They will further their understanding of spatial patterns and musicality

DANC 232 Jazz Dance II: Theories and Techniques (2 Credit Hours)
Prerequisite Skills: Dancers should demonstrate correct placement of the legs, back and pelvis standing and in plié. They should be able to demonstrate basic jazz turns, jazz runs and pas de bourée. Dancers need to use correct position and opposition of the arms in combinations. Jazz II is designed to further develop student's technical ability and awareness of Jazz dance in theatrical productions. Students will learn about professional Jazz dance in Chicago and improve their strength, coordination, flexibility and correct posture in increasingly complex combinations applying the vocabulary and principles of jazz dance. May be repeated once for credit.
This course satisfies the Engaged Learning requirement.
Course equivalencies: THTR232/DANC232
Outcomes:
Students will improve their dance technique, performance skills and appreciation of Chicago's rich tradition of Jazz dance performance

DANC 240 Dance Practicum (1 Credit Hour)
Pre-requisites: THTR 253
Students apply stagecraft for dance in a variety of domains: costuming, lighting, electrics and sound. They will work as running crew for a mainstage dance production.
Outcomes:
Students will acquire a variety of skills necessary for producing dance; including collaboration and organization skills and will gain appreciation for the complexity dance production

DANC 250 Historical Contexts in Contemporary Dance Practice (3 Credit Hours)
Pre-requisites: Must be a Dance major or Dance minor
This course surveys historical flashpoints in the evolution of American contemporary dance. It provides a critical framework for interrogating cultural and sociopolitical influences on concert dance practice and performance.
Outcomes:
Students will be able to identify historical figures and events that have significantly influenced American theatrical dance

DANC 260 Topics in Dance (2 Credit Hours)
This course is a studio course that explores the theories and techniques of various dance forms. A specific dance genre will be selected each time the course is offered. The course may be repeated two times for credit.
Outcomes:
The student will gain a historical perspective on the dance form presented, as well as demonstrate specific skills required of the dance form

DANC 261 Topics in Applied Dance (1-2 Credit Hours)
This is an all-inclusive heading for courses rarely offered that serve under the Applied Technique designation for the Dance Minor.
Outcomes:
Each offering will provide discipline-specific vocabulary and applied skill acquisition

DANC 270 Dance Kinesiology (3 Credit Hours)
Pre-requisites: Must be an enrolled Dance Major or Dance Minor
The purpose of this class is to present dancers with basic knowledge of the anatomy, physiology, and biomechanics of human movement in dance and non-dance applications.
Outcomes:
Students participate in lecture, physical practice, group and individual projects to understand the mechanisms for dance movement and how movement patterns contribute to the presence or absence of dance injuries

DANC 275 Global Influences on Contemporary Dance Practice (1 Credit Hour)
Pre-requisites: Must be Dance Major or Dance Minor or have instructor approval
This seminar-styled course provides essential experience and knowledge through applied study of diverse lenses and movement styles contributing to contemporary dance practice.
Outcomes:
Identify, Demonstrate and Discuss non-western influences on contemporary dance choreography and practice

DANC 280 Dance and Disability: Interdisciplinary Theory and Applied Movement Practices (3 Credit Hours)
This course explores interdisciplinary theory and applied innovation at the intersection of movement, science, and community engagement.
Outcomes:
Students will demonstrate a working knowledge of best interdisciplinary practices in disability dance practices, and will develop strategies that address the physical, social, and cultural implications of physically integrated dance in multiple settings

DANC 312 Pointe I: Theory and Techniques (1 Credit Hour)
Co-requisites: DANC 213 or 341
This course is practice-oriented and builds on dancers' knowledge of ballet vocabulary, alignment, and strength. Pointework is geared towards the development of a higher level of articulation in classical footwork.
Outcomes:
The student will gain a deeper understanding of ballet technique en pointe, as well as demonstrate specific skills required of the dance form

DANC 314 Pointe II: Continuing Pointework (1 Credit Hour)
This is a studio class that explores ballet technique en pointe. This course is to be taken concurrently with DANC 313 Ballet V Advanced Ballet or 343 Advanced Majors Ballet. Students must be enrolled in Advanced Ballet to be eligible for enrollment in Pointe II. This course explores continuing ballet technique en pointe. It requires students to apply and synthesize all aspects of pointework studies including technique, spatial awareness, dynamics and group forms by preparing and presenting a public performance. It must be taken concurrently with DANC 313 Ballet V or 343 Advanced Majors Ballet. May be taken 8 times for credit.
Outcomes:
Students gain a deeper understanding of pointe technique, as well as demonstrate specific advanced skills required of the dance form; Students apply and synthesize material in a public performance

DANC 323 Rehearsal and Performance (1 Credit Hour)
Pre-requisites: Permission of the department
Dancing, choreographing, or stage managing, in a campus production. Completion of a journal or paper is required. May be repeated up to 12 times.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students will gain performance experience, assess personal artistic growth, and reflect on application of performance theory and technique into production practice

DANC 324 Modern III: Theory and Techniques (1 Credit Hour)
This studio course develops core strength, coordination and musical, spatial and performance skills through the study the technique and theory developed by Martha Graham as well as contemporary dance practices.
Outcomes:
Dancers will improve coordination, phrasing, physical power, shift of weight, anatomical awareness, performance, projection, flexibility and placement

DANC 331 Jazz Dance III: Intermediate Jazz Dance Theories and Techniques (2 Credit Hours)
Pre-requisites: Permission of the Instructor
This course develops students' ability to execute Jazz dance technique at an intermediate level. Students improve their dance technique, dynamic, spatial and performance skills. Students apply and synthesize all aspects of jazz dance technique in public performance. This course may be taken six times for credit.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students improve core strength, coordination, flexibility and correct posture at the intermediate level, in increasingly complex combinations applying and synthesizing all concepts and technique in public performance

DANC 341 Ballet IV: Anatomical Foundations and Cultural Context (1 Credit Hour)
This applied studio technique course emphasizes contemporary scientific anatomical research and cultural context in the study of ballet. Course skills and concepts are applied and synthesized through presentation of a public performance.
Outcomes:
Students will improve strength, alignment, and ensemble skills, develop knowledge and apply anatomical principles, connect the study of ballet to cultural and artistic context

DANC 343 Ballet V: Advancing Ballet: Contemporary Methodologies in Applied Ballet (1 Credit Hour)
This applied studio technique course emphasizes contemporary best practices in the study of Ballet in performance and theory in order to advance artistic and technical proficiency. Course skills and concepts are applied and synthesized through presentation of a public performance.
Outcomes:
Students will improve strength, alignment, and ensemble skills, develop knowledge of universal dance principles and advance their proficiency in contemporary ballet practice; Course skills and concepts are applied and synthesized through presentation of a public performance

DANC 360 Dance Pedagogy (3 Credit Hours)
Pre-requisites: Dance major or dance minor
The study child development, sequential dance pedagogy, biomechanics, nutrition and classroom management techniques as it relates to the teaching of dance. Coursework includes lecture, readings, model teaching, and research. Students observe master teachers instructing children of all ages and create sequential lesson plans consisting of all elements of dance pedagogy.
Outcomes:
Students will demonstrate a working knowledge of child development in relationship to age-appropriate dance skills as well as behavioral expectations; They will develop strategies that address the sequences of skill acquisition as well as concrete strategies for classroom management

DANC 370 Dance Composition (3 Credit Hours)
Pre-requisites: Must be a Dance Major or Dance Minor to enroll; Placement in Level III or higher dance technique courses; Permission of the department required
This course takes students from an introduction to dance composition theory and techniques through the process of creating a group work for the stage. Course work includes lecture, discussion, selected readings, viewing of masterworks of dance composition, creation of several dance studies on various themes and culminates in the creation of a work for performance in the Student Choreographic Showcase.
This course satisfies the Engaged Learning requirement.
Outcomes:
Through the development of short dance students learn the principles of dance composition and then apply them to their own creation performed for a public audience

DANC 380 Senior Showcase Capstone (1 Credit Hour)
Restricted to Senior Dance Majors. This course serves as the capstone of the Dance major and creates a platform for dancers to apply technical skills, theory and practice from many required courses for the Bachelor of Arts including DANC 341/DANC 343 Majors Ballet, DANC 321 Majors Modern, DANC 323 Rehearsal and Performance and DANC 370 Dance Composition.
Outcomes:
Dance majors will apply and synthesize all applied technique courses taken for their dance majors as well as integrate their knowledge of the choreographic and performance process

DANC 394 Internship in Dance (1-12 Credit Hours)
Dance students complete a semester long internship providing an opportunity to use their technical, research or organizations skills in a professional setting. Students must complete and reflect upon 50 hours of internship experience per credit hour that is pre-approved by the Department of Fine and Performing Arts. Department permission is required.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students gain professional experience working at a dance organization while reflecting on their work experience and applying theories and techniques acquired from their first dance courses

DANC 395 Independent Study (1-12 Credit Hours)
Pre-requisites: Written permission of chairperson
Independent study projects may be of various kinds and in any recognized area of the dance. Such projects should be done under the close supervision of a dance faculty member.
Outcomes:
To be determined by the student in consultation with the chairperson and dance faculty supervisor

DANC 397 Fieldwork in Chicago - Dance (1-12 Credit Hours)
Variable credit (1-6 hours) given for performances or projects undertaken with professional dance organizations outside the university. Students keep a journal and write evaluative papers. Permission of the Department of Fine and Performing Arts Required. Repeatable for up to 6 credit hours, however no more than 6 credit hours of Internship or Fieldwork can be applied to the major.
This course satisfies the Engaged Learning requirement.
Outcomes:
Specific outcomes and credit hours assigned to be determined by the student in consultation with the Director of Dance and the project supervisor

DANC 398 Research in Dance (1-12 Credit Hours)
Faculty serve as mentors for dance students pursuing research opportunities. Platforms cross various domains in cognitive, psychomotor, and artistic development. Students and faculty work together to generate qualitative and quantitative data documented in multiple modalities including: dancemaking, regression analyses, interviews, correlational and case studies. This course satisfies the Engaged Learning-Undergraduate Research requirement. Must be a declared dance major or minor to enroll.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students will learn discipline-specific language skills, research ethics and methodologies; Students will gain valuable skills disseminating research through performances, scholarly articles, conference presentations and research symposia

Fine Arts (FNAR)

FNAR 110 Foundations of Visual Art (3 Credit Hours)
Explores some of the fundamental principles, concepts, and historical and contemporary contexts that constitute a contemporary art practice. Provides experience across a range of modes of art making while emphasizing the basic concepts that underlie visual expression. Studio activity is augmented with research, discussion, and critique.
Outcomes:
Explore and express visual concepts; Develop creative competencies; Utilize design elements to communicate themes and ideas; Expand cognitive capacities; Comprehend historical and contemporary approaches to visual art

FNAR 112 Two-Dimensional Design (3 Credit Hours)
An examination of the basic elements and organizational systems of visual expression through the application of design principles and theory.
Course equivalencies: FNAR112/ACFNA112
Outcomes:
Students will be able manipulate various forms of media to produce desired spatial effects, and understand how to control by- using such design methods as scale, perspective, and composition - the viewer's understanding of and reaction to visual information on a two-dimensional surface

FNAR 113 Drawing I (3 Credit Hours)
An introduction to the basic elements of drawing including: line, value, texture, volume, shape, proportion, perspective and visual composition. A variety of drawing materials will be explored with an emphasis on observation problems designed to build technical, perceptual, and personal expressive interpretation of form through the drawing idiom.
Knowledge Area: Artistic Knowledge and Experience
Outcomes:
Students will be able to demonstrate an understanding of basic drawing principles and vocabulary, through practice and articulation of both formal and artistic ideas

FNAR 114 Painting I (3 Credit Hours)
An introduction to the basic elements of painting including: the application of drawing, design, and color principles. A variety of materials will be explored with an emphasis on oil painting. Observational problems will be introduced to build technical, perceptual, and personal expressive interpretation of form through the painting idiom.
Knowledge Area: Artistic Knowledge and Experience
Outcomes:
Students will be able to demonstrate an understanding of basic painting principles and vocabulary, through practice and articulation of both formal and artistic ideas

FNAR 115 Foundations of Photography (3 Credit Hours)
This course introduces photography as a form of visual art. Students learn the technical concepts in order to develop their ability to express ideas through photography. The course also emphasizes strengthening visual literacy through lectures, discussions, and critiques. Requirements: A fully adjustable digital camera (DSLR) and an external hard drive are required.
Knowledge Area: Artistic Knowledge and Experience
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies
Course equivalencies: FNAR115/ICVM115/IFMS115
Outcomes:
Students will learn how to formulate and communicate ideas through photography; The course focuses on building the students' visual literacy and understanding of photography as a form of visual art

FNAR 116 Color Slide Photography (3 Credit Hours)
A non-darkroom, introductory course to the equipment, techniques and aesthetics of creative photography that emphasizes camera controls, principles of composition, concepts of color theory, the unique potential of the projected image, and personal expression. An adjustable 35mm camera is required.
Outcomes:
Students will be able to demonstrate an understanding and application of exposure, depth of field, rendering motion, full frame composition, sequential imagery, balance of film and light source, and the functions of color, all of which support the practice of creative photography

FNAR 118 Printmaking I (3 Credit Hours)
An exploration of the production of fine art multiples as they are created utilizing zinc and copper plates. Techniques of etching and engraving aquatint and color printing as well as innovative processes are taught.
Outcomes:
Students will demonstrate understanding of the techniques needed to produce images on metal plates and alternative surface; the intrinsic qualities particular to expression in print media, recognize fine prints, specific techniques, and archival quality in historical examples, use intaglio presses as a means of production and form evaluative judgments about printed imagery

FNAR 119 Watercolor Techniques (3 Credit Hours)
An introduction to the basic elements of watercolor painting including: the application of drawing, design, and color principles. A variety of techniques and materials will be explored including, watercolor paints and pencils, and brush and masking techniques. Observational problems will be introduced to build technical, perceptual, and personal expressive interpretation of form through the watercolor painting idiom.
Outcomes:
Students will be able to demonstrate an understanding of basic painting principles and vocabulary, through practice and articulation of both formal and artistic ideas

FNAR 120 Ceramics: Handbuilding (3 Credit Hours)
An exploration of various handbuilding techniques, surface design techniques, and firing ranges available to the contemporary ceramist. Students are encouraged to pursue individual expression in the context of a broad range of methods and creative concepts.
Knowledge Area: Artistic Knowledge and Experience
Outcomes:
Students will be able to demonstrate the basics of successful construction and glaze techniques; demonstrate creative strategies and critical evaluation of the creative process; demonstrate an understanding of both historical and contemporary approaches to the medium and the role of the Ceramic artist in cultures past and present

FNAR 121 Ceramics: Wheelthrowing (3 Credit Hours)
An introduction to the potters' wheel. Students learn basic throwing skills, explore utilitarian design concepts, and learn to balance spontaneous and practiced approaches to process. Emphasis is on the successful integration of craft and personal expression.
Knowledge Area: Artistic Knowledge and Experience
Course equivalencies: FNAR220/FNAR121
Outcomes:
Students will be able to demonstrate basic wheelthrowing and glaze techniques; demonstrate creative strategies and critical evaluation of the creative process; demonstrate an understanding of both historical and contemporary approaches to the medium and the role of the Ceramic artist in cultures past and present

FNAR 123 Metalwork and Jewelry I (3 Credit Hours)
The methods and processes of construction using nonferrous metals applied to problems in design and function. Projects are designed to familiarize the student with processes in metalwork and the proper use of hand tools.
Outcomes:
Students will demonstrate an understanding of the fundamental characteristics of metal; the ability to cut, shape and manipulate metals; to express visual ideas in low and high relief; and to form judgments about design on other than flat surfaces

FNAR 124 Sculpture Foundations (3 Credit Hours)
An introduction to three dimensional concepts and materials, and associated techniques, in the process of articulating a personal artistic statement. Students will be guided in the fabrication of various 3-D constructions employing a wide range of building materials such as plaster, wood, clay, foam board, paper, and metals.
Knowledge Area: Artistic Knowledge and Experience
Outcomes:
Students will be able to translate two-dimensional sketches and drawings into expressive three dimensional forms; demonstrate basic sculpting techniques and creative strategies; provide critical evaluation of the creative process; and produce objects that are viewable in the round, structurally stable with masses and appendages proportionate to one another

FNAR 126 Metal Sculpture and Welding (3 Credit Hours)
This course introduces students to the manipulation of iron, steel and steel alloys. Students learn how to choose gauges of steel, cut with oxy-acetylene torch and metal cutting wheels and blades and attach steel by traditional welding techniques.
Outcomes:
Students will be able to operate a torch safely; cut and weld cleanly, file grind and polish, forge, hammer and shape steel sheeting; demonstrate the ability to convert two-dimensional ideas into cogent three-dimensional forms; demonstrate understanding and control over hazardous technical processes and demonstrate understanding of the evaluative criteria of metal work

FNAR 129 Printmaking-Monotypes (3 Credit Hours)
An introduction into the various methods of producing one of a kind highly individual prints from a vast array of printing surfaces. A variety of materials will be explored through assignments which encourage an understanding of technique, perceptual thinking and expression of form.
Outcomes:
Students will be able to demonstrate a functional knowledge of a wide variety of printing media, be able to utilize the basic tools particular to each medium and produce a consistent series of formal images through recognition of their expressive properties

FNAR 132 Visual Communication I (3 Credit Hours)
This course initiates a professional sequence whereby the student receives an introduction to composition, typography, and historical and contemporary concepts in visual communication. It introduces students to page layout software (Adobe InDesign), its relationship to other software packages, and the technical aspects of digital typography.
Outcomes:
Students gain an understanding of fundamental principles of visual communication emphasizing typography, the development technical skills in materials and techniques, and the ability to express formal and creative ideas

FNAR 152 Drawing China (3 Credit Hours)
This is an introductory drawing course. There are no pre-requisites nor prior experience need to succeed in this course. Beijing is our laboratory and the topic of all class drawings.
Interdisciplinary Option: Asian Studies
Course equivalencies: FNAR152/ASIA152
Outcomes:
Students will be able to draw trees, buildings, automobiles, vegetables, human beings in real life situations and in perspective

FNAR 160 The Crafts of China (3 Credit Hours)
This course examines the artisan crafts of China historically and technically. The course explores how and why the crafts appeared, their historical trajectory and demonstrates how the crafts improved technically. Ceramics, Bronze Castings and Wood works will serve as prototypes. Students will undertake independent researches.
Interdisciplinary Option: Asian Studies
Course equivalencies: FNAR160/ASIA160
Outcomes:
Students will identify how the crafts of woodwork, bronze casting and ceramics evolved and how they are currently practiced in China; Students will articulate an understanding of the function of craft in Chinese culture as well compare and contrast it to the function craft in their own culture

FNAR 170 Three-Dimensional Design (3 Credit Hours)
An examination of the basic elements and organizational systems of spatial expression through the application of design principles and theory.
Course equivalencies: FNAR212/FNAR170
Outcomes:
Students will be able work with a variety of materials to produce three-dimensional objects in space, and understand how to control the viewer's reaction to those objects through the manipulation of solidity, transparency, movement and time

FNAR 190 Color Theory (3 Credit Hours)
An examination of the nature of subtractive and additive color in its physiological, psychological, aesthetic, cultural, and symbolic dimensions through the application of past and current theory. Emphasis is placed on color mixing, color relationships, and understanding color terminology. Students develop proficiency using color in their work as well as gaining a fundamental understanding of the basic visual, aesthetic, and theoretical considerations of color use in art & design.

FNAR 195 Topics in Fine Arts Pre-Collegiate (3 Credit Hours)
This course consists of special topics in specific Fine Arts areas, and is offered for the Pre-Collegiate student.
Outcomes:
While the specific area of study varies, the expectation is that the student will become familiar with the methods, materials and aesthetic properties of that artistic approach, as well as the technical means to control the expression

FNAR 199 Art and Visual Culture (3 Credit Hours)
An introduction to the principles of art and their application to broader visual culture, this course explores the complex nature of art through an examination of its visual elements, techniques, functions, critical methodologies, and related social issues. The course takes advantage of Chicago's artistic resources.
Knowledge Area: Artistic Knowledge and Experience
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies
Course equivalencies: FNAR199/ICVM199/IFMS199/ACFNA1
Outcomes:
Students will demonstrate knowledge of the elements of visual language; means of visual expression in diverse cultures and eras; media and techniques of art; artistic terminology; and critical approaches to the study of visual culture and related social issues; Students will acquire the skills to interpret art and visual culture in oral and written form

FNAR 200 Global Art History: Prehistoric to 600 CE (3 Credit Hours)
A comprehensive survey that introduces students to the art, architecture, and material practices of global cultures from pre-history to the 7th Century CE. This course will study the internal and cross-cultural relationships between various art forms and the social, geo-political, spiritual, economic, and political contexts in which selected artifacts and monuments were made.
Knowledge Area: Artistic Knowledge and Experience
Interdisciplinary Option: Catholic Studies, European Studies, Italian Studies
Course equivalencies: FNAR200/FNAR200R
Outcomes:
Students will acquire skills to critically analyze formal expressions, materials, functions, meanings, and makers of art and material culture in relation to the historical contexts of ancient global societies

FNAR 200R Art History: Pre-History to Renaissance in Rome (3 Credit Hours)
A general survey which explores the development of art in Western culture from pre-history through the sources of the Renaissance in the fourteenth century with a focus on Rome and Italy.
Knowledge Area: Artistic Knowledge and Experience
Interdisciplinary Option: Rome Studies
Course equivalencies: FNAR200/FNAR200R
Outcomes:
Students will be able to demonstrate knowledge of the ideas, formal expressions, themes, techniques, and functions of art in relation to their cultural, social, and historical contexts

FNAR 201 Global Art History: 600-1800CE (3 Credit Hours)
A general survey which explores the development of global art from 540 through 1800.
Knowledge Area: Artistic Knowledge and Experience
Interdisciplinary Option: European Studies, Italian Studies
Course equivalencies: ACFNA 105 / FNAR 201
Outcomes:
Students will acquire skills to critically analyze formal expressions, materials, functions, meanings, and makers of art and material culture in relation to the historical contexts of early modern global societies

FNAR 202 Global Art History: Modern Art (3 Credit Hours)
A comprehensive survey of major artistic movements from a global perspective, engaging key concepts, issues, and modes of production in the modern world. It examines evolving ideas about the forms, content, techniques, and functions of art from the late 18th century to today considered within its socio-political and historical context.
Knowledge Area: Artistic Knowledge and Experience
Interdisciplinary Option: European Studies, Film & Digital Media Studies, Global Studies, International Film & Media Studies
Course equivalencies: FNAR202/ICVM202/IFMS202
Outcomes:
Students will demonstrate knowledge of the key ideas, formal expressions, themes, techniques, and functions of modern art in relation to social-historical contexts and modern culture from a global perspective

FNAR 203 Chicago: Face of a City (3 Credit Hours)
An examination of the history of the Chicago School of Architecture along with public sculpture and mural painting in Chicago, this course explores the changing trends of American public art, artists' response to a public audience, and issues of social responsibility. Participation in class field trips is required.
Interdisciplinary Option: Urban Studies
Outcomes:
Students will be able to identify the major social concerns of the city as well as the means by which visual arts can be integrated into its daily life; They will be able to recognize the major artists and recent artistic developments in their urban context

FNAR 207 Women, Art, and Society (3 Credit Hours)
An examination of women artists in Western culture and the societies in which they worked from the medieval period to the present. Women's artistic production, the styles and subject matter they embraced, and their relation to artistic trends of their eras are explored within the context of social attitudes about gender.
Interdisciplinary Option: Women & Gender Studies
Course equivalencies: X-FNAR207/WOST207/WSGS207
Outcomes:
Students will be able to demonstrate knowledge of women's contribution to the visual arts, the factors that impacted their participation in the art world, the underlying ways that gender constructions impact society, and feminist theory and methodologies related to art

FNAR 213 Drawing II (3 Credit Hours)
Pre-requisites: FNAR 113
An intermediate level drawing course designed to extend the understanding of the visual elements of drawing introduced in FNAR 113. This course includes an emphasis on color, and an exploration of a broader range of drawing media. Observational and conceptual problems are introduced.
Outcomes:
Students will be able to demonstrate an understanding of more advanced drawing principles through expanded practice and articulation of both formal and artistic ideas

FNAR 214 Painting II (3 Credit Hours)
Pre-requisites: FNAR 114
An intermediate level painting course designed to extend the understanding of the application of drawing, design, and color principles introduced in FNAR 114. This course will explore both oil and acrylic painting and a variety of substrates. Emphasis on the human figure and individualized conceptual problems will be introduced to build technical, perceptual, and personal expressive interpretation of form through the painting idiom.
Outcomes:
Students will be able to demonstrate an understanding of more advanced painting principles through expanded practice and articulation of both formal and artistic ideas

FNAR 215 Photography: Film and Darkroom (3 Credit Hours)
Pre-requisites: FNAR 115 Foundations of Photography or Instructor Permission; A fully adjustable 35mm film camera (single-lens reflex camera) is required
This course expands the students' knowledge of the photographic medium by introducing black and white film and darkroom printing. The students explore how the process and aesthetics of traditional black and white film make it unique from digital photography.
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies
Course equivalencies: X-FNAR215/ICVM215/IFMS215
Outcomes:
The course covers the steps of working in a darkroom environment, from the use of the enlargers to processing an exposed print; The students will apply the process and aesthetic qualities that are distinct to black and white film photography in their own projects

FNAR 218 Printmaking II (3 Credit Hours)
Pre-requisites: FNAR 118
This course explores specialized work in intaglio, monotypes, and mixed media. Emphasis is placed on the development and perfecting of technique.
Outcomes:
Students demonstrate understanding of mixed-media printing; knowledge of a wide range of printmaking media; apply drawing concepts to the materials of printmaking; produce a consistent body of work in a complex medium; recognize historical prototypes and articulate the differences to others; and form judgments needed to adapt image making in a highly technical area of expression

FNAR 219 Photography: Digital Imaging (3 Credit Hours)
Pre-requisites: FNAR 115 - Foundations of Photography; A fully adjustable digital camera (DSLR) and an external hard drive are required
The course focuses on advanced editing techniques in Photoshop in regards to color correction, color management, image compositing, and image manipulation. Students will also learn the technical and aesthetic concepts that are crucial components of the digital workflow to further develop their visual languages as photographic artists.
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies
Course equivalencies: X-FNAR219/IFMS220
Outcomes:
Students learn more complex editing in Photoshop, how to operate a professional inkjet printer and the importance of paper selection; The course examines possibilities with digital technology

FNAR 221 Ceramic Science (3 Credit Hours)
An examination of practical and experimental approaches to applied chemistry as it relates to the ceramic arts. Students will learn the theory behind clay and glaze formulation, test a wide array of materials interactions; and learn practical skills in developing vitreous bodies, glass forming substances, and metallic oxide pigments.
Outcomes:
Students will be able to demonstrate knowledge of inorganic compounds and their useful combinations in formulating ceramic bodies, glazes, and pigments; demonstrate knowledge of the effects of firing temperature and atmosphere on ceramic formulations; demonstrate knowledge of safe lab practices in the ceramics studio

FNAR 222 Sculpture/Ceramics: Form & Function (3 Credit Hours)
Pre-requisites: FNAR 124 Sculpture Foundations and FNAR 120 Ceramics: Handbuilding or FNAR 121 Ceramics: Wheelthrowing or instructor permission
Expands student knowledge of materials, techniques and concepts of three-dimensional artwork. Explores the interrelationship between art, craft and design. Emphasizes the function of three-dimensional artworks historically and in contemporary practice. Visual and written research, personal reflection and group discussion are components of the course.
Course equivalencies: FNAR320/FNAR222
Outcomes:
Students develop technical, aesthetic, and conceptual strategies in the creation of three-dimensional artwork, and increased awareness of cultural / historical perspectives of the medium

FNAR 223 Metalwork and Jewelry II (3 Credit Hours)
Pre-requisites: FNAR 123
Advanced work in metalwork and jewelry including problems in the techniques of lost wax casting and enameling
Outcomes:
Students will be able to demonstrate the ability to control materials with the addition of stones, found objects and other materials; design and cast works in the round; design a work and see it through from production to completion, and demonstrate knowledge of a wide range of metalwork techniques and their decorative and design potential

FNAR 224 Sculpture/Ceramics: Multiples (3 Credit Hours)
Pre-requisites: FNAR 124 Sculpture Foundations and FNAR 120 Ceramics: Handbuilding or FNAR 121 Ceramics: Wheelthrowing or instructor permission
Expands student knowledge of materials, techniques and concepts of three-dimensional artwork. Examines traditional and experimental methodologies of modelmaking, mold making, and casting . Explores the conceptual possibilities for reproduction and multiplication in sculpture and ceramics. Visual and written research, personal reflection and group discussion are components of the course.
Outcomes:
Students develop technical, aesthetic, and conceptual strategies in the creation of three-dimensional artwork, and increased awareness of cultural / historical perspectives of the medium

FNAR 232 Visual Communication II (3 Credit Hours)
Pre-requisites: FNAR 132 Visual Communication I
A continued study of the visual and conceptual principles introduced in FNAR 132 with an emphasis on advanced typographic principles and an introduction to the history of graphic design.
Outcomes:
Students gain knowledge of graphic design history and advance in their understanding of typography and imagery in the problem-solving processes in graphic design, including the further development of conceptual skills

FNAR 233 Digital Media Design (3 Credit Hours)
An exploration of image creation and design using Adobe Photoshop and Adobe Illustrator. This industry standard software is introduced as a vehicle for basic design concepts and as a tool for creative expression.
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies
Outcomes:
Students gain an understanding of software skills and design basics; They develop the ability and techniques to manipulate software in the production of compositions effectively combining image and typography

FNAR 234 Digital Media: Vector (3 Credit Hours)
An exploration of vector illustration using Adobe Illustrator. This industry standard software is introduced as a vehicle for basic design concepts and as a tool for creative expression.
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies
Outcomes:
Students gain an understanding of software skills and design basics; They develop the ability and techniques to manipulate software in the production of artistic compositions effectively combining image and typography

FNAR 235 Figure Studio (3 Credit Hours)
Pre-requisites: FNAR 113 or FNAR 114 or permission of the instructor
An advanced level studio course designed to introduce the human form with an emphasis on the application of drawing and wet media. Skeletal anatomy and concepts of visualization and proportion will be explored. Observational and conceptual problems will be introduced.. The course may be taken twice for credit.
Course equivalencies: X-FNAR235/THTR235
Outcomes:
Students will be able to demonstrate an understanding of the human form and anatomy through expanded practice and articulation of both formal and artistic ideas

FNAR 251 African-American Art (3 Credit Hours)
An introduction to the achievements of Americans of African descent beginning with African roots through the Harlem Renaissance to the contemporary work of such internationally recognized artists as Richard Hunt and Martin Puryear. Content may vary according to the particular focus of the instructor.
Interdisciplinary Option: African Studies and the African Diaspora, Black World Studies
Course equivalencies: X-FNAR251/BWS 251
Outcomes:
Students will be able to demonstrate knowledge of the richness of African-American visual arts as they developed within and outside the purview of traditional art venues

FNAR 260 The Art of Bookbinding (3 Credit Hours)
An introduction to the basic methods of bookbinding exploring traditional and one-of-a-kind artists books. Sewn, glued and free form structures will form the basis for the study of image and text within the framework of a personal approach to alternative surfaces.
Outcomes:
Students will be able to construct and manipulate a wide variety of media using the grammar and language of the book form; Through selected projects students will utilize compositional elements and descriptive to communicate ideas and concepts in book form

FNAR 303 Visual Arts Pedagogy (3 Credit Hours)
This course explores the ideas of teaching and learning through the visual arts and arts integration as they pertain to teaching artists. Coursework includes lecture and discussion, readings, model teaching, and teaching artist visits. Students will learn art pedagogy, classroom management techniques, and to develop their ideas into a curricular format.
Outcomes:
Students will recognize perspectives and theories around learning through the visual arts, identify appropriate teaching content and techniques, and design appropriate visual arts lessons, aligning content and standards

FNAR 304 Paris in the Nineteenth Century (3 Credit Hours)
An examination of Nineteenth Century art in Paris as shaped by contemporary changes in the physical, social and economic life of the city.
Interdisciplinary Option: European Studies
Outcomes:
Students will be able to demonstrate knowledge of nineteenth century art and artists in the context of the emergence of a modern, industrial urban complex

FNAR 305 American Art to 1945 (3 Credit Hours)
An examination of American painting, sculpture, and architecture from the colonial period to the period immediately following World War II. Emphasis is placed on the development of specifically American art forms as they evolved from their dependency upon European sources.
Outcomes:
Students will be able to recognize and demonstrate knowledge of major artists and artistic movements from the earliest days of the Republic when Europe served as a source of training and inspiration to the beginnings of modern times when global developments shifted the focus of artistic inspiration to New York

FNAR 306 Contemporary Art 1945-Present (3 Credit Hours)
An examination of recent developments in American and European art beginning with the physical shift of the center of artistic authority from Paris to New York during and immediately after World War II.
Outcomes:
Students will be able to recognize and demonstrate knowledge of major artists and artistic movements from the mid-twentieth century to the present day; They will also understand the major theoretical issues of the period

FNAR 311 Advanced Studio (3 Credit Hours)
Pre-requisites: FNAR 213 or FNAR 214 or equivalent
The most advanced level studio course in painting and drawing and is designed to aid the student in developing a body of creative work from conception to production to presentation. This course is conducted as an individual studio practicum between the instructor and student. The course may be taken twice for credit.
Outcomes:
Students will demonstrate a strong understanding of their own creative process through the development of a cohesive body of work

FNAR 312 Design III (3 Credit Hours)
Pre-requisites: FNAR 170
An application of two- and three-dimensional principles and methodologies to advanced studio projects in fine and applied areas.
Outcomes:
Students will be able to develop a series of multi-dimensional structures that utilize planar and spatial techniques to communicate a body of information and sensory experiences to others

FNAR 314 Painting III (3 Credit Hours)
Pre-requisites: FNAR 114 and 214
An advanced level painting course designed to extend the understanding of the application of drawing, design, and color principles introduced in FNAR 114 and expanded in FNAR 214. This course will explore a range of painting materials and substrates. Emphasis is placed on critique and the development of conceptual problems to build technical, perceptual, and personal expressive interpretation.
Outcomes:
Students will develop a body of work through expanded practice and articulation of both formal and artistic ideas

FNAR 316 Photography: Advanced Darkroom (3 Credit Hours)
Pre-requisites: FNAR 215-Photography: Film and Darkroom or FNAR 219-Photography:Digital Imaging or Instructor permission
This advanced course encourages each student to synthesize the technical and creative concepts they have learned through the previous classes to develop a cohesive body of work that will form a portfolio.
Outcomes:
Students will learn to use medium and large format cameras, scan film and integrate analog photography into a digital workflow to produce high-resolution prints, developing a cohesive body of work

FNAR 318 Printmaking III (3 Credit Hours)
Pre-requisites: FNAR 218
A continued exploration of Printmaking I, II which enables the student to enhance technical and conceptual skills in printmaking mediums.
Outcomes:
Through selected projects students will demonstrate knowledge of contemporary trends in printmaking including new digital media and photomechanical processes; They will acquire analysis skills and functional critical knowledge of the grammar and language of prints

FNAR 319 Lighting Techniques (3 Credit Hours)
Pre-requisites: FNAR 219-Photography: Digital Imaging or Instructor permission; A fully adjustable digital camera (DSLR) and an external hard drive are required
An advanced course that introduces students to techniques with both available and artificial lights. The students learn how the understanding and control of lighting becomes an essential component in the creation of photographic images.
Outcomes:
Students learn the equipment, materials, and techniques in shooting with available and artificial lights in the creation of photographic works that will creatively apply the technical concepts covered in the course

FNAR 322 Sculpture/Ceramics: Advanced Studio (3 Credit Hours)
Pre-requisites: FNAR 222 and FNAR 224 or permission of instructor
Students focus on developing independent, compelling art, through a more focused approach in comparison to Intermediate courses. Visual and written research and field trips are components, as is personal reflection and group discussion. Technical experiments and key concepts are geared specifically to the students interests and artistic goals.
Course equivalencies: FNAR321/FNAR322
Outcomes:
Select and apply appropriate materials and methods to resolve complex visual and conceptual problems; and meaningfully discuss key issues; Create a portfolio of work build on independent investigation

FNAR 332 Visual Communication III (3 Credit Hours)
Pre-requisites: FNAR 232 Visual Communication II
This course includes the continued study of contemporary graphic design practice and further work in design with emphasis on analytical and creative approaches to problem solving across many types of media. Students are exposed to current best practices for effective self-promotion.
Outcomes:
Students gain an understanding of how contemporary design is used to communicate; They begin to develop a sophisticated body of work, advancing in their ability to critically evaluate visual communication

FNAR 333 Explorations in Typography (3 Credit Hours)
Pre-requisites: FNAR 232
Students explore both practical and experimental solutions utilizing typography as a means of communication and language visualization; investigating multifaceted modes of expression with emphasis placed on the study and creation of meaning relative to audience, culture, and history.
Outcomes:
Students develop a heightened awareness of the nuanced role that typography plays as a delivery mechanism for narrative structures, information, language visualization, and alternate forms of expression

FNAR 334 Motion Design (3 Credit Hours)
An exploration of time-based motion graphics. Industry standard software is utilized as a vehicle for learning graphic animation concepts and as a tool for creative expression.
Outcomes:
Students gain an understanding of software skills and design basics; They develop the ability and techniques to manipulate software in the production of motion graphics effectively combining image and typography

FNAR 338 Medieval Art (3 Credit Hours)
An examination of the art and architecture of the Christian world from 250 to 1453 CE, including the Early Christian, Byzantine, Carolingian, Romanesque, and Gothic periods as well as the influence of Islamic culture.
Interdisciplinary Option: Catholic Studies, Medieval Studies
Course equivalencies: X-FNAR338/MSTU380/ROST338
Outcomes:
Students will demonstrate knowledge of forms, ideas, themes, techniques, and functions of medieval art and their relation to relevant cultural, social, and historical contexts; They will acquire the skills to critically analyze these relationships and to understand the scholarship and issues related to medieval studies

FNAR 341 Renaissance Art - Painting (3 Credit Hours)
An examination of pictorial arts of the Renaissance in Northern and Southern Europe within the context of the material culture and society of the fifteenth and sixteenth centuries. Content may vary according to the particular focus of the instructor.
Interdisciplinary Option: Catholic Studies
Course equivalencies: X-FNAR341/ROST341
Outcomes:
Students will demonstrate knowledge of techniques, formats, themes, forms, functions, and patronage of European painting and its relation to society and culture and will acquire the skills to critically analyze these relationships

FNAR 342 Art in Rome (3 Credit Hours)
A survey of Rome's artistic heritage, including architecture, mosaic, painting, and sculpture from antiquity to the present day studied within the context of Rome's changing roles in Western European history. Classes are taught on site.
Knowledge Area: Artistic Knowledge and Experience
Interdisciplinary Option: Catholic Studies, European Studies, Italian Studies
Course equivalencies: X-FNAR342/ROST342
Outcomes:
Students will demonstrate knowledge of Rome's cultural role in history and of its artistic traditions and how they relate to their historical context

FNAR 343 Baroque Art (3 Credit Hours)
An examination of art and architecture in Europe during the seventeenth and eighteenth centuries with special concentration on the preeminence of Rome. (Rome Center students are expected to visit and study certain works of art in their original location).
Interdisciplinary Option: Catholic Studies, European Studies, Italian Studies
Course equivalencies: X-FNAR343/ROST343
Outcomes:
Students will demonstrate knowledge of forms, ideas, themes, techniques, and functions of seventeenth and eighteenth-century Western European art and their relation to relevant cultural, social and historical contexts; They acquire skills to critically analyze these relationships and to understand the scholarship and issues related to Baroque studies

FNAR 344 Early Italian Renaissance Art (3 Credit Hours)
An examination of Italian art and architecture from the late thirteenth to the late fifteenth centuries with special emphasis on Florence, Siena, and centers in northern Italy such as Padua and Mantua. (Rome Center students visit and study certain works of art in their original location).
Interdisciplinary Option: Catholic Studies, European Studies, Italian Studies
Course equivalencies: X-FNAR344/ROST344
Outcomes:
Students will demonstrate knowledge of forms, ideas, themes, techniques, and functions of early Italian Renaissance art and their relation to relevant cultural, social, and historical contexts; They acquire skills to critically analyze these relationships and to understand the scholarship and issues related to Italian Renaissance art

FNAR 345 Italian High Renaissance and Mannerist Art (3 Credit Hours)
An examination of Italian painting, sculpture, and architecture from the late fifteenth through the sixteenth centuries, focusing on the art of Florence, Rome, and Venice and including consideration of such artists as Leonardo da Vinci, Michelangelo, Raphael, and Titian. (Rome Center students visit and study works of art in their original location).
Interdisciplinary Option: Catholic Studies, European Studies, Italian Studies
Course equivalencies: X-FNAR345/ROST345
Outcomes:
Students will demonstrate knowledge of forms, ideas, themes, techniques, and functions of Italian High Renaissance and Mannerist art and their relation to relevant cultural, social, and historical contexts; Students acquire skills to critically analyze these relationships and to understand the scholarship and issues related to Italian High Renaissance and Mannerist art

FNAR 349 Art and the Catholic Tradition (3 Credit Hours)
An examination of the integral role that the visual arts and architecture have played in the Catholic faith since its early centuries.
Interdisciplinary Option: Catholic Studies, European Studies
Outcomes:
Students will understand the role of Catholic art and architecture within its theological, social, and historical contexts through an examination of both visual and related textual sources

FNAR 351 Latin American Art I: Ancient to 19th Century (3 Credit Hours)
This course examines creative production in Latin America from its Ancient empires to colonization, and independence in the 19th century. Exploring archaic periods to imperial integration, we consider the legacy of indigenous artistic production and mestizaje in the visual culture in the region from the 16th through 19th century.
Interdisciplinary Option: Latin American Studies
Course equivalencies: X-ANTH344/FNAR351/INTS385/LASP
Outcomes:
Students will demonstrate the ability to distinguish sculptural, pictorial, and architectural styles of diverse cultures within the geographical and temporal boundaries defined, and historical processes that shaped its production

FNAR 352 Islam and Visual Culture (3 Credit Hours)
This course examines the visual forms of Islamic culture from the 7th century to the present. Students will be introduced to the major monuments, artistic techniques, and regional styles, investigating visual works within their historical context and in relation to intercultural engagement.
Interdisciplinary Option: Arabic Language and Culture, Global Studies, Islamic World Studies, Arabic Language and Culture, Global Studies, Islamic World Studies
Course equivalencies: X-FNAR352/LASP358
Outcomes:
Through study of major monuments, artistic techniques, regional style, and intercultural engagement, students will recognize Islam and visual culture as a global phenomenon entailing much more than religious artifacts

FNAR 353 Latin American Art II: Modern to Contemporary (3 Credit Hours)
This course provides an expanded understanding of modernity and its artistic partner, modernism, as well as the political, social and cultural landscapes that informed and formed the art and architecture of Latin America and its diasporic intersections, from the early twentieth century to the present day.
Course equivalencies: X-FNAR353/LASP359
Outcomes:
Students will demonstrate the ability to distinguish pictorial, sculptural, performative and architectural styles of diverse artists and identities associated with Latin America, and the historical processes that shaped its production

FNAR 355 Art of Africa (3 Credit Hours)
An examination of the traditional arts of West Africa and the Pacific and their role in the control and organization of tribal societies before the introduction of European influences.
Interdisciplinary Option: African Studies and the African Diaspora, Black World Studies, Global Studies
Course equivalencies: ANTH345/BWS/INTS/FNAR355
Outcomes:
Students will demonstrate understanding of the unique role of the visual arts and music in the transmission of traditional mores; They will demonstrate understanding of the social and artistic distinctions found in a comparison of highly centralized societies with loosely defined tribal organization and how this is reflected in different cultural standards

FNAR 356 India, Women and Visual Culture (3 Credit Hours)
This course examines images of women and the work of women artists in India, engaging with broader topics in feminist and postcolonial theory, including indigenous responses to colonialism, contemporary critiques of the female form in Indian art, and the agency of women artists in the twentieth and twenty-first centuries.
Course equivalencies: X-FNAR356/ASIA356/INTS374
Outcomes:
Student will become familiar with the work of Indian women artists and how images of Indian women have been understood and interpreted throughout the 20th and 21st centuries

FNAR 357 South Asian Visual Culture (3 Credit Hours)
An examination of the cultural background and major art forms of South Asia from the Indus River Valley settlements to the Present. As well as sculpture, architecture and painting, popular visual art forms will be examined.
Interdisciplinary Option: Asian Studies, Global Studies
Course equivalencies: X-FNAR357/ASIA357/INTS396
Outcomes:
Students will demonstrate knowledge of the religious, cultural and political forces shaping South Asian art; They will be able to distinguish the regional styles and identify the major monuments of South Asia; Students will understand the role of the visual arts in South Asian society

FNAR 358 Chinese Art and Culture (3 Credit Hours)
An examination of the cultural background and major visual art forms of China from prehistoric to early modern times.
Interdisciplinary Option: Asian Studies, Global Studies
Course equivalencies: X-FNAR358/ASIA358/INTS321
Outcomes:
Students will demonstrate knowledge of the philosophical and religious sources of the major traditional art forms of China; They will recognize the degree to which Confucian morality controlled the social and intellectual principles by which society was governed and the arts evaluated until the advent of Communism

FNAR 359 Japanese Art and Culture (3 Credit Hours)
An examination of the cultural background and major art forms of Japan from earliest times until the twentieth century.
Interdisciplinary Option: Asian Studies, Global Studies, Japanese Language and Culture
Course equivalencies: X-FNAR359/ASIA359/INTS329
Outcomes:
Students will demonstrate knowledge of the philosophical and religious sources of the major art forms of Japan; They will recognize the dual formative influences of indigenous traditions and those of foreign origin in what becomes a uniquely Japanese adaptation and resolution of ideas expressed effectively either verbally or visually

FNAR 360 Picturing Women in Renaissance and Baroque Art (3 Credit Hours)
An examination of issues related to women, art, and society in early modern Europe (15th-17th centuries) through a study of women as subject matter, viewers, producers, and patrons of art. A multi-disciplinary approach is employed to explore how gender as a social, political, and psychological category is reflected in and reinforced by visual culture.
Interdisciplinary Option: European Studies, Women & Gender Studies
Course equivalencies: X-FNAR360/WOST360/WSGS360
Outcomes:
Students will demonstrate knowledge of the ways gender is constructed in society, the origins and effects of gender attitudes, the interrelation between gender and visual culture, and the ways women have claimed agency; Students will critically analyze visual culture and gender attitudes and demonstrate knowledge of feminist theory and scholarly methods

FNAR 364 History of Graphic Design (3 Credit Hours)
A survey of the evolution of graphic communication from prehistory through postmodern design and the digital revolution.
Outcomes:
Students will demonstrate knowledge of the ideas, formal expressions, themes, techniques, and functions of graphic communication in relation to its social-historical context

FNAR 365 History of Photography (3 Credit Hours)
A chronological and thematic survey of the history of photography, especially in Europe and America. Fine art and utilitarian applications of the medium are considered by examining photographers who represent the origin and development of major pictorial forms; the interaction between technology and imagery; and the relationships between photography and historical, social and cultural events.
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies
Course equivalencies: X-FNAR365/ICVM365/IFMS365
Outcomes:
Students will be able to demonstrate understanding of the most important pictorial forms, themes, practitioners, processes and context of photography as a fine and applied art from the beginning of the nineteenth century to the present

FNAR 367 History of Architecture (3 Credit Hours)
An examination of the history of the built environment from the earliest known forms to contemporary examples, in terms of architectural theory, structural realities and socio-cultural usages.
Outcomes:
Students will be able to demonstrate an understanding of the many ways architecture serves the human race, and be able to constructively analyze the specific functions buildings serve within their particular cultural temporal milieu

FNAR 367R Architecture in Rome (3 Credit Hours)
This course explores architectural drawing as a way to incorporate hands-on experience in students` study of architecture in Rome. Students will develop drawing skills by conceptualizing architectural ideas in relationship to Rome's buildings and sites.
Interdisciplinary Option: Rome Studies
Outcomes:
Upon successful completion of this course, students will be able to develop basic architectural drawing skills, to understand graphic standards and drawing conventions of the architectural design as well as to analyze and appreciate Rome's architectural buildings and spaces

FNAR 368 Fine Arts Internship (1-4 Credit Hours)
A comprehensive introduction to gallery and/or studio operations in the Fine Arts Division. Internships will provide opportunities in various aspects of administration, scholarship, teaching, and sustaining standards in studio and/or gallery performance. Gallery internships available at Loyola's Fine Arts Galleries. External internships upon approval. Teaching/studio assistantship based on class availability. Departmental consent required for enrollment.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students will develop practical experience for the professional world and be able to demonstrate knowledge of gallery/museum administration, scholarship, exhibition production, and/or class preparation and teaching

FNAR 380 Internship I (1-4 Credit Hours)
Pre-requisites: FNAR 332 Visual Communication III; Fine Arts Majors only
Visual Communication majors complete an internship providing an opportunity to use their visual and technical skills in a professional setting.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students work with others to develop and complete projects on a predetermined schedule; they get the opportunity to learn from professionals in the field; they find out how well they are doing as judged by the world outside the classroom

FNAR 381 Internship II (1-4 Credit Hours)
Pre-requisites: Permission of chairperson
Visual Communication majors complete an internship providing an opportunity to use their visual and technical skills in a professional setting.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students work with others to develop and complete projects on a predetermined schedule; they get the opportunity to learn from professionals in the field; they find out how well they are doing as judged by the world outside the classroom

FNAR 382 Visual Communication IV (3 Credit Hours)
Pre-requisites: FNAR 332 Visual Communication III and Senior standing or instructor permission
This course perfects the practice and tools of visual communication through a series of advanced projects with the aim of creating a robust and well-balanced body of work.
Outcomes:
Students are prepared to use their skills in research, analysis, and the design processes that lead to creative conceptualization to create appropriate design decisions and refined design solutions

FNAR 383 Interactive Design (3 Credit Hours)
Pre-requisites: FNAR 233 Digital Media Design
This course introduces aspects of interaction and web design including theory, common best practices, usability, information architecture, graphic design in the interactive context, prototyping, and the technical parameters of an interactive environment. Industry standard software will be used. Strong emphasis will be placed on design principles, information hierarchy, and typography.
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies
Course equivalencies: X-FNAR383/ICVM383/IFMS383
Outcomes:
Experience in the research, planning, design, and prototyping of interactive communication

FNAR 388 Critical Approaches to Visual Art (3 Credit Hours)
Pre-requisites: FNAR 202: Modern Art, C- or higher
This course examines key theoretical issues in contemporary art. Students will apply these concepts to develop strategies for creative output. The course will feature readings, discussions, written assignments, and projects to explore interdisciplinary approaches that emphasize idea as the primary means of visual production.
Outcomes:
Gain an understanding of key theoretical concepts in contemporary art; Apply theoretical concepts for the production of artworks; Develop a contemporary art practice in preparation for FNAR 398 Capstone

FNAR 390 Art History: Methods and Research (3 Credit Hours)
Pre-requisites: Restricted to Art History Majors and Minors
An examination of theoretical, critical and methodological issues as related to Modern and Post-Modern art.
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies
Course equivalencies: X-FNAR390/IFMS390
Outcomes:
Students will learn to recognize and apply a range of appropriate theoretical approaches and scholarly methods

FNAR 391 Senior Thesis in Art History (3 Credit Hours)
Students develop an in-depth scholarly research paper while engaging new theoretical frames or topics to expand upon the writing and research of a paper of their choice from a previous art history class. In addition, they will share their research in a final, formal oral presentation.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students produce a polished in-depth research paper; They demonstrate the ability to synthesize and apply ideas from scholarly sources; formulate, develop, and articulate in verbal and written form relevant issues

FNAR 392 Senior Thesis II: FNAR Art History Capstone (3 Credit Hours)
Pre-requisites: FNAR 391 or instructor permission; Art History majors only; Senior standing
The second half of the capstone experience for art history majors. In Senior Thesis II, students write an in-depth scholarly research paper.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students produce a polished in-depth research paper; They demonstrate the ability to synthesize and apply ideas from scholarly sources; formulate, develop, and defend a thesis; and critically analyze and articulate in verbal and written form the issues and ideas relevant to their topic

FNAR 393 Topics in Studio Art (3 Credit Hours)
Special topics in specific areas of study in studio art.
Outcomes:
Students will master topics in areas of studio art not offered elsewhere in the curriculum

FNAR 394 Topics in Art History (1-4 Credit Hours)
Special topics in specific areas of study in art history.
Outcomes:
Students will master topics in areas of art history not offered elsewhere in the curriculum

FNAR 398 Fine Arts Capstone (3 Credit Hours)
Pre-requisites: Completion of the most advanced course in the student's FNAR concentration
The course serves as the culmination of each student's experience as a Fine Art major. Students will demonstrate the ability to produce work that exemplified the application and synthesis of the knowledge gained from the courses and experiences.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students will demonstrate the ability to produce art work suitable for exhibit

FNAR 399 Independent Study (1-4 Credit Hours)
Pre-requisites: written permission of instructor and chairperson
Advanced student are afforded the opportunity to work on an in-depth project in the medium of his/her choice in a tutorial setting. The course is developed in consultation with a faculty advisor and is stated formally in a written contract. of definition, goals, procedures and outcomes.
Outcomes:
Students will be able to demonstrate the ability to produce a significant body of original artwork on a focused theme

Music (MUSC)

MUSC 101 Music: Art of Listening (3 Credit Hours)
Focus is on the acquisition and enhancement of listening skills through direct experience of musical works along with an examination of cross-cultural similarities and differences among musical styles. Concert attendance is required.
Knowledge Area: Artistic Knowledge and Experience
Outcomes:
A cultivation of musical perception through a process of repeated and guided listening; strengthening of listening skills while developing and expanding styles perspectives

MUSC 102 Class Piano for Beginners (3 Credit Hours)
For the student who has never had keyboard instruction and is interested in learning the art of performance on the piano. Fundamentals of music theory, note reading and personal enjoyment are emphasized. Strongly recommended for those preparing to teach music in elementary school.
Knowledge Area: Artistic Knowledge and Experience
Outcomes:
A basic keyboard ability with an emphasis on reading music symbols accurately while also enjoying the making and doing of music

MUSC 103 Class Guitar for Beginners (3 Credit Hours)
For the student who has never had guitar instruction and is interested in learning the art of performance on the guitar. Fundamentals of music theory, note reading and personal enjoyment are emphasized. Strongly recommended for those preparing to teach music in elementary school.
Knowledge Area: Artistic Knowledge and Experience
Outcomes:
A basic guitar ability with an emphasis on reading music symbols accurately while also enjoying the making and doing of music

MUSC 104 Gospel Choir (1 Credit Hour)
Admission through audition. A mixed ensemble of singers performing primarily Gospel music (Spirituals, Blues, etc). Admission through audition. The choir participates in at least one public performance each semester. May be repeated to a limit of eight hours.
Interdisciplinary Option: African Studies and the African Diaspora, Black World Studies
This course satisfies the Engaged Learning requirement.
Course equivalencies: X-MUSC104/BWS 104
Outcomes:
Students gain proper vocal/choral technique and knowledge of the musical literature offered each semester through rehearsal and performance; They reflect on their personal and collective artistic growth through the process

MUSC 105 Symphony Orchestra (1 Credit Hour)
Admission through audition. The study and performance of standard orchestral literature. Students must provide their own instruments and should have previous ensemble experience. Admission through audition. The ensemble gives at least two concerts each semester.
Knowledge Area: Artistic Knowledge and Experience
Outcomes:
Students gain proper instrumental technique and knowledge of the musical literature offered each semester through rehearsal and performance; Students reflect on their personal and collective artistic growth throughout the process

MUSC 106 Guitar Ensemble (1 Credit Hour)
Admission through audition. For advanced guitarists. The study, rehearsal and performance of transcriptions and original works for guitar ensemble. Repertoire from the Renaissance through the present will be performed. Students must provide their own instruments. Gives at least one concert each semester.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students gain proper guitar technique and knowledge of the musical literature offered each semester through rehearsal and performance; Students reflect on their personal and collective artistic growth throughout the process

MUSC 107 Chorus (1 Credit Hour)
University Chorus is a topics course in ensemble singing devoted to the study, rehearsal and performance of standard choral literature of all periods. Admission through audition. Gives at least two performances each semester. Some sections require audition for admission.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students improve their vocal/choral technique and knowledge of the musical literature through rehearsal and performance; They reflect on their personal and collective artistic growth throughout the performance process

MUSC 108 Liturgical Choir: Cantorum (1 Credit Hour)
Admission through audition. An SATB ensemble providing music for the Sunday liturgies in Madonna della Strada Chapel and other university liturgical and choral functions and concerts. Repertoire includes both traditional and contemporary sacred music. Admission through audition.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students gain proper vocal/choral technique and knowledge of the musical literature offered each semester through rehearsal and performance; Students reflect on their personal and collective artistic throughout the performance process

MUSC 109 Jazz Ensemble (1 Credit Hour)
Admission through audition. Rehearsal and performance of standard Jazz and Big Band music. Members must have previous Jazz Band experience. Performs publicly at least twice each semester of the academic year. Admission through audition.
Interdisciplinary Option: African Studies and the African Diaspora, Black World Studies
This course satisfies the Engaged Learning requirement.
Course equivalencies: X-MUSC109/BWS 109
Outcomes:
Students improve instrumental technique and gain knowledge of the musical literature offered through rehearsal and performance; Students reflect on their personal and collective artistic growth throughout the performance process

MUSC 110 Wind Ensemble (1 Credit Hour)
Admission through audition. The study and performance of standard wind ensemble literature. Students must provide their own instruments and should have previous ensemble experience. The ensemble gives at least two concerts each semester.
Knowledge Area: Artistic Knowledge and Experience
Outcomes:
Students improve instrumental technique and gain knowledge of the musical literature offered through rehearsal and performance; Students reflect on their personal and collective artistic growth throughout the performance process

MUSC 111 Percussion Ensemble (1 Credit Hour)
The study and performance of standard percussion ensemble literature. The ensemble gives at least two concerts each semester. Enrollment Requirements: Audition and permission of the instructor.
Outcomes:
Students improve instrumental technique and gain knowledge of the musical literature offered through rehearsal and performance; Students reflect on their personal and collective artistic growth throughout the performance process

MUSC 122 Introduction to Digital Music (3 Credit Hours)
Computers and digital tools have been seeping into the world of music, and this course aims to explore this newly formed territory. This course is intended for students who wish to learn more about electronic music, signal processing, and algorithmic music composition. Understanding of the physics of musical sound and digital audio, facility with hands-on applications of algorithmic music composition and musicology, and ability to design and render digital instruments.
Knowledge Area: Quantitative Knowledge
Course equivalencies: X-COMP 122/MUSC 122

MUSC 142 Class Voice for Beginners (3 Credit Hours)
For the student who has never had voice instruction and is interested in learning the art of vocal performance. Fundamentals of music theory, note reading and personal enjoyment are emphasized. Strongly recommended for those preparing to teach in elementary school.
Knowledge Area: Artistic Knowledge and Experience
Course equivalencies: THTR242/THTR142/MUSC142
Outcomes:
A basic vocal ability with an emphasis on reading music symbols accurately while also enjoying the making and doing of music

MUSC 144 Music Theory I (3 Credit Hours)
Co-requisites: MUSC 145
An introduction to the fundamentals of melodic construction in all the diatonic modes (major/minor and modal) and culminates in control of two-part counterpoint. Melodies will be examined and broken down into their essential components. The class strengthens the basic musicianship skills of the student through performance of the students' written compositions illustrating the class concepts. Must be taken concurrently with MUSC 145.
Outcomes:
Through the study of melody students will develop an understanding of musical notation, the organization and color of all diatonic scales (major/minor and modal), interaction between intervals, transposition and its implications, rhythmic and beat structure, and begin developing critical analysis skills

MUSC 145 Musicianship Lab I (1 Credit Hour)
Co-requisites: MUSC 144
This course reinforces concepts presented in Music Theory I and introduces students to the basic concepts of sight singing, ear training and dictation. The voice is the class's primary focus. This course must be taken concurrently with MUSC 144.
Outcomes:
Recognize Music Theory I concepts by ear, dictate accurately those concepts, and recreate them on the voice and piano; Apply these concepts to student's primary instrument

MUSC 153 The Music of China (3 Credit Hours)
This course surveys the broad range of Chinese musical traditions as well as the practice of fieldwork, music theory and methodological issues encountered in Chinese music studies.
Outcomes:
Students will identify Chinese musical traditions throughout history and their connections to the Chinese language, history, cultural and religious studies and politics

MUSC 154 Intro to Opera (3 Credit Hours)
Survey of opera from 1600 to the present and consideration of opera as an art form which combines music and drama. Analysis of libretto structure and study of the variety of operatic styles are included.
Course equivalencies: X-MUSC154/THTR154
Outcomes:
Fundamental acquaintance with a wide selection of operatic literature and the principle eras of the European and American traditions

MUSC 154R Introduction to Opera in Rome (3 Credit Hours)
This course offers the student an overview of the development of opera in Europe with a particular emphasis on some of the most representative Italian operas and authors from the 17th to the 20th century. As the course considers opera as a cultural phenomenon, the historical, intellectual, political, social, religious and economic conditions that influenced the development of this art will be also examined.
Knowledge Area: Artistic Knowledge and Experience
Interdisciplinary Option: Italian Studies
Course equivalencies: X-MUSC154/THTR154
Outcomes:
Students will acquire the basic understanding the cultural phenomenon of opera and the style differences of different historical periods, as well as musical terms

MUSC 155 Intro to Symphonic Music (3 Credit Hours)
Survey of the principal forms of orchestral music from the Baroque to the present. Course will include: the symphony, concerto suite, overture, and symphonic poems. (Also offered at Rome Center.)
Outcomes:
Functional knowledge of the language and grammar of music through selected analysis and experience of specific symphonic literature

MUSC 156 Intro to Jazz (3 Credit Hours)
Survey of the development of jazz emphasizing the major trends and artists of this unique American style. Listening skills will be developed.
Interdisciplinary Option: African Studies and the African Diaspora, Black World Studies
Course equivalencies: X-MUSC156/BWS 156
Outcomes:
Functional knowledge of the language and grammar of this uniquely American music through selected analysis and experience of specific jazz literature

MUSC 157 America Popular Song (3 Credit Hours)
Survey of American popular song from the early 19th century minstrel shows to the present. The evolution of this music and its relationship to society will be studied. Listening skills will be developed.
Outcomes:
Functional knowledge of the language and grammar of popular music through selected analysis and experience of specific repertoire

MUSC 161 Music in United States (3 Credit Hours)
An historical survey and guided listening experience of the evolution of music in the United States from the earliest inhabitants and settlers to the dawn of the 21st century. Special emphasis will be given to a selected era and/or music type.
Outcomes:
An understanding of the societal influences on the music of the United States and an appreciation of its music repertoire

MUSC 185 Jazz Improvisation (3 Credit Hours)
Previous basic understanding of theory and analysis is essential. Fundamentals will be expanded and enhanced through writing, listening and performing. An emphasis will be placed on learning the jazz language by ear. Students will also learn to read lead sheets and chord symbols, developing the ability to apply the jazz language to the repertoire.
Outcomes:
Appreciation for and ability to create and perform jazz improvisation

MUSC 186 Jazz Arranging (3 Credit Hours)
Fundamentals of composition and arranging will be expanded and enhanced through writing and listening. Students will learn information about the instrumentation of the big band, instrument ranges, and how to use software to make arrangements. Previous basic understanding of theory and analysis is essential.

MUSC 201 Music Technology I (3 Credit Hours)
This introductory course in Music Technology is designed to introduce students to MIDI orchestration, sequencing and digital audio editing. The course is designed to present software and hardware as tools for the creation of sound design as musical composition.
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies
Outcomes:
Demonstrate proficiency in using software as a musical instrument to orchestrate, perform and record

MUSC 202 Class Piano II (3 Credit Hours)
Pre-requisites: MUSC 102 or permission of the instructor
This applied group class is designed for students who have successfully completed MUSC 102, or have previously attained a similar level of proficiency. Emphasis is on a variety of styles and levels of keyboard repertoire to promote a balance of new information with musical material that reinforce concepts.
Outcomes:
Students will demonstrate basic keyboard skills, piano repertoire and musical styles, to express themselves musically at the piano

MUSC 203 Class Guitar II (3 Credit Hours)
Pre-requisites: MUSC 103 or permission of the department
This course is a continuation of (MUSC 103) or a previously attained equivalent level of study and musical skill development. Throughout the course students refine technical skills and music theory as applied to the guitar. Students perform in both solo and ensemble settings.
Outcomes:
Students will demonstrate an ongoing development of coordination skills, fingerboard knowledge, sight-reading skills, performance practices and intermediate repertoire knowledge

MUSC 207 Chamber Choir (1 Credit Hour)
Audition Required. An ensemble of advanced singers performing works written especially for the smaller choir. Performance of music from all historical periods suitable for this type of choir. The choir participates in at least two public performances each semester. Admission through audition. May be repeated for up to eight credit hours.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students gain knowledge of the musical literature offered through rehearsal and performance, while integrating proper vocal/choral technique; Students reflect on their personal and collective artistic growth throughout the performance process

MUSC 244 Music Theory II (3 Credit Hours)
Pre-requisites: MUSC 144; Corequisite: MUSC 245
An introduction to the fundamentals of harmonic progressions controlled through either expansion of a tonic-dominant phrase structure, elaborations of two-part counterpoint structures, or control of the three basic root motion models. Music will be analyzed using chord matrixes and reductions into two-part frameworks. The class strengthens the basic musicianship skills through performance students' compositions illustrating the class concepts. Must be taken concurrently with MUSC 245.
Outcomes:
Through the study of harmony students will develop an understanding of all chord types, root motion, cadence types, how tonal music expands upon the basic tonic-dominant phrase, voice leading techniques, and begins exploring the techniques of chromaticism and modulation; The class will also further develop the student's critical analysis skills

MUSC 245 Musicianship Lab II (1 Credit Hour)
Co-requisites: MUSC 244
Students build on basic voice and board skills acquired in Musicianship Lab I and reinforce concepts introduced in Music Theory II by recreating the concepts on the keyboard and voice. This course must be taken concurrently with MUSC 244.
Outcomes:
Recognize Music Theory II concepts by ear, dictate accurately those concepts, and recreate them on the voice and piano; Apply these concepts to student's primary instrument

MUSC 246 Composition I (3 Credit Hours)
Course deals with the study of music theory and simple and binary forms. In addition to that, students compose an original piece of music for two instruments that receives public performance.
This course satisfies the Engaged Learning requirement.
Outcomes:
Through the study of relevant music scores, students learn the principles of composition and instrumentation to then apply them to their own compositions

MUSC 247 Composition II (3 Credit Hours)
Pre-requisites: MUSC 246
This course deals with the study of melody, counterpoint, harmony, and shorter forms. In addition to the study of theory and form, students compose an original piece of music for two instruments that is presented professionally at a public performance.
Outcomes:
Through the study of related scores and with the supervision of instructor, students compose an original work for violin and piano or violoncello and piano

MUSC 248 Jazz Composition and Arranging (3 Credit Hours)
Pre-requisites: MUSC 144
A study of the harmonic, melodic, and rhythmic theories that lead to the ability to compose and arrange in the jazz idiom. Emphasis will be placed on common harmonic progressions, scale / chord relationships, melody, song forms, and extended harmony and reharmonization. Students will also learn the basic principles of arranging and music notation, culminating in a final composition and arranging project for jazz quintet.
Outcomes:
The ability to compose and arrange music for small jazz combos of up to two horns plus rhythm section

MUSC 252 Music History I (3 Credit Hours)
Pre-requisites: MUSC 144 and MUSC 145 or taken concurrently
European music from the Medieval to the early Baroque where vocal music dominated, and the study of counterpoint led to the birth of harmony.
Interdisciplinary Option: Catholic Studies, European Studies
Outcomes:
Through listening, performance and study students demonstrate an understanding of how melodic composition gave rise to harmony and formed the foundation of Western music

MUSC 255 Music in Catholic Worship (3 Credit Hours)
Pre-requisites: MUSC 252
This course will trace the development of music in liturgy from Gregorian chant through Vatican II and to the present, examining repertoire and forms, musical and theological trends, and how music has been employed in the expression of the living prayer of the Roman Catholic Church through the centuries.
Interdisciplinary Option: Catholic Studies
Course equivalencies: X-MUSC255/CATH255
Outcomes:
Students can identify the major shifts and movements of music in the Catholic Church from the Middle Ages to the present, including the shifts represented by the Second Vatican Council

MUSC 256 Jazz Music History (3 Credit Hours)
This course is a historical and listening survey exploring the development of jazz music from its origins at the turn of the 20th century to the music of the present era. Many styles of jazz and a multitude of important musicians will be discussed, as well as important cultural and sociological aspects of the art form.
Interdisciplinary Option: Italian American Studies
Outcomes:
Through listening, lecture, required reading, and concert attendance, the student will gain an understanding of the basic musical elements of jazz, it's musical and sociological contexts, and how these elements have developed and changed over the music's varied history

MUSC 260 Conducting (3 Credit Hours)
The student will acquire a personal conducting style through study and practical application and will develop the basic skills that make one an effective, well-rounded conductor.
Outcomes:
Students will demonstrate rudimentary skills of conducting: including conducting patterns, cues, score reading and analysis

MUSC 261 Lyric Diction I: Italian and German (1 Credit Hour)
This course will acquaint students with the rules of diction in the two major languages of classical singing, German and Italian. Students will gain both a theoretical understanding of the rules of diction and the practical ability to make the relevant sounds and sing in these languages. Concurrent enrollment in 280K Applied Music: Voice is required.
Outcomes:
To successfully transcribe Italian and German into IPA; To learn and produce all of the relevant sounds of German and Italian; To sing in German and Italian with accurate diction

MUSC 262 Lyric Diction II: French and Other Languages (1 Credit Hour)
This course will acquaint the student with the rules of French, English and Latin. Students will gain both a theoretical understanding of the rules of diction and the practical ability to make relevant sounds and sing in these languages. Concurrent enrollment in 280K Applied Music: Voice is required.
Outcomes:
To successfully transcribe French, English and Latin texts into IPA; To learn to produce all of the relevant sounds of French; To sing in French, English and Latin with accurate diction

MUSC 280A Applied Music: Clarinet (1 Credit Hour)
Twelve 30-minute individual lessons in clarinet. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 280AA Applied Music: Conducting (1 Credit Hour)
Pre-requisites: MUSC 144, MUSC 145, MUSC 244, MUSC 245, MUSC 260
Twelve 30-minute individual lessons in conducting. Topics include: baton techniques, gestural mechanics, ear training, score study, transpositions, orchestrational basics, phrasing, and chord recognition. Choral, orchestral, or wind band considerations will be explored in greater detail, according to the background of the student.
Outcomes:
Advanced skills in conducting both small and large ensembles, score study, rehearsal, and concert programming

MUSC 280B Applied Music: Percussion (1 Credit Hour)
Twelve 30-minute individual lessons in percussion. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 280BB Applied Music: Improvisation (1 Credit Hour)
Pre-requisites: MUSC 144, 145, 244, 245, 185, 385
Twelve 30-minute individual lessons in improvisation. Building upon a strong theoretical foundation attained from the prerequisite courses, students receive focused instruction on the harmonic, melodic, and rhythmic theories that lead to the ability to improvise. Students may study with any of the jazz faculty regardless of their primary instrument.
Outcomes:
Students will learn to improvise over intermediate to advanced tunes in the jazz repertoire

MUSC 280C Applied Music: Oboe (1 Credit Hour)
Twelve 30-minute individual lessons in oboe. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 280E Applied Music: Trumpet (1 Credit Hour)
Twelve 30-minute individual lessons in trumpet. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 280F Applied Music: Saxophone (1 Credit Hour)
Twelve 30-minute individual lessons in saxophone. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 280G Applied Music: Guitar (1 Credit Hour)
Twelve 30-minute individual lessons in classical or electric guitar. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 280I Applied Music: Organ (1 Credit Hour)
Twelve 30-minute individual lessons in organ. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 280J Applied Music: Piano (1 Credit Hour)
Twelve 30-minute individual lessons in piano. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 280K Applied Music: Voice (1 Credit Hour)
Twelve 30-minute individual lessons in voice. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 280L Applied Music: Violin (1 Credit Hour)
Twelve 30-minute individual lessons in violin. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 280M Applied Music: Flute (1 Credit Hour)
Twelve 30-minute individual lessons in flute. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 280N Applied Music: Cello (1 Credit Hour)
Twelve 30-minute individual lessons in cello. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 280O Applied Music: Double Bass (1 Credit Hour)
Twelve 30-minute individual lessons in double bass. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 280P Applied Music: Viola (1 Credit Hour)
Twelve 30-minute individual lessons in viola. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 280Q Applied Music: Horn (1 Credit Hour)
Twelve 30-minute individual lessons in horn. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 280R Applied Music: Trombone (1 Credit Hour)
Twelve 30-minute individual lessons in trombone. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 280S Applied Music: Harp (1 Credit Hour)
Twelve 30-minute individual lessons in harp. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 280U Applied Music: Drum Set (1 Credit Hour)
Twelve 30-minute individual lessons in drum set. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 280V Applied Music: Tuba (1 Credit Hour)
Twelve 30-minute individual lessons in tuba. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 280Y Applied Music: Bassoon (1 Credit Hour)
Twelve 30-minute individual lessons in bassoon. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 280Z Applied Music: Composition (1 Credit Hour)
Pre-requisites: MUSC 144, 244,145, 245; 246 or 248
Twelve 30-minute individual lessons. Building upon a strong theoretical foundation attained from the prerequisite courses, students receive focused instruction to develop original compositions from concept to completion. Idioms, genres, forms, instrumentation, and other considerations will vary from student to student. May be repeated for up to 8 credit hours.
Outcomes:
The ability to more fully develop original musical ideas into completed, and professionally notated, compositions

MUSC 289 Chamber Ensemble (1 Credit Hour)
Admission by audition. Small group applied music study through ensemble playing. One or more public performance is required. Admission by audition.
Outcomes:
Students gain knowledge of the musical literature offered and improve their ensemble playing skills through rehearsal and performance; Students reflect on their personal and collective artistic growth throughout the performance process

MUSC 290 Jazz Combo (1 Credit Hour)
Small group applied jazz music study through ensemble playing. One or more public performance is required. Enrollment Conditions: Audition and permission of the instructor
Outcomes:
Students gain knowledge of the musical literature and improve their ensemble playing skills through rehearsal and performance; Students reflect on their personal and collective artistic growth throughout the performance process

MUSC 320 Rehearsal and Performance (1 Credit Hour)
This course allows students to receive credit for performing in an on-campus production during the semester. Completion and submission of a journal or paper is required. Permission of department is required.
This course satisfies the Engaged Learning requirement.

MUSC 333 Music and Ritual in Catholic Liturgical Life (3 Credit Hours)
Drawing both from liturgical documents and the ritual texts themselves, this course explores how the theology and spirituality of our Catholic tradition are expressed in the music, liturgies, and rituals of the Roman Catholic Church.
Outcomes:
Students are conversant with the components, structure, and musical elements of the Catholic liturgy and how the Mass interacts with the spiritual and cultural lives of the faithful

MUSC 344 Music Theory III (3 Credit Hours)
Pre-requisites: MUSC 244 or permission of chair
Study of large compositional forms and the extended harmonic vocabulary of music of the 19th century. Continued development of aural, keyboard, sight-singing, compositional and analytical skills in class, computer lab and small group sessions.
Outcomes:
Expansion and deepening of knowledge of the language and grammar of music and their interaction; Ability to use this understanding in both written and aural analysis and to form and defend evaluative judgments about music

MUSC 345 Music Theory IV (3 Credit Hours)
Pre-requisites: MUSC 344 or permission of chair
Continued examination of the structural aspects of music with a focus on contrapuntal forms. Study of the compositional vocabularies of 20th century music. Continued development of aural, keyboard, sightsinging, compositional and analytical skills in class, computer lab and weekly skills sessions.
Outcomes:
Expansion and deepening of knowledge of the language and grammar of music and their interaction; Ability to use this understanding in both written and aural analysis and to form and defend evaluative judgments about music

MUSC 347 Composition III (3 Credit Hours)
Pre-requisites: MUSC 247
Course provides students with the ability to compose an original work for string quartet and examines larger forms, chromatic harmony, extended tonality, and modern techniques.
Outcomes:
Through the writing of original music and the study of related scores students demonstrate an understanding of musical forms and techniques and the ability to compose music for string quartet

MUSC 353 Music History II (3 Credit Hours)
Pre-requisites: MUSC 244 and MUSC 245
A new shared musical language spreads through Europe during the Baroque through Romantic period giving rise to the best known composers of Western music.
Interdisciplinary Option: European Studies
Course equivalencies: MUSC353 / MUSC253
Outcomes:
Students demonstrate an understanding of how composers developed music during this common practice period to create some of the most well known works of the Western cannon

MUSC 354 Music History III (3 Credit Hours)
Pre-requisites: MUSC 244 and MUSC 245
Composers in the modern era turn to innovative and foreign influences as technological developments allow the Western musical tradition to spread throughout the world.
Course equivalencies: MUSC354 / MUSC254
Outcomes:
Students are able to identify and articulate the many musical innovations and movements that helped turn Western music into a global force of expression

MUSC 363 Foundations of Vocal Technique and Pedagogy (3 Credit Hours)
This course will acquaint students with the basics of anatomy and physiology associated with singing technique, including the anatomy of the larynx, the structure of posture and breathing, and the physics of resonance. Additional topics will include vocal registers, healthy use of voice, and the basics of vocal instruction. Recognize healthy modes of phonation across musical styles. Learn to structure a voice lesson.
Outcomes:
Identify the major anatomical structures used in singing and their function

MUSC 364 Vocal Repertoire (3 Credit Hours)
This course covers a broad spectrum of vocal repertoire from 1600 to the present. Emphasis will be given to the application of stylistic conventions and the development of effective performance skills, culminating in public performance.
Outcomes:
To gain knowledge of important vocal repertoire and history; To develop the creative capacity to perform vocal music of different styles and eras

MUSC 365 Vocal Performance Workshop (3 Credit Hours)
The class aims to develop students' ability to deliver compelling performances on the musical stage. The first portion of the semester is focused on gaining and applying theoretical knowledge of acting for the singer. The second portion of the class focuses on preparing and performing opera/musical scenes.
Outcomes:
Acquire foundational skills in acting for singers / Learn basics of stagecraft for musical production / Perform operatic and/or musical theatre scenes

MUSC 370 The Business of Music (3 Credit Hours)
The Business of Music will offer a broad overview as to how the music industry works and provide insight into various career options. The course will include weekly discussions on current events in the music industry as they occur and feature a host of guest speakers. Students will also learn about the recording industry, music publishing, and the digital music world.
Outcomes:
An understanding of careers in the areas of performance, composition, production, management, education, and radio

MUSC 374 Musical Theatre Repertoire (4 Credit Hours)
This capstone repertoire course synthesizes musical theatre history, theory and performance. It is designed to develop students' ability to perform vocally, dramatically and physically within the canon of musical theatre repertoire. It culminates in a musical theatre showcase which features student performance of the repertoire learned in class.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students will demonstrate an understanding of the history of musical theatre performance by comparing the work of significant composers, directors and choreographers and demonstrate understanding of the intrinsic requirements for effective synthesis of vocal, dramatic and dance performance

MUSC 380A Applied Music Advanced: Clarinet (1 Credit Hour)
Twelve 60-minute individual lessons in clarinet. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 380AA Applied Music Advanced: Conducting (1 Credit Hour)
Pre-requisites: MUSC 144, MUSC 145, MUSC 244, MUSC 245, MUSC 260
Twelve 60-minute individual lessons in conducting. Topics include: baton techniques, gestural mechanics, ear training, score study, transpositions, orchestrational basics, phrasing, and chord recognition. Choral, orchestral, or wind band considerations will be explored in greater detail, according to the background of the student.
Outcomes:
Advanced skills in conducting both small and large ensembles, score study, rehearsal, and concert programming

MUSC 380B Applied Music Advanced: Percussion (1 Credit Hour)
Twelve 60-minute individual lessons in percussion. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 380BB Applied Music Advanced: Improvisation (1 Credit Hour)
Pre-requisites: MUSC 144, 145, 244, 245, 185, 385
Twelve 60-minute individual lessons in improvisation. Building upon a strong theoretical foundation attained from the prerequisite courses, students receive focused instruction on the harmonic, melodic, and rhythmic theories that lead to the ability to improvise. Students may study with any of the jazz faculty regardless of their primary instrument.
Outcomes:
Students will learn to improvise over intermediate to advanced tunes in the jazz repertoire

MUSC 380C Applied Music Advanced: Oboe (1 Credit Hour)
Twelve 60-minute individual lessons in oboe. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 380E Applied Music Advanced: Trumpet (1 Credit Hour)
Twelve 60-minute individual lessons in trumpet. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 380F Applied Music Advanced: Saxophone (1 Credit Hour)
Twelve 60-minute individual lessons in saxophone. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 380G Applied Music Advanced: Guitar (1 Credit Hour)
Twelve 60-minute individual lessons in classical or electric guitar. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 380I Applied Music Advanced: Organ (1 Credit Hour)
Twelve 60-minute individual lessons in organ. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 380J Applied Music Advanced: Piano (1 Credit Hour)
Twelve 60-minute individual lessons in piano. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 380K Applied Music Advanced: Voice (1 Credit Hour)
Twelve 60-minute individual lessons in voice. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 380L Applied Music Advanced: Violin (1 Credit Hour)
Twelve 60-minute individual lessons in violin. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 380M Applied Music Advanced: Flute (1 Credit Hour)
Twelve 60-minute individual lessons in flute. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 380N Applied Music Advanced: Cello (1 Credit Hour)
Twelve 60-minute individual lessons in cello. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 380O Applied Music Advanced: Double Bass (1 Credit Hour)
Twelve 60-minute individual lessons in double bass. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 380P Applied Music Advanced: Viola (1 Credit Hour)
Twelve 60-minute individual lessons in viola. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 380Q Applied Music Advanced: Horn (1 Credit Hour)
Twelve 60-minute individual lessons in horn. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 380R Applied Music: Advanced Trombone (1 Credit Hour)
Twelve 60-minute individual lessons in trombone. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 380S Applied Music Advanced: Harp (1 Credit Hour)
Twelve 60-minute individual lessons in harp. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 380U Applied Music Advanced: Drum Set (1 Credit Hour)
Twelve 60-minute individual lessons in drum set. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 380V Applied Music Advanced: Tuba (1 Credit Hour)
Twelve 60-minute individual lessons in tuba. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 380Y Applied Music Advanced: Bassoon (1 Credit Hour)
Twelve 60-minute individual lessons in bassoon. Performance opportunities including studio classes, Honors Recital, and an end-of-semester jury. May be repeated for up to 8 credit hours.
Outcomes:
Functional to advanced performance ability based on technical and musical development

MUSC 380Z Applied Music Advanced: Composition (1 Credit Hour)
Pre-requisites: MUSC 144, 244,145, 245; 246 or 248
Twelve 60-minute individual lessons. Building upon a strong theoretical foundation attained from the prerequisite courses, students receive focused instruction to develop original compositions from concept to completion. Idioms, genres, forms, instrumentation, and other considerations will vary from student to student. May be repeated for up to 8 credit hours.
Outcomes:
The ability to more fully develop original musical ideas into completed, and professionally notated, compositions

MUSC 385 Jazz Improvisation II (3 Credit Hours)
Pre-requisites: MUSC 185 Jazz Improvisation
A continued study of the harmonic, melodic, and rhythmic theories that lead to the ability to improvise in the jazz genre. Emphasis is on ear training, listening, extended harmony, motivic development, rhythm, and scale /chord relationships.
Outcomes:
Students will be able to construct bass lines, build four-part chordal accompaniment at the piano, and improvise melodies and improvise over intermediate to advanced tunes in the jazz

MUSC 386 Orchestration (3 Credit Hours)
Pre-requisites: MUSIC 144 or permission of chair
Immersion in the art of writing for the instruments of the orchestra in order to understand and write /arrange music for the indigenous capability of each instrument while achieving desired sound effects.
Outcomes:
Ability to score effectively for every instrumental family and also to write/arrange music for any instrumental ensemble

MUSC 387 Solo Recital: MUSC Capstone (1-4 Credit Hours)
Pre-requisites: Department's permission and audition
Preparation and presentation of a full-length, balanced program by memory in one's major area of performance. This may be taken twice for credit.
Outcomes:
For the performance-oriented student, the capstone of 4 years of applied study as well as fulfillment of an experience required by graduate schools for performance majors

MUSC 388 Lecture/Recital: MUSC Capstone (3 Credit Hours)
Pre-requisites: Music Major only
A directed studies capstone experience course. Project proposal must be approved by the course advisor by the end of the first week of the semester. A Public presentation of the project is required. Examples of appropriate capstone projects include, a performance of a composition, paper presentation, digital music design for a commercial product, conduct a chamber ensemble or the creation of a music installation. This course satisfies the Engaged Learning requirement.
Outcomes:
Synthesize previous course work into a public presentation in the students' area of interest

MUSC 389 Topics in Music (1-9 Credit Hours)
Specific course titles and content will vary. May be taken as directed study under the supervision of a designated faculty member for independent or small group research in special areas of interest. Because of variations described, students may repeat the course for a total of six hours.
Outcomes:
Opportunity to experience a music elective which is not ordinarily in the music offerings and thus enables individual enhancement of unique interests

MUSC 394 Internship in Music (1-6 Credit Hours)
Music students complete a semester long internship providing an opportunity to use their technical, research or organizations skills in a professional setting. Students must complete and reflect upon 50 hours of internship experience per credit hour that is pre-approved by the Department of Fine and Performing Arts. Department permission required. No more than 6 credit hours of Internship or Fieldwork can be applied to the major.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students gain professional experience working at a music organization while reflecting on their work experience and applying theories and techniques acquired from their music courses

MUSC 397 Fieldwork in Chicago - Music (1-6 Credit Hours)
Variable credit (1-6 hours) given for performances or projects undertaken with professional music organizations outside the university. Students keep a journal and write evaluative papers. Permission of the Department of Fine and Performing Arts Required. Repeatable for up to 6 credit hours, however no more than 6 credit hours can be applied towards the major.
This course satisfies the Engaged Learning requirement.
Outcomes:
Specific outcomes and credit hours to be assigned to be determined by the student in consultation with the Director of Music and the project supervisor

MUSC 399 Independent Study (1-6 Credit Hours)
Pre-requisites: written permission of chairperson
Independent study projects may be of various kinds and in any recognized area of the theatre arts. Such projects should be done under the close supervision of a music faculty member.
Outcomes:
Specific outcomes and credit hours assigned to be determined by the student in consultation with the chairperson and theatre faculty supervisor

Theater (THTR)

THTR 100 Intro to Theatre Experience (3 Credit Hours)
This course is an introductory study of the theatrical art form and its contemporary production practice. Students engage in a series of workshops and participatory creative projects.
Knowledge Area: Artistic Knowledge and Experience
Outcomes:
Students will demonstrate the ability to identify the variety of collaborating arts and artists that combine to create of a work of theatre; to analyze a play script for live performance; to evaluate theatrical production; and to creatively apply knowledge of theatrical process through expressive and creative endeavors

THTR 142 Class Voice for Beginners (3 Credit Hours)
This class is for the student who has never had voice instruction and is interested in learning the art of performance in voice. Strongly recommended for those interested in the music major, theater or public speaking/performance
Course equivalencies: THTR242/THTR142/MUSC142
Outcomes:
Students will demonstrate understanding and application of the fundamentals of music theory, diction, and tone

THTR 154 Introduction to Opera (3 Credit Hours)
Survey of opera from 1600 to the present and consideration of opera as an art form which combines music and drama. Analysis of libretto structure and study of the variety of operatic styles are included.
Course equivalencies: X-MUSC154/THTR154
Outcomes:
Fundamental acquaintance with a wide selection of operatic literature and the principle eras of the European and American traditions

THTR 203 Dramatic & Theatrical Process (3 Credit Hours)
This course is an introduction to the basic methods of analyzing and interpreting plays representative of the modern stage (from Ibsen to the present). It explores how text analysis is, for all theatre artists, a critical first step in transferring the printed play text to the stage.
Outcomes:
Students will acquire the ability to analyze a play's structure and ideational content, its characters, and the potential challenges each play presents to theatre artists seeking to produce the play on the stage for a modern audience

THTR 204 Playwriting (3 Credit Hours)
Pre-requisites: THTR 100 or THTR 203
This course is and introduction to the theories and techniques of playwriting with particular emphasis on the analysis of dramatic structure.
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies
This course satisfies the Engaged Learning requirement.
Outcomes:
Students will demonstrate an understanding of the theories and techniques of playwriting and dramatic structure through application of these skills in several playwriting exercises and the development of a one act play

THTR 205 Theatre in Chicago (3 Credit Hours)
This course is an introduction to live theatre in the rich Chicago theatre scene. Students will develop an appreciation and enjoyment of drama through attendance at live theatre performance and sharpen critical thinking skills through written critiques and discussion of those productions.
Outcomes:
Students will demonstrate knowledge of and appreciation for the range of theatrical experiences, traditions and expressions available in the City of Chicago

THTR 209 Screenwriting (3 Credit Hours)
This course introduces students to the process of writing for the screen. Through exercises and analysis of structure and story-telling fundamentals, writers develop a working sense of the paradigm and the art of dramatic writing. Extensive writing requirements cover all aspects of screenwriting, culminating in the development of a workable screenplay.
Course equivalencies: X-COMM326/THTR209/IFMS209
Outcomes:
Students will demonstrate an understanding of the fundamentals of screenwriting through the completion of various writing exercises and the creation of a screenplay

THTR 227 Stage Management (3 Credit Hours)
This course explores the role of the stage manager in theatrical production from pre-production through closing documentation.
Outcomes:
Students will demonstrate understanding of the responsibilities and duties of a Stage Manager to a production; develop the necessary communication and organizational skills to fulfill these responsibilities in a production experience; and be exposed to various techniques and tools used in professional stage management

THTR 235 Figure Studio (3 Credit Hours)
Pre-requisites: FNAR 113 or 114 or permission of the instructor
This is an advanced level studio course designed to introduce the human form with an emphasis on the application of drawing and wet media.
Course equivalencies: X-FNAR235/THTR235
Outcomes:
Students will be able to demonstrate an understanding of the human form and anatomy through expanded practice and articulation of both formal and artistic ideas

THTR 241 Voice & Diction for Stage I (3 Credit Hours)
This course focuses on the techniques of effective voice and speech production.
Course equivalencies: THTR 241 / THTR 241E
Outcomes:
Through class exercises and presentations, students will demonstrate greater knowledge and control over their breath support, tonal placement, vocal resonance, projection, clarity of articulation, Standard American vowel and consonant formation, language orchestration and coloration

THTR 244 Voice & Diction for Stage II (3 Credit Hours)
Pre-requisites: THTR 241
This course is for students who have completed Voice and Diction for the Stage I and explores advanced voice and speech techniques. Students will continue work on their individual voice/speech challenges as well as focusing on the special voice/speech skills required of the stage actor.
Outcomes:
Through a series of in class presentations, students will demonstrate their control over the voice, speech, and language challenges which confront the actor in the performance of non-realistic plays (Shakespeare, Restoration Comedy, Expressionism, and Absurd) and in realistic plays with heightened language

THTR 252 Theatrical Design I (3 Credit Hours)
This course introduces the theatre student to the fundamentals of design especially as they relate to the theatrical design of sets, lights, and costumes.
Knowledge Area: Artistic Knowledge and Experience
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies
Outcomes:
Students will demonstrate understanding of the tools a set, costume, and lighting designer use to express their ideas; improve their abilities to communicate their creative ideas; appreciate how design affects an overall theatrical experience; and be prepared to engage in practical design experience in our theatre

THTR 261 Beginning Acting (3 Credit Hours)
This course is designed for students who are interested in study acting, but who are not majoring in the Department of Theatre.
Knowledge Area: Artistic Knowledge and Experience
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies
Outcomes:
Students will develop skills in observation, concentration and imagination, as well as critical skills in script analysis

THTR 266 Acting Theories and Techniques I (3 Credit Hours)
This course is an introduction to the art of Acting with specific emphasis on development of the student's interpretive skills.
Course equivalencies: THTR 266 / THTR 266E
Outcomes:
Students will demonstrate the ability to analyze a play with character in mind, develop relationships with fellow actors on stage, and play clear and effective character objectives

THTR 267 Acting Theories &Techniques II (3 Credit Hours)
Pre-requisites: THTR 266
This course builds on the skills introduced in THTR 266 and development of physical and vocal skills towards performance of character from classical texts.
Interdisciplinary Option: Shakespeare Studies
Outcomes:
Students will develop skills to research historical information for application in performance of characters and improve use of the body and voice to communicate character

THTR 275 Teleplay Production (3 Credit Hours)
Pre-requisites: THTR 266 or Permission of ICVM director
This course explores the challenges and methods of producing, acting and directing for the camera.
Course equivalencies: X-THTR275/IFMS275
Outcomes:
Students will demonstrate and understanding of the process of problem solving of producing, acting and directing for the camera through the production of on camera scenes

THTR 300 Design Technology: Special Effects, Sound Engineer (3 Credit Hours)
Special Effects, Sound Engineering, Moving Light Programing, Projections, Computer Aided Drafting and Automation Design
Outcomes:
To provide a broad overview of current state of the art stage design technologies through lectures, demonstrations, and hands-on work

THTR 301 Costume Technology (3 Credit Hours)
Pre-requisites: THTR 252 and 253
This course introduces the student to the fundamentals of costume construction including: pattern draughting, corsetry, different stitch uses, pleating and gathering techniques, tools of the shop, and basic draping.
Outcomes:
Students will be able to: use a basic pattern or sloper to generate their own period costumes, understand why different stitches or construction methods are used, know the tools of the shop, improve their knowledge of fabric choices, and understand the process of draping

THTR 305 Theatre Workshop: Special Topics (3 Credit Hours)
This course introduces the student to a style, genre or method theatre making through active application in exercises, demonstrations, games and workshops.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students will develop skills in applying performance theory to practice; develop performance skills in a particular style or genre; expand a repertoire of rehearsal techniques; and develop skills to create original theatre pieces

THTR 321 Practicum: Costumes (2 Credit Hours)
This course is a practical application of the material studied in a variety of theatre classes, and provides hands on experience scenic or costume construction.
Course equivalencies: THTR321/THTR 321E/THTR321C
Outcomes:
Students will acquire a variety of skills necessary for producing theatre; including collaboration and organization skills and will gain appreciation for the complexity play production

THTR 321C Practicum: Costumes (2 Credit Hours)
This course is a practical application of the material studied in a variety of theatre classes, and provides hands on experience scenic or costume construction.
Course equivalencies: THTR321/THTR 321E/THTR321C
Outcomes:
Students will acquire a variety of skills necessary for producing theatre; including collaboration and organization skills and will gain appreciation for the complexity play production

THTR 321E Practicum: Electrics (2 Credit Hours)
This course is a practical application of the material studied in a variety of theatre classes, and provides hands on experience with electrics.
Course equivalencies: THTR321/THTR 321E/THTR321C
Outcomes:
Students will acquire a variety of skills necessary for producing theatre; including collaboration and organization skills and will gain appreciation for the complexity play production

THTR 321P Theatre Practicum: Production Staff (1 Credit Hour)
Pre-requisites: Permission of the Department
This course is a practical application of the material studied in a variety of theatre classes, and provides hands on experience as production staff.
Outcomes:
Students will acquire a variety of skills necessary for producing theatre; including collaboration and organization skills and will gain appreciation for the complexity play production

THTR 321R Theatre Practicum: Running Crew (1 Credit Hour)
This course is a practical application of the material studied in a variety of theatre classes, and provides hands on experience with a running crew.
Outcomes:
Students will acquire a variety of skills necessary for producing theatre; including collaboration and organization skills and will gain appreciation for the complexity play production

THTR 321S Practicum-Scenic (2 Credit Hours)
Theatre Practicum (Scenery) is one of four experiential learning courses that will provide the student with an opportunity for practical application of varied techniques and theories in planning and construction of theatrical scenery and properties. The specific topics and skills the course will focus on vary from semester to semester as per the demands of each design.

THTR 323 Rehearsal & Performance (1-12 Credit Hours)
Pre-requisites: permission of the instructor
This course allows students to receive credit for stage managing, acting in or directing a campus production during the semester. Completion and submission of a journal or paper is required. Course may be repeated up to 12 times for a total of no more than 12 credit hours.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students will gain performance experience, assess personal artistic growth, and reflect on application of performance theory and technique covered in coursework to production practice

THTR 324 Applied Design and Management (1-3 Credit Hours)
This independent study course supports student scene, costume, lighting, make-up, sound or property designers and stage managers selected by the faculty to design or manage for university productions. Department Permission Required.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students will deepen their understanding of a design process via first hand experience in our theatre

THTR 324D Applied Design (1-3 Credit Hours)
This class will teach Stage Design techniques in practice in production through mentorship. Students will design productions or assist faculty designers.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students will accomplish goals in Communication, Collaboration and Conception; Design, Application and Reflection

THTR 324M Applied Management (1-3 Credit Hours)
This class will teach Stage Management techniques in practice in production through mentorship. Students will Stage Manage or Assistant Stage Manage productions.
Outcomes:
Students will accomplish goals in Communication, Collaboration and Conception; Application; Reflection

THTR 325 Costume Design I (3 Credit Hours)
This course exposes students in the planning, design and execution of costumes for the stage though a variety of costume design projects throughout historical periods and stylistic genres.
Outcomes:
Students will demonstrate understanding of how a costume designer makes choices based on color, silhouette, line, texture, historical research, personal style, collaborative input, and intended response from the audience through application on projects

THTR 326 Costume Design II (3 Credit Hours)
Pre-requisites: THTR 325
This course continues the project work from Costume Design I, exploring more detail in style and historical accuracy.
Outcomes:
Students will demonstrate the ability to prepare a costume design in any genre or period

THTR 327 Theatre Operation (3 Credit Hours)
This course is an introduction to the economic, managerial and operating aspects of American Theatre with an emphasis on the Chicago Theatre Industry and practical and contemporary aspects of the field.
Outcomes:
Students demonstrate knowledge of the evolution of arts organizations and theatrical management; practical management tools; the economic challenges of producing theatre; production trends in the industry; the theories and processes behind planning and decision making; and students will gain appreciation for the importance of management in theatrical productions and organizations

THTR 328 Lighting Design I (3 Credit Hours)
This course is an introduction to the principles of theatrical lighting design and the process by which a designer makes choices based on script analysis, period research and collaborative interaction.
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies
Course equivalencies: X-THTR328/ICVM328/IFMS328
Outcomes:
The student will develop a process by which to approach lighting design as well as an understanding of instrumentation and control of stage lighting

THTR 329 Make-up and Mask Design (3 Credit Hours)
This course involves a hands-on study of make-up techniques especially as they relate to basic theatrical needs, character make-up, and special effects make-up.
Outcomes:
Students will be prepared to use make-up effectively in the theatre either as performers or beginning make-up designers, and to understand the variety of techniques and tools a make-up designer has available

THTR 330 Lighting Design II (3 Credit Hours)
This course is a continuation of the study of the principles of theatrical lighting design and the process by which a designer makes choices based on script analysis, period research and collaborative interaction
Outcomes:
The student will develop a process by which to approach lighting design as well as an understanding of instrumentation and control of stage lighting

THTR 331 Movement: Theories & Technique I (3 Credit Hours)
This course examines the relationship between the kinetic and kinesthetic experiences and personality development.
Course equivalencies: THTR 331 / THTR 331E
Outcomes:
Through a series of exercises, students will demonstrate an awareness of one's physical mannerisms, increased confidence in one's physical presence on stage and demonstrate physical transformation into character

THTR 335 London Theatre Experience (3 Credit Hours)
This course is a month long study abroad experience which allows the student to intensively study British theatre through excursions within London, special guest lecturers, walking tours, workshops, gallery and museum visits, and attendance of at least eight plays.
Outcomes:
Students will gain an understanding of the importance of London theatre and its influence on the rest of the world's theatre

THTR 336 Stage Combat for Actors (3 Credit Hours)
This class will teach Stage Combat techniques that will allow actors to perform fights effectively and safely. Students will work towards a final performance involving all students in a story told through violence.
Outcomes:
Be able to perform a choreographed stage combat sequence effectively and safely at full speed and before a live audience

THTR 341 Studies in Dramatic Form (3 Credit Hours)
This course studies the various structural forms drama has taken from the Greeks to the present. In particular it looks at tragedy, comedy, and melodrama and seeks to find their roots in the cultures which nurtured them.
Outcomes:
the student will be able to distinguish various dramatic forms as well as their roots in their cultures, and will have a vocabulary with which to discuss and evaluate them

THTR 344 Dialects for the Stage (3 Credit Hours)
This course provide instruction in the dialects most frequently used by the American actor and to explore a systematic approach to dialect acquisition which will serve the student in further independent dialect study.
Outcomes:
Students will acquire a working knowledge of the International Phonetic Alphabet, an understanding of the historical and cultural background of each dialect, skills in applying dialects to dramatic texts, and an introduction to the work of the dialect coach in the theatre

THTR 345 Drafting for the Theatre (3 Credit Hours)
This course introduces the student to basic theatrical drafting techniques and mediums.
Outcomes:
Students will demonstrate the ability to draft ground plan and section, scenic elevations as well as a light plot

THTR 346 Scenic Art: Color Elevation to Scene Painting (3 Credit Hours)
This course is introduces the student to basic scene painting techniques for the theatre.
Outcomes:
Students will demonstrate understanding of the role of the scenic artist in relationship to the scenic designer, develop basic level skills required to execute the designer's intention or vision and execute a paint elevation

THTR 347 Children's Theatre (3 Credit Hours)
This course is an introduction to the basic principles and techniques of producing theatre for young audiences. Methods of working with child performers will be applied to in a laboratory setting with children.
Outcomes:
Students will identify the age-level characteristics of child audiences and appropriate script choices for each level

THTR 348 Creative Dramatics (3 Credit Hours)
This course explores the process of engaging children with theatre games and techniques as a means towards self-expression, personal development and content learning. Laboratory experiences working with children are provided.
This course satisfies the Engaged Learning requirement.
Course equivalencies: THTR348/CIEPM95
Outcomes:
Students will articulate the differences and similarities between theatre for children and creative dramatics disciplines, develop age appropriate materials and exercises, identify appropriate facilitating methods and techniques and apply these techniques in a laboratory setting

THTR 352 Theatrical Design II (3 Credit Hours)
Pre-requisites: THTR 252
An Intermediate course of study to explore the process of Theatre Design (Scenic, Costumes, and Lighting.) Collaboration and storytelling thru visual means is the key to understanding text-based theatre. Each individual will have the opportunity to express ideas in class discussions, written critical analysis and execution of design while enhancing the process of design
Outcomes:
The purpose of this course is to develop intermediate design skills building upon those learned THTR 252

THTR 353 Theatrical Design III (3 Credit Hours)
Pre-requisites: THTR 252 and THTR 352
This team taught course will alternate between full group discussions on topics valuable to all disciplines and small group instruction on specific techniques within sub-disciplines. Students will declare a discipline at beginning of the course. Students can repeat the course to pursue a second discipline. Students will be placed in teams of complimentary disciplines.

THTR 354 Storytelling Design: Puppetry, Properties and Toy (3 Credit Hours)
Pre-requisites: THTR 252, and either THTR 261 or 266
Puppetry is one of the oldest forms of storytelling. This course is intended to allow the student to several explore different forms of storytelling through the use of puppets and puppetry. The course will explore shadow puppetry, toy theatre and hand & rod puppetry. Each student will develop, as a member of a series of "production teams", a brief performance piece base.
Outcomes:
Students will gain skill in design through the storytelling techniques of puppetry and toy theatre

THTR 355 Sound Design I (3 Credit Hours)
Pre-requisites: THTR 252
This course is an introduction to the principles of sound design with and emphasis on theatrical performance. The student will develop a process for approaching sound design, and for expressing their concept and intention in a collaborative and presentation setting.
Outcomes:
The student will develop a process by which to approach sound design as well as an understanding of equipment and control of theatrical sound production

THTR 356 Sound Design II (3 Credit Hours)
Pre-requisites: THTR 355 Sound Design I
This course is a continuation of work begun in THTR 355: Sound Design I. The student will develop a process for approaching sound design, and for expressing their concept and intention in a collaborative and presentation setting.
Outcomes:
The student will develop a process by which to approach sound design as well as an understanding of equipment and control of theatrical sound production

THTR 364 Theatre History and Literature I (3 Credit Hours)
Pre-requisites: THTR 203
Theatre History and Literature is a part of a four-course sequence that examines works of dramatic literature in their historical context. Theatre History and Literature I focuses on the development of theatre from Greek through Jacobean and Caroline periods. Learning They will also apply research to creative practice.
Interdisciplinary Option: Shakespeare Studies
Outcomes:
Students will identify and describe events, practitioners, practices, theatre architecture and significant plays within their historical context

THTR 365 Theatre History and Literature II (3 Credit Hours)
Pre-requisites: THTR 203
Theatre History and Literature is a four course sequence that examines works of dramatic literature in their historical context. Theatre History and Literature II focuses on the development of theatre from the 16th through 19th centuries. This class is Writing Intensive. Learning They will also apply research to creative practice.
Interdisciplinary Option: European Studies, Shakespeare Studies
Outcomes:
Students will identify and describe events, practitioners, practices, theatre architecture and significant plays within their historical context

THTR 366 Theatre History and Literature III (3 Credit Hours)
Pre-requisites: THTR 203
Theatre History and Literature is a part of a four-course sequence that examines works of dramatic literature in their historical context. Theatre History and Literature III focuses on the development of theatre from the 19th through mid-20th centuries. This class is writing intensive. Learning They will also apply research to creative practice.
Interdisciplinary Option: European Studies
Outcomes:
Students will identify and describe events, practitioners, practices, theatre architecture and significant plays within their historical context

THTR 367 Theatre History and Literature IV (3 Credit Hours)
Pre-requisites: THTR 203
Theatre History and Literature is a four-course sequence that examines works of dramatic literature in their historical context. Theatre History and Literature IV focuses on contemporary and post-modern theatre. Learning They will also apply research to creative practice.
Outcomes:
Students will identify and describe events, practitioners, practices, theatre architecture and significant plays within their historical context

THTR 368 Acting Theories and Techniques III (3 Credit Hours)
This course continues the work of THTR 267, based on the needs of the students, using plays by modern and contemporary playwrights as the primary material.
Outcomes:
Students will be able to demonstrate an understanding of how to interpret and effectively perform plays written since the early 19th century up to present day

THTR 369 Acting Theories and Techniques IV (3 Credit Hours)
Pre-requisites: THTR 267
This course continues the work of THTR 368 based on the needs of the students. Performance material is at discretion of the instructor.
Outcomes:
Students will further develop performance skills and workshop areas of weakness based on individual needs and interests

THTR 371 Stage Design I (3 Credit Hours)
Pre-requisites: THTR 252
This course introduces the student to the role of the scenic designer and the process of script analysis, period research and graphic communication utilized to develop a scenic design with a focus on how collaborative interaction may inform those choices.
Outcomes:
The student will develop a systematic approach to the scenic designer's creative process and demonstrate the ability to communicate a scenic idea through the practice of sketches, ground plans and scale models

THTR 372 Stage Design II (3 Credit Hours)
Pre-requisites: THTR 371
This is an advanced course in the development of the scenic designer's creative process, skills, and techniques.
Outcomes:
Student will further develop the skills required of a scenic designer and develop a diverse design portfolio

THTR 375 Play Direction: Theater Capstone (3 Credit Hours)
Pre-requisites: THTR 203, 252, 266, 267, 364, 365, 366 and 367, or 375 may be taken concurrently with THTR 367
This course explores the fundamental principles of play direction. Students are required to direct a monologue, select a play script for production, develop a production concept, stage a fifteen-minute scene, and develop a detailed Director's Notebook.
Outcomes:
Students acquire the skills to identify the basic elements of stage direction; analyze a play script from the point of view of the director; articulate and defend a production concept; develop actor-coaching skills; and identify elements of direction that communicate story, theme, and concept

THTR 376 Advanced Play Direction (3 Credit Hours)
Pre-requisites: THTR 375
This intensive lecture-performance course will expand on principles and practices of play direction covered in THTR 375, with particular emphasis on staging, spatial dynamics, and collaboration with design artists.
Outcomes:
Students acquire the skills to place current trends in Directing in historical and theoretical context; articulate a personal artistic mission in relation to the Directing craft; articulate and defend a concept for production; and translate conflict, story, and theme to practical application in ground-plans, staging, actor-coaching, and design choices

THTR 377 Audition Seminar (3 Credit Hours)
Pre-requisites: THTR 368
This course focuses on preparing to audition for professional theatre, commercial and film with particular emphasis on audition for Chicago Theatre.
Outcomes:
Students will demonstrate the ability to engage an auditor through an audition, demonstrate the ability to score and read copy truthfully, develop a head shot and resume and develop a personal repertoire of suitable audition pieces

THTR 393 Shakespeare Seminar (3 Credit Hours)
Pre-requisites: ENGL 326, THTR 365, and 9 credit hours for electives in the minor
This course provides a capstone seminar experience for students, focusing on how Shakespeare has been interpreted on the page and the stage. It will culminate with a thesis project, either scholarly or creative, that will serve as the capstone for the Shakespeare Studies Minor.
Interdisciplinary Option: Shakespeare Studies
Outcomes:
Students will engage in advanced scholarly work in Shakespearean Studies towards development of a scholarly thesis or significant project

THTR 394 Internship in Theatre (1-6 Credit Hours)
Theatre students complete a semester long internship providing an opportunity to use their technical, research or organizations skills in a professional setting. Students must complete and reflect upon 50 hours of internship experience per credit hour that is pre-approved by the Department of Fine and Performing Arts. Department Permission Required. No more than 6 credit hours of Internship of Fieldwork may be applied to the major.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students gain professional experience working at a theatrical organization while reflecting on their work experience and applying theories and techniques acquired from their theatre courses

THTR 395 Seminar in Theatre (3 Credit Hours)
Subject and requirements of this course will be determined by needs and interests of the students.
Outcomes:
To be determined by the instructor in consultation with the chairperson

THTR 396 Seminar in Theatre II (3 Credit Hours)
Subject and requirements to be determined by needs and interests of the students.
Outcomes:
To be determined by the instructor in consultation with the chairperson

THTR 397 Fieldwork in Chicago - Theatre (1-6 Credit Hours)
Variable credit (1-6 hours) given for performances or projects undertaken with professional theatre organizations outside the university. Students keep a journal and write evaluative papers. Permission of the Department of Fine and Performing Arts Required. Repeatable for up to 6 credit hours, however no more than 6 credit hours of Internship or Fieldwork can be applied towards the major.
This course satisfies the Engaged Learning requirement.
Outcomes:
Specific outcomes and credit hours assigned to be determined by the student in consultation with the Director of Theatre and the project supervisor

THTR 399 Independent Study (3 Credit Hours)
Pre-requisites: written permission of chairperson
Independent study projects may be of various kinds and in any recognized area of the theatre arts. Such projects should be done under the close supervision of a theatre faculty member.
Outcomes:
To be determined by the student in consultation with the chairperson and theatre faculty supervisor

Art History (BA)

The art history major is designed to ensure that students are well versed in both the historical and critical facets of the field through a sequence of courses (p. 404) that explores art objects from a variety of cultures across time. Courses emphasize visual, verbal, writing, and critical thinking skills, giving students the tools to form persuasive arguments based on evidence found in tangible objects, original documents, and scholarly literature.

The skills developed in the art history program prepare students for graduate programs and for a broad variety of careers.

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

Upon completion of this program, students will be able to:

- Demonstrate an understanding of human creativity and the role of the visual arts as a mode of visual communication in a global context
- Employ the elements of visual language and artistic terminology to critically analyze and interpret objects of art, architecture, and visual culture
- Demonstrate general knowledge and understanding of Western and non-Western art traditions across historical periods in terms of major monuments, artists, ideas, formal expression, themes, techniques, iconography, and functions of art in relation to their cultural, social, religious, and historical contexts
- Demonstrate depth of knowledge and understanding of specific historical periods or civilizations in the history of art
- Demonstrate an understanding of visual culture as it relates to issues of gender, class, race, religion
- Demonstrate knowledge of and an ability to apply art historical methodologies, criticism, and theory in art history research
- Demonstrate skills in critical thinking, conceptualization of self-developed projects, scholarly research techniques, and written and oral communication
- Demonstrate an understanding of the interdisciplinary nature of art history

Art History Minor

The Art History minor is often added as a secondary focus of study in order to complement or enhance a student's major or chosen career path. Students may also choose to add the minor in order to pursue an area of interest without the responsibility of a major.

While the major (p. 403) is a comprehensive course of study, the minor in Art History is intended to provide a breadth of knowledge. Art history minors develop a base-level understanding of the field, from the arts of the ancient world to contemporary art.

Curriculum

Code	Title	Hours

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

- Demonstrate an understanding of human creativity and the role of the visual arts as a mode of visual communication in a global context
- Employ the elements of visual language and artistic terminology to critically analyze and interpret objects of art, architecture, and visual culture
- Demonstrate general knowledge and understanding of Western and non-Western art traditions across historical periods in terms of major monuments, artists, ideas, formal expression, themes, techniques, iconography, and functions of art in relation to their cultural, social, religious, and historical contexts.

Dance (BA)

The Bachelor of Arts in Dance offers conservatory-level dance training within the context of Loyola's Ignatian liberal arts curriculum. The ballet and modern dance curriculum (p. 405) features classical and contemporary forms which preserve and contextualize classical techniques and masterworks, using work from the past to enrich current and emerging approaches to dance creation and performance.

[1] Course can be taken in any semester that it appears in depending on student's preference and course schedule.

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

- Demonstrate an understanding of choreographic processes, aesthetic properties of style, and the ways these shape and are shaped by artistic and cultural ideas and contexts
- Apply and synthesize performance experience with a wide selection of dance repertory, the principal eras, genres, and cultural sources.
- Employ fundamental knowledge of the body/embodiment and of kinesiology as applicable to work in dance. Critically evaluate classroom technique, injury prevention, wellness, and personal development.

- Apply the ability to think, speak, and write clearly and effectively, and to communicate with precision, cogency, and rhetorical effectiveness, with the understanding that sharing our work in multiple contexts allows us to engage with the world on topics of academic and social relevance.
- Demonstrate the ability to develop and defend critical evaluations through creative inquiry and to respect, understand, and evaluate work in a variety of disciplines and scholarly, artistic, and pedagogical endeavors.
- Convey general knowledge of business and professional practices as they relate to the field of dance, recognizing that collaboration and interconnection are central to the growth and strengthening of our field.
- Demonstrate an understanding of, and experience in thinking about, moral and ethical problems. Cultivate empathy within roles as scholars and artists.

Dance Minor

For students looking to deepen their knowledge and experience in Dance while studying at Loyola University Chicago, the Dance minor offers a flexible framework for students to pursue excellence artistically and academically.

Curriculum

Students interested in receiving a dance minor should make an appointment with Dance Minor Advisor Mari Jo Barker (mirbe@luc.edu).

Transfer-Student Residency Requirement: At least 9 credit hours of the dance minor must be completed at Loyola.

A total of 18 credits are required to complete the dance minor.

Total Hours		**18**

[1] Indicates that a student must be a declared DANC major or minor to enroll

[2] Music classes may be applied to the dance major with approval from Director of Dance, Sandra Kaufmann

Learning Outcomes

- Increase psychomotor, cognitive and affective skills through the practice of dance
- Demonstrate foundational knowledge of dance theory and performance
- Employ fundamental knowledge of the body/embodiment and of kinesiology as applicable to work in dance. Critically evaluate classroom technique, injury prevention, wellness, and personal development
- Synthesize and apply coursework by preparing for and presenting public performance
- Engage with peers in co-curricular Dance minor piece for Dance Informance and in extra-curricular student dance organizations

Drawing, Painting and Printmaking (BA)

The Drawing, Painting & Printmaking Major at Loyola University Chicago is focused on the subject as an artistic discipline with a rich global history, encompassing many diverse perspectives and approaches, which explores the relationship of traditional practices to recent advances in technology. The curriculum guides students in learning the technical foundations, aesthetic strategies and conceptual approaches, and the cultural / historical perspectives of the medium. Through the program, students build their ability to pursue Drawing, Painting and Printmaking as a means of creative exploration and intellectual investigation.

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

- Understand the place of artmaking in human creativity within a global historical context
- Differentiate between artistic styles, and the multiplicity of populations and communities from which works of have been made (and are made)
- Engage in critical discussion with a depth of analysis and appreciation for aesthetic and conceptual diversity

Drawing, Painting and Printmaking Minor

The minor in Drawing, Painting & Printmaking is often added as a secondary focus of study in order to complement or enhance a student's major or chosen career path. Students may also choose to add the minor in order to pursue an area of interest without the responsibility of a major (p. 407).

The minor embodies many of the key historical, critical, theoretical, methodological and contextual elements embedded within the more comprehensive framework of the major.

Curriculum

A total of 18 credit hours are required for the minor in Drawing and Painting.

Learning Outcomes

Upon completion of this program, students will be able to:

- Apply a range of materials, processes and techniques within their chosen concentration as a primary form of artistic expression
- Analyze interpret and comprehend the elements that constitute a work of art (visual, functional, psychological, and social)
- Engage in self-directed problem solving analysis and critical thinking, and take creative and intellectual risks in the production of original artwork
- Employ scholarly and visual research in developing concepts, principles, and theories that underlie their artistic intentions, and effectively communicate them orally and in written form

Music (BA)

The Loyola University music program invites students of all backgrounds to engage in a vast array of performance and coursework opportunities. Located in one of the world's most vibrant musical centers, and featuring a highly dedicated and award-winning faculty, Music at Loyola provides the rigorous training necessary for those intent on pursuing a career in music, while offering a welcoming environment for non-majors seeking to enhance their collegiate experience.

Curriculum

A total of 42 credits are required to receive a B.A. in Music.

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

Upon completion of this program, students will demonstrate:

- a thorough understanding of the basic elements related to music theory: rhythm, melody, and harmony.
- an understanding of musical forms, processes, and structures; and the ability to employ this understanding in written and verbal analyses.
- proficiency in the basic areas of musicianship: keyboard, aural skills, and sight-singing.
- a basic knowledge of music history resulting, in part, from score analysis, dedicated listening, and concert attendance.
- the ability to apply critical thinking towards music and its contextualization.
- the technical skills requisite for artistic self-expression.
- the knowledge and skills necessary to work collaboratively as part of a musical ensemble.
- the development of metacognitive skills.
- a working knowledge of the artistic considerations necessary to produce and perform a solo recital (capstone project)

Music Minor

The Music Minor cultivates foundational knowledge in music theory, history, and literature, while affording students the opportunity to work with a world-class faculty in an array of applied and performance classes.

While many students pursue the Music Minor simply to continue a lifelong passion, others find it to be a great complement to their major course of study, especially when their desired career path intersects with music, or the arts in general (e.g. Music Business, Arts Administration, Music Therapy, or Digital Music).

Curriculum

A total of 21 credits are required to complete the Music Minor.

Code	Title	Hours
Music Theory		
MUSC 144	Music Theory I [1,2,3]	3

- the technical skills requisite for artistic self-expression.
- the knowledge and skills necessary to work collaboratively as part of a musical ensemble.
- the development of metacognitive skills.
- a working knowledge of the artistic considerations necessary to produce and perform a solo recital (capstone project)

Music with a Concentration in Liturgical Music (BA)

A Major in Music with a concentration in Liturgical Music prepares students to work as church music directors. This concentration provides students the experience of working with pastors, choirs and congregations, building their skills and talents as future musicians and directors.

Conducting a choir or a congregation requires verbal and non-verbal communication skills, musical and liturgical knowledge, and a generosity of spirit—things that aid in leading and engaging others in worship. This major, while concentrating in the Roman Catholic tradition, will also prepare students for work in other Christian denominations, mainline Protestant and Orthodox, as they will study these different liturgical traditions, as well as their works of sacred music.

Building upon the solid curricular foundation already established in the Music program, this new major combines the study of sacred text and song, imagery, melody and rhythm. It is inherently a portrayal of interdisciplinary drawing from both the disciplines of theology and music.

Curriculum

Code	Title	Hours
Music Theory		
MUSC 144	Music Theory I [1, 2, 3]	3
MUSC 145	Musicianship Lab I [1]	1

- the development of metacognitive skills.
- a working knowledge of the artistic considerations necessary to produce and perform a solo recital (capstone project)

Music with a Concentration in Vocal Performance (BA)

Loyola's Vocal Performance Concentration offers a program that emphasizes rigorous, conservatory-level study in a liberal arts setting. The curriculum is designed to support the artistry, citizenship, and intellect of the singer, as well as pedagogy, performance, and collaborative ensemble singing. Extraordinary singing is nurtured at every stage, as well as care of the whole person within the liberal arts environment.

In addition to the core music major requirements, students study diction, vocal repertoire, vocal pedagogy, vocal coaching, and ensemble singing. Students may also participate as soloists in oratorios, musicals, and opera scenes, as well as other performance opportunities. All Vocal Performance students are also required to give a full recital their senior year.

Recent performances include Mozart's Requiem, Orff's Carmina Burana, Faure's Requiem, Schubert's Mass in G, Robert Ray's Gospel Mass, Opera Scenes, and James Whitbourn's Annelies, which was performed with the Grammy-nominated Lincoln Trio. Additionally, the choirs participate in the annual holiday Lessons and Carols and JOYOLA, which collectively draw over 1200 people each year.

With a firm dedication to supporting social justice issues through the arts, Loyola's vocal students often engage in programming that highlights issues of our time. The choirs are frequent collaborators with the Institute of Environmental Sustainability, having performed regularly at the Climate Change Conference. Other projects have included a Black History Month program, Holocaust remembrance programming, outreach to the homeless, frequent collaborations with Misericordia, and the annual Women's Collegiate Choral Festival, celebrating women in the field of choral music.

In addition to supporting an outstanding faculty, Loyola also welcomes frequent guest artists. Recent guests have included Craig Terry (Lyric Opera), Richard Boldrey (Northwestern University), Rebecca Schorsch (Roosevelt University), Anne Harley (Scripps College), Shannon McGinnis (Collaborative Arts Institute), as well as area professional ensembles such as Bella Voce and William Ferris Chorale.

The Vocal Performance Concentration allows for the flexibility needed for students to pursue their love of singing, while simultaneously receiving a solid liberal arts education. Loyola music majors have gone on to become skilled educators, performers, arts administrators, music therapists, scholars, and most importantly, well-rounded young professionals.

For more information about the Vocal Performance Concentration please contact Kirsten Hedegaard at khedegaard@luc.edu.

- a working knowledge of the artistic considerations necessary to produce and perform a solo recital (capstone project)

Musical Theatre Minor

The Minor in Musical Theatre trains students to be skilled actors, musicians, and dancers. This interdisciplinary opportunity is offered only to students currently majoring in Theatre (p. 420), Music (p. 409), or Dance (p. 405).

Curriculum

A total of 22 credit hours are required for a minor in Musical Theatre as a Dance Major.

1 You must take either Musicianship Lab I and Music Theory I **or** Musicianship Lab II and Music Theory II.

2 Once the minor is declared students must apply to audition for consideration and evaluation. The link to audition information can be found here: https://www.luc.edu/music/academics/appliedlessons/

It is important that you enter the music theory and musicianship course sequence according to your skill level. If you are unclear about your skill level, contact the director for assistance. MUSC 144 Music Theory I *and* MUSC 145 Musicianship Lab I *as well as* MUSC 244 Music Theory II *and* MUSC 245 Musicianship Lab II *must be taken concurrently.*

Learning Outcomes

Students completing the Minor in Musical Theatre will:

- Create convincing characters and perform clear, active objectives
- Expand repertoire by performing pieces from a wide range of genres and eras
- Acquire proper dance technique with opportunities to train in ballet, modern, and jazz
- Demonstrate proper vocal technique and a deep understanding of musicality, rhythm, and written music

Photography (BA)

Photography has played a major role in the production of images in visual culture since its invention in the first half of the 19th century. The program at Loyola University is focused on photography as an artistic discipline that has developed a rich history over the last century and a half, and which continues to evolve with recent innovations in technology. The curriculum guides students in learning the technical foundations, aesthetic strategies and conceptual approaches, and the cultural/historical perspectives of the medium. Through the program, students build their ability to pursue photography as a means of creative exploration and intellectual investigation.

The curriculum builds a foundation that enables students to pursue a broad range of career paths. It provides an experience that prepares students to apply to graduate programs and pursue a career in contemporary art as an artist or a curator. It develops techniques for students who are interested the commercial applications of the medium (editorial fashion/architecture/product photography). Finally, as a program that emphasizes the ability to create and analyze images, the curriculum offers skills that are relevant to numerous fields beyond photography that rely on conceptual thinking and communication through visual means (architecture, design, advertising, illustration, photo journalism, media studies, and visual anthropology).

[1] Select a course from the electives list not taken.

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

- Employ visual and scholarly research in developing concepts that underlie artistic projects
- Effectively communicate artistic intent through visual, written, and oral forms
- Develop cohesive bodies of work for public presentations and build portfolios to pursue professional opportunities
- Understand the role of artmaking in human creativity within a global historical context
- Differentiate between artistic styles and the multiplicity of populations and communities from which works have been made (and are made)
- Engage in critical discussion with a depth of analysis and appreciation for aesthetic and conceptual diversity

Photography Minor

The Photography minor is often added as a secondary focus of study in order to complement or enhance a student's major or chosen career path. Students may also choose to add the minor in order to pursue an area of interest without the responsibility of a major.

The minor embodies many of the key historical, critical, theoretical, methodological and contextual elements embedded within the more comprehensive framework of the major (p. 415).

Curriculum

A total of 18 credit hours are required for the minor in Photography.

Code	Title	Hours
Foundation Courses		
FNAR 110	Foundations of Visual Art	3
or FNAR 113	Drawing I	
History Courses		
Select one of the following:		3
FNAR 202	Global Art History: Modern Art	
FNAR 365	History of Photography (Spring offering; odd years)	
Applied Courses		
FNAR 115	Foundations of Photography	3
FNAR 215	Photography: Film and Darkroom (Fall offering)	3
FNAR 219	Photography: Digital Imaging (Spring offering)	3
Select one of the following:		3
FNAR 316	Photography: Advanced Darkroom (Fall offering; odd years)	
FNAR 319	Lighting Techniques (Fall offering; even years)	
Total Hours		**18**

Learning Outcomes

Upon completion of this program, students will be able to:

- Apply a range of materials, processes and techniques within their chosen concentration as a primary form of artistic expression
- Analyze interpret and comprehend the elements that constitute a work of art (visual, functional, psychological, and social)
- Engage in self-directed problem solving analysis and critical thinking, and take creative and intellectual risks in the production of original artwork
- Employ scholarly and visual research in developing concepts, principles, and theories that underlie their artistic intentions, and effectively communicate them orally and in written form

Sculpture and Ceramics (BA)

The Sculpture & Ceramics Major at Loyola University Chicago explores the interplay between Art, Craft & Design, and reflects on the vital contribution that three dimensional art forms make to material culture. Enhanced by a long history and a diversity of contemporary practice, the curriculum offers courses in 3D Design, Ceramics, Sculpture and Jewelry which investigate a variety of perspectives and approaches (conceptual, theoretical and empirical). The program is housed in the Ralph Arnold Fine Arts Annex at the Lakeshore Campus which feature studio spaces for 3D Design, Sculpture, Ceramics, & Jewelry.

The major provides opportunity to develop unique capabilities which can be applied to a broad range of career paths. Students gain entry to higher education, or they can focus strategically on building a distinctive life in the visual arts though specialized production, promotion and collaboration. Many skills are transferrable for students interested in a career in the applied arts (interior architecture/product design/ advertising & PR/theater & film/museums & galleries - exhibition design and production, props, sets, special effects etc.).

Total Hours		**18**

[1] If not taken for Foundation requirement.

Learning Outcomes

Upon completion of this program, students will be able to:

- Apply a range of materials, processes and techniques within their chosen concentration as a primary form of artistic expression
- Analyze interpret and comprehend the elements that constitute a work of art (visual, functional, psychological, and social)
- Engage in self-directed problem solving analysis and critical thinking, and take creative and intellectual risks in the production of original artwork
- Employ scholarly and visual research in developing concepts, principles, and theories that underlie their artistic intentions, and effectively communicate them orally and in written form

Teaching Artist Minor

The Teaching Artist Minor at Loyola University Chicago prepares artists to work as teaching artists in conjunction with certified public school teachers, arts organizations, and out-of-school programs. The minor is not a credentialing program. This minor focuses on experiential learning in local schools and arts organizations, preparing Loyola undergraduates to teach basic artistic skills to students from ages 7 to 70.

Curriculum

The Teaching Artist Minor consists of 18 credits distributed as follows:

Code	Title	Hours
Required Courses		
ARTS 200	Introduction to Teaching Artistry	3
ARTS 201	Grant Writing for the Arts	2
ARTS 397	Fieldwork in Arts Education	3
TLSC 110	The Profession and Our Program (TLLSC)	1
TLSC 120	Bringing Language, Learning & Development Theory into Practice	2
TLSC 130	Sequence One: 130 Community Immersion	1
TLSC 140	Teaching, Learning and Leading for Social Justice	1
TLSC 150	Constructive Learning Environments For Diverse Students	1

TLSC 160	Analyzing Culturally-Responsive Classroom Instruction	1
Required: Arts Pedagogy Course [1]		
Select one of the following:		3
DANC 360	Dance Pedagogy	
FNAR 303	Visual Arts Pedagogy	
MUSC 260	Conducting	
MUSC 363	Foundations of Vocal Technique and Pedagogy	
THTR 348	Creative Dramatics	
Total Hours		**18**

[1] School of Education (SOE) students completing this minor would substitute their student teaching requirement (TLSC 380 Teaching, Learning and Leading with Schools and Communities Internship: Student Teaching) for this credit requirement.

Suggested Sequence of Courses

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

Course	Title	Hours
Year 1		
Fall		
ARTS 200	Introduction to Teaching Artistry	3
	Hours	**3**
Spring

TLSC 120	Bringing Language, Learning & Development Theory into Practice	2
TLSC 130	Sequence One: 130 Community Immersion	1
	Hours	**4**
Year 2		
Fall		
--		
	Hours	**0**
Spring		
Select one of the following:		3
TLSC 140	Teaching, Learning and Leading for Social Justice	
TLSC 150	Constructive Learning Environments For Diverse Students	
TLSC 160	Analyzing Culturally-Responsive Classroom Instruction	
	Hours	**3**
Year 3		
Select one Discipline Specific Pedagogy:		3
DANC 360	Dance Pedagogy (Fall)	
FNAR 303	Visual Arts Pedagogy (Fall)	
MUSC 260	Conducting (Fall)	
MUSC 363	Foundations of Vocal Technique and Pedagogy (Spring)	
THTR 348	Creative Dramatics (Spring)	
	Hours	**3**
Year 4		
Fall		
ARTS 201	Grant Writing for the Arts	2
	Hours	**2**
Spring		
ARTS 397 or TLSC 380	Fieldwork in Arts Education or Teaching, Learning and Leading with Schools and Communities Internship: Student Teaching	3
	Hours	**3**
	Total Hours	**18**

Learning Outcomes

Students completing the Teaching Artist Minor will:

- Employ fundamental knowledge of arts education, arts integration, and community-based arts to develop a course of study appropriate to specific institutions
- Apply pedagogy strategies that are developmentally appropriate
- Hold high expectations and build on the assets of diverse populations
- Utilize assessment strategies to measure learning effectiveness that are non-discriminatory
- Demonstrate effective classroom management

Theatre (BA)

Loyola University Chicago's Bachelor of Arts in Theatre strives to make the most out of a liberal arts education. By fostering work in performance, directing, design, technology, management, dramaturgy, and literature, the theatre major prepares students to enter any aspect of the theatre industry.

Our approach to theatre is based in the Liberal Arts; by offering a BA rather than a BFA, we emphasize the importance of interdisciplinary study in the formation of adaptable, well rounded theatre artists. By nurturing and educating actors, directors, administrators, playwrights, designers, and technicians, we prepare theatre artists to enter any aspect of the industry.

Production of plays is integral to all of our academic work, and we offer many opportunities (https://www.luc.edu/theatre/opportunities/) for students to participate in our active production program as actors, directors, designers, dramaturges, and playwrights. We produce a season of faculty-directed (https://www.luc.edu/theatre/aboutus/facultyandproductionstaff/) plays and musicals, which often reflects the curricular and educational goals and mission of the department. The season is complimented by a diverse collection of student-generated work, ranging from funded research to experimental and staged readings.

We also take full advantage of our location right in the heart of Chicago's thriving theatre community. Our full time faculty of eight is comprised of professional actors, directors, dramaturges, and designers. Students are afforded chances to dabble in the professional world prior to graduation with the guidance and mentorship of their professors, as well as the multitude of internship and apprenticeship opportunities available at professional theatres around the city.

Loyola University Chicago is one of eight NAST-accredited (https://nast.arts-accredit.org/) institutions in Illinois (and the only one in the Chicago metropolitan area), as well as a member of the League of Chicago Theatres (https://chicagoplays.com/) and the Theatre Communications Group (https://circle.tcg.org/home/?ssopc=1).

Curriculum

A total of 47 credits are required to receive a B.A. in Theatre.

Code	Title	Hours

Total Hours		**47**

Residency Requirement

Transfer students majoring in theatre are required to complete a minimum of 24 credit hours of theatre major requirements at Loyola.

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

- Students will be able to demonstrate the variety of skills necessary for producing theatre; including collaboration, communication and hands-on skills through the completion of practicum courses.
- Students can construct and communicate nuanced, well-chosen, evidenced arguments in one or more ways as evidenced in a thesis-based essay, program note, dramaturgical research, artistic and/or creative reflections.
- Students can articulate connections between history/theory and theatrical practice as evidenced in a thesis-based essay or capstone Directing case book.
- Students can demonstrate ethical reasoning about theatre's impact on global communities through creation of works, analysis of works or acknowledgement of works.
- Students will be able to translate research and script analysis into a role via in-class scene work and/or production performance.
- Students will be able to contribute to a collaborative, creative ensemble via consistent participation and effective incorporation of feedback through in-class work and/or production.
- Students will be able to present creative and analytical ideas orally and visually while balancing self-expression and collaborative team dynamics.

Theatre Minor

The Minor in Theatre cultivates foundational knowledge in theatrical literature, performance, design, and technology, with room for at least three elective courses for advanced exploration or specific topics.

Curriculum

A total of 21 credit hours are required for the minor in Theatre.

Code	Title	Hours
Studio Courses		
THTR 203	Dramatic & Theatrical Process	3
THTR 252	Theatrical Design I	3
THTR 261	Beginning Acting	3
or THTR 266	Acting Theories and Techniques I

THTR 321C	Practicum: Costumes	
THTR 321E	Practicum: Electrics	
THTR 321P	Theatre Practicum: Production Staff	
THTR 321R	Theatre Practicum: Running Crew	
THTR 321S	Practicum-Scenic	
Electives		
Theatre Electives		9
Total Hours		**21**

Residency Requirement

Transfer students minoring in theatre are required to complete a minimum of 11 credit hours of theatre minor requirements at Loyola.

Learning Outcomes

Students completing the Minor in Theatre will:

- Develop an understanding of dramatic and structural composition
- Demonstrate how set, costumes, and lighting are used as tools for expression
- Analyze a play with character in mind, develop relationships with fellow actors on stage, and play clear and effective character objectives
- Gain hands-on production experience

Visual Communication (BA)

The visual communication program in the Fine Arts Division at Loyola University Chicago prepares students to enter the workforce as design professionals, with graduates employed in graphic design studios, internal design teams, branding firms, cultural institutions, and other creative agencies. Students learn graphic design history, theory, and practice, in a rigorous program that covers the essentials needed by professionals. Graduates of the program have career opportunities in branding and corporate identity, advertising, web design, motion graphics, interface design, package design, mobile interactive design, digital product design, exhibit design, print and publication design, and more.

Curriculum

Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

Upon completion of this program, students will be able to demonstrate:

- An understanding of the role of visual communication in the culture at large
- An understanding of and experience in the variety of forms of visual communication from print to digital media, mastering the basics of visual form, color, typography, photography, layout, and interactive media
- Technical skills used to produce visual communication digitally and by hand
- Knowledge of key historical periods in the history of graphic design
- Skills in critical thinking, written and oral communication, visual literacy, and the conceptualization of self-developed projects
- Readiness for a career through a capstone project, an internship experience, and the preparation of a portfolio and related professional documents

Visual Communication Minor

The Visual Communication minor is often added as a secondary focus of study in order to complement or enhance a student's major or chosen career path. Students may also choose to add the minor in order to pursue an area of interest without the responsibility of a major.

While the major (p. 422) is a comprehensive course of study, the minor in Visual Communication is intended to provide a breadth of knowledge. Visual Communication minors develop a base-level understanding of the field, including how to organize complex information in order to persuade, to entertain, and to educate a diverse audience.

Curriculum

A total of 18 credit hours are required for the minor in Visual Communication.

Code	Title	Hours
Foundation Courses		
FNAR 112 or FNAR 113	Two-Dimensional Design Drawing I	3
History Courses		
FNAR 202 or FNAR 364	Global Art History: Modern Art History of Graphic Design	3
Applied Courses		
FNAR 132	Visual Communication I	3
FNAR 232	Visual Communication II	3
FNAR 233	Digital Media Design	3
FNAR 334	Motion Design	3
Total Hours		**18**

Forensic Science

About Us

Forensic scientists analyze and evaluate evidence in criminal investigations. This evidence may include DNA from bodily fluids or other cells, drugs in different forms or in bodily fluids, firearms/weapons, and a variety of other types of evidence. A strong background in natural sciences, especially biology, chemistry or anthropology, allows the scientist to apply their knowledge to these analyses. The Forensic Science Program at Loyola University Chicago emphasizes natural science coursework and builds other necessary skills including critical thinking, ethics, strong analytical abilities, and written and oral communication.

Students pursuing the BS in Forensic Science (p. 426) at Loyola University Chicago benefit from expert faculty and state-of-the-art facilities, preparing them for careers in a variety of occupational settings. Apply today!

Program Mission Statement

Provide Loyola University Chicago students with a solid foundation in the natural sciences, educate students in a broad range of forensic analytical techniques from a generalist perspective, educate students in the various aspects of forensic science professional practice, emphasize the importance of critical thinking skills in approaching forensic science problems, and prepare students for entry level positions in forensic science laboratories and graduate or professional schools in the forensic sciences.

Advisory Board

In keeping with our mission, the Forensic Science Program has an advisory board made up of administrators from forensic laboratories. The relationships with these laboratories allows the Forensic Science Program to provide our graduates with the most relevant education, skills, and abilities to gain employment. Advisory Board members are regional and national leaders, active within their respective disciplines. Members are from the Illinois State Police Forensic Science Center at Chicago, Northeastern Illinois Regional Crime Laboratory, DuPage County Crime Laboratory, Idaho State Police, US Drug Enforcement Administration-North Central Regional Laboratory, US Internal Revenue Service-National Laboratory, US Food and Drug Administration-Forensic Chemistry Center, and United States Drug Testing Laboratories, Inc.

Undergraduate Programs

- Forensic Science (BS) (p. 426)

Undergraduate Policies and Procedures

Please see Undergraduate Policies and Procedures (p. 2050) for academic policies that supersede those of academic units within the University.

Forensic Science (FRSC)

FRSC 340 Introduction to Forensic Science (3 Credit Hours)
Pre-requisites: CJC 101; Forensic Science Majors Only
This course provides an overview of the basic principles and uses of forensic science within the field of criminal justice. The course is designed for forensic science majors emphasizing the scientific aspects in the forensic sciences.
Interdisciplinary Option: Forensic Science
Outcomes:
Students will be able to identify the uses and limitations of the existing forensic science techniques used within the field of criminal justice

FRSC 341 Forensic Ethics and Professional Practice (3 Credit Hours)
Pre-requisites: FRSC 340; Forensic Science Majors only
This course develops a basic scientific literacy, understanding of the scientific method of inquiry, understanding ethical thought and application of ethics to the field and professional practice of forensic science.
Interdisciplinary Option: Forensic Science
Outcomes:
Students will demonstrate an understanding and application of ethics in the forensic sciences; Students will be able to articulate the role and challenges of ethical issues facing forensic science today, the applicability of ethics in the profession and their individual careers

FRSC 342 Expert Witness Testimony and Court Room Demeanor (3 Credit Hours)
Pre-requisites: FRSC 341; Forensic Science Majors Only
The goal for this course is to give you the information necessary to be an effective and ethical witness. This should help throughout your career and help make testimony not so much something to be feared as something which represents the culmination of your work in a case.
Interdisciplinary Option: Forensic Science
Outcomes:
Students should develop courtroom and expert witness testimony literacy, understanding of the dynamics during court and appreciate the impact to the judicial system

FRSC 343 Physical Organic Chemistry for Forensic Science (3 Credit Hours)
Pre-requisites: PHYS 112; MATH 132; CHEM 222 or (CHEM 224 and CHEM 226) or (CHEM 240, CHEM 241, CHEM 260, and CHEM 272); and Forensic Science majors
An introduction to the foundational principles of physical and physical organic chemistry. The course focuses on the application of these principles to solving problems in forensic science. The numerous aspects of forensic science require a working knowledge of physical chemistry, the foundational principles, and the interrelation of cause and effect.
Outcomes:
Understand the basic concepts of physical and physical organic chemistry; Acquire and interpret data and form conclusions; and Use critical thinking skills in problem solving

FRSC 350 Pattern Evidence I (3 Credit Hours)
Pre-requisites: FRSC 341; Forensic Science Majors only
This course introduces the basic principles and methods of forensic pattern evidence: latent fingerprints, firearms and tool marks, and question documents.
Interdisciplinary Option: Forensic Science
Course equivalencies: X-CRMJ382/FRSC382
Outcomes:
Students will demonstrate an understanding of the three (3) forensic pattern evidence areas; Students will develop techniques, work on non-probative cases, and written formal reports of findings

FRSC 350L Pattern Evidence Lab I (1 Credit Hour)
Co-requisites: FRSC 350; Forensic Science Majors only
This course introduces the basic laboratory methods of forensic pattern evidence: latent prints, firearms and toolmarks, and questioned documents. Prerequisite or
Interdisciplinary Option: Forensic Science
Outcomes:
Students will demonstrate a basic competency through development of various techniques; Students will work non-probative cases, along with written formal reports of their findings

FRSC 360 Forensic Drug Chemistry I (3 Credit Hours)
Pre-requisites: (CHEM 212, CHEM 214, CHEM 224, and CHEM 226) or (CHEM 241, CHEM 272, and CHEM 280); FRSC 342 and Forensic Science majors
This course provides an introduction to the basic principles of forensic drug analysis. The use of microscopic, chemical, and chromatographic techniques to gather data, interpret results and form conclusions are developed. Recognizing the strengths and weaknesses in the techniques used and the correct interpretation of results is stressed.
Interdisciplinary Option: Forensic Science
Course equivalencies: CHEM 316/FRSC 360
Outcomes:
The techniques, skills, advances and limitations of the modern forensic laboratory discussed; The students will be able to summarize basic concepts of forensic drug analysis, testing, and formal reporting

FRSC 360L Forensic Drug Chemistry Laboratory I (2 Credit Hours)
Pre-requisites: (CHEM 212, CHEM 214, CHEM 224, and CHEM 226) or (CHEM 241, CHEM 272, and CHEM 280); FRSC 342 and Forensic Science majors
Co-requisites: FRSC 360
This course provides both basic and advanced foundations to the principles of forensic drug analysis. The use of basic and advanced analytical techniques to gather data, interpret results and form conclusions are developed. Additionally, national forensic laboratory operational standards and requirements are incorporated.
Interdisciplinary Option: Forensic Science
Course equivalencies: CHEM 316L/FRSC 360L
Outcomes:
The techniques, skills, advances and limitations of the modern forensic laboratory will be discussed; The students will be able to demonstrate basic/advanced concepts of forensic drug analysis, testing, and formal reporting

FRSC 361 Forensic Toxicology I (3 Credit Hours)
Pre-requisites: FRSC 360/360L; Co-requisite FRSC 361L; Forensic Science Majors Only
This course stresses the practical and theoretical aspects to forensic toxicology, the study of drugs and their implications in a forensic setting when toxicity sets in. The analysis and description of drugs are introduced. Case studies are reviewed where drug use may become a forensic matter.
Interdisciplinary Option: Forensic Science
Course equivalencies: CHEM 315/FRSC 361
Outcomes:
Students should develop basic scientific literacy, understanding of the scientific method of inquiry, understanding ethical thought and application of ethics to the field of forensic toxicology

FRSC 361L Forensic Toxicology Laboratory I (1 Credit Hour)
Pre-requisites: FRSC 360/360L; Corequisite: FRSC 361; Forensic Science Majors Only
This course stresses the practical and theoretical aspects to forensic toxicology, the study of drugs and their implications in a forensic setting when toxicity sets in. The analysis and description of drugs are introduced. Case studies are reviewed where drug use may become a forensic matter.
Interdisciplinary Option: Forensic Science
Outcomes:
The techniques, skills, advances and limitations of the modern forensic laboratory discussed; The students will be able to summarize basic concepts of forensic drug analysis, testing, and formal reporting

FRSC 370 Forensic Biology (3 Credit Hours)
Pre-requisites: FRSC 341, BIOL 102 and 112; Corequisite: FRSC 370L; Forensic Science Majors Only
This course stresses the practical and theoretical aspects to forensic biology. Forensic biology includes the examination, identification, and characterization of biological materials found on various types of evidence.
Interdisciplinary Option: Forensic Science
Outcomes:
Students should develop basic scientific literacy, understanding of the scientific method of inquiry, understanding ethical thought and application of ethics to the field of forensic biology

FRSC 370L Forensic Biology Laboratory (1 Credit Hour)
Pre-requisites: FRSC 341, BIOL 102 and 112; Corequisite: FRSC 370; Forensic Science Majors Only
This course stresses the practical and theoretical aspects to forensic biology. Forensic biology includes the examination, identification, and characterization of biological materials found on various types of evidence.
Interdisciplinary Option: Forensic Science
Outcomes:
Students should develop basic scientific literacy, understanding of the scientific method of inquiry, understanding ethical thought and application of ethics to the field of forensic biology

FRSC 371 Forensic Molecular Biology Lecture and Laboratory (5 Credit Hours)
Pre-requisites: BIOL 282, BIOL 283, FRSC 342, FRSC 370, FRSC 370L; Forensic Science Majors only - Biology/DNA Option
This course prepares students to work in forensic DNA analysis. The lectures cover the basic aspects of DNA structure and function while the laboratory gives students experience with the techniques and instruments used in forensic DNA analysis.
Interdisciplinary Option: Forensic Science
Course equivalencies: BIOL 391/FRSC 371
Outcomes:
Students will have a strong theoretical understanding of STR marker origin, population biology, and legal uses, and will be able to isolate and process DNA for STR scoring

FRSC 390 Forensic Science Internship (3-4 Credit Hours)
Pre-requisites: FRSC 342; Forensic Science Majors Only
The purpose of this course is to enhance the student's development and learning through observational and participatory experience in forensic focused criminal justice agencies.
Interdisciplinary Option: Forensic Science
This course satisfies the Engaged Learning requirement.
Course equivalencies: X-FRSC 390/ANTH 396A
Outcomes:
Students will be able to contribute in a meaningful way to the operation of a specific forensic focused criminal justice agency and be able to identify and describe the link between their field experience and prior courses

FRSC 392 Forensic Science Seminar (1 Credit Hour)
A weekly seminar course with presentations, generally given by outside speakers, covering topics in chemistry usually not encountered in the classroom. Forensic Science Majors Only.
Interdisciplinary Option: Forensic Science
Outcomes:
Students will demonstrate their understanding by writing a one page summary of each presentation

FRSC 394 Forensic Science Research (1-4 Credit Hours)
Pre-requisites: Prior consultation with the instructor and a completed agreement form; Agreement forms for this directed study course are obtained from the program office, and the completed form (signed by the student, instructor, and program director) must be deposited in the program office before enrollment
This course gives undergraduate students an opportunity to participate in research in a selected area. Forensic Science Majors Only.
Interdisciplinary Option: Forensic Science
This course satisfies the Engaged Learning requirement.
Outcomes:
Students will accomplish the research task defined in the contractual arrangement between the student and the instructor

FRSC 395 Special Topics in the Forensic Science (3 Credit Hours)
Pre-requisites: FRSC 341; Forensic Science Majors Only
Special topics courses provide students with an opportunity to examine various forensic science topics not normally offered as part of the Program's regular curriculum.
Interdisciplinary Option: Forensic Science
Outcomes:
Students will be able to gain an understanding of new issues confronting the forensic sciences, or an advanced understanding of traditional subjects covered in basic courses

Forensic Science (BS)

Loyola's strong reputation in the sciences, along with its successful track record in preparing students for the health professions, enables forensic science graduates to begin highly successful careers in this dynamic field.

The Program is fully accredited by The Forensic Education Programs Accreditation Commission (FEPAC). Learn more about FEPAC on their website. (https://www.fepac-edu.org/)

This major combines coursework from biology, chemistry, criminal justice, mathematics, physics, in addition to forensic science courses.

Program Content and Sensitive Topics

The Forensic Science Program curriculum, by its very nature, includes sensitive topics such as drug overdose, drug-facilitated sexual assault, sexual violence, domestic violence, postmortem forensic toxicology, homicides, and other violent crime. Our faculty endeavor to handle these topics with the appropriate respect, professionalism, gravity, and discretion. However, students should be aware that these and other topics involving criminal behavior are covered in numerous courses throughout the curriculum. Some courses also include in-depth discussion and case studies.

The forensic science major requires 85-87 credit hours of coursework. The curriculum delivers a broad knowledge base and covers the three major areas in forensic science laboratories: pattern, biology-DNA, and chemistry. Students in this program are required to include the following classes in their curriculum:

Code	Title	Hours
Laboratory Science Courses		
BIOL 101	General Biology I	3
BIOL 111	General Biology I Lab	1
BIOL 102	General Biology II	3
BIOL 112	General Biology II Lab	1
BIOL 282	Genetics	3
BIOL 283	Genetics Laboratory	1
BIOL 366 / CHEM 361	Cell Physiology & Biochemistry	3
BIOL 366L	Cell Physiology & Biochemistry Lab	2
CHEM 160	Chemical Structure and Properties	3
CHEM 161	Chemical Structure and Properties Laboratory	1
CHEM 180	Chemical Reactivity I	3
CHEM 181	Chemical Reactivity I Lab	1
CHEM 240	Chemical Reactivity II	3
CHEM 241	Chemical Reactivity II Laboratory	1
CHEM 260	Quantitative Methods in Chemistry	3
CHEM 272	Analytical Chemistry Laboratory	2
CHEM 280	Environmental & Chemical Analysis	3
PHYS 111 & 111L	College Physics I Lec / Dis and College Physics Laboratory I	4
PHYS 112 & 112L	College Physics II Lec/Disc and College Physics Lab II	4
Forensic Science and Criminal Justice Courses		
CJC 101	Criminal Justice in a Global Context	3
FRSC 340	Introduction to Forensic Science	3
FRSC 341	Forensic Ethics and Professional Practice	3
FRSC 342	Expert Witness Testimony and Court Room Demeanor	3
FRSC 343	Physical Organic Chemistry for Forensic Science	3
FRSC 350 & 350L	Pattern Evidence I and Pattern Evidence Lab I	4
FRSC 360 & 360L	Forensic Drug Chemistry I and Forensic Drug Chemistry Laboratory I	5
FRSC 370 & 370L	Forensic Biology and Forensic Biology Laboratory	4
Forensic Capstone		
Select one of the following:		3-5
FRSC 361 & 361L	Forensic Toxicology I and Forensic Toxicology Laboratory I	
FRSC 371	Forensic Molecular Biology Lecture and Laboratory	
ANTH 396	Internship in Anthropology [1]	
Ancillary Courses		
MATH 131	Applied Calculus I	3
MATH 132	Applied Calculus II	3
BIOL 335	Intro to Biostatistics	3
or STAT 335	Introduction to Biostatistics	
Total Hours		**85-87**

[1] Requires ANTH 326 Human Osteology Lec/Lab as a prerequisite

In addition to fulfilling major requirements to earn an undergraduate degree, students are required to complete Loyola's Core Curriculum (p. 1212), which teaches them important skills and values. Students also develop their own interests by taking general electives.

Electives

Code	Title	Hours

Students in this program are encouraged, but not required, to select elective courses from the following list:

ANTH 324	Human Evolution	3
ANTH 326	Human Osteology Lec/Lab	4
BIOL 242	Human Structure and Function I	4
BIOL 359 / ANTH 359	Paleopathology	3
BIOL 243	Human Structure and Function II	4
BIOL 251	Cell Biology	3
BIOL 341	Histology Lec/Lab	4
BIOL 342	Human Anatomy	4
BIOL 363	Entomology Lec/Lab	4
BIOL 389	Introduction to Pharmacology	3
FRSC 390	Forensic Science Internship	3-4
FRSC 392	Forensic Science Seminar	1
FRSC 394	Forensic Science Research	1-4
FRSC 395	Special Topics in the Forensic Science	3
CJC 201	Theories of Criminal Behavior	3
CJC 202	Criminal Courts	3
CJC 203	Policing	3
CJC 322	Criminal Law	3
CJC 323	Criminal Procedure	3
CJC 371	Victimology	3

Suggested Sequence of Courses

Students **not** placing in MATH 118 Precalculus II or higher cannot start the Chemistry sequence until MATH 117 Precalculus I is completed with a grade of C- or better. Such students are advised to enroll in first-year Chemistry courses in the summer sessions (after meeting the math requirement) in order to complete the major in four years.

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

Course	Title	Hours
Year 1		
Fall		
BIOL 101	General Biology I	3
BIOL 111	General Biology I Lab	1
CHEM 160	Chemical Structure and Properties	3
CHEM 161	Chemical Structure and Properties Laboratory	1
MATH 131 or MATH 161	Applied Calculus I or Calculus I	3
UCWR 110	Writing Responsibly	3
UNIV 101	First Year Seminar	1
	Hours	**15**
Spring		
BIOL 102	General Biology II	3
BIOL 112	General Biology II Lab	1
CHEM 180	Chemical Reactivity I	3
CHEM 181	Chemical Reactivity I Lab	1
MATH 132 or MATH 162	Applied Calculus II or Calculus II	3
CJC 101	Criminal Justice in a Global Context	3
Philosophical Foundational Core [1]		3
	Hours	**17**
Year 2		
Fall		
PHYS 111	College Physics I Lec / Dis	3
PHYS 111L	College Physics Laboratory I	1
CHEM 240	Chemical Reactivity II	3
CHEM 241	Chemical Reactivity II Laboratory	1
FRSC 340	Introduction to Forensic Science	3
Historical Foundational Core [1]		3
Ethics Core [1]		3

BIOL 366 / CHEM 361	Cell Physiology & Biochemistry	3
BIOL 366L	Cell Physiology & Biochemistry Lab [2]	2
STAT 335	Introduction to Biostatistics	3
FRSC 342	Expert Witness Testimony and Court Room Demeanor	3
Foreign Language 102 [1]		3
Societal/Cultural Foundation Core [1]		3
	Hours	**17**
Year 4		
Fall		
FRSC 360	Forensic Drug Chemistry I	3
FRSC 360L	Forensic Drug Chemistry Laboratory I	2
FRSC 370	Forensic Biology	3
FRSC 370L	Forensic Biology Laboratory	1
Artistic Core [1]		3
Literary Tier 2 Core [1]		3
Philosophical Tier 2 Core [1]		3
	Hours	**18**

Spring		
FRSC 361 & 361L or FRSC 371 or ANTH 396	Forensic Toxicology I or Forensic Molecular Biology Lecture and Laboratory or Internship in Anthropology	3
FRSC 390 or FRSC 394	Forensic Science Internship [1,2] or Forensic Science Research	3-4
Historical Tier 2 Core [1]		3
Societal/Cultural Tier 2 Core [1]		3
Theological Tier 2 Core [1]		3
	Hours	**15-16**
	Total Hours	**134-135**

[1] Scheduling of this course is flexible

[2] BIOL 366L, FRSC 390, and FRSC 394 satisfy the Engaged Learning requirements.

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

The Forensic Science Program is dedicated to:

- Provide forensic science students with a solid foundation in the natural sciences.
- Educate forensic science students in a broad range of forensic analytical techniques and in the various aspects of forensic science professional practice and allow students to develop critical thinking skills required to solve problems encountered in the forensic sciences.
- Prepare forensic science students for entry-level positions in forensic science laboratories and graduate/professional schools in the forensic sciences.

Global Studies

About Us

In 2021, the Global and International Studies Program (GIST) changed its name to "Global Studies" (GLST). Students who declared a GIST major or minor before August 1, 2021 will be subject to the requirements at the time that they declared the major or minor. All students who enter the program after August 1, 2021 will be subject to the new global studies major requirements.

The Global Studies Program serves students who wish to achieve a deeper understanding of other nations, cultures, and peoples in the modern world. Students majoring or minoring in Global Studies will explore general aspects of the international system from the perspectives of the academic departments represented in the program. Students will also examine the histories, cultures, and political systems of various regions of the world. To facilitate these studies, global studies majors and minors will develop a level of proficiency in a modern language beyond the general requirement of the College of Arts and Sciences.

The Global Studies Program prepares students for careers in an increasingly interdependent global environment. Professions that draw especially heavily on a background in global studies include those in business, communication, public service, education, journalism, law and social work. Completing a global studies major or minor also helps prepare students for graduate studies in global/international affairs.

Undergraduate Programs

- Global Studies (BA) (p. 429)
- Global Studies/International Affairs (BA/MA) (p. 1096)
- Global Studies Minor (p. 433)

Undergraduate Policies and Procedures

Please see Undergraduate Policies and Procedures (p. 2050) for academic policies that supersede those of academic units within the University.

Global Studies (GLST)

GLST 101 Introduction to Global Studies (3 Credit Hours)
This course serves as an introduction to the interdisciplinary field of global studies. It provides an overview of the major disciplines represented in the program, introduces the main regions covered in the program, and discusses important global issues.
Interdisciplinary Option: Global Studies
Outcomes:
By analyzing various topics in global studies, students will gain an understanding of the different regions of the world and the ways that different disciplines contribute to this interdisciplinary field

GLST 301 Capstone in Global Studies (3 Credit Hours)
Pre-requisites: Course requires permission of instructor; GLST will enroll approved students directly (no self-enrollment or non-GLST advisors); Course is open only to junior and senior majors and minors
This course focuses on an important global issue or set of issues relevant to the concerns of the Global Studies program. Students who choose to take the capstone course will normally complete a very substantial research project that they work on over the entire semester.
Interdisciplinary Option: Global Studies
Outcomes:
Students will improve their research and writing skills and will acquire an in-depth knowledge of an issue critical to a comprehensive understanding of the interdisciplinary field of global studies

GLST 302 States and Firms (3 Credit Hours)
This course focuses on the relationship between multinational corporations and the state. It explores the origin of firms, as well as issues such as corruption, tax policy, bailouts, and economic development. It also examines the development of private military contractors and their relationship to state security.
Interdisciplinary Option: Global Studies
Outcomes:
Students will be able to demonstrate understanding of the various relations between multinational corporations and states as well as private military contractors and states

GLST 303 Technological Change and Society (3 Credit Hours)
This course explores how changes in technology affect society in four broad areas: its impact on how we communicate, on the workplace, on regulatory issues surrounding technology firms, and on humanity itself.
Interdisciplinary Option: Global Studies
Outcomes:
Students will be able to demonstrate an understanding of the various relations between technology and society

GLST 304 Global Civil Society and Social Movements (3 Credit Hours)
This course focuses on global civil society groups (both advocacy groups or apolitical) and on social movements that seek to fight injustices. We discuss a variety of examples of civil society projects ranging from monitoring government corruption and promoting micro-credit to organizing transnational protest campaigns.
Interdisciplinary Option: Global Studies
Course equivalencies: X-GLST 304/SOCL 304
Outcomes:
Students will demonstrate a comprehension of the dynamics of global civil society and social movements, both for cases discussed in class and to material from outside class

GLST 305 Globalization and Environmental Sustainability (3 Credit Hours)
This course introduces students to social, political and economic factors that have contributed to globalization, development and their impact on the environment. It provides students with the background and conceptual tools to understand global environmental challenges and questions.
Interdisciplinary Option: Global Studies
Outcomes:
Students will develop a fundamental knowledge of the study of global development and environmental challenges and develop analytical skills to assess the tradeoffs involved in economic development and environmental sustainability

GLST 306 International Development (3 Credit Hours)
This course provides an interdisciplinary overview of the international development system and issues related to development in those countries variously referred to as third world, developing, underdeveloped, or peripheral countries.
Interdisciplinary Option: Global Studies
Course equivalencies: X-GLST 306/SOCL 306
Outcomes:
Students will be able to demonstrate a fundamental knowledge of the various factors that are considered to help or hinder development

GLST 370 Internship in Global Studies (3-6 Credit Hours)
Pre-requisites: Open to all GLST major and minors but requires instructor permission to enroll
Students enrolled in this course must secure an internship relevant to the field of global studies. Students not only engage in regular workplace activities but also attend class meetings, complete writing assignments reflecting on their internship placements, write a final paper, and submit a final evaluation from their workplace supervisor.
Interdisciplinary Option: Global Studies
This course satisfies the Engaged Learning requirement.
Outcomes:
Students will obtain practical experience in a professional work setting relevant to their future career paths and will engage in academic reflection on that experience

GLST 398 Topics in Global Studies (3 Credit Hours)
This course allows faculty participating in the Global Studies Program to offer courses on special topics that are not covered by existing courses.
Interdisciplinary Option: Global Studies
Outcomes:
Students will obtain in-depth knowledge of a unique topic in the interdisciplinary field of Global Studies

GLST 399 Directed Readings in Global Studies (3 Credit Hours)
This course offers an independent program of research under the direction of a faculty sponsor leading to a major research paper.
Interdisciplinary Option: Global Studies
Outcomes:
Students will hone research and writing skills in close collaboration with a faculty sponsor

Global Studies (BA)

The BA in Global Studies (GLST) gives students the opportunity to examine global issues from the perspective of several academic disciplines in the humanities and social sciences. While developing an individual program, a global studies student may choose from a very wide range of courses drawn from units across the university.

Curriculum

The curriculum leading to a BA in global studies consists of thirty-three semester hours of coursework (eleven courses) and the fulfillment of an intermediate-level foreign language proficiency requirement. Courses completed to satisfy the language requirement do not count toward the thirty-three semester hours of coursework.

The College of Arts and Sciences requires that a minimum of twenty-one credit hours (seven courses) of any major, including the global studies major, be unique to that major and hence may not count toward any other major or minor. The Global Studies Program allows up to nine credit hours (three courses) to fulfill the requirements of the global studies major and any other individual major or minor. Therefore, students may count up to four classes total toward the global studies BA and all other declared majors/minors.

The major in global studies requires students to complete the following global studies core courses in addition to their global studies elective courses.

For Students Who Declare the Global Studies Major on or after August 1, 2021

Code	Title	Hours
GLST 101	Introduction to Global Studies	3
ANTH 100	Globalization and Local Cultures	3
PLSC 102	International Relations in an Age of Globalization [1]	3
Select two of the following:		6
GLST 301	Capstone in Global Studies	
GLST 302	States and Firms	
GLST 303	Technological Change and Society	
GLST 304	Global Civil Society and Social Movements	
GLST 305	Globalization and Environmental Sustainability	
GLST 306	International Development	
GLST 398	Topics in Global Studies	
GLST 370	Internship in Global Studies [2]	

GLST Elective Courses (p. 430)	18
Total Hours	**33**

1 Note: you can take PLSC 102 International Relations in an Age of Globalization **and** 3 PLSC Electives

2 Internship: note that only 3 credits of GLST 370 Internship in Global Studies can count towards the GLST major

Elective Courses

Global Studies elective courses must be tagged with the GLST program and must include at least two courses that focus on specific world areas (Africa, Asia, Europe, Latin America, and the Middle East). However, students may not take their electives in the same world area. Courses taken abroad may be substituted for LUC GLST courses only if they are pre-approved by the director of the GLST program. In addition, for students who declare the major starting Fall 2015, elective coursework must be from at least three departments. No more than three courses taken from any single department can count for the GLST major.

If a student wishes to concentrate on a particular region (e.g., Africa, Asia, Europe, Latin America, or the Middle East) within the global studies major, he or she may choose to take up to six GLST electives that focus on the chosen world area. It is not required, however, that students do this.

Geographic Region: Africa

Code	Title	Hours

Portfolio Requirement

All graduating global studies majors must submit during their final semester of undergraduate studies a major's portfolio. The portfolio should be submitted by email to chasselmann@luc.edu and should include the following:

1. Electronic copies of two papers (six pages minimum, if possible) from courses you took as part of your global studies major (from two different courses, please);
2. a personal statement describing the most important knowledge and skills you have gained as a global studies major as well as the courses and experiences you have found most helpful; and
3. your assessment of the strengths and weaknesses of the Global Studies Program itself. The personal statement and assessment of strengths and weaknesses together should total about 300-600 words.

December graduates must submit their portfolios by November 1st of their final semester; May graduates must submit their portfolios by April 1st of their final semester. Please note that portfolio submission prior to graduation is a requirement that is separate from all other global studies major requirements.

Language Requirement

The language requirement for the major in global studies may be satisfied in any of the following ways:

- Successful completion with a grade of "C" or better of a 104-level or higher course in one of the accepted modern, foreign languages offered by the Department of Modern Languages and Literatures.
- Completion of a language proficiency examination or the equivalent, administered by the Department of Modern Languages and Literatures, demonstrating proficiency at the 104 level or higher of a modern, foreign language. Please email CASLanguageTesting@luc.edu for information about language proficiency testing.

- Determination by the director of the Global Studies Program, in consultation with appropriate specialists, that a student has at least a 104-level reading and writing proficiency in a language that is not taught or tested at Loyola.

Please note that English, American Sign Language, computer languages, and other US-based languages do not satisfy this requirement.

Suggested Sequence of Courses

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

Course	Title	Hours
Year 1		
Fall		
GLST 101	Introduction to Global Studies	3
	Hours	**3**

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

Upon completion of the program, global studies majors will be able to do the following:

- Demonstrate an ability to describe and analyze two or more important contemporary global concerns (e.g., the environment, violence, human trafficking, poverty, child labor)
- Demonstrate geographical, cultural, and/or historical knowledge of at least two different world regions (Asia, Africa, South America, Europe, and the Middle East)
- Demonstrate an ability to describe and analyze the modern political system of at least two countries outside of North America
- Demonstrate an ability to describe and analyze the significance and activities of two or more international/global organizations

Global Studies Minor

The minor in global studies benefits students who want to engage in a focused program of coursework in the study of global studies, but are unable to complete the global studies major.

Curriculum

The curriculum leading to a minor in global studies consists of eighteen semester hours of coursework (six courses) and the fulfillment of a language proficiency requirement. Courses completed to satisfy the language requirement do not count toward the eighteen semester hours of coursework.

Of the eighteen hours of coursework leading to a minor in global studies, students must successfully complete all of the following:

Code	Title	Hours
Minor Requirements		
GLST 101		3
Select one of the following:		3
GLST 302	States and Firms	
GLST 303	Technological Change and Society	
GLST 304	Global Civil Society and Social Movements	
GLST 305	Globalization and Environmental Sustainability	
GLST 306	International Development	
GLST 370	Internship in Global Studies	
At least one general course focusing on various aspects of global studies		3
At least two regional studies courses focusing on Africa, Asia (including East Asia, South Asia, Southeast Asia), Eastern or Western Europe, Latin America, or the Middle East. Your regional courses must focus on at least two different regions of the world.		6

Global studies elective of the student's choice	3
Total Hours	**18**

In order to ensure the interdisciplinary character of the program, no more than two of the six courses taken for the global studies minor may be from a single academic department. Students may count up to three of the 300-level global studies courses listed above toward the global studies minor as these courses are inherently interdisciplinary. A maximum of two courses may count toward the GLST minor and another major or minor. No more than three courses total may count for the global studies minor and all other declared majors/minors.

Regional Studies and Elective Courses

Global Studies elective courses must be tagged with the GLST program and must include at least two courses that focus on specific world areas (Africa, Asia, Europe, Latin America, and the Middle East). However, students may not take their electives in the same world area. Courses taken abroad may be substituted for LUC GLST courses only if they are pre-approved by the director of the GLST program. In addition, for students who declare the major starting Fall 2015, elective coursework must be from at least three departments. No more than three courses taken from any single department can count for the GLST major.

If a student wishes to concentrate on a particular region (e.g., Africa, Asia, Europe, Latin America, or the Middle East) within the global studies major, he or she may choose to take up to six GLST electives that focus on the chosen world area. It is not required, however, that students do this.

Language Requirement

The language requirement for the minor in global studies may be satisfied in any of the following ways:

- Successful completion with a grade of "C" or better of three or more years of high school instruction in the same modern foreign language.
- Successful completion with a grade of "C" or better of a 103-level or higher course in one of the accepted languages offered by the Department of Modern Languages and Literatures.
- Completion of a language proficiency examination or the equivalent, administered by the Department of Modern Languages and Literatures, demonstrating proficiency at the 103 level or higher. Please email CASLanguageTesting@luc.edu for information about language proficiency exams.
- Determination by the director of the Global Studies Program, in consultation with appropriate specialists, that a student has at least a 103-level reading and writing proficiency in a language that is not taught or tested at Loyola.

Please note that English, American Sign Language, computer languages, and other US-based languages do not satisfy this requirement.

Suggested Sequence of Courses

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the

start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

Fulfillment of the required language proficiency is not included below as those courses do not count toward the credit hours of the minor. Courses must be taken or waived by placement examination before completion of the minor.

Course	Title	Hours
Year One		
Semester I		
GLST 101	Introduction to Global Studies	3
	Hours	**3**
Semester II		
General Global Studies Course		3
	Hours	**3**
Year Two		
Semester III

	Hours	**3**
Semester IV		
Regional Studies Course #1		3
	Hours	**3**
Year Three		
Semester V		
Regional Studies Course #2		3
	Hours	**3**
Semester VI		
Elective		3
	Hours	**3**
	Total Hours	**18**

Declaring a Minor in Global Studies

Please use LOCUS to declare a minor. We encourage you to also meet with the global studies director to discuss program requirements, career goals, and internship options.

Learning Outcomes

Upon completion of the program, global studies minors will be able to do the following:

- Demonstrate an ability to describe and analyze some important contemporary global concerns (e.g., the environment, violence, human trafficking, poverty, child labor)
- Demonstrate geographical and historical knowledge of different world regions (Asia, Africa, South America, Europe, and the Middle East)
- Demonstrate an ability to describe and analyze important elements of some non-US cultures
- Demonstrate an ability to describe and analyze the modern political system of at least one country outside of North America

History

Overview

History Department faculty are engaged with wide-ranging fields of history across the globe, wrestling with the human past in all its complexity and contingency. Our curriculum is designed to develop a deep understanding of that past and to provide students with insight into the world in which they live through a perspective of time and change. History courses include a consideration of ideas, values and value systems, enhancing students' understanding of and appreciation for both their own and other cultures. At the same time, our curriculum teaches historical writing, analysis and research, and it fosters an appreciation of historical prose as a distinctive form of literature.

History is a form of inquiry and understanding that encompasses all aspects of the human experience and illuminates how the past

causes the present and thus the future. Graduates should demonstrate understanding of the importance of chronology, sequential development, and geography; be able to evaluate historical evidence; understand the forces and processes of historical change and continuity; and have the capacity to handle diverse historical interpretations.

Undergraduate Programs

- History (BA) (p. 454)
- History (BA/MA) (p. 1111)
- History/International Affairs (BA/MA) (p. 1113)
- History Minor (p. 456)
- Honors in History (p. 457)

History Department Policies

Double Dipping Policy

The History Department's policy on 'double dipping', or having courses count toward more than one major or minor, is below; it is consistent with the general policy of the College of Arts and Sciences.

1. Students may not major and minor in the same discipline.
2. Majors: Not less than 21 credit hours in the individual student's transcript must be unique to each major; that is, the courses in question are considered as actually fulfilling requirements of one major, not of more than one major.
3. Minors and interdisciplinary minors: not less than 8 credit hours in the individual student's transcript must be unique to each minor; that is, the courses in question are considered as actually fulfilling requirements of one minor, not of more than one minor or major.
4. General exceptions to Rules 2 and 3 will be made if approved by the chairs/directors of the department(s)/program(s) housing each affected major and minor. A list of standing general exceptions will be maintained by the Dean's office.
5. Individual student exceptions may be made in appropriate cases by department chairs and program directors.
6. Departments and Programs may enforce stricter double-dipping policies than those stated above, which also should be provided to the Dean's Office.

Undergraduate Policies and Procedures

Please see Undergraduate Policies and Procedures (p. 2050) for academic policies that supersede those of academic units within the University.

History (HIST)

HIST 101 Evolution of Western Ideas Institutions to 17th Century (3 Credit Hours)
This course traces the early development of Western civilization from the ancient Near East; Greece and Rome; the medieval civilization(s); to the European Renaissance and Reformation.
Knowledge Area: Foundational Historical Knowledge
Interdisciplinary Option: Catholic Studies
Course equivalencies: X-HIST101/CATH101/ACHIS101
Outcomes:
Students will gain an understanding of history as a discipline; be able to place Judaism, Christianity, and Islam in historical context; explain the expansion of the West; and develop their critical thinking and communications skills

HIST 102 Evolution Western Ideas Institutions Since 17th Century (3 Credit Hours)
This course traces the development and of western civilization and its global impact from the seventeenth century to the present.
Knowledge Area: Foundational Historical Knowledge
Interdisciplinary Option: European Studies
Course equivalencies: ACHIS 102 / HIST 102
Outcomes:
Students will gain an understanding of history as a discipline, develop critical thinking skills based on historical knowledge about the key people, places, and events that shaped the modern world, and hone their communication skills

HIST 103 American Pluralism (3 Credit Hours)
This course is an introduction to history as a discipline, and an analysis of the origins, development and structure of the United States as a pluralistic and multiracial society from 1609 to the present.
Knowledge Area: Foundational Historical Knowledge
Outcomes:
Students will be able to demonstrate historical knowledge, draw links between the American experience and national identities, and to develop critical thinking and communication skills

HIST 104 Global History Since 1500 (3 Credit Hours)
This course deals with the emergence of the modern world, including such topics as the expansion and intensification of cross-cultural interaction; imperialism, colonialism, and nationalism; the spread of information; capitalism, industrialism, and popular sovereignty; race and ethnicity, gender, and socio-economic status.
Knowledge Area: Foundational Historical Knowledge
Interdisciplinary Option: Global Studies
Course equivalencies: HIST104/INTS104
Outcomes:
Students will be able to evaluate and explain the forces of historical continuity and change; demonstrate how the encounters/changes between and among societies produced the world we have today; analyze and discuss the significance of primary and secondary sources and how they relate to the history under discussion

HIST 205 Modern Western Civilization: Social Sciences in Context (3 Credit Hours)
An introduction to history as a discipline and an analysis of the history of Western civilization since the 17th century that emphasizes the contexts from which emerged the concepts of the social sciences and their related value systems.

HIST 208 East Asia Since 1500 (3 Credit Hours)
Requirement: HIST 101, HIST 102, HIST 103, or HIST 104 for students admitted to Loyola University for Fall 2012 or later. No requirement for students with a declared major or minor in History. This course explores the roles and contributions of China, Japan, and Korea from the sixteenth century to the present tracing such themes as nationalism, capitalism, socialism, imperialism, war, peace, race, and gender struggles.
Knowledge Area: Tier 2 Historical Knowledge
Interdisciplinary Option: Asian Studies, Global Studies, Japanese Language and Culture
Course equivalencies: X-HIST108/ASIA108/INTS108
Outcomes:
Students will demonstrate an ability to evaluate and explain the forces of historical continuity and change; understand the relationships among historical events, cultures and social forces; analyze and discuss the significance of primary and secondary sources

HIST 208X Pre-Modern Chinese History (3 Credit Hours)
This course starts with the formative periods of Chinese civilization from the Neolithic era and ends with the Opium War and the collapse of the Manchu Qing Empire in 1911. This course will provide students with an understanding of modern-day China by looking at China's dynamic and multilayered past.
Knowledge Area: Tier 2 Historical Knowledge
Interdisciplinary Option: Asian Studies, Chinese Language & Culture
Course equivalencies: X-HIST342A/ASIA342A
Outcomes:
Students will learn to: situate major historical events in China's early history in their proper geographical, chronological, and thematic context; and use primary and secondary sources to construct interpretations of historical problems and events

HIST 208Z Modern Chinese History (3 Credit Hours)
The course is specifically designed for foreign students studying in Beijing with the objective of enabling them to understand the ongoing social, economic and political trends which have roots in the past. The time period studied will span from the end of the 19th century through the 20th century.
Knowledge Area: Tier 2 Historical Knowledge
Interdisciplinary Option: Asian Studies, Chinese Language & Culture
Course equivalencies: X-HIST346A/ASIA346A/INTS346A
Outcomes:
students will learn to situate major historical events such as the May Fourth Movement in their proper geographical, chronological, and thematic context; and recognize the extent to which history is at the core of current Chinese leaders' speeches, policy making, and rule making

HIST 209 Survey of Islamic History (3 Credit Hours)
Requirement: HIST 101, HIST 102, HIST 103, or HIST 104 for students admitted to Loyola University for Fall 2012 or later. No requirement for students with a declared major or minor in History. The course will introduce the historical development of Islamic civilization and the formation of Muslim social and political institutions from the 7th century to the present.
Knowledge Area: Tier 2 Historical Knowledge
Interdisciplinary Option: African Studies and the African Diaspora, Arabic Language and Culture, Asian Studies, Black World Studies, Global Studies, Islamic World Studies
Course equivalencies: HIST/ASIA/IWS/INTS109/AFR111
Outcomes:
Students will be able to demonstrate knowledge of the historical development and diversity of Islamic beliefs, practices, and institutions in varied regional contexts and historical periods

HIST 210 Introduction to Latin American History (3 Credit Hours)
Requirement: HIST 101, HIST 102, HIST 103, or HIST 104 for students admitted to Loyola University for Fall 2012 or later. No requirement for students with a declared major or minor in History. This course explores the formation of modern Latin America by examining the region as a global nexus where ideologies, cultures, peoples, and political entities have conjoined and clashed from the fifteenth century to the present.
Knowledge Area: Tier 2 Historical Knowledge
Interdisciplinary Option: African Studies and the African Diaspora, Black World Studies, Global Studies, Latin American Studies
Outcomes:
Demonstrate and ability to evaluate and explain forces of historical continuity and change; Demonstrate and understanding of the relationships among historical events, culture and social forces; Differentiate between students' values and ways of understanding the world & those of other cultures

HIST 211 United States to 1865 (3 Credit Hours)
Requirement: HIST 101, HIST 102, HIST 103, or HIST 104 for students admitted to Loyola University for Fall 2012 or later. No requirement for students with a declared major or minor in History. This course is an introduction to the history of the United States from the colonial era through the Civil War.
Knowledge Area: Tier 2 Historical Knowledge
Course equivalencies: HIST201/HIST111/ACHIS201
Outcomes:
Students will demonstrate an understanding of Native American societies, the impact of European colonization, the creation and evolution of democratic institutions in a multicultural society, the geographic expansion of the United States, and the impact of slavery

HIST 212 United States Since 1865 (3 Credit Hours)
Requirement: HIST 101, HIST 102, HIST 103, or HIST 104 for students admitted to Loyola University for Fall 2012 or later. No requirement for students with a declared major or minor in History. This course is an introduction to the history of the United States from the Civil War to the present.
Knowledge Area: Tier 2 Historical Knowledge
Course equivalencies: HIST202/HIST112/ACHIS202
Outcomes:
Students will demonstrate an understanding of how the United States became a modern industrial society, the emergence and evolution of the modern welfare state, the rise of the United States as a global power, and the impact of controversies over civil rights and liberties on American society

HIST 213 Introduction to African History (3 Credit Hours)
Requirement: HIST 101, HIST 102, HIST 103, or HIST 104 for students admitted to Loyola University for Fall 2012 or later. No requirement for students with a declared major or minor in History. This course surveys the history of Africa from dynastic Egypt to post-colonialism. The primary focus of this class is to examine the interactions African peoples had with non-Africans from the 15th century to the present.
Knowledge Area: Tier 2 Historical Knowledge
Interdisciplinary Option: African Studies and the African Diaspora, Black World Studies, Global Studies, Islamic World Studies
Outcomes:
Engage in critical thinking skills and disposition; Engage communication skills and sensitivities; Possess a heightened understanding of diversity in the world

HIST 253A Barbarians and the Fall of the Roman Empire (3 Credit Hours)
This course examines the interaction between Romans and the so-called 'barbarians' such as the Goths, Huns, Slavs, and Arabs from the 2nd to the 7th centuries, with a focus on how new archaeological and skeletal data is changing our understanding of the barbarians.
Interdisciplinary Option: European Studies, Italian Studies, Medieval Studies
Outcomes:
Students will study the role of neighboring peoples in the collapse of the Roman Empire; interpret archaeological data; compare receptions of immigrants and refugees in the ancient and modern world

HIST 254A The Vikings (3 Credit Hours)
The Vikings are popularly thought of as invaders, marauders, destroyers of civilized peace. However, recent research has focused on their society, culture, accomplishments and contributions in a much more positive sense.
Interdisciplinary Option: European Studies, Medieval Studies
Course equivalencies: X-HIST334/MSTU326
Outcomes:
Students will gain an understanding of the impact of the Vikings on European development; a knowledge of historiographical issues concerning the Vikings; and awareness of various types of primary sources

HIST 257A Witchcraft and Science in Pre-Modern Europe (3 Credit Hours)
This course will trace the history of medieval and early modern ideas about nature, magic, demonology, and witchcraft, exploring the history of reason and rationality, elite and popular culture, persecution and society, and the intersections between Magic, Science, and Witchcraft.
Interdisciplinary Option: European Studies, Medieval Studies
Outcomes:
Students will understand connections between witchcraft and popular religions; the gendering of witches; the political and economic aspects of witch trials; and modern portrayals of witches in popular media

HIST 258A Blood, Heresy, and Treason: The Tudors and Stuarts (3 Credit Hours)
This course covers the most crucial period in the history of England, encompassing the Reformation, The Tudors, the Civil War, the Glorious Revolution, and the rise of Britain as a great power. Major figures featured include Richard III, Henry VIII, Thomas More, Elizabeth I, Shakespeare, Oliver Cromwell, and Charles II. Students will confront developments significant not just for the British Isles, but across the globe for centuries. Students will hone their critical thinking skills through the analysis of historical evidence.
Interdisciplinary Option: European Studies

HIST 265A The First World War (3 Credit Hours)
World War I is arguably the greatest watershed separating us from our pre-modern past. This course proposes to explore the causes, campaigns consequences, and cultural legacies of the war. Students will be required to read eyewitness accounts and memoirs, and view films that assess the war's impact on world civilization. Students will learn about the First World War by engaging with primary accounts by combatants and non-combatants. Students will hone their critical thinking skills through the analysis of historical evidence.
Interdisciplinary Option: European Studies, Peace Studies

HIST 267A Modern German Culture and Ideas I (3 Credit Hours)
This course will investigate intellectual and cultural responses to major events of nineteenth-century German history, including the Napoleonic Wars, the Restoration, the Revolution of 1848, the unification of Germany, the German Empire under Bismarck and Wilhelm II, and events leading to the First World War.
Interdisciplinary Option: European Studies, German Studies
Course equivalencies: X-HIST321A/INTS321A
Outcomes:
The student will be able to connect German cultural life to political and social developments, and be able to identify intellectual currents such as Romantic Germany, Idealist Germany, and Dionysian Germany

HIST 267B Modern German Culture and Ideas II (3 Credit Hours)
This course will cover the major phases of modern German history: Wilhelmine Germany, Volkish Germany, Germany in the First World War, Weimar Germany, National Socialist Germany, Germany in the Second World War, Post-War West Germany, East Germany, and Reunification. While setting forth the background of political and social developments, we will carefully consider responses to these issues by leaders in German intellectual and cultural life.
Interdisciplinary Option: European Studies, German Studies, Global Studies
Course equivalencies: X-HIST336/INTS336
Outcomes:
Students will apprehend the role of Germany in World War I; the turn to the Weimar Republic; the Rise and Fall of National Socialism; the emergence of two Germanies as a consequence of defeat in World War II; reunification in 1989; and cultural responses to these developments

HIST 275A The Silk Roads: Global Trade, Culture, & Politics (3 Credit Hours)
The course will cover: exchanges between nomad and sedentary populations in East Asia and the flourishing of information routes to modern day Mongolia, Afghanistan, India, Greece and Rome; interactions with European powers, concepts of colonialism, imperialism, and the emergence of 20th century world wars; contemporary geo-political challenges in the region.
Interdisciplinary Option: Asian Studies, Global Studies, International Studies
Outcomes:
Understand diversity in the World from a historical, political, and economic point of view; familiarize oneself with the relations between Asia and the West; highlight differences, similarities and reciprocal influences

HIST 278A Violence Drug Trafficking & Crime in Latin America (3 Credit Hours)
The aim of this course is to examine the historical factors behind Latin America's contemporary security crisis. With a particular focus on the region's process of modernization, state building and democratization, the course examines the linkages between political and criminal, as well as between past and present forms of violence. Students will be able to demonstrate an understanding of the main institutional, cultural, and political reasons behind the prevalence of violence and crime in the Latin American region.
Interdisciplinary Option: Global Studies, Latin American Studies

HIST 279C History of Computing (3 Credit Hours)
This course will teach students about the history of computing from the development of number systems and arithmetic, through calculating and computing machines, to advanced communication technology via the Internet. The History of Computing will foster historical awareness about the ongoing relationships between social organization, intellectual climate, and technological innovation. Students will attain computer science literacy while studying core historical concepts. They will learn the background of the computing discipline, which plays a significant role in modern human experience.
Course equivalencies: X - COMP 111 / HIST 279C

HIST 279E Climate and History (3 Credit Hours)
Explores the role of climate in history, from the emergence of homo sapiens to recent anthropogenic climate change. Major topics include the social impact of climate variability, sources of resilience, origins of scientific knowledge, and the use of historical knowledge in the present.
Course equivalencies: X-HIST279E/ ENVS279
Outcomes:
Students will analyze examples of climate shaping history, learn different ways that scholars have treated this relationship, and reflect on how this knowledge might be useful today

HIST 280A Pirates and Sailors in the Revolutionary Atlantic (3 Credit Hours)
Moving beyond seafaring lore and legend, this course places the history of pirates and sailors in the context of "Atlantic history." Students will explore how organized conquests and trading ventures led to the formation of the first British empire and the expansion of commercial networks around the Atlantic and beyond.
Outcomes:
Course prepares students to confront the way political and economic power is exercised, justified, questioned, and resisted during periods of rapid, global capitalist expansion

HIST 290A History of Sexuality in the United States (3 Credit Hours)
This course provides a historical introduction to sexual behaviors and attitudes in the United States from the early American period to the present. The primary emphasis concerns the impact of social and political change on sexual norms and behavior.
Interdisciplinary Option: Women & Gender Studies
Course equivalencies: X-HIST392/WOST/WSGS320
Outcomes:
The course enables students to comprehend the evolving boundaries of sexual behavior and the historical transformations of the family, sexuality, gender, and personal identity in the United States

HIST 291A American Icons: Heroes, Images, Ideas (3 Credit Hours)
We explore US history through Iconic photographs, movies, artworks and essays. For example, the film "To Kill a Mockingbird," allows us to delineate the image of race, class and family in the South during the Great Depression, even as the film opens up Hollywood's role in shaping popular ideologies. Learn about 20th-century US history, including the Great Depression, Civil Rights Movement, and Cold War; develop writing and discussion skills; learn about the relationship between history and memory.

HIST 297E North American Environmental History (3 Credit Hours)
This course surveys the environment and environmentalism in United States history, from the transformation of New England into a farm ecology, the expansion of the cotton South, the settlement of the West, to the rise of industrial cities, suburban sprawl, and the globalization of the economy.
Course equivalencies: X-ENVS297/HIST297E
Outcomes:
Students will be able to demonstrate historical knowledge of environmental thought and ecological science, to draw links between environmental concerns and public policies, and to develop critical thinking and communication skills

HIST 298A History and the Public: Intro to Public History (3 Credit Hours)
History and the Public explores the field of public history with special emphasis on the theory, methods, practice, ethics, and controversies faced when preserving or presenting history outside of a formal classroom environment.
Outcomes:
Appreciate how public historians shape public perceptions of the past and how public perceptions of the past shape public history; appreciate the diverse areas of historical practice; enhance teamwork skills

HIST 299 Historical Methods (3 Credit Hours)
Pre-requisites: 12 hours in HIST
This course studies the ways historians arrive at their interpretation of events. This is accomplished through a history of historical writing or through a special selected topic that illustrates the use of different methods by past and present historians. Students are expected to take this course after completing their four introductory courses for the major.
Outcomes:
students will understand that history is not a set of facts but a discipline that depends on competing paradigms and the ongoing interpretation of primary sources

HIST 300 Topics in History (3 Credit Hours)
Special topics or new approaches of current interest to the instructor. They may be used, like all other 300-level courses, to fulfill the history major distribution requirements. The title of each Topics course, specifying date and/or area, will indicate which distribution requirement it fulfills within the history major. Students can take HIST 300 multiple times.

HIST 300A Topics (3 Credit Hours)
Special topics or new approaches of current interest to the instructor. This course counts as a 300-level history elective. Students may repeat the course for credit when the topic changes.
Outcomes:
Students will gain familiarity with the topic; the ability to make connections between secondary and primary sources; and the capacity to think critically about the ways that historians have approached major issues

HIST 300B Topics in Premodern History (3 Credit Hours)
Special topics or new approaches of current interest to the instructor. This course may be used to fulfill the history major distribution requirement in 300-Level Pre-1700 European History or may count as a 300-Level history elective. Students may repeat the course for credit when the topic changes.
Outcomes:
Students will gain familiarity with the topic; the ability to make connections between secondary and primary sources; and the capacity to think critically about the ways that historians have approached major issues

HIST 300C Topics in European History (Post-1700) (3 Credit Hours)
Special topics or new approaches of current interest to the instructor. This course may be used to fulfill the history major distribution requirement in 300-Level Post-1700 European History or may count as a 300-Level history elective. Students may repeat the course for credit when the topic changes.
Interdisciplinary Option: European Studies
Outcomes:
Students will gain familiarity with the topic; the ability to make connections between secondary and primary sources; and the capacity to think critically about the ways that historians have approached major issues

HIST 300D Topics in U.S. History (3 Credit Hours)
Special topics or new approaches of current interest to the instructor. This course may be used to fulfill the history major distribution requirement in 300-level U.S. history or may count as a 300-level history elective. Students may repeat the course for credit when the topic changes.
Outcomes:
Students will gain familiarity with the topic; the ability to make connections between secondary and primary sources; and the capacity to think critically about the ways that historians have approached major issues

HIST 300E Topics in World History (3 Credit Hours)
Special topics or new approaches of current interest to the instructor. This course may be used to fulfill the history major distribution requirement for a 300-level course in the history of Africa, Asia, Latin America, or the Middle East or may count as a 300-level history elective. Students may repeat the course for credit when the topic changes.
Outcomes:
Students will gain familiarity with the topic; the ability to make connections between secondary and primary sources; and the capacity to think critically about the ways that historians have approached major issues

HIST 301 Plagues: The Black Death and Other Pandemics (3 Credit Hours)
This course examines some of the worst pandemics ever to strike humanity, starting with the outbreaks of smallpox and bubonic in the final centuries of the Roman Empire, the devastating Black Death of the 14th century, and the diseases that destroyed the native Americans in the wake of Columbus's voyages.
Interdisciplinary Option: Bioethics
Course equivalencies: X-HIST301/ESP 304
Outcomes:
Students will gain an understanding of: the role of poverty, nutrition, and population in epidemics; state, church, or community responses to epidemics; how science has changed the history of disease

HIST 302 History of Western Education (3 Credit Hours)
History of Western Education. (ELPS 310)
Course equivalencies: X-ELPS301/HIST302

HIST 303 Pre-Industrial City in Europe (3 Credit Hours)
This course traces urban development from late antiquity to the early modern period.
Interdisciplinary Option: European Studies, Medieval Studies
Course equivalencies: X-HIST303/MSTU324
Outcomes:
Students will demonstrate an understanding of the origins and chronology of European town planning and development; and make comparisons with Islamic and Asian cities

HIST 307 Greece to Alexander the Great (3 Credit Hours)
This course explores ancient Greek history, society and culture, from the Bronze Age through the period of Classical Greece ending with Alexander and his empire.
Interdisciplinary Option: European Studies
Course equivalencies: X-CLST309/HIST307
Outcomes:
Students will be able to evaluate and interpret different types of sources critically and explain how these affect our understanding of the ancient Greeks

HIST 308A History of Rome to Constantine (3 Credit Hours)
This course surveys ancient Roman history, with a focus on Rome's conquest of the Mediterranean, the civil wars that ended the Roman Republic, the good and bad emperors of the Principate, and the conversion of Constantine to Christianity.
Interdisciplinary Option: Catholic Studies, European Studies, Rome Studies
Course equivalencies: X-CLST308/HIST308/ROST308
Outcomes:
Students will understand the interrelationship among political, social, economic, and cultural developments and develop their research and writing skills

HIST 308B Pompeii and Herculaneum (3 Credit Hours)
The two best known Roman towns - Pompeii and Herculaneum - whose remains were preserved by the eruption of Mt. Vesuvius in 79 CE - will serve as a microcosm for understanding Roman society.
Interdisciplinary Option: European Studies, Italian Studies
Course equivalencies: HIST328/CLST328/ANTH328
Outcomes:
Students will gain an understanding of how recent archaeological discoveries have changed our view of Pompeii and Herculaneum and learn to "read" such things as dining and bathing rituals, gladiator games, and public and private architecture to gain insight into the structures of Roman social and cultural life

HIST 308C History of Early Christianity (3 Credit Hours)
This course examines the history of Christian communities and beliefs from their emergence in Jewish Palestine to the legalization of that religion in the Late Antique period. Students will gain familiarity with the diversity of early Christian belief, the interaction with the Roman imperial government, the evangelization and spread of Christianity both within the Roman Empire and outside it, the impact of Christianity on Roman social and family life, and the birth of monasticism.
Interdisciplinary Option: Catholic Studies
Course equivalencies: X-HIST309/CATH309
Outcomes:
Students will be able to evaluate the impact of discoveries such as the Dead Sea Scrolls and the Nag Hammadi library on the history of early Christianity; appreciate the extraordinary diversity of early Christianity; understand why Christianity was seen as a threat to Roman family life; improve their research, writing, and oral presentation skills; improve their critical reading skills of both secondary and primary sources

HIST 308D Transformations of Rome in Late Antiquity (3 Credit Hours)
This course focuses on the City of Rome itself from the third century up to the reign of Charlemagne. It demonstrates that this period was a time of gradual transformation and continuity. Both literary sources and the archaeology and epigraphy of the City shall be combined to show that barbarian invasions did not destroy the walls of Rome, and that the arrival of Christianity did not cause the fall of classical culture.
Interdisciplinary Option: European Studies, German Studies, Rome Studies
Course equivalencies: HIST 339/CLST 318
Outcomes:
Students will be able to demonstrate an understanding of the working of historical mechanisms, evaluate and critically analyze this historical period

HIST 309 Shipwreck Archaeology (3 Credit Hours)
Students study how the technology of scuba diving combined with scientific archaeology has created a new discipline of shipwreck archaeology since the 1960s. They follow the history of the discipline and explore shipwrecks from Bronze Age Greece to nineteenth-century Chicago. They synthesize the research and conclusions of nautical archaeologists worldwide and organize those findings for presentation to a broader public in the coherent and imaginative form of their own Museum.
Interdisciplinary Option: Medieval Studies
Course equivalencies: XHIST324MSTU330ANTH347CLST324
Outcomes:
Students understand the importance of vessels conserved at Skuldelev, Lake Nemi and Uluburun for tracing the development of commerce and technology among the Vikings, the Romans, and the Syro-Palestinians of the Levant

HIST 310 The Middle Ages (3 Credit Hours)
This course examines European, Islamic and Byzantine society and culture in the Middle Ages.
Interdisciplinary Option: Catholic Studies, German Studies, Medieval Studies, Rome Studies
Course equivalencies: X-HIST310/MSTU328/CATH310
Outcomes:
Students will learn of the Middle Ages, including relations between religious and political institutions; cultural developments; the rise of towns; reactions to the Black Death and the Hundred Years War

HIST 310A Medieval World 1100-1500 (3 Credit Hours)
This course examines European society and culture in the later Middle Ages.
Interdisciplinary Option: Catholic Studies, German Studies, Medieval Studies
Course equivalencies: HIST311/MSTU332/CATH311
Outcomes:
Students will demonstrate understanding of new forms of schools and learning; the origins of national monarchies; the crusades; chivalry; courtly love and the role of women; the rise of towns; church and state relations; the Black Death and the Hundred Years War

HIST 310B Medieval Culture (3 Credit Hours)
This course explores the three cultures of the Middle Ages - Islam, Byzantium, and Europe, with particular emphasis on art, music, and literature.
Interdisciplinary Option: Catholic Studies, German Studies
Outcomes:
students will understand how these cultures developed through shared roots, mutual influence, interaction and reaction; be able to interpret artistic expression and material culture in historical context; and gain skill in the analysis of primary sources

HIST 310C Medieval Women (3 Credit Hours)
This course explores the lives of medieval women from 500-1500 CE. While paying close attention to medieval ideas about gender and sexuality, students will examine experiences of medieval women from a range of backgrounds and social statuses as well as male and female roles in family life, religion, and politics.
Interdisciplinary Option: Medieval Studies, Women & Gender Studies
Outcomes:
Students will understand resources concerning medieval women while gaining appreciation for the need to challenge historical "master narratives" that frequently ignore or minimize the experiences and roles of women

HIST 310D Medieval Popular Religion (3 Credit Hours)
This course will explore the "lived" religious experience of medieval people through their actions, behaviors and artifacts. "Folk" (or pagan) survivals, pilgrimage, music and arts, devotion to saints, magical beliefs and practices, and attitudes to the natural/supernatural world[s] may be covered, depending on subtitle.
Interdisciplinary Option: Catholic Studies, Medieval Studies
Outcomes:
Students will appreciate the complex world view and agency of regular medieval people; they will acquire research skills and be able to critically assess primary and secondary source materials

HIST 310F Medieval Inquisitions and Heresy (3 Credit Hours)
This course examines the intriguing range of religious beliefs and practices in medieval Europe. Over the course of the semester, students will explore the criteria and processes by which local communities and translocal authorities defined heresy as well as the political interests and cultural assumptions that shaped labels and definitions.
Interdisciplinary Option: Medieval Studies
Outcomes:
Students will understand beliefs that shaped medieval religiosity, gain appreciation for roles played by heretics and inquisitions in premodern Europe, and look for similar phenomena in the modern world

HIST 310G Supernatural in the Middle Ages (3 Credit Hours)
Understanding the medieval supernatural leads to an appreciation of the richness of medieval society and intellectual culture. How were "natural" and "supernatural" defined across time and space, popular and elite cultures? How were ideas about the "supernatural" shaped by daily life, theology?
Interdisciplinary Option: Catholic Studies, European Studies, Medieval Studies
Outcomes:
Think historically about social and intellectual approaches to the supernatural; Assess arguments; interpret and contextualize primary sources; Develop research skills and ability to formulate questions

HIST 310L Love and Violence in Medieval Culture and Society (3 Credit Hours)
We will investigate the extent to which chivalric ideas controlled or encouraged aristocratic violence; the relationship between violence and courtliness; the extent to which chivalry threatened or strengthened royal government; and the influence of courtly love on gender.
Interdisciplinary Option: Medieval Studies, Women & Gender Studies
Outcomes:
Familiarity with medieval ideas about acceptable forms of violence; understand long-term influence of medieval ideas about love, sexuality, and violence; how to read and interpret medieval literary and social texts

HIST 311B The Crusades: Christianity and Islam (3 Credit Hours)
This course examines the origins and development of the Crusades and the Crusader States in the Islamic East. It will explore crusade ideology, political and military histories of crusades, compare Christian, Jewish, and Muslim perceptions of the crusading movement, and consider invocations of Jihad and Crusade into the modern era.
Interdisciplinary Option: Catholic Studies, European Studies, Interreligious and Interfaith Studies, Islamic World Studies, Medieval Studies, Peace Studies
Outcomes:
Students will learn about the histories of the Crusades, the communities impacted by them, and historiographical debates on the topic; They will write papers using primary and secondary sources

HIST 312 England to 1485 (3 Credit Hours)
This course examines the history of medieval England, with an emphasis on its cultural history as manifested through written documents, material remains, art and music.
Interdisciplinary Option: Medieval Studies, Shakespeare Studies
Course equivalencies: X-HIST329/MSTU340
Outcomes:
Students will understand that English culture is an amalgamation of Anglo-Saxon and Norman-French culture, with influences from the Celtic and the Latin culture of Roman Catholicism; and will gain skill in the analysis of primary sources

HIST 314 Renaissance (3 Credit Hours)
This course examines the political and cultural life of Italy's five principal city-states (Rome, Florence, Venice, Milan and Naples) from the era of St. Francis and Dante until the sack of Rome in 1527.
Interdisciplinary Option: Catholic Studies, European Studies, Italian Studies, Medieval Studies, Shakespeare Studies
Course equivalencies: HIST314/MSTU336
Outcomes:
Students gain appreciation for the debate about a rebirth of ancient culture in the city-states of Italy; They acquire special cognizance of humanism as a historical phenomenon and the influence of humanism on education, politics, the visual arts and religion

HIST 314A The Jesuits: Life and History (3 Credit Hours)
This course examines the history of the Society of Jesus from its founding by Ignatius Loyola in the 16th century to its activities in the contemporary world.
Interdisciplinary Option: Catholic Studies, European Studies
Course equivalencies: X-HIST297/CATH297
Outcomes:
Students will gain a sense of the characteristics of Jesuit spirituality and the contribution of Jesuits to various fields of human endeavor such as evangelization, education, politics, literature, and the visual arts

HIST 315 The Reformation (3 Credit Hours)
This course examines the birth and progress of the Reformation in Europe from Luther's protest in 1517 to the conclusion of the Thirty Years War in 1648.
Interdisciplinary Option: Catholic Studies, European Studies, German Studies, Shakespeare Studies
Course equivalencies: X-HIST315/CATH316
Outcomes:
Students gain familiarity with the social, religious, intellectual, and political background of the Reformation; Luther's personal religious experience and his theological convictions; the Swiss Reformation of Zwingli and Calvin; the nature and spread of Calvinism; the elements of the Radical Reformation; and the efforts for Catholic Reform culminating at the Council of Trent

HIST 316 History of Poland (3 Credit Hours)
This course examines political, socioeconomic, and cultural developments in Poland since the first Polish state. Its major themes include: the consolidation of the Polish state; economic and political problems in the 17th Century; revolution and independence; World War II; Communist rule in Poland; and Solidarity.
Interdisciplinary Option: European Studies, European Studies, German Studies, Global Studies, Polish Studies, Shakespeare Studies, European Studies, European Studies, German Studies, Global Studies, Polish Studies, Shakespeare Studies
Outcomes:
Students will improve their analytical, quantitative synthetic, and critical cognitive skills; develop written and oral communications skills; and gain historical knowledge

HIST 317 Age of Absolutism & the Enlightenment (3 Credit Hours)
The course explores the period that leads directly into the French Revolution.
Interdisciplinary Option: European Studies
Outcomes:
Students gain an appreciation of the social and economic role of Western Europe in the world of the 17th and 18th centuries; the nature of classic absolutism as illustrated by the reign of Louis XIV of France; and the origin and evolution of Prussia and Austria as examples of enlightened absolutism

HIST 318A Early Modern England 1485-1760 (3 Credit Hours)
This course surveys the major political, social, economic, religious, and cultural developments in England under the Tudors, Stuarts and early Hanoverians (1485-1760).
Interdisciplinary Option: European Studies, Shakespeare Studies
Outcomes:
Students examine the complexities of the aftermath of the Wars of the Roses; the English Reformation; Elizabethan and Jacobean culture and society; the English Civil War and Glorious Revolution of 1688; the wars against Louis XIV; and the rise of England as a great power

HIST 318B English Social History 1450-1750 (3 Credit Hours)
This is a course in the social and cultural history of early-modern England. It focuses, in particular, upon the tension between how early modern English men and women saw their world (ordered, hierarchical, stable, divinely sanctioned) and what their world was actually like (disordered, socially mobile, unstable, secular).
Interdisciplinary Option: European Studies
Outcomes:
Students will gain an understanding of the best and most recent work in demography, iconography, family history, women's history, and the histories of material culture, popular culture, religion, education and crime, and be exposed both to a wide variety of historical methodologies as well as related fields such as anthropology and art history

HIST 318C London 1550 - 1715 (3 Credit Hours)
This interdisciplinary introduction to the history of London will assess the economic, political, social, and cultural reasons for the city's importance in British and world history.
Interdisciplinary Option: European Studies, Shakespeare Studies, Urban Studies
Outcomes:
Students will gain an understanding of how a variety of source materials can be are used to develop an urban history of Great Britain's capital and apply this knowledge to enhance their own communication and critical thinking skills

HIST 320 Era French Revolution & Napoleon (3 Credit Hours)
This course analyzes the causes, meanings, and consequences of the French Revolution of 1789 by examining French society and culture from the age of absolutism to the end of Napoleon Bonaparte's empire.
Interdisciplinary Option: European Studies
Outcomes:
Students will gain an understanding of both the Revolution itself and its effects on the course of world history and become familiar with variety of analytic styles, such as narrative, political, economic, social, Marxist, and revisionist approaches to the history of the period

HIST 321 19th Century European Culture and Ideas (3 Credit Hours)
This course investigates the main currents of European thought and culture from the Romantic era to the fin de siècle. Using literary texts and music, as well as visual arts, we will study the major intellectual trends of the nineteenth century and attempt to determine their influence on European society.
Interdisciplinary Option: European Studies, German Studies
Outcomes:
By using their historical knowledge of nineteenth century Europe as a guide, students will develop critical thinking and communications skills about the art, music, and literature of the era

HIST 322 Modern France: From Empire to Postcolonial Nation (3 Credit Hours)
This course explores the cultural and political development of modern France as a nation and imperial power. It examines the formation of national identities; the discourse and practice of French nationalism and republicanism; and the forms of resistance and collaboration that shaped relations between citizens, state, colonized peoples, and empire.
Interdisciplinary Option: European Studies, Global Studies
Course equivalencies: X-HIST338/INTS338
Outcomes:
Students will understand how the development of French republicanism and Enlightenment thinking shaped nation and empire building in the 19th century but also influenced colonial resistance in the 20th century

HIST 324 Italy 19th & 20th Centuries (3 Credit Hours)
This course studies the major currents in Italy from the defeat of Napoleon to the present.
Interdisciplinary Option: European Studies, Global Studies, Italian American Studies, Italian Studies, European Studies, Global Studies, Italian American Studies, Italian Studies
Course equivalencies: HIST335/INTS335/ROST335
Outcomes:
Students explore the political, social, religious, economic and intellectual currents against the background of Italy's unification as a nation-state

HIST 325 Modern Britain: Empire, Industry, Democracy (3 Credit Hours)
This course examines political changes in Britain, economic and social causes and consequences of industrialization, and the changing position of Great Britain in Europe and the world.
Interdisciplinary Option: European Studies
Outcomes:
Students will demonstrate an understanding of the political process of democratization and the global affect of economic change on Britain as evidenced in the extension of voting rights, the growth of Empire, the creation of the Commonwealth and participation in the European Union

HIST 325A The British Empire: From Barbados to Brexit (3 Credit Hours)
This course examines the rise and decline of Britain's empire.
Interdisciplinary Option: European Studies, Global Studies
Course equivalencies: X-HIST332/INTS332
Outcomes:
Students will understand the different factors responsible for its growth; relationship of empire and British economic and political change; place of empire in the Victorian ethos; different imperial governing arrangements; growth of nationalism and movements for independence within the empire and commonwealth

HIST 326 Ireland: Colony to Nation State (3 Credit Hours)
This course traces the transformation of Britain's oldest colony into an independent nation between the seventeenth and twentieth centuries.
Interdisciplinary Option: European Studies, Global & International Studies
Course equivalencies: HIST333/INTS333
Outcomes:
Students will develop an understanding of how Irish nationalism shaped British and Irish history and use Ireland as a template to develop critical thinking and communications skills about the transformation of colonies into independent states

HIST 327A The Balkans: History, Fiction, Film (3 Credit Hours)
Covering southeast European areas once ruled by the Habsburg, Venetian, and Ottoman Empires, the course explores the following issues: the rise and fall of empires; nationalism and nation-formation; Communism and post-socialist transformations; popular culture and politics; and experiences of war, organized violence, and international intervention. Students will gain fain factual knowledge (terminology, trends, basic structures) of Balkan societies and develop advanced skills in speaking and writing about history
Interdisciplinary Option: European Studies, Global Studies, Islamic World Studies

HIST 328 Russia Pre-1917: Empire Building (3 Credit Hours)
This course examines how, by the middle of the 19th century, Russia emerged as the largest empire in the world.
Interdisciplinary Option: European Studies, European Studies
Outcomes:
Students will be able to explain how Russia survived the ravages of the Mongols under Chingis Khan, the reign of terror under Ivan the Terrible, westernization under Peter the Great; opened itself to new ideas under Catherine the Great, while it continued to preserve an oppressive institution of serfdom and remained a deeply divided society ready to explode in 1917

HIST 328A Russian Empire and Literature (3 Credit Hours)
This course examines a history of the Russian empire through the works of Russian literature. What Russian writers from Pushkin to Tolstoy can tell us about Russia and how a history of the Russian empire is crystallized in the works of fiction are among the issues addressed in this course. Course introduces students to the history of the Russian empire and classics of Russian literature. A historical and literary context will help students understand the predicament of contemporary Russia.
Interdisciplinary Option: European Studies

HIST 329 Women's Sphere in Past Society (3 Credit Hours)
This course examines comparative perspectives on feminism, sexuality, and women in the family and in public life in Europe 1700-present.
Interdisciplinary Option: Women & Gender Studies
Course equivalencies: X-HIST293/WOST256/WSGS256
Outcomes:
Students will demonstrate understanding of women's contributions to history, historian's perspectives on women in history, and the gendered definition of public and private spheres

HIST 329C Empire, Sex, Violence: European Colonial History (3 Credit Hours)
This course examines European colonialism in Africa and Asia. Topics include theories of imperial expansion; the rise of "scientific" racism; the role of class and gender in colonial ideologies; the relationship between ideas of "civilization" and colonial violence; the forces behind decolonization; and globalization in the post-colonial world. Students will know the political and socio-economic factors that shaped European imperialism in the nineteenth and twentieth centuries and understand the consequences of colonialism and decolonization on the world today.
Interdisciplinary Option: European Studies, Global Studies, Women & Gender Studies

HIST 329N Modern European Nationalism: Myth and Reality (3 Credit Hours)
The course will begin by tracing the origins and various forms of European nationalism, continue with the establishment of nation-states in Western and Eastern Europe, and end with a discussion of various national and ethnic issues that dominate European political and ideological discourse today.
Interdisciplinary Option: European Studies, Global Studies, Polish Studies
Outcomes:
Students will explore ways in which nationalism has affected relations between individuals, communities, and states in Europe; Students will assess nationalism's adaptability to diverse social, political, and cultural environments

HIST 330 Europe in the Age of Catastrophe, 1900-1945 (3 Credit Hours)
This course traces the origins of the two world wars in the first half of the twentieth century and assesses the cultural and political movements that transformed Europe and the west in those years.
Interdisciplinary Option: European Studies, German Studies, Global Studies
Course equivalencies: X-HIST325/INTS376
Outcomes:
Students will develop critical thinking and communications skills about how the contemporary world was shaped by the political, military, cultural, and social transformations in the first half of the twentieth century

HIST 330F Fascinating Fascism: 1919 to the Present (3 Credit Hours)
The recent emergence of populist nationalism in the western world has sparked a renewed interest in the political phenomenon of Fascism. This course explores the rise and evolution of Fascist movements and regimes from early twentieth century to the present. Students will learn about the characteristics of Fascist movements, the circumstances that brought some of them to power, and the factors that shaped the behavior of Fascist Regimes.
Interdisciplinary Option: European Studies, Global Studies

HIST 331A Food, Hunger and Power in the Modern World (3 Credit Hours)
This course explores how conflicts over food shaped the modern world. We compare shifting interpretations of famine (in Ireland, India, and Ethiopia), and explore how food became a "weapon of war" during the World Wars. Finally, the course analyzes how race, gender, and class shaped American food and welfare policies. Acquire exposure to varied methodological approaches to studying food and hunger; complete a historical research project; learn the relevance of food for many pressing contemporary concerns.
Interdisciplinary Option: European Studies, Global Studies, Peace Studies, Women & Gender Studies

HIST 334A The Nazi Revolution (3 Credit Hours)
The course will deal with the causes, main features and consequences of the Nazi movement in Germany and Europe from 1919 to 1945.
Interdisciplinary Option: European Studies, German Studies
Outcomes:
The students explore the origins of Nazism and the reasons for Hitler's success; Students appreciate the elements of "Nazi culture," the nature of Nazi rule in the 1930s, Nazi foreign policy and aggression in the 1930s, and World War II; They acquire a sense of the Nazi movement as a phenomenon growing out of unique German circumstances as well as one reflecting the larger context of modern western history

HIST 334B The Holocaust: History and Memory (3 Credit Hours)
This course explores a defining event of modernity, the genocide of Europe's Jews, by exploring Nazi actions, victims' varied experiences, and international reactions. We will also tackle questions like: Was the Holocaust unique? What does it mean to be a "bystander"? What are the politics of memory and commemoration?
Interdisciplinary Option: European Studies, Global Studies, Peace Studies, Polish Studies
Course equivalencies: X-HIST304/PAX 304
Outcomes:
Students acquire a sense of the causes, processes and implications of recent genocide; They are challenged to develop the outlines of a theory for predicting when genocide is likely to occur and to provide a clear definition of the term; Most importantly, they articulate from the historical data ways to prevent genocide

HIST 335 The Second World War (3 Credit Hours)
The course examines the history of the war from its origins to the destruction of the Axis powers and the onset of the Cold War.
Interdisciplinary Option: European Studies, German Studies, Global Studies, Peace Studies, Polish Studies
Course equivalencies: X-HIST326/INTS328/PAX 326
Outcomes:
Students will understand the interrelationship among political, social, economic, military, and diplomatic developments as demonstrated in the events of the Holocaust, the spread of nationalism, and the origins of the Cold War

HIST 336 Contemporary Europe 1945 to Present (3 Credit Hours)
This course examines the postwar world, the movement toward European integration; the tensions between East and West; problems and proposed solutions in contemporary Europe, as well as responses to these issues made by intellectual and cultural leaders of the modern age.
Interdisciplinary Option: European Studies, German Studies, Global Studies, Polish Studies
Course equivalencies: X-HIST327/INTS327
Outcomes:
Students will understand the process of European integration, including the effects of the Cold War on Europe, the challenges of the re-unification of Germany, the integration of ten Central European nations into the European Union, and cultural reactions to these developments

HIST 337 Rise & Fall of Soviet Union (3 Credit Hours)
This course will cover such issues as the Revolution and Civil War, Stalin's repression, victories in World War II, the years of stagnation, Soviet society, its institutions and culture.
Interdisciplinary Option: European Studies, Global Studies, Polish Studies
Course equivalencies: X-HIST341/INTS392
Outcomes:
Students will be able to explain how the Russian Socialist revolution came into being, what kind of society it sought to create, and how this new society, the Soviet Union, developed and finally dissolved in 1991

HIST 337A Women in Russia and Eurasia, 1860-Present (3 Credit Hours)
This course surveys the experiences of women in the late Russian empire, the Soviet Union, and the states that now comprise the region. In particular, we will examine the ways in which writers, filmmakers, and activists of the 19th, 20th, and 21st centuries have addressed the 'woman question.'
Interdisciplinary Option: European Studies, Global Studies, Women & Gender Studies
Outcomes:
Students will gain understanding of key concepts related to women's history in Russia; they will produce written and oral commentaries on the texts and issues studied in class

HIST 338A History of European Communism (3 Credit Hours)
In this course students will study the history of European Communism from its inception. The success that this ideology enjoyed among European societies makes it necessary to study this phenomenon in detail. The course will begin by tracing the origins of Communism and end with a discussion of its downfall.
Interdisciplinary Option: European Studies, German Studies, Global Studies
Outcomes:
Improved cognitive skills and communications skills; Enhanced historical knowledge

HIST 338B Eastern Europe in the 20th Century (3 Credit Hours)
This course offers a historical survey and analysis of the processes of political, social, cultural, and economic change that affected Eastern Europe in the twentieth century. The course will begin with the break-up of multi-national empires in Eastern Europe and end with the collapse of communism.
Interdisciplinary Option: European Studies, Global Studies
Outcomes:
Improved cognitive skills and communications skills; Enhanced historical knowledge

HIST 339C Modern Europe and the Arts (3 Credit Hours)
This course takes advantage of Chicago's access to one of the most important collections of modern European art in the world. The Art Institute of Chicago offers masterpieces representing every major aesthetic movement in Western history. Full appreciation of these treasures involves recognizing the historical circumstances that surrounded their creation and considering the ideas their creators intended to communicate.
Interdisciplinary Option: European Studies, Global Studies
Course equivalencies: X-HIST305/INTS305A
Outcomes:
Students will better appreciate the great works themselves and learn from them about major developments in modern European social, political, and cultural history

HIST 339F History of Feminist Thought and Social Action (3 Credit Hours)
This course focuses on the history and development of feminist thought and activism since the late eighteenth century. Attention goes beyond just U.S. and European feminist history, exploring Indigenous, Black, and postcolonial feminism to investigate their unique feminist ideas and the challenges they pose to "traditional" feminist thought and action.
Interdisciplinary Option: Women & Gender Studies
Course equivalencies: X - WSGS 330 / HIST 339F
Outcomes:
Students will learn to identify key concepts, thinkers, activists; analyze and critique some of the major works; and develop an integrated understanding of the history of feminist thought, broadly conceived

HIST 340B Introduction to Islamic History (3 Credit Hours)
This course focuses on the early and medieval history of the states, societies, and cultures of the Middle East from the prophetic mission until the fall of the 'Abbasid empire in 1258.
Interdisciplinary Option: Islamic World Studies, Medieval Studies
Course equivalencies: X-HIST312/IWS312
Outcomes:
Students will demonstrate an understanding of the impact of Islam as a religious and cultural phenomenon and be able to analyze historically the Quran as well as primary sources from jurisprudence, philosophy, ethics, and historiography

HIST 341 Modern Middle East (3 Credit Hours)
This course surveys the modern Middle East, with a focus on the Arab world.
Interdisciplinary Option: Arabic Language and Culture, Global Studies, Islamic World Studies
Course equivalencies: X-HIST313/INTS313/IWS313
Outcomes:
Students will demonstrate an understanding of the Ottoman background; the age of imperialism; and the 20th century, and be able to approach the period from an anthropological as well as historical perspective

HIST 341B Arab-Israeli Conflict (3 Credit Hours)
This course explores the history of the Arab-Israeli conflict since the beginnings of the immigration of the East Europeans and Russian Jews to Ottoman Palestine in the late 19th century.
Interdisciplinary Option: Global Studies, Islamic World Studies, Peace Studies
Course equivalencies: HIST322/INTS322/PAX 322/IWS322
Outcomes:
Students will gain understanding of national Zionism in Europe; Ottoman and British Palestine; the declaration of the state of Israel; the Palestinian refugee problem; the Arab-Israeli wars; the Camp David agreement and recent peace talks and their aftermath

HIST 341C Tunisia On-Site: Arab Spring, Democratic Change, Islam (3 Credit Hours)
A combination of site visits, lectures, and group discussions throughout Tunisia provides a unique experiential understanding of the relationship between the Arab spring, democratic change, Islam, gender relations, and U.S. foreign policy amidst the historical inheritances of the Carthaginian, Roman, Islamic, and French empires in North Africa.
Interdisciplinary Option: African Studies and the African Diaspora, Arabic Language and Culture, Global Studies, Islamic World Studies, Peace Studies, Women & Gender Studies
Course equivalencies: X-PLSC 399/HIST 313T
Outcomes:
Experientially based knowledge of the politics, society, culture, history, and international relations of a country (Tunisia) in a region (North Africa) at the intersection of Africa and the Middle East

HIST 342A African History to 1600 (3 Credit Hours)
This course traces the history of the African continent to 1600.
Interdisciplinary Option: African Studies and the African Diaspora, Black World Studies
Course equivalencies: X-HIST350/BWS 386/INTS378
Outcomes:
students will demonstrate understanding of the development and diversity of political, economic, ecological, cultural and religious forces in Africa, as well as the relationship between Africa and other world areas

HIST 342B African History Post-1600 (3 Credit Hours)
This course traces the history of the African continent from 1600 to the present, i.e., from the tumult of the slave trade through Africa's resistance to European imperialism and colonialism, and its eventual emergence as an independent continent.
Interdisciplinary Option: African Studies and the African Diaspora, Black World Studies, Global Studies, Islamic World Studies
Course equivalencies: X-HIST351/BWS 387/INTS351
Outcomes:
Students will appreciate the legacies of colonialism and place the contemporary problems of independence in historical perspective

HIST 342C The History of Islam in Africa (3 Credit Hours)
This course examines the development of Islam in Africa, including issues such as Islamic mysticism, eschatology, and state formation.
Interdisciplinary Option: African Studies and the African Diaspora, Black World Studies, Islamic World Studies
Course equivalencies: X-HIST349/BWS300/IWS349
Outcomes:
Students will gain an understanding of how and when Islam entered Africa and how the religion shaped African societies prior to the colonial period

HIST 342D African Diaspora in the Middle East and South Asia (3 Credit Hours)
The purpose of this course is to explore the African Diaspora as it pertains to the Middle East and South Asia. Issues such as the concept of slavery in Islam, and identity preservation will be treated throughout the course of the semester. Emphasis will be placed on the role Black Africans such as Antara ibn Shadad, Malik Kafur, and Malik Ambar, just to name a few, played in the formation and crystallization of Middle Eastern and South Asian states, kingdoms and empires.
Interdisciplinary Option: African Studies and the African Diaspora

HIST 342M African Music's Influence on American Music (3 Credit Hours)
This historically-based exploration will analyze the role that African music from the continent played in shaping and forming such American musical forms as the Blues, Jazz, Rock and Roll, Soul Music, and Hip-Hop. The course begins in 15th century West Africa, and ends in the late 20th century American milieu.
Interdisciplinary Option: African Studies and the African Diaspora, Global Studies
Outcomes:
Students will demonstrate understanding of the development and diversity of African, as well as the influence of African music on American culture

HIST 343 Modern South Asia (3 Credit Hours)
This course will examine the modern history of South Asia. It will explore the history of South Asia with a thematic and chronological approach. Important subjects to be examined include: early modern state formation, colonial forms of knowledge, religious identity, gender and class relations, and the political economy in the early modern and colonial state.
Interdisciplinary Option: Asian Studies, Global Studies, Islamic World Studies, Asian Studies, Global Studies, Islamic World Studies
Outcomes:
Students will enhance their written and oral communication skills; improve their critical thinking skills and improve their ability to engage in historical analysis

HIST 345A Traditional China from Antiquity to 1550 (3 Credit Hours)
This course will trace Chinese history from the origins of classical Chinese civilization in the Shang and Zhou periods to the evolution of an agrarian society under the imperial state.
Interdisciplinary Option: Asian Studies, Chinese Language & Culture, Asian Studies, Chinese Language & Culture
Course equivalencies: X-HIST342/ASIA341
Outcomes:
Students will gain an understanding of how domination by aristocratic lineage gave way to the Confucian state and society based on peasant farming; and how a bureaucratic and autocratic polity existed in symbiosis with a socioeconomic elite that maintained itself through the dominance of the agrarian economy as well as through increasing access to the sources of commerce and trade

HIST 346A Early Modern China: 1550-1800 (3 Credit Hours)
This course studies early modern Chinese society, economy, and the state from ca. 1550 to 1800, a period which marked the culmination of the development of the centralized, bureaucratic, imperial state and exhibited significant innovations in economic structure and activity. Students will be able to describe the pressure of unprecedented demographic growth, and explain how the society began to experience many of the problems that continue. They will be able analyze China's failure to build on its earlier economic and technological successes by exploring intellectual life and its relation to scientific and technological innovation.
Interdisciplinary Option: Asian Studies, Chinese Language & Culture
Course equivalencies: X-HIST344/ASIA344/INTS371

HIST 346B Reform & Revolution in China, 1800-1949 (3 Credit Hours)
This course explores China's attempt to adjust to the complex transformations in its economy, society, politics and intellectual life initiated during the early modern period and transfigured into crisis proportions by unchecked demographic growth. These challenges were heightened and made more acute by the often hostile encounter with first the West and then Japan through the end of World War II.
Interdisciplinary Option: Asian Studies, Chinese Language & Culture, Global Studies
Course equivalencies: X-HIST345/ASIA345/INTS372
Outcomes:
Students will be able to describe and assess the numerous evolutionary and revolutionary strategies for change during the period in China under discussion

HIST 346C History of Christianity in China (3 Credit Hours)
The course will cover the encounter between China and Christianity, from 7th century Nestorian monks, 12th century Franciscan Missions, 16th century Jesuit missionaries, Christianity in the period of Western imperialism, the expulsion of Western missionaries after the 1949 Communist revolution, and the formation of underground churches. Develop critical, writing, and research skills. Deepen understanding of Christianity as a world religion, the history of China, Christianity in China, and historical ties between China and The West.
Interdisciplinary Option: Asian Studies, Catholic Studies, Chinese Language & Culture, Global Studies

HIST 347A China Since 1949: The People's Republic (3 Credit Hours)
This course examines the attempt to create and foster the growth of a socialist state and society in China under the Chinese Communist Party, with attention to the steady transformation of society, the economy, and political life since 1949.
Interdisciplinary Option: Asian Studies, Chinese Language & Culture, Global Studies
Course equivalencies: X-HIST346/ASIA346/INTS373
Outcomes:
Students will be able to assess the major convulsive episodes such as land reform, the Great Leap Forward, the Great Proletarian Cultural Revolution, the Four Modernizations, and the impact and legacy of Mao Zedong

HIST 347C Cultural Revolution-China (3 Credit Hours)
The Great Proletarian Cultural Revolution (1966-1976) was a watershed in China's modern history. Over the course of a decade, Mao summoned the populace to battle "bourgeoisie" of the state by attacking various parts of the social, cultural and political structure.
Interdisciplinary Option: Asian Studies, Chinese Language & Culture, Global Studies
Course equivalencies: X-HIST346B/ASIA346B/INTS346B
Outcomes:
Students will examine the Cultural Revolution from the perspectives of political, social, and cultural history, utilizing memoirs, oral histories, documentary and dramatized films, primary documents written by China's party leaders, and scholarly writings; come to understand these events not solely from the hindsight of post-reform China, but from the perspective of the times during which these events unfolded; and develop their own understandings of what these years meant for the shaping of modern China's state, economy, institutions, and citizens

HIST 347D Modern Chinese History through Film (3 Credit Hours)
This course presents Chinese modern History through the lens of feature films and documentaries. Through a chronological approach, it focuses on the period from the Opium Wars to the present. It discusses political struggles, economic shifts, the encounter with Western Imperialism, the birth of Communist China, the shift to a market economy; it focuses on issues of war, gender, society, rural versus urban, and the environment. Acquire a non-Western Historical perspective; understand diversity in the World; be conversant in modern Chinese History; connect those notions to the historical development of the West; understand film theory and practice.
Interdisciplinary Option: Asian Studies, Chinese Language & Culture, Film & Digital Media Studies, Global Studies, International Film & Media Studies

HIST 349 Contemporary Global Issues: Historical Perspectives (3 Credit Hours)
This course will introduce students to important contemporary issues such as globalization, resurgent ethnic and religious strife, racism, imperialism, and the crisis of the nation state, among others. Both thematic and chronological approaches will be employed in examining selected world regions.
Interdisciplinary Option: Global Studies, Global Studies
Course equivalencies: HIST299BCDE/INTS298
Outcomes:
Students will be able to demonstrate an understanding of the way history shapes pressing issues in the contemporary world, the way a historical approach helps make sense of these same issues, and the value of comparative study and analysis across time and place

HIST 349A Women in East Asia (3 Credit Hours)
This course studies the lives of Asian women in China, Japan, and Korea from early modern times to the present by examining changing roles of women and how these changes have come about.
Interdisciplinary Option: Asian Studies, Global Studies, Japanese Language and Culture, Women & Gender Studies
Course equivalencies: X-HIST296/ASIA296/INTS296/WOST
Outcomes:
Students will be able to explain how life reflects law in the political, social, economic and cultural history of Asian women; how imperialism and war have affected women; how women have effected change

HIST 350 Colonial Latin America (3 Credit Hours)
This course will introduce students to the major themes in the colonial history of the region known today as Latin America from conquest to independence.
Interdisciplinary Option: Latin American Studies
Course equivalencies: X-HIST352/LASP350
Outcomes:
Students will be able to demonstrate an understanding of the following broad themes: the nature and difficulties of colonial rule in culturally diverse societies; the different ways in which individuals from all walks of life fared in the colonies; and the role that religion and the church played in everyday life

HIST 351 Latin American Independence, 1750-1830 (3 Credit Hours)
This course examines independence movements and wars in the region known today as Latin America. Course readings and lectures will explore the impact of the Enlightenment on Bourbon Spain and Spanish America, new movements toward free trade, friction between the church and state, and crown policies toward indigenous peoples.
Interdisciplinary Option: Latin American Studies
Course equivalencies: X-HIST353/LASP351
Outcomes:
Students will be able to demonstrate an understanding of the basic contours of independence movements in Latin America

HIST 352 Latin America in the 19th Century (3 Credit Hours)
This is a survey course that introduces students to the history of Latin America during the nineteenth century through two: 1) Nation Formation: 1780s-1850s and 2) Liberal Reforms and Progress: 1850s-1910.
Interdisciplinary Option: Latin American Studies
Course equivalencies: X-HIST354/LASP352
Outcomes:
Students will demonstrate an understanding of the persistence of political instability, the problems of economic development, and elite and popular perceptions of race, class, and gender; Students will also be able to draw comparisons between different Latin American experiences

HIST 353 Latin America in Recent Times (3 Credit Hours)
This course examines major political, cultural and socio-economic developments in Latin America from the twentieth century to today. Topics to be covered include nationalism and revolution, military dictatorship and state oppression, and hemispheric relations.
Interdisciplinary Option: Global Studies, Latin American Studies
Course equivalencies: X-HIST355/INTS389/LASP353
Outcomes:
Students will be able to demonstrate a broad understanding of the impetus behind the following events and themes: the Mexican Revolution of 1910; Castro and the Cuban Revolution; Peronism; Dirty Wars in Chile, Argentina and Central America; Cold War politics and CIA operations; and the current Drug War in Colombia

HIST 355 The Caribbean & Central America in Colonial/Modern Times (3 Credit Hours)
This course examines the Caribbean and Central America from European conquest and colonization to the present day.
Interdisciplinary Option: Global Studies, Latin American Studies
Course equivalencies: X-HIST356/INTS380/LASP354
Outcomes:
Students will demonstrate an understanding of the significance of the Caribbean and Central America region in world, but especially US, politics since the nineteenth century and increasingly during the Cold War; Students will demonstrate an ability to draw comparisons and contrasts between nations in these regions, especially as they relate to the rest of Latin America and the United States

HIST 356 Mexican History-Ancient to Modern Times (3 Credit Hours)
This course will introduce students to the major themes in Mexican history from pre-Columbian to contemporary times based on three historical periods: Early Mexico, the Nineteenth Century, and Recent Mexico.
Interdisciplinary Option: Global Studies, Latin American Studies
Course equivalencies: X-HIST357/INTS379/LASP355
Outcomes:
Students will be able to demonstrate an ability to draw on the major themes in Mexico history as they relate to the Aztec empire, Spanish conquest and colonialism, independence, modernization, revolution, and democratization

HIST 357 The Mexican Revolution in Popular Imagination (3 Credit Hours)
This course explores debates about the Mexican Revolution (1910-1917) by analyzing its interpretation in scholarship and its representations in memoir, fiction, art and film.
Interdisciplinary Option: Global Studies, Latin American Studies
Outcomes:
Students will demonstrate an understanding of the Mexican Revolution as an event and as a myth in history and popular culture

HIST 358 Women in Latin American History (3 Credit Hours)
This course introduces students to the life experiences of women in Latin America through history, film, oral history, and their personal narratives.
Interdisciplinary Option: Global Studies, Latin American Studies, Women & Gender Studies
Course equivalencies: HIS358/INT368/LASP299/WSGS385
Outcomes:
Students will demonstrate an understanding of the way notions of femininity have been constructed and have changed over time throughout Latin American history, the various and sometimes subtle ways that women have empowered themselves, and the more overt politicization of women since the mid-twentieth century

HIST 359 Teaching World History (3 Credit Hours)
This course focuses on pedagogical approaches, curricular analysis, and methodological developments in the field of World (or Global) history. Students will become familiar with world history by developing a syllabus for a course they may teach in the future at the high school or college level.
Interdisciplinary Option: Global Studies

HIST 359C Nationalist Politics: A Global Perspective (3 Credit Hours)
The course traces the origins and different forms of nationalism, discussing the establishment of nation-states in Europe and the escalation of nationalist conflicts across the globe, from the Balkans to the Middle East to Latin America. It explores how nationalism affected relations between states and various populations and ethnic communities. Students will acquire factual knowledge (terminology, classification, structures) and theoretical frameworks (methods and debates) about the origins and global spread of nationalism.
Interdisciplinary Option: European Studies, Global Studies, International Studies, Peace Studies

HIST 359D The Ottoman Empire: A Global Perspective (3 Credit Hours)
The main themes of the course include rise and development of the Ottoman Empire; relations between Muslims, Jews, Christians, and other communities; the practices of inclusion and exclusion along class, gender, and ethno-religious lines; the rise of nationalism; experiences of violence and war; and imperial legacies in post-Ottoman states.
Interdisciplinary Option: European Studies, Interreligious and Interfaith Studies, Islamic World Studies
Outcomes:
Gain factual knowledge; Learn to analyze different ideas and texts

HIST 359E Concentration Camps: A Global History (3 Credit Hours)
This course explores the underlying logic of extrajudicial encampment from the camps of 19th-century colonialism to the Soviet Gulag, Nazi death camps, and more contemporary detention centers for refugees and political prisoners. Why have modern states - across the ideological spectrum - made use of camps against real and perceived enemies? Students will understand the underlying political, racial, and economic motives that lead to concentration camps. A transnational approach will help students contextualize specific camp regimes within a larger global history.
Interdisciplinary Option: European Studies, International Studies, Peace Studies

HIST 359F Genocides in the Modern World (3 Credit Hours)
This class evaluates the motives and circumstances of global genocides and uncovers the experiences of those targeted by genocidal violence. The course will range widely from settler colonial violence in the Americas to the Armenian Genocide, the Holocaust, the Khmer Rouge, Rwanda, ISIL, and beyond.
Interdisciplinary Option: Global Studies, Peace Studies, Race and Ethnicity
Outcomes:
Students will compare and contrast global genocides across space and time, evaluate the configurations of twentieth-century politics that have generated multiple genocides, and hone critical reading and writing skills

HIST 359H Anti-Colonial Resistance in the Twentieth Century (3 Credit Hours)
This course will explore the end of modern colonialism and the emergence of nation-states in Africa and Asia: one of the most significant transformations in modern history. It will consider how imperial agents justified their subjugation of colonized peoples and how colonial objects came to resist and end colonial rule. Students will learn about theoretical, political, and historical explanations about the processes of resistance and decolonization. Further, they will develop critical analysis skills and historical knowledge.
Interdisciplinary Option: Asian Studies, Global Studies

HIST 360 Community and Culture in Colonial America (3 Credit Hours)
This course covers the story of America's colonial past from its origins in the Atlantic world of the 16th century through its contact and conflicts with Native American peoples.
Outcomes:
Students will demonstrate an understanding of the process of colonial settlement, colonial labor and economic patterns, trans-Atlantic immigration, Colonial Wars of Empire and the conquest of native lands

HIST 360A Slavery and Abolition: Then & Now (3 Credit Hours)
This course will first examine the history of slavery in the ancient and medieval eras, but is devoted mainly to the rise and maturation of slavery and slave trading in the Atlantic world (ca. 1500-1865). The last third of the class charts the resurgence of post-abolition slavery.
Interdisciplinary Option: Race and Ethnicity
Outcomes:
Students will learn about slavery past and present to fashion a moral philosophy of human freedom that can make a world without slavery a reality

HIST 361 The American Revolution, 1763-1815 (3 Credit Hours)
When British colonists in North America declared themselves independent from the British Crown in 1776, they affected the most successful revolution in modern history. This course covers the antecedents and outcomes of their actions from the Seven Years War through the American Revolution to the War of 1812.
Outcomes:
Students will demonstrate an understanding of the origins, actions and significance of the American Revolution; the development of the United States Constitution; and the development of the nation up the War of 1812

HIST 362 America in the Age of Slavery and Capitalism (3 Credit Hours)
This course covers United States social, cultural, economic, and political development during the first half of the nineteenth century.
Outcomes:
Students will demonstrate an understanding of how Modern America was built between 1800 and 1850 through the study of urban development, immigration, gender history, educational developments, wars of expansion, and the growth of a democratic society

HIST 363 Civil War & Reconstruction 1850-1877 (3 Credit Hours)
This course covers the crisis of the Union from the Compromise of 1850 through the Civil War and the era of Reconstruction.
Interdisciplinary Option: African Studies and the African Diaspora, Black World Studies
Course equivalencies: X-HIST363/BWS 363
Outcomes:
Students will demonstrate an understanding of the institution of slavery, the rise of abolitionist sentiment, the failure of democratic political institutions, the military history of the war, its cultural impact on the nation, and the struggle for racial justice in the Reconstruction era

HIST 366A World War I and American Culture (3 Credit Hours)
Although World War I's impact on America paled in comparison to that of the European combatants, the wartime experiences affected the nation's economic, political, and cultural life for the remainder of the twentieth century. This course examines America's World War I experience and explores its legacy.
Outcomes:
Students will understand how the United States underwent the transformation from a relatively minor player on the international scene to an international presence, how those living through these years experienced social, cultural, economic, and political challenges associated with American life in the twentieth century; and how the roads taken and not taken during this period have shaped the options available to us today

HIST 367 United States from Great Depression to Recession (3 Credit Hours)
This course focuses on American history from 1929 to the present, a period of economic turmoil, domestic reform, and international engagement.
Interdisciplinary Option: Sociolegal Studies
Outcomes:
Students will demonstrate historical knowledge of the politics and government of the United States since the start of the Great Depression and develop critical thinking and communication skills

HIST 369 20th Century Popular Culture (3 Credit Hours)
This course examines the social and cultural patterns of twentieth century life as revealed in popular novels, vaudeville, movies, music, nightlife, and advertising.
Outcomes:
Students will be able to demonstrate historical knowledge of American traditions of success, family, home, consumption and culture, to draw links between gender and social life, and to develop critical thinking and communication skills

HIST 370 American Business, Wealth, and Inequality (3 Credit Hours)
Beginning with colonization and extending to the 2000s global expansion of Starbucks, this course outlines the history of American business, wealth, and the attendant inequality by exploring the interplay between business, labor, politics, and culture.
Interdisciplinary Option: Sociolegal Studies, Sociolegal Studies
Outcomes:
Students will improve their written communication skills; develop their critical thinking skills; and learn how to execute historical analysis

HIST 372 American Constitutional & Legal History to 1865 (3 Credit Hours)
This course focuses on the constitutional and legal history of the U. S. from colonial times to the end of the Civil War.
Outcomes:
Students will be able to demonstrate historical knowledge of American legal traditions of common law, federalism, and civil liberties, to draw links between social and legal change; to evaluate US Supreme Court decisions, and to develop critical thinking and communication skills

HIST 373 US Law & Public Policy (3 Credit Hours)
This course focuses on the constitutional, legal, & public policy history of the U. S. from the end of the Civil War to the twenty-first century
Interdisciplinary Option: Sociolegal Studies
Outcomes:
Students will demonstrate knowledge of American legal traditions of federalism, civil rights, criminal justice, and civil liberties; understand social, legal, & policy changes; and evaluate US Supreme Court decisions

HIST 373A Crime and Punishment (3 Credit Hours)
This course examines how notions of crime and punishment have evolved between the nineteenth and twentieth centuries (with the early modern period serving as a backdrop).
Interdisciplinary Option: Sociolegal Studies
Course equivalencies: X-HIST373A/CRMJ345
Outcomes:
Students will be able to draw conclusions on what precisely caused the shifts in punishment, with attention to such things as the professionalization of the judiciary, industrialization and urbanization, the American Civil War, and Constitutional changes; Students will also gain an understanding of sociological and anthropological approaches to this topic

HIST 374 Black Politics (3 Credit Hours)
This course will present a general overview of black politics in America, including the major black political ideologies and their theoretical underpinnings and the role of race in urban politics in the late twentieth and early twenty-first centuries.
Interdisciplinary Option: African Studies and the African Diaspora, Black World Studies, Race and Ethnicity, African Studies and the African Diaspora, Black World Studies, Race and Ethnicity
Course equivalencies: X-HIST374/PLSC393/BWS374
Outcomes:
Students will gain an understanding of how the circumstances of Reconstruction shaped black political ideologies; how blacks came into political power in major urban centers; and what the contours of debate are in the black community over provocative issues such as the criminal justice system, affirmative action, reparations, and education

HIST 375 Digital History (3 Credit Hours)
Digital resources make primary source material available while database, mapping, and text-mining applications allow us to ask new types of research questions. Digital history is more than just gaining familiarity with digital resources, applications, and platforms; it is about understanding how using these tools has changed the way we study history.
Course equivalencies: X-HIST375/LASP375/INTS375A
Outcomes:
Gain an introductory technical knowledge of digital tools or methods; Learn to apply technical knowledge about digital history tools to historical questions; Acquire experience managing and creating a team-based digital humanities

HIST 376 History of the American Frontier Movement (3 Credit Hours)
This course will cover the process of frontier expansion in American history.
Outcomes:
Students will understand the frontier as a social process that was part of the American experience from its earliest colonial origins to the end of the nineteenth century; Students will also understand the frontier as a place in the western United States where Americans engaged in cooperation, conflict, and conquest with native peoples, Mexicans, and Asians

HIST 376A History of the American Indian (3 Credit Hours)
This course is a survey of the history of American Indians, including the variety of Pre-Columbian societies, the encounter between Indians and European settlers, the impact of Eurasian diseases, American Indians' fight to avoid removal from their homelands, and the resurgence of Indians as sovereign peoples.
Outcomes:
The student is to emerge from the course with an enhanced ability to appreciate the unique cultures and experiences of American Indians; appreciate the many and important ways in which Indian peoples have changed and adapted over time; and understand the religious, racial, and cultural values that motivated European-American policies toward American Indians

HIST 377 African American Women's History (3 Credit Hours)
Course deepens students' understanding of African American History by emphasizing African American women's leadership, intellectualism, challenges, and social impact. Covering multiple eras from slavery, the civil rights movement to the present-day and difficult topics (including sexual assault), the course examines the diverse experiences of historically marginalized black women.
Interdisciplinary Option: Women & Gender Studies, Women & Gender Studies
Outcomes:
Students become familiar with multiple important African American historical figures; increase their understanding of intersectionality (race, gender, sexuality, class) in American history; and gain essential research skills

HIST 378 Latina/o History (3 Credit Hours)
This course introduces the history of Latinos in the United States from the Spanish Colonial period to the present.
Interdisciplinary Option: Latin American Studies, Race and Ethnicity
Course equivalencies: X-HIST378/LASP378
Outcomes:
students will develop a greater appreciation and understanding of the important roles played by Latino men and women in U.S. society; the heterogeneity of the Latina/o population, including generational, regional, class, and gender divisions; and the formation of transnational immigrant communities

HIST 379A Italian Americans in World War II (3 Credit Hours)
The impact of World War II on Italian-Americans and their roles in the war effort. Topics include influence of Fascism in the U.S., classification of Italian-Americans as "ENEMY ALIENS," participation of Italian-Americans on the home front and as OSS members, and lasting impact of GI experience and the GI Bill.
Interdisciplinary Option: Italian American Studies, Italian Studies
Outcomes:
To understand and analyze the effect that World War II had upon Italian-Americans as a community and representative ethnic group, drawing on detailed knowledge of World War II history

HIST 379B History of Italians in Chicago (3 Credit Hours)
The History of Italians in Chicago offers an in-depth look at one of Chicago's important ethnic groups. The course will utilize local resources and include a number of guest speakers from the fields of sociology, literature and political science.
Interdisciplinary Option: Italian American Studies, Italian Studies
Outcomes:
Students will understand the major social-economic forces shaping the history of Italians in Chicago; learn how to do primary research; see themselves and local institutions as a part of history

HIST 380 Introduction to African-American History (3 Credit Hours)
This course is a general survey of African-American history from its African origins to the Present.
Interdisciplinary Option: African Studies and the African Diaspora, Black World Studies, Race and Ethnicity
Course equivalencies: X-HIST380/BWS 380
Outcomes:
Upon completion of this class students should have a broad understanding of African-American History from 17th to the early 21st century

HIST 380A Islam in the African-American Experience (3 Credit Hours)
This course traces the development of Islam among African Americans from West African societies prior to the trans-Atlantic slave trade to the influence of Islam on popular culture in the 21st century.
Interdisciplinary Option: African Studies and the African Diaspora, Black World Studies, Islamic World Studies
Course equivalencies: X-HIST380A/BWS302/IWS380
Outcomes:
Students will gain an understanding of how Islamic identity was maintained in the face of slavery, how and if African-American Muslim communities differ from their emigrant counterparts, and how black nationalist groups such as the Moorish Science Temple and Nation of Islam influenced the Islamization of black consciousness in the 20th century

HIST 381 Rebels & Reformers in U.S. History (3 Credit Hours)
This course explores the success and failure of radical political and social movements in the United States.
Interdisciplinary Option: African Studies and the African Diaspora, Black World Studies, Peace Studies, Women & Gender Studies
Course equivalencies: HIST381/AFR388/PAX387/WSGS303
Outcomes:
Students will understand five major movements for social change in the United States: abolition, women's rights, socialism, peace, and the quest for racial equality

HIST 382 Teaching Race, Class, and Gender (3 Credit Hours)
What resources are there for future K-12 teachers wanting to explore the intersections of gender, race, ethnicity, and class into their classrooms and meet new requirements, like those in Chicago, to broaden the K-12 curriculum? This course is designed for primary and secondary education majors eager to explore digital resources.
Interdisciplinary Option: Italian American Studies, Latin American Studies, Sociolegal Studies, Women & Gender Studies, Italian American Studies, Latin American Studies, Sociolegal Studies, Women & Gender Studies
Outcomes:
Students will: discover a range of free, digital resources; hone their critical reading and writing skills; craft and share lesson plans and reflections; write and present a peer-reviewed research paper

HIST 384 Irish Diaspora in America (3 Credit Hours)
This course examines the origins and diversity of Irish migration to the United States since the eighteenth century.
Outcomes:
Students will use historical knowledge to develop critical thinking and communications skills about the first large American ethnic minority and its impact on the history of the United States

HIST 385 Chicago in America (3 Credit Hours)
This course surveys the history of Chicago from its origins to the present, using the city as a case study of American urbanization.
Interdisciplinary Option: Urban Studies
Course equivalencies: X-HIST385/URB385
Outcomes:
Students will be able to demonstrate historical knowledge of Chicago's environmental, economic, social, cultural, and political history, to draw links between race relations and urban change, and to develop critical thinking and communication skills

HIST 386 Creation the American Metropolis (3 Credit Hours)
This course examines the transformation of the United States from a simple agrarian and small-town society to a complex urban and suburban nation, covering the pre-Columbian period to the present.
Interdisciplinary Option: Urban Studies
Course equivalencies: X-HIST386/URB386
Outcomes:
Study history of American urbanization; improve writing and analytical thinking

HIST 388 U.S. Wars (3 Credit Hours)
This course will study United States Military history from the Revolutionary War to the War on Terror. We will study key battles, strategy, weapons and leaders. We will also focus on the individual soldier: his pay, recreation, benefits and equipment.
Outcomes:
Students will gain familiarity with the military aspects of warfare in U.S. history and the social aspects of warfare; They will be challenged to integrate those varying perspectives into a coherent synthesis of the topic

HIST 388A Vietnam War (3 Credit Hours)
This course offers a comprehensive examination of origin, execution, and failure of America's war in Vietnam.
Interdisciplinary Option: Asian Studies, Global Studies, Peace Studies
Course equivalencies: X-HIST/ASIA/PAX389/INTS388
Outcomes:
Students will understand the ancient origins of the Vietnamese nation, the rise and fall of the French colonial regime, the role of Vietnam in the Cold War, the peace movement, the political and cultural impact of the war on America, the success and failures of the United States military, the impact of the war on the Indo-China region, and the memory of the war in American culture

HIST 389B Topic: Gender, Race, & Class in US History (3 Credit Hours)
This course examines the historical interplay of gender, race and class in the lives of African-American and white women in the United States.
Interdisciplinary Option: Peace Studies, Race and Ethnicity, Women & Gender Studies
Course equivalencies: X-HIST295/PAX295/WSGS299
Outcomes:
Students will understand critical themes and periods in the development of racism and sexism, especially the ways in which the two relate; differences and similarities in the manifestations of and reactions to racism and sexism in the lives and thought of African-American and white women of differing class backgrounds

HIST 389C Gender Benders (3 Credit Hours)
This course examines the changes in gender roles and the relationship between men and women from the colonial era to the present.
Interdisciplinary Option: Women & Gender Studies
Course equivalencies: X-HIST294/WOST290/WSGS294
Outcomes:
Students will demonstrate understanding of the changing expectations about and definitions of men and women of how families were organized, how childrearing was handled, who made up the home, and how work and family production followed a sexual division of labor

HIST 389F The Sixties (3 Credit Hours)
This course focuses on the turbulent years from 1960 to 1974 in American history, a period of active social movements and foreign wars.
Outcomes:
Students will be able to demonstrate historical knowledge of American social, political, gender, and cultural change during the 1960s, to draw links between popular mobilizations, countercultures, and social change, and to develop critical thinking and communication skills

HIST 389K Autobiography and Memoir in Recent US History (3 Credit Hours)
Autobiography and Memoir in Recent US History uses personal recollections as a way to get at large themes in history. Topics include immigration, nativism, ethnicity, gender, regionalism, war, religion, and class. Students read intensively as a way of understanding how individuals live their lives within large historical forces and events. This is a writing intensive course. It is also a reading intensive course. It is run as a seminar - learning to discuss and engage with ideas is a key element.

HIST 389N Anti-Immigrant Politics in U.S. History (3 Credit Hours)
The course features studies of anti-immigrant politics sponsored by: 1. the Federalist Party (late 18th c); 2. the "Know Nothing" Party (mid-19th c); 3. the Populist Party (late 19th c); 4. the Ku Klux Klan (1920s); 5. the Republican Party (early 21st c).
Interdisciplinary Option: Italian American Studies, Latin American Studies
Outcomes:
Students will use historical perspective to deconstruct the rhetoric and analyze the socio-economic and political contexts of past and present nativist political movements

HIST 389W Races to the White House: Presidential History (3 Credit Hours)
This course aims to show how the president's election, job, power, and mystique has changed since the Founding. Students will delve into the modern primary and party system's origins, the fierce debates about the Electoral College, the controversies over executive power, the media's importance, and the first families' changing role.
Interdisciplinary Option: Sociolegal Studies
Outcomes:
Students will gain historical knowledge of the American presidency, federalism, and electoral politics and develop critical thinking and communication skills

HIST 390 Senior Capstone (3 Credit Hours)
Each participant will utilize the research skills, historical studies and writing abilities acquired to date to produce a significant paper based largely on historical research in primary sources and bolstered by appropriate secondary sources. Restricted to students in senior standing.
Outcomes:
Students will be able to demonstrate appropriate historical scholarship, analysis and writing skills

HIST 397 History Honors Tutorial (3 Credit Hours)
Students in this course will produce a significant research paper on a topic of their own choice (25-30 pages) based largely on primary sources through archival research and will present their work in a symposium at the end of the course.
Course equivalencies: HIST397H / HIST397

HIST 398 History Internship (3 Credit Hours)
This course provides three hours credit for students engaged in history related internships in the public and private sectors.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students will be able to obtain an internship position, to learn on-the-job from an experienced practitioner in a wide variety of public and private sector settings, to draw links between their present situation and historical research, and to develop critical thinking and communication skills

HIST 399 Directed Study (1-3 Credit Hours)
This course provides students with the opportunity to work under the direction of a faculty member on a particular area of interest that is not part of the department's usual curriculum.
Outcomes:
Students will gain an understanding of a specific area of history through the close reading of selected texts and the preparation of a research paper

History (BA)

The History BA degree helps students develop broad and deep knowledge about the complexity and contingency of the past. History majors learn theories and read arguments that help explain both persistent continuity and enormous change in human civilizations. In courses and assignments, students learn to wrestle and unpack sources that provide the foundational evidence for interpretations of the past. Finally, the major develops skills of critical thinking, research, analysis, and communication that are essential for the modern world.

The History major prepares students for graduate and law schools as well as for careers in such fields as teaching in secondary schools, curatorial and educational positions in museums and historical associations, foreign service, library science, public administration and journalism. Moreover, history courses may be especially pertinent to students of language, business, science, or public health who wish to learn the traditions of other nations and cultures.

Curriculum

The major in history consists of a total of twelve (12) courses (36 hours) and a portfolio, detailed below.

Code	Title	Hours
Introductory (Core) Courses		
Select two courses, one from each of the following categories:		6
Tier 1 Foundational Historical Knowledge		
HIST 101	Evolution of Western Ideas Institutions to 17th Century	
HIST 102	Evolution Western Ideas Institutions Since 17th Century	
HIST 103	American Pluralism	
HIST 104	Global History Since 1500	
HONR 101	Western Traditions - Antiquity to the Middle Ages	
HONR 102	Western Traditions-Renaissance to Modernity	
Tier 2 Historical Knowledge		
HIST 208	East Asia Since 1500	
HIST 208X	Pre-Modern Chinese History	
HIST 208Z	Modern Chinese History	
HIST 209	Survey of Islamic History	

HIST 210	Introduction to Latin American History	
HIST 211	United States to 1865	
HIST 212	United States Since 1865	
HIST 213	Introduction to African History	
HONR 203A	The United States Experience	
or HONR 203B	The United States Experience	
or HONR 203C	The United States Experience	
HONR 208A	Encountering Latin America and the Caribbean	
or HONR 208B	Encountering Latin America and the Caribbean	
or HONR 208E	Encountering Latin America and the Caribbean	
HONR 209A	Encountering Asia	
or HONR 209B	Encountering Asia	
or HONR 209E	Encountering Asia	
HONR 210A	Encountering Africa	
or HONR 210B	Encountering Africa	
or HONR 210E	Encountering Africa	
HONR 212A	Encountering the Middle East	
or HONR 212B	Encountering the Middle East	
or HONR 212E	Encountering the Middle East	
Methods Courses		
Select one of the following:		3
HIST 299	Historical Methods [1]	
INDS 380	Newberry Seminar [2]	
Required Areas		
Select one Upper-Level Course: Pre-1700 History:		3
HIST 253A	Barbarians and the Fall of the Roman Empire	
HIST 254A	The Vikings	
HIST 257A	Witchcraft and Science in Pre-Modern Europe	
HIST 258A	Blood, Heresy, and Treason: The Tudors and Stuarts	
HIST 300B	Topics in Premodern History	
HIST 301-319	Course descriptions below [4]	
HIST 342A	African History to 1600	
HIST 345A	Traditional China from Antiquity to 1550	
CLST 362	Roman Law	
THEO 317	Christian Thought: Ancient-Medieval	
Select one Upper-Level Course: Post-1700 European History:		3
HIST 265A	The First World War	
HIST 267A	Modern German Culture and Ideas I	
HIST 267B	Modern German Culture and Ideas II	
HIST 300C	Topics in European History (Post-1700)	
HIST 320-339	Course Descriptions Below [5]	
THEO 318	Christian Thought: Reformation to Modern	
Select one Upper-Level Course: U.S. History:		3
HIST 280-298	Course Descriptions Below [6]	
HIST 300D	Topics in U.S. History	
HIST 360-389	Course Descriptions Below [7]	
ECON 327	American Economic & Business History	
Select one Upper-Level Course: World History:		3
HIST 275A	The Silk Roads: Global Trade, Culture, & Politics	
HIST 278A	Violence Drug Trafficking & Crime in Latin America	
HIST 279C	History of Computing	
HIST 279E	Climate and History	
HIST 300E	Topics in World History	
HIST 340-359	Course Descriptions Below [8]	
Elective Courses		
Select any history courses at any level: [3]		15
HIST 101-399 [9]		
CLST 362	Roman Law	
ECON 327	American Economic & Business History

or HONR 210B	Encountering Africa	
or HONR 210E	Encountering Africa	
HONR 212A	Encountering the Middle East	
or HONR 212B	Encountering the Middle East	
or HONR 212E	Encountering the Middle East	
Total Hours		**36**

1 To register for HIST 299 Historical Methods Historical Methods, please contact the History Department Administrative Assistant.

2 For information on the Newberry Seminar, please contact the History Department Chair at eshermer@luc.edu.

3 One of which can be HIST 398 History Internship.

4 Course options include: HIST 301, HIST 302, HIST 303, HIST 307, HIST 308A, HIST 308B, HIST 308C, HIST 308D, HIST 309, HIST 310, HIST 310A, HIST 310B, HIST 310C, HIST 310D, HIST 310F, HIST 310L, HIST 311B, HIST 312, HIST 314, HIST 314A, HIST 315, HIST 316, HIST 317, HIST 318A, HIST 318B, and HIST 318C.

5 Course options include: HIST 320, HIST 321, HIST 322, HIST 324, HIST 325, HIST 325A, HIST 326, HIST 327A, HIST 328, HIST 328A, HIST 329, HIST 329C, HIST 329N, HIST 330, HIST 330F, HIST 331A, HIST 334A, HIST 334B, HIST 335, HIST 336, HIST 337, HIST 337A, HIST 338A, HIST 338B, HIST 339C, and HIST 339F.

6 Course options include: HIST 280A, HIST 290A, HIST 291A, HIST 297E, HIST 298A, and HIST 299.

7 Course options include: HIST 360, HIST 360A, HIST 361, HIST 362, HIST 363, HIST 366A, HIST 367, HIST 369, HIST 370, HIST 372, HIST 373, HIST 373A, HIST 374, HIST 375, HIST 376, HIST 376A, HIST 377, HIST 378, HIST 379A, HIST 379B, HIST 380, HIST 380A, HIST 381, HIST 382, HIST 384, HIST 385, HIST 386, HIST 388, HIST 388A, HIST 389B, HIST 389C, and HIST 389N.

8 Course options include: HIST 340B, HIST 341, HIST 341B, HIST 341C, HIST 342A, HIST 342B, HIST 342C, HIST 342D, HIST 342M, HIST 343, HIST 345A, HIST 346A, HIST 346B, HIST 346C, HIST 347A, HIST 347C, HIST 347D, HIST 349, HIST 349A, HIST 350, HIST 351, HIST 352,

HIST 353, HIST 355, HIST 356, HIST 357, HIST 358, HIST 359, HIST 359C, HIST 359D, HIST 359E, HIST 359F, and HIST 359H.

9 Any 100-Level, 200-Level, or 300-Level course can count toward the electives if not used for another requirement in the major.

Residency Requirements

- At least 6 courses for this major must be successfully completed in residence at Loyola University Chicago.
- At least 4 300-level courses for this major must be successfully completed in residence at Loyola University Chicago.

Optional Concentrations

History Majors have the option to declare a concentration, an area of interest. A concentration consists of at least three courses focused on a particular theme. Concentrations include: War & Peace; Law & Government; Gender, Sexuality, & Race; Teaching History; Globalization, Social Justice, & Human Rights; and Cultural & Intellectual History

Students may also build their own geographic or period-based concentration in consultation with their departmental adviser.

Portfolio

Every history major must build a portfolio over the course of his/her undergraduate studies. The student must upload the **two required documents** listed below to a History Department website by Friday of the last week of classes prior to graduation. For more information, please contact the History Department Undergraduate Program Director. The required documents are:

1. **A historiographical essay (typically a paper from** HIST 299 Historical Methods**).** This paper must both summarize and evaluate historians' principal arguments about a particular topic.
2. **A 300-level Research Paper with a *bibliography*.** This paper --- a minimum of 15 pages, usually from a 300-level course --- makes use of both primary and secondary sources to prove a historical thesis. All good historical writing has a thesis that the author seeks to establish through interpretation of the primary source evidence.

Students should submit papers that showcase their best work.

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

- Produce analytical arguments by using evidence and facts to interpret past events, behavior and processes in their own historical writing and projects.
- Identify the arguments put forth by historians in order to compare, evaluate and criticize different interpretations of the past. In doing so, our graduates will be able to evaluate the adequacy of evidence (including a variety of sources: documents, films, diaries, images, oral and digital histories, etc.) that historians use to make truth claims about the past.
- Demonstrate an understanding of the processes of historical change and be able to discuss and evaluate causes, complexities and consequences of change over time in relationship to historical events and processes.
- Demonstrate an understanding that human values and beliefs are shaped by historical context and they will gain the capacity to make informed judgements about past and present behavior and ideas with a goal of fashioning a more just world. In this endeavor, students will gain an understanding of the ethical practices and standards for historical research and writing.

History Minor

The minor in history, in conjunction with a major in a related field will provide historical background desirable for a well-grounded liberal arts degree, the preferred background for admission to most professional programs.

Curriculum

Code	Title	Hours
Introductory (Core) Courses		
Select two of the following:		6
HIST 101	Evolution of Western Ideas Institutions to 17th Century	
HIST 102	Evolution Western Ideas Institutions Since 17th Century

THEO 318	Christian Thought: Reformation to Modern
Electives	
Select any two additional 3-hour classes [1]	6
Total Hours	**18**

[1] These can be introductory (History 100-Level & HIST 200-Level), Upper-level (HIST 250 - HIST 299 Historical Methods, History 300-Level or CLST 362 Roman Law; ECON 327 American Economic & Business History; THEO 317 Christian Thought: Ancient-Medieval-THEO 318 Christian Thought: Reformation to Modern).

Learning Outcomes

- Produce analytical arguments by using evidence and facts to interpret past events, behavior and processes in their own historical writing and projects.
- Identify the arguments put forth by historians in order to compare, evaluate and criticize different interpretations of the past. In doing so, our graduates will be able to evaluate the adequacy of evidence (including a variety of sources: documents, films, diaries, images, oral and digital histories, etc.) that historians use to make truth claims about the past.
- Demonstrate an understanding of the processes of historical change and be able to discuss and evaluate causes, complexities and consequences of change over time in relationship to historical events and processes.
- Demonstrate an understanding that human values and beliefs are shaped by historical context and they will gain the capacity to make informed judgements about past and present behavior and ideas with a goal of fashioning a more just world. In this endeavor, students will gain an understanding of the ethical practices and standards for historical research and writing.

Honors in History

Honors Program

The Department of History's honors program recognizes the work of outstanding History Majors and gives them an opportunity to dig deeper in the discipline. It is not the same as collegiate honors, and students do not need to belong to collegiate honors in order to participate in this program. Students are invited to apply to the history honors program during their junior year. The qualifications for the program are as follows:

- History major
- 3.67 GPA in history courses
- 3.50 overall GPA
- Completion of HIST 397 History Honors Tutorial

The required GPAs include courses taken elsewhere if the credits have been transferred. The major with History Honors consists of a total of twelve (12) courses (36 hours). HIST 397 History Honors Tutorial is typically offered in the Fall Semester. The Tutorial involves writing a research paper, based on primary sources, of about 20–30 pages. The results of this research are presented in a short oral presentation at a final class to which friends, family, and other faculty are invited.

Here is the honors history major program in schematic form:

Code	Title	Hours
Introductory (Core)		
Select two courses, one from each of the following categories:		6
Tier 1		
HIST 101	Evolution of Western Ideas Institutions to 17th Century	
HIST 102	Evolution Western Ideas Institutions Since 17th Century

Human Services

About Us

Social and human services assistant is a generic term for individuals with a wide variety of job titles, including human services worker, case management aide, social work assistant, community support worker, mental health aide, community outreach worker, life-skills counselor or gerontology aide.

Human services assistants provide direct and indirect client services to ensure that individuals in their care reach their maximum level of functioning. They assess clients' needs, establish eligibility for public benefits and help clients obtain them, arrange for transportation and

escorts, monitor and keep case records, organize and lead group activities, assist clients in need of counseling or crisis intervention, administer food banks and emergency fuel programs, help clients with daily living and communication skills, and provide emotional support.

Although the human services field is broad and diverse, it is unified by the goal of meeting human needs by applying an interdisciplinary base of knowledge and skills, focusing on prevention as well as remediation of problems, and improving the overall quality of life of individuals, families and communities through direct services to clients. The human services profession also promotes improved service delivery systems by addressing the quality of direct services provided and by seeking to improve accessibility, accountability and coordination among professionals and agencies in delivering human services.

Undergraduate Programs

- Human Services (BS) (p. 458)

Undergraduate Policies and Procedures

Please see Undergraduate Policies and Procedures (p. 2050) for academic policies that supersede those of academic units within the University.

Human Services (HMSV)

HMSV 101 Survey of Human Services (3 Credit Hours)
Survey of Human Services will cover basic concepts and models of service delivery in the field. Primary emphasis will be on the growth and evolution of the field, types of services and needy populations, and issues that affect the delivery of human services in the United States.
Interdisciplinary Option: Human Services

HMSV 201 Human Services Practice (3 Credit Hours)
The purpose of this course is to prepare students for their future work in HMSV agencies and to introduce them to HMSV clients. The course will teach students about the basic issues that face HMSV providers and will help them put a human face on HMSV clients. In addition, the course will emphasize the importance of client diversity in formulating assessment and case management strategies for HMSV clients.
Interdisciplinary Option: Human Services
This course satisfies the Engaged Learning requirement.

HMSV 390 Supervised Fieldwork II (6 Credit Hours)
No course description is available
Interdisciplinary Option: Human Services
This course satisfies the Engaged Learning requirement.

Human Services (BS)

The BS in Human Services (p. 458) degree program is a 45-credit-hour multidisciplinary program that draws courses from five Loyola departments: criminal justice, political science, psychology, sociology and social work.

Emphasizing Loyola's Jesuit, Catholic mission of knowledge in the care and service of others, coursework focuses on laying a strong foundation in the liberal arts and sciences while sharpening students' applied skills. Located near numerous human services organizations and professionals, the program takes full advantage of Chicago's many resources for students.

Curriculum

The human services major requires 45 credit hours of coursework, including:

Code	Title	Hours
Basic Courses		
PSYC 101	General Psychology	3
HMSV 101	Survey of Human Services	3
HMSV 201	Human Services Practice	3
Select one course in Statistics from the following:		3
CJC 206	Statistics	
PSYC 304	Statistics	
SOCL 301	Statistics for Social Research	
Select one course in Research Methods from the following:		3
CJC 205	Research Methods	
PSYC 306	Research Methods in Psychology

SOCL 252	Global Inequalities	
SOCL 272	Environmental Sociology	
SOWK 361	Special Topics	
SOWK 370	Power, Oppression, Privilege, and Social Justice	
Total Hours		**45**

In keeping with Loyola's principles of values-based education, students take two service-learning courses. These classes, which pair classroom learning with active service in the community, may be selected from the list of basic, concentration or elective courses, or from courses outside the major.

Students obtain hands-on experience through two required fieldwork courses. A three-hour course introduces students to the operations of human services agencies, the mechanics of service delivery and the fundamentals of client contact. A six-hour course immerses students in agencies for more extensive and in-depth skills training and direct client contact.

To further ensure that the education of students will be both well-rounded and content-specific, all human services majors are required to minor in one of the major's five constituent fields: criminal justice, political science, psychology, sociology or social work. Also, students must take at least one course from each of these five departments; and for students who double major in human services and one of these departments, no more than six courses may count for both majors.

In addition to fulfilling major requirements to earn an undergraduate degree (usually 120 credit hours), students complete Loyola's Core Curriculum (p. 1212), which teaches them important skills and values, and develop their own interests by taking general electives.

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Interdisciplinary Honors Program

Academics

Interdisciplinary in design and international in scope, Loyola's Honors Program offers a dynamic general education that enables our students to bring many perspectives to real world problem-solving, in the Jesuit tradition. Faculty craft intensive courses that refine analytical and communication skills. The formal curriculum is supplemented with many cultural excursions and service opportunities.

Requirements

- The program requires 27 credit hours (9 classes) of honors courses.
- All honors courses must be completed with a grade of "C" or better.
- Students must have an overall GPA of 3.33 or better to graduate with honors.
- For more information on core requirements, visit Honors and the Core (p. 1224).

Honors courses differ in structure and content from non-honors courses, and these courses are offered in a sequence. Honors students must complete the following courses:

Code	Title	Hours
Course Requirements		
HONR 101 & HONR D101	Western Traditions - Antiquity to the Middle Ages and Developments Western Thought I Discussion [1]	6
HONR 102 & HONR D102	Western Traditions-Renaissance to Modernity and Developments in Historical Western Thought II Discussion [2]	6
U.S. Experience (Anytime after 1st year) [3]		**3**
HONR 203A	The United States Experience	
or HONR 203B	The United States Experience	
or HONR 203C	The United States Experience	
Science and Society (Choose one of the following) [3]		**3**
HONR 204A	Science and Society	
or HONR 204B	Science and Society	
or HONR 204C	Science and Society	

or HONR 204S	Science and Society	
Area Studies (Two of the following courses anytime after 1st year) [3]		**6**
HONR 208A	Encountering Latin America and the Caribbean	
or HONR 208B	Encountering Latin America and the Caribbean	
or HONR 208E	Encountering Latin America and the Caribbean	
HONR 209A	Encountering Asia	
or HONR 209	Encountering Asia	
or HONR 209	Encountering Asia	
HONR 210A	Encountering Africa	
or HONR 210B	Encountering Africa	
or HONR 210E	Encountering Africa	
HONR 212A	Encountering the Middle East	
or HONR 212	Encountering the Middle East	
or HONR 212	Encountering the Middle East	
HONR 216A	Encountering Contemporary Europe	
or HONR 216B	Encountering Contemporary Europe	
or HONR 216E	Encountering Contemporary Europe	
Capstone [4]		
HONR 301	Honors Capstone: Moral Responsibility	3

1 Course taken Fall Freshman Year.
2 Course taken Spring Freshman Year.
3 Course taken any time after 1st year. Students can take HONR 203, HONR 204, and the area studies in any order they desire.
4 Course taken 2nd semester of Junior year or during Senior year. Student must have 75 or more credit hours.

Program Description

Since 1936, the Honors Program has provided an enriched educational experience for the university's most talented students. Only a small percentage of freshmen are invited into the program each year. Honors students are academically and professionally aspirational and ethical leaders in their communities.

The Curriculum

Interdisciplinary in design and international in scope, Loyola's Honors Program offers a dynamic general education that enables our students to bring many perspectives to real world problem-solving, in the Jesuit tradition. Faculty craft intensive courses that refine analytic and communication skills. The formal curriculum is supplemented with many cultural excursions and service opportunities. You can read more about our award-winning teaching faculty (https://www.luc.edu/honors/aboutus/teachingfaculty/) on our website.

The Benefits

As an Honors student, you will come into contact with Loyola's most effective teachers, our most exciting researchers, and, of course, our most talented students. You'll benefit from priority registration each semester; individualized advising; small class sizes; and faculty mentorship. As the highest academic distinction awarded by the university, the Honors Degree commands special acknowledgement. Candidates are identified separately in the commencement program, and the official transcript identifies all Honors courses.

The Freshman Year Experience

Honors Freshmen are housed at Francis Hall and Regis Hall, modern facilities located on the southern end of campus, close to the lake and the city. In residence, you'll have many opportunities to connect intellectually and socially with students majoring in fields from across the university and joining us from across the US and the globe. Together, you and your friends will make your way through the Honors Freshman Seminars, reading Darwin's *The Origin of Species* and visiting the Art Institute of Chicago as a group. You can learn more about the freshman Honors residence experience here (https://www.luc.edu/honors/community/honorsresidenceexperience/).

For more information on our dynamic community and program, look through the online issues of the Honors Magazine (https://www.luc.edu/honors/honorsmagazine/).

University Policies

Please see University Policies for academic policies that supersede those of academic units within the University

Honors (HONR)

HONR D101 Developments Western Thought I Discussion (3 Credit Hours)
This is the discussion section that complements the Honors Freshman lecture course on the Western Intellectual Traditions: Antiquity to the Middle Ages. All students enrolled in HONR 101 must also be enrolled in a section of HONR D101.
Interdisciplinary Option: Catholic Studies
Course equivalencies: X-HONRD101/CATH101D

HONR D102 Developments in Historical Western Thought II Discussion (3 Credit Hours)
This is the discussion section that complements the Honors Freshman lecture course on the Western Intellectual Traditions: the Renaissance to Modernism. All students enrolled in HONR 102 must also be enrolled in a section of HONR D102.

HONR 101 Western Traditions - Antiquity to the Middle Ages (3 Credit Hours)
This course,(and its companion, HONR 102), opens perspectives on works that have shaped the self-understanding of the Western intellectual tradition. An interdisciplinary team of professors examines these works from a variety of disciplinary paradigms. Students will examine the recurring questions the works pose to each other and to our own culture: questions about the nature of human existence and destiny, and the characteristic problems and possibilities of humanity's struggle for justice, search for truth and hunger for beauty. These courses are structured as three hours of lecture and three hours of seminar each semester.
Interdisciplinary Option: Catholic Studies
Course equivalencies: X-HONR10/CATH102
Outcomes:
Studying a selection of major works from antiquity to the present, students learn how each text reflects its own period, how texts within each period present different views, and how ideas change over time; Written and visual expressions of these themes are examined in relation to the political and cultural background of each period: Ancient Greece and Rome, the Middle Ages, the Renaissance, the Enlightenment, the Romantic Period and modernism

HONR 102 Western Traditions-Renaissance to Modernity (3 Credit Hours)
This course (and its companion, HONR 101) opens perspectives on works that have shaped the self-understanding of the West. An interdisciplinary team of professors examines these works from a variety of disciplinary paradigms. Students will examine the recurring questions the works pose to each other and to our own culture: questions about the nature of human existence and destiny, and the characteristic problems and possibilities of humanity's struggle for justice, search for truth and hunger for beauty. These courses are structured as three hours of lecture and three hours of seminar each semester.
Outcomes:
Studying a selection of major works from antiquity to the present, students learn how each text reflects its own period, how texts within each period present different views, and how ideas change over time; Written and visual expressions of these themes are examined in relation to the political and cultural background of each period: Ancient Greece and Rome, the Middle Ages, the Renaissance, the Enlightenment, the Romantic Period and modernism

HONR 203A The United States Experience (3 Credit Hours)
Pre-requisites: Completion of HONR 101, HONR D101, HONR 102, and HONR D102
Restricted to students in the Honors Program. This course examines the question, "Who are we in the United States of America?" Students approach this question using multiple texts and visual materials that address social, political, and cultural aspects of the U.S. experience. The course illustrates the main contours of American society and the American story and explores the ways in which our self-image as a people reflects and contradicts reality.
Knowledge Area: Tier 2 Historical Knowledge
Outcomes:
Students will understand the role of key historical processes such as the frontier experience, industrialization, immigration, religious pluralism, and the struggle for equality in the development of a distinctive American story; They will learn to use available public sources to conduct research on aspects of the American experience

HONR 203B The United States Experience (3 Credit Hours)
Pre-requisites: Completion of HONR 101, HONR D101, HONR 102, and HONR D102
Restricted to students in the Honors Program. This course examines the question, "Who are we in the United States of America?" Students approach this question using multiple texts and visual materials that address social, political, and cultural aspects of the U.S. experience. The course illustrates the main contours of American society and the American story and explores the ways in which our self-image as a people reflects and contradicts reality.
Knowledge Area: Tier 2 Societal Knowledge
Outcomes:
Students will understand the role of key social processes such as the frontier experience, industrialization, immigration, religious pluralism, and the struggle for equality in the development of a distinctive American story; They will learn to use available public sources to conduct research on aspects of the American experience

HONR 203C The United States Experience (3 Credit Hours)
Pre-requisites: Completion of HONR 101, HONR D101, HONR 102, and HONR D102
Restricted to students in the Honors Program. This course examines the question, "Who are we in the United States of America?" Students explore the multiple ways in which key American experiences such as the western expansion, industrialization, immigration, religious pluralism, and the struggle for equality are reflected in its fiction and drama.
Knowledge Area: Tier 2 Literary Knowledge
Outcomes:
Students will be able to demonstrate an understanding of the various ways in which the distinctive U.S. experience has been presented in its literature; they will be able to analyze and defend interpretations of a variety of literary texts

HONR 204A Science and Society (3 Credit Hours)
Pre-requisites: Restricted to Honors students
Students will examine the ways natural science and social science address particular issues as well as the effects of science on society. They will study the history of science and scientific ways of knowing, and demonstrate the capacity to make reasoned and ethical judgments about the impact of science on society.
Knowledge Area: Tier 2 Historical Knowledge
Outcomes:
Students will learn the history of scientific principles and methods of producing knowledge and to make reasoned and ethical judgments about the impact of science on the individual, community and society

HONR 204B Science and Society (3 Credit Hours)
Pre-requisites: Completion of HONR 101, HONR D101, HONR 102, and HONR D102
Restricted to students in the Honors Program. Students will examine the ways natural science and social science address a particular issue as well as the effects of science on society. They will study scientific ways of knowing and organizing knowledge, and demonstrate the capacity to make reasoned and ethical judgments about the impact of science on society.
Knowledge Area: Tier 2 Societal Knowledge
Outcomes:
Students will learn scientific principles and methods of producing knowledge and to make reasoned and ethical judgments about the impact of science on the individual, community and society

HONR 204D Science and Society (3 Credit Hours)
Pre-requisites: Completion of HONR 101, HONR D101, HONR 102, and HONR D102
Restricted to students in the Honors Program. Students will examine the ways natural science and social science address a particular issue as well as the effects of science on society. They will learn scientific ways of knowing and organizing knowledge and demonstrate the capacity to make reasoned and ethical judgments about the impact of science on society.
Knowledge Area: Tier 2 Scientific Knowledge
Outcomes:
Students will learn scientific principles and methods of producing knowledge and to make reasoned and ethical judgments about the impact of science on the individual, community and society

HONR 204E Science and Society (3 Credit Hours)
Pre-requisites: Completion of HONR 101, HONR D101, HONR 102, and HONR D102
Restricted to students in the Honors Program. Students will examine the ways natural science and social science address a particular issue as well as the effects of science on society. They will learn scientific ways of knowing and organizing knowledge, and demonstrate the capacity to make reasoned and ethical judgments about the impact of science on society.
Knowledge Area: Quantitative Knowledge
Outcomes:
Students will learn quantitative methods of producing knowledge and to make reasoned and ethical judgments about the impact of science on the individual, community and society

HONR 208A Encountering Latin America and the Caribbean (3 Credit Hours)
Pre-requisites: Completion of HONR 101, HONR D101, HONR 102, and HONR D102
Restricted to students in the Honors Program. This course introduces students to the history and culture of selected nations of Latin America and the Caribbean. Students will study significant ideas and events that have shaped this area. These might include indigenous cultures, colonization, slavery, race relations, independence and revolutionary movements, economic dependency and political instability. Students will understand the relationships among cultural, economic, political, and social forces, and their impact on human behavior. They will become aware of variations in human values and behavior, ideas of justice, and shared understandings in unfamiliar cultures.
Knowledge Area: Tier 2 Historical Knowledge
Interdisciplinary Option: Global Studies

HONR 208B Encountering Latin America and the Caribbean (3 Credit Hours)
Pre-requisites: Completion of HONR 101, HONR D101, HONR 102, and HONR D102
This course introduces students to the history and culture of selected nations of Latin America and the Caribbean. Students will study significant ideas and events that have shaped this area. These might include indigenous cultures, colonization, slavery, race relations, independence and revolutionary movements, economic dependency and political instability. Restricted to students in the Honors Program.
Knowledge Area: Tier 2 Societal Knowledge
Interdisciplinary Option: Global Studies
Outcomes:
Students will understand the relationships among cultural, economic, political, and social forces, and their impact on human behavior; They will become aware of variations in human values and behavior, ideas of justice, and shared understandings in unfamiliar cultures

HONR 208C Encountering Latin America and the Caribbean (3 Credit Hours)
Pre-requisites: Completion of HONR 101, HONR D101, HONR 102, and HONR D102; Restricted to students in the Honors Program
This course introduces students to the literature of selected nations of Latin America and the Caribbean. Students will study the multiple ways in which indigenous cultures, colonization, slavery, race relations, independence and revolutionary movements, economic dependency and political instability are reflected in the region's fiction and drama.
Knowledge Area: Tier 2 Literary Knowledge
Interdisciplinary Option: Global Studies
Outcomes:
Students will be able to demonstrate an understanding of the various ways in which human identities and values have been presented in literature; they will be able to analyze and defend interpretations of a variety of literary texts

HONR 209A Encountering Asia (3 Credit Hours)
Pre-requisites: Completion of HONR 101, HONR D101, HONR 102, and HONR D102; Restricted to students in the Honors Program
This course will introduce students to various regions in Asia and some of the fundamental components of Asian civilizations as they have evolved historically and persist in the modern world. Regions might include East, South and Southeast Asia.
Knowledge Area: Tier 2 Historical Knowledge
Interdisciplinary Option: Asian Studies, Global Studies
Outcomes:
Students will learn different methods of interpreting cultural, economic, political, and social forces, and their impact on human behavior; They will become aware of variations in human identities and values, ideas of justice, and shared understandings in unfamiliar cultures

HONR 209B Encountering Asia (3 Credit Hours)
Pre-requisites: Completion of HONR 101, HONR D101, HONR 102, and HONR D102; Restricted to students in the Honors Program
This course will introduce students to various regions in Asia and some of the fundamental components of Asian civilizations as they have evolved historically and persist in the modern world. Regions might include East, South and Southeast Asia.
Knowledge Area: Tier 2 Societal Knowledge
Interdisciplinary Option: Asian Studies, Global Studies
Outcomes:
Students will learn different methods of interpreting cultural, economic, political, and social forces, and their impact on human behavior; They will become aware of variations in human identities and values, ideas of justice, and shared understandings in unfamiliar cultures

HONR 209C Encountering Asia (3 Credit Hours)
Pre-requisites: Completion of HONR 101, HONR D101, HONR 102, and HONR D102; Restricted to students in the Honors Program
This course will introduce students to the literature of various regions in Asia. Students read representative literary texts, exploring cross-cultural linkages and influences within Asia as a whole as well the distinctive characteristics of individual societies.
Knowledge Area: Tier 2 Literary Knowledge
Interdisciplinary Option: Asian Studies, Global Studies
Outcomes:
Students will be able to demonstrate an understanding of the various ways in which human identities and values have been presented in literature; they will be able to analyze and defend interpretations of a variety of literary texts

HONR 210A Encountering Africa (3 Credit Hours)
Pre-requisites: Completion of HONR 101, HONR D101, HONR 102, and HONR D102; Restricted to students in the Honors Program
This course introduces students to various regions in Africa and some of the fundamental components of African civilizations as they have evolved historically and persist in the modern world. These might include classical African civilizations, origins of the slave trade, agriculture, ethnicities, colonialism, nationalism, the modern state.
Knowledge Area: Tier 2 Historical Knowledge
Interdisciplinary Option: Global Studies
Outcomes:
Students will learn different methods of interpreting cultural, economic, political, and social forces, and their impact on human behavior; They will become aware of variations in human identities and values, ideas of justice, and shared understandings in unfamiliar cultures

HONR 210B Encountering Africa (3 Credit Hours)
Pre-requisites: Completion of HONR 101, HONR D101, HONR 102, and HONR D102; Restricted to students in the Honors Program
This course introduces students to various regions in Africa and some of the fundamental components of African civilizations as they have evolved historically and persist in the modern world. These might include classical African civilizations, origins of the slave trade, agriculture, ethnicities, colonialism, nationalism, the modern state.
Knowledge Area: Tier 2 Societal Knowledge
Interdisciplinary Option: Global Studies
Outcomes:
Students will learn different methods of interpreting cultural, economic, political, and social forces, and their impact on human behavior; They will become aware of variations in human identities and values, ideas of justice, and shared understandings in unfamiliar cultures

HONR 210C Encountering Africa (3 Credit Hours)
Pre-requisites: Completion of HONR 101, HONR D101, HONR 102, and HONR D102; Restricted to students in the Honors Program
This course introduces students to the literature of various regions in Africa. Topics might include the multiple ways in which classical African civilizations, the slave trade, agriculture, ethnicities, colonialism, nationalism, the modern state are reflected in the region's fiction or drama.
Knowledge Area: Tier 2 Literary Knowledge
Interdisciplinary Option: Global Studies
Outcomes:
Students will be able to demonstrate an understanding of the various ways in which human identities and values have been presented in literature; they will be able to analyze and defend interpretations of a variety of literary texts

HONR 212A Encountering the Middle East (3 Credit Hours)
Pre-requisites: Completion of HONR 101, HONR D101, HONR 102, and HONR D102; Restricted to students in the Honors Program
This course introduces students to various regions in the Middle East and some of the components of selected civilizations in this region as they have evolved historically and persist in the modern world. Topics might include monotheistic religions, the Ottoman Empire, Islamic culture, creation of the modern system of states after the First World War, the place of women in Middle Eastern societies, urban and rural cultures, the political and economic consequences of water scarcity and oil wealth.
Knowledge Area: Tier 2 Historical Knowledge
Interdisciplinary Option: Global Studies, Islamic World Studies
Outcomes:
Students will learn different methods of interpreting cultural, economic, political, and social forces, and their impact on human behavior; They will become aware of variations in human identities and values, ideas of justice, and methods of interpretation in unfamiliar cultures

HONR 212B Encountering the Middle East (3 Credit Hours)
Pre-requisites: Completion of HONR 101, HONR D101, HONR 102, and HONR D102; Restricted to students in the Honors Program
This course introduces students to various regions in the Middle East and some of the components of selected civilizations in this region as they have evolved historically and persist in the modern world. Topics might include monotheistic religions, the Ottoman Empire, Islamic culture, creation of the modern system of states after the First World War, the place of women in Middle Eastern societies, urban and rural cultures, the political and economic consequences of water scarcity and oil wealth.
Knowledge Area: Tier 2 Societal Knowledge
Interdisciplinary Option: Global Studies, Islamic World Studies
Outcomes:
Students will learn different methods of interpreting cultural, economic, political, and social forces, and their impact on human behavior; They will become aware of variations in human identities and values, ideas of justice, and methods of interpretation in unfamiliar cultures

HONR 212C Encountering the Middle East (3 Credit Hours)
Pre-requisites: Completion of HONR 101, HONR D101, HONR 102, and HONR D102; Restricted to students in the Honors Program
This course introduces students to various regions in the Middle East and some of the components of selected civilizations in this region as they have evolved historically and persist in the modern world. Topics might include monotheistic religions, the Ottoman Empire, Islamic culture, creation of the modern system of states after the First World War, the place of women in Middle Eastern societies, urban and rural cultures, the political and economic consequences of water scarcity and oil wealth.
Knowledge Area: Tier 2 Literary Knowledge
Interdisciplinary Option: Global Studies, Islamic World Studies
Outcomes:
Students will learn different methods of interpreting cultural, economic, political, and social forces, and their impact on human behavior; They will become aware of variations in human identities and values, ideas of justice, and methods of interpretation in unfamiliar cultures

HONR 216A Encountering Contemporary Europe (3 Credit Hours)
Pre-requisites: Completion of HONR 101, HONR D101, HONR 102, and HONR D102; Restricted to students in the Honors Program
This course introduces students to selected areas of Europe as they have evolved since World War II. Topics might include Europe's cultural history, nationalism, the European Union, immigration, economic development, and political life. Professors introduce students to various ways of approaching an area with many languages, ethnicities, nation-states and religions.
Knowledge Area: Tier 2 Historical Knowledge
Interdisciplinary Option: Global Studies
Outcomes:
Students will learn different methods of interpreting cultural, economic, political, and social forces, and their impact on human behavior; They will become aware of variations in human identities and values, ideas of justice, and shared understandings in unfamiliar cultures

HONR 216B Encountering Contemporary Europe (3 Credit Hours)
Pre-requisites: Completion of HONR 101, HONR D101, HONR 102, and HONR D102; Restricted to students in the Honors Program
This course introduces students to selected areas of Europe as they have evolved since World War II. Topics might include Europe's cultural history, nationalism, the European Union, immigration, economic development, and political life. Professors introduce students to various ways of approaching an area with many languages, ethnicities, nation-states and religions.
Knowledge Area: Tier 2 Societal Knowledge
Interdisciplinary Option: European Studies, Global Studies
Outcomes:
Students will learn different methods of interpreting cultural, economic, political, and social forces, and their impact on human behavior; They will become aware of variations in human identities and values, ideas of justice, and shared understandings in unfamiliar cultures

HONR 216C Encountering Contemporary Europe (3 Credit Hours)
Pre-requisites: Completion of HONR 101, HONR D101, HONR 102, and HONR D102; Restricted to students in the Honors Program
This course introduces students to European literature as it has evolved since World War II. Topics might include the various ways in which Europe's cultural history, nationalism, immigration, economic development, and political life are reflected in its fiction and drama. Professors introduce students to various ways of approaching an area with many languages, ethnicities, nation-states and religions.
Knowledge Area: Tier 2 Literary Knowledge
Interdisciplinary Option: Global Studies
Outcomes:
Students will be able to demonstrate an understanding of the various ways in which human identities and values have been presented in literature; they will be able to analyze and defend interpretations of a variety of literary texts

HONR 290 Literacy Center (3 Credit Hours)
Pre-requisites: Students in or beyond their second semester; UCWR 110 or equivalent
This course offers training and practical experience in tutoring adults in written and spoken English in a volunteer literacy program. Students will be able to demonstrate understanding of societal and cultural factors affecting literacy, and will develop communication and critical thinking skills.
This course satisfies the Engaged Learning requirement.

HONR 301 Honors Capstone: Moral Responsibility (3 Credit Hours)
This course is the capstone of the Interdisciplinary Honors Program and may be taught from the disciplinary perspectives of philosophy or theology. Students will be able to analyze ethical theories and to apply principles of ethical reasoning and individual moral responsibility to contemporary social issues and questions that arise in everyday life. Students must have 75 credit hours or more to enroll.
Knowledge Area: Ethics

HONR 370 Fieldwork in Honors - Internship (1-3 Credit Hours)
The main goal of this course is to provide students with valuable work experience in a professional field connected with their academic program. It allows students to apply and further develop their knowledge and skills through an internship in a non-academic setting. The course is also intended to serve as a "bridge" between college and career. This internship presents an opportunity for students to gain valuable professional experience as an intern in public or private institutions engaged in public service projects. HONR 370 will satisfy the "service" requirement for all Honors students.
This course satisfies the Engaged Learning requirement.

Mathematics and Statistics

About Us

The Department of Mathematics and Statistics offers a wide variety of undergraduate and graduate degree programs designed for students with diverse career or higher educational goals. The faculty assists students achieve these goals with up-to-date courses, seminars, and research or internship projects. Our faculty members maintain highly productive research programs which regularly result in publications in leading journals and academic presses. Much of the faculty research is supported by external agencies. The faculty is also actively engaged in modernizing our elementary course offerings both in content and in the use of technology.

Mission

The Department of Mathematics and Statistics at Loyola University Chicago, in the College of Arts and Sciences, supports the Jesuit ideal of knowledge in the service of humanity. The department endeavors to advance knowledge in mathematics and statistics, engaged with Chicago, the nation and the world. To achieve this mission, the department participates in the discovery, development, demonstration and dissemination of professional knowledge and practice within a context of professional ethics and service to others.

Beyond honing students' analytical skills, the mathematics and statistics curricula also foster critical thinking and the ability to articulate it... skills that are in high demand in many diverse fields.

Commitment to Diversity, Equity, and Inclusion

The Department of Mathematics and Statistics will work to ensure that we invest in each student's success, sense of belonging, and cultural competency. We will strive to engage, empower, inform, and hold our faculty and students accountable for fostering an environment where every person shares in the responsibility for advancing diversity and inclusive excellence. Likewise, the department decisions and policies will be crafted with these goals in mind. We commit to this mission recognizing a definition of diversity that includes, but is not limited to, race, ethnicity, color, religion, national or ethnic origin, sex, age, military/veteran status, disability, marital status, sexual orientation, gender identity and expression, socio-economic background, and residency.

Undergraduate Programs

- Actuarial Science Minor (p. 473)
- Applied Mathematics (BS) (p. 473)
- Applied Statistics (BS/MS) (p. 888)
- Biostatistics Minor (p. 474)
- Data Science/Applied Statistics (BS/MS) (p. 940)
- Data Science/Mathematics (BS/MS) (p. 942)
- Mathematics (BS) (p. 474)
- Mathematics (BS/MS) (p. 1128)
- Mathematics/Applied Statistics (BS/MS) (p. 1131)
- Mathematics - Education Track (BS) (p. 475)
- Mathematics and Computer Science (BS) (p. 476)
- Mathematics and Computer Science/Mathematics (BS/MS) (p. 1133)
- Mathematics Minor (p. 476)
- Statistics (BS) (p. 477)
- Statistics/Applied Statistics (BS/MS) (p. 1201)
- Statistics Minor (p. 477)
- Theoretical Physics and Applied Mathematics (BS) (p. 478)

Mathematics and Statistics Department Policies

Registration Restrictions

Students who have successfully completed (with a grade of C- or higher) any 100-level course are not permitted to take or repeat a prerequisite of such course without explicit permission from the Chair or Assistant Chair of the Department of Mathematics and Statistics. For example, a student who earned a grade of B in MATH 161 Calculus I is not permitted to register for MATH 100 Intermediate Algebra, MATH 117 Precalculus I or MATH 118 Precalculus II.

Prerequisite Policy

A student's lack of appropriate course prerequisites constitutes **grounds for withdrawal** from the class at any time.

AP Course Credit Policies

Students may receive credit for the following courses if they earn an appropriate score on an Advanced Placement Test offered by the College Board (https://www.collegeboard.org/).

AP Calculus

Credit for the AP Calculus exams will be awarded as follows:

- 4–5 on AB Calculus Exam 4 credits for MATH 161 Calculus I;
- 4–5 on BC Calculus Exam 8 credits for MATH 161 Calculus I and MATH 162A Calculus II, Alternate;
- 4–5 on AB portion of BC Calculus Exam 4 credits for MATH 161 Calculus I.

AP Statistics

A score of 4 or 5 results in credit for STAT 103 Fundamentals of Statistics.

Policy on Multiple Majors or Minors

The following modifies and clarifies the "Double-Dipping" policy (https://www.luc.edu/cas/double-dippingpolicy/) of the College of Arts & Sciences, as it pertains to the Department of Mathematics & Statistics.

Most combinations of majors or minors are allowed. In particular, combinations of majors will be permitted as long as students respect the College of Arts & Sciences policy that each major should include 21 credit hours not being counted for another major, along with the following restrictions specific to the Department of Mathematics & Statistics:

1. MATH-BS *may* be paired with TPAM-BS, but **may not** be earned together with a *double-major* in TPAM-BS plus any Physics major (*e.g.*, BPHY-BS, PCSC-BS, PHYS-BS)
2. MATH-BS *may* be paired with MSCS-BS, but **may not** be earned together with a *double-major* in MCSC-BS plus any Computer Science major.
3. DSCI-BS *may* be paired with either STAS-BS or a computer science major, but not with a double major in statistics and computer science.

All Minors offered by the department must contain at least 6 credit hours at the 200 level or above not used to satisfy requirements of any other major or minor, and at least three of these must be at the 300 level. This condition may be met by taking additional electives, if necessary, from the electives list for the minor. Furthermore, the following combinations are not allowed. All other combinations are allowed provided they meet the above criteria

- ACTU-MINR **may not** be earned together with STAS-BS or DSCI-BS
- BIOS-MINR **may not** be earned along with STAS-BS or DSCI-BS
- MATH-MINR **may not** be earned together with AMTH-BS, MATH-BS, MCSC-BS, MTED-BS, TPAM-BS
- STAT-MINR **may not** be earned together with STAS-BS. STAT-MINR **may** be earned with DSCI-BS but **only** if STAT 304 Introduction to Probability and STAT 305 Introduction to Mathematical Statistics are taken as electives.
- DSCI-MINR **may not** be earned along with DSCI-BS or a double major with STAS-BS and any computer science major.

Otherwise, any of our minors may be awarded along with a major in Biology, Engineering, Mathematics, Physics or Statistics with a minimum of 6 unique credit hours. Other combinations where the number of unique credit hours is at least 6 but below 8 may be approved on a case-by-case basis.

Performance Withdrawal Policy

A student **may be withdrawn from any of our majors** if:

i. The student receives 2 grades less than C- in a two-year period in courses required for the major, or
ii. The student has a GPA in the major < 2.0 after completion of all 100-level and 200-level requirements.
iii. The chair has the right to reinstate students in the major for exceptional cases.

**This policy will be enforced beginning in fall 2021, meaning poor grades from AY2020-2021 and before will not be considered.

Undergraduate Policies and Procedures

Please see Undergraduate Policies and Procedures (p. 2050) for academic policies that supersede those of academic units within the University.

Mathematical Sciences (MATH)

MATH 99 Problem-Solving Methods in Mathematics (0 Credit Hours)
This course offers a review of topics in arithmetic and basic algebra such as percentages, decimals, basic algebraic operations, equations, graphing, and elementary word problems.
Outcomes:
Students with weak backgrounds in basics mathematics will receive the preparation needed to enroll in Mathematics 100

MATH 100 Intermediate Algebra (3 Credit Hours)
This course covers the fundamentals of algebra, ranging from linear equations and their graphs through exponents and systems of equations.
Course equivalencies: ACMAT100/MATH100
Outcomes:
Students with weak algebraic backgrounds will receive the preparation needed to use algebra in other courses or, if they plan to take calculus, to enroll in College Algebra

MATH 108 Real World Modeling with Mathematics (3 Credit Hours)
This course investigates mathematical modeling applied to a variety of topics such as linear programming, coding information, probability and statistics, scheduling problems and social choice.
Knowledge Area: Quantitative Knowledge
Outcomes:
Students will understand the usefulness of mathematical modeling in a variety of disciplines within the life sciences, the social sciences, and business; This course satisfies the quantitative literacy requirement of the core curriculum

MATH 117 Precalculus I (3 Credit Hours)
Pre-requisites: Math Placement Test or MATH 100
This course covers algebraic topics ranging from functions and their applications to complex numbers to inverse functions to the fundamental theorem of algebra.
Course equivalencies: ACMAT 117/MATH 117
Outcomes:
Students who plan to study calculus will obtain the algebraic background needed to enroll in precalculus

MATH 118 Precalculus II (3 Credit Hours)
Pre-requisites: Math Placement Test or MATH 117
This course covers topics ranging from exponential and logarithmic functions to trigonometric functions to the complex plane and elementary optimization problems.
Course equivalencies: MATH 118/ ACMAT 118
Outcomes:
Students will obtain the background needed to enroll in either of the departments calculus sequences

MATH 123 Topics (1-3 Credit Hours)
Freshman Mathematics/Statistics Seminar (1-3 Credit Hours): A freshman seminar with no prerequisites on topics in the mathematical sciences drawn from algebra, geometry, statistics, and their applications.

MATH 131 Applied Calculus I (3 Credit Hours)
Pre-requisites: Math Placement Test or MATH 118
An introduction to differential and integral calculus, with an emphasis on applications. This course is intended for students in the life and social sciences, computer science, and business. Topics include: modeling change using functions including exponential and trigonometric functions, the concept of the derivative, computing the derivative, applications of the derivative to business and life, social and computer sciences, and an introduction to integration.
Interdisciplinary Option: Bioinformatics, Forensic Science
Outcomes:
Students will obtain an understanding of calculus and methods for applying calculus (especially differential calculus), including modeling/analyzing processes (such as population growth and cooling), interpreting the derivative (numerical, graphical, and algebraic), and optimization (such as finding the time and level for a peak drug concentration)

MATH 132 Applied Calculus II (3 Credit Hours)
Pre-requisites: MATH 131
This course is a continuation of MATH 131. Topics include: definition and interpretations of the integral (numerically, graphically, and algebraically), basic techniques for computing anti-derivatives, applications to probability, an introduction to multi-variable calculus and optimization for functions of several variables, and mathematical modeling using differential equations. (This course is not a substitute for MATH 162.)
Interdisciplinary Option: Bioinformatics, Forensic Science
Outcomes:
Students will obtain an understanding of integral and multi-variable calculus, including modeling/analyzing processes with the integral, optimization of functions of several variables, and modeling with differential equations

MATH 140L Geometry for Middle Grade Teachers (3 Credit Hours)
The content covered in this course will include: Area, perimeter, volume, surface area, Properties of two and three dimensional figures, points, lines, planes, space, the Pythagorean theorem, transformations, fractals, tessellations, perspective drawings and informal proofs. The material covered will address Illinois Learning Standard Goal 7 and Goal 9 and related content performance descriptors for educators. The course is designed for Elementary education majors that wish to enhance, enrich and deepen their knowledge of Geometry and apply for a 6th-8th grade Mathematics endorsement from the State of Illinois. Mathematics Content Area Standards 7 (Measurement) and 9 (Geometry) from the Content-Area Standards for Educators document published by the Illinois State Board of Education will be emphasized.
Outcomes:
Students will obtain an understanding of the geometry topics taught in the middle grade mathematics curriculum

MATH 141L Number Theory for Middle Grade Teachers (3 Credit Hours)
Greatest common divisors, prime factorization, decimal fractions, continued fractions, primes, composite numbers, tests for divisibility, perfect numbers, polygonal numbers, numbers bases, and patterns in addition and multiplication tables are a sample of the topics covered. (Illinois Learning Standard Goal 6 and related performance descriptors). Appropriate use of technology (spread sheets, CAS, etc.) will also be addressed.
Outcomes:
Students will obtain an understanding of topics from Number Theory that are addressed in the middle grade mathematics curriculum

MATH 142L History of Mathematics for Middle Grade Teachers (3 Credit Hours)
This course will provide a thematic approach to the history of mathematics with emphasis on contributions by noted mathematicians, mathematical societies and scientists highlighting women and under-represented populations. The history of numbers and numerals, computation, geometry, algebra, trigonometry, calculus, and science patterns will be explored emphasizing the contributions of the Babylonian, Egyptian, Chinese, and Roman civilizations as well as such individuals as Euclid, Fermat, Archimedes, Kepler, Pythagoras, Euler, Hypatia, Sonjs Kovalevsky, Emmy Noether and others as appropriate. The influence of technology and its applications will also be presented as appropriate.
Outcomes:
Students will obtain a unique historical perspective on the various areas of mathematics that are studied in the middle grade mathematics curriculum

MATH 143L Probability and Statistics for Middle Grade Teachers (3 Credit Hours)
Data collection and display, simulations, surveys, probability and elementary statistics such as mean, median, mode, standard deviation, etc. will be the focus of this course (Illinois Learning Standard Goal 10) Appropriate techniques for graphing (scatter plots, histograms, regression, correlation) with and without technology will be a focus of this course.
Outcomes:
Students will obtain a background in the fundamentals of descriptive and inferential statistics, along with an understanding of their uses and misuses, as addressed in middle school mathematics curriculum

MATH 147 Mathematics For Teachers I (3 Credit Hours)
For course description, see CIEP 104.
This course satisfies the Engaged Learning requirement.
Course equivalencies: X-CIEP104/MATH147

MATH 148 Mathematics For Teachers II (3 Credit Hours)
For course description, see CIEP 105.
Course equivalencies: X-CIEP105/MATH148

MATH 149 Intro to Computer Science For Teachers (3 Credit Hours)
For prerequisite and description, see COMP 120.
Course equivalencies: X-COMP120/MATH149

MATH 161 Calculus I (4 Credit Hours)
Pre-requisites: Math Placement Test or MATH 118
This course provides a standard introduction to differential and integral calculus and covers topics ranging from functions and limits to derivatives and their applications to definite and indefinite integrals and the fundamental theorem of calculus and their applications.
Interdisciplinary Option: Bioinformatics, Forensic Science
Course equivalencies: ACMAT 161/MATH 161
Outcomes:
Students will obtain the background needed to enroll in Calculus II

MATH 162 Calculus II (4 Credit Hours)
Pre-requisites: MATH 161
This course is a continuation of Calculus I and includes the calculus of various classes of functions, techniques of integration, applications of integral calculus, three-dimensional geometry, and differentiation and integration in two variables.
Interdisciplinary Option: Bioinformatics
Course equivalencies: ACMAT 162/MATH 162
Outcomes:
Students will obtain the background needed for further study in mathematics and to apply mathematics in the physical sciences

MATH 162A Calculus II, Alternate (4 Credit Hours)
Pre-requisites: MATH 161
This course is a continuation of Calculus I and includes the calculus of various classes of functions, techniques of integration, applications of integral calculus, sequences and infinite series, and an introduction to differential equations. This course follows a traditional approach to calculus sequencing.
Interdisciplinary Option: Bioinformatics
Outcomes:
Students will obtain the background needed for further study in mathematics and to apply mathematics in the physical sciences

MATH 170 Service Learning in Mathematics (3 Credit Hours)
Pre-requisites: B+ or higher in any of the following (MATH 118 or MATH 131 or MATH 132 or MATH 161 or MATH 162 or MATH 263 or MATH 263A)
Students will learn best practices to communicate mathematical concepts and skills to diverse populations by engaging in tutoring mathematics to the undergraduate population at Loyola. This course is designed to promote and encourage engagement and rigor in mathematical concepts and skills among the diverse communities of learners at Loyola.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students in this course will deepen their understanding of mathematical concepts and skills and be able to communicate this effectively to diverse communities of learners

MATH 201 Introduction to Discrete Mathematics & Number Theory (3 Credit Hours)
This course covers topics from discrete mathematics and number theory, areas of mathematics not seen in calculus courses and abundant in applications, that provide students with the concepts and techniques of mathematical proof needed in 300 level courses in mathematics.
Outcomes:
Students will obtain an understanding of the basic concepts and techniques involved in constructing rigorous proofs of mathematical statements

MATH 212 Linear Algebra (3 Credit Hours)
Pre-requisites: MATH 132 or MATH 162 or MATH 162A
This course provides an introduction to linear algebra in abstract vector spaces with an emphasis on Rn, covering topics such as Gaussian elimination, matrix algebra, linear independence and spanning, linear transformations and eigenvalues; software packages such as MAPLE may be used.
Outcomes:
Students will receive an introduction to abstract mathematics in a setting that encourages the thinking needed in more advanced mathematics courses

MATH 215 Object-Oriented Programming with Mathematics (3 Credit Hours)
Pre-requisites: MATH 132 or MATH 162 or MATH 162A
This is an introductory programming course for students interested in mathematics and scientific computing. Students will program primarily in a general object-oriented language such as Python, with supplementary exercises in a computer algebra system. Examples will be drawn primarily from applications of calculus, elementary number theory, and cryptography.
Course equivalencies: X-COMP215/MATH215
Outcomes:
Students will learn basic scripting and object-oriented programming, with the goal of being able to solve mathematical and scientific problems

MATH 263 Multivariable Calculus (4 Credit Hours)
Pre-requisites: MATH 162
This course covers the differential and integral calculus of multivariable and vector valued functions, and sequences and infinite series, culminating with Green's Theorem, the Divergence Theorem, and Stokes' Theorem; software packages such as MAPLE may be used.
Outcomes:
Students will obtain an understanding of multivariable calculus and its applications, as well as background needed for the study of more advanced mathematics

MATH 263A Multivariable Calculus, Alternate (4 Credit Hours)
Pre-requisites: MATH 162A
This course covers the differential and integral calculus of multivariable and vector valued functions, culminating with Green's Theorem, the Divergence Theorem, and Stokes' Theorem; software packages such as MAPLE may be used. This course follows a traditional approach to calculus sequencing.
Outcomes:
Students will obtain an understanding of multivariable calculus and its applications, as well as background needed for the study of more advanced mathematics

MATH 264 Ordinary Differential Equations (3 Credit Hours)
Pre- or co-requisites: MATH 263 or MATH 263A
This course covers the theory, solution techniques, and applications surrounding linear and non-linear first and second-order differential equations, including systems of equations; software packages such as MAPLE may be used.
Outcomes:
Students will obtain an understanding of elementary differential equations and their applications

MATH 266 Differential Equations and Linear Algebra (3 Credit Hours)
Co-requisites: MATH 263 or MATH 263A
This course provides an introduction to basic topics in ordinary differential equations and linear algebra. Topics include first and second-order differential equations, Laplace transform, systems of first-order differential equations, systems of linear algebraic equations, matrix algebra, bases and dimension for vector spaces, linear independence, linear transformations, determinants, eigenvalues, and eigenvectors. Prerequisites or
Outcomes:
Students will learn fundamental results and methods in ordinary differential equations and linear algebra, with a strong emphasis on topics that are particularly relevant for Engineering Science

MATH 277 Problem-Solving Seminar (1 Credit Hour)
In a seminar setting, students discuss and present proofs (or computer examples) as solutions to regional and national mathematics contest problems usually involving techniques drawn from elementary logic, calculus of one and several variables, combinatorics, number theory, geometry, basic algebra, and abstract algebra. Learning Outcome: To improve a student's ability to communicate mathematically and to strengthen the student's problem-solving skills.

MATH 298 Mathematics Seminar (1-3 Credit Hours)
This course is a sophomore-level seminar covering topics in areas such as number theory, logic, set theory, metric spaces, or history of mathematics.
Outcomes:
Students will obtain an initial insight into a number of areas of advanced study in mathematics

MATH 301 History of Mathematics (3 Credit Hours)
Pre-requisites: MATH 132 or MATH 162 or MATH 162A
This course explores selected topics in the history of mathematics ranging from Babylonian and Egyptian mathematics to Pythagoras and Euclid to the Hindu-Arabic numeration system to Newton and Leibniz to geometries other that Euclid's to the mathematical art of Escher.
Outcomes:
Students will obtain a unique historical perspective on the various areas of mathematics that they are studying in their other courses

MATH 304 Introduction to Probability (3 Credit Hours)
For prerequisites and description, see STAT 304.
Course equivalencies: X-MATH304/STAT304

MATH 305 Introduction to Mathematical Statistics (3 Credit Hours)
For prerequisites and description, see STAT 305.
Course equivalencies: X-MATH305/STAT305

MATH 306 Intro to Stochastic Processes (3 Credit Hours)
For prerequisites and description, see STAT 306.
Course equivalencies: X-MATH306/STAT306

MATH 309 Numerical Methods (3 Credit Hours)
Pre-requisites: (COMP 170 or COMP 215) and [(MATH 212 and 264) or MATH 266]
This course offers an introduction to topics such as error analysis, interpolation and approximation, and the numerical solution of problems involving differentiation, integration, and ordinary and partial differential equations.
Course equivalencies: X-COMP309/MATH309
Outcomes:
Students will obtain an understanding of how numerical methods can be used in a variety of areas of mathematics

MATH 313 Abstract Algebra (3 Credit Hours)
Pre-requisites: MATH 201 and 212
This course provides a rigorous introduction to the study of structures such as groups, rings, and fields; emphasis is on the theory of groups with topics such as subgroups, cyclic groups, Abelian groups, permutation groups, homomorphisms, cosets, and factor groups.
Outcomes:
Students will obtain an understanding of abstract structures that will prepare them for advanced work in mathematics

MATH 314 Advanced Topics Abstract Algebra (3 Credit Hours)
Pre-requisites: MATH 313
This course studies advanced algebraic systems such as commutative and non-commutative rings, integral domains, fields, and additional selected topics.
Outcomes:
Students will obtain an understanding of advanced abstract structures that will prepare them for graduate level work in mathematics

MATH 315 Advanced Topics in Linear Algebra (3 Credit Hours)
Pre-requisites: MATH 313
This course offers a rigorous abstract approach to vector spaces and transformations, including similarity, duality, canonical forms, inner products, bilinear forms, Hermitian and unitary spaces, and other selected topics.
Outcomes:
Students will obtain an understanding of advanced linear algebra structures that will prepare them for graduate level work in mathematics

MATH 318 Combinatorics (3 Credit Hours)
Pre-requisites: MATH 162 or MATH 162A
This course offers a rigorous introduction to combinatorics, including topics such as induction, the pigeon-hole principle, permutations, combinations, recurrence relations, generating functions, the inclusion-exclusion principle, and other selected topics.
Outcomes:
Students will obtain an understanding of the basic topics in combinatorics that will prepare them for advanced study of related topics in mathematics and computer science

MATH 320 Mathematical Logic (3 Credit Hours)
Pre-requisites: MATH 201
This course in modern mathematical logic begins with a study of propositional logic and leads to the study of first-order predicate logic, including quantifiers, models, syntax, semantics, the completeness and compactness theorems, and other selected topics.
Outcomes:
Students will develop a fuller understanding of mathematical logic and therefore of the underlying theory behind proofs of mathematical assertions

MATH 322 Advanced Number Theory (3 Credit Hours)
Pre-requisites: MATH 201
This course will cover Pythagorean triples, problems related to Fermat's Last Theorem, Pell's equation, Fermat's method of descent, primes in arithmetic progressions, Mersenne primes, perfect numbers, primitive roots, primality testing, Carmichael numbers, RSA public key encryption, quadratic residues, and quadratic reciprocity. Additional topics will be covered as time permits.
Outcomes:
Students will be able to solve important practical and theoretical number theory problems; Students will be exposed to both significant recently solved number theory problems and currently unsolved conjectures

MATH 328 Algebraic Coding Theory (3 Credit Hours)
Pre-requisites: MATH 212 or MATH 266
Codes with algebraic structure for error control are examined. Block codes including Hamming codes and Reed-Muller codes, BCH codes, and other cyclic codes and their implementation are treated. Other topics may include: convolutional codes, efficiency considerations, and Shannon's fundamental theorem of information theory.
Course equivalencies: X-MATH328/COMP328

MATH 331 Cryptography (3 Credit Hours)
Pre-requisites: Theoretical Foundations: MATH201 or COMP363; Programming Foundations: COMP125 or COMP150 or COMP170 or COMP/MATH 215
This course introduces the formal foundations of cryptography and also investigates some well-known standards and protocols, including private and public key cryptosystems, hashing, digital signatures, RSA, DSS, PGP, and related topics.
Course equivalencies: X-COMP331/MATH331
Outcomes:
Students will gain an understanding of cryptosystems widely used to protect data security on the internet, and be able to apply the ideas in new situations as needed

MATH 344 Geometry (3 Credit Hours)
Pre-requisites: MATH 212
This course discusses axiomatic systems which define geometries and includes topics from synthetic and analytic projective geometry.
Outcomes:
Students will obtain an understanding of the many different geometries that are studied by teachers and researchers

MATH 345 Introduction to Financial Mathematics Derivatives (3 Credit Hours)
Pre-requisites: (MATH 264 or MATH 266) and MATH 304
The course provides an introduction to the mathematical theory of option pricing. We will rigorously derive option relationships using no arbitrage conditions, introduce rudimentary stochastic calculus and Brownian motion as models for stock prices, and give an introduction to methods for solving partial differential equations to give explicit Black-Scholes formulas.
Outcomes:
The students will gain knowledge of the theory of options, bond and stock pricing, portfolio optimization, and will be exposed to other relevant applications of Mathematics to Finance

MATH 351 Introduction to Real Analysis I (3 Credit Hours)
Pre-requisites: MATH 201 and MATH 263 and (MATH 212 or MATH 266)
This course provides a rigorous treatment of the real numbers and real-valued functions of a real variable, including sequences, the Bolzano-Weierstrass and Heine-Borel theorems, topology, uniform continuity, fixed-point theorems, derivatives, and other selected topics.
Outcomes:
Students will obtain an understanding of the fundamentals of real analysis that will prepare them for advanced work in mathematics

MATH 352 Introduction to Real Analysis II (3 Credit Hours)
Pre-requisites: MATH 351
This course, a continuation of MATH 351, provides the theoretical background for differentiability and integrability on R and Rn and Taylor's theorem, the change of variable theorem, the inverse and implicit function theorems, Lebesgue integration, and other selected topics.
Outcomes:
Students will obtain an understanding of topics in advanced analysis that will prepare them for graduate level work in mathematics

MATH 353 Introductory Complex Analysis (3 Credit Hours)
Pre-requisites: (MATH 264 and MATH 266) and MATH 351
This course provides an introduction to the theory of functions of a complex variable, including analytic functions, contour integrals, the Cauchy integral formula, harmonic functions, Laurent series, residues and poles, conformal mapping, and other selected topics.
Outcomes:
Students will obtain an understanding of the fundamentals of complex analysis that will prepare them for advanced work in mathematics

MATH 355 Methods of Applied Mathematics (3 Credit Hours)
Pre-requisites: MATH 264
Vector calculus, linear transformations, matrices, series solutions of differential equations, special functions; Fourier series, Fourier and Laplace transforms; Partial differential equations and topics from complex analysis, Green's functions, integral equations, the calculus of variations.
Course equivalencies: X-PHYS301/PHYS271/MATH355
Outcomes:
Facility with mathematical methods used in sciences and engineering

MATH 356 Mathematical Modeling (3 Credit Hours)
Pre-requisites: MATH 266 Linear Algebra and Differential Equations or (MATH 264 Ordinary Differential Equations and MATH 212 Linear Algebra)
This course will teach students how to use various areas of mathematics, such as vector calculus, linear algebra, and ordinary differential equations, to formulate mathematical models in, for example, particle and continuum mechanics, biology, economics, finance, etc.
Outcomes:
Students will learn how to formulate mathematical models

MATH 358 Introduction to Optimization (3 Credit Hours)
Pre-requisites: (MATH 162 or MATH 263A) and (MATH 212 or MATH 266)
The course is an introduction to linear, nonlinear, and integer optimization, and may include optimization on graphs, stochastic optimization, etc. Modeling of real-life problems as optimization problems, mathematical analysis of resulting optimization problems, and computational approaches to solving the problems will be covered.
Course equivalencies: X-MATH358/STAT358
Outcomes:
Students will learn how to recognize optimization problems, model real-life challenges as optimization problems, perform mathematical analysis of the problems, and solve the problems using computational tools

MATH 360 Introduction to Game Theory (3 Credit Hours)
Pre-requisites: MATH 162 or MATH 162
The noncooperative and cooperative theories of games. Two person zero sum matrix games, nonzero sum N-person games, Nash equilibria of games with a continuum of strategies, auctions, duels. Cooperative game theory, including the theory of bargaining, the theory of fair allocation of rewards using the nucleolus and using the Shapley value. Students will obtain an understanding of the fundamentals of mathematical game theory.

MATH 365 Introduction to Partial Differential Equations (3 Credit Hours)
Pre-requisites: MATH 264 or MATH 266
This course provides an introduction to basic topics in partial differential equations (PDE). In addition to first order PDE, such as the transport equation, the main types of second order PDE, including the Laplace equation, the heat equation, and the wave equation, will be studied in detail.
Outcomes:
Students will learn fundamental results and methods in partial differential equations and their applications

MATH 366 Applied Dynamical Systems (3 Credit Hours)
Pre-requisites: MATH 266 Linear Algebra and Differential Equations or (MATH 264 Ordinary Differential Equations and MATH 212 Linear Algebra)
Modeling, analysis, and prediction of short-term and asymptotic behavior of dynamical systems is studied. Continuous-time and discrete-time dynamical systems are considered, and modeled by differential and difference equations, respectively. Motivation comes from biological, chemical, mechanical, and engineering systems. Students will learn how to model dynamical systems and predict their behavior.

MATH 376 Formal Language & Automata (3 Credit Hours)
Pre-requisites: COMP 163 or MATH 201 or MATH 212 or MATH 266
This course introduces formal language theory, including such topics as finite automata and regular expressions, pushdown automata and context-free grammars, Turing machines, undecidability, and the halting problem.
Course equivalencies: X-COMP376/MATH376
Outcomes:
An understanding of the theoretical underpinnings of computability and complexity in computer science

MATH 386 Introduction to Topology (3 Credit Hours)
Pre-requisites: MATH 351
This first course in topology discussed topological spaces, continuity, connectedness, path-connectedness, compactness, product spaces, quotient spaces, Tychonoff's theorem, the Baire category theorem, and other selected topics.
Outcomes:
Students will obtain a background in topology that will allow them to apply this topic to other areas of mathematics or to pursue graduate studies

MATH 388 Special Topics in Mathematics (1-3 Credit Hours)
This course covers advanced topics in mathematics, including analysis, topology, algebra, applied mathematics, and logic.
Outcomes:
Students will obtain an understanding of an advanced topic in their major

MATH 390 Undergraduate Seminar (1 Credit Hour)
Pre-requisites: Senior Standing, including completion of MATH 304/STAT 304 or MATH 313 or MATH 351
The seminar will cultivate students' presentation skills through participation in and critical discussion of brief lectures on familiar and unfamiliar topics; preparation and presentation of two brief lectures by the student (one on a familiar topic from the curriculum, one on a higher level material not customarily from the curriculum); and preparation of an extended abstract summarizing the advanced material presented.
Outcomes:
Students will gain the ability to present material in Mathematics and applications to a general audience

MATH 395 Capstone Seminar (3 Credit Hours)
Pre-requisites: MATH 313 Abstract Algebra, MATH 351 Introduction to Real Analysis I, and MATH 390 Undergraduate Seminar
The course unifies the knowledge gained in previous Mathematics courses and provides an opportunity for in-depth study and presentation of advanced material not usually covered in the standard Mathematics curriculum.
Outcomes:
Students will learn how to integrate previous knowledge in exploring new topics in Mathematics, discover applications to other disciplines, and refine their mathematical writing and presentation skills

MATH 398 Independent Study (1-6 Credit Hours)
This course allows students to engage in independent study on selected topics in mathematics under the supervision of a faculty member.
Outcomes:
Students will obtain an understanding of an advanced topic in their major

Statistics (STAT)

STAT 103 Fundamentals of Statistics (3 Credit Hours)
This course provides an introduction to statistical reasoning and techniques in descriptive and inferential statistics and their applications in economics, education, genetics, medicine, physics, political science, and psychology. Not open to students who have completed ISOM 241.
Knowledge Area: Quantitative Knowledge
Course equivalencies: ISOM/H/MGSC241/STAT103/ACST101
Outcomes:
Students will obtain a background in the fundamentals of descriptive and inferential statistics along with an understanding of their uses and misuses; This course satisfies the quantitative literacy requirement of the core curriculum

STAT 203 Introduction to Probability & Statistics (3 Credit Hours)
Pre-requisites: MATH 132 or MATH 162 or MATH 162A; MATH 162 may also be taken concurrently as a co-requisite
This course is a Calculus-based rigorous introduction to basic topics in probability (distributions, expectations, variance, central limit theorem and the law of large numbers, moment generating functions, etc.) and statistics (estimation, hypothesis testing, regression, design of experiments) needed in engineering and science applications. They will learn how to assess data and outcomes of experiments.
Outcomes:
The students will obtain required knowledge in probability and statistics useful in every area of engineering and science

STAT 303 SAS Programming & Applied Statistics (3 Credit Hours)
Pre-requisites: STAT 103 or 203 or 335
This course provides an introduction to SAS programming in the context of practical problems taken from applied statistics.
Outcomes:
Students obtain extensive experience with data-set manipulations, SAS procedures, and their application in contexts such as t-tests, simple and multiple regression, ANOVA, and regression

STAT 304 Introduction to Probability (3 Credit Hours)
Pre-requisites: MATH 263 or MATH 263A
This course provides a calculus based introduction to probability theory, including topics such as combinatorial analysis, random walk, conditional probability, and a variety of statistical distributions.
Course equivalencies: X-MATH304/STAT304
Outcomes:
Students obtain the theoretical background in probability needed for further study in probability and statistics

STAT 305 Introduction to Mathematical Statistics (3 Credit Hours)
This course is a continuation of STAT 304 and applies the techniques of calculus and probability to the study of advanced topics in statistics.
Course equivalencies: X-MATH305/STAT305
Outcomes:
Students obtain the theoretical background in statistics needed for graduate level work in probability and statistics

STAT 306 Intro to Stochastic Processes (3 Credit Hours)
Pre-requisites: (STAT 203 or STAT 335) and (MATH 212 or MATH 266)
This course discusses topics such as finite-state Markov processes and Markov chains, classification of states, long-run behavior, continuous time processes, birth and death processes, random walks, and Brownian motion.
Course equivalencies: X-MATH306/STAT306
Outcomes:
Students will obtain a background in stochastic processes that will allow them to apply them in areas like genetics, population growth, inventory, cash management, and gambling theory

STAT 307 Statistical Design & Analysis of Experiments (3 Credit Hours)
Pre-requisites: (STAT 203 or STAT 335 with a C- or better) and STAT 308 with a C- or better
This course discusses comparative experiments, analysis of variance, fixed and random effects models, and a variety of design models; packaged computer programs such as SPSS or SAS will be used extensively.
Outcomes:
Students will obtain the background in statistical design and analysis of experiments needed to apply them in their own areas of interest

STAT 308 Applied Regression Analysis (3 Credit Hours)
Pre-requisites: STAT 203 or 335
This course discusses simple and multiple linear regression methods, multiple comparison estimation procedures, residual analysis, and other methods for studying the aptness of a proposed regression model; packaged computer programs such as SPSS and SAS will be used extensively
Outcomes:
Students will obtain an extensive background in the applications of regression analysis

STAT 310 Categorical Data Analysis (3 Credit Hours)
Pre-requisites: STAT 203 or STAT 335 with C- or better and STAT 303 or STAT 308 with C- or better
An introduction to modern-day extensions of simple linear regression and ANOVA to the chi-square test including logistic regression and log-linear modelling techniques based on generalized linear models. Methods for matched-pair, small datasets, ordinal and multi-category data also discussed. This course focuses on applications using real-life data sets, and uses popular software packages.

STAT 311 Applied Survival Analysis (3 Credit Hours)
Pre-requisites: STAT 308 (Applied Regression Analysis)
This course focuses on methods for analyzing time-to-event data. The course will explore non-parametric methods for analyzing time-to-event data like Life tables, the Kaplan-Meier method, the Nelson-Aalen method and the log-rank test. This course will also explore semi-parametric models such as the Cox proportional hazards regression models and parametric models including exponential, Weibull and log-logistic regression model.
Outcomes:
Derive survival and hazard functions from an underlying distribution, calculate survival probabilities and hazard rates, compare survival probabilities and hazard ratios between two or more cohorts

STAT 321 Computational Aspects of Modeling and Simulation (3 Credit Hours)
Pre-requisites: STAT 308
This course uses SAS and R languages to address statistical modelling and to conduct statistical simulations to assess linear, generalized linear, nonlinear and complex models and experimental designs.
Course equivalencies: X-STAT356/COMP321/STAT321
Outcomes:
Students will gain practical experience and knowledge in real-world statistical situations for which underlying theory is cumbersome or intractable

STAT 335 Introduction to Biostatistics (3 Credit Hours)
Pre-requisites: BIOL 102, MATH 132 or MATH 162 (as pre-requisite or co-requisite) or MATH 162A; Students may take MATH 162 as a prerequisite for STAT/BIOL 335 or take it concurrently as a corequisite with STAT/BIOL 335; For Bioinformatics Majors only BIOL 101, MATH 132 or MATH 162 (as pre-requisite or co-requisite) or MATH 162A
This course provides an introduction to the statistical methods used in designing biological experiments and in data analysis, including computer laboratory assignments with biological data.
Interdisciplinary Option: Bioinformatics, Forensic Science
Course equivalencies: X-BIOL335/STAT335
Outcomes:
Students interested in research in the life sciences will obtain a background in the appropriate use of statistical methods as an experimental tool

STAT 336 Advanced Biostatistics (3 Credit Hours)
Pre-requisites: STAT 203 or STAT 335
This course provides an overview of advanced topics in applied statistics with particular application in biology and medicine, including the interpretation of Minitab, SAS and S-Plus computer output.
Course equivalencies: X-STAT336/BIOL336
Outcomes:
Students interested in applied statistical methods will obtain skill in experimental design, linear regression, categorical data analysis and logistic analysis, nonlinear regression, bioassay and drug synergy methods, as well as multivariate and survival statistical methods

STAT 337 Quantitative Methods in Bioinformatics (3 Credit Hours)
Pre-requisites: STAT 203 or 335
This course develops the mathematical and statistical methods necessary to analyze and interpret genomic and proteomic data, including signal analysis, sequence alignment methods, data-base search methods useful in bioinformatics and data mining.
Interdisciplinary Option: Bioinformatics
Course equivalencies: XSTAT337/BIOL337/BIOI337
Outcomes:
Students will obtain the quantitative skills used in BLAST, including inference, stochastic processes and hidden Markov models, random walks, microarray analysis and biological sequence analysis

STAT 338 Predictive Analytics (3 Credit Hours)
Pre-requisites: STAT 308
Students will study methods for predicting future events and properly classifying data using both supervised and unsupervised statistical learning techniques.
Outcomes:
Learn methods for predicting and classifying; Model Selection; Evaluate the effectiveness and accuracy of a model/prediction

STAT 351 Nonparametric Statistical Methods (3 Credit Hours)
Pre-requisites: STAT 203 or STAT 335 with C- or better
This course will cover the basic principles of nonparametric methods in statistics including: one, two and K sample location methods; tests of randomness; tests of goodness of fit; nonlinear correlation; histogram; density estimation; nonparametric regression. Students should learn how to apply the nonparametric techniques in real datasets, interpret the results and draw conclusions.

STAT 370 Data Science Consulting (3 Credit Hours)
Pre-requisites: STAT 308
Students will work on a research project with a client acting as a consultant on the statistical and computational aspects of the project. Students are required to meet with a client, develop a strategy for addressing their problem, and present their results to the client (and their classmates).
This course satisfies the Engaged Learning requirement.
Outcomes:
1) Apply methods learned in classes to a address a real world problem; 2) Oral and Written presentation skills; 3) Collaboration skills

STAT 388 Topics (1-3 Credit Hours)
Pre-requisites: STAT 203 or STAT 335
This course covers advanced topics in statistics, such as multivariate analysis, sampling theory, non-parametric methods, decision theory, and Bayesian analysis.
Outcomes:
Students will obtain an understanding of an advanced topic in their major

STAT 390 Undergraduate Seminar (1 Credit Hour)
Pre-requisites: Senior Standing, including completion of MATH 304/STAT 304
The seminar will cultivate students' presentation skills through participation in and critical discussion of brief lectures on familiar and unfamiliar topics; preparation and presentation of two brief lectures by the student (one on a familiar topic from the curriculum, one on a higher level material not customarily from the curriculum); and preparation of an extended abstract summarizing the advanced material presented.
Outcomes:
Students will gain the ability to present material in Statistics, and their applications to a general audience

STAT 391 Internship in Actuarial Science (1-3 Credit Hours)
Pre-requisites: STAT 304 and 396; approval of the internship director
This course offers an opportunity to obtain experience in actuarial science in a professional environment; placement requires approval of the internship coordinator and acceptance by an employer.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students will obtain first hand experience doing actuarial work in a real world environment

STAT 396 Actuarial Seminar I (1 Credit Hour)
Pre-requisites: MATH 263
The seminar provides a comprehensive review of the probability topics that most commonly appear on the Actuarial Exam P. Topics covered include: axiomatic probability, combinatorial probability, conditional probability and Bayes' Theorem, independence, random variables and their various distributions, joint distributions, marginal distributions, conditional distributions of tow of more random variables.
Outcomes:
The purpose of the seminar is to prepare students for the Actuarial Exam P; The students will also learn test-taking strategies and will have the opportunity to take practice tests

STAT 397 Actuarial Seminar II (1 Credit Hour)
Pre-requisites: MATH 263
The seminar is a continuation of STAT 396. It provides a comprehensive review of topics in probability and risk management directed toward students preparing for the Actuarial Exam P. Additional topics may include order statistics, moment-generating functions, the Central Limit Theorem and risk analysis.
Outcomes:
The purpose of the seminar is to prepare students for the Actuarial Exam P; The students will also learn test-taking strategies and will have the opportunity to take practice tests

STAT 398 Independent Study (1-6 Credit Hours)
This course allows students to engage in independent study on selected topics in statistics under the supervision of a faculty member.
Outcomes:
Students will obtain an understanding of an advanced topic in their major

STAT 399H Honors Tutorial (1-3 Credit Hours)
This course allows students in the honors program to engage in independent study of selected topics in statistics for honors credit under the supervision of a faculty member.
Course equivalencies: STAT399H / STAT399
Outcomes:
Students will obtain an understanding of an advanced topic in their major

Actuarial Science Minor

The discipline of actuarial science deals with the mathematical and statistical analysis of risk, especially as it pertains to the insurance and finance industries. Students pursuing a Minor in Actuarial Science will gain the foundation necessary to prepare for the first two Society of Actuaries exams.

Curriculum

Code	Title	Hours
Required Courses		
MATH 161	Calculus I	4
MATH 162	Calculus II	4
MATH 263	Multivariable Calculus	4
MATH 212	Linear Algebra	3
STAT 203	Introduction to Probability & Statistics	3
or STAT 335	Introduction to Biostatistics	
STAT 304	Introduction to Probability	3
STAT 305	Introduction to Mathematical Statistics	3
STAT 396	Actuarial Seminar I	1
Total Hours		**25**

Note: 25 total credit hours. Per our double dipping policy, at least 6 credit hours must be unique to this minor.

Transfer-Student Residency Requirement

At least 13 credit hours of Actuarial Science Minor must be completed at Loyola

Applied Mathematics (BS)

Students earning a B.S. in Applied Mathematics will acquire foundational knowledge in the field, as well as competency in the critical thinking, technological, and communication skills necessary for its application. Applied math is a dynamic discipline with applications to many fields, including Systems Biology, Data Mining and Data Privacy, Materials Science, Computer Animation and Digital Imaging, Finance and Economics, Ecology, Epidemiology, and Climatology, among others.

Curriculum

(Effective Fall 2023)

AP Credit Policies (p. 465)

Code	Title	Hours

MATH 215	Object-Oriented Programming with Mathematics	3
MATH 264	Ordinary Differential Equations	3
COMP 231	Data Structures & Algorithms for Informatics	3
PHYS 121 & PHYS 111L	College Physics I Lec/Dis and College Physics Laboratory I	4
Additional Science Requirements		
Select one of the following:		3
ANTH 101	Human Origins	
BIOL 101	General Biology I	
BIOL 102	General Biology II	
CHEM 160	Chemical Structure and Properties	
ENVS 101	The Scientific Basis of Environmental Issues	
PHYS 122	College Physics II Lec/Dis	
Probability and Statistics Requirements		
Select one of the following:		6
STAT 203 & STAT 308	Introduction to Probability & Statistics and Applied Regression Analysis	
MATH 304 & MATH 305	Introduction to Probability and Introduction to Mathematical Statistics	
Upper Level Course Requirements		
MATH 309	Numerical Methods	3
MATH 356	Mathematical Modeling	3
Electives A		
Select two of the following:		6
MATH 318	Combinatorics	
MATH 331	Cryptography	
MATH 345 / STAT 388	Introduction to Financial Mathematics Derivatives	
MATH 358	Introduction to Optimization	
MATH 360	Introduction to Game Theory	
MATH 365	Introduction to Partial Differential Equations	
MATH 366	Applied Dynamical Systems	
STAT 321	Computational Aspects of Modeling and Simulation	
MATH 388	Special Topics in Mathematics (Must be approved beforehand)	

Elective B	
One elective chosen from any 300-level Math or an approved 300-level Stat course	3
Total Hours	**55**

Note: 55 total credit hours

Transfer-Student Residency Requirement

At least 21 credit hours of Applied Mathematics (BS) must be completed at Loyola.

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

- Students will have wide knowledge of and strong skills in using the methods and tools that form the foundation of applied math. These include calculus, linear algebra, and differential equations, as well as statistics and computer sciences.
- Students will acquire foundational knowledge of the language of formal mathematics and the ability to read and write rigorous and logical mathematical arguments.
- Students will be able to use applied mathematical knowledge in a wide variety of contexts. They will be able to model real-world situations mathematically, making appropriate choices as to the models and methods to employ. They will analyze these models with a variety of tools and interpret the results in a meaningful way. They will be able to present their findings in clear, professional language.
- Students will understand how the different areas and methods of applied math fit together. They will understand how these are used in modern applied mathematical settings and will also be able to fit them into a historical context.

Biostatistics Minor

Students in this program will apply their quantitative, computing and biological knowledge to problems in biomedical research, statistical genetics, and bioinformatics. Students with biostatistical training are in high demand in a wide array of fields such as medical research, technology companies, pharmaceuticals, genetics, public health, and epidemiology to name a few.

Curriculum

Code	Title	Hours
Required Courses

MATH 161 & MATH 162	Calculus I and Calculus II	
MATH 131 & MATH 132	Applied Calculus I and Applied Calculus II	
BIOL 101 & BIOL 111	General Biology I and General Biology I Lab	4
BIOL 102 & BIOL 112	General Biology II and General Biology II Lab	4
STAT 335	Introduction to Biostatistics	3
STAT 336	Advanced Biostatistics	3
Select one of the following:		3
STAT 303	SAS Programming & Applied Statistics	
STAT 308	Applied Regression Analysis	
STAT 337	Quantitative Methods in Bioinformatics	
Total Hours		**23-25**

Mathematics (BS)

Students earning a B.S. in Mathematics will acquire foundational knowledge in the field, as well as competency in the critical thinking, technological, and communication skills necessary for its application. The prevalent use of increasingly complex mathematical models in every STEM field (and beyond), has made facility with the language and techniques of mathematics a highly desirable skill. Graduating students are prepared for industry jobs in finance, tech, risk analysis, climate science, criminal justice, and the like, as well as teaching careers in secondary school or junior college. Typical destinations for students wishing to pursue graduate studies are biology, chemistry, computer science, economics, engineering, finance, law, medicine, and of course, mathematics.

Curriculum

Note: This degree has waivers for both Quantitative and Scientific core.

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

- Students will have wide knowledge of and strong skills in using the methods and tools that form the foundation of math. These include calculus, linear algebra, and differential equations, as well as statistics and computer sciences.
- Students will acquire analytical and logical skills that form the basis of mathematical thinking and reasoning. These skills will enable problem solving, the abstraction to general principles from specific examples, and the ability to use formal mathematical language. Students will be able to apply these skills in a variety of contexts.
- Students will be fluent in the traditional mathematical subjects such as abstract algebra and real analysis. They will be able to use the methods and terminology in these field to read and write formal, logical proofs, and to communicate these both in writing and verbally.
- Students will understand how different sub-disciplines of mathematics fit together. They will be able to use their knowledge in a variety of modern applications, both within math and in related disciplines such as science, engineering and tech. They will also be able to place these in a historical context.

Mathematics - Education Track (BS)

This rigorous course of study in mathematics either coupled with a Major in Secondary Education (p. 798) or followed by a Master's Degree in Education (p. 773) prepares students for a career in teaching secondary school mathematics.

Curriculum

Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Mathematics and Computer Science (BS)

The B.S. in Mathematics and Computer Science provides students with a strong foundation in both fields. Core courses from the Mathematics and Computer Science curricula will aid students to develop critical thinking and communication skills, as well as a technical and practical understanding of programming and algorithm design. Graduating students will be prepared for any industry jobs requiring scientific computing skills and the ability to analyze, design, and implement algorithms, such as data mining, finance, and risk analysis. This major also prepares students for advanced degrees in computer science, mathematics, and the STEM fields.

Mathematics Minor

Many majors at Loyola require a year of calculus; with the addition of just a few more courses you can earn a Mathematics Minor. Majors in biology, chemistry, economics, engineering and physics are especially encouraged to consider this option. The foundational training in mathematics offered by this minor will give students a deeper understanding of the theoretical underpinnings of their major discipline, and will equip them with critical thinking and technical communication skills that will prove invaluable in their pursuit of a STEM career.

Curriculum

More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

- After completing STAT 203 and STAT 304, students majoring in statistics will understand the fundamentals of probability theory by applying them properly to statistical methods.
- After completing introductory statistics courses (STAT 203, STAT 303, STAT 308), students majoring in statistics will be able to analyze and interpret descriptive statistics through a report.
- Upon completing the program, students majoring in statistics will be able to properly use statistical reasoning as it applies to inferential methods in a written analysis and/or oral presentation.
- Upon completing the program, students majoring in statistics will be able to create and interpret statistical models including understanding the limitations of the model in a written analysis and/or oral presentation.
- Upon completing the program, students majoring in statistics will be able to use statistical software to generate appropriate output for data analysis.

Statistics Minor

Students earning a Minor in Statistics will acquire knowledge of statistical techniques and methods, and the computational skills, such as R and SAS, to apply and implement these methods using real data. Students with statistical training are in high demand in industry in a wide array of fields such as medical research, technology companies, pharmaceuticals, insurance, finance, government, genetics, public health, sports, and epidemiology to name a few.

Theoretical Physics and Applied Mathematics (BS)

The laws and theories of modern physics are formulated in the language of modern mathematics. In the past, students wishing to study the basic physical laws governing our universe might have gotten away with proficiency in multivariable calculus; but no longer. Since the advent of statistical mechanics, quantum mechanics, and the like, a solid foundation in analysis, abstract algebra, and statistics is also essential. Students pursuing a B.S. in Theoretical Physics and Applied Mathematics with gain exposure to these modern physical theories and to the abstract mathematics underpinning them. Graduating students will be well-prepared for advanced degrees in applied mathematics, physics, or engineering.

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

Loyola University Chicago's major in Theoretical Physics / Applied Mathematics is an interdisciplinary program that provides extensive training in both physics and mathematics. It prepares students for graduate study in physics, mathematics, or applied mathematics; careers in fields such as engineering or computer science that value quantitative reasoning and mathematical modeling; or technical training in professions like medicine, dentistry, or law.

Students majoring in Theoretical Physics / Applied Mathematics possess a versatile set of skills that are well-suited to data science, numerical modeling, and quantitative analysis. They may pursue careers in higher education, at research institutes or government labs, or in high-tech industries. Recent majors have gone on to world class graduate programs in fields ranging from physics to neuroscience, and programming jobs at major tech companies.

The course of study for the Theoretical Physics / Applied Mathematics major covers the core classes in the Physics major, provides laboratory experience, and adds a comprehensive mathematics component. Upon completion of this program, students will:

- Exhibit foundational knowledge in both physics and mathematics.
- Be able to develop and interpret mathematical models that provide both quantitative and qualitative understanding of physical systems.
- Possess intermediate level laboratory skills that will serve as a foundation for more advanced training in graduate or professional school.
- Recognize how careful data collection and analysis helps develop or falsify scientific theories.
- Demonstrate effective and ethical decision-making abilities in issues related to the sciences.

Military Science

About Us

Based out of the north side of Chicago, the Rambler Battalion is hosted at Loyola University. The satellite schools include DePaul University, Northeastern Illinois University, North Park University, and Northwestern University. Located on the bustling north side of Chicago, the Rambler Battalion cadets have access to nearly unlimited resources for educational and professional development. The diversity of the neighborhood gives a valuable cultural perspective hard to find elsewhere. Our Battalion consists of cadets from all over the country and from many different backgrounds. The cadre assigned to our Battalion are highly experienced, well trained soldiers of the Army with over 60 years of combined time in service. Additionally, the Battalion has several civilian employees who work in support of the program's success. Overall, the Rambler Battalion Army ROTC program provides excellent training in leadership development, military skills, academics, and physical readiness.

Academics

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

Military History Course- Any Semester

All ROTC cadets across the country are required to take a college level history course that focuses on U.S. military history and the history of the profession of arms. Specific courses that meet the requirements established by U.S. Army Training and Doctrine Command are determined by the Professor of Military Science. For a list of courses that fulfill the military history requirement at your university, please contact your Military Science Instructor.

In addition to these approved courses, the Military Science Department offers a three credit hour, independent study course that is taken online through the ROTC Blackboard learning system. This course can be found in Loyola's course catalog under:

MLSC 399 Military History - Independent Study

Military Science (MLSC)

MLSC 101 Leadership and Personal Development (1 Credit Hour)
This course is open to all students. MLSC 101 section 001 is taken concurrently with MLSC 101 section 002, the laboratory component. MLSC 101 examines the personal challenges and competencies that are critical for effective leadership and communication. The primary focus is on leadership and leadership development. Additionally a framework is established to understand and utilize time management, stress and stress management, personal development, nutrition and goal setting.
Outcomes:
Students will develop basic knowledge and comprehension of leadership dimensions, attributes and core leader competencies while enhancing their personal development skills

MLSC 102 Introduction to Leadership (1 Credit Hour)
Enrollment Requirements: MLSC 101 or Departmental Consent is required to enroll in this course. MLSC 102 section 001 is taken concurrently with MLSC 102 section 002, the laboratory component. MLSC 102 overviews leadership fundamentals such as problem-solving, listening skills, presenting briefs, providing feedback, and effective writing skills. Leadership models learned in MLSC 101 are analyzed more in-depth. Students will explore dimensions of leadership attributes and core leader competencies in the context of practical, hands-on, and interactive tactical exercises.
Outcomes:
Students will explore, in more detail, leadership philosophies; Students will learn to develop their leadership character and presence, while developing critical communication skills and learning fundamental military concepts and tactics

MLSC 132 Leadership Development II (1 Credit Hour)
This course overviews leadership fundamentals such as problem-solving, listening skills, presenting briefs, providing feedback, and effective writing skills. Leadership models learned in MLSC 101 are analyzed more in-depth. Students will explore dimensions of leadership attributes and core leader competencies in the context of practical, hands-on, and interactive tactical exercises.

MLSC 133 Leadership Development III (2 Credit Hours)
This course overviews leadership fundamentals such as problem-solving, listening skills, presenting briefs, providing feedback, and effective writing skills. Leadership models learned in MLSC 101 are analyzed more in-depth. Students will explore dimensions of leadership attributes and core leader competencies in the context of practical, hands-on, and interactive tactical exercises.

MLSC 134 Leadership Development IV (2 Credit Hours)
This course overviews leadership fundamentals such as problem-solving, listening skills, presenting briefs, providing feedback, and effective writing skills. Leadership models learned in MLSC 101 are analyzed more in-depth. Students will explore dimensions of leadership attributes and core leader competencies in the context of practical, hands-on, and interactive tactical exercises.

MLSC 151 Physical Training I (1 Credit Hour)
Enrollment Requirements: This course is open to all students. ROTC students must take MLSC 151 section 001. Non-ROTC students must take MLSC 151 section 002. MLSC 151 is designed to develop fitness capabilities. The course implements stretching, strength building and cardiovascular exercises from the Army Physical Readiness Training Program to develop students physically and mentally by building muscular strength and cardiovascular endurance.
Outcomes:
Introduced to the basics of military fitness in order to develop muscular strength, cardiovascular endurance, and flexibility

MLSC 152 Physical Training II (1 Credit Hour)
Enrollment Requirements: MLSC 151 or Departmental Consent is required to enroll in this course. ROTC students must take MLSC 152 section 001. Non-ROTC students must take MLSC 152 section 002. MLSC 152 is designed to develop fitness capabilities. The course implements stretching, strength building and cardiovascular exercises from the Army Physical Readiness Training Program to develop students physically and mentally by building muscular strength and cardiovascular endurance.
Outcomes:
Introduced to the basics of military fitness in order to develop muscular strength, cardiovascular endurance, and flexibility

MLSC 201 Foundations of Leadership (2 Credit Hours)
Enrollment Requirements: MLSC 102 or Departmental Consent is required to enroll in this course. MLSC 201 section 001 is taken concurrently with MLSC 201 section 002, the laboratory component. MLSC 201 explores the dimensions of innovative tactical leadership strategies and styles by examining team dynamics. Aspects of personal development such as the importance of communication, ability to present information as a briefing and time management as a leader and a member of a group are also discussed. Upon completing this course students will be able to practically apply learned leadership theories and work more effectively as a member of a team.

MLSC 202 Tactical Leadership (2 Credit Hours)
Enrollment Requirements: MLSC 201 or Departmental Consent is required to enroll in this course. MLSC 202 section 001 is taken concurrently with MLSC 202 section 002, the laboratory component. MLSC 202 examines situational, transformational, and adaptive leadership theories and how to assess leadership styles. The course highlights dimensions of terrain analysis, patrolling, and operation orders. Further study of the theoretical basis of the Army Leadership Requirements Model explores the dynamics of adaptive leadership in the context of military operations.
Outcomes:
Upon completing this course students will be able to assess and apply leadership skills as both a leader and member of a team

MLSC 251 Physical Training III (1 Credit Hour)
Enrollment Requirements: MLSC 152 or Departmental Consent is required to enroll in this course. ROTC students must take MLSC 251 section 001. Non-ROTC students must take MLSC 251 section 002. MLSC 251 is designed to develop fitness capabilities. The course implements stretching, strength building and cardiovascular exercises from the Army Physical Readiness Training Program to develop students physically and mentally by building muscular strength and cardiovascular endurance.
Outcomes:
Effectively execute a physical fitness plan presented to them using proper leadership techniques

MLSC 252 Physical Training IV (1 Credit Hour)
Enrollment Requirements: MLSC 251 or Departmental Consent is required to enroll in this course. ROTC students must take MLSC 252 section 001. Non-ROTC students must take MLSC 252 section 002. MLSC 252 is designed to develop fitness capabilities. The course implements stretching, strength building and cardiovascular exercises from the Army Physical Readiness Training Program to develop students physically and mentally by building muscular strength and cardiovascular endurance.
Outcomes:
Effectively execute a physical fitness plan presented to them using proper leadership techniques

MLSC 301 Adaptive Team Leadership (3 Credit Hours)
Pre-requisites: MLSC 202 or Departmental Consent is required
This course is restricted to ROTC Students only. MLSC 301 section 001 is taken concurrently with MLSC 301 section 002, the laboratory component. MLSC 301 teaches students analytical problem solving critical to successful leadership. They learn planning processes and leadership skills necessary to organize and direct the completion of tasks in all environments. Students will learn and demonstrate complex military tactics during discussions and practical exercises, and organize and deliver military briefings. Enrollment restricted to ROTC students.
Outcomes:
Upon completion, students should be prepared to demonstrate more complex leadership abilities; Students will be evaluated on leadership performance and expected to improve with developmental feedback

MLSC 302 Applied Team Leadership (3 Credit Hours)
Enrollment Conditions: MLSC 301 is required to enroll in this course.
This course is restricted to ROTC students only. MLSC 302 section 001 is taken concurrently with MLSC 302 section 002, the laboratory component. MLSC 302 applies the fundamentals of Army Leadership, ethics, personal development, and tactics to the team and squad level. Students will receive specific feedback on your leader attributes and core leader competencies as you take on leadership roles in the ROTC program to develop into a capable and dynamic leader.
This course satisfies the Engaged Learning requirement.
Outcomes:
At the conclusion of this course, you will be capable of planning, coordinating, and leading a squad in a tactical mission during practical instructions in a field environment

MLSC 311 Advanced Leadership (3 Credit Hours)
Enrollment Requirements: MLSC 302 is required to enroll in this course.
This course is restricted to ROTC students only. MLSC 311 section 001 is taken concurrently with MLSC 311 section 002, the laboratory component. MLSC 311 focuses on learning how to train and develop subordinates. Students learn the responsibilities of an Army officer and apply the Military Decision Making Process, and the Army's Training Management processes during Training Meetings to plan, execute and assess ROTC training events. Upon completion students will be prepared for the Basic Officer Leader Course. Students have developed leadership capabilities, applied critical thinking skills, and capable of leading soldiers in full spectrum operations.

MLSC 312 Leadership in a Complex World (3 Credit Hours)
Enrollment Requirements: MLSC 312 is required to enroll in this course. This course is restricted to ROTC students only. MLSC 312 section 001 is taken concurrently with MLSC 312 section 002, the laboratory component. MLSC 312 explores the dynamics of leading in the complex situations of current military operations. Students will examine differences in customs, military law, principles of war, and rules of engagement in the face of international terrorism. Students explore aspects of interacting with non-government organizations, civilians, and host nations.
Outcomes:
Upon completion students are able to effectively communicate and exhibit the ability to deal with the complex ethical demands of leading soldiers as a commissioned officer in the US Army

MLSC 351 Physical Training V (1 Credit Hour)
Enrollment Requirements: MLSC 252 is required to enroll in this course. This course is open to all students. ROTC students must take MLSC 351 section 001. Non-ROTC students must take MLSC 351 section 002. MLSC 351 is designed to develop fitness capabilities. The course implements stretching, strength building and cardiovascular exercises from the Army Physical Readiness Training Program to develop students physically and mentally by building muscular strength and cardiovascular endurance.
Outcomes:
Effectively develop and execute physical training plan through proper leadership, clear examples and directions, presented with a command presence

MLSC 352 Physical Training VI (1 Credit Hour)
Enrollment Requirements: MLSC 351 is required to enroll in this course. This course is open to all students. ROTC students must take MLSC 352 section 001. Non-ROTC students must take MLSC 352 section 002. MLSC 352 is designed to develop fitness capabilities. The course implements stretching, strength building and cardiovascular exercises from the Army Physical Readiness Training Program to develop students physically and mentally by building muscular strength and cardiovascular endurance.
Outcomes:
Effectively develop and execute physical training plan through proper leadership, clear examples and directions, presented with a command presence

MLSC 361 Physical Training VII (1 Credit Hour)
Enrollment Requirements: MLSC 352 is required to enroll in this course. This course is open to all students. ROTC students must take MLSC 361 section 001. Non-ROTC students must take MLSC 361 section 002 MLSC 361 is designed to develop fitness capabilities. The course implements stretching, strength building and cardiovascular exercises from the Army Physical Readiness Training Program to develop students physically and mentally by building muscular strength and cardiovascular endurance.
Outcomes:
Provide direct guidance and supervision to the creation of PT Plans; evaluate a physical fitness programs developed and executed by subordinates

MLSC 362 Physical Training VIII (1 Credit Hour)
Enrollment Requirements: MLSC 361 is required to enroll in this course. This course is open to all students. ROTC students must take MLSC 362 section 001. Non-ROTC students must take MLSC 362 section 002. MLSC 362 is designed to develop fitness capabilities. The course implements stretching, strength building and cardiovascular exercises from the Army Physical Readiness Training Program to develop students physically and mentally by building muscular strength and cardiovascular endurance.
Outcomes:
Provide direct guidance and supervision to the creation of PT Plans; evaluate a physical fitness programs developed and executed by subordinates

MLSC 399 Military History - Independent Study (3 Credit Hours)
This is an online, independent study course and is open to all students. This course provides students with a historical perspective into decisions made by American military leaders; challenges encountered as an Army officer - battlefield complexity, resource limitations, teamwork deficiencies - circumstances that are faced on the contemporary operational environment and are required to make an informed decision.
Outcomes:
Upon completing this course students will understand the history of the United States military, the decisions that have accompanied its changes and inevitably be a stronger and more decisive leader

Modern Languages and Literatures

About Us

The Department of Modern Languages and Literatures offers coursework in many languages. Exact offerings vary each semester, but typical courses include Arabic, Chinese, French, German, Hebrew, Hindi/Urdu, Italian, Japanese, Polish, Russian and Spanish. We offer BA degree programs in French, Italian and Spanish, and an MA degree program in Hispanic Studies.

Several minors are offered in language study, while others combine language, literature and culture.

Our department also offers Literature in Translation (p. 2511) courses, which are courses taught in English with content from foreign literature and film.

Many of our courses fulfill interdisciplinary program requirements. Students may earn credit in Asian Studies, African Studies and the African Diaspora, Catholic Studies, Global and International Studies, Islamic World Studies, Latin American Studies, and Women's Studies and Gender Studies. The department offers faculty-led summer programs https://www.luc.edu/modernlang/study_abroad.shtml (https://www.luc.edu/modernlang/study_abroad.shtml/) in Córdoba (Spain) and elsewhere, varying from year to year.

The department has full-time faculty members with strong dedication to undergraduate and graduate teaching, and a firm commitment to research. Study in the Department of Modern Languages and Literatures encourages close contact between faculty and students. In the tradition of the university at large, we value the individual.

We take pride in the diverse cultural, educational, intellectual and recreational opportunities available in the city of Chicago. Join us and experience all this for yourself.

For more information, please contact us (https://www.luc.edu/modernlang/contactus.shtml/).

Mission Statement

The Department of Modern Languages and Literatures is committed to teaching students to develop linguistic, cultural, and literary competencies in world languages that are critical to engaging in our diverse global society. Through an interdisciplinary approach, faculty members seek to educate students as world citizens by helping them acquire knowledge, awareness, and empathy that allows them to uphold Loyola University Chicago's Jesuit principles of service and social justice.

Undergraduate Programs

- Arabic Language and Culture Minor (p. 499)
- Asian Language and Literatures Minor (p. 501)
- Chinese Language and Culture Minor (p. 501)
- French (BA) (p. 503)
- French Language and Literature Minor (p. 504)
- French Language Minor (p. 504)
- German Studies Minor (p. 504)
- Hispanic Studies (BA/MA) (p. 1108)
- Italian (BA) (p. 507)
- Italian American Studies Minor (p. 508)
- Italian Language and Literature Minor (p. 509)
- Italian Language Minor (p. 509)
- Italian Studies (BA) (p. 510)
- Japanese Language and Culture Minor (p. 511)

- Spanish (BA) (p. 513)
- Spanish Language and Literature Minor (p. 514)
- Spanish Language Minor (p. 514)

Modern Languages and Literatures Department Policies

Double Dipping Policy

1. Students may not major and minor in the same discipline.
2. Majors: Not less than 21 credit hours in the individual student's transcript must be unique to each major; that is, the courses in question are considered as actually fulfilling requirements of one major, not of more than one major.
3. Minors and interdisciplinary minors: not less than 8 credit hours in the individual student's transcript must be unique to each minor; that is, the courses in question are considered as actually fulfilling requirements of one minor, not of more than one minor or major.

Undergraduate Policies and Procedures

Please see Undergraduate Policies and Procedures (p. 2050) for academic policies that supersede those of academic units within the University.

Arabic (ARAB)

ARAB 101 Arabic I (3 Credit Hours)
This course is designed for beginners and those with modest acquaintance to Arabic. Through a culturally rich context, it focuses on functional articulation of Modern Standard Arabic with a limited exposure to Damascene (Shaami) dialect.
Interdisciplinary Option: Arabic Language and Culture, Islamic World Studies
Course equivalencies: ARAB101/IWS101A
Outcomes:
Students will be able to write simple sentences, understand selected principles of basic grammar and vocabulary, and will be introduced to Modern Standard Arabic as well as to a modern spoken dialect; Students will learn aspects of Arab culture

ARAB 102 Arabic 102 (3 Credit Hours)
Pre-requisites: ARAB 101 or equivalent; Students' self-assessment is not sufficient for placement in an appropriate level of Arabic class
This course continues focusing on active functional use of Modern Standard Arabic and Damascene dialect to help students develop speaking, listening, reading comprehension, and writing skills in diverse sociocultural contexts.
Interdisciplinary Option: Arabic Language and Culture, Islamic World Studies
Course equivalencies: X-ARAB102/IWS102A
Outcomes:
Students are expected to be able to sustain conversations on daily life topics, to comprehend and compose simple authentic multimodal texts, and integrate interdisciplinary knowledge of the Arab world (language, religion, history, geography, or cultures) through a project

ARAB 103 Arabic 103 (3 Credit Hours)
Pre-requisites: ARAB 102 or equivalent; Students' self-assessment is not sufficient for placement in an appropriate level of Arabic class
This course continues focusing on active functional use of Modern Standard Arabic and Damascene dialect in familiar topics reflecting the behavior of native speakers. Students are expected to reach low-mid intermediate proficiency levels.
Interdisciplinary Option: Arabic Language and Culture, Islamic World Studies
Course equivalencies: ARAB103/IWS103A
Outcomes:
Students are expected to be able to initiate and sustain simple social interactions about self and immediate environment; Students will be able to comprehend and compose simple authentic multimodal texts and apply such interdisciplinary knowledge of the Arab world (language, religion, history, geography, or cultures) through a final project

ARAB 104 Arabic 104 (3 Credit Hours)
Pre-requisites: ARAB 103 or equivalent; Students' self-assessment is not sufficient for placement in an appropriate level of Arabic class
The course help students build an active learning solid foundation in the intermediate level of functional use of Arabic. Students are expected to learn how to own their learning process and engage critically in representations of self and others.
Interdisciplinary Option: Arabic Language and Culture, Islamic World Studies
Course equivalencies: X-ARAB104/IWS104A
Outcomes:
Students are expected to be able to compose and comprehend more complex authentic multi modal texts in topics of relevance to student, investments and fields of study; They will articulate their integrative interdisciplinary knowledge of the Arab world through a final project

ARAB 250 Advanced Composition And Conversation (3 Credit Hours)
Pre-requisites: ARAB 104 or equivalent; Students' self-assessment is not sufficient for placement in an appropriate level of Arabic class
The focus of the course assignments is to connect classroom work and community-based service learning into a constructive coordinated dual relationship. Bedsides classroom language learning, students will complete 20 hours in community-based work at an organization of service to Arab and Muslim immigrants and refugees. Some readings may be in English.
Interdisciplinary Option: Arabic Language and Culture, Islamic World Studies
This course satisfies the Engaged Learning requirement.
Course equivalencies: ARAB250/IWS250A
Outcomes:
Students will synthesize classroom and community-based learning contexts to reflect on collective and individual explorations of concepts of civic engagement with Arab/Muslim communities; They will demonstrate awareness of self and community through learning portfolios and public presentations

ARAB 251 Advanced Composition and Conversation II (3 Credit Hours)
This course emphasizes the development of advanced Arabic speaking and writing skills and examines grammar and vocabulary in relation to advanced skill development. Conducted entirely in Arabic.
Interdisciplinary Option: Arabic Language and Culture, Islamic World Studies
Course equivalencies: X-ARAB251/IWS251A
Outcomes:
Students will be able to demonstrate advanced reading, writing, listening, and speaking skills in Arabic; Students will also be able to demonstrate knowledge of significant aspects of the Arab world and culture in relation to their major field of study

Asian Studies (ASIA)

ASIA 101 Explorations in Asian Studies (3 Credit Hours)
This course introduces the histories and cultures of East, Southeast, and South Asia from early modern times to the present.
Interdisciplinary Option: Asian Studies, Global Studies
Course equivalencies: X-ASIA101/INTS202

ASIA 130 Introduction to Martial Arts (3 Credit Hours)
This course introduces the student to Chinese Wushu. Two forms of Wushu will be selected for in depth study each semester. Students will explore the origins of the sports studied and their importance to Chinese culture and philosophy while learning the specific physical techniques.
Course equivalencies: THTR130/ASIA130
Outcomes:
Students will improve their balance, flexibility and coordination while learning the basic moves of two forms of Wushu; They will develop a reference for appreciating the place of Wushu in Chinese culture and create a foundation for further Wushu training

ASIA 152 Drawing China (3 Credit Hours)
This is an introductory drawing course. There are no pre-requisites nor prior experience need to succeed in this course. Beijing is our laboratory and the topic of all class drawings.
Course equivalencies: FNAR152/ASIA152
Outcomes:
Students will be able to draw trees, buildings, automobiles, vegetables, human beings in real life situations and in perspective

ASIA 160 The Crafts of China (3 Credit Hours)
This course examines the artisan crafts of China historically and technically. The course explores how and why the crafts appeared, their historical trajectory and demonstrates how the crafts improved technically. Ceramics, Bronze Castings and Wood works will serve as prototypes. Students will undertake independent researches.
Course equivalencies: FNAR160/ASIA160
Outcomes:
Students will identify how the crafts of woodwork, bronze casting and ceramics evolved and how they are currently practiced in China; Students will articulate an understanding of the function of craft in Chinese culture as well compare and contrast it to the function craft in their own culture

ASIA 167 Religions in China (3 Credit Hours)
This course is a survey of various religions in China that may include, not only Confucianism and Taoism, but also Buddhism, Christianity, Islam, Judaism, Zoroastrianism, Manicheism and popular or "folk" religion. The course will consider the function of these various religions in the development of Chinese society and their significance in Chinese civilization from ancient mythology to contemporary practices and developments."
Course equivalencies: X-THEO167/ASIA167/INTS167
Outcomes:
Students will be able to demonstrate knowledge of the beliefs, practices, and institutions in varied contexts and historical periods in China, of various religions, both indigenous and "foreign

ASIA 168 Sacred Texts of China (3 Credit Hours)
Through the study of primary sacred texts of China (in translation), this class will provide a basic understanding of Chinese thought and its historical development. Interconnections among the various periods and different schools of Chinese philosophy such as Confucianism, Taoism, Buddhism and Neo-Confucianism will be demonstrated and discussed from ancient through the medieval and modern periods.
Course equivalencies: X-THEO168/ASIA168/INTS168
Outcomes:
Students will be able to demonstrate knowledge of the major Chinese sacred texts and teachings of various religious and philosophical traditions, and how they developed and interacted historically

ASIA 169 Taoism (3 Credit Hours)
Students will study the history and main ideas and practices of Taoism, meet the sages who wrote the Taoist texts, be introduced to the various schools of Taoist philosophy, and get a feel for what it means to practice Taoism today. The course will illustrate how religious Taoism established a relationship with Confucian thought and practice as well as how at each stage of its historical development, Taoism exerted a profound influence on Chinese politics, economy, culture, art, natural sciences, and social life.
Course equivalencies: X-THEO169/ASIA169/INTS169
Outcomes:
Students will be able to demonstrate knowledge of philosophical and religious Taoist beliefs, practices, and institutions in varied contexts and historical periods

ASIA 191 Traditional Chinese Philosophy (3 Credit Hours)
Students will investigate Chinese ancient philosophy in a way to let its own tendencies be sensed and appreciated. Topics include Confucianism, Mencius, Sunzi, Taoism, Legalism, Yin-Yang School, Tung Chung-shu, Chinese Buddhism and Neo-Confucianism. In addition, students learn about the relations among different schools or different thinkers in the same school. Comparisons between Chinese philosophies and western ones are encouraged.
Course equivalencies: X-PHIL191/ASIA191

ASIA 192 Chinese Ethics and Asian Values (3 Credit Hours)
This course offers an overview of the spirit of Chinese ethics, covering sacred and secular as well as intellectual and practical elements.
Course equivalencies: X-PHIL192/ASIA192/INTS192

ASIA 193 Contemporary Chinese Philosophy (3 Credit Hours)
Students will analyze the development of Chinese contemporary thought in its different stages: rejection of the tradition and its recent reevaluation.
Course equivalencies: X-PHIL193/ASIA193/INTS193

ASIA 252 Peoples of China (3 Credit Hours)
This class introduces China's cultural diversity and unity as a whole. It provides a general overview of cultural mappings in China, and a detailed study of significant ethnic minorities.
Course equivalencies: SOCL251/ASIA252/INTS251
Outcomes:
Students will gain the ability to perceive cultural phenomena in a comparative framework and understand cultural differences more deeply

ASIA 263 Political and Social Movements in China (3 Credit Hours)
This course examines historical and contemporary movements pursuing political, economic and social reforms in China. It studies both state-sponsored and voluntary movements.
Course equivalencies: SOCL263/INTS263
Outcomes:
Students will gain a deeper understanding of China's ongoing transformation, and will learn how to develop their own scholarly analysis of such social change

ASIA 266 Development and Social Change in Modern China (3 Credit Hours)
This course examines change and development in modern China from the late Qing period to the present, focusing on the movement from a planned economy to a market-based economy.
Course equivalencies: SOCL266/ASIA266/INTS266WSGS297
Outcomes:
Students will gain knowledge of China's economic development path, and will apply gender and/or class-based analysis to patterns of social change

ASIA 272 Environment of China (3 Credit Hours)
This course provides a systematic introduction to major environmental issues in the context of recent social and economic development in China
Course equivalencies: X-NTSC270/ASIA272/INTS270

ASIA 292 Modern Chinese Fiction (3 Credit Hours)
This course introduces selected fictional works by some of the most insightful writers of modern China. The course focuses on significant aspects of these works with an objective to enhance students' fascination with and skill in the reading and analysis of modern Chinese fiction. Knowledge of modern Chinese fiction will enable students to understand central aspects of 20th century Chinese culture.
Course equivalencies: X-LITR292/ASIA292/INTS290
Outcomes:
Students will be able to analyze literary texts of a particular historical period and write critical essays on works read in the course

ASIA 297 Topics in Asia (3 Credit Hours)
Special topics or new approaches of current interest to the instructor. This course may be used to fulfill the Asian minor requirement for a 300-level course in Asia-related topics. Students may repeat the course for credit when the topic changes.
Interdisciplinary Option: Asian Studies
Outcomes:
Students will gain familiarity with the topic; the ability to make connections between secondary and primary sources; and the capacity to think critically about the ways that historians have approached major issues

ASIA 302 Discovering China Through Film (3 Credit Hours)
This course will give an overview of major films produced in mainland China since 1949. Students will examine the genres of Chinese film better known in contemporary China and consider them a major source of reflection upon, and critique of, contemporary Chinese society and culture.
Course equivalencies: CMUN301/ASIA/INTS/AIFMS302
Outcomes:
All films chosen for the course will help inform students' understanding of modern China in terms of its material conditions and ideology

ASIA 314 Modern Chinese Literature in Chinese (3 Credit Hours)
This course is a survey of modern Chinese literature from 1918 to the present. It requires the close reading of famous Chinese writers and poets as well as some of the avant-garde writers. Students will have the opportunity to explore their own ideas of the aesthetic characteristics of the Chinese literature in the 20th century, as well as its historical and social background and learn about one of the important aspects of modern Chinese culture.
Course equivalencies: X-CHIN341/ASIA314/INTS341A
Outcomes:
Students will demonstrate knowledge of principal, genres, themes and forms of modern Chinese literature through analytical oral and written arguments

Chinese (CHIN)

CHIN 101 Chinese I (3 Credit Hours)
This is an introductory course in Modern Standard Chinese (Mandarin) for students with none or little prior experience in Chinese. This course introduces the four basic communicative skills in Chinese: listening, speaking, reading and writing, and emphasizes on conversation. They will be able to understand and respond to greetings, as well as talk about family members, time, hobbies and friends. They will learn nearly 200 characters.
Interdisciplinary Option: Asian Studies, Chinese Language & Culture
Course equivalencies: X-CHIN101/ASIAC01
Outcomes:
Students will achieve active control of Chinese sound system and writing system

CHIN 102 Chinese II (3 Credit Hours)
Pre-requisites: CHIN 101
CHIN 102 is a continuation of CHIN 101. Students will expand their knowledge of Chinese characters, vocabulary and grammar, improve their skills on listening, speaking, reading, and writing skills, and learn more cultural knowledge. Aside from dialogues, they will also read a short dairy and a letter. They will learn some 200 new characters.
Interdisciplinary Option: Asian Studies, Chinese Language & Culture
Course equivalencies: X-CHIN102/ASIAC02
Outcomes:
Students will be able to make appointments, talk about Chinese learning experience, school life, shopping, weather and transportation

CHIN 103 Chinese III (3 Credit Hours)
Pre-requisites: CHIN 102
CHIN 103 builds on the knowledge and skills gained in CHIN 101-CHIN 102. This course develops conversational skills by using fundamental grammatical patterns and vocabulary in functional contexts.
Interdisciplinary Option: Asian Studies, Chinese Language & Culture
Course equivalencies: X-CHIN103/ASIAC03
Outcomes:
Students will learn dialogues used in the contexts of dinning out, studying in library, asking directions, attending birthday party, seeing a doctor, and dating

CHIN 104 Chinese IV (3 Credit Hours)
Pre-requisites: CHIN 103
CHIN 104 is the continuation of CHIN 103. This course further extends students' knowledge of Chinese vocabulary and grammar, and improves their skills in listening, speaking, reading, and writing.
Interdisciplinary Option: Asian Studies, Chinese Language & Culture
Course equivalencies: X-CHIN104/ASIAC04
Outcomes:
Students will learn expressions in the contexts of renting an apartment, mailing a letter and traveling in both mainland China and Taiwan, talking about hometown and sports, and checking in at the airport

CHIN 190 Business Chinese I (3 Credit Hours)
Pre-requisites: CHIN 101
Business Chinese I is primarily intended for students who are interested in pursuing a career that may involve working in China or doing business with Chinese corporate partners. Examples of topics include meeting with a manager, being introduced to colleagues, and attending social events.
Interdisciplinary Option: Chinese Language & Culture
Outcomes:
1) An expanded vocabulary (500-600 characters in total); 2) deeper knowledge of Chinese grammar; and 3) a multi-faceted introduction to Chinese business culture

CHIN 191 Business Chinese II (3 Credit Hours)
As a follow-on course to Business Chinese I (CHIN 190), this course is primarily intended for students who are interested in pursuing a career that may involve working in China or doing business with Chinese corporate partners. In CHIN 191, all the topics are practical for a "real world" business environment, for instance, making an appointment, visiting a company, introducing production facilities and products, dining etiquette, and socializing with colleagues after work.
Outcomes:
Upon completion of Business Chinese II, the student should have 1) an expanded vocabulary frequently encountered in a business environment, 2) deeper knowledge of Chinese syntax (sentence patterns and habitual usages), morphology (character construction and combinations), and other aspects of grammar (eg, verb tense markers, positioning of prepositional phrases and adverbials), and 3) a multifaceted introduction to Chinese business culture

CHIN 250 Composition and Conversation (3 Credit Hours)
Pre-requisites: CHIN 104
This course focuses on different aspects of Chinese life and society, enhancing students' ability to understand Chinese culture and Chinese ways of socializing, thinking, lifestyle, etc.
Interdisciplinary Option: Chinese Language & Culture
Outcomes:
Students will increase their vocabulary and improve their ability to compose formal speech and carry on discussions

CHIN 251 Advanced Composition & Conversation (3 Credit Hours)
Pre-requisites: CHIN 250
This course focuses contemporary aspects of Chinese life and society.
Interdisciplinary Option: Chinese Language & Culture
Outcomes:
Students will increase their vocabulary and improve their ability to compose formal speech and carry on discussions

CHIN 252 Advanced Composition and Conversation II (3 Credit Hours)
Pre-requisites: Students must have completed CHIN 251 or equivalent
In this course students will further expand their vocabulary, acquire more-advanced grammatical structures and usage patterns, learn to communicate in Chinese both in the classroom and in social settings and deepen their understanding of Chinese culture.
Interdisciplinary Option: Chinese Language & Culture
Outcomes:
Students will be able to further enhance their listening, reading, speaking and writing skills as well as appreciate the cultural nuances of the Chinese language

CHIN 253 Advanced Composition and Conversation III (3 Credit Hours)
Pre-requisites: Students must have completed CHIN 252 or equivalent
In this course students will further expand their vocabulary, acquire more-advanced grammatical structures and usage patterns, learn to communicate in Chinese both in the classroom and in social settings and deepen their understanding of Chinese culture.
Interdisciplinary Option: Chinese Language & Culture
Outcomes:
Students will be able to further enhance their listening, reading, speaking and writing skills as well as appreciate the cultural nuances of the Chinese language

CHIN 260 Intensive Advanced Chinese I (3 Credit Hours)
This course is for those who have taken three year of Chinese at the college level. The student will gain advanced skills in speaking, reading, and writing Chinese and explore a broad range of topics related to Chinese culture.
Interdisciplinary Option: Chinese Language & Culture

CHIN 261 Intensive Advanced Chinese II (3 Credit Hours)
This is a follow-on course to CHIN 260. The student will continue to gain advanced skills in speaking, reading, and writing Chinese and explore a broad range of topics related to Chinese culture.
Interdisciplinary Option: Chinese Language & Culture

CHIN 314 Modern Chinese Literature in Chinese (3 Credit Hours)
This course is a survey of modern Chinese literature from 1918 to the present. It requires the close reading of famous Chinese writers and poets as well as some of the avant-garde writers. Students will have the opportunity to explore their own ideas of the aesthetic characteristics of the Chinese literature in the 20th century, as well as its historical and social background and learn about one of the important aspects of modern Chinese culture.
Outcomes:
Students will demonstrate knowledge of principal, genres, themes and forms of modern Chinese literature through analytical oral and written arguments

CHIN 340 Modern Chinese Fiction (3 Credit Hours)
This course introduces Chinese literature from historical and modern periods. Readings will be in Chinese and may include novels, short stories, poems, and folklore.

CHIN 341 Modern Chinese Literature in Chinese (3 Credit Hours)
This course is a survey of modern Chinese literature from 1918 to the present. It requires the close reading of famous Chinese writers and poets as well as some of the avant-garde writers. Students will have the opportunity to explore their own ideas of the aesthetic characteristics of the Chinese literature in the 20th century, as well as its historical and social background and learn about one of the important aspects of modern Chinese culture.
Interdisciplinary Option: Asian Studies, Chinese Language & Culture, Global Studies
Course equivalencies: X-CHIN341/ASIA314/INTS341A
Outcomes:
Students will demonstrate knowledge of principal, genres, themes and forms of modern Chinese literature through analytical oral and written arguments

CHIN 360 Advanced Conversational Chinese I (3 Credit Hours)
This course focuses on advanced conversational skills for those who have taken a minimum of three years of Chinese.

CHIN 361 Advanced Conversational Chinese II (4 Credit Hours)
This is a follow-on course to CHIN 360 for those wishing to gain more advanced conversational skills in Chinese.
Interdisciplinary Option: Chinese Language & Culture

CHIN 395 Tutorial (1-6 Credit Hours)
This independent study course provides an opportunity to explore a topic of interest to the student related to Chinese language and culture under the guidance of a faculty member.

French (FREN)

FREN 101 Elementary French I (3 Credit Hours)
Pre-requisites: No previous knowledge of French is expected; Please go to http://www.luc.edu/modernlang/exam.shtml for placement test instructions, especially if you took any French courses in high school or college

Course equivalencies: X-FREN390/INTS390
Outcomes:
Students will be able to identify and discuss the revolutionary roles these cultures have had in politics, painting, intellectual life, and cinema; ACTFL* achievement level desired: Intermediate Mid to Advanced Low

FREN 395 Internship (3 Credit Hours)
Pre-requisites: Completion of at least one 300-level French course and instructor's consent
Eligible students who have secured an internship related to the field of study may complete an internship for credit, with the approval of a faculty member. Students complete reflective assignments and a final project in French, in consultation with the faculty member.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students gain professional experience while working with the French language and Francophone cultures and applying skills they have learned in the classroom

FREN 399 French Honors Tutorial (3 Credit Hours)
Eligible students majoring in French and with departmental honors may elect tutorial for credit; topic chosen in consultation with faculty member. Instructor's consent, restricted to students in French BA.
Course equivalencies: FREN399H / FREN399
Outcomes:
Students will explore a topic of their choice guided by a faculty member, and will conduct a research project that will result in a final paper

German (GERM)

GERM 101 Elementary German I (3 Credit Hours)
This course is an introduction to German, designed for students with no previous experience. Students develop communicative language skills and acquire a fundamental knowledge of German-speaking cultures.
Outcomes:
Students will be able to understand simple sentences and short narratives, respond to basic inquiries about themselves and others, formulate basic questions, comprehend basic written texts, and write simple German sentences

GERM 102 Elementary German II (3 Credit Hours)
Pre-requisites: GERM 101
Students will further develop communicative language skills and knowledge of German-speaking cultures, and will finish learning all the basic grammatical structures of the language.
Outcomes:
Students will have learned to express themselves through a wider range of vocabulary and grammatical structures; They will be able to express appropriate reactions to ordinary situations, read more complex texts, and write sentences in short but cohesive paragraphs

GERM 103 Intermediate German I (3 Credit Hours)
Pre-requisites: GERM 102 Students will review and develop their understanding of German grammar and vocabulary
Students will read and discuss a variety of short readings, including short stories and poetry.
Outcomes:
Students will have gained a wider range of oral expression, both lexical and grammatical; They will be able to express more complex reactions, read more complex narrative and literary texts, and write sentences in longer paragraphs

GERM 104 Intermediate German II (3 Credit Hours)
Pre-requisites: GERM 103 This course focuses on review and practice of more complex grammatical elements
Students will read texts of greater length and complexity, expand their vocabulary, and increase their ability to communicate, both orally and in writing.
Outcomes:
Students will have gained a wider range of oral expression, both lexical and grammatical; They will be able to express more complex reactions, read more complex narrative and literary texts, and write sentences in cohesive paragraphs and short essays

GERM 250 Composition & Conversation I (3 Credit Hours)
Pre-requisites: GERM 104
This is a briskly paced class in which students engage in learning to express themselves effectively, both orally and in writing, in German. All work is carried out in German.
Interdisciplinary Option: German Studies
Outcomes:
Students gain confidence in their ability to speak, read and write modern German, and will gain a wider range of oral expression, both lexical and grammatical

GERM 251 Composition & Conversation II (3 Credit Hours)
Pre-requisites: GERM 250
Students will learn to express themselves with increasing sophistication in both oral and written German. Course materials are challenging and may include a full length literary text.
Interdisciplinary Option: German Studies
Outcomes:
Students will gain further confidence in their ability to speak, read and write modern German, and will have gain a wider range of oral expression, both lexical and grammatical

GERM 270 Modern German Literature and Culture I (3 Credit Hours)
Pre-requisites: GERM 103 or equivalent
Representative works in literature, philosophy, and fine arts, with sociopolitical backgrounds, 1830-1900.
Interdisciplinary Option: European Studies, Global Studies
Outcomes:
Students will be able to understand revolutionary post-romanticism, realism, and naturalism in German literature and culture

GERM 271 Modern German Literature and Culture II (3 Credit Hours)
Pre-requisites: GERM 271
Representative works in literature, philosophy, and fine arts, with sociological backgrounds, 1900-present.
Interdisciplinary Option: European Studies, Global Studies
Outcomes:
Students will be able to understand neoromanticism, expressionism, literature and fascism, socialist realism, and postwar culture in West and East Germany

GERM 300 Tutorial for Credit (1-6 Credit Hours)
Pre-requisites: Permission of chairperson
Eligible students minoring in German may elect tutorial for credit.
Outcomes:
Students will be able to focus on a specific aspect of German literature or culture

GERM 320 German-American History: Focus on Chicago (3 Credit Hours)
This engaged-learning course traces the history of German-speaking immigrants in the United States from its very beginnings in 1608, through the 19th century heyday of German immigration, and to the present day. Chicago will function as a case study. Students will interact with the DANK Haus and the German community in Chicago.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students will learn about the historical chronology of German-speaking immigration to the United States, assimilation, and German-American cultural contributions to the US, with a focus on Chicago; Students will interact with the DANK Haus and the German community in Chicago

GERM 369 German Reading Knowledge (3 Credit Hours)
This course provides graduate students in the humanities, arts and social sciences with the fundamentals of German grammar for the purposes of reading and translating academic German. Students will work through German grammar explanations, vocabulary, strategies for negotiating meaning, and translation exercises.
Course equivalencies: GERM369 / GERM109

GERM 370 German Cinema (3 Credit Hours)
The course provides an overview of German film from its beginnings until the present time. Movies will be screened and discussed chronologically from the various eras of German film: Silent Movies, Weimar Sound Movies, Film in the Third Reich, Post-War Films, New German Cinema and Movies of Unified Germany. Taught in English.
Interdisciplinary Option: European Studies, Film & Digital Media Studies, German Studies, Global Studies, International Film & Media Studies
Course equivalencies: X-GERM370/ICVM370/IFMS370

Italian (ITAL)

ITAL 101 Italian I (3 Credit Hours)
This course provides an introduction to the basic grammatical elements of Italian, promoting the development of listening comprehension, speaking, reading and writing skills while examining the geography and culture of Italy.
Outcomes:
Students will be able to understand and write basic Italian sentences and to produce orally and in writing short sentences providing basic personal information about themselves, their activities and plans in Italian

ITAL 102 Italian II (3 Credit Hours)
Pre-requisites: ITAL 101
This course continues the introduction to the basic grammatical elements of Italian, promoting the further development of listening comprehension, speaking, reading and writing skills while examining the geography and culture of Italy.
Outcomes:
Students will be able to understand and write basic Italian sentences and to produce orally and in writing short sentences providing basic personal information about themselves, their activities and plans in Italian

ITAL 103 Italian III (3 Credit Hours)
Pre-requisites: ITAL 102
This course examines more complex grammatical elements of Italian, and promotes the development of intermediate listening comprehension, speaking, reading and writing skills.
Outcomes:
Students will be able to understand and write more complex Italian sentences and paragraphs, and to produce orally and in writing paragraphs and longer pieces providing accounts of their present past and future activities, and oral and written reactions to Italian cultural products

ITAL 104 Italian IV (3 Credit Hours)
Pre-requisites: ITAL 103
This course is a comprehensive review of the basic grammatical elements of Italian, while continuing to promote all language skills with particular emphasis on reading and writing proficiency in areas of cultural and societal investigation.
Outcomes:
Students will be able to understand and write increasingly complex Italian sentences and paragraphs and to produce orally and in writing utterances and texts about Italy, its cultural distinctness and its differences from the United States

ITAL 250 Composition & Conversation I (3 Credit Hours)
Pre-requisites: ITAL 104
This advanced conversation and composition course emphasizes the development of advanced Italian speaking and writing skills and examines advanced grammar and vocabulary in relation to advanced skill development.
Outcomes:
Students will further develop their Italian language skill acquired in previous courses and through experience and will strive for functional conversational fluency and the ability to write with clarity, precision and control of grammatical elements

ITAL 251 Composition & Conversation II (3 Credit Hours)
Pre-requisites: ITAL 104
This advanced conversation and composition course can either be taken as a continuation of ITAL 250 or independently. It also emphasizes the development of advanced Italian speaking and writing skills and examines advanced grammar and vocabulary in relation to advanced skill development.
Interdisciplinary Option: Italian Studies
Outcomes:
Students will further develop their Italian language skill acquired in previous courses and through experience and will strive for functional conversational fluency and the ability to write with clarity, precision and control of grammatical elements

ITAL 270 Main Currents of Italian Literature I (3 Credit Hours)
This course, taught in Italian, is an introduction to Italian literary texts of the Middle Ages and early Renaissance in relation to the cultural and social and political history of Italy during its most noteworthy period of development.
Interdisciplinary Option: European Studies, Italian Studies
Outcomes:
Students will demonstrate knowledge of how medieval and Renaissance Italian literary text reflect in a profound way Italy's cultural, artistic and political history in a systematic manner

ITAL 271 Main Currents of Italian Literature II (3 Credit Hours)
This course, taught in Italian, is an introduction to Italian literary texts and films in relation to the cultural and political history of Italy from 1700 to the present.
Interdisciplinary Option: European Studies, Global Studies, Italian Studies
Outcomes:
Students will demonstrate knowledge of how Italian literary texts and film reflect in a profound way Italy's social, cultural, economic and political history in a systematic manner

ITAL 280 Masterpieces of Italian Literature (3 Credit Hours)
Pre-requisites: ITAL 250 and ITAL 251, with C or better; If either 250 or 251 have been completed, the other may be taken simultaneously with this course
This course is dedicated to the study of selected literary masterpieces written in Italian. Canonical and non-canonical works may be included, alongside essays that reflect on the definition and the history of Italian literature and its canon.
Interdisciplinary Option: Rome Studies
Outcomes:
By the end of the course, students will be able to describe, discuss, and present works of literature in expository writing; Students will demonstrate adequate reading and writing skills at level through oral presentations and term papers; Achievement level desired: ACTFL* Intermediate High to Advanced Low

ITAL 282 Studies in a Theme (3 Credit Hours)
Pre-requisites: ITAL 250 and ITAL 251, with C or better; If either 250 or 251 have been completed, the other may be taken simultaneously with this course
This course explores a theme chosen by the instructor on any social, artistic, and intellectual currents in the cultural history of Italy. The course may include cultural expressions such as the visual arts, music, theatre, performance, and film. It may consider different communication platforms such as - but not limited to - social media and pop culture. It may examine different genres and periods.
Interdisciplinary Option: Rome Studies
Outcomes:
By the end of the course, students will be able to identify the historical and social roots of Italian cultural phenomena and differentiate traditions and cultural perspectives in expository writing; Students will demonstrate adequate reading and writing skills at level through oral presentations and term papers; Achievement level desired: ACTFL* Intermediate High to Advanced Low

ITAL 283 Studies in Italian Authors (3 Credit Hours)
Pre-requisites: ITAL 250 and ITAL 251, with C or better; If either 250 or 251 have been completed, the other may be taken simultaneously with this course
This course is dedicated to the study of selected Italian authors. Canonical and non-canonical writers may be included, alongside authors of the Italian diaspora.
Interdisciplinary Option: Rome Studies
Course equivalencies: X-ITAL283/MSTU376
Outcomes:
By the end of the course, students will be able to describe, discuss, and present the works of Italian authors in expository writing; Students will demonstrate adequate reading and writing skills at level through oral presentations and term papers; Achievement level desired: ACTFL* Intermediate High to Advanced Low

ITAL 284 Studies in Italian Film (3 Credit Hours)
Pre-requisites: ITAL 250 and ITAL 251, with C or better; If either 250 or 251 have been completed, the other may be taken simultaneously with this course
This course will focus on one or more aspects of Italian films and may concentrate on narrative structure, genre, authorship, cinematography, casting, setting, and so on. The course may include a diverse selection of Italian high-brow and popular films, alongside readings that highlight their societal and cultural roots.
Interdisciplinary Option: Global Studies, Rome Studies
Outcomes:
By the end of the course, students will be able to describe, discuss, and present on various aspects of Italian cinema and the work of Italian filmmakers; Students will demonstrate adequate reading and writing skills at level through oral presentations and term papers; Achievement level desired: ACTFL* Intermediate High to Advanced Low

ITAL 290 The Italians (3 Credit Hours)
Pre-requisites: ITAL 250 and ITAL 251, with C or better; If either 250 or 251 have been completed, the other may be taken simultaneously with this course
This course aims at the acquisition of the Italian language for professional purposes in conducting business in Italy or with Italian companies. It will provide students with professional opportunities in an international and global environment.
Interdisciplinary Option: Italian American Studies, Rome Studies
Outcomes:
By the end of the course, students will be familiar with business etiquette and the organization of Italian companies and corporations; Students will demonstrate use of appropriate written professional language in business letters and CV writing, and in oral communication; Achievement level desired: ACTFL* Intermediate High to Advanced Low

ITAL 300 Tutorial for Credit (1-6 Credit Hours)
Students will cover a specially designed program of study through regular meeting with Italian faculty.
Interdisciplinary Option: Italian Studies
Outcomes:
Students will demonstrate knowledge of literature and culture and will improve their language skills

ITAL 301 Stylistics (3 Credit Hours)
Pre-requisites: ITAL 270 and ITAL 271, with C or better; If either 270 or 271 have been completed, the other may be taken simultaneously with this course
This course helps students develop writing skills in expository prose. Based on intensive study of advanced grammar and syntax, the course enhances students' vocabulary through prose, poetry, and essay readings.
Interdisciplinary Option: Rome Studies
Outcomes:
By the end of the course, students will demonstrate a firm and comprehensive command of the complexities of written and spoken Italian in expository writing and oral presentations; Achievement level desired: ACTFL* Advanced Low

ITAL 305 Advanced Grammar (3 Credit Hours)
This course, taught in Italian, is a study of advanced Italian composition and rhetoric, with advanced study of Italian grammar.
Interdisciplinary Option: Italian Studies
Outcomes:
Students will further develop their Italian language skills acquired in previous courses and through experience and will strive to achieve as high a proficiency level as personally possible in their advanced Italian reading and writing ability

ITAL 308 Literary Criticism (3 Credit Hours)
Pre-requisites: ITAL 270 and ITAL 271, with C or better; If either 270 or 271 have been completed, the other may be taken simultaneously with this course
Students will study major schools and themes in literary theory, both historical and contemporary. Rhetorical, philosophical, and cultural approaches to literature will be studied in conjunction with specific literary texts drawn from several linguistic and cultural traditions.
Interdisciplinary Option: Rome Studies
Course equivalencies: X-FREN/GERM/ITAL/SPAN308
Outcomes:
By the end of the course, students will be able to debate, contextualize, and interpret major critical issues in the study and theory of literature in expository writing and oral presentations; ACTFL* achievement level desired: Advanced Low to Mid

ITAL 312 Dante-The Divine Comedy (3 Credit Hours)
This course, taught in Italian, will examine the Vita Nuova and Divine Comedy of Dante Alighieri and study Dante's poetic world in the context of Medieval culture.
Interdisciplinary Option: Catholic Studies, European Studies, Italian Studies, Medieval Studies
Course equivalencies: X-ITAL312/CATH312/MSTU364
Outcomes:
Students will demonstrate knowledge of Dante's Italian and understanding of the historical, cultural, critical and technical vocabulary needed to analyze the Divine Comedy

ITAL 314 Survey 13th & 14th Century Literature (3 Credit Hours)
This course, taught in Italian, will examine the influential literary works of Francis Petrarch and Giovanni Boccaccio with emphasis on their respective masterpieces: the Canzoniere and the Decameron.
Interdisciplinary Option: Catholic Studies, Medieval Studies, Rome Studies
Course equivalencies: X-ITAL314/MSTU368
Outcomes:
Students will demonstrate knowledge of Petrarch's poetry and Boccaccio's difficult prose and their techniques of composition

ITAL 315 Italian Renaissance Literature (3 Credit Hours)
This course, taught in Italian, will examine the influential literary works of Poliziano, Lorenzo dei Medici, Machiavelli and Castiglione.
Interdisciplinary Option: Italian Studies
Outcomes:
Students will demonstrate knowledge of Renaissance literature in a variety of genres

ITAL 316 Renaissance Chivalric Poems (3 Credit Hours)
This course, taught in Italian, will examine the Chivalric Romance Epics of Boiardo, Ariosto and Tasso.
Interdisciplinary Option: Rome Studies
Outcomes:
Students will demonstrate knowledge of Renaissance literature 's greatest works

ITAL 317 Survey Early 19th Century Literature (3 Credit Hours)
This course will examine the influential literary works of Ugo Foscolo, Giacomo Leopardi, Alessandro Manzoni and other authors in a crucial period in the formation of modern Italian cultural identity.
Interdisciplinary Option: European Studies, Rome Studies
Outcomes:
Students will demonstrate knowledge of Foscolo and Leopardi poetry and Manzoni's prose and their literary style

ITAL 318 Survey Late 19th Cent Lit (3 Credit Hours)
This course will examine the influential literary works of Giovanni Verga and the school of Verismo and the "romanzi di formazione" of Edmondo De' Amicis, Carlo Collodi, and other significant Italian authors.
Interdisciplinary Option: European Studies, Italian Studies
Outcomes:

By the end of the course, students will be able to debate, contextualize, and interpret major critical issues in the study of Italian literature in expository writing and oral presentations; Achievement level desired: ACTFL* Advanced Low to Advanced Medium

ITAL 399 Italian Honors Tutorial (3 Credit Hours)
Pre-requisites: Instructor's consent, restricted to students in Italian BA
Eligible students majoring in Italian and with departmental honors may elect tutorial for credit; topic chosen in consultation with faculty member.
Interdisciplinary Option: Italian Studies
Course equivalencies: ITAL399H / ITAL399
Outcomes:
Students will explore a topic of their choice guided by a faculty member, and will conduct a research project that will result in a final paper; Achievement level desired: ACTFL* Advanced Low to Advanced-Mid

Japanese (JAPN)

JAPN 101 Japanese I (3 Credit Hours)
This course introduces the four basic communicative skills in Japanese: listening, speaking, reading, and writing. Students gain knowledge of Japanese culture and ways of thinking which provide the context for communicating in Japanese. No previous knowledge of Japanese is required.
Interdisciplinary Option: Asian Studies, Japanese Language and Culture
Course equivalencies: X-JAPN101/ASIAJ01
Outcomes:
Students will be able to understand and respond to greetings, introductions, and basic question about time, location, and directions and will be able to read and write hiragana and katakana, the two phonetic Japanese scripts as well as about 25 ideographic characters

JAPN 102 Japanese II (3 Credit Hours)
Pre-requisites: JAPN 101
Students will build on the skills in listening comprehension, speaking, reading and writing gained in JAPN 101.
Interdisciplinary Option: Asian Studies, Japanese Language and Culture
Course equivalencies: X-JAPN102/ASIAJ02
Outcomes:
Students will be able to introduce themselves and others, discuss daily life, and read and write simple paragraph length compositions with the aid of vocabulary lists

JAPN 103 Japanese III (3 Credit Hours)
Pre-requisites: JAPN 102
Students will expand their knowledge of Japanese vocabulary, grammar, usage, and speech levels, using Japanese as a medium for learning Japanese.
Interdisciplinary Option: Asian Studies, Japanese Language and Culture
Course equivalencies: X-JAPN103/ASIAJ03
Outcomes:
Students will use written and spoken Japanese to ask for and express opinions, to ask for assistance, and to participate in a variety of written and verbal social routines

JAPN 104 Japanese IV (3 Credit Hours)
Pre-requisites: JAPN 103
This course extends students' knowledge of Japanese grammar, vocabulary, verbal routines, and cultural patterns. Students will read and respond in Japanese to short works of fiction and non-fiction.
Interdisciplinary Option: Asian Studies, Japanese Language and Culture
Course equivalencies: X-JAPN104/ASIAJ04
Outcomes:
Students will converse in Japanese for extended periods and be able to decode and create many written items from daily life such as application forms, catalogs, and recipes

JAPN 250 Composition & Conversation I (3 Credit Hours)
Students gain mastery of intermediate Japanese grammar and increase their ability to use honorific and humble speech, with increasing use of Japanese as the medium of instruction.
Interdisciplinary Option: Asian Studies, Japanese Language and Culture

JAPN 251 Composition & Conversation II (3 Credit Hours)
This class is conducted mostly in Japanese with students developing the ability to read and discuss longer texts, including primary sources, to gain greater knowledge and understanding of Japan.
Interdisciplinary Option: Asian Studies, Japanese Language and Culture

Spanish (SPAN)

SPAN 101 Spanish I (3 Credit Hours)
This course is an introduction to the basic elements of Spanish language and culture. It is designed for students with no previous experience in Spanish.
Outcomes:
Students will be able to understand simple messages and short narratives, respond to basic inquiries about themselves and others, formulate basic questions, as well as understand basic written texts

SPAN 102 Spanish II (3 Credit Hours)
Pre-requisites: SPAN 101
This course builds on SPAN 101, and introduces students to new topics and grammatical structures.
Interdisciplinary Option: Latin American Studies
Outcomes:
Students will be able to produce sounds in Spanish more accurately, express appropriate reactions to ordinary situations, understand basic oral commands, read more complex texts, and write sentences in cohesive paragraphs

SPAN 103 Spanish III (3 Credit Hours)
Pre-requisites: SPAN 102
This course is the first semester of second-year Spanish.
Outcomes:
Students will increase their knowledge of Spanish grammar and vocabulary, and their Spanish communication skills

SPAN 104 Spanish IV (3 Credit Hours)
Pre-requisites: SPAN 103
This course is the second semester of second-year Spanish.
Outcomes:
Students will continue to perfect their knowledge of Spanish grammar and vocabulary, with greater stress on reading and speaking

SPAN 190 Spanish for Medical Professionals I (3 Credit Hours)
This course develops intermediate-level skills in comprehension and conversation for the health professions. It is for students who have completed at least Spanish 104 who have intermediate-level Spanish language skills.
Outcomes:
Students will be able to understand and use appropriate Spanish expressions in a variety of situations involving use of Medical Spanish; Students will understand essential information about the dialects and cultural characteristics of major Spanish speaking populations in Chicago

SPAN 195 Spanish for Medical Interpretation (3 Credit Hours)
This course is part of an intermediate advanced sequence focusing on (mainly) advanced oral intercultural skills in Spanish language oriented to preparing students for the interaction with Spanish speaking patients with none or little English skills. Students will develop a strong cultural sensitivity to improve future patient-doctor communications, while reflecting on the role of medical interpreters in successful medical outcomes. An intensive speaking, translating and interpreting training will help to strengthen students' knowledge of language and their confidence in its use.

SPAN 250 Composition & Conversation I (3 Credit Hours)
Pre-requisites: SPAN 104
This course is the first in an intermediate-level sequence designed to develop greater fluency in speech and writing through diverse readings and activities and is taught in Spanish.
Outcomes:
Students will be able to speak, read, write, and comprehend readings in Spanish at the intermediate level

SPAN 251 Composition & Conversation II (3 Credit Hours)
Pre-requisites: SPAN 250
Advanced conversation and composition course designed to develop greater fluency in speech and writing through diverse readings and activities. Taught in Spanish and required for Spanish majors.
Outcomes:
Students will be able to speak, read, write, and comprehend readings in Spanish at the advanced, third-year college level

SPAN 252 Composition & Conversation: Native Speakers (3 Credit Hours)
Pre-requisites: fluency in Spanish
This course is designed for Spanish-speaking students, and is an Intensive study of grammar and composition.
Outcomes:
Students will develop greater fluency in written Spanish

SPAN 253 Advanced Composition & Conversation: Native Speakers (3 Credit Hours)
Pre-requisites: SPAN 252 or equivalent
This course is a continuation of SPAN 252.
Outcomes:
Students will develop greater fluency in written Spanish

SPAN 270 Introduction to Critical Analysis in Spanish (3 Credit Hours)
This course reviews and sharpens the essential skills and techniques necessary to critically read, interpret, and write and speak about all genres of Hispanic literature (narrative, poetry, drama, and essay) in Spanish. In so doing, students refine their linguistic skills, and gain awareness of the complexities of the Spanish-speaking world.
Interdisciplinary Option: European Studies
Outcomes:
Students will gain the necessary skills for critically reading, writing and discussing all genres of Hispanic literature

SPAN 271 Introduction to Iberian Literature and Culture (3 Credit Hours)
An introduction to Iberian literature, film, and cultural production, designed to provide students with an understanding of Iberian culture, history, and society, while also honing their linguistic and analytical skills.
Interdisciplinary Option: European Studies, Global Studies
Outcomes:
Students will gain a grounding in Iberian literary and cultural production, an understanding of various literary and cultural forms, and an awareness of their context of production

SPAN 272 Introduction to Spanish American Literature and Culture (3 Credit Hours)
An introduction to Spanish-speaking Latin American literature, film, and other forms of cultural production, designed to provide students with an understanding of the region's variety and complexity while also honing their linguistic and analytical skills.
Outcomes:
Students will obtain a grounding in Spanish-speaking Latin American literary and cultural production, an understanding of various literary and cultural forms, and an awareness of their context of production

SPAN 300 Tutorial for Credit (1-6 Credit Hours)
Pre-requisites: permission of chairperson
Course material will be agreed upon by the student and instructor.
Outcomes:
Students will explore an aspect of Spanish language, culture and civilization, or literature not present in the curriculum or not offered that semester

SPAN 302 Business Spanish (3 Credit Hours)
Introduction to the fundamentals of the Spanish language and Hispanic culture as it relates to business practices.
Outcomes:
Students will learn the language of commerce in Spanish

SPAN 305 Advanced Spanish Grammar (3 Credit Hours)
Pre-requisites: SPAN 251 and permission of chairperson
This course is an overview of the most important aspects of Spanish grammar: sentence components, verbal systems, pronominal system, sentence structure, and paragraph structure.
Outcomes:
Students will be able to analyze words, sentences, both simple and compound, and to properly use pertinent linguistic terminology

SPAN 308 Literary Criticism (3 Credit Hours)
Introduction to various theories and methods of literary criticism and textual analysis. Conducted in English.
Course equivalencies: X-FREN/GERM/ITAL/SPAN308
Outcomes:
Students will be able to demonstrate a comprehensive critical knowledge of major currents and themes in international literary criticism and theory

SPAN 311 Generation of 1898 (3 Credit Hours)
Pre-requisites: Permission of chairperson
This course studies the distinctive group of turn-of-the-century Spanish writers known as the 'Generation of 1898': Unamuno, Baroja, Valle-Inclán, Machado, etc.
Interdisciplinary Option: European Studies, Global Studies
Outcomes:
Students will be able to discern the similarities and differences among the writers of this generation, as well as their relationship to modernism

SPAN 314 Survey of Medieval Literature (3 Credit Hours)
This course is a survey of the more prominent works of the Spanish Middle Ages - El Cantar de Mío Cid, El libro del buen amor, El conde Lucanor, and La tragicomedia de Calisto y Melibea o La Celestina - which reflect the religious, spiritual, and intellectual currents of Medieval Spain. In the form of seminar discussions and independent study, students will examine the aesthetic, social, and political trends of the ninth through fifteenth centuries, as well as the most important themes writers developed in pre-modern Iberia: honor, authority, vice and virtue, pilgrimage, devotion, and humor. These themes will be explored in the major works (primary sources), which will be complemented by secondary source readings and each student's independent research. The writers and texts studied in this course will also be viewed in the context of the greater artistic production in Spain and Medieval Europe.
Interdisciplinary Option: European Studies, Medieval Studies

SPAN 319 Romanticism (3 Credit Hours)
Pre-requisites: permission of chairperson
Study of the principle philosophical and esthetic characteristics of romanticism through readings in the major Spanish and/or Latin American romantic authors.
Interdisciplinary Option: European Studies
Outcomes:
Students will be able to recognize the principle characteristics of romanticism, its foreign influences, and its historical development in a variety of genres, including drama, prose fiction, essay, and poetry

SPAN 321 20th Century Theatre (3 Credit Hours)
Pre-requisites: permission of chairperson
An examination of 20th Century Theater in Spain covering such dramatists as Valle-Inclán, J. Benavente, M. Mihura, García Lorca, Buero Vallejo, and others.
Interdisciplinary Option: Global Studies
Outcomes:
Students will gain an understanding of dramatic genres and the contribution of Spanish playwrights to contemporary discussions on political and aesthetic issues

SPAN 326 Theater of The Golden Age (3 Credit Hours)
Pre-requisites: permission of chairperson
A study of major Renaissance and Baroque plays by Calderón, Lope de Vega, Tirso de Molina, Mira de Amescua, Juan Ruiz de Alarcón, and others.
Interdisciplinary Option: European Studies
Outcomes:
Students will learn to recognize mythological and historical themes while discussing the ethics of tragedy, the evolution of comic characters, and social concerns in the era of absolutism

SPAN 330 Survey-Poetry Theory & Practice (3 Credit Hours)
The poetry of the 19th century in Spain and Latin America derives from two literary, artistic and cultural movements: romanticism and modernism.

SPAN 331 20th Century Poetry (3 Credit Hours)
Pre-requisites: Permission of chairperson
A study of the development of modern Spanish poetry from post-modernism to the present with a special emphasis on the Hispanic poets of the avant garde.
Interdisciplinary Option: European Studies, Global Studies
Outcomes:
Students will able to recognize the major poetic trends, forms, themes, and movements in 20th century Spanish verse

SPAN 336 Poetry of The Golden Age (3 Credit Hours)
Pre-requisites: permission of chairperson
An exploration of the influence of the Italian Renaissance on the Spanish tradition: Garsilaso de la Vega, Herrera, San Juan de la Cruz, Fray Luis de León, Quevedo, Góngora and others.
Outcomes:
Students will learn to recognize classical themes and rhetorical techniques, and to trace the development of such genres as epic, satire, and the lyric

SPAN 339 19th Century Poetry (3 Credit Hours)
Pre-requisites: permission of chairperson
This course is a survey of 19th-century literature, with emphasis on Romanticism and Realism.
Outcomes:
Students will become acquainted with the rich literature of the nineteenth century and will improve their critical and analytical skills

SPAN 340 Survey Prose-Fictional & Nonfiction (3 Credit Hours)
Pre-requisites: permission of chairperson
This course traces the development of Spanish prose from the Middle Ages to the present day. All prose genres are included.
Interdisciplinary Option: European Studies
Outcomes:
Students will come to appreciate and understand how peninsular prose has developed

SPAN 341 20th Century Spanish Literature (3 Credit Hours)
Pre-requisites: permission of chairperson
Beginning with the Generation of 1898 and concluding with post-modernism, this course studies the rich literature of modern Spain.
Interdisciplinary Option: European Studies, Global Studies
Outcomes:
Students will better understand and appreciate the complexities of modern Spanish literature, as well as improve their critical and analytical skills

SPAN 346 Prose of The Golden Age (3 Credit Hours)
Pre-requisites: permission of chairperson
An approach to the picaresque, the pastoral novel and the essay with their concern with power and submission in everyday life. A study of the growing role of individual experience in fictional modes.
Interdisciplinary Option: European Studies
Outcomes:
Students will recognize the confluence of different prose styles, and the creation of individual voices in fiction; They will also become familiar with emerging concerns with religious and scientific issues during the period

SPAN 347 Cervantes Don Quijote (3 Credit Hours)
Pre-requisites: permission of chairperson
This course reads Cervantes' masterpiece with an emphasis on critical approaches, and on the book's impact on the invention of the modern novel.
Interdisciplinary Option: European Studies
Outcomes:
Students will learn about Cervantes's contribution to the development of modern fiction; They will become familiar with the novel's connection to other literary genres, and the role of metafiction and textuality

SPAN 349 Realism and Naturalism (3 Credit Hours)
Pre-requisites: permission of chairperson
This course is primarily a study of the novel of Realism and Naturalism, as well as of the short story.
Interdisciplinary Option: European Studies, Global Studies
Outcomes:
Students will be able to understand the goals of the great Realists and Naturalists and see their relationship to the major European masters of the nineteenth century

SPAN 352 Masterpieces of Latin American Literature (3 Credit Hours)
Pre-requisites: permission of chairperson
This course is a survey of representative works from pre-Colombian times to the present day, and an introduction to literary genres and defining themes in Latin American literature. It is taught in Spanish.
Interdisciplinary Option: Latin American Studies
Course equivalencies: X-SPAN352/LASP372
Outcomes:
Students will be able to understand the principal works, movements, and genres in Latin American literature

SPAN 353 Literary Masterpieces of Spain (3 Credit Hours)
This course is a survey of representative works of Spanish literature from the Middle Ages to the present, that is, from the first texts in the Castilian Spanish language (eleventh century), to works of the Renaissance and Baroque, and beyond, to key works of modern and contemporary times.
Outcomes:
Students will obtain a firm grasp of Iberian literary production, and an awareness of their context of production

SPAN 360 Intro to Hispanic Linguistics (3 Credit Hours)
Pre-requisites: SPAN 271 or 272
Introduction to Hispanic Linguistics is an introductory course on the structure of Spanish and its use in the Spanish-speaking world. Introducing the linguistic terminology and the basis for this science, helping the student analyze the grammatical structure and sounds of Spanish, and familiarizing the student with the different varieties of Spanish.

Course equivalencies: X-SPAN390/INTS397/LASP390
Outcomes:
To gain knowledge, analyze and understand the main characteristics which define Latin American culture; This will be accomplished through the study of texts, art and film

SPAN 391 Spanish Culture and Civilization (3 Credit Hours)
Pre-requisites: SPAN 270 & SPAN 271
This is a survey course of Spanish culture and civilization and examines the main cultural, intellectual and political currents that have taken shape in Iberia and Spain. Special attention is given to the art and literature that has come to from contemporary Spanish culture within the context of European history.
Interdisciplinary Option: Catholic Studies, Global Studies
Outcomes:
To gain knowledge, analyze and understand the main characteristics which define Latin Spanish culture; This will be accomplished through the study of primary texts, back-ground reading, art and film

SPAN 395 Internship (3 Credit Hours)
The internship will allow students to work in a variety of settings using Spanish - business, education, government, or social service agencies. This course satisfies the Engaged Learning requirement.
Outcomes:
Students will gain practical experience in speaking and writing Spanish

SPAN 396 Saints and Sinners of Spain (3 Credit Hours)
Pre-requisites: SPAN 270 and SPAN 271 or 272
This course surveys prominent Spanish Golden Age authors whose writings reflect the religious, spiritual, and intellectual currents of early Modern Spain, with a concentration on the culture of the Counter-Reformation. Its primary focus is how Christian life in reflected in literature and art and the portrayal of virtue and vice. To comprehend religious, spiritual and intellectual currents in Spanish culture, as reflected in literature and art.
Interdisciplinary Option: Catholic Studies

SPAN 397 Topics in Hispanic Literature (3 Credit Hours)
This revolving-topics course allows students to focus on a specific theme, such as Hispanic Feminism, Visions of America, or The Literature, Cinema ad Music of 21st century Spain. It also provides for in-depth study of a single author, such as Federico Garcia Lorca, Miguel de Unamuno or Jorge Luis Borges.
Interdisciplinary Option: Latin American Studies
Course equivalencies: X-SPAN397/LASP397

Arabic Language and Culture Minor

The Arabic program at Loyola University Chicago, established in 2012, serves a hybrid body of students from a variety of linguistic, socio-cultural, and religious backgrounds. Our program has common interdisciplinary interests with several fields including History, Political science, Theology, Literature, International Education and Global Studies, and Communication.

For more information please contact:

Dr. Sawsan Abbadi (https://www.luc.edu/modernlang/sawsanabbadi.shtml/)
Arabic Language Program Director
Phone: 773.508.2850
sabbadi@luc.edu

Curriculum

6 total courses (18 credit hours):

Code	Title	Hours
Arabic Language Courses		
Language courses must be taken in order. Students may start further in the sequence if they test out of lower numbered courses.		
Choose four of the following:		*12*
ARAB 101	Arabic I	
ARAB 102	Arabic 102	
ARAB 103	Arabic 103	
ARAB 104	Arabic 104	
ARAB 250	Advanced Composition And Conversation	
ARAB 251	Advanced Composition and Conversation II	
Arabic Literature in Translation		**3**
Choose one of the following:		
LITR 238	Arabic Literature in Translation	
LITR 280	World Masterpieces in Translation (e.g., Islamic Literature, etc.)	
Arabic Culture Courses [1]		**3**

THEO 295	Islam	
THEO 365	Women, Gender and Embodiment in Islam	
Total Hours		**18**

[1] Other course options may become available for this requirement on a rotating basis. Students should consult with the program director before enrolling for a course not on this list.

Suggested Sequence of Courses

Language courses must be taken in sequence. The courses satisfying the Literature in Translation and Culture Courses requirements of the Arabic minor can be taken in any order. More than one Literature in Translation and Culture Courses can be taken during the same term and Language and Literature in Translation and Culture Courses can be taken during the same semester. Terms for course offerings may vary.

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

Course	Title	Hours
Year One		
First Semester		
Arabic Language Course #1		3
	Hours	**3**

	Hours	**3**
Sixth Semester		
Arabic Culture Course		3
	Hours	**3**
	Total Hours	**18**

Double Dipping

There is no limit for double dipping. Please consult with program director for any questions.

Transfer-Student Residency Requirement

At least 9 credit hours of Arabic Language and Culture Minor (ARLC-MINR) requirements must be completed at Loyola.

Learning Outcomes

Students graduating from our program are expected to reach an Intermediate High to Advanced Low proficiency level as described by the American Council on the Teaching of Foreign Languages ACTFL. Although Formal Educated Arabic is emphasized, our program incorporates basic elements of Levantine dialect to reflect the reality of the Arab World. The Arabic program is restructuring its curricula to meet the National Standards of Teaching Foreign Languages in the 21st century described by ACTFL and highlighting the following outcomes/standards:

- Communication
- Cultural knowledge and critical perception (or awareness) of other cultures and people.
- Connections with other related disciplines to reinforce and further the students' knowledge
- Comparisons among the nature of the target language and culture(s) in comparison to other languages and cultures
- Communities: Become life-long learners involved in the functional use of language and culture worldwide.

Asian Language and Literatures Minor

The minor in Asian Language and Literatures offers students the opportunity to master skills of language acquisition and cross-cultural communicative competence while developing multicultural awareness of Japanese-speaking and other Asian-language speaking communities. Our program prepares students to think critically, and allows them to gain knowledge of Asian languages and literatures.

For more information please contact:

Dr. David Posner
Phone: 773-508-2870
dposner@luc.edu

Curriculum

Four courses in Japanese or other Asian languages (with Department approval) and two courses of Literature in Translation (LITR) on a Japanese Literature or Asian Literature theme. Students with no previous experience in Japanese will complete the four course JAPN 101 Japanese I-JAPN 104 Japanese IV sequence and then complete LITR 245 Asian Masterpieces (in the area Japanese Literature in Translation) and one other LITR course. Students are permitted to subsitute an Asian-themed 200 or 300-level course from another Department (such as History, Political Science or Anthropology) for their second LITR required course. Students with previous knowledge of Japanese will begin at a higher level than JAPN 101 Japanese I and complete a four course language sequence.

Language Courses

Code	Title	Hours
Arabic		
ARAB 101	Arabic I	3
ARAB 102	Arabic 102	3
ARAB 103	Arabic 103	3
ARAB 104	Arabic 104	3
ARAB 250	Advanced Composition And Conversation	3
ARAB 251	Advanced Composition and Conversation II	3
Chinese		
CHIN 101	Chinese I	3
CHIN 102	Chinese II	3
CHIN 103	Chinese III	3
CHIN 104	Chinese IV	3
CHIN 250	Composition and Conversation	3
CHIN 251	Advanced Composition & Conversation	3
CHIN 341	Modern Chinese Literature in Chinese	3
CHIN 395	Tutorial	1-6
Hindi-Urdu		
HNDI 101	Hindi-Urdu I	3
HNDI 102	Hindi-Urdu II	3
HNDI 103	Hindi-Urdu III	3
HNDI 104	Hindi-Urdu IV	3

JAPN 102	Japanese II	3
JAPN 103	Japanese III	3
JAPN 104	Japanese IV	3
JAPN 250	Composition & Conversation I	3
JAPN 251	Composition & Conversation II	3

Learning Outcomes

Upon completion of the program, students will be able to:

- Show intermediate proficiency in speaking, understanding, reading and writing skills
- Demonstrate knowledge of content areas (Japanese vocabulary and grammar, Asian literature and traditions, Asian films including in the Anime' genre)
- Understand the principle characteristics which define Asian culture
- Trace change over time in cultural values
- Examine and describe numerous cultural expressions in order analyze key elements of Asian cultural identity and make cross-cultural, intercultural comparisons
- Establish connections between literature, film, and society in Japanese and other Asian cultures
- Attain better cultural competency
- Foster a lifelong interest and enthusiasm for Japanese and Asian language and literature study

Chinese Language and Culture Minor

Program Description

The Chinese program offers more than 10 Chinese language courses and several Chinese Literature in Translation courses leading to a minor in Chinese language and culture.

A minor in Chinese language and culture should open doors to a variety of career options, for example, working in a position where Chinese language skills and cultural/business knowledge are desirable, teaching at a school or working for a multinational company in China, or pursuing advanced studies in Chinese, Asian studies, international relations, or related disciplines.

For more information, please contact:

Hong Chen, Director, Chinese Language and Literature Program
Department of Modern Languages and Literatures
107 Crown Center
Loyola University Chicago
hchen4@luc.edu

Curriculum

A student wishing to pursue a minor in Chinese language and culture should complete 18 credits in Chinese language, up to six of which may be substituted by coursework with a focus on Chinese literature and/or culture. There are five options to fulfill the requirements for the minor, as shown in the table below. For example, under Option 1, a student can take six Chinese language courses to fulfill the requirements for the minor; under Option 4, a student can take four Chinese language courses, one Chinese literature course, and one course with a focus on Chinese culture taught by a different academic unit to satisfy the requirements for the minor.

Option	Language	Literature	Culture
1	6	0	0
2	5	1	0
3	4	2	0
4	4	1	1
5	4	0	2

Option 1 - Six (6) Language Courses

Code	Title	Hours
Choose six (6) of the following courses:		**18**
CHIN 101	Chinese I	
CHIN 102	Chinese II	
CHIN 103	Chinese III	
CHIN 104	Chinese IV	
CHIN 190	Business Chinese I	
CHIN 191	Business Chinese II	
CHIN 250	Composition and Conversation	
CHIN 251	Advanced Composition & Conversation	
CHIN 252	Advanced Composition and Conversation II	
CHIN 253	Advanced Composition and Conversation III	
Total Hours		**18**

Option 2 - Five (5) Language Courses and One (1) Literature Course

Code	Title	Hours
Choose five (5) of the following courses:		**15**
CHIN 101	Chinese I	
CHIN 102	Chinese II	
CHIN 103	Chinese III	
CHIN 104	Chinese IV	
CHIN 190	Business Chinese I	
CHIN 191	Business Chinese II	
CHIN 250	Composition and Conversation	
CHIN 251	Advanced Composition & Conversation	
CHIN 252	Advanced Composition and Conversation II	
CHIN 253	Advanced Composition and Conversation III	
Choose one (1) of the following courses:		**3**
LITR 245	Asian Masterpieces (Traditional Chinese Literature)	
LITR 245	Asian Masterpieces (Folklore of China)	
LITR 245	Asian Masterpieces (China Through Literature and Film)	
LITR 245	Asian Masterpieces (Masterpieces of Chinese Fiction)	
Total Hours		**18**

Option 3 - Four (4) Language Courses and Two (2) Literature Courses

Code	Title	Hours
Select four (4) of the following courses:		**12**
CHIN 101	Chinese I	
CHIN 102	Chinese II	
CHIN 103	Chinese III	
CHIN 104	Chinese IV	
CHIN 190	Business Chinese I	
CHIN 191	Business Chinese II	
CHIN 250	Composition and Conversation	
CHIN 251	Advanced Composition & Conversation	
CHIN 252	Advanced Composition and Conversation II	
CHIN 253	Advanced Composition and Conversation III	
Choose two (2) of the following courses:		**6**
LITR 245	Asian Masterpieces (Traditional Chinese Literature)	
LITR 245	Asian Masterpieces (Folklore of China)	
LITR 245	Asian Masterpieces (China Through Literature and Film)	
LITR 245	Asian Masterpieces (Masterpieces of Chinese Fiction)	
Total Hours		**18**

Option 4 - Four (4) Language Courses, One (1) Literature Course, and One (1) Culture Course

Code	Title	Hours
Choose four (4) of the following courses:		**12**
CHIN 101	Chinese I	
CHIN 102	Chinese II	
CHIN 103	Chinese III	
CHIN 104	Chinese IV	
CHIN 190	Business Chinese I	
CHIN 191	Business Chinese II	
CHIN 250	Composition and Conversation	
CHIN 251	Advanced Composition & Conversation	
CHIN 252	Advanced Composition and Conversation II	
CHIN 253	Advanced Composition and Conversation III	
Choose one (1) of the following courses:		**3**
LITR 245	Asian Masterpieces (Traditional Chinese Literature)	
LITR 245	Asian Masterpieces (Folklore of China)	
LITR 245	Asian Masterpieces (China Through Literature and Film)	
LITR 245	Asian Masterpieces (Masterpieces of Chinese Fiction)	
Choose one (1) of the following courses:		**3**
ENVS 281C	Environmental Sustainability & Science in China	
HIST 345A	Traditional China from Antiquity to 1550	
HIST 346A	Early Modern China: 1550-1800	
HIST 346B	Reform & Revolution in China, 1800-1949	
HIST 346C	History of Christianity in China	
HIST 347A	China Since 1949: The People's Republic	
HIST 347C	Cultural Revolution-China	
HIST 347D	Modern Chinese History through Film	
PHIL 288	Culture and Civilization (when the focus is on China)	
UCLR 100M	Interpreting Literature - Modern Langs&Literatures	
Total Hours		**18**

Option 5 - Four (4) Language Courses and Two (2) Culture Courses

Code	Title	Hours
Select four (4) of the following courses:		**12**
CHIN 101	Chinese I	
CHIN 102	Chinese II	
CHIN 103	Chinese III	
CHIN 104	Chinese IV	
CHIN 190	Business Chinese I	
CHIN 191	Business Chinese II	
CHIN 250	Composition and Conversation	
CHIN 251	Advanced Composition & Conversation	
CHIN 252	Advanced Composition and Conversation II	
CHIN 253	Advanced Composition and Conversation III	
Choose two (2) of the following courses:		**6**
ENVS 281C	Environmental Sustainability & Science in China	
HIST 345A	Traditional China from Antiquity to 1550	
HIST 346A	Early Modern China: 1550-1800	
HIST 346B	Reform & Revolution in China, 1800-1949	
HIST 346C	History of Christianity in China	
HIST 347A	China Since 1949: The People's Republic	
HIST 347C	Cultural Revolution-China	
HIST 347D	Modern Chinese History through Film	
PHIL 288	Culture and Civilization (when the focus is on China)	
UCLR 100M	Interpreting Literature - Modern Langs&Literatures	
Total Hours		**18**

Learning Outcomes

- For students taking the four-language-course option, possess an active vocabulary of 1,000-1,200 characters. For those taking five or six language courses to fulfill the minor's requirements, their vocabulary should expand by approximately 300 characters for each additional course.
- For students taking the one- or two-literature-course option, demonstrate knowledge of some of the most important genres and works of literature associated with the major historical periods, for example, selections from Confucius's Analects and Mencius's poems.
- For students taking a course with an emphasis on China (e.g., in history, philosophy, political science) in partial fulfillment of the minor's requirements, gain a basic understanding of the relevant historical periods and be able to discuss major events and their significance in China's development.
- Be able to engage in conversations involving common topics such as study, work, career aspirations, family, and hobbies and demonstrate essential knowledge of Chinese culture.
- Be able to read and write routine documents such as email, letters, and applications using complete and grammatical sentences following appropriate cultural norms.

French (BA)

The Major in French offers students the opportunity to master skills of language acquisition and textual analysis while developing multicultural awareness of the diversity inherent in the Francophone world. Our program prepares students to think critically, and allows them to gain a broad appreciation and deep understanding of French and Francophone literatures and cultures. Our curriculum includes courses in literature from the Middle Ages until the present day, as well as interdisciplinary courses that look at cultural and historical movements. Most French majors take advantage of the study abroad opportunities offered in conjunction with the Office for International Programs, and participate in extracurricular activities such as French Club or language tutoring and coaching.

For more information about our programs in French, please contact us (https://www.luc.edu/modernlang/contactus.shtml/).

Curriculum

Ten courses totaling 30 credits, excluding FREN 101 Elementary French I–FREN 104 Intermediate French II or their equivalent.

Requirements include:

Code	Title	Hours
Required Courses		
FREN 250	French Composition and Conversation I	3
FREN 251	French Composition and Conversation II	3
FREN 270	Main Currents of French Literature & Culture I	3
FREN 271	Main Currents of French Literature & Culture II	3
FREN 301	Stylistics	3
or FREN 302	French for Professions	
FREN 317	Le Grand Siècle	3
Select four additional 300-level courses in French		12
Total Hours		**30**

A senior Capstone E-Portfolio is required for graduation.

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

Upon completion of the Major in French, students will be able to:

- Demonstrate proficiency in speaking, understanding, reading, and writing skills
- Develop analytical skills that will allow them to read and write in French as well as write organized essays with developed arguments
- Develop skills of literary analysis that will allow them to understand major topics in French and Francophone literatures and cultures

- Trace developments over time in literary and cultural movements as well as transformations of political and historical institutions
- Analyze and interpret numerous literary texts in order to better comprehend the representations of cultural identity and make cross-cultural, intercultural connections
- Establish connections between literature, film, and history in France and the Francophone world
- Attain better cultural competency
- Foster a lifelong interest and enthusiasm for French-speaking cultural production

French Language and Literature Minor

The minor in French Language and Literatures offers students the opportunity to master skills of language acquisition and textual analysis while developing multicultural awareness of the diversity inherent in the Francophone world. Our program prepares students to think critically, and allows them to gain knowledge of literary and cultural expressions of French and Francophone cultures. Students may take courses in literature from the Middle Ages until the present day, as well as interdisciplinary courses that look at cultural and historical movements.

For more information, please contact:

Dr. Eliana Vagalau, Undergraduate Program Director
Crown Center 471
evagalau@luc.edu

Curriculum

Requirements

Six courses in French, excluding FREN 101 Elementary French I through FREN 104 Intermediate French II. Students normally take:

Code	Title	Hours
FREN 250	French Composition and Conversation I	3
FREN 251	French Composition and Conversation II	3
FREN 270	Main Currents of French Literature & Culture I	3
FREN 271	Main Currents of French Literature & Culture II	3
Select two courses at the 300-level		6
Total Hours		**18**

Students who are fluent in the language may begin the sequence at the 270-level with the French Undergraduate Program Director's permission.

Learning Outcomes

Upon completion of the Minor in French Language and Literature, students will be able to:

- Demonstrate proficiency in speaking, understanding, reading, and writing skills
- Develop analytical skills that will allow them to read and write in French as well as write organized essays with developed arguments
- Develop skills of literary analysis that will allow them to understand major topics in French and Francophone literatures and cultures
- Trace developments over time in literary and cultural movements
- Analyze and interpret numerous literary texts in order to better comprehend the representations of cultural identity and make cross-cultural, intercultural connections
- Establish connections between literature, film, and history in the Francophone world
- Attain better cultural competency
- Foster a lifelong interest and enthusiasm for French-speaking cultural production

French Language Minor

The minor in French Language offers students the opportunity to master skills of language acquisition, including speaking, aural comprehension, reading, and writing, while also developing basic cultural competency in the French-speaking world.

For more information, please contact:

Dr. Eliana Vagalau, Undergraduate Program Director
Crown Center 471
evagalau@luc.edu

Curriculum

Six courses in consultation with the departmental French advisor. Students with no background in French will begin the sequence with FREN 101 Elementary French I. Students with high school or other background language will be placed in FREN 102 Elementary French II - FREN 251 French Composition and Conversation II.

Learning Outcomes

Upon completion of the Minor in French Language, students will be able to:

- Demonstrate proficiency in speaking, understanding, reading, and writing skills
- Develop analytical skills that will allow them to read and write in French as well as write organized compositions
- Analyze and interpret texts including newspapers and films in order to better comprehend the representations of cultural identity and make cross-cultural, intercultural connections
- Attain better cultural competency
- Foster a lifelong interest and enthusiasm for French-speaking cultural production

German Studies Minor

The German Studies Minor appeals to students who are interested in gaining cultural proficiency in German beyond a language ability in order to enhance their majors in such areas as Theology, History and Global and International Studies, and their global career opportunities in international and domestic business, marketing, law, translation, government service, news services, or the publishing industry.

Please see the German Studies webpage (https://www.luc.edu/germanstudies/index.shtml/)for more information.

Curriculum

The German Studies Minor consists of 19 credit hours (six three-credit courses + a one-credit capstone) broken down as follows:

Code	Title	Hours
Pre-Requisites		
GERM 101	Elementary German I [1]	
GERM 102	Elementary German II [1]	
Required Courses		
GERM 103	Intermediate German I [1]	3
GERM 104	Intermediate German II [1]	3
GRMS 300	German Studies Minor Capstone	1
Electives		
Students choose four courses from the following. In order to qualify as an elective, a course must have at least one-third of its content devoted to German cultural history.		12
GERM 250	Composition & Conversation I (offered every fall semester) [2]	
GERM 251	Composition & Conversation II (offered every spring semester) [2]	
GERM 320	German-American History: Focus on Chicago	
GERM 369	German Reading Knowledge	
GERM 370	German Cinema	
HIST 300B	Topics in Premodern History (offered every other or third year)	
HIST 300C	Topics in European History (Post-1700) (Poland and Germany (offered every other or third year)	
HIST 300C	Topics in European History (Post-1700) (offered every other or third year)	
HIST 310A	Medieval World 1100-1500	
HIST 310B	Medieval Culture (offered every other year)	
HIST 315	The Reformation	
HIST 321	19th Century European Culture and Ideas (offered every other year)	
HIST 330	Europe in the Age of Catastrophe, 1900-1945 (offered every other or third year)	
HIST 335	The Second World War (offered every other or third year)	
HIST 336	Contemporary Europe 1945 to Present (offered every other or third year)	
HIST 338A	History of European Communism	
PHIL 306	19th Century Philosophy (offered every other year)	
PHIL 309	Classical Modern Philosophy (offered annually)	
PHIL 375	Philosophy of Marxism (offered irregularly)	
PLSC 308	Contemporary Political Thought (offered every other semester)	
SOCL 205	Sociological Thought (offered every semester)	
THEO 281	Christianity Through Time (offered annually)	
Total Hours		**19**

[1] This course may be waived by placement examination or by the Program Director.

[2] This is a preferred elective and must be taken unless waived by placement examination or by the Program Director.

Not less than 8 credit hours in the individual student's transcript must be unique to the German Studies Minor; that is, the courses in question are considered as actually fulfilling requirements of one minor, not of more than one minor or major.

Students may wish to satisfy some of the requirements through study abroad in a German-speaking country.

The final component of the program is a one-credit hour capstone project and paper, done in consultation with a German faculty member. It may also involve an internship at the DANK Haus in Chicago.

Suggested Sequence of Courses

Language courses must be taken in sequence and may be waived by placement examination or by the Program Director. The courses satisfying electives can be taken in any order. More than one elective course can be taken during the same term and language and elective courses can be taken during the same semester. Terms for course offerings may vary.

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

Option 1

Course	Title	Hours

GRMS 300	German Studies Minor Capstone	1
	Hours	**1**
	Total Hours	**19**

Learning Outcomes

Students completing the German Studies Minor will:

- Achieve a mid-intermediate level of German language proficiency in speaking, reading, writing and listening according to the Proficiency Guidelines of the American Council of Teachers of Foreign Languages;
- Have specific knowledge of the cultural history of the German-speaking world based on the elective courses taken;
- Expand their horizons by virtue of having studied a foreign language and culture, and will be able bring those perspectives to bear on a more critical view of their own culture.

Italian (BA)

The major in Italian offers students the opportunity to master skills of language acquisition and literary and cultural knowledge as cross-cultural communicative competence while developing multicultural awareness of Italian speakers in Italy and around the world. Our program prepares students to think critically and to develop advanced reading comprehension skills and allows them to gain knowledge of Italian language, literature, film and culture.

Curriculum

Completion of the BA in Italian degree program requires ten courses totaling 30 credits, excluding ITAL 101 Italian I – ITAL 104 Italian IV or their equivalent.

Requirements include four 200-level courses, ITAL 312 Dante-The Divine Comedy, and five additional 300-level courses chosen from the list below. Of the six 300-level courses taken, four must be literature courses.

Code	Title	Hours
Required Courses		
Required 200-level Courses [1]		
ITAL 250	Composition & Conversation I	3
ITAL 251	Composition & Conversation II	3
ITAL 270	Main Currents of Italian Literature I	3
ITAL 271	Main Currents of Italian Literature II	3
Required 300-level Course		
ITAL 312	Dante-The Divine Comedy	3
Select five additional 300-level courses may be chosen from among the following:		15
ITAL 300	Tutorial for Credit	
ITAL 301	Stylistics	
ITAL 308	Literary Criticism	
ITAL 314	Survey 13th & 14th Century Literature	
ITAL 315	Italian Renaissance Literature	
ITAL 316	Renaissance Chivalric Poems	
ITAL 317	Survey Early 19th Century Literature	
ITAL 318	Survey Late 19th Cent Lit	
ITAL 319	Survey of 20th Century Prose	
ITAL 320	Survey of 20th Century Poetry	
ITAL 331	Survey of Italian Theater	
ITAL 340	Italian Short Story	
ITAL 390	Culture & Civilization	
ITAL 399	Italian Honors Tutorial	
Total Hours		**30**

[1] 200-level courses are prerequisites for 300-level courses.

Students with prior knowledge of Italian: Please contact a full-time Italian faculty member (https://www.luc.edu/modernlang/faculty_directory.shtml/#Italian) before registering for a class.

Portfolio Requirement

A senior Capstone E-Portfolio is required for graduation. Click here (https://www.luc.edu/modernlang/baprograms/capstonee-portfolioontaskstreamforfrenchitalianandspanishba/) at the beginning of your major for details.

Teacher Education Requirements

Eleven courses totaling 33 credits, excluding ITAL 101 Italian I - ITAL 104 Italian IV, including Stylistics and Culture and Civilization. Students in Secondary Education must also take LING 302 Methods of Teaching Foreign Language.

Departmental Honors

Students graduating with Departmental Honors take one Honors Tutorial (ITAL 399 Italian Honors Tutorial) in addition to the above requirements.

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

Upon completion of the program, students will be able to:

- Produce communication in the Italian language at intermediate to advanced proficiency in speaking, reading and writing
- Demonstrate knowledge of Italian literature in the social and historical contexts in which it is produced
- Practice global citizenship through intercultural experiences and experiential learning
- Establish connections between literature, film, and society in Italian culture

These outcomes will be evidenced in the students' senior capstone project (ePortfolio).

Italian American Studies Minor

Are you looking to learn more about this nation's fifth largest ethnic group and the many dynamic connections between Italy and the United States that continue to shape our contemporary society? If so, the Italian American Studies Minor is for you. The curriculum draws upon course offerings in different fields, including experiential learning and study abroad opportunities. Students will learn about the political, cultural, and historical conditions the led to the mass migration from Italy, with an emphasis on the Chicagoland area. While focusing on the Italian experience, the program also aims to provide students with a framework for understating other American groups with similar histories, and for addressing questions related to assimilation, identity, gender, race, class and religion that continue to inform contemporary discourse on immigration.

Many of the courses that count towards the minor also fulfill the university's CORE curriculum requirements, and others count for History, Criminal Justice, Music, Anthropology, Sociology, and more.

The Italian American Studies Minor is one of only a handful of such programs in the United States. It resulted from a 5-year long fund-raising campaign the proceeds of which were matched by Loyola University Chicago, eventually resulting in the Paul and Ann Rubino Endowed Professorship and the establishment of the minor.

Come learn about the history, culture and literature of Italian Americans, and the unique impact they have had on the city of Chicago and the world.

If you have additional questions about the program, please contact Dr. Carla A. Simonini, csimonini@luc.edu.

Curriculum

Total Hours		**18**

Suggested Sequence of Courses

The courses can be taken in any order. More than one course can be taken during the same term and course offerings may vary by term.

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

Course	Title	Hours
Year 1		
Fall		
ITAS 101	Introduction to Italian American Studies	3
	Hours	**3**

Year 2	
Fall	
Italian American Experience Course #1	3
Hours	**3**
Spring	
Issues and Methodologies Course	3
Hours	**3**
Year 3	
Fall	
Italian American Experience Course #2	3
Hours	**3**
Spring	
Italian American Experience Course #3	3
Hours	**3**
Year 4	
Fall	
Cultural Heritage Course	3
Hours	**3**
Total Hours	**18**

Learning Outcomes

- Students will be able to broadly articulate the political, cultural, and historical conditions the led to mass migration from Italy at various points in time, and the ways that Italian culture has developed and continues to take shape in the context of the Americas, with an emphasis on the Chicagoland area.
- Students will recognize the unique contributions that Italian Americans have made to U.S. history and the ways Italian immigrants and their descendants have reciprocally adapted to and had an influenced upon American society as a whole.
- Students will develop a framework for understating other American groups with similar histories, and for addressing questions related to assimilation, identity, gender, race, class and religion that continue to inform contemporary discourse on immigration.
- Students will develop a basic understanding of the historical and contemporary connections between the U.S. and Italy and between the Italian diaspora in the U.S. and the Italians residing in the homeland.
- Students will be able to describe and differentiate the religious and cultural traditions of the various regions of Italy and how they have been reinterpreted within the American context.
- Students will be able to demonstrate analytical, communications, and critical thinking skills through a variety of forms: e.g. essays, oral presentations, language acquisition, and cultural activities.

Italian Language and Literature Minor

The minor in Italian Language & Literature offers students the opportunity to master skills of language acquisition and cross-cultural communicative competence while developing multicultural awareness of Italian-speaking communities in Italy and beyond its borders. Our program prepares students to think critically, and allows them to gain knowledge of cultural expressions produced on the Italian peninsula and in its diasporas throughout the world.

For information, please contact:

Dr. Cristina Lombardi-Diop, Undergraduate Program Director
Crown Center 217
clombardidiop@luc.edu

Curriculum

A student pursuing the Minor in Italian Language and Literature is required to take six courses in Italian excluding ITAL 101 Italian I through ITAL 104 Italian IV.

Students normally take:

Code	Title	Hours
Required Courses		
ITAL 250	Composition & Conversation I	3
ITAL 251	Composition & Conversation II	3
ITAL 270	Main Currents of Italian Literature I	3
ITAL 271	Main Currents of Italian Literature II	3
Select two courses at the 300-level		6
Total Hours		**18**

Students who are fluent in the language may begin the sequence at the 270-level with the chairperson's permission.

Learning Outcomes

Upon completion of the program, students will be able to:

- Show intermediate to advanced proficiency in speaking, understanding, reading and writing skills
- Demonstrate knowledge of content areas (Italian grammar, Italian cultural expressions, Italian cinema etc.)
- Establish connections between literature, film, and society in the Italian-speaking world
- Acquire a lifelong interest and enthusiasm for Italian-speaking cultural production

Italian Language Minor

The minor in Italian Language offers students the opportunity to master skills of language acquisition and cross-cultural communicative competence while developing multicultural awareness of Italian-speaking communities in Italy and beyond its borders. Our program prepares students to think critically, and allows them to gain knowledge of cultural expressions of various level of the people of Italy and those of Italian heritage throughout the world.

For information, please contact:

Dr. Cristina Lombardi-Diop, Undergraduate Program Director
Crown Center 217
clombardidiop@luc.edu

Curriculum

Requirements

Six courses in Italian language.

Students with no previous experience in Italian will begin with:

Code	Title	Hours
Required Courses		
ITAL 101	Italian I	3

ITAL 102	Italian II	3
ITAL 103	Italian III	3
ITAL 104	Italian IV	3
ITAL 250	Composition & Conversation I	3
ITAL 251	Composition & Conversation II	3
Total Hours		**18**

Students with previous experience in Italian will begin at a higher level and then complete a total of six Italian courses, which can include literary courses such as ITAL 270 Main Currents of Italian Literature I or ITAL 271 Main Currents of Italian Literature II or 300-level courses, including ITAL 395 Internship.

Learning Outcomes

Upon completion of the program, students will be able to:

- Show intermediate to advanced proficiency in speaking, understanding, reading and writing skills
- Demonstrate knowledge of content areas (Italian grammar, Italian cultural expressions, Italian cinema etc.)
- Establish connections between literature, film, and society in the Italian-speaking world
- Acquire a lifelong interest and enthusiasm for Italian-speaking cultural production

Italian Studies (BA)

The Italian Studies Major at Loyola University Chicago is an interdisciplinary program that offers students a learning experience in the field of the humanities with a focus on broader cultural, historical, and societal contexts beyond language studies. Since antiquity, Italy has been a crossroad of civilizations connecting the ancient, medieval, and modern world of Europe and the Mediterranean. It continues to be an international cultural destination and a central passage connecting the Global North and South. For these reasons, while the mission of teaching and promoting the language and literature of Italy is at the core of our Program, the Italian Studies major extends its scope to include multiple interdisciplinary perspectives (Classics, Environmental Studies, Fine Arts, Global Studies, History, Philosophy, Theology, Music, and Sociology), placing the country, its language, and its peoples in a Mediterranean, European, and global contexts.

The Italian Studies curriculum includes courses in the Italian language; Italian literature courses both in Italian and in translation; a 300-level internship course, with the possibility of completing it with international firms in Italy; and courses in other disciplines taught at Loyola. The Italian Studies major prepares students to work in a variety of fields that require an international background and solid intercultural skills.

Curriculum

Completion of the BA in Italian degree program requires ten courses totaling 30 credits, excluding 101–104 or their equivalent.

Requirements include four 200-level courses, 312, and five additional 300-level courses chosen from the list below. Of the six 300-level courses taken, four must be literature courses.

Code	Title	Hours
Introductory Interdisciplinary Course		
LITR 161	Introduction to Italian Culture	3
Italian Language Courses [1]		
ITAL ###		3
ITAL ###		3
ITAL ###		3
ITAL ###		3
ITAL ###		3
Elective Courses		
Elective 1		3
Elective 2		3
Elective 3		3
Internship or Service Learning (Chicago or Rome)		
ITAL 395	Internship	3
Portfolio		
A senior portfolio is required for student reflection on their achievement in the major and for program assessment		
Total Hours		**30**

[1] Students take five classes in Italian after placement determined by their competency. If they have had no Italian, they begin with 101 and take the next four classes: ITAL 102, 103, 104, and ITAL 250. Students who place higher than 104 chose from ITAL 251, ITAL 270, ITAL 271, and any 300-level ITAL course to ensure that 5 of the 10 courses taken for the major are taken in the Italian language.

Teacher Education Requirements

Eleven courses totaling 33 credits, excluding 101-104, including Stylistics, Culture and Civilization and either Linguistics 120 or 125. Students in Secondary Education must also take Linguistics 302—Methods of Teaching Foreign Languages.

Departmental Honors

Students graduating with Departmental Honors take one Honors Tutorial (Italian 399) in addition to the above requirements.

Double-Dipping Policy

This department observes the CAS Double-Dipping Policy (p. 54) regarding unique credits required for each declared major/minor.

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

Upon completion of the program, students majoring in Italian Studies will be able to:

- Produce communication in the Italian language at high-intermediate/low advanced level
- Identify major themes and patterns in the historical and cultural heritage of Italy by linking its classical past to contemporary times
- Demonstrate first-hand experience of Italian culture in both academic and nonacademic settings
- Apply an intercultural perspective to professional global affairs acquired through immersion learning experiences, including an internship
- Integrate the Jesuit principles of service, inclusion, and self-knowledge into practice

These outcomes will be evidenced in the students' senior capstone project (ePortfolio).

Japanese Language and Culture Minor

Loyola's Japanese Program offers three years of Japanese language instruction, courses in Japanese literature-in-translation, and courses on Japanese film, history, culture, contemporary society, religion and art.

Curriculum

The Japanese Language and Culture minor requires students to complete 18 credit hours. **A minimum of 12 credit hours** (4 courses) **must be Japanese language courses.** The remaining 6 credit hours can be additional language courses, courses in Japanese Literature in Translation or other courses focused on Japanese society and culture.

Code	Title	Hours
Courses Satisfying the Japanese Language Requirement		
Select a minimum of four of the following:		12
JAPN 101	Japanese I	
JAPN 102	Japanese II	
JAPN 103	Japanese III	
JAPN 104	Japanese IV	
JAPN 250	Composition & Conversation I	
JAPN 251	Composition & Conversation II	
Courses Satisfying the Literature and Culture Component		
Select up to two of the following:		6
LITR 245	Asian Masterpieces (Survey of Japanese Literature)	
LITR 245	Asian Masterpieces (Identity in Modern Japan)	
LITR 245	Asian Masterpieces (Contemporary Japan)	
LITR 284	International Film (Introduction to Japanese Film)	
ANTH 215	Contemporary Japanese Culture	
FNAR 359	Japanese Art and Culture	
HIST 208	East Asia Since 1500	
HIST 349	Contemporary Global Issues: Historical Perspectives	
HIST 349A	Women in East Asia	
PHIL 335	Asian Philosophy	
THEO 297	Buddhism	
THEO 352	Topics in Buddhism	
Total Hours		**18**

Suggested Sequence of Courses

Option	Language Courses	Literature, History, Culture
1	6	0
2	5	1
3	4	2

Option 1

Language courses must be taken in sequence. The courses satisfying the Literature and Culture Component of the Japanese minor can be taken in any order. More than one Literature and Culture Component course can be taken during the same term and Language and Literature and Culture Component courses can be taken during the same semester. Terms for course offerings may vary.

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

Course	Title	Hours
Year One		
First Semester		
JAPN 101	Japanese I	3
	Hours	**3**
Second Semester		
JAPN 102	Japanese II	3
	Hours	**3**
Year Two		
Third Semester		
JAPN 103	Japanese III	3
	Hours	**3**
Fourth Semester		
JAPN 104	Japanese IV	3
	Hours	**3**
Year Three		
Fifth Semester		
JAPN 250	Composition & Conversation I	3
	Hours	**3**
Sixth Semester		
JAPN 251	Composition & Conversation II	3
	Hours	**3**
	Total Hours	**18**

Option 2

Language courses must be taken in sequence. The courses satisfying the Literature and Culture Component of the Japanese minor can be taken in any order. More than one Literature and Culture Component course can be taken during the same term and Language and Literature and Culture Component courses can be taken during the same semester.

Terms for course offerings may vary. The below grid is to be used as a suggestion on how to complete the minor.

Course	Title	Hours
Year One		
Semester I		
JAPN 101	Japanese I [1]	3
	Hours	**3**
Semester II		
JAPN 102	Japanese II [1]	3
	Hours	**3**
Year Two		
Semester III		
JAPN 103	Japanese III	3
	Hours	**3**
Semester IV		
JAPN 104	Japanese IV	3
	Hours	**3**
Year Three		
Semester V		
JAPN 250	Composition & Conversation I	3
	Hours	**3**
Semester VI		
Literature and Culture Component Elective		3
	Hours	**3**
	Total Hours	**18**

[1] Students are allowed opt out of JAPN coursework based on proficiency. Students should consult with the Japanese Language and Culture Program Director to be placed in the correct starting course for the language sequence. Should a student opt out of JAPN 101, they must take JAPN 251 to complete Option 2 sequence.

Option 3

Language courses must be taken in sequence. The courses satisfying the Literature and Culture Component of the Japanese minor can be taken in any order. More than one Literature and Culture Component course can be taken during the same term and Language and Literature and Culture Component courses can be taken during the same semester.

Terms for course offerings may vary. The below grid is to be used as a suggestion on how to complete the minor.

Course	Title	Hours
Year One		
Semester I		
JAPN 101	Japanese I [1]	3
	Hours	**3**
Semester II		
JAPN 102	Japanese II [1]	3
	Hours	**3**

JAPN 104	Japanese IV	3
	Hours	**3**
Year Three		
Semester V		
Literature and Culture Component Elective #1		3
	Hours	**3**
Semester VI		
Literature and Culture Component Elective #2		3
	Hours	**3**
	Total Hours	**18**

[1] Students are allowed opt out of JAPN coursework based on proficiency. Students should consult with the Japanese Language and Culture Program Director to be placed in the correct starting course for the language sequence. Should a student opt out of JAPN 101 and JAPN 102, they must take JAPN 250 and JAPN 251 to complete Option 2 sequence.

Study in Japan

Students minoring in Japanese are encouraged to study in Japan. Many attend our prestigious sister Jesuit school, Sophia University in Tokyo for one or two semesters. Others students have studied at Kansai Gaidai University in Osaka, and International Christian University in Tokyo. Study abroad programs are available in many parts of Japan.

Learning Outcomes

Upon completion of this program, students will be able to:

- Understand, speak, read, and write Japanese at the advanced novice level or higher
- Employ social routines used by Japanese in daily life
- Apply their knowledge and appreciation of Japanese history, culture, and society to understand the contexts in which contemporary Japanese is used
- Use the language learning skills they acquire for continuing self-directed study of Japanese

Literature in Translation Minor

Students may minor in literature in translation. The minor in literature in translation was designed for students who wish to major in a field related to literature (for example: classics, English, history or philosophy), as well as for science majors who are interested in doing concentrated work in a particular area of humanities.

Knowledge of a foreign language is not required. All courses are taught in English and cross-listed with Global and International Studies. Courses are three semester hours each and may be applied to the literature requirement of the Core Curriculum (p. 1212).

The requirements for the minor are six courses in literature in translation offered by the Department of Modern Languages and Literatures, to be chosen in consultation with the department advisor. A maximum of four courses in any one literature will be accepted toward the minor.

For students who qualify to take courses in the original language, a combination of courses in the original language and in translation will be arranged by the department.

Spanish (BA)

The BA in Spanish degree program is a lively, flexible and intellectually challenging way of developing language skills in Spanish while gaining knowledge of the literatures and cultures of Spain, Latin America, and of Hispanics in the United States. At Loyola, Spanish majors learn the essential skills and techniques with which to critically read, interpret, and write and speak about all genres of Hispanic literature and of cinema and visual arts in Spanish. In so doing, students refine their linguistic skills, and gain awareness of the complexities of the Spanish-speaking world.

Curriculum

The Spanish program has structured both the major and minor to give students a greater ability to shape their course of study according to their interests.

Spanish Major Requirements

Code	Title	Hours
Required Courses		
Select one of the following:		6
SPAN 250 & SPAN 251	Composition & Conversation I and Composition & Conversation II (for native heritage speakers)	
SPAN 252 & SPAN 253	Composition & Conversation: Native Speakers and Advanced Composition & Conversation: Native Speakers	
SPAN 270	Introduction to Critical Analysis in Spanish [1]	3
Select one of the following:		3
SPAN 271	Introduction to Iberian Literature and Culture (Spain) [1]	
SPAN 272	Introduction to Spanish American Literature and Culture (Latin America) [1]	
Any six courses at the 300-level, of which one must focus **exclusively** on Latin America and one must focus **exclusively** on Spain		18
Completion and presentation of an e-portfolio, as per program guidelines		
Total Hours		**30**

[1] Prerequisite for Spanish 300-level courses

E-Portfolio Requirement

All majors are asked to complete a e-portfolio prior to graduation for evaluative purposes. Students are encouraged to include a variety of representative assignments from their Spanish courses (syllabi, papers, exams, media files), as well as materials from creative projects, foreign travel, study abroad, or internships.

Students are also requested to prepare a brief (1-2 pages) personal statement in Spanish assessing their learning experiences in the major. Students will be responsible for assembling, updating, revising, and presenting their e-portfolios.

Click here (https://www.luc.edu/modernlang/baprograms/capstonee-portfolioontaskstreamforfrenchitalianandspanishba/) at the beginning of your major for details.

For questions about the Spanish e-portfolio requirements, please contact your assigned Spanish major advisor.

For students who declared the Spanish major or minor prior to Fall 2016

Students who declared a Spanish major or minor prior to Fall 2016 will maintain the requirements of the major **at the time declared.** Visit this page (https://www.luc.edu/modernlang/baprograms/spanish/) to view those requirements.

Starting in Fall 2016, students who declare a Spanish major or Spanish Literature minor on LOCUS are automatically enrolled in the new major/minor. Students who have already declared their major or minor **will not** be automatically upgraded to the new requirements.

Students who wish to "update" their Spanish major/minor in order to graduate under the new requirements must, **after the start of the Fall 2016 semester**, drop the Spanish major/minor and immediately declare it again.

Students with prior knowledge of Spanish

Please see information regarding the placement exam (https://www.luc.edu/modernlang/exam.shtml/) before registering for a class.

Departmental Honors

Students graduating with departmental honors have a GPA of 3.5 or higher and take one Honors Tutorial, in addition to the above requirements.

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

Upon completion of this program, graduates will be able to:

- Demonstrate familiarity with key works of Latin American and Peninsular literature.
- Demonstrate familiarity with the social and political environments of present-day Latin America and Spain.
- Have the ability to discuss literature critically.
- Understand broad historical events as they are represented, and have an impact upon, Latin American and Peninsular literature.

- Read, write, and speak Spanish fluently.
- Have the ability to sustain a coherent discussion of complex ideas in both oral and written Spanish.
- Comprehend the social and historical function and significance of literature, culture, and art in Spain and Latin America, and more broadly.

Spanish Language and Literature Minor

The minor in Spanish Language and Literatures offers students the opportunity to master skills of language acquisition and textual analysis while developing multicultural awareness of the diversity inherent in Spanish-speaking communities. Our program prepares students to think critically, and allows them to gain knowledge of literary and cultural expressions of Latin America, Spain, and the Latino/a and Hispanic communities in the United States.

Curriculum

Requirements

Six courses in Spanish excluding SPAN 101 Spanish I through SPAN 104 Spanish IV. Students normally take:

Code	Title	Hours
Required Courses		
SPAN 250	Composition & Conversation I	3
or SPAN 252	Composition & Conversation: Native Speakers	
SPAN 251	Composition & Conversation II	3
or SPAN 253	Advanced Composition & Conversation: Native Speakers	
SPAN 270	Introduction to Critical Analysis in Spanish	3
SPAN 271	Introduction to Iberian Literature and Culture	3
or SPAN 272	Introduction to Spanish American Literature and Culture	
Select two courses at the 300 level		6
Total Hours		**18**

Students who are fluent in the language may begin the sequence at the 270-level with the chairperson's permission.

Learning Outcomes

Upon completion of the program, students will be able to:

- Show proficiency in speaking, understanding, reading and writing skills
- Develop and sustain a coherent argument in both oral and written Spanish
- Demonstrate knowledge of content areas (literary movements, linguistics, grammar, etc.)
- Understand the principle characteristics which define diverse Hispanic histories and cultures
- Trace change over time in literary styles and cultural values
- Examine and interpret numerous literary texts in order to better comprehend the representations of cultural identity and make cross-cultural, intercultural connections
- Establish connections between literature, film, and history in the Spanish-speaking world
- Attain better cultural competency
- Foster a lifelong interest and enthusiasm for Spanish-speaking cultural production

Spanish Language Minor

Program Objectives

Spanish language minor objectives are based on the National Standards for Foreign Language Learning and on the ACTFL Proficiency guidelines. With the introductory to intermediate level courses required in the language minor students can expect to develop an intermediate-high level of proficiency. These goals are integrated into all individual courses as well as the Spanish program in its entirety.

Curriculum

Six courses in Spanish will be selected by the student in consultation with the departmental advisor. Students with no background in Spanish will begin the sequence with SPAN 101 Spanish I. Students with high school or other background language will be placed in SPAN 102 Spanish II, SPAN 103 Spanish III or SPAN 104 Spanish IV.

Learning Outcomes

- Content Knowledge: Students acquire linguistic and cultural knowledge in the beginning sequence courses that pertain to the countries where the language is spoken.
  - Students use the linguistic system (grammar and vocabulary) to relate to and expand their knowledge in reference to daily routines, university life, art, music, travel, family relationships and medical treatments.
  - Students will apply these concepts to the Spanish speaking countries studied and reflect upon their own cultural comparisons made through the learning process.
- Communication: Our communicative teaching approach provides the ideal basis for students to learn the language via the four communication skills essential to proficiency that include reading, writing, listening and speaking.
  - Students will engage in conversations, provide and obtain information and express themselves orally in reference to society, free time activities and everyday experiences in work and study.
  - Students will present information, concepts, and ideas to an audience of listeners or readers on health, Hispanic arts, travel, job skills, environmental issues and relevant immigration topics that inspire reflections related to the reading passages used in the courses.
  - Students will talk about future plans and hypothetical situations related to the today's society and the Spanish speaking world, express feelings and emotions, exchange opinions, express wishes and recommendations.
- Critical Thinking and Analysis: The move from using the linguistic system in basic conversation towards reading, analyzing and interpreting written texts will help develop more formal competency at the intermediate level.
  - Students will gain interpretive and analytic skills through the close readings of short stories, articles, poems and songs to acquire cultural knowledge of important historical concepts, social justice issues, cultural traditions and overall relevant themes in many Spanish speaking countries.

- Students will improve writing skills in Spanish through attention to the principles and techniques of composition, and through the editing of their own work.

- Civic engagement and study abroad opportunities Students acquire intercultural competency which includes an awareness and appreciation of diverse Hispanic cultures and communities.
  - Students will engage in social and environmental issues via audio-visual resources and study abroad opportunities.
  - Students are encouraged to research and lead class discussions on cultural topics related to politics, history, geography, literature and films.

Neuroscience

The Interdisciplinary Neuroscience Majors and Minor

The Interdisciplinary Neuroscience Majors and Minor provide students with an unusual flexibility. For students committed to in-depth neuroscience education, they can major in either of two tracks: a cognitive/behavioral track that emphasizes the outcome of neural processing and circuit level mechanisms supporting cognition and behavior, and a molecular/cellular track that emphasizes the genetic, biochemical, and cell biological underpinnings of the development and function of the nervous system. Students who wish to focus on another area of study, but gain substantial exposure to the field of neuroscience, may minor in neuroscience. All three options require three courses in neuroscience fundamentals: Introduction to Neuroscience, Neurobiology, and Behavioral and Cognitive Neuroscience. After completing these courses, students may choose among numerous upper-level lecture and lab courses that span the field. In addition, there are currently 20 neuroscientists among the LUC Lake Shore Campus faculty, providing opportunities for independent undergraduate research. Neuroscientists at the LUC Medical Center give talks each year at the Lake Shore Campus, and students are also welcome to arrange research internships with medical school faculty. For additional information, please contact:

Dr. Eric W. Gobel, egobel@luc.edu *Director, Cognitive/Behavioral Neuroscience*

Dr. Bill Rochlin, wrochli@luc.edu *Director, Molecular/Cellular Neuroscience*

Undergraduate Programs

- Cognitive and Behavioral Neuroscience (BS) (p. 516)
- Molecular and Cellular Neuroscience (BS) (p. 518)
- Neuroscience Minor (p. 519)

Neuroscience Department Policies

Double-Dipping with Other Majors/Minors

For students in either track of the Neuroscience Major or the Neuroscience Minor, any courses taken that count toward their Neuroscience Major/Minor may also count toward the following majors and minors:

- BS in Biology (BIOL-BS) (p. 283)
- BS in Biology with Ecology Emphasis (BIOE-BS) (p. 287)
- BS in Biology with Molecular Emphasis (BIOM-BS) (p. 289)
- BS in Psychology (PSYC-BS) (p. 593)
- Minor in Biology (BIOL-MINR) (p. 286)
- Minor in Psychology (PSYC-MINR) (p. 596)

Students may not double-major in both tracks of the Neuroscience Major or combine the Neuroscience Major with the Neuroscience Minor. For all other majors/minors, the CAS Academic Council's double-dipping policy (p. 54) shall apply.

Undergraduate Policies and Procedures

Please see Undergraduate Policies and Procedures (p. 2050) for academic policies that supersede those of academic units within the University.

Neuroscience (NEUR)

NEUR 101 Introduction to Neuroscience (3 Credit Hours)
Pre-requisites: None; Recommended: BIOL 101 and PSYC 101
This course will introduce students to basic concepts and the variety of topics in the field of neuroscience, including neuroanatomy (gross and cellular), physiology, neural basis of behavior, malfunctions due to disease and injury, and methods used to study these areas laying a foundation for advanced coursework in neuroscience.
Interdisciplinary Option: Neuroscience
Course equivalencies: X-BIOL 202/PSYC202/NEUR 101
Outcomes:
Knowledge of the organization of the nervous system, cellular events that underlie emotions, learning, and behavior, and awareness of classical and modern methods for advancing the field

NEUR 300 Seminar in Neuroscience (1 Credit Hour)
Pre-requisites: NEUR 101 with grade of C- or better
The seminar introduces students to the interdisciplinary nature of modern neuroscience with an emphasis on the various neuroscience research activities that take place at Loyola University Chicago, and reviews current neuroscience research topics. NEUR 300 is cross-listed with BIOL 303.
Interdisciplinary Option: Neuroscience
Course equivalencies: X-BIOL303/NEUR300
Outcomes:
Students will demonstrate understanding of the interdisciplinary and multidisciplinary nature of modern neuroscience, and the research questions and experimental approaches used at the Lakeshore and Medical Center campuses; Students will complete one midterm essay and one final essay exam that will reflect their understanding of the topics discussed in the seminars

NEUR 301 Laboratory in Neuroscience I (4 Credit Hours)
Pre-requisites: NEUR 101, BIOL 251; and students must be either a Molecular/Cellular Neuroscience Major, a Cognitive/Behavioral Neuroscience major, or a Neuroscience Minor
Students will be trained in various anatomical, physiological, behavioral, and neurobiological modeling techniques used to study the nervous system and the brain in the laboratory. This course is cross-listed as NEUR 301 & PSYC 388.
Interdisciplinary Option: Neuroscience
Course equivalencies: X-NEUR301/PSYC388/BIOL373
Outcomes:
Students will demonstrate understanding of several research designs and methodologies of use in neuroscience research and will gain experience with basic neuroscience laboratory techniques

NEUR 302 Laboratory in Neuroscience II (3 Credit Hours)
Pre-requisites: NEUR 301
Students will receive additional training and experience in specialized laboratory methods and techniques used by Loyola faculty in their Neuroscience research. This experience will help prepare them to contribute creatively to neuroscience research. Students will be assessed as to the quality of 3 items: 1) a written proposal for the independent research project; 2) a 'meeting quality' scientific poster; and 3) a written 'publication quality' scientific paper summarizing the work done for the independent research project.
Interdisciplinary Option: Neuroscience
Course equivalencies: X-BIOL374/NEUR302/PSYC389
Outcomes:
Students will have the opportunity to conduct independent research projects in faculty and student laboratories

Cognitive and Behavioral Neuroscience (BS)

The B.S. in Cognitive/Behavioral Neuroscience focuses on the neural substrates of cognitive processes and behavior, utilizing methods from cognitive psychology, behavioral analysis, psychobiology, and computer science to account for empirical data about the brain.

Our neuroscience majors are designed to provide both breadth and depth to the neuroscience knowledge base of our students, and afford ample opportunities for developing creative and critical thinking skills needed to advance neuroscience (or any other life science field).

Curriculum

Code	Title	Hours
Basic Science and Math Foundations		
PSYC 101	General Psychology	3
BIOL 101	General Biology I	3
BIOL 111	General Biology I Lab	1
BIOL 102	General Biology II	3
BIOL 112	General Biology II Lab	1
Select one of the following three sets of classes:		4
CHEM 101 & CHEM 111	General Chemistry A Lecture/Discussion and General Chemistry Lab A	
CHEM 160 & CHEM 161	Chemical Structure and Properties and Chemical Structure and Properties Laboratory	
CHEM 105	Chemical Principles	
Select one of the following three sets of classes:		4
CHEM 102 & CHEM 112	General Chemistry B Lecture/Discussion and General Chemistry Lab B	
CHEM 180 & CHEM 181	Chemical Reactivity I and Chemical Reactivity I Lab	
CHEM 106	Basic Inorganic Chemistry	
BIOL 251	Cell Biology	3
BIOL 282	Genetics	3
BIOL 252	Cell Biology Laboratory	1
or BIOL 283	Genetics Laboratory	
MATH 131	Applied Calculus I	3
or MATH 161	Calculus I	
Select one of the following two sets of classes:		4
PHYS 111 & 111L	College Physics I Lec / Dis and College Physics Laboratory I	
PHYS 125 & 125L	General Physics I Lec/Dis and General Physics Laboratory I	
Select one of the following three sets of classes:		4
PHYS 112 & 112L	College Physics II Lec/Disc and College Physics Lab II	
PHYS 122 & PHYS 112L	College Physics II Lec/Dis and College Physics Lab II	
PHYS 126 & 126L & 126F	General Physics II Lec/Dis and General Physics Laboratory II and Freshman Projects	
BIOL 335 / STAT 335	Intro to Biostatistics	3
or PSYC 304	Statistics	
Neuroscience Foundations Courses		
NEUR 101	Introduction to Neuroscience	3
BIOL 362	Neurobiology	3
PSYC 382 / BIOL 284	Behavorial and Cognitive Neuroscience	3
Cognitive/Behavioral Neuroscience Track		
Cognitive/Behavioral Neuroscience Specialty Areas Courses		
PSYC 306	Research Methods in Psychology	3
Select one of the following Computer Science options:		3
COMP 150	Introduction to Computing	
COMP 170	Introduction to Object-Oriented Programming	
COMP 180	Computing and Data Analysis for the Sciences	
DSCI 101	Fundamentals of Modern Data Science with R	
NEUR 300 / BIOL 303	Seminar in Neuroscience	1
Cognitive/Behavioral Neuroscience Lecture Electives		
Select three of the following:		9
BIOL 320	Animal Behavior	
BIOL 351	Sleep/Circadian Rhythms	
BIOL 352	Neurobiology of Feeding in Health and Disease	
BIOL 357	Neural Disease, Degeneration, and Regeneration	
BIOL 395	Special Topics in Biology (if topics is Cellular and Gross Functional Neuroanatomy)	
COMP 386	Computational Neuroscience	
PSYC 240 / BIOL 240	Psychology-Biology of Perception	
PSYC 251	Learning and Memory	
PSYC 332	Affective Neuroscience	
PSYC 350	Developmental Cognitive Neuroscience	
PSYC 352	Neuropsychology	
PSYC 355 / PHIL 355	Neuroethics	
PSYC 378	Drugs and Behavior	
Cognitive/Behavioral Neuroscience Lab Electives		
Select two of the following:		5-7
NEUR 301 / BIOL 373 / PSYC 388	Laboratory in Neuroscience I	

PSYC 311 / BIOL 313	Lab in Psychobiology	
PSYC 312	Lab in Cognitive Neuroscience	
PSYC 313	Lab in Behavioral Neuroscience	
PSYC 314	Lab in Experimental Psychology: Cognition	
PSYC 316	Lab in Experimental Psychology: Sense & Perception	
BIOL 395L	Special Topics Laboratory (if topics is neuroanatomy)	
May include one of the following independent research options:		
PSYC 397	Independent Research (with a Cognitive/Behavioral focus)	
PSYC 369 / PSYC 370	Psychology Honors Readings (with a Cognitive/Behavioral focus)	
BIOL 396	Research (with a Cognitive/Behavioral focus)	
Cognitive/Behavioral Neuroscience Capstone		
PSYC 387	Seminar in Behavorial and Cognitive Neurosciences	3
Total Hours		**73-75**

Undergraduate Research

Neuroscience students have numerous opportunities to conduct scientific research in the labs of our neuroscience-affiliated faculty at Loyola's Lake Shore Campus (https://www.luc.edu/neuroscience/aboutus/facultydirectoryandresearch/#den422313), in the labs of other faculty on any of Loyola's campuses, or at other institutions in the Chicago area. Depending on the applicability of the research project to the student's Neuroscience Major or Minor, independent research may be able to qualify for course credit as one of the required specialty labs (see below).

Cognitive/Behavioral Neuroscience Majors Research Credit

Cognitive/Behavioral Neuroscience (NRCB) majors can earn specialty lab credit for conducting **independent research that has a neuroscience or cognitive/behavioral focus** in labs within the psychology or biology departments. Your research project must be approved by the NRCB Director for NRCB credit through one of the 3-credit courses below:

- PSYC 397 Independent Research (relevant research with faculty in Psychology)
- PSYC 369 Psychology Honors Readings/PSYC 370 Psychology Honors Research (relevant research with faculty in Psychology for NRCB credit; additionally must use neuroscientific technique if desire NRCB Honors)
- BIOL 396 Research (relevant research with faculty in Biology)

Please contact the NRCB Director for questions about earning credit from cognitive/behavioral or neuroscience-related research in other departments (e.g., computer science, engineering, chemistry) or at other institutions.

Course Objectives

Because the nervous system is the organ for behavior, neuroscience cuts across traditional fields in the biological and behavioral sciences. Owing to this breadth, we have designed two major tracks for students who wish to focus on neuroscience in their course of study at LUC. Completing either of these options will prepare students well for a variety of careers, including but not limited to medicine and life sciences research, particularly in neuroscience-related fields. Both options require at least two semesters of courses in biology, chemistry, and physics.

Lecture Course Objectives

Both of the majors require three courses in neuroscience fundamentals: NEUR 101 (https://catalog.luc.edu/search/?P=NEUR%20101) Introduction to Neuroscience, BIOL 362 (https://catalog.luc.edu/search/?P=BIOL%20362) Neurobiology (which stresses cellular and electrophysiological mechanisms of neural function), and PSYC 382 (https://catalog.luc.edu/search/?P=PSYC%20382)/BIOL 284 (https://catalog.luc.edu/search/?P=BIOL%20284) Behavioral and Cognitive Neuroscience (which stresses the neural substrates underlying mental processing and behavior). After completing this sequence, majors can design their own course of study within cognitive/behavioral or molecular/cellular neuroscience. There is some overlap in the list of lecture courses from which students may choose to complete their elective requirements, but there is also great diversity in the topics that are available in each major track.

Lab Course Objectives

Aside from first-year labs in chemistry and biology, and organic chemistry lab for molecular/cellular neuroscience majors, neuroscience majors choose their own lab experiences. Because the nervous system is cellular, computational, and a control center, the range of techniques that are useful is extremely broad, from cellular/molecular to behavioral, and the student can decide which techniques will be most helpful in answering the questions they want to address. Students who are interested in conducting independent neuroscience research have several neuroscience labs from which to choose, and may also seek permission to carry out a neuroscience-relevant project in a lab that is not focused on neuroscience. Independent research is the best preparation for doctoral programs, and is also regarded highly by medical, dental and other life science professional schools. For this reason, getting an independent research position in a lab is competitive.

Seminar Courses

There are three seminar style courses available to neuroscience undergraduates. In these courses, students tackle the primary literature and react to seminars given by neuroscientists on their research. Cognitive/Behavioral Neuroscience majors are required to take the 1-credit hour NEUR 300 (https://catalog.luc.edu/search/?P=NEUR%20300) Seminar in Neuroscience course, providing basic exposure to the primary literature and a wide range of research talks. Both major tracks culminate with a required capstone seminar class, which immerses the students in the primary literature and encourages development of critical thinking and presentation skills.

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are

not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Molecular and Cellular Neuroscience (BS)

The B.S. in Molecular/Cellular Neuroscience focuses on the genetic, biochemical, and electrophysiological underpinnings of the development, function, plasticity, pathology, and repair of the nervous system.

Our neuroscience majors are designed to provide both breadth and depth to the neuroscience knowledge base of our students, and afford ample opportunities for developing creative and critical thinking skills needed to advance neuroscience (or any other life science field).

Curriculum

Code	Title	Hours

Molecular/Cellular Neuroscience Track		
Molecular/Cellular Neuroscience Specialty Area Courses		
One additional year of Chemistry lectures is required:		6-8
CHEM 221 & CHEM 222	Organic Chemistry I Lec/Disc and Organic Chemistry II Lec/Disc	
CHEM 223 & CHEM 224	Organic Chemistry A Lec/Disc and Organic Chemistry B Lec/Disc	
CHEM 240 & CHEM 260	Chemical Reactivity II and Quantitative Methods in Chemistry	
Molecular/Cellular Neuroscience Lecture Electives		
Select three of the following:		9
NEUR 300	Seminar in Neuroscience	
PSYC 240 / BIOL 240	Psychology-Biology of Perception	
BIOL 307	Biology of Stem Cells	
BIOL 351	Sleep/Circadian Rhythms	
BIOL 352	Neurobiology of Feeding in Health and Disease	
BIOL 357	Neural Disease, Degeneration, and Regeneration	
BIOL 358	Developmental Neurobiology	
CHEM 361 & BIOL 366	Principles of Biochemistry and Cell Physiology & Biochemistry	
or CHEM 370	Biochemistry I	
BIOL 381	Epigenetics	
BIOL 382	Molecular Genetics	
BIOL 395	Special Topics in Biology (Special Topics in Biology, Cellular and Gross Functional Neuroanatomy, other 395's do not count)	
COMP 386	Computational Neuroscience	
PSYC 378	Drugs and Behavior	
Molecular/Cellular Neuroscience Lab Electives		
Select two of the following:		3-8
BIOL 283	Genetics Laboratory	
or BIOL 252	Cell Biology Laboratory	
NEUR 301 / BIOL 373 / PSYC 388	Laboratory in Neuroscience I	
BIOL 313 / PSYC 311	Lab in Psychobiology	
or PSYC 316	Lab in Experimental Psychology: Sense & Perception	
BIOL 315	Introductory Immunology Lec/Lab	
BIOL 366L	Cell Physiology & Biochemistry Lab	
or CHEM 372	Biochemistry Laboratory I	
BIOL 367	Bioimaging	

BIOL 390	Molecular Biology Laboratory	
BIOL 395L	Special Topics Laboratory (If offered: Bacterial Genomics, other 395's do not count)	
May include one of the following independent research options:		1-6
BIOL 396	Research	
BIOL 398	Internship in Biology	
CHEM 300	Undergraduate Research	
Molecular/Cellular Neuroscience Capstone		
BIOL 376	Seminar in Molecular/Cellular Neuroscience	3
or BIOL 358	Developmental Neurobiology	
Total Hours		**71-83**

Undergraduate Research

Neuroscience students have numerous opportunities to conduct scientific research in the labs of our neuroscience-affiliated faculty at Loyola's Lake Shore Campus (https://www.luc.edu/neuroscience/aboutus/facultydirectoryandresearch/#den422313), in the labs of other faculty on any of Loyola's campuses, or at other institutions in the Chicago area. Depending on the applicability of the research project to the student's Neuroscience Major or Minor, independent research may be able to qualify for course credit as one of the required specialty labs (see below).

Molecular/Cellular Neuroscience Majors Research Credit

Molecular/Cellular Neuroscience (NRMC) majors can earn specialty lab credit for conducting **independent research that has a molecular/cellular focus** in labs within the biology department or at an appropriate external internship site. Please see the Specialty lab credit for independent research–NRMC document on the Neuroscience program website (https://www.luc.edu/neuroscience/undergraduateresearch/) for a more thorough explanation of earning NRMC credit through one of the 3-credit courses below:

- BIOL 396 Research (relevant research with faculty in Biology)
- BIOL 398 Internship in Biology (relevant research at an external site)

Please contact the NRMC Director for questions about earning credit from molecular/cellular or neuroscience-related research in other departments (e.g., chemistry, psychology).

Course Objectives

Because the nervous system is the organ for behavior, neuroscience cuts across traditional fields in the biological and behavioral sciences. Owing to this breadth, we have designed two major tracks for students who wish to focus on neuroscience in their course of study at LUC. Completing either of these options will prepare students well for a variety of careers, including but not limited to medicine and life sciences research, particularly in neuroscience-related fields. Both options require at least two semesters of courses in biology, chemistry, and physics.

Lecture Course Objectives

After completing this sequence, majors can design their own course of study within cognitive/behavioral or molecular/cellular neuroscience. There is some overlap in the list of lecture courses from which students may choose to complete their elective requirements, but there is also great diversity in the topics that are available in each major track.

Lab Course Objectives

Aside from first-year labs in chemistry and biology, and organic chemistry lab for molecular/cellular neuroscience majors, neuroscience majors choose their own lab experiences. Because the nervous system is cellular, computational, and a control center, the range of techniques that are useful is extremely broad, from cellular/molecular to behavioral, and the student can decide which techniques will be most helpful in answering the questions they want to address. Students who are interested in conducting independent neuroscience research have several neuroscience labs from which to choose, and may also seek permission to carry out a neuroscience-relevant project in a lab that is not focused on neuroscience. Independent research is the best preparation for doctoral programs, and is also regarded highly by medical, dental and other life science professional schools. For this reason, getting an independent research position in a lab is competitive.

Seminar Courses

There are three seminar style courses available to neuroscience undergraduates. In these courses, students tackle the primary literature and react to seminars given by neuroscientists on their research. Molecular/Cellular Neuroscience majors are invited to take the 1 credit hour NEUR 300 (https://catalog.luc.edu/search/?P=NEUR%20300) Seminar in Neuroscience course, providing basic exposure to the primary literature and a wide range of research talks. Both major tracks culminate with a required capstone seminar class, which immerses the students in the primary literature and encourages development of critical thinking and presentation skills.

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Neuroscience Minor

Curriculum

The interdisciplinary Minor in Neuroscience requires seven courses (17-20 credit hours), including four required courses (three foundational

lecture courses and one seminar), at least two neuroscience lab courses, and one additional neuroscience lecture or lab course.

The following are required courses for the Interdisciplinary Neuroscience Minor:

Code	Title	Hours
Required Interdisciplinary Neuroscience Courses		
NEUR 101	Introduction to Neuroscience [1]	3
BIOL 362	Neurobiology	3
PSYC 382 / BIOL 284	Behavorial and Cognitive Neuroscience	3
NEUR 300	Seminar in Neuroscience [2]	1
Required Laboratory Experience		
Select two of the following:		4-8
BIOL 373 / NEUR 301 / PSYC 388	Laboratory in Neuroscience I	
BIOL 366L	Cell Physiology & Biochemistry Lab	
BIOL 390	Molecular Biology Laboratory	
BIOL 395L	Special Topics Laboratory	
PSYC 311 / BIOL 313	Lab in Psychobiology	
PSYC 312	Lab in Cognitive Neuroscience	
PSYC 313	Lab in Behavioral Neuroscience	
PSYC 314	Lab in Experimental Psychology: Cognition	
PSYC 316	Lab in Experimental Psychology: Sense & Perception	
May include one of the following independent research options:		
PSYC 397	Independent Research (with a Cognitive/ Behavioral focus)	
PSYC 369 / PSYC 370	Psychology Honors Readings (with a Cognitive/ Behavioral focus)	
BIOL 396	Research (with a Molecular/Cellular or Cognitive/ Behavioral focus)	
Electives		
Select one of the following lectures or an additional lab course:		3
BIOL 320	Animal Behavior	
BIOL 358	Developmental Neurobiology	
BIOL 351	Sleep/Circadian Rhythms	
BIOL 352	Neurobiology of Feeding in Health and Disease	
BIOL 357	Neural Disease, Degeneration, and Regeneration	
BIOL 395	Special Topics in Biology (when topic is related to neuroscience)	
COMP 386	Computational Neuroscience	
PSYC 240 / BIOL 240	Psychology-Biology of Perception	
PSYC 251	Learning and Memory	
PSYC 332	Affective Neuroscience	
PSYC 350	Developmental Cognitive Neuroscience	
PSYC 352	Neuropsychology	
PSYC 378	Drugs and Behavior	
Total Hours		**17-21**

1 Note: NEUR 101 Introduction to Neuroscience was formerly BIOL 202/ PSYC 202

2 Neuroscience minors enrolled in independent research in Biology or Psychology with a neuroscientist are not required to take NEUR 300 Seminar in Neuroscience.

Undergraduate Research

Neuroscience students have numerous opportunities to conduct scientific research in the labs of our neuroscience-affiliated faculty at Loyola's Lake Shore Campus (https://www.luc.edu/neuroscience/aboutus/facultydirectoryandresearch/#den422313), in the labs of other faculty on any of Loyola's campuses, or at other institutions in the Chicago area. Depending on the applicability of the research project to the student's Neuroscience Major or Minor, independent research may be able to qualify for course credit as one of the required specialty labs (see below).

Neuroscience Minor Research Credit

Neuroscience minors can earn NRSC specialty lab credit for conducting **independent research that has a neuroscience, cognitive/behavioral, or molecular/cellular focus** in labs within the psychology or biology departments or at an appropriate external internship site. Your research project must be approved by the NRSC Co-Directors for NRSC credit through one of the 3-credit courses below:

- BIOL 396 Research (relevant research with faculty in Biology)
- BIOL 398 Internship in Biology (relevant research at an external site)
- PSYC 397 Independent Research (relevant research with faculty in Psychology)
- PSYC 369 Psychology Honors Readings/PSYC 370 Psychology Honors Research (relevant research with faculty in Psychology)

Please contact the NRSC Co-Directors for questions about earning credit from cognitive/behavioral, molecular/cellular, or neuroscience-related research in other departments (e.g., computer science, engineering, chemistry).

Other Interdisciplinary Studies Minors

Undergraduate Programs

- Asian Studies Minor (p. 521)
- Bioethics Minor (p. 522)
- Catholic Studies Minor (p. 524)
- European Studies Minor (p. 527)
- Interreligious and Interfaith Studies Minor (p. 530)
- Islamic World Studies Minor (p. 530)
- Latin American and Latino Studies Minor (p. 531)
- Medieval Studies Minor (p. 532)
- Peace, Justice and Conflict Studies Minor (p. 533)
- Polish Studies Minor (p. 533)
- Psychology of Crime and Justice Minor (p. 535)
- Race & Ethnicity Interdisciplinary Minor (p. 535)
- Shakespeare Studies Minor (p. 536)
- Sociolegal Studies Minor (p. 537)

- Urban Studies Minor (p. 538)
- Urban Studies Sustainability Minor (p. 539)

Undergraduate Policies and Procedures

Please see Undergraduate Policies and Procedures (p. 2050) for academic policies that supersede those of academic units within the University.

Asian Studies Minor

Whether you want to gain advantage in the international world of business, explore your own Asian heritage, study Asian medical systems, or simply learn more about this fascinating part of the world, choosing to minor in Asian studies is a wise move. The Asian studies minor effectively complements a variety of majors, including anthropology, history, fine arts, political science, sociology, literature, theology, marketing and finance. Students who plan to continue their studies with an advanced degree in Asian studies or a related field can lay the educational groundwork here at Loyola University Chicago.

Our society is becoming increasingly more global and ethnically diverse. Asians in the American labor force are expected to triple to 10 million within the next 30 years. Asian businesses have become transnational leaders in the fields of international trade, finance and technology. One way that will help ensure your future success is to augment your educational experience now with a minor in Asian studies.

Curriculum

Code	Title	Hours
Required Courses		
ASIA 101	Explorations in Asian Studies [1]	3
Required Elective Courses		**15**
Two (2) courses must be taken at the 300-level.		
Total Hours		**18**

[1] At this time and for the foreseeable future, ASIA 101 Explorations in Asian Studies requirement is being waived. You still need to take 18 credit hours of Asian Studies courses.

Courses in Asian languages are not required but may count towards the required coursework.

Cross-Listed Course Offerings

The following courses are to be used toward elective requirements. Students should consult an advisor before registering for courses for the minor.

Code	Title	Hours
ANTH 100	Globalization and Local Cultures	3
ANTH 215	Contemporary Japanese Culture	3
CHIN 101	Chinese I	3

Transfer-Student Residency Requirement

At least 9 credit hours of ASIA-MINR requirements must be completed at Loyola.

Double-Dipping Policy

This department observes the CAS Double-Dipping Policy (https://www.luc.edu/cas/double-dippingpolicy/) regarding unique credits required for each declared major/minor. Not less than 9 credit hours in the individual student's transcript must be unique to each minor; that is, the courses in question are considered as actually fulfilling requirements of one minor, not of more than one minor or major.

For more information on the Asian Studies Minor, please contact the Asian studies director:

Dr. John Pincince, Director of Asian Studies
Department of History, Crown Center, 5th Floor
Loyola University Chicago
1032 W. Sheridan Road
Chicago, Illinois 60660

Phone: 773.508.2238

Learning Outcomes

The Asian Studies minor is an interdisciplinary program of study, which incorporates the diversity of disciplinary approaches and geo-political areas of interest. The minor seeks to introduce students to the rich variety of places, peoples, histories, relations, cultures, polities, environments with an emphasis on not only a singular nation-state, but to consider as well transnational, regional, and global connectivities.
Essential to developing, expanding, and enriching the process of learning, Asian Studies minors will demonstrate a knowledge and skills development in different ways:

- Students will be able to articulate broadly the history of Asia or a particular Asian region.
- Students will be develop an understanding of political experiences and forms of Asia/Asian region.
- Students will be able to reflect on the interaction among and between Asian societies, historically and/or contemporaneously.
- Students will develop basic understanding of the historical and contemporary connections of Asia/Asian region with the rest of the world (and expansively post-1500CE).
- Students will be able to describe and differentiate various Asian religious traditions
- Students will be able to articulate values of diversity, justice, and multi-culturalism in Asian and the rest of the world
- Students will be able to demonstrate analytical, communications, and critical thinking skills through a variety of forms, textual, performative, and experiential: e.g. essays, oral presentations, language acquisition, cultural immersion (study/internships abroad), artistic.

Bioethics Minor

Overview

The interdisciplinary minor in bioethics encompasses work in the fields of biology, natural science, philosophy, sociology and theology. It enables students to study topics in which the life sciences and ethics converge, such as: biological and chemical weapons, human stem cell research, global warming, human and animal experimentation, pollution, genetic screening and gene therapy, and human population growth.

The bioethics minor helps to prepare students for a range of future careers, or for advanced study in the health professions, the sciences, teaching, law, journalism, ministry, research, government or social work. For many students, the study of bioethics not only deepens their understanding of science and its impact on our lives, but also strengthens their ability to think broadly and critically, and to better see the vital integration of science and technology with individuals and the world around us.

Curriculum

Requirements

The minor in bioethics requires at least seven courses completed with a grade of "C" or better. The science requirement is satisfied by taking either four courses in Biology or three courses in the Natural Sciences. The Ethics requirement is satisfied by 1) completing the foundational course (PHIL 284 Health Care Ethics); 2) taking two elective courses (one at the 300-level); and 3) one interdisciplinary capstone course (BIET 395A, BIET 395B, BIET 395C, BIET 395E, BIET 396A, BIET 396B, BIET 396C, or BIET 396E). See below for more detailed information about which specific courses satisfy these requirements.

Please note that one of the three ethics courses must be taken at the 300-level. This is in addition to BIET 395A,B,C, or E or BIET 396A,B,C, or E one of the three ethics courses must be a 300-level course.

Code	Title	Hours
Science Requirement		
Students choose choose either Biology or Natural Sciences courses to fulfill the Science requirement.		8-9
Biology (BIOL) Courses		
All four (4) courses are required		
BIOL 101	General Biology I	
BIOL 111	General Biology I Lab	
BIOL 102	General Biology II	
BIOL 112	General Biology II Lab	
Natural Sciences Courses		
Choose three (3) of the following:		
ANTH 101	Human Origins	
ANTH 103	Biological Background Human Social Behavior	

ANTH 104	The Human Ecological Footprint	
ANTH 105	Human Biocultural Diversity	
ANTH 106	Sex, Science and Anthropological Inquiry	
ANTH 280	Evolution of Human Disease

ENVS 385	Introduction to Global Health	
ENVS 387	Principles of Ecotoxicology	
Ethics Requirement		
Foundations Course		
PHIL 284	Health Care Ethics	3
Choose two (2) additional Ethics courses from the list below, one of which must be 300-level:		6
Philosophy		
PHIL 287	Environmental Ethics	
PHIL 324	Topics in Ethics (Topic must be related to Bioethics)	
PHIL 355	Neuroethics	
PHIL 369	Philosophy of Medicine	
PHIL 389	Contemporary Issues (Topic must be related to Bioethics)	
PHIL 398	Capstone Seminar in Contemporary Philosophy (Topic must be related to Bioethics)	
Theology		
THEO 192	Topics in Moral Problems (Topic must be related to Bioethics)	
THEO 204	Religious Ethics and the Ecological Crisis	
THEO 342	Perspectives on Life and Death	
THEO 343	Contemporary Christian Sexuality	
THEO 344	Theology and Ecology	
THEO 393	Seminar (Topic must be related to Bioethics)	
Health Systems Management		
HSM 110	Healthcare in America	
HSM 210	Introduction to Global Healthcare Delivery	
HSM 220	Continuum of Healthcare Services	
HSM 230	Fundamentals of Health Equity	
Psychology		
PSYC 235	Psychology of Human Sexuality	
PSYC 238	Gender & Sex Differences & Similarities	
PSYC 373	Health Psychology	
Sociology		
SOCL 226	Science, Technology, & Society	
SOCL 225	Sociology of Health Care	
SOCL 270	Sociology of Science [1]	
SOCL 272	Environmental Sociology	
SOCL 278	Global Health	
Interdisciplinary Capstone Course		
BIET 395A	Bioethics Minor Capstone: Philosophical & Anthropological Topics [2]	3
or BIET 395B	Bioethics Minor Capstone: Philosophical & Biological Topics	
or BIET 395C	Bioethics Minor Capstone: Philosophical and Chemical Topics	
or BIET 395E	Bioethics Minor Capstone: Philosophical & Environmental Science Topics	
or BIET 396A	Bioethics Minor Capstone: Theological & Anthropological Topics	
or BIET 396B	Bioethics Minor Capstone: Theological and Biological Topics	
or BIET 396C	Bioethics Minor Capstone: Theological and Chemical Topics	
or BIET 396E	Bioethics Minor Capstone: Theological & Environmental Science Topics	
Total Hours		**20-21**

[1] These courses count only when they address topics in bioethics.

[2] For example: Environmental Ethics; HIV/AIDS; Reproduction & Reproductive Technologies, Death & Dying, Neuroscience & Neuroethics). Prerequisites: Must have completed two of the science requirements and two of the ethics requirements.

Suggested Sequence of Courses

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

	Total Hours	**21**

Double-Dipping Policy

- Students may not major and minor in the same discipline.
- Majors: Not less than 21 credit hours in the individual student's transcript must be unique to each major; that is, the courses in question are considered as actually fulfilling requirements of one major, not of more than one major.
- Minors and interdisciplinary minors: not less than 8 credit hours in the individual student's transcript must be unique to each minor; that is, the courses in question are considered as actually fulfilling requirements of one minor, not of more than one minor or major.

Learning Outcomes

Upon completion of the program, students will:

- Understand relevant scientific concepts, techniques, and methods as they relate to bioethical topics
- Recognize bioethical issues
- Apply ethical reasoning and ethical judgment (concepts, theories, methods) to discuss bioethical issues
- Integrate science and ethics such that students can take a bioethical topic or issue and connect the scientific with the ethical issues.

Catholic Studies Minor

Loyola's Catholic Studies minor is an interdisciplinary program that incorporates courses in philosophy, theology, history, literature, classical studies, political science, and the arts. Students in the program:

- Focus on the multicultural, multidisciplinary phenomenon of Roman Catholicism.
- Explore the Catholic intellectual tradition as a set of developing meanings and values that informs the lives of Catholic communities.
- Learn about the developing nature of Catholic beliefs and practices through history, especially Catholicism's relationship with modern Western culture and political institutions.

- Discover what is often called the “Catholic imagination” in the production and expression of culture through literature, art, theater, and music.
- Study and engage in Catholic social teaching, issues of justice, and what the Church calls “the preferential option for the poor.”

Requirements

Each semester, courses that are approved to count toward the minor can be found on the courses page. If you have any questions about a specific course or about your progress toward the minor, please contact the director, Naomi Fisher (nfisher1@luc.edu).

The Catholic Studies minor consists of six courses (18 credit hours). No more than two courses from a single academic discipline may count toward the minor, and at least two elective courses must be taken at the 300-level. Academic requirements are divided into three categories: foundational course, electives, and capstone seminar.

Code	Title	Hours
Foundational Course		
Select one of the following:		3
CATH 296	All Things Ignatian: Living and Learning in the Jesuit Trad [1]	
CATH 303	Topics in the Catholic Philosophical Tradition [2]	
Elective Courses		
Select five courses from the Elective Course List (p. 525) [3]		15
Capstone Seminar		
Students must attend three capstone seminars		
Total Hours		**18**

1 CATH 296 fulfills an LUC Engaged Learning requirement and a (300-level) Theology elective.

2 CATH 303 is cross-listed with PHIL 342, and so many instead count as an upper level Philosophy elective.

3 At least one elective must be from Philosophy, one elective must be from Theology, and at least two electives must be 300-level.

Elective Courses

Students may choose the remaining five courses from several academic disciplines, including theology, philosophy, history, English, classical studies, fine arts, or political science. Courses may overlap with Core Curriculum requirements. At least one elective must be from Philosophy, at least one elective must be from Theology, and at least two must be 300-level.

Each semester, before registration is open, a list of the current courses that are approved for the minor will be published. Below is a list of courses from various academic disciplines which count toward the minor. Other courses are approved on a case-by-case basis.

Elective Course List

Code	Title	Hours
Catholic Studies		
CATH 100	Introductory Topics in Catholic Studies	3-6
CATH 200	Intermediate Topics in Catholic Studies	3-6

THEO 318	Christian Thought: Reformation to Modern	3
THEO 330	Liberation Theology	3
THEO 383	Theology Arts & Literature	1-3

Capstone Seminars

All students working toward a Catholic studies minor must attend three capstone seminars with the program director or a designated Catholic studies faculty member during the final semester of the senior year. Two capstone seminars involve making presentations to fellow seniors. The purpose of these two presentations is to create an informal context for students to explore and discuss the relationship between the Catholic intellectual and artistic tradition and their major field of study using various media, including film, literature, theology, philosophy, poetry, autobiography, music, and development in the sciences. At the third capstone seminar, students will present their work to faculty members and a larger group of students participating in the Catholic studies minor.

Extracurricular Activities

The Catholic Studies program works closely with the Joan and Bill Hank Center for the Catholic Intellectual Heritage to promote a community of learning for students and faculty.

Students can take advantage of many academic, cultural, social, and religious opportunities including lectures, retreats, concerts, internships, social events, and group activities designed for the Catholic studies minors. The Loyola University Museum of Art (LUMA) often hosts exhibits and lectures focusing on artists who create their work through their exploration and interaction with Catholicism.

Research Fellowship

Every year, the Joan and Bill Hank Center for the Catholic Intellectual Heritage (CCIH), in support of the Catholic Studies Minor, funds a one-year fellowship to undergraduate students who are currently enrolled in the Catholic Studies Minor program. This fellowship is dedicated to the support of CCIH-funded faculty research projects, as well as CCIH's international research projects. Interested students should submit a completed application online through the Loyola Undergraduate Research Opportunities Program (LUROP) by March 1.

Suggested Sequence of Courses

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

Course	Title	Hours
Sequence 1		
Semester I		
CATH 296 or CATH 303	All Things Ignatian: Living and Learning in the Jesuit Trad or Topics in the Catholic Philosophical Tradition	3
	Hours	**3**
Semester II		
Lower Division Elective [1]		3
	Hours	**3**
Semester III		
Lower Division Elective [1]		3
	Hours	**3**
Semester IV		
Lower Division Elective [1]		3
	Hours	**3**
Semester V		
Upper Division Elective [1]		3
	Hours	**3**
Semester VI		
Upper Division Elective [1]		3
	Hours	**3**
	Total Hours	**18**

[1] At least one elective must be a THEO course; at least one elective must be a PHIL course. Only two courses from a single discipline can count toward the minor.

Double Dipping Policy

Per recommendations from the CAS's Academic Council, Catholic Studies will adhere to and enforce the following policies:

- Not less than 8 credit hours in the individual student's transcript must be unique to each minor; that is, the courses in question are considered as actually fulfilling requirements of one minor, not of more than one minor or major.
- General exceptions will be made if approved by the chairs/directors of the department(s)/program(s) housing each affected major and minor. A list of standing general exceptions will be maintained by the Dean's office.
- Individual student exceptions may be made in appropriate cases by the Program Director. As always, comprehensive education is encouraged and valued; alternative classes and approaches may provide the perfect fit.
- As always, students are to make certain that an individual tracking sheet has been filled out with the Program Director and filed with the student's advisor.
- Departments and Programs may enforce stricter double-dipping policies than those stated above, which also should be provided to the Dean's Office.

Learning Outcomes

Upon completion of this program, students will:

- understand the nature of reality as advanced in Roman Catholicism, including the nature of the human person, our relations and obligations to each other and God, and the manner in which we come to know timeless truths. Students will be conversant with this vision as it is presented throughout the history of Catholicism, in thinkers such as St. Augustine, Pseudo-Dionysius the Areopagite, and St. Thomas Aquinas
- engage with become familiar with the "Catholic imagination", as the manner in which Catholicism informs and enriches imaginative expression in the arts, in movements such as the Renaissance and the Catholic literary revival of the 19th and 20th centuries.
- know and be able to engage with Church history, including its institutional history and the development of doctrine and practice as well as the expression of Catholicism at various times, places, and cultures.
- understand and engage with the specifically Catholic notion of social justice, as advancing the common good through a holy life.

European Studies Minor

The College of Arts and Sciences introduces the interdisciplinary European Studies Minor. European Studies explores the history, politics, economics, and cultures of the peoples of Europe from ancient times to the present.

The European Studies minor will appeal to students who are interested in a deeper understanding of European nations, cultures, and people, who want to explore their own European heritage, or to complement their majors in areas such as Anthropology, Fine and Performing Arts, History, Global and International Studies, Modern Languages and Literatures, Philosophy, Political Science, Sociology, and Theology.

Our students will find the chance to mold their own minor exhilarating. Add the excitement of a semester or year spent immersed in another culture and you've got a valuable undergraduate experience.

Curriculum

The European Studies minor requires students to complete six courses totaling at least 18 credit hours.

Code	Title	Hours
Required Courses		
HIST 102	Evolution Western Ideas Institutions Since 17th Century	3
or EURO 101	Introduction to European Studies	
PLSC 347	The European Union	3
or EURO 301	European Studies Capstone	
Elective Courses		
Select four elective courses listed below.		12
Total Hours		**18**

Elective Courses

Students must take four electives from the courses listed below. This list is based on courses suggested by the respective department chairs. At least two of the electives need to be at the 300-level. To promote the interdisciplinary nature of the program, no more than two electives may be taken from any one department. In conjunction with the required courses listed above, no more than three courses in total may be taken from any one department and applied to the European Studies minor. In other words, students may not apply HIST 102 Evolution Western Ideas Institutions Since 17th Century, HIST 330 Europe in the Age of Catastrophe, 1900-1945, and 2 HIST electives to the minor; they may enroll in HIST 102 Evolution Western Ideas Institutions Since 17th Century and HIST 330 Europe in the Age of Catastrophe, 1900-1945 as required courses, but if they do they may then only add one history elective from the list. In short, no more than 3 courses, including the required courses, may be taken from any one department and applied to the minor.

Suggested Sequence of Courses

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

Course	Title	Hours
Sequence 1		
First Semester		
HIST 102 or EURO 101	Evolution Western Ideas Institutions Since 17th Century or Introduction to European Studies	3
Elective		3
	Hours	**6**
Second Semester		
Additional Required Course		3
Elective		3
	Hours	**6**
Third Semester		
Elective		3

Elective	3
Hours	**6**
Total Hours	**18**

Learning Outcomes

Students completing a European Studies Minor will:

- Acquire a general awareness of the impact that Europe has had on global affairs and conversely, the effects of global forces on Europe.
- Possess general knowledge of the common cultural heritage of European peoples.
- Understand the factors that have shaped Europe politically, socially and economically throughout history.
- Acquire a basic understanding of present-day European institutions.
- Be prepared to complement their European studies at the Loyola campus with more in-depth "on the ground" study of a specific European country, to further their knowledge of that country's language, culture, history and to better understand the political, social and economic problems confronting it.

Interreligious and Interfaith Studies Minor

Curriculum

The program will consist of six courses:

Code	Title	Hours
Foundational Courses		
THEO 107	Introduction to Religious Studies	3
SOCL 145	Religion & Society	3
Electives		
Select two of the following:		6
HIST 267A	Modern German Culture and Ideas I

THEO 356	Topics in Judaism	
THEO 278	Religion & Gender (special section)	
THEO 280	Theology & Interdisciplinary Study	
Integrative Course		
IRIF 300	Religious Diversity in Theory & Practice (new and specific to the program)	3
Capstone Internship		
IRIF 380	Interreligious and Interfaith Internship	3
Total Hours		**18**

Islamic World Studies Minor

Loyola's Islamic World Studies minor introduces students to the Middle East, the birthplace of Islam, and the Islamic civilization. The minor offers a unique opportunity to think differently about the Middle East, Islam, Muslim societies, and their influence around the world. Through a rigorous interdisciplinary approach, students explore history, culture, politics, and religion in Muslim societies in a variety of regions including the Middle East, South Asia, and Africa. Students are strongly encouraged to study abroad in a Muslim country and enhance their academic knowledge through real life exposure to Muslim people and cultures.

Curriculum

The Islamic World Studies minor requires six courses (18 credit hours), including an introductory course on Islamic religion or history.

Code	Title	Hours
Required Course		**3**
HIST 209	Survey of Islamic History	
or THEO 295	Islam	
Electives (Select 5 of the following)		**15**
ANTH 213	Culture in Africa [1]	
ANTH 220	Contemporary Cultures of the Middle East

THEO 295	Islam [2]	
THEO 350	Topics in Islam	

THEO 365	Women, Gender and Embodiment in Islam	
THEO 366	Contemporary Islamic Thought and Movements	
URDU 101	Introductory Urdu I	
URDU 102	Introductory Urdu II	
Total Hours		**18**

1 These are topics courses. Only selected sections can count toward the minor.
2 Cannot apply toward electives if used as a required course.

Additional Requirements

No more than four courses may be taken from any one department. Language courses such as Arabic or Hindi-Urdu at any level may count for up to six units (two courses) of the minor. Up to nine units (three courses) may be shared with any Major or Minor program. Waiver will be offered for courses taken during study abroad in a Muslim country.

Suggested Sequence of Courses

Students can begin the Islamic World Studies minor at any point in their undergraduate studies, in consultation with their advisor. While there is no set sequence of classes, students are encouraged to take either HIST 209: Survey of Islamic History or THEO 295: Introduction to Islam, early on, to gain a general understanding of Islamic history and culture. Once students have declared the minor, they are encouraged to contact their academic advisor or the Islamic World Studies Program Director for further guidance on how best to progress with their studies.

Learning Outcomes

The minor enables students to appreciate the complexities of the Islamic civilization, understand the regional specificities while considering the past and present global networks linking these regions to the rest of the world. Through an interdisciplinary approach, students take courses on history, literature, art, language, philosophy, politics, and religion to gain knowledge about the Middle East and contemporary Islamic world.

Latin American and Latino Studies Minor

Curriculum

To complete a minor in Latin American and Latino Studies students must complete 18 credit hours with additional an language competency requirement and the completetion of an eProfolio their senior year.

Code	Title	Hours
Language Requirement [1]		
Completion of SPAN 104 or PORT 102 with a C- or better -or- passing a Language Competency Exam at or beyond the SPAN 104-level or PORT 102-level		
Required Foundational Courses		**6**
Select two of the following:		
HIST 210	Introduction to Latin American History	
ANTH 211	Peoples of Latin America	
SPAN 352	Masterpieces of Latin American Literature	
PLSC 343	Latin American Politics [2]	
or PLSC 351	Latin American International System	
Required Electives [3]		**12**
See elective list below		
Total Hours		**18**

1 Demonstration of language competency does not form part of the required 18 credit hours for this minor.
2 Either PLSC 343 Latin American Politics or PLSC 351 Latin American International System, but not both, can count as a required foundational course.
3 No more than two elective courses can be taken from the same department

LASP Minor Electives

Code	Title	Hours

SPAN 389	Latin American Short Story	3
SPAN 390	Latin American Culture and Civilization	3
SPAN 397	Topics in Hispanic Literature	3
THEO 330	Liberation Theology	3

ePortfolio Requirement

eProfolio to be completed by the 13th week of the student's final semester. Graduating LASP students will present their ePortfolio at the

LASP ePortfolio Tertulia. This reflective LASP ePortfolio will follow LUC ePortfolio Program (http://www.luc.edu/experiential/eportfolio/)

Transfer-Student Residency Requirement

At least 9 credit hours of LASP-MINR requirements (excluding language course requirements) must be completed at Loyola.

Double-Dipping Policy

This department observes the CAS Double-Dipping Policy (https://www.luc.edu/cas/double-dippingpolicy/) regarding unique credits required for each declared major/minor. Not less than 9 credit hours in the individual student's transcript must be unique to each minor; that is, the courses in question are considered as actually fulfilling requirements of one minor, not of more than one minor or major.

Learning Outcomes

Upon graduating, students from our interdisciplinary undergraduate Latin American and Latinx Studies Program will be able to:

- Gain an appreciation for the cultural, economic, and ethnic diversity of Latin America and US Latinx communities by studying several academic disciplines from all LUC campuses which include, but are not limited to Anthropology, Communication, Sociology, History, Modern Languages and Literatures, Philosophy, Political Science, Women's Studies/Gender Studies, and Theology.
- Engage with the integrative, multidisciplinary nature of Latin American and US Latinx Studies and articulate how it is a connected to other interdisciplinary fields of study.
- Recognize the value of studying from an intersectionality perspective and intercultural framework while achieving a better understanding of the Latin American region and the growing US Latinx communities.
- Develop knowledge and identify key Latin American/US Latinx issues, including, but not limited to social (in)justice, *mestizaje*, (im)migration, language and identity, neo/postcolonialism, gender and sexuality studies, grassroots movements, popular culture, and political resistance.
- Increase oral and written Spanish and/or Portuguese language proficiency.
- Prepare for graduate study and for work in professional fields both in the US and in Latin America.

Medieval Studies Minor

The minor in Medieval Studies is designed for students who want to learn more about the Middle Ages in all its multifaceted splendor, without limiting themselves to a single department. This program encourages students to explore the medieval world through a variety of courses taught in our four core departments of History, Theology, English and Philosophy, plus course offerings in Classical Studies, Modern Languages and the various areas of Fine Arts. The Medieval Seminar (MSTU 300 Integrative Experience I & MSTU 301 Integrative Experience II), taught over two semesters, is an exciting opportunity to meet medievalists from other institutions, and to work closely with medievalist faculty here at Loyola on an interdisciplinary project of your own design.

Curriculum

Code	Title	Hours
Required Foundational Courses		
MSTU 300	Integrative Experience I	1.5
MSTU 301	Integrative Experience II	1.5
Required Choice Areas		**9**
One course from three of the four areas in the course options		
Required Electives		**6**
Choose two courses from the course options		
Total Hours		**18**

Required Choice Area and Elective Course Options

For required choice area courses, choose at least one approved course on medieval topics from three of the four different core departments: History, Theology, Philosophy or English.

Electives can be chosen from any subject area.

Code	Title	Hours
English

SPAN 314	Survey of Medieval Literature	3

Double-Dipping Policy

This department observes the CAS Double-Dipping Policy (https://www.luc.edu/cas/double-dippingpolicy/) regarding unique credits required for each declared major/minor. Not less than 6 credit hours in the individual student's transcript must be unique to this minor; that is, the courses in question are considered as actually fulfilling requirements of one minor, not of more than one minor or major.

Transfer-Student Residency Requirement

At least 9 credit hours of MSTU-MINR requirements must be completed at Loyola.

Peace, Justice and Conflict Studies Minor

Overview

The Peace, Justice and Conflict Studies minor is organized around a broad definition of peace, encompassing societal peace (including work to reduce violence and inequalities within the United States), international peace (focusing on ending wars, terrorist acts, unequal distribution of resources, and other infringements on human rights and dignity worldwide), and environmental peace (involving work on sustainable resources, global warming, and response to natural and human-made disasters). Students can enroll in internships classes and become involved with projects and program on campus focused on war and peace concerns, social justice, and environmental responsibility.

Curriculum

Each student must take at least one course in each of these areas of concentration.

Code	Title	Hours
International Conflict and Peacemaking

THEO 204	Religious Ethics and the Ecological Crisis	3

Learning Outcomes

- Demonstrate an ability to analyze, interpret, or describe two strategies of peacemaking.
- Interpret, analyze, and describe important contemporary of at least two global concerns (e.g., the environment, war, inequity and poverty, human rights).
- Demonstrate historical knowledge of some distinguished national and international leaders in peacemaking.
- Interpret, analyze, or describe some rising global ecological concerns and efforts to mitigate their harm.
- Demonstrate an ability to analyze or describe the significance of the major core categories and discussions in the field of peace and justice studies.

Polish Studies Minor

Loyola University Chicago Minor in Polish Studies is an interdisciplinary program that includes a comprehensive range of courses designed to provide students with an enriched and valuable learning experience. This minor appeals to the growing number of Loyola students who come from Polish and Eastern/Central European backgrounds, and those who are

interested in studying this particular culture. The curriculum consists of courses in Polish language and literature, with additional course offerings in related history, political science, women studies, and gender studies, as well as global and international studies.

We look forward to seeing you in Polish Classes!

Czekamy na Ciebie na polskich kursach!

Curriculum

Students with a Minor in Polish Studies must complete a **total of six courses** (18 credit hours). No more than four courses may be taken in the same department. Students should focus their studies on areas that best complement their major: languages and literatures or history and political science. Only three courses from the minor may be applied toward another major or minor.

Code	Title	Hours
Language Requirement		
Choose two of the following:		6
POLS 101	Polish I	
POLS 102	Polish II	
POLS 103	Polish III	
POLS 104	Polish IV	
POLS 201	Polish Medical Terminology	
POLS 202	Polish for Healthcare	
POLS 250	Composition & Conversation I	
POLS 251	Composition & Conversation II	
POLS 270	Contemporary Polish Culture in the Original Language	
Electives		
Choose three of the following:		9
HIST 316	History of Poland	
HIST 317	Age of Absolutism & the Enlightenment	
HIST 329N	Modern European Nationalism: Myth and Reality	
HIST 334B	The Holocaust: History and Memory	
HIST 335	The Second World War	
HIST 336	Contemporary Europe 1945 to Present	
HIST 337	Rise & Fall of Soviet Union

LITR 284	International Film	
POST 199	Topics in Polish Studies: Introductory	
POST 299	Topics in Polish Studies: Intermediate Topics	
POST 399	Topics in Polish Studies: Advanced	
PLSC 347	The European Union	
PLSC 348	Soviet & Post-Soviet Politics	
Capstone Course		
POST 395	Polish Studies Capstone	3
Total Hours		**18**

Language Requirement

A minimum of **two courses** (six credit hours) must be in the study of the Polish language. These courses may be at any level and can include: POLS 101 Polish I - POLS 102 Polish II (elementary), POLS 103 Polish III - POLS 104 Polish IV (intermediate), POLS 201 Polish Medical Terminology-POLS 202 Polish for Healthcare (medical & advanced) or POLS 250 Composition & Conversation I - POLS 251 Composition & Conversation II (advanced), as well as POLS 270 Contemporary Polish Culture in the Original Language. Students must be assessed by a Polish specialist in the Department of Modern Languages and Literatures in order to guarantee placement in the appropriate course level.

Capstone Course

Students must complete POST 395 Polish Studies Capstone, during their junior or senior year. The course complements the minor program with an integrated service-learning component. Students focus on a specific issue or theme in Polish Studies and complete a research project that integrates the minor with their major field. Additionally, the course contains a service-learning project of the student's choosing that takes place in one of various institutions and organizations in Chicago's Polish American community, including the Polish Museum and Library, Consulate General of the Republic of Poland, Polish National Alliance, Chopin Theatre, Polish Film Festival, LIRA Ensemble, Paderewski Symphony Orchestra, Polish American Association, Polish Community-based Schools, Community Health Clinics with Polish- speaking population, Polish radio and television, Polish Community - based Schools, Copernicus Center, Polish American Chamber of Commerce, and Trap Door Theatre.

Suggested Sequence of Courses

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

POST 395	Polish Studies Capstone	3
	Hours	**3**
	Total Hours	**18**

Psychology of Crime and Justice Minor

The interdisciplinary minor allows students to focus on the classes that are most relevant to the field of psychology and law. The constellation of classes will deepen and complement their chosen professional practice with justice-involved persons or with legal and/or mental health systems or their advanced graduate or professional degrees.

Curriculum

The minor requires the completion of 18 credit hours.

Code	Title	Hours
Required Courses		
PSYC 372	Psychology & Law	3
CJC 345	Social Justice and Crime	3
or CJC 346	Mental Illness and Crime	
Elective Courses		
The nature and number of required compared to elective courses vary by your major field of study. Students majoring in Psychology, Criminal Justice and Criminology, and all other majors have slightly different requirements to allow a broader exploration of knowledge outside of their major and to balance depend upon your major. See the subsection for specific majors.		
Internship, Research Project, or Honors Thesis		
Select one of the following:		
Internship		
CJC 390	Capstone Experience Internship	
PSYC 390	Internship in Psychology	
Supervised Research Project		
PSYC 397	Independent Research (senior psychology major; requires department and instructor permission)	
CJC 396	Independent Study	
Honors Thesis		
PSYC 370	Psychology Honors Research (requires admission to PSYC Honors program)	
Total Hours		**6**

All students must complete two required 300-level:

- PSYC 372 Psychology & Law
- Choose either: CJC 345 Social Justice and Crime **or** CJC 346 Mental Illness and Crime

The nature and number of required compared to elective courses vary by your major field of study. Students majoring in Psychology, Criminal Justice and Criminology, and all other majors have slightly different requirements to allow a broader exploration of knowledge outside of their major and to balance depend upon your major. See the subsection for specific majors.

We strongly recommend that psychology and criminal justice and criminology majors completing the minor do an internship, field work or research project focused on the psychology of crime and justice by participating in one of the capstone experiences which include a practicum experience:

- CJC 390 Capstone Experience Internship
- PSYC 390 Internship in Psychology (prerequisites: PSYC 304 Statistics and PSYC 306 Research Methods in Psychology)

Or, a supervised research project:

- PSYC 397 Independent Research (prerequisites: PSYC 306 Research Methods in Psychology; senior psychology major; department and instructor permission
- CJC 396 Independent Study

Or, an honors thesis:

- PSYC 370 Psychology Honors Research (requires admission to PSYC Honors program & PSYC 369 Psychology Honors Readings as a prerequisite)

These courses will count toward the psychology or criminal justice and criminology major, but not the minor in the psychology of crime and justice.

Race & Ethnicity Interdisciplinary Minor

The interdisciplinary minor in race and ethnicity will provide an interdisciplinary theoretical background on relevant ethnic and racial issues and train students to develop analytic tools for studying ethnic and racial issues. The minor provides opportunities for students to develop nuanced understandings of race and ethnicity in cross-cultural and comparative perspectives.

Curriculum

Students enrolling in the minor will be required to complete 18 credit hours.

Code	Title	Hours
Introduction to Race and Ethnicity		
One Required Course		
SOCL 122	Race and Ethnic Relations	3
Theories of Race and Ethnicity		
Choose one at least one of the following		3
ANTH 105	Human Biocultural Diversity	
CJC 372	Race, Ethnicity, and Criminal Justice	
HIST 374	Black Politics	
HIST 378	Latina/o History	
HIST 380	Introduction to African-American History	
PHIL 389	Contemporary Issues (Critical Philosophy of Race)	
PLSC 218	African-American Politics	
PLSC 300A	Contemporary Political Issues: American Politics	
SOCL 228	Sociology of the African-American Experience	
Racial and Ethnic Inequality and Racism		
Choose at least one of the following		3
ANTH 203	Violence, Social Suffering, and Justice	

ANTH 332	Language, Race, and Inequality	
CJC 345	Social Justice and Crime	
HIST 359F	Genocides in the Modern World	
HIST 360A	Slavery and Abolition: Then & Now	
PLSC 316	Politics of Genocide	
PLSC 390	Urban Politics	
PSYC 239	Understanding Bias and Inclusivity	
PSYC 360	Understanding Prejudice	
SOCL 250	Inequality in Society	
SOCL 252	Global Inequalities	
Historical, Cultural, and Contemporary Perspectives on Racial and Ethnic Issues		
Choose at least one of the following		3
ANTH 208	Language and Identity	
ANTH 211	Peoples of Latin America	
ANTH 213	Culture in Africa	
ANTH 216	Cultures of Migration	
ANTH 217	Mexican Culture & Heritage	
CJC 375	Punishment and Society	
HIST 389B	Topic: Gender, Race, & Class in US History	
PLSC 334	Urban Policies and Problems	
SOCL 234	City, Suburbs & Beyond	
SOCL 245	Sociology of Education	
SOCL 280	Topics in Contemporary Sociology (U.S. Immigration)	
Additional Elective		
Choose one additional elective course from either the Theories of Race and Ethnicity; Racial and Ethnic Inequality and Racism; or Historical, Cultural, and Contemporary Perspectives on Racial and Ethnic Issues areas		3
Race and Ethnicity Capstone		
One required course		
SOCL 380	Internship	3-6
Total Hours		**18**

Additional Requirements

As an interdisciplinary minor, students are required to count no more than two of the six courses from the same major/discipline towards the minor, with the exception of the capstone class.

Suggested Sequence of Courses

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

Course	Title	Hours
Year 1		
Term 1		
SOCL 122	Race and Ethnic Relations	3
	Hours	**3**
Term 2		
Theories of Race and Ethnicity Elective		3
Racial and Ethnic Inequality and Racism Elective		3
	Hours	**6**
Year 2		
Term 3		
Historical, Cultural, and Contemporary Perspectives on Racial and Ethnic Issues Elective		3
Additional Elective Course		3
	Hours	**6**
Term 4		
SOCL 380	Internship	3-6
	Hours	**3**
	Total Hours	**18**

Learning Outcomes

At the conclusion of their studies, students minoring in this minor will be able to:
1. Understand theories of race and ethnicity;
2. Evaluate racial and ethnic inequality; and
3. Apply a race and ethnicity lens to the analysis of historical, cultural, and contemporary issues.

Shakespeare Studies Minor

The works of William Shakespeare are foundational for two disciplines that Loyola offers as majors, English and Theatre, and central to the liberal arts tradition that is at the core of the College of Arts and Sciences undergraduate experience.

The Shakespeare Studies Minor (p. 537) will provide Loyola undergraduates with the opportunity to pursue advanced study in an interdisciplinary (http://www.luc.edu/shakespeare/participatingdepartmentsandfaculty/) fashion. Drawing from six academic departments, Shakespeare is one of the primary filters through which we experience the classical and medieval worlds. He provides a crucible in which one can study Renaissance history, philosophy, arts and literature. His work has had had a profound impact on the Western intellectual tradition, wrestled with by figures as wide-ranging as Coleridge, Goethe, Nietzsche, Dickens, Melville, and Freud; and his plays have inspired innumerable appropriations and adaptations, in every conceivable form, from painting to opera, dance, film, and beyond. To encounter Shakespeare is to encounter as far as it possible through a single figure, the breadth and scope of history, art, culture, and philosophy, making his work an ideal focal point for interdisciplinary spirit.

Students who wish to minor in Shakespeare Studies should contact Lee Keenan (https://www.luc.edu/dfpa/facultyandstaffdirectory/leekeenanmfa.shtml/), the Director of Theatre.

Curriculum

The Shakespeare Studies Minor would consist of 18 credit hours (six three-credit courses) broken down as follows:

Code	Title	Hours
Required Courses		
ENGL 326	Shakespeare: Selected Major Plays	3
THTR 365	Theatre History and Literature II	3
THTR 393	Shakespeare Seminar	3

Electives		
Select three classes in three separate disciplines:		9
CLST 271	Classical Mythology	
CLST 271G	Classical Mythology - Women/Gender Focus	
CLST 273	Classical Tragedy	
CLST 273G	Classical Tragedy - Women/Gender Focus	
CLST 276	World of Classical Rome	
CLST 283	Classical Comedy & Satire	
CLST 275	World of Classical Greece	
CLST 280	Romance Novel in Ancient World	
LATN 283	The Age of Caesar	
LATN 351	Roman Comedy	
LATN 364	Seneca	
GREK 351	Aristophanes	
GREK 353	Aeschylus	
GREK 354	Sophocles	
GREK 355	Euripides	
ENGL 325	British Literature-The Renaissance	
ENGL 327	Studies in Shakespeare	
ENGL 328	Studies in The Renaissance	
ENGL 368	Studies in Drama (when appropriate)	
PHIL 319	Studies in Philososphy & Literature (if topic is appropriate)	
HIST 314	Renaissance	
HIST 315	The Reformation	
HIST 316	History of Poland	
HIST 318C	London 1550 - 1715	
HIST 330	Europe in the Age of Catastrophe, 1900-1945	
THTR 267	Acting Theories &Techniques II	
THTR 323	Rehearsal & Performance (when appropriate)	
THTR 364	Theatre History and Literature I	
Total Hours		**18**

Suggested Sequence of Courses

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

(Suggested sequence supposed to begin first semester sophomore year)

Course	Title	Hours
First Semester		
ENGL 326	Shakespeare: Selected Major Plays	3
	Hours	**3**
Second Semester		
THTR 365	Theatre History and Literature II	3
	Hours	**3**
Third Semester		
Elective 1		3
	Hours	**3**
Fourth Semester		
Elective 2		3
	Hours	**3**
Fifth Semester		
Elective 3		3
	Hours	**3**
Sixth Semester		
THTR 393	Shakespeare Seminar	3
	Hours	**3**
	Total Hours	**18**

Learning Outcomes

Students completing the Shakespeare Studies Minor will:

- engage in the practices of interdisciplinary study;
- acquire substantial knowledge of the works of William Shakespeare and his contemporaries and the culture in which they lived;
- master skills of research used to produce significant works of scholarship, preparing those who plan on pursuing academic graduate work for further study;
- acquire skills and knowledge that will provide a foundation for those seeking to pursue a professional career in theatre;

Sociolegal Studies Minor

The Sociolegal Studies minor provides an introduction to the relationships between law and other human activity and serves as a broad liberal education in the humanities and social sciences. It is an opportunity for students within a liberal arts curriculum to engage in a broad critical understanding of the nature and function of law from an interdisciplinary perspective. Students will learn basic legal concepts and be able to apply those concepts to legal phenomena; understand the nature and function of law, including legal theory, institutions, and analysis; understand the unique nature of legal institutions and practices from a variety of interdisciplinary perspectives; and acquire a deeper understanding of the different types of law, how law is shaped, how people think about law, and the role of law in society.

Curriculum

Code	Title	Hours
Required SLGL Course		
SLGL 200	Introduction to Sociolegal Studies	3
Required Electives		**15**
Select five from the following:		
ANTH 305	Violence and Culture	
ANTH 306	Anthropology and Human Rights	
ANTH 314	Applied Anthropology	
ANTH 321	Human Rights in Latin America	
CJC 202	Criminal Courts	
CJC 322	Criminal Law	
CJC 323	Criminal Procedure	
CJC 345	Social Justice and Crime	
CJC 372	Race, Ethnicity, and Criminal Justice	
CJC 377	Psychology and Law	
CLST 361	Roman Political Theory & Practice	

CLST 362	Roman Law
CLST 363	Law & Legislature-Ancient Greece
COMP 317	Social, Legal, and Ethical Issues in Computing
ENGL 211	Writing for Pre-Law Students
HIST 367	United States from Great Depression to Recession
HIST 370	American Business, Wealth, and Inequality
HIST 373	US Law & Public Policy
HIST 373A	Crime and Punishment
HIST 382	Teaching Race, Class, and Gender
PHIL 321	Ethics and Society
PHIL 323	Philosophy of Law
PHIL 326	Political Philosophy
PLSC 320	Constitutional Law-Due Process
PLSC 321	Constitutional Law-Powers of Government
PLSC 322	Constitutional Law-Rights and Liberties
PLSC 353	International Law
PLSC 384	The Judicial Process
PLSC 385	Introduction to Law
PSYC 372	Psychology & Law
SLGL 399	Independent Study
SOCL 215	Law & Society
SOCL 261	Social Movements & Social Change
Total Hours	**18**

Transfer-Student Residency Requirement

At least 9 credit hours of SLGL-MINR requirements must be completed at Loyola.

Double Dipping Policy

Observes the CAS Double-Dipping policy with the additional restriction: Students minoring in Sociolegal Studies (SLGL-MINR) may use only one course (total) toward the SLGL minor and any other declared majors/minors

Learning Outcomes

Upon completion of this program, students will:

- Evidence a deeper understanding of the many forms of law, how law is shaped, how people think about law, the role of law in society, and the intersection of law and politics.
- Compare, apply, and critique different social science and humanities perspectives on law
- Understand the cultural, political, economic, and social aspects of law
- Employ an interdisciplinary approach to the study of law and society
- Understand the structure and purpose of legal institutions
- Comprehend basic legal concepts and be able to apply those concepts to legal phenomena
- Develop strong logical and critical thinking skills

Urban Studies Minor

Seeking Solutions to Pressing Urban Issues in Partnership with Chicago Communities

The Urban Studies minor provides students with a unique opportunity to gain an understanding of how a city works. An interdisciplinary program of the College of Arts and Sciences, Urban Studies combines coursework in fields like sociology, psychology, history, philosophy, criminal justice, economy, environmental studies, and political science. Not only do students study social, political, economic, and cultural institutions in Chicago (and beyond), but they also get involved in research projects with community organizations seeking solutions to pressing urban issues.

The distinctive capstone of the minor consists of two courses: Urban Studies Seminar and Urban Studies Research. In the seminar, students learn about contemporary urban policy from readings, discussions, guest speakers, and neighborhood tours. In the research course, students contribute to a community-based, collaborative research project (housed at the Center for Urban Research and Learning – CURL www.luc.edu/curl (http://www.luc.edu/curl/)) where they work with graduate students, faculty, community organizations, and government agencies.

The minor consists of two tracks:

- General Track (p. 538): Receive a broad introduction to themes and issues such as urban politics and community life, as well as racial, ethnic, and economic inequality.
- Environmental Sustainability Track (p. 540): Focus on both sustainability in the social world (e.g. health, housing, education, jobs, and community) and in the physical environment (e.g. water, air, and soil).

Curriculum

General Track Requirements

The General track gives students a broad introduction into themes and issues within the broader field of Urban Studies. As an interdisciplinary minor, students in the General track are able to select from several disciplinary lenses to better understand urban areas and the issues they face. In addition, students will – in the capstone research course – contribute to active solutions to many of the issues facing local communities.

Overview

A minor in urban studies requires 18 hours of credit as follows:

- One Urban Theory Course (3 Hours)
- One Research Methods Course (3 Hours)
- Two Electives (6 Hours)
- Two Capstone Courses (6 Hours)

Course Requirements

Code	Title	Hours

URB 397 / PLSC 397	Urban Studies Research	3
Total Hours		**18**

[1] Other elective courses may be added on a semester-by-semester basis. Please confer with program director.

Double Dipping Policy

Urban Studies follows the College policy for Double Dipping: Not less than 8 credit hours in the individual student's transcript must be unique to each minor; that is, the courses in question are considered as actually fulfilling requirements of one minor, not of more than one minor or major.

Learning Outcomes

Students in the Urban Studies minor will:

- Understand the major developments, conflicts, and events that have shaped urban life
- Contribute to active solutions to many of the issues facing local communities
- Recognize the roots of urban social problems
- Develop a deeper understanding of the methods researchers use to study urban life
- Appreciate the links among social and physical dimensions of the urban environment (Environmental Sustainability Track)
- Gain an understanding of sustainable policy solutions that bridge social science and natural science approaches (Environmental Sustainability Track)

Urban Studies Sustainability Minor

Seeking Solutions to Pressing Urban Issues in Partnership with Chicago Communities

The Urban Studies minor provides students with a unique opportunity to gain an understanding of how a city works. An interdisciplinary program of the College of Arts and Sciences, Urban Studies combines coursework in fields like sociology, psychology, history, philosophy, criminal justice, economy, environmental studies, and political science. Not only do students study social, political, economic, and cultural institutions in Chicago (and beyond), but they also get involved in research projects with community organizations seeking solutions to pressing urban issues.

The distinctive capstone of the minor consists of two courses: Urban Studies Seminar and Urban Studies Research. In the seminar, students learn about contemporary urban policy from readings, discussions, guest speakers, and neighborhood tours. In the research course, students contribute to a community-based, collaborative research project (housed at the Center for Urban Research and Learning – CURL www.luc.edu/curl (http://www.luc.edu/curl/)) where they work with graduate students, faculty, community organizations, and government agencies.

The minor consists of two tracks:

- General Track (p. 538): Receive a broad introduction to themes and issues such as urban politics and community life, as well as racial, ethnic, and economic inequality.
- Environmental Sustainability Track (p. 540): Focus on both sustainability in the social world (e.g. health, housing, education, jobs, and community) and in the physical environment (e.g. water, air, and soil).

Curriculum

Sustainability Track Requirements

Overview

A minor in the urban studies sustainability track requires 18 credits after prerequisites are met. Requirements are as follows:

- One Urban Theory Course (3 Hours)
- One Research Methods Course (3 Hours)
- One Course from the Group A Electives: Sustainability and the Social World (3 Hours)
- One Course from the Group B Electives: Sustainability and the Physical World (3 Hours)
- Two Capstone Courses (6 Hours)

Prerequisites: Students should have completed their two Core Scientific Literacy courses, including the Foundational Core Scientific Literacy course, which is environmentally based. Information about the CAS core science requirements can be found here. (http://www.luc.edu/core/scilitcoursesub-first.shtml/)

Course Requirements

2. Variable topics course that may be approved by the Program Director of the Urban Studies Interdisciplinary Program.
3. Open to seniors (subject to approval by instructor)

Double Dipping Policy

Urban Studies follows the College policy for Double Dipping: Not less than 8 credit hours in the individual student's transcript must be unique to each minor; that is, the courses in question are considered as actually fulfilling requirements of one minor, not of more than one minor or major.

Learning Outcomes

What will I get out of the Urban Studies Minor?

With more than 8 million people, the Chicago Metropolitan area reflects the many complexities of urban life. Problems and solutions in the realm of politics, social life, education, and economics present themselves in a variety of subtle and not-so-subtle ways. Students in the Urban Studies minor will:

- Understand the major developments, conflicts, and events that have shaped urban life
- Contribute to active solutions to many of the issues facing local communities
- Recognize the roots of urban social problems
- Develop a deeper understanding of the methods researchers use to study urban life
- Appreciate the links among social and physical dimensions of the urban environment (*Environmental Sustainability Track*)
- Gain an understanding of sustainable policy solutions that bridge social science and natural science approaches (*Environmental Sustainability Track*)

Philosophy

Welcome to the Undergraduate Program at LUC Philosophy!

Our philosophy undergraduate programs prepare students for successful careers in a wide variety of fields, and it is well-documented that philosophy undergraduates are extremely competitive in applications for law school, medical school, and other graduate programs. (See BA in Philosophy (p. 550) for further information.) We pride ourselves in our diverse department, with deep strengths in multiple traditions of

philosophy and an extensive range of course offerings, which are relevant to many different professions and interests.

Undergraduate Programs

- Ethics and Moral Philosophy Minor (p. 548)
- Honors in Philosophy (p. 549)
- Philosophy (BA) (p. 550)
- Philosophy (BA/MA) (p. 1144)
- Philosophy/International Affairs (BA/MA) (p. 1147)
- Philosophy Minor (p. 554)
- Philosophy: Social Justice Emphasis (BA) (p. 555)

Undergraduate Policies and Procedures

Please see Undergraduate Policies and Procedures (p. 2050) for academic policies that supersede those of academic units within the University.

Philosophy (PHIL)

PHIL 130 Philosophy & Persons (3 Credit Hours)
This course introduces students to the fundamental philosophical issues that bear on our understanding of persons in three equally weighted components, namely, Persons & Knowledge, Persons & Values, and Persons & Reality.
Knowledge Area: Foundational Philosophical Knowledge
Course equivalencies: PHIL120/130/180/ACPHI130
Outcomes:
Students will be able to explain a claim to truth, to explain theories of value in human life, and to describe theories of the metaphysical nature of human persons

PHIL 180 Being Human: Philosophical Perspectives (3 Credit Hours)
The course examines the way philosophy looks for fundamental characteristics that identify life as a properly human life, asks about its ultimate meaning or purpose, and raises questions about what counts as a good life.
Course equivalencies: PHIL120/130/180/ACPHI130
Outcomes:
Students will be able to demonstrate understanding of the various approaches of the philosophical question of what it means to be human

PHIL 181 Ethics (3 Credit Hours)
This course is a general introduction to ethics and moral philosophy.
Knowledge Area: Ethics
Course equivalencies: PHIL 181 / PHIL 281 /ACPHI 281
Outcomes:
Students will be able to demonstrate understanding of criteria for choosing between conflicting ethical theories, moral disagreement, the justification of moral judgments, and the application of ethical standards to practical decision-making and ethical questions that arise in everyday life

PHIL 182 Social and Political Philosophy (3 Credit Hours)
This course will investigate one of the central questions of philosophy and social theory: how we, as human beings, should live together.
Knowledge Area: Ethics
Course equivalencies: PHIL162/182/262/282/ACPHI205
Outcomes:
Students will be able to demonstrate understanding of the major philosophical questions in the area of social philosophy with attention to the historical and conceptual development of these questions and be able to articulate some of the major problems and responses central to this area of philosophy

PHIL 190 Loyola's Mission: The Philosophical Vision (3 Credit Hours)
Enrollment is limited to transfer students with 30 or more credit hours. The course introduces transfer students to the mission of LUC, especially "Transformative Education," by means of the methodology of philosophy."
Outcomes:
Students who take the course acquire an intellectual and experiential assimilation of LUC's mission, especially as it relates to "Transformative Education

PHIL 191 Traditional Chinese Philosophy (3 Credit Hours)
Students will investigate Chinese ancient philosophy in a way to let its own tendencies be sensed and appreciated. Topics include Confucianism, Mencius, Sunzi, Taoism, Legalism, Yin-Yang School, Tung Chung-shu, Chinese Buddhism and Neo-Confucianism. In addition, students learn about the relations among different schools or different thinkers in the same school. Comparisons between Chinese philosophies and western ones are encouraged.
Knowledge Area: Tier 2 Philosophical Knowledge
Interdisciplinary Option: Asian Studies, Chinese Language & Culture
Course equivalencies: X-PHIL191/ASIA191

PHIL 192 Chinese Ethics and Asian Values (3 Credit Hours)
This course offers an overview of the spirit of Chinese ethics, covering sacred and secular as well as intellectual and practical elements.
Knowledge Area: Tier 2 Philosophical Knowledge
Interdisciplinary Option: Asian Studies, Chinese Language & Culture, Global Studies
Course equivalencies: X-PHIL192/ASIA192/INTS192

PHIL 193 Contemporary Chinese Philosophy (3 Credit Hours)
Students will analyze the development of Chinese contemporary thought in its different stages: rejection of the tradition and its recent reevaluation.
Interdisciplinary Option: Asian Studies, Global Studies
Course equivalencies: X-PHIL193/ASIA193/INTS193

PHIL 262 Social & Political Philosophy - Civic Engagement (3 Credit Hours)
Pre-requisites: PHIL 130
This course will investigate one of the central questions of philosophy and social theory: how we, as human beings, should live together. Because it includes a service learning experience it satisfies the civic engagement core requirement.
This course satisfies the Engaged Learning requirement.
Course equivalencies: PHIL162/182/262/282/ACPHI205
Outcomes:
Students will be able to demonstrate understanding of the major philosophical questions in the area of social philosophy with attention to the historical and conceptual development of these questions, and be able to articulate some of the major problems and responses central to this area of philosophy

PHIL 263 Contemporary Ethical Issues - Civic Engagement (3 Credit Hours)
Pre-requisites: PHIL 130
This course explores ethical reasoning by considering a variety of contemporary issues in ethics. Because it includes a service learning experience it satisfies the civic engagement core requirement.
Outcomes:
Students will develop a deeper appreciation of moral problems, and will gain practice in using philosophical moral reasoning

PHIL 264 Health Care Ethics - Civic Engagement (3 Credit Hours)
Requirement: PHIL 130 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Philosophy or Department of Political Science. This course studies philosophical ethics as practiced in the health care setting. It includes a service-learning experience and satisfies the civic engagement core requirement.
Interdisciplinary Option: Bioethics
This course satisfies the Engaged Learning requirement.
Course equivalencies: PHL184/284BIET184PHL164BIET164
Outcomes:
Students will be able to demonstrate understanding of traditional moral theories in a health care framework, as well as the varieties of ethical challenges facing contemporary health care

PHIL 267 Aesthetics - Civic Engagement (3 Credit Hours)
Requirement: PHIL 130 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Philosophy or Department of Political Science. The course explores philosophical issues in aesthetics like the nature of art and beauty through, in part, service-learning in retirement communities and theaters, as examples.
Knowledge Area: Tier 2 Philosophical Knowledge
Outcomes:
Students will be able to demonstrate their understanding of aesthetics and the value of leadership development and civic engagement

PHIL 271 Philosophy of Religion (3 Credit Hours)
Requirement: PHIL 130 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Philosophy or Department of Political Science. This course explores the development, not only of some classic positions within the philosophy of religion, but also of how these views have affected the formulation of more contemporary discussions.
Knowledge Area: Tier 2 Philosophical Knowledge
Course equivalencies: PHIL 171 / PHIL 271
Outcomes:
Students will be able to demonstrate understanding of the enterprise of using reason, broadly construed, to articulate issues arising out of religious belief and practice and to formulate and defend positions with respect to those issues

PHIL 272 Metaphysics (3 Credit Hours)
Requirement: PHIL 130 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Philosophy or Department of Political Science. This course examines the fundamental principles by which the nature of reality can be explained.
Knowledge Area: Tier 2 Philosophical Knowledge
Course equivalencies: PHIL 172 / PHIL 272
Outcomes:
Students will be able to demonstrate understanding of the central issues surrounding the field of metaphysics

PHIL 273 Philosophy of Science (3 Credit Hours)
Requirement: PHIL 130 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Philosophy or Department of Political Science. This course examines the nature of scientific knowledge and its claim to possess a distinctive method of inquiry.
Knowledge Area: Tier 2 Philosophical Knowledge
Interdisciplinary Option: Neuroscience
Course equivalencies: PHIL 173 / PHIL 273
Outcomes:
Students will be able to demonstrate understanding of the mode of inquiry which is the scientific method

PHIL 274 Logic (3 Credit Hours)
Requirement: PHIL 130 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Philosophy or Department of Political Science. This course is a detailed study of the deductive methods and principles of correct reasoning, from both the traditional and modern point of view.
Knowledge Area: Tier 2 Philosophical Knowledge
Course equivalencies: PHIL 174/PHIL 274/ACPHI 274
Outcomes:
Students will be able to formally analyze, evaluate, and demonstrate the various aspects of argumentation

PHIL 275 Theory of Knowledge (3 Credit Hours)
Requirement: PHIL 130 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Philosophy or Department of Political Science. This course examines both the nature and the reliability of human knowledge.
Knowledge Area: Tier 2 Philosophical Knowledge
Course equivalencies: PHIL 175 / PHIL 275
Outcomes:
Students will be able to demonstrate understanding of the various approaches to the study of knowledge

PHIL 276 Philosophy of Mind (3 Credit Hours)
This course is a study of the different philosophical views regarding the nature and the existence of the mind and its relation to material bodies.
Interdisciplinary Option: Neuroscience
Course equivalencies: X-PSYC 276/ PHIL 276/PHIL 176
Outcomes:
Students will be able to demonstrate understanding of the various philosophical views and problems regarding the mind and its relation to matter

PHIL 277 Aesthetics (3 Credit Hours)
Requirement: PHIL 130 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Philosophy or Department of Political Science. This course will explore one or more of the following philosophical questions in aesthetics: What is art? What is good art (art evaluation or critical theory)? What is beauty? What is it about human nature that allows us to experience beauty?
Knowledge Area: Tier 2 Philosophical Knowledge
Course equivalencies: PHIL 177 / PHIL 276
Outcomes:
Students will be able to demonstrate understanding of the various approaches to the philosophical study of beauty and the arts

PHIL 277R Aesthetics: the Aesthetic Experience in Rome (3 Credit Hours)
Pre-requisites: PHIL 130 or HONR 101
This course will explore one or more of the following philosophical questions in aesthetics, with reference particularly to aesthetic experience in Rome: What is art? What is good art (art evaluation or critical theory)? What is beauty? What is it about human nature that allows us to experience beauty?
Knowledge Area: Tier 2 Philosophical Knowledge
Interdisciplinary Option: Italian Studies
Course equivalencies: PHIL 177 / PHIL 276
Outcomes:
Students will be able to demonstrate understanding of the various approaches to the philosophical study of beauty and the arts

PHIL 279 Judgment and Decision-Making (3 Credit Hours)
Pre-requisites: Requirement: PHIL 130 for students admitted to Loyola University for Fall 2012 or later
This course examines the philosophical and psychological foundations of decision-making. Students can take only one course from PHIL 279, PSYC 279, PSYC 280. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Philosophy or Department of Political Science.
Knowledge Area: Tier 2 Philosophical Knowledge
Outcomes:
Students will be able to demonstrate understanding of the principles of reasoning and decision-making

PHIL 283 Business Ethics (3 Credit Hours)
Effective Spring 2007 students who have taken and successfully passed PHIL 185 are not eligible to take MGMT 341. This course is an introduction to ethics which focuses on ethical issues in the world of business and commerce.
Course equivalencies: PHIL185/283/MGMT341/H/BHNR341
Outcomes:
Students will be able to examine and assess various ethical theories and apply those theories to ethical issues in business

PHIL 284 Health Care Ethics (3 Credit Hours)
Requirement: PHIL 130 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Philosophy or Department of Political Science. This course studies philosophical ethics as practiced in the health care setting.
Knowledge Area: Tier 2 Philosophical Knowledge
Interdisciplinary Option: Bioethics
Course equivalencies: PHL184/284BIET184PHL164BIET164
Outcomes:
Students will be able to demonstrate understanding of traditional moral theories in a health care framework, as well as the varieties of ethical challenges facing contemporary health care

PHIL 285 Contemporary Ethical Issues (3 Credit Hours)
This course explores ethical reasoning through consideration of a variety of contemporary issues in ethics, such as: abortion, euthanasia, corruption, discrimination, poverty, and justice.
Interdisciplinary Option: Bioethics, Black World Studies, Bioethics, Black World Studies
Outcomes:
Students will develop a deeper appreciation of moral problems and will gain practice at using philosophical moral reasoning to come to justifiable ethical choices and answers

PHIL 286 Ethics and Education (3 Credit Hours)
Requirement: PHIL 130 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Philosophy or Department of Political Science. This course examines philosophical ethics as it informs and guides the activity of teaching.
Knowledge Area: Tier 2 Philosophical Knowledge
Outcomes:
Students will be able to examine and assess various ethical theories and apply those theories to ethical issues in teaching

PHIL 287 Environmental Ethics (3 Credit Hours)
Requirement: PHIL 130 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Philosophy or Department of Political Science. This course introduces students to ethical reasoning and to various topics in environmental ethics. Topics may include: pollution, animal rights, and natural resources.
Knowledge Area: Tier 2 Philosophical Knowledge
Interdisciplinary Option: Bioethics
Course equivalencies: PHIL187/BIET187
Outcomes:
Students will demonstrate an understanding of diverse ethical theories and an ability to use philosophical reasoning to defend positions in topics covered

PHIL 288 Culture and Civilization (3 Credit Hours)
Requirement: PHIL 130 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Philosophy or Department of Political Science. This course examines the nature, causes, and possible future development of human culture and civilization.
Knowledge Area: Tier 2 Philosophical Knowledge
Course equivalencies: PHIL 288/288R
Outcomes:
Students will be able to demonstrate understanding of the various approaches to the philosophical study of human culture and civilization

PHIL 288R Culture & Civilization in Rome (3 Credit Hours)
Pre-requisites: PHIL 130
This course examines the nature, causes, and possible future development of human culture and civilization with an emphasis on Italian philosophers during the Renaissance.
Knowledge Area: Tier 2 Philosophical Knowledge
Interdisciplinary Option: Italian American Studies, Italian Studies
Course equivalencies: PHIL 288/288R
Outcomes:
Students will be able to demonstrate understanding of the various approaches to the philosophical study of human culture and civilization

PHIL 289 Philosophy and Gender (3 Credit Hours)
This course considers gender as a philosophical question. Is gender simply a biological truth, or is it a social construct? How does gender affect our roles and opportunities in society? Should gender play a role in discussion of human rights?
Outcomes:
The student will develop a philosophical understanding of gender and will be able to articulate in a thoughtful manner understanding of issues concerning ethics, society and biology concerning gender

PHIL 301 Symbolic Logic (3 Credit Hours)
This course is an introduction to the study of modern symbolic logic, emphasizing formalization and proof construction. The student is introduced to the terminology and chief concepts of modern logic.
Outcomes:
Students will be able to symbolically analyze, evaluate, and demonstrate the various aspects of formal reasoning

PHIL 302 Topics in Formal Logic (3 Credit Hours)
Selected topic regarding logical theory or metatheory, such as the completeness of formal systems, non-standard logics, computability, foundational issues regarding mathematics.
Outcomes:
Students will develop an advanced understanding of the selected topic in formal logic

PHIL 304 History of Ancient Philosophy (3 Credit Hours)
Pre-requisites: Students must have taken at least two philosophy courses
This course studies the philosophies of the ancient Greeks, including the pre-Socratics, Plato, and Aristotle.
Interdisciplinary Option: European Studies, Italian Studies
Course equivalencies: X-PHIL304/CLST304
Outcomes:
Students will be able to understand and articulate philosophical problems and answers representative of the ancient Greek philosophers

PHIL 305 Medieval Philosophy (3 Credit Hours)
This course studies the philosophies of the major thinkers of the 4th to the 12th centuries, such as Augustine, Scotus, Boethius, Avicenna, Anselm, Abelard, Maimonides, and Averroes.
Interdisciplinary Option: Catholic Studies, European Studies, Medieval Studies
Course equivalencies: X-PHIL305/CATH305/MSTU344
Outcomes:
Students will be able to understand and articulate philosophical problems and answers representative of the early medieval philosophers

PHIL 306 19th Century Philosophy (3 Credit Hours)
Pre-requisites: Students must have taken at least two philosophy courses
This course studies 19th century post-Kantian philosophy from idealism toward phenomenology. May include philosophers such as Hegel, Nietzsche, and Husserl.
Interdisciplinary Option: European Studies, German Studies
Outcomes:
Students will be able to understand and articulate philosophical problems and answers representative of 19th century post-Kantian philosophy

PHIL 307 13th & 14th Century Philosophy (3 Credit Hours)
This course studies major thinkers of the 13th and 14th centuries, such as Albertus Magnus, Aquinas, Scotus, William of Ockham, Roger Bacon.
Interdisciplinary Option: Catholic Studies, European Studies
Course equivalencies: X-PHIL307/CATH307
Outcomes:
Students will be able to understand and articulate philosophical problems and answers representative of the late medieval philosophers

PHIL 308 Islamic Philosophy (3 Credit Hours)
Covers the development of classical Islamic philosophy from 800 to 1200 CE. Attention will be given to the central topics (God, the cosmos, knowledge, the human good) with which Muslim philosophers were concerned and to major figures such as Al-Kindi, Al-Farabi, Ibn Sina (Avicenna). Al-Ghazali and Ibn Rushd (Averroes).
Interdisciplinary Option: Islamic World Studies, Islamic World Studies
Course equivalencies: X-PHIL308THEO357MSTU334IWS308
Outcomes:
Students will be able to articulate and discuss major philosophical problems of concern to Muslim philosophers of the classical period

PHIL 309 Classical Modern Philosophy (3 Credit Hours)
Pre-requisites: Students must have taken at least two philosophy courses
This course studies selected philosophers from the early modern period, such as Descartes, Spinoza, Leibniz, Locke, Hume, Berkeley, Kant.
Interdisciplinary Option: European Studies, German Studies
Outcomes:
Students will be able to understand and articulate philosophical problems and answers representative of the early modern philosophers

PHIL 310 Issues in Philosophy of Human Nature (3 Credit Hours)
Pre-requisites: Students must have taken at least two philosophy courses
This course gives intensive consideration to various issues that pertain to being human, such as freedom, determinism, person, society, mind-body, immortality, etc.
Outcomes:
Students will be able to understand and articulate a deeper awareness of philosophical problems and answers regarding key issues of human nature

PHIL 311 Issues in Metaphysics (3 Credit Hours)
Pre-requisites: Students must have taken at least two philosophy courses
This course studies various philosophical issues regarding the nature of all reality, including existence, causality, relations, abstract entities, purpose, the possibility of knowledge of reality.
Outcomes:
Students will be able to understand and articulate a deeper awareness of philosophical problems and answers regarding key metaphysical issues

PHIL 312 Problems in the Philosophy of God (3 Credit Hours)
Pre-requisites: Students must have taken at least two philosophy courses
This course studies classical and contemporary approaches to knowledge of the existence of God, divine attributes, good and evil, providence and human freedom.
Interdisciplinary Option: Catholic Studies
Outcomes:
Students will be able to understand and articulate a deeper awareness of philosophical problems and answers regarding philosophical views of God

PHIL 318 Philosophy of Art (3 Credit Hours)
Reading and discussion of selected philosophical texts concerning the nature of art and artistic experience.
Outcomes:
Students will be able to understand and articulate philosophical problems and answers to questions regarding the nature of art and artistic experience

PHIL 319 Studies in Philososphy & Literature (3 Credit Hours)
This course is a study of selected works of literature and a discussion of philosophical issues in relation to these works.
Outcomes:
Students will be able to understand and articulate a deeper awareness of philosophical problems and answers to questions regarding the nature of literary work, the relations of philosophical and literary language, and methods of interpretation

PHIL 320 The Philosophy of St Augustine (3 Credit Hours)
This course is a study of the principal works of Augustine, such as the Confessions, City of God.
Interdisciplinary Option: Catholic Studies, Medieval Studies
Course equivalencies: X-PHIL320/CATH320/MSTU346
Outcomes:
Students will be able to understand and articulate philosophical problems and answers found in the works of Augustine

PHIL 321 Ethics and Society (3 Credit Hours)
Pre-requisites: Students must have taken at least two philosophy courses
This course is a study of the rights, duties, and virtues of individuals as members of societies, covering issues such as family and state, social justice, international society, war, and globalization.
Interdisciplinary Option: Sociolegal Studies
Outcomes:
Students will be able to understand and articulate a deeper awareness of philosophical problems and answers to questions regarding ethics in social contexts

PHIL 322 Philosophical Perspectives on Woman (3 Credit Hours)
Philosophical reflections on being a woman. Topics such as womanhood, representations of women, self-respect, oppression, affirmative action, sexism, and racism.
Interdisciplinary Option: Women & Gender Studies
Course equivalencies: X-PHIL322/WOST322/WSGS322
Outcomes:
Students will be able to understand and articulate a deeper awareness of philosophical problems and answers to questions regarding conceptions of and experience of being a woman

PHIL 323 Philosophy of Law (3 Credit Hours)
This course pursues a philosophical analysis of law. It deals with topics such as philosophical presuppositions of law, origin and purpose of law, law as social control, current legal problems involving ethical issues.
Interdisciplinary Option: Sociolegal Studies
Outcomes:
Students will be able to understand and articulate philosophical problems and answers to questions regarding law and its applications

PHIL 324 Topics in Ethics (3 Credit Hours)
Pre-requisites: Students must have taken at least two philosophy courses
This course studies a particular topic selected from the field of ethics.
Outcomes:
Students will be able to understand and articulate a deeper awareness of philosophical problems and answers to questions regarding the selected topic

PHIL 324B Bioethics Minor Capstone: Philosophical Topics (3 Credit Hours)
Pre-requisites: Two Science courses and two Ethics courses
This course number will only be used when PHIL 324 is tagged with the Bioethics Minor Capstone course.
Interdisciplinary Option: Bioethics
Outcomes:
Students will understand the connection between ethical and scientific issues with regard to the special topic in philosophy

PHIL 325 Ethics & Case Based Reasoning (3 Credit Hours)
Pre-requisites: Two previous philosophy courses
This course is an engaged learning course that provides students with a unique opportunity to practice applying moral theories and argumentative principles to personal and social- ethical problems, and to teach middle school students how to do the same. The course focuses on presenting solutions to cases and hence involves research, writing, and oral presentation.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students will be able to understand and articulate a deeper awareness of philosophical problems and answers to questions using a case based system

PHIL 326 Political Philosophy (3 Credit Hours)
This course is an examination of the major theories of political society, studying important aspects of political society and their relationships to human nature.
Interdisciplinary Option: Sociolegal Studies
Outcomes:
Students will be able to understand and articulate philosophical problems and answers to questions regarding the nature of political society in relation to its members

PHIL 327 Topics in Political Philosophy (3 Credit Hours)
This course will concentrate on a specific issue or issues in political philosophy. Typical topics include civil disobedience, war and peace, political revolution, punishment, and criminal justice.
Outcomes:
Students will be able to understand and articulate a deeper awareness of philosophical problems and answers to questions regarding the selected topic

PHIL 330 Theory of Knowledge (3 Credit Hours)
Pre-requisites: Students must have taken at least two philosophy courses
This course will study major philosophical positions regarding knowledge, belief, thought and language, truth, evidence, reason, perception, skepticism.
Outcomes:
Students will be able to understand and articulate philosophical problems and answers to questions regarding the field of knowledge and related issues

PHIL 333 Language: Theories Ancient & Modern (3 Credit Hours)
Classical, modern, and contemporary philosophical theories on the nature and structure of human language.
Course equivalencies: X-LING333/PHIL333
Outcomes:
Students will be able to understand and articulate some philosophical problems and answers regarding the nature and structure of human language

PHIL 335 Asian Philosophy (3 Credit Hours)
A study of fundamental tenets of major Eastern philosophies (Chinese, Japanese, Indian) in comparison to Western tradition. Course may vary in emphasis on particular philosophies and themes.
Interdisciplinary Option: Asian Studies, Global Studies, Japanese Language and Culture
Course equivalencies: X-PHIL335/ASIA335/INTS334
Outcomes:
Students will be able to understand and articulate philosophical problems and answers to questions regarding Eastern philosophical thought

PHIL 340 Philosophy of St Thomas Aquinas (3 Credit Hours)
A study of the philosophy of Thomas Aquinas, including background regarding his life and medieval context.
Interdisciplinary Option: Catholic Studies, Medieval Studies
Course equivalencies: X-PHIL340/MSTU348
Outcomes:
Students will be able to understand and articulate philosophical problems and answers to questions regarding the thought of Aquinas and its medieval context

PHIL 342 Topics in the Catholic Philosophical Tradition (3 Credit Hours)
Pre-requisites: One class in philosophy or permission of instructor
This course examines the Catholic philosophical tradition, beginning with its roots in ancient Greek philosophy, through the medieval period in the work of figures such as St. Augustine and St. Thomas Aquinas, and up to and including contemporary Catholic philosophy.
Course equivalencies: X-CATH 303 / PHIL 342
Outcomes:
Students will be conversant and familiar with the Catholic philosophical tradition throughout its history, demonstrating proficiency in operating within the philosophical framework of this tradition

PHIL 344 Philosophy of Human Nature (3 Credit Hours)
The course explores at an advanced level the relation of human nature and aesthetics through, in part, service-learning in retirement communities and theaters, as examples.
Outcomes:
Students will be able to demonstrate advanced understanding of the relation between human nature and aesthetics and the value of leadership development and civic engagement

PHIL 350 Directed Reading (3 Credit Hours)
Pre-requisites: Students must have taken at least two philosophy courses
Independent research according to program developed jointly by the student and a faculty director. Open to majors and to non-majors with the permission of the chairperson.
Outcomes:
Students will be able to understand and articulate philosophical problems and answers regarding the selected topic

PHIL 355 Neuroethics (3 Credit Hours)
Pre-requisites: students must have taken at least two philosophy courses
This course focuses on ethical considerations emerging from contemporary research in neuroscience, as well as neuroscientific techniques for studying ethical questions. Students will be able to demonstrate understanding of the ways in which the study of ethics and neuroscience inform each other
Interdisciplinary Option: Bioethics
Course equivalencies: X - PSYC355/PHIL355

PHIL 360 Contemporary European Philosophy (3 Credit Hours)
Pre-requisites: Students must have taken at least two philosophy courses
Readings and discussion drawn from contemporary French and German philosophers, such as Merleau-Ponty, Sartre, Heidegger, Derrida, Foucault.
Interdisciplinary Option: European Studies
Outcomes:
Students will be able to understand and articulate philosophical problems and answers representative of contemporary French and German philosophy

PHIL 362 The British Philosophers (3 Credit Hours)
Readings and discussion drawn from early modern and modern British philosophers such as Hobbes, Locke, Hutcheson, Hume, Smith, Bentham, Mill.
Outcomes:
Students will be able to understand and articulate philosophical problems and answers representative of early British philosophy

PHIL 369 Philosophy of Medicine (3 Credit Hours)
Pre-requisites: Students must have taken at least two philosophy courses
This course investigates philosophical questions concerning the practice of medicine, such as the epistemology of medicine, the nature of health and disease, what is a profession, and the nature of suffering.
Interdisciplinary Option: Bioethics
Course equivalencies: X-PHIL369/BIET369
Outcomes:
The student will develop a critical understanding of the practice of medicine from a philosophical point of view

PHIL 370 Intro to American Philosophy (3 Credit Hours)
This course studies American Philosophers such as Peirce, James, Dewey, with an evaluation of their principles.
Outcomes:
Students will be able to understand and articulate philosophical problems and answers representative of American philosophy

PHIL 374 Philosophy of History (3 Credit Hours)
Study of the nature of historical knowledge and of theories concerning historical process.
Outcomes:
Students will be able to understand and articulate philosophical problems and answers regarding history as a discipline and a historical process

PHIL 375 Philosophy of Marxism (3 Credit Hours)
A study of the philosophical dimensions of the thought of Karl Marx, his 19th century precursors and 20th century interpreters.
Interdisciplinary Option: German Studies
Course equivalencies: PHIL394/PHIL375
Outcomes:
Students will be able to understand and articulate philosophical problems and answers to questions regarding the thought of Karl Marx and Marxism

PHIL 380 Topics in Philosophy of Religion (3 Credit Hours)
Pre-requisites: Students must have taken at least two philosophy courses
This course studies various philosophical issues regarding religion. May include issues such as religious concepts, types of religion, divine attributes, free will and providence, problem of evil.
Course equivalencies: PHIL391/PHIL380
Outcomes:
Students will be able to understand and articulate a deeper awareness of philosophical problems and answers regarding key religious issues

PHIL 381 Philosophy of Science (3 Credit Hours)
Readings and discussion of selected texts regarding theories of scientific methods, scientific reasoning, metaphysical foundations of science, philosophical problems of scientific theories about physical reality.
Outcomes:
Students will be able to understand and articulate philosophical problems and answers regarding scientific inquiry and theory

PHIL 382 Philosophy of Social Science (3 Credit Hours)
Study of philosophical issues in the practice of contemporary behavioral sciences: theory, fact and value, causality, relativism, functionalism, statistical generalization, social planning.
Outcomes:
Students will be able to understand and articulate philosophical problems and answers regarding issues in the behavioral sciences

PHIL 383 Philosophy of Psychology (3 Credit Hours)
Pre-requisites: Students must have taken at least two philosophy courses
A philosophical analysis of theoretical positions in psychology. May include issues regarding methodology, perception, learning theory, rationality, emotions.
Outcomes:
Students will be able to understand and articulate philosophical problems and answers regarding issues in the field of psychology

PHIL 384 Topics in Philosophy & Science (3 Credit Hours)
Particular topics selected from philosophy and science. Typical topics include the Scientific Revolution, positivism, space and time, relativity theory, cosmology, evolution.
Outcomes:
Students will be able to understand and articulate philosophical problems and answers regarding the selected topic

PHIL 385 Environmental Ethics (3 Credit Hours)
This course will examine a number of controversial moral issues involving our environment. Theoretical and applied topics may include animal rights and species rights, nonwestern environmental perspectives, ecofeminism, duties to future generations, overpopulation, pollution, nuclear power, and environmental issues in policy making and business ethics.

PHIL 386 Analytic Philosophy (3 Credit Hours)
A survey of 20th century British and American philosophy in the analytic tradition, including philosophers such as Russell, Moore, Wittgenstein, Carnap, Quine.
Outcomes:
Students will be able to understand and articulate philosophical problems and answers regarding the analytic tradition in philosophy

PHIL 387 Philosophy of Mind (3 Credit Hours)
Pre-requisites: Students must have taken at least two philosophy courses
This course is a critical study of issues such as the mind-body problem, personal identity, knowledge of other minds, consciousness, perception.
Interdisciplinary Option: Neuroscience
Outcomes:
Students will be able to understand and articulate philosophical problems and answers regarding issues in the philosophy of mind

PHIL 388 History of Ethics (3 Credit Hours)
An intensive study of the ethical theories of several major figures in the history of western moral philosophy, including, for example, the systems of Aristotle, Kant, and Mill.
Outcomes:
Students will develop a more advanced understanding of philosophical problems and answers to questions in the field of ethics by means of this historical study

PHIL 389 Contemporary Issues (3 Credit Hours)
Pre-requisites: Students must have taken at least two philosophy courses
Study of a selected topic in some area of contemporary philosophy.
Interdisciplinary Option: Black World Studies
Outcomes:
Students will be able to understand and articulate philosophical problems and answers regarding the selected topic

PHIL 390 Independent Study for Majors (3 Credit Hours)
Pre-requisites: Students must be a philosophy major with adequate background
In-depth independent research developed jointly by the student and a faculty director. The topic should be one with which the student has some familiarity so that the research can be an examination of it in-depth.
Outcomes:
Students will be able to understand and articulate philosophical problems and answers regarding the selected topic

PHIL 391 Topics in Philosophy of Religion (3 Credit Hours)
PHIL 391 was re-numbered to PHIL 380.
Course equivalencies: PHIL391/PHIL380

PHIL 393 Philosophy & The Human Sciences (0 Credit Hours)
This seminar explores a selected theme in health care ethics. Extensive use is made of visiting guest experts. Students should have completed four courses in philosophy, including a course in health care ethics.
Outcomes:
Students will develop a more advanced philosophical understanding of health care ethics, through direct student participation in an interactive seminar environment

PHIL 395 Seminar in Ancient Philosophy (3 Credit Hours)
This course will study selected issues from ancient philosophy. Course intended for philosophy majors. Students should have completed five philosophy courses, including PHIL 304.
Outcomes:
Students will develop a more advanced understanding of ancient philosophy, through direct student participation in an interactive seminar environment

PHIL 396 Seminar in Medieval Philosophy (3 Credit Hours)
This course will study selected issues from ancient philosophy. Course intended for philosophy majors. Students should have completed five philosophy courses, including a course in medieval philosophy.
Interdisciplinary Option: Medieval Studies
Course equivalencies: X-PHIL396/MSTU350
Outcomes:
Students will develop a more advanced understanding of medieval philosophy, through direct student participation in an interactive seminar environment

PHIL 397 Capstone Seminar in Classical Modern Philosophy (3 Credit Hours)
This course will study selected issues from early modern philosophy. Course intended for philosophy majors. Students should have completed five philosophy courses, including PHIL 309.
Outcomes:
Students will develop a more advanced understanding of early modern philosophy, through direct student participation in an interactive seminar environment

PHIL 398 Capstone Seminar in Contemporary Philosophy (3 Credit Hours)
Pre-requisites: Course intended for philosophy majors
Students should have completed at least five philosophy courses. This course will study selected issues in contemporary philosophy. Course intended for philosophy majors. Students should have completed five philosophy courses.
Outcomes:
Students will develop a more advanced understanding of contemporary philosophy, through direct student participation in an interactive seminar environment

PHIL 399 Capstone Seminar on a Topic in Philosophy (3 Credit Hours)
Pre-requisites: Course intended for philosophy majors
Students should have completed at least five philosophy courses. This course engages the student in an analysis and discussion of special problems found in various areas of philosophy. Student should have completed five philosophy courses.
Outcomes:
Students will develop a more advanced understanding of the philosophical enterprise, through direct student participation in an interactive seminar environment

Ethics and Moral Philosophy Minor

Ethics is a central area of human concern and human inquiry. A special concern with ethics and human values is one of things that defines Loyola University Chicago and the Jesuit Tradition. Philosophy and philosophical treatments of ethics and ethical theory are foundational for the critical discussion of ethical issues in other fields. The Minor in Ethics and Moral Philosophy can prove to be a significant credential for some students, both for finding employment and for admission to graduate or professional school, as there is increasing attention to the study of ethics in professional schools.

Curriculum

For this minor a student must take six courses in ethics. At least four of these six courses must be taken from the Philosophy Department, and at least two of them must be at the 300-level.

As many as two ethics courses can be taken outside of the Philosophy Department. Philosophy Majors cannot receive the Minor in Ethics and Moral Philosophy.

All sections of any the following courses count for the Minor in Ethics and Moral Philosophy:

Code	Title	Hours
PHIL 181	Ethics	3
PHIL 182	Social and Political Philosophy	3
PHIL 284	Health Care Ethics	3
PHIL 285	Contemporary Ethical Issues	3
PHIL 286	Ethics and Education	3
PHIL 288	Culture and Civilization	3
PHIL 289	Philosophy and Gender	3
PHIL 321	Ethics and Society	3
PHIL 323	Philosophy of Law	3
PHIL 324	Topics in Ethics	3
PHIL 369	Philosophy of Medicine	3
PHIL 385	Environmental Ethics	3
PHIL 388	History of Ethics	3
THEO 192	Topics in Moral Problems	3
THEO 340	Foundations of Christian Morality	3
THEO 342	Perspectives on Life and Death	3
THEO 344	Theology and Ecology	3

Note that, in addition to the courses listed above, individual sections of courses that are not on this list but which are taught as ethics classes can count towards the minor on a case by case basis. For example, some sections of topics courses, such as PHIL 389 and PHIL 398, can count towards the minor, provided such courses are ethics courses. Also, two or more sections of one topics in ethics course, such as, PHIL 324, can count towards the minor, if those sections are different ethics courses.

Note also that a student can incorporate the courses taken for the Core Curriculum into this minor, in such a way that only some additional courses are needed to complete this minor. For example, a student can take two Core philosophy area courses in ethics and one Core theology area course in ethics. That student would then take three additional ethics courses (of which two are from Philosophy at the 300-level) in order to receive the Minor in Ethics and Moral Philosophy. This feature can be useful in planning the courses for one's minor.

For more information about this minor program, contact the Philosophy Undergraduate Program Director Richard Kim (rkim7@luc.edu).

Double-Dipping Policy

1. Students may not major and minor in the same discipline.
2. Majors: Not less than 21 credit hours in the individual student's transcript must be unique to each major; that is, the courses in question are considered as actually fulfilling requirements of one major, not of more than one major.
3. Minors and interdisciplinary minors: not less than 8 credit hours in the individual student's transcript must be unique to each minor;

that is, the courses in question are considered as actually fulfilling requirements of one minor, not of more than one minor or major.

Honors in Philosophy

Requirements and Steps

1. **Be a philosophy major and have a GPA of at least 3.5 in Philosophy**
2. **Write an Honors Thesis and pass an Oral Defense on the thesis**
3. **Take one extra upper-level Philosophy course**

Start by contacting the Philosophy Undergraduate Program Director. A student pursuing honors in philosophy chooses a topic to research and selects a faculty member who agrees to supervise the student's work on the thesis. The Undergraduate Program Director assists the student in setting up a committee for the oral defense consisting of the faculty member who supervised the thesis and two additional faculty members.

The student may develop the thesis from an earlier paper written for a philosophy course. Also, the student may take the required extra philosophy course as a directed readings course with his or her faculty supervisor.

A draft of the thesis must be completed early enough in the semester that the faculty supervisor can make comments for possible revision. The other members of the defense committee may offer feedback if they wish.

When the thesis is completed, an oral defense of the thesis is scheduled, usually by the student and his or her faculty supervisor. The three faculty members participating in the oral defense then vote on whether the student has passed the defense.

Frequently Asked Questions

Do I need to be a member of the Interdisciplinary Honors Program in order to graduate with honors in philosophy?

Answer: No. The two programs are completely independent of each other.

When do I need to sign up or declare that I want to graduate with honors in philosophy?

Answer: For a student graduating in the spring, it is a good idea to start the process sometime in the fall semester of one's final year in order to allow ample time to get things done. However, a student may sign up as late as the first few weeks of the spring semester.

How do I sign up?

Answer: Contact the honors advisor in the Philosophy Department.

How long does the honors thesis need to be?

Answer: There is no set page minimum or maximum. The thesis should be a substantial paper. A student's faculty supervisor will help the student determine what is required in her or his chosen area of study.

Do I need to write the thesis "from scratch"?

Answer: No. Doing so is permitted, but students often start with a paper they have written for a philosophy class and revise, expand, deepen, and develop it into a bigger, better paper.

Do the above deadlines mean that I can submit my thesis during finals week?

Answer: No. The normal procedure is for a student to submit a draft of the thesis to the supervising faculty member (or to all three faculty members on the defense committee, if they are willing) of the student's thesis. The faculty supervisor (and perhaps the other faculty on the defense committee) critique the paper and return it to the student for revisions. The revised version of the thesis is then given to all three members of the committee approximately one week before the scheduled defense of the thesis. As a general rule, the student should expect to submit a draft by the tenth week of classes.

Who decides if the honors thesis and oral defense satisfy the requirements?

Answer: That determination is made by the three faculty members who take part in the student's oral defense of the thesis.

How long is the oral defense?

Answer: There is no required time limit, but typically the defense lasts between one and two hours. Usually, the student begins by summarizing the thesis (this might take 5–10 minutes) and then the faculty members ask the student questions about the thesis (or the research for it, or its applications) for about an hour. The student then leaves the room while the faculty members decide whether the student passed. The defense is not so much an examination as it is a discussion.

The Honors Thesis

The Honors Thesis is more than a paper written for a class. In general, it is longer, better developed, and more sophisticated. It should be similar to a paper written by a first year graduate student.

Minimally, the Honors Thesis must be a good philosophy paper, although we expect that a major working at honors will aim to make his or her thesis even better than that. The descriptions below indicate what to aim for and also what sort of work falls short of being even good.

Good:

- The thesis statement is clear and fully articulated
- The paper presents a well-reasoned argument without important steps in the argument being left out or difficult to find
- The reasons/premises are stated and relevant
- The reasons/premises support the argument, even if the reasons why they support the conclusions are not fully or clearly articulated
- The paper notes that there are counterarguments to its thesis and indicates how they might be responded to
- The paper uses textual references that contribute to its argument or its discussion of counterarguments
- The paper accurately interprets the texts it uses
- The paper offers some critical evaluation of its own thesis and/or arguments and/or of the counterarguments it identifies

Outstanding:

- The thesis statement is clearly and fully articulated
- The paper presents a clearly structured argument that is complete and easy to follow
- The reasons/premises are stated clearly and are relevant and internally coherent
- The reasons/premises directly support the argument and the explanation makes it clear why this is so

- The paper acknowledges and explicitly responds to counterarguments with sophistication
- The paper uses appropriate textual references whose presence is clearly helpful and explicitly explained
- The paper uses an accurate and insightful interpretation of the texts it uses
- The paper offers a thoughtful and persuasive critical evaluation of the various positions and arguments presented

Less Than Adequate:

- There is a thesis that is evident, but it is not clear and/or is not easy to find
- Argumentation is present, but is incomplete and/or its elements are difficult to find
- The reasons/premises of the argument are evident, but are incompletely or unclearly stated
- The reasons/premises lend support for the conclusions, but the conclusions do not follow unless other reasons/premises are assumed which are not stated and/or the relation between the stated reasons and their conclusions is not explained
- Some obvious counterarguments are noted, but others are missed and/or possible responses to those that are mentioned are absent
- Textual references are made but they are either not necessarily appropriate or their connection to the reasoning in the paper is unclear
- The interpretation of the texts that are used is fairly accurate and does not force the texts to fit a certain role in the paper
- The paper shows a few signs of critical evaluation regarding the various positions and arguments presented, but it is spotty and incomplete in this respect

For more information contact the Philosophy Undergraduate Program Director Richard Kim (rkim7@luc.edu).

Philosophy (BA)

The philosophy major at Loyola is *extremely* customizable and easily suited to your goals. Of the 11 courses required for the major, only 3 are fixed: PHIL 274 Logic, PHIL 304 History of Ancient Philosophy, and PHIL 309 Classical Modern Philosophy. Beyond that, you have flexibility to chart your own course. You can also choose to specialize in one of four areas: Ethics & Values (E&V); Law, Society, & Social Justice (LSSJ); Mind & Science (M&S); or Existence, Meaning, & Culture (EMC). (See Philosophy Major Specializations for more details.)

For further information, please contact the Philosophy Undergraduate Program Director Richard Kim (rkim7@luc.edu).

Curriculum

Note that Philosophy majors are exempt from the general LUC PHIL 130 Philosophy & Persons *CORE requirement.*

All majors must take at least eleven (11) courses in philosophy. Seven of these courses must be at the 300-level (eight, if PHIL 301 Symbolic Logic is taken). Note that 300-level courses have a prerequisite of two philosophy courses. Each student's major program must include:

Code	Title	Hours
Major Requirements		
Ethics		
Select one of the following:		3
PHIL 181	Ethics	
PHIL 182	Social and Political Philosophy	
PHIL 283	Business Ethics	
PHIL 284	Health Care Ethics	
PHIL 285	Contemporary Ethical Issues	
PHIL 286	Ethics and Education	
PHIL 287	Environmental Ethics	
PHIL 288	Culture and Civilization	
PHIL 289	Philosophy and Gender	
300-level equivalent		
Epistemology		
Select one of the following:		3
PHIL 130	Philosophy & Persons	
PHIL 271	Philosophy of Religion	
PHIL 272	Metaphysics	
PHIL 273	Philosophy of Science	
PHIL 275	Theory of Knowledge	
PHIL 276	Philosophy of Mind	
PHIL 277	Aesthetics	
PHIL 279	Judgment and Decision-Making	
300-level equivalent		
Formal Logic		
PHIL 274	Logic	3
or PHIL 301	Symbolic Logic	
Ancient Philosophy		
PHIL 304	History of Ancient Philosophy	3
Classical Modern Philosophy		
PHIL 309	Classical Modern Philosophy	3
Philosophy Capstone Seminar		
Select one philosophy capstone seminar in a historical period or in a contemporary issue: [1]		3
PHIL 395	Seminar in Ancient Philosophy	
PHIL 396	Seminar in Medieval Philosophy	
PHIL 397	Capstone Seminar in Classical Modern Philosophy	
PHIL 398	Capstone Seminar in Contemporary Philosophy	
PHIL 399	Capstone Seminar on a Topic in Philosophy	
Electives		
Five other elective philosophy courses, of which at least four must be at the 300-level		15
Total Hours		**33**

[1] The department offers one capstone in each major specialization area each year.

Suggested Sequence of Courses

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

- First year—two core courses—in metaphysics/epistemology and ethics/social political (as above)

- Second year—three courses—in logic, ancient philosophy, and classical modern philosophy (PHIL 274 Logic / PHIL 301 Symbolic Logic, PHIL 304 History of Ancient Philosophy, PHIL 309 Classical Modern Philosophy)
- Third year—three courses—all electives, at least two at the 300-level
- Fourth year—three courses—two 300-level electives, plus a capstone seminar course

(Optional) Philosophy Major Specializations

Specializing within the major is *not* required. Declaring a general philosophy major is common and allows for the greatest flexibility in your course selection.

That said, choosing to pursue a philosophy specialization can help you to:

- Identify what fields within philosophy you find most fascinating and relevant;
- Plan a course of study within your major that emphasizes your interests;
- Signal to future employers and graduate schools the specific focus of your undergraduate degree.

The four areas of specialization within the philosophy major are: **Ethics & Values** (E&V); **Law, Society, & Social Justice** (LSSJ); **Mind & Science** (M&S); or **Existence, Meaning, & Culture** (EMC).

Specialization in Ethics and Values

Courses in the E&V specialization focus on ethical and moral issues, investigating how meaning, value, and moral responsibility operate to constitute an ethical human life. E&V courses each address some of the following topics: meta questions about value, the status of moral judgments, the nature of freedom, etc.; normative questions that encompass personal ethical choices, how individuals and groups should live together in a society, or ways to make ethical judgments; and applied questions about, for example, health care, education, or the environment. Potential topics include: Is moral value culturally relative? What makes something good? What is a good human life? Should voluntary euthanasia be legalized? What obligations does each person have, both to themselves and each other? Here concerns about moral rights, needs, capabilities, and character often play a role in deciding how we should go about making choices, especially when other people's interests are involved.

E&V Requirements

Code	Title	Hours
Ethics		
Select one of the following:		3
PHIL 181	Ethics (suggested)	
PHIL 182	Social and Political Philosophy	
PHIL 284	Health Care Ethics	
PHIL 287	Environmental Ethics	
PHIL 288	Culture and Civilization

Suggested Course Sequence

Year One (2 Courses)

- Ethics course
- Metaphysics/Epistemology course

Year Two (3 courses)

- Logic course
- Ancient Philosophy *or* Classical Modern Philosophy
- 300-level E&V course

Year Three (3 courses)

- Classical Modern Philosophy *or* Ancient Philosophy
- 300-level E&V course
- Philosophy elective

Year Four (3 courses)

- 300-level E&V course
- 300-level philosophy elective
- E&V Capstone Seminar

Specialization in Law, Society and Social Justice

Courses in the LSSJ specialization focus on questions of justice—which is to say questions of how we should best live together, structure our societies, and justify our systems of law— developing the ability to critically examine our existing communities, societies, and laws. Students with an LSSJ specialization gain a solid understanding of the philosophical foundations of law, politics, and governance, as well as insight into theories of social justice, economic justice, racial justice, gender justice, environmental justice, etc. LSSJ specialists are thus well-equipped to pursue advanced study of these questions (for example, in law school), to engage in socio-political critique, and/or to strive for positive social and political change.

LSSJ Requirements

Code	Title	Hours
Ethics		
Select one of the following:		3
PHIL 182	Social and Political Philosophy (suggested)	
PHIL 284	Health Care Ethics	
PHIL 287	Environmental Ethics	
PHIL 288	Culture and Civilization	
300-level equivalent		
Metaphysics/Epistemology		
Select one of the following:		3
PHIL 130	Philosophy & Persons	
PHIL 271	Philosophy of Religion	
PHIL 272	Metaphysics	
PHIL 273	Philosophy of Science	
PHIL 275	Theory of Knowledge	
PHIL 276	Philosophy of Mind	
PHIL 277	Aesthetics	
PHIL 279	Judgment and Decision-Making	
300-level equivalent		
Electives		
Select three 300-level LSSJ electives:		9

- Ethics course
- Metaphysics/Epistemology course

Year Two (3 courses)

- Logic course
- Ancient Philosophy *or* Classical Modern Philosophy
- 300-level LSSJ course

Year Three (3 courses)

- Classical Modern Philosophy *or* Ancient Philosophy
- 300-level LSSJ course
- Philosophy elective

Year Four (3 courses)

- 300-level LSSJ course
- 300-level philosophy elective
- LSSJ Capstone Seminar

Specialization in Mind and Science

Courses in the M&S specialization focus on topics in epistemology (the study of knowledge) and metaphysics (the study of reality and first principles), with a particular emphasis on philosophy of science and the philosophy of mind. Topics in epistemology include the nature of justification, certainty, belief, truth, and good reasoning; the nature of scientific inquiry; the roles of values in science; and decolonizing knowledge. Metaphysics covers issues that lie at the foundation of other disciplines, including the nature or existence of reality, soul, body, mind, God, freedom, and human persons. Addressing both historical and contemporary approaches to these topics, an M&S specialization complements further study in the fields of neuroscience, psychology, biology, physics, chemistry, medicine, mathematics, and other related disciplines.

M&S Requirements

Code	Title	Hours
Ethics		
Select one of the following:		3
PHIL 181	Ethics	
PHIL 182	Social and Political Philosophy	
PHIL 284	Health Care Ethics	
PHIL 287	Environmental Ethics

Suggested Course Sequence

Year One (2 Courses)

- Ethics course
- Metaphysics/Epistemology course

Year Two (3 courses)

- Logic course
- Ancient Philosophy *or* Classical Modern Philosophy
- 300-level M&S course

Year Three (3 courses)

- Classical Modern Philosophy *or* Ancient Philosophy
- 300-level M&S course
- Philosophy elective

Year Four (3 courses)

- 300-level M&S course
- 300-level philosophy elective
- M&S Capstone Seminar

Specialization in Existence, Meaning and Culture

Courses in the EMC specialization ask about how we find meaning, both as individuals and as parts of communities and cultures that precede and might outlast us. What does it mean to be a person? What is it like to be a person? How do we respond to, critique, and carry on the past? EMC courses are broadly conversant with and build upon 19th and 20th century European philosophy, focusing on issues in phenomenology (the study of experience), hermeneutics (the study of interpretation), existentialism, philosophical anthropology, feminist philosophy, gender theory, critical race theory, and aesthetics. Topics in these areas intersect with, but are not reducible to, issues in metaphysics, epistemology, and ethics. Specific approaches may be historical and/or conceptual, analytic and/or continental, intradisciplinary and/or interdisciplinary.

EMC Degree Requirements

- 300-level EMC course
- Philosophy elective

Year Four (3 courses)

- 300-level EMC course
- 300-level philosophy elective
- EMC Capstone Seminar

Learning Outcomes

Graduating Philosophy majors from Loyola University of Chicago are expected to demonstrate progress in three areas of philosophical knowledge – the history of philosophy; moral philosophy and related areas; and in the perennial philosophical problems related to knowledge and reality – as well as progress towards the mastery of philosophical methods and modes of expression.

- Demonstrate a general familiarity with major figures, schools and debates ranging from ancient Greece through the 20th century.
- Be able to recognize the significance of historical philosophy to ongoing philosophical debates and contemporary issues.
- Be able to recognize and appreciate the diversity of philosophical methodology across history.

- Be able to apply insights drawn from their study of the history of philosophy to ongoing philosophical debates.

In moral philosophy, students should...

- Demonstrate a general familiarity with the major theories of normative ethics.
- Be able to explain the issues at stake in some of the standard meta-ethical disputes in philosophy, for example moral relativism and other issues related to the objectivity of morality.
- Be able to apply such philosophical theories to analyze a range of moral issues from the individual to the social and political.

Regarding perennial philosophical problems, students should…

- Demonstrate a general familiarity with classical philosophical problems related to the nature of knowledge; the relationship between other varieties of inquiry, especially natural science, and philosophical wisdom; the nature of reality; the nature and existence of God; and the nature of human persons.
- Explain the significance of these problems and the arguments for and against various proposed responses to them.
- Be able to apply this understanding to construct and defend their own positions on at least some of these issues.

Regarding philosophical methodology, students should be able to…

- Interpret philosophical texts, especially be able to recognize and isolate central philosophical claims and the reasons offered in their defense.
- Recognize and evaluate the structure of a philosophical argument.
- Construct and articulate philosophical claims of their own, including the use of other philosophical work to clarify that claim and place it into appropriate context.
- Defend a philosophical claim, both orally and in writing, demonstrating especially a self-critical awareness of the weaknesses of one's own position and the value of rigorous argument and clarity of expression.

Philosophy Minor

In every major area of study there are questions about values or methodology that philosophy can explore. So, philosophy can deepen your understanding of your major field of study. In addition, philosophy trains a person to think rigorously about fundamental questions—to express ideas clearly and logically—to understand and evaluate conflicting points of view—to reason in a careful way. These intellectual skills are useful in almost any career. And of course, like every minor, philosophy is an area of knowledge that has its own intrinsic value.

Please contact our Undergraduate Program Director, Dr. Richard Kim (rkim7@luc.edu), with any questions!

Curriculum

All minors must take at least six courses in philosophy, at least two of these being 300-level courses.

Each student's minor program must include:

Code	Title	Hours
Select one lower-level philosophy course from the ethics group:		3
PHIL 181	Ethics	
PHIL 182	Social and Political Philosophy	
PHIL 283	Business Ethics	
PHIL 284	Health Care Ethics	
PHIL 285	Contemporary Ethical Issues	
PHIL 286	Ethics and Education	
PHIL 287	Environmental Ethics	
PHIL 288	Culture and Civilization	
PHIL 289	Philosophy and Gender	
Select one lower-level philosophy course from the metaphysics/epistemology group:		3
PHIL 130	Philosophy & Persons	
PHIL 271	Philosophy of Religion	
PHIL 272	Metaphysics	
PHIL 273	Philosophy of Science	
PHIL 274	Logic	
PHIL 275	Theory of Knowledge	
PHIL 276	Philosophy of Mind	
PHIL 277	Aesthetics	
PHIL 279	Judgment and Decision-Making	
Two elective philosophy courses at any level (e.g., another core course from either Tier 1 or Tier 2, or a 300-level course)		6
Two elective philosophy courses at the 300-level.		6
Total Hours		**18**

You can design a program to fit your own needs. If you plan a law career, for example, you would likely want to emphasize areas like reasoning, evidence and political theory. Academic counselors can help you design a program. What follows are some suggested sequences for students preparing for careers in law, business, medicine, or religion. Of course, the general requirements stated above must be incorporated in these suggested sequences.

Suggested Sequence of Courses

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

Suggested Minor Sequence in Pre-Law

Code	Title	Hours
PHIL 181	Ethics	3
PHIL 274	Logic	3
PHIL 182	Social and Political Philosophy	3
PHIL 275	Theory of Knowledge	3
or PHIL 330	Theory of Knowledge	
Select one of the following:		3
PHIL 323	Philosophy of Law	
PHIL 326	Political Philosophy	
or PHIL 327	Topics in Political Philosophy	
PHIL 375	Philosophy of Marxism	
One additional 300-level course		3
Total Hours		**18**

Suggested Minor Sequence in Pre-Business

Code	Title	Hours
PHIL 181	Ethics	3
or PHIL 182	Social and Political Philosophy	
PHIL 274	Logic	3
or PHIL 275	Theory of Knowledge	
PHIL 285	Contemporary Ethical Issues	3
Select one of the following:		3
PHIL 323	Philosophy of Law	
PHIL 321	Ethics and Society	
or PHIL 326	Political Philosophy	
or PHIL 327	Topics in Political Philosophy	
PHIL 375	Philosophy of Marxism	
One additional 300-level course		3
Total Hours		**15**

Suggested Minor Sequence in Pre-Health

Code	Title	Hours
PHIL 181	Ethics	3
PHIL 182	Social and Political Philosophy	3
PHIL 273	Philosophy of Science	3
or PHIL 381	Philosophy of Science	
PHIL 284	Health Care Ethics	3
Select two 300-level electives with the following being recommendations:		6
PHIL 321	Ethics and Society	
PHIL 369	Philosophy of Medicine	
PHIL 380	Topics in Philosophy of Religion	
Total Hours		**18**

Suggested Minor Sequence in Religion

Code	Title	Hours
PHIL 181	Ethics	3
PHIL 271	Philosophy of Religion	3
PHIL 305	Medieval Philosophy	3
or PHIL 340	Philosophy of St Thomas Aquinas	
PHIL 380	Topics in Philosophy of Religion	3
Select one additional 300-level course. Suggested courses include the following:		3
PHIL 310	Issues in Philosophy of Human Nature	
PHIL 312	Problems in the Philosophy of God	
Total Hours		**15**

Philosophy: Social Justice Emphasis (BA)

The Law, Society, and Social Justice specialization (p. 550) will eventually replace the existing BA in Philosophy with Social Justice Emphasis. However, you can still currently enroll in the Social Justice Emphasis major, if you would like. See below for more information about this option.

The BA in Philosophy with social justice emphasis forms in our students the habit of critical and positive reflection on the questions that challenge humanity today. Within the discipline of philosophy there are many subdisciplines, of which Social Justice is one of the most ancient and yet most relevant to our own day and the University's Mission.

The social justice emphasis has a distinctive theoretical-plus-applied character. The philosophy department already offers a significant number of strong undergraduate courses in this area, including not only various foundational studies in the nature of justice, but also the workings of justice in contemporary social and political contexts. The courses for this program will be offered in a carefully planned sequence and the faculty who teach them will make a conscious effort to highlight the Social Justice dimensions of their respective subject matter. For example, the program will have as its anchor course a special section of PHIL 321 Ethics and Society, modified to include a service learning component along the lines of the Magis program, and offered primarily for philosophy students who have declared a major with this emphasis. Also, the scheduling of the capstone seminars required of all philosophy majors (PHIL 395, PHIL 396, PHIL 397, PHIL 398, or PHIL 399) will ensure that an appropriate number are devoted to justice issues, for philosophy majors specializing in Social Justice.

Curriculum

There are eleven (11) courses that make up the Philosophy Major with an Emphasis in Social Justice. The required courses for this program are the same as those for the regular Philosophy major, except that PHIL 321 Ethics and Society, and three upper-level electives and the capstone seminar must have a Social Justice orientation. Note that 300-level courses have a prerequisite of two philosophy courses.

Code	Title	Hours
Major Requirements		
Ethics		
Select one of the following:		3
PHIL 181	Ethics	
PHIL 182	Social and Political Philosophy (strongly recommended)	
PHIL 283	Business Ethics	
PHIL 284	Health Care Ethics	
PHIL 285	Contemporary Ethical Issues	
PHIL 286	Ethics and Education	
PHIL 287	Environmental Ethics	
PHIL 288	Culture and Civilization	
PHIL 289	Philosophy and Gender	
300-level equivalent		
Metaphysics/Epistemology		
Select one of the following:		3
PHIL 130	Philosophy & Persons	
PHIL 271	Philosophy of Religion	
PHIL 272	Metaphysics	
PHIL 273	Philosophy of Science	
PHIL 275	Theory of Knowledge	
PHIL 276	Philosophy of Mind	
PHIL 277	Aesthetics	
PHIL 279	Judgment and Decision-Making	
300-level equivalent		
Philosophy		
PHIL 274	Logic	3
or PHIL 301	Symbolic Logic	

PHIL 304	History of Ancient Philosophy	3
PHIL 309	Classical Modern Philosophy	3
PHIL 321	Ethics and Society (anchor course)	3
Electives		
Select three 300-level social justice electives [1]		9
Select one open philosophy elective (any philosophy course at any level)		3
Capstone		
Select one capstone seminar with a social justice orientation		3
PHIL 395	Seminar in Ancient Philosophy	
PHIL 396	Seminar in Medieval Philosophy	
PHIL 397	Capstone Seminar in Classical Modern Philosophy	
PHIL 398	Capstone Seminar in Contemporary Philosophy	
PHIL 399	Capstone Seminar on a Topic in Philosophy	
Total Hours		**33**

[1] Social-justice-oriented electives include: PHIL 323 Philosophy of Law, PHIL 326 Political Philosophy, PHIL 327 Topics in Political Philosophy, PHIL 375 Philosophy of Marxism, PHIL 388 History of Ethics. They may also include, depending on content, PHIL 322 Philosophical Perspectives on Woman, PHIL 324 Topics in Ethics, PHIL 389 Contemporary Issues and 300-level courses pertaining to Bioethics when they focus on justice issues. Such decisions about course content will be made by the Philosophy Undergraduate Program Director.

Suggested Sequence of Courses

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

- First year—two core courses—in metaphysics/epistemology and ethics/social political (27x, 18x)
- Second year—three courses—in logic, ancient philosophy, and classical modern philosophy (PHIL 274 Logic / PHIL 301 Symbolic Logic, PHIL 304 History of Ancient Philosophy, PHIL 309 Classical Modern Philosophy)
- Third year—three courses—the anchor course PHIL 321 Ethics and Society, and two 300-level social justice electives
- Fourth year—three courses—two electives (of which one is 300-level social justice), plus a capstone social justice seminar

For further information, please contact the Philosophy Undergraduate Program Director Richard Kim (rkim7@luc.edu).

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

1. Analyze major texts in the history of philosophy.
2. Articulate major philosophical problems and their solutions, such as questions concerning truth and knowledge, reality, moral values, and justice.
3. Distinguish and explain different philosophical methodologies or approaches.
4. Explain and apply ethical frameworks.
5. Evaluate or construct arguments

Physics

About Us

Located on the beautiful, Lakeshore campus of Loyola Univeristy Chicago in Cudahy Science Hall, the Department of Physics prepares students for future STEM careers. Students in the Department of Physics will learn the principles of physics, contribute to new physical knowledge and seek to foster scientific integrity. These goals are consistent with the mission of Loyola University Chicago: searching for truth and living for others. The Department strives to create a welcoming environment for its students that encourages student success and supports their well being as they work toward their career goals at Loyola. The Department and the Physics Club hold several social events each year to build community among the Loyola physics students and faculty.

We offer several undergraduate degree plans (p. 557) with BS degree programs in Physics, Biophysics, Theoretical Physics/Applied Mathematics and Physics/Computer Science. We also offer a special dual degree in physics and engineering, wherein students receive a BS in Physics from Loyola and a bachelor of engineering degree from an affiliated school. In collaboration with the School of Education, the department also offers a BS/MEd degree that prepares students to teach in high schools. In addition, the department serves a large number of students seeking to satisfy ancillary requirements for other majors, core curriculum requirements, as well as pre-health-professional requirements for medical, dental, and pharmacy schools.

The Department has several areas of active physics research, including astroparticle physics, computational physics, cosmology, biophysics, fluid dynamics, optics, and quantum mechanics. Students have the opportunity to explore these different areas of physics research with faculty (https://www.luc.edu/physics/research/) and are encouraged to participate in projects. Students often present their research at local and national conferences, and they can receive fellowships (https://www.luc.edu/physics/undergraduateexperiences/researchfellowships/) from LUC to support their research.

You can read more about the undergraduate experience offered by the Physics Department here. Please explore the website or contact the department chair for more information about our department.

Fax: 773.508.3534

Physics in the Science Core

The Physics Department offers several courses for non-science majors seeking to satisfy natural science core curriculum requirements: PHYS 101 Liberal Arts Physics, PHYS 102 Planetary and Stellar Astronomy, and PHYS 106 Physics of Music. These courses emphasize an appreciation of the basic laws, overall structure, and beauty of the physical universe. In addition, as part of the natural science core, these courses discuss the scientific method, and stress the importance of methodological competence as well as ethics in forming critical judgments on technically oriented societal issues. More information on Loyola's Core Curriculum can be found here (https://www.luc.edu/physics/undergraduateexperiences/).

Undergraduate Programs

- Biophysics (BS) (p. 561)
- Physics (BS) (p. 563)
- Physics (BS) + Engineering (BS) (p. 565)
- Physics Minor (p. 565)
- Physics/Secondary Education (BS/MEd) (p. 1151)
- Physics with Computer Science (BS) (p. 565)
- Theoretical Physics and Applied Mathematics (BS) (p. 478)

Physics Department Academic Policies

Mathematics Readiness

Entering students with American College Test (ACT) mathematics scores of 25 or higher, or Scholastic Aptitude Test (SAT) mathematics scores of 570 or higher, automatically qualify to start the sequence of physics courses for the major in physics. Students who do not so qualify should consult the physics chairperson to determine the appropriate sequence of courses.

Policy on Multiple Majors and Minors

The following modifies and clarifies the "Double-Dipping (https://www.luc.edu/media/lucedu/cas/pdfs/Double%20Dipping%20Policy.pdf)" policy of the College of Arts & Sciences, as it pertains to the Department of Physics.

The following degree programs are housed in or jointly housed in the Physics Department:

1. Bachelor of Science in Physics (PHYS-BS)
2. Bachelor of Science in Biophysics (BPHY-BS)
3. Bachelor of Science in Physics with Computer Science (PCSC-BS)
4. Bachelor of Science in Theoretical Physics/Applied Mathematics (TPAM-BS)
5. Physics Minor (PHYS-MINR)

They will be referred to as “majors or minor in the Physics Department” in this document.

- A combination of PHYS-BS and PCSC-BS **is not allowed**.
- Any other combination of two majors in the Physics Department (aside from PCSC-BS) **is allowed.**
- Any combination of three majors in the Physics Department **is not allowed**.
- PHYS-MINR **is not allowed** together with any major housed in Physics Department.
- A Mathematics Minor (MATH-MINR) **is not allowed** together with TPAM-BS, but **is allowed** with any other major in the Physics Department. For qualifying students, the MATH-MINR may be earned by taking **one** additional, upper-level mathematics course (MATH 3XX).
- A Computer Science Minor (COMP-MINR) **is not allowed** together with PCSC-BS.
- An Information Technology Minor (ITEC-MINR) **is not allowed** together with PCSC-BS.
- The combination of a B.S. in Mathematics (MATH-BS) and any single major housed in the Physics department **is allowed**.
- A triple major of MATH-BS, TPAM-BS, and any other major housed in the Physics Department **is not allowed**.
- A triple-major combination of PCSC-BS, PHYS-BS, and any of the following: B.S. in “Communication Networks and Security” (CNWS-BS), “Computer Science” (COMP-BS), “Information Technology” (ITEC-BS), or “Software Engineering” (SWEN-BS) is **not allowed**.
- A triple-major combination of PHYS-BS, BPHY-BS, and any of the following: B.S. in Biology (BIOL-BS), Biology with Molecular Biology Emphasis (BIOM-BS), or Biology with Ecology Emphasis (BIOE-BS) **is not allowed**.

Grade Requirements

A grade of "C-" or better must be earned in all physics courses required for the major or minor in physics.

Continuation in the Major

A student will be withdrawn from any major offered by the Physics Department if either of the following conditions exist:

1. The student receives two grades less than C- (excluding grades of W but including grades of WF) in a two year period in courses required for the major (including courses offered by the Math and Computer Science departments).
2. The student has a cumulative GPA in majors’ courses (including the ancillary courses) less than 2.00 after completion of the first two year sequence (i.e., upon completion of MATH 264 Ordinary Differential Equations and PHYS 301 Mathematical Methods in Physics and PHYS 314 Theoretical Mechanics I).

The chair of the Physics Department may reinstate the student in exceptional cases.

Prerequisite Courses

PHYS 121 College Physics I Lec/Dis and PHYS 122 College Physics II Lec/Dis are basic prerequisites for all physics courses. PHYS 111 College Physics I Lec / Dis, PHYS 112 College Physics II Lec/Disc will be accepted in lieu of these courses with the permission of the department chairperson. Mathematics courses listed as prerequisites to a physics course may, with the permission of the chairperson, be taken concurrently with the physics course or may be excluded in special instances. MATH 264 Ordinary Differential Equations is a prerequisite to all 300 level physics courses. Part II of a given course may not be taken before Part I.

Advanced Placement in Physics

Entering non-majors who have received scores of 4 or higher on the Physics B or Physics C Advanced Placement examinations of the College Entrance Examination Board are eligible to receive college credit for the corresponding lecture courses. A score of 4 or higher in the Physics C examination, plus departmental approval, are necessary for receipt of credit by majors. No credit is available for laboratory courses.

Requirements for Departmental Honors

In addition to the general requirements for the major, a student seeking departmental honors must satisfy the following two criteria:

- Minimum overall GPA of 3.7
- Department-approved research project that culminates in a journal article, seminar presentation, or conference proceeding.

Qualifying students must email the Department Chair (Constantin Rasinariu) for departmental approval. Students should then submit the approval to their CAS advisor.

Undergraduate Policies and Procedures

Please see Undergraduate Policies and Procedures (p. 2050) for academic policies that supersede those of academic units within the University.

Physics (PHYS)

PHYS 101 Liberal Arts Physics (3 Credit Hours)
Pre-requisites: ENVS 101 or ENVS 137
No requirement for students with a declared major or minor in the Department of Anthropology, Department of Biology, Department of Chemistry, Department of Environmental Science, Department of Physics, Bioinformatics, Forensic Science or Neuroscience. For non-science majors. Selected topics from classical and modern physics emphasizing beauty, symmetry, and simplicity. Contemporary issues of physics and society.
Knowledge Area: Tier 2 Scientific Knowledge
Outcomes:
Understanding of interaction between theory and experiment, role of physics in society, science vs. nonscience; solve problems using algebra, geometry, vectors, and graphs; synthesize disparate physics topics

PHYS 102 Planetary and Stellar Astronomy (3 Credit Hours)
Pre-requisites: ENVS 101 or ENVS 137
No requirement for students with a declared major or minor in the Department of Anthropology, Department of Biology, Department of Chemistry, Department of Environmental Science, Department of Physics, Bioinformatics, Forensic Science or Neuroscience. This course covers the astronomy of the solar system and planetary science as well as the astronomy of stars and galaxies. This includes study of earth and comparative study of all the planets, as well as the birth, evolution, and death of stars, the clustering of stars and galaxies, the expanding universe and cosmology.
Knowledge Area: Tier 2 Scientific Knowledge
Outcomes:
Students will demonstrate an understanding of the fundamental knowledge and concepts in astronomy, the qualitative and quantitative reasoning used, and how this science can be applied

PHYS 106 Physics of Music (3 Credit Hours)
Pre-requisites: ENVS 101 or ENVS 137
No requirement for students with a declared major or minor in the Department of Anthropology, Department of Biology, Department of Chemistry, Department of Environmental Science, Department of Physics, Bioinformatics, Forensic Science or Neuroscience. Language, structure, history and styles of music; motion, force, energy and waves applied to production of sound; physical properties of instruments and musical acoustics.
Knowledge Area: Tier 2 Scientific Knowledge
Outcomes:
Knowledge of music fundamentals; understand how instruments function; apply physics concepts and experimentation to analyze the production of music and acoustics

PHYS 111 College Physics I Lec / Dis (3 Credit Hours)
Pre-requisites: Math Placement Test or MATH 118
Non-calculus introduction to vectors, kinematics, Newtonian mechanics of translational, rotational, and oscillatory motion, energy and momentum conservation, and thermodynamics.
Interdisciplinary Option: Forensic Science
Outcomes:
Understanding of analytical description of motion and application of conservation laws; develop scientific insight and proficiency in solving representative problems

PHYS 111L College Physics Laboratory I (1 Credit Hour)
Pre- or co-requisites: PHYS 111 or PHYS 111K; Prerequisite: MATH 118 or MDT
Laboratories cover selected topics in introductory mechanics, including freefall, uniform circular motion, work-energy, collisions, rotational motion, and harmonic motion.
Interdisciplinary Option: Forensic Science
Outcomes:
Experience and familiarity with basic measuring devices and simple mechanics equipment; Understand measurement errors and their propagation, plotting and interpretation of data, the connection between theory and experiment for selected topics in elementary mechanics

PHYS 112 College Physics II Lec/Disc (3 Credit Hours)
Pre-requisites: PHYS 111 or equivalent
PHYS 111 and 112 provide a non-calculus introduction to physics. Topics include electricity and magnetism, sound, optics, and selected topics from modern physics.
Interdisciplinary Option: Forensic Science
Course equivalencies: PHYS112/PHYS112K/PHYS122
Outcomes:
Understand and apply electromagnetism to 2- and 3-dimensional problems in physical and biological sciences

PHYS 112L College Physics Lab II (1 Credit Hour)
Pre- or co-requisites: PHYS 112 or PHYS 112K; also prerequisite PHYS 111L; For ESBE, ESCE, and ESEE majors only: Prerequisite or corequisite of PHYS 112K
Laboratories cover selected topics in electrical circuits and optics, including DC circuits, resonance in AC circuits, ray optics, and prism and grating spectrometers.
Interdisciplinary Option: Forensic Science
Outcomes:
Experience and familiarity with DC power supplies, digital multi-meters, function generators, oscilloscopes, mirrors, lenses, and spectrometers; Ability to correlate simple electronic schematic diagrams with actual circuits; Understand the connection between theory and experiment for selected topics in elementary electrical circuits and optics

PHYS 121 College Physics I Lec/Dis (3 Credit Hours)
Pre-requisites: MATH 131 or 161
Calculus based introduction to vectors, kinematics, Newtonian mechanics of translational, rotational, and oscillatory motion, energy and momentum conservation, and thermodynamics.
Interdisciplinary Option: Forensic Science
Outcomes:
Understanding of analytical description of motion and application of conservation laws; develop scientific insight and proficiency in solving representative problems

PHYS 122 College Physics II Lec/Dis (3 Credit Hours)
Pre-requisites: PHYS 121 and (MATH 132 or 162)
PHYS 121 and 122 provide a calculus based introduction to physics. Topics include electricity and magnetism, sound, optics, and selected topics from modern physics.
Interdisciplinary Option: Forensic Science
Course equivalencies: PHYS112/PHYS112K/PHYS122
Outcomes:
Understand and apply electromagnetism to 2- and 3-dimensional problems in physical and biological sciences

PHYS 125 General Physics I Lec/Dis (4 Credit Hours)
Co-requisites: PHYS 125L and MATH 161
This is a calculus-based introductory course that covers Mechanics and Thermodynamics. It is designed for physics majors or minors and dual-degree engineering students.
Interdisciplinary Option: Forensic Science
Outcomes:
Understanding of vectors, forces, Newtonian mechanics related to translational, rotational, and oscillatory motion; thermodynamics

PHYS 125L General Physics Laboratory I (1 Credit Hour)
Co-requisites: PHYS 125
Laboratories cover selected topics in introductory mechanics, including freefall, uniform circular motion, work-energy, collisions, rotational motion, and harmonic motion. Includes a freshmen project.
Interdisciplinary Option: Forensic Science
Outcomes:
Experience and familiarity with basic measuring devices and simple mechanics equipment; Understand measurement errors and their propagation, plotting and interpretation of data, the connection between theory and experiment for selected topics in elementary mechanics

PHYS 126 General Physics II Lec/Dis (3 Credit Hours)
Pre-requisites: PHYS 125; Corequisites: PHYS 126F, PHYS 126L & MATH 162; Department Consent Required
A continuation of PHYS 125, covering Electricity and magnetism, sound, optics.
Interdisciplinary Option: Forensic Science
This course satisfies the Engaged Learning requirement.
Outcomes:
Understanding of electrostatics, magnetostatics, time varying currents, resistive, capacitative and inductive elements, electromagnetic and sound waves, geometrical and wave optics, introductory special relativity

PHYS 126F Freshman Projects (1 Credit Hour)
Pre-requisites: PHYS 125; Department Consent Required
Under the guidance of a faculty member students carry out research in the area of mechanics, waves or thermodynamics. The project must involve submission of a proposal, building of a setup, carrying out related theoretical calculation followed by experimentation.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students should get a deeper understanding of the material covered in PHYS 125 (mechanics, waves and thermodynamics) and also learn about research methods employed by physicists

PHYS 126L General Physics Laboratory II (1 Credit Hour)
Co-requisites: PHYS 126
Laboratories cover selected topics in electrical circuits and optics, including DC circuits, resonance in AC circuits, ray optics, and prism and grating spectrometers. Includes a freshmen project.
Interdisciplinary Option: Forensic Science
Outcomes:
Experience and familiarity with DC power supplies, digital multimeters, function generators, oscilloscopes, mirrors, lenses, and spectrometers; Ability to correlate simple electronic schematic diagrams with actual circuits; Understand the connection between theory and experiment for selected topics in elementary electrical circuits and optics

PHYS 130 Introduction to Computational Physics (3 Credit Hours)
Pre-requisites: C- or better in PHYS 125; Restricted to PHYS, TPAM, and BPHY majors; Corequisite: PHYS 126
This is an introductory computational physics course. The course will cover basic computational skills using Python and common scientific Python packages. We will solve a set of programming exercises that enhances both the understanding of introductory physics (Newton's laws, work, energy, momentum) and physics problem solving skills.
Outcomes:
Students should be able to write a Python program to perform numerical calculations in physics and gain computational skills that would be utilized in upper division physics coursework and research

PHYS 235 Modern Physics (3 Credit Hours)
This course covers the Special Theory of Relativity and Introductory Quantum Mechanics.
Outcomes:
Understand the relative nature of space and time; the duality of waves and particles; the microscopic structure of matter and its macroscopic consequences

PHYS 235L Modern Physics Laboratory (1 Credit Hour)
Co-requisites: PHYS 235
Modern physics experiments including electromagnetic waves (microwaves), interferometry, spectroscopy, electron and quantum physics, and solid-state physics.
Outcomes:
Students will gain hands on experience and familiarity with experiments from early modern physics, the ability to use spreadsheets and symbolic algebraic software for problem solving and data interpretation, and experience documenting and reporting results including historical background searches

PHYS 266 Digital Electronics Lab (3 Credit Hours)
Pre-requisites: PHYS 126 and MATH 162
Combinatorial and sequential logic devices, oscillators and timers, microprocessor components, CPU operation, computer architecture and digital/analog conversion.
Course equivalencies: X-PHYS266/COMP266
Outcomes:
Students will gain a working knowledge of digital electronics design and its application to computers, an understanding of CPU design and operation and the ability to document and report experimental results

PHYS 301 Mathematical Methods in Physics (3 Credit Hours)
Pre-requisites: PHYS 235; Corequisite: MATH 264
Lecture and computer laboratory; Mathematical and computer methods in physics and engineering; Topics include vector calculus, functions of a complex variable, phasors, Fourier analysis, linear transformations, matrices, first and second order differential equations, special functions, numerical and symbolic computer applications.
Course equivalencies: X-PHYS301/PHYS271/MATH355

PHYS 303 Electronics I (3 Credit Hours)
Pre-requisites: PHYS 126 ; Corequisite: PHYS 301 and PHYS 303L
Study of analog electronics, including direct and alternating circuit analysis, resonant circuits, diodes, transistors, amplifiers, operational amplifiers, noise, feedback and oscillators.
Outcomes:
Students will understand and manipulate equations and concepts, and gain experience with electronics equipment, plotting and interpretation of data, synthesizing and writing laboratory results, and the formal verbal presentation of results

PHYS 303L Electronics Laboratory (1 Credit Hour)
Pre-requisites: PHYS 126 or its equivalent, Corequisite: PHYS 303
Students will learn to use various electronic components, instruments, techniques, and applications. This course complements PHYS 303, which is a co-requisite or a prerequisite.
Outcomes:
Students should get a deeper understanding of the material covered in PHYS 303 (Analog and digital electronics) by experimentally verifying many of the concepts covered in that course; Students will also learn to recognize various components and develop confidence in using them

PHYS 310 Optics (3 Credit Hours)
Pre-requisites: PHYS 126 & PHYS 301; Corequisite: PHYS 310L
Electromagnetic nature of light, geometrical optics, polarization, Fresnel relations, interference, Fraunhofer and Fresnel diffraction, Fourier optics, lasers, and holography.
Outcomes:
Students will gain knowledge of the principles of classical and modern optics, the roll of optics in the development of quantum mechanics and its applications to modern technology

PHYS 310L Optics Lab (1 Credit Hour)
Pre-requisites: PHYS 126 or its equivalent, Co-requisite PHYS 310
Students will learn to use various optical components, instruments, techniques, and applications. This course complements PHYS 310, which is a co-requisite or a prerequisite.
Outcomes:
Students should get a deeper understanding of the material covered in PHYS 310 (Geometrical and wave optics) by experimentally verifying many of the concepts covered in that course; Students will also learn to recognize various components and develop confidence in using them

PHYS 314 Theoretical Mechanics I (3 Credit Hours)
Newtonian particle dynamics, conservation theorems, oscillations, gravitation, generalized coordinates, Lagrange and Hamilton formalisms.
Outcomes:
Students will gain understanding of analytical and numerical methods of mechanics, understanding of principles in dynamics, and experience in applying formalisms of Lagrange and Hamilton to mechanics in preparation for other areas of physics and engineering

PHYS 315 Theoretical Mechanics II (3 Credit Hours)
Pre-requisites: PHYS 314
This course is a continuation of PHYS 314 and covers dynamics of system of particles, moving coordinates, rigid body dynamics, systems of oscillators, motion in a central force field, relativity.
Outcomes:
Students will gain understanding of analytical and numerical methods of mechanics, and of the laws of dynamics and their applications

PHYS 328 Thermal Physical & Statistical Mechanics (3 Credit Hours)
Pre-requisites: PHYS 235 and PHYS 301
This course examines the fundamental concepts of temperature, entropy, and thermodynamic equilibrium, the first and second law, engines, the third law, and Boltzmann, Fermi-Dirac, and Bose-Einstein statistics.
Outcomes:
Students will learn to compare thermodynamical versus statistical characterizations of macroscopic systems with applications ranging from analyzing Fermi gases and black body radiation to information theory

PHYS 338 Advanced Physics Laboratory (2 Credit Hours)
Pre-requisites: PHYS 301 and PHYS 314; Restricted to PHYS, TPAM, PCSC, and BPHY majors
Lab course with advanced experiments in mechanics, biophysics, electromagnetism, quantum mechanics, solid state, and particle physics. Students will receive training in data analysis methods, data acquisition systems, signal processing, and 3D fabrication. Students will work in teams on a final independent project.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students will gain an understanding of experiment design, data analysis, and error estimation in the context of investigating physical principles and using different instrumentation

PHYS 351 Electricity and Magnetism I (3 Credit Hours)
Pre-requisites: PHYS 235, 301 & MATH 264
Electrostatics and magnetostatics in a vacuum as well as in linear media, and an introduction to electrodynamics.
Outcomes:
Students will gain an understanding of mathematical methods of electrodynamics, of static electricity and magnetism including Coulomb's, Gauss', Ampere's, and Faraday's laws and their applications, and of solutions of Laplace's and Maxwell's equations

PHYS 352 Electricity and Magnetism II (3 Credit Hours)
Pre-requisites: PHYS 351
Introduction to electrodynamics and the special theory of relativity.
Outcomes:
Students will gain an understanding of electromagnetic field energy and momentum, Maxwell's equations and their applications including electromagnetic radiation and emission, involving retarded potentials and Lorentz covariance

PHYS 361 Quantum Mechanics I (3 Credit Hours)
Pre-requisites: PHYS 235 & PHYS 301
Non-relativistic quantum mechanics.
Outcomes:
Students will understand and use separation of variables, finite polynomials, and matrix algebra to solve the Schroedinger equation, explain microscopic structure of matter, and describe philosophical interpretations of quantum mechanics

PHYS 371 Biophysics (3 Credit Hours)
Pre-requisites: For Biology and Molecular Biology majors: BIOL 251, (PHYS 112 or 122), and (MATH 132 or 162); For all other majors: PHYS 235 and BIOL 101
An upper-level course in biological physics focused on a quantitative description of the physical processes driving molecular and cellular processes with an emphasis on experiment design and analysis.
Outcomes:
Students will understand how to apply physical principles and probabilistic analysis toward the study of biological phenomena at molecular and cellular levels

PHYS 380 Special Topics in Physics (1-3 Credit Hours)
Pre-requisites: Instructor's permission
This variable (1-3) credit enrichment course introduces students to a topic not generally covered in other courses. This course can be repeated.
Outcomes:
Students will understand the material of the course and develop an ability to apply the knowledge gained to other contexts

PHYS 381 Special Topics in Physics (1-3 Credit Hours)
Pre-requisites: Instructor's permission
This variable (1-3) credit enrichment course introduces students to a topic not generally covered in other courses. This course can be repeated.
Outcomes:
Students understand the material of the course and develop an ability to apply the knowledge gained to other contexts

PHYS 391 Research (1-12 Credit Hours)
Co-requisites: PHYS 126
Research in physics or an associated field. This is a variable credit course and can be repeated.
This course satisfies the Engaged Learning requirement.
Course equivalencies: PHYS391 / PHYS385 / PHYS386
Outcomes:
Under the guidance of a faculty member, students study and understand research methods employed by physicists and gain a deeper understanding of a particular area of physics

PHYS 394 Argonne Lab Research (3 Credit Hours)
Pre-requisites: Chairperson's permission and acceptance by appropriate program
Study and research at the Argonne National Laboratory. Only those students who are accepted into the Argonne National Laboratory's student program (or similar programs elsewhere) are eligible. No tuition is charged.
Outcomes:
Students will work with a research group at Argonne or other laboratory to understand research methods employed by physicists and get a deeper understanding of a particular area of physics

PHYS 395 Argonne Lab Research (3 Credit Hours)
Pre-requisites: Chairperson's permission and acceptance by appropriate program
Study and research at the Argonne National Laboratory. Only those students who are accepted into the Argonne National Laboratory's student program (or similar programs elsewhere) are eligible. No tuition is charged.
Outcomes:
Students will work with a research group at Argonne or other laboratory to understand research methods employed by physicists and get a deeper understanding of a particular area of physics

Biophysics (BS)

The Biophysics major is an interdisciplinary program on the cutting edge of new developments in the biosciences. Offered by the Departments of Physics and Biology, the biophysics major provides rigorous training in biosciences, mathematics, and lab skills. The degree prepares students for research careers in biophysics, biochemistry, biomedical engineering, and physics. Biophysics is an ideal major for students considering careers in medicine, optometry, dentistry, and other applied health sciences.

Curriculum

This course of study prepares one for careers in medicine, medical research, nano-sciences, biophysics, medical physics, biomedical engineering, and biotechnology. A strong physics and mathematics background is fortified with biology and chemistry classes. A minimum grade of C- must be earned to satisfy a course requirement and a 2.0 minimum overall GPA is required for each

Code	Title	Hours
Required Courses		
Physics		
PHYS 121	College Physics I Lec/Dis	3
PHYS 111L	College Physics Laboratory I	1

PHYS 310	Optics	
PHYS 328	Thermal Physical & Statistical Mechanics	
PHYS 361	Quantum Mechanics I	
Biology		
Select one of the following:		1-3
BIOL 101	General Biology I	
BIOL 111	General Biology I Lab	
BIOL 251	Cell Biology	
BIOL 282	Genetics	
Biophysics Elective Options		

Students must complete 10 credit hours to fulfill this requirement from the following:		10
BIOL 102 or COMP 180	General Biology II [1] Computing and Data Analysis for the Sciences	
BIOL 112	General Biology II Lab	
BIOL 252	Cell Biology Laboratory	
BIOL 283	Genetics Laboratory	
BIOL 317	Models of Human Disease	
BIOL 335 / STAT 335	Intro to Biostatistics	
BIOL 366	Cell Physiology & Biochemistry	
BIOL 366L	Cell Physiology & Biochemistry Lab	
BIOL 387	Genomics	
BIOL 388	Bioinformatics	
BIOL 390	Molecular Biology Laboratory	
BIOL 382	Molecular Genetics	
COMP 180	Computing and Data Analysis for the Sciences [1]	
PHYS 130	Introduction to Computational Physics [1]	
PHYS 310L	Optics Lab	
PHYS 338	Advanced Physics Laboratory	
PHYS 371	Biophysics	
PHYS 391	Research [2]	
General Chemistry A: Lecture, Discussion & Lab		
CHEM 101 & CHEM 111	General Chemistry A Lecture/Discussion and General Chemistry Lab A	4
General Chemistry B: Lecture, Discussion & Lab		
CHEM 102 & CHEM 112	General Chemistry B Lecture/Discussion and General Chemistry Lab B [3]	4
Organic Chemistry A: Lecture, Discussion & Lab		
CHEM 223 & CHEM 225	Organic Chemistry A Lec/Disc and Organic Chemistry Lab A [4]	4
Organic Chemistry B: Lecture, Discussion & Lab		
CHEM 224 & CHEM 226	Organic Chemistry B Lec/Disc and Organic Chemistry Lab B [5]	4
Mathematics		
MATH 161	Calculus I	4
MATH 162	Calculus II	4
MATH 263	Multivariable Calculus	4
MATH 264	Ordinary Differential Equations	3
Total Hours		**67-69**

[1] Students may receive degree credit for only one of the following: BIOL 102, COMP 180, or PHYS 130.

[2] Students may only count 1 credit hour of PHYS 391 Research toward the degree.

[3] CHEM 106 Basic Inorganic Chemistry may be substituted

[4] CHEM 221 Organic Chemistry I Lec/Disc may be substituted

[5] CHEM 222 Organic Chemistry II Lec/Disc may be substituted

Suggested Sequence of Courses

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

Course	Title	Hours

[1] Students can take MATH 264 in the spring semester of their second year, but it would be best taken before PHYS 301.

[2] PHYS 310 Optics/PHYS 310L Optics Lab can be taken in the spring of the fourth year

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

- Demonstrate foundational knowledge in physics and biology, and the acquisition of new knowledge via the scientific method.
- Develop a deeper understanding of the connection between the biological and the physical sciences.
- Understand and be able to employ laboratory techniques and computer skills used in biological and physical science labs.
- Possess an understanding of the intermediate level mathematics needed to model and solve problems based in the physical and biological sciences.
- Collect and analyze data to develop, refine, or falsify scientific theories.
- Learn effective and ethical methods for collaborating with others on scientific and technical projects.

Physics (BS)

The Physics major provides rigorous training in mathematics and physics with courses in statistical thermodynamics, electricity and magnetism and quantum mechanics as well as labs in optics, and electronics. Physics graduates pursue careers in industry, government labs, economics, and medicine. The program also prepares students for graduate education in physics, computer science, engineering, and law. Pre-health physics majors often receive high placement scores on the MCAT and other entrance exams.

Curriculum

The physics major includes courses in all the fundamental areas of physics at the beginning and intermediate level. Students have the opportunity to take special topics courses that provide an advanced background in specific areas of physics. The curriculum includes a strong background in mathematics, laboratory experience, and computer methods. A minimum grade of C- must be earned to satisfy a course requirement and a 2.0 minimum overall GPA is required for each major or minor. Final confirmation of degree requirements is subject to department, school, and university approval.

Code	Title	Hours
Required Courses

[1] Students can take MATH 264 in the spring semester of their second year, but it would be best taken before PHYS 301.

[2] Students can take PHYS 303 & PHYS 303L in the fall semester of their third or fourth year. Many choose to take it in the fourth year if the third year spring is already challenging.

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

- Demonstrate foundational knowledge in the physical sciences and the acquisition of new knowledge via the scientific method
- Understand and be able to employ laboratory techniques and computer skills used in physical science labs.
- Use mathematical techniques to model physical systems and extract both quantitative and qualitative descriptions of their behavior.
- Collect and analyze data to develop, refine, or falsify scientific theories.

- Learn effective and ethical methods for collaborating with others on scientific and technical projects.

Physics (BS) + Engineering (BS)

If you are a student who recognizes the value of broadening your educational experience to include one of the fundamental sciences, as well as liberal arts and engineering, Loyola University Chicago's Dual-Degree Physics/Engineering Program may be just right for you.

Through the Physics (BS) + Engineering (BS) program, students can earn two baccalaureate degrees: a BS in Physics from Loyola and a bachelor's in Engineering from an affiliated engineering school. In this five-year program, students complete a three-year degree plan in physics at Loyola and then two years of concentrated engineering studies at the partner institution. This is an excellent route for students interested in careers in aerospace, civil, electrical, and mechanical engineering.

Learning Outcomes

In this program, a student can earn two baccalaureate degrees: a Bachelor of Science in Physics from Loyola University Chicago and a Bachelor in Engineering from an affiliated engineering school. Typically, three years of study in the social sciences, humanities, mathematics and physical sciences at Loyola are required, followed by two years of concentrated engineering studies at the school of engineering.

Loyola University Chicago has formal affiliations with Washington University in St. Louis, Columbia University in New York City, and with Notre Dame University in South Bend, Indiana.

Students can also choose other schools that suit their interest to complete the engineering degree. Many of our students have completed their engineering degrees at other universities such as University of Illinois Urbana-Champaign, University of Illinois at Chicago, Northwestern University, University of Michigan, and Iowa State University to complete their engineering studies.

Using as starting point the outstanding education in the Jesuit tradition offered by Loyola, which emphasizes breadth and depth of training in the liberal arts, humanities, and social sciences, upon completion of this dual degree program students will:

- Gain foundational understanding of physics, a fundamental science that has broad application in existing and emerging technologies;
- Acquire the intermediate level of mathematical tools needed to effectively address physics and engineering problems;
- Possess an understanding of the fundamental engineering fields, and the ability to apply their combined Physics/Engineering knowledge to solve real world problems in the engineering field of their choosing (mechanical, chemical, biomedical, electrical, civil industrial, computer, systems, environmental, and financial—engineering);
- Gain an understanding and appreciation of interdisciplinary approach in the physical and engineering sciences.

Physics Minor

Curriculum

A minimum grade of C- must be earned to satisfy a course requirement and a 2.0 minimum overall GPA is required for each major or minor. Final confirmation of degree requirements is subject to department, school, and university approval.

Code	Title	Hours
Required Courses		
Physics Courses		
PHYS 121	College Physics I Lec/Dis	3
PHYS 111L	College Physics Laboratory I	1
PHYS 122	College Physics II Lec/Dis	3
PHYS 112L	College Physics Lab II	1
PHYS 235	Modern Physics	3
PHYS 235L	Modern Physics Laboratory	1

PHYS 200-Level Course		
PHYS 300-Level Course		
Math Courses		
MATH 161	Calculus I	4
MATH 162	Calculus II	4
MATH 263	Multivariable Calculus	4
MATH 264	Ordinary Differential Equations	3
Total Hours		**30**

Learning Outcomes

The minor in Physics is a perfect fit for students interested in science and with aptitude in mathematics, but who do not wish to pursue a career in physics. A minor in physics gives a strong basic background in physics and mathematics that will enhance a career in other areas such as: chemistry, biology, social sciences, computational sciences, humanities, or business.

Students take the basic lecture and laboratory physics courses with the physics majors, including a participation in the Freshman Projects; they also take the basic mathematics courses.

By completing the Minor in Physics, students will:

- Acquire foundational knowledge in the physical sciences
- Possess an understanding of the basic mathematics needed to solve problems
- Acquire basic skills for analytical thinking and problem solving
- Gain an understanding and appreciation of interdisciplinary approach involving physical sciences, mathematics and other disciplines.

Physics with Computer Science (BS)

Physics is understood in terms of many mathematical relationships that are much easier to state than solve, and computer science has become a major part of many physicists' work to solve enormous problems. This major is preparation for graduate study in physics, applied physics, computer science, and especially in the burgeoning research field of computational physics, as well as in many branches of engineering. Employment opportunities are in the industries of R&D and manufacturing, research and teaching in academic institutions, and research in government and private laboratories.

Curriculum

This program is similar to the theoretical physics/applied mathematics option, except that some of the mathematics courses are replaced by

computer science courses. A minimum grade of C- must be earned to satisfy a course requirement and a 2.0 minimum overall GPA is required for each major or minor. Final confirmation of degree requirements is subject to department, school, and university approval.

3 Students can take PHYS 310 Optics & PHYS 310L Optics Lab in the spring semester of their fourth year.

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

Interdisciplinary fields involving science and technology continuously change and present exciting challenges. If you are a student interested in these fields, then a degree in Physics with Computer Science may be just right for you.

Students who major with a degree in Physics with Computer Science at Loyola University Chicago are well equipped to enter the work force with the tools necessary to tackle problems involved in basic science, technology, or other related interdisciplinary field. In addition to the specific science background, students at Loyola are also prepared with a liberal arts education that emphasizes an understanding in humanities and social sciences.

The major in Physics with Computer Science at Loyola University Chicago prepares a student to graduate with a strong and basic foundation in physics, mathematics and computer science. Students take lectures and laboratory courses in physics that expose them to the fundamental principles of introductory, intermediate and advanced physics. From the computer science side, students take a number of introductory courses and then choose an array of 300-level courses that fulfill their specific interest in the area. In addition to the physics and computer science courses, students also take a series of mathematics courses.

This major can serve as preparation for graduate study in physics, applied physics, computer science, and some areas of engineering. It is especially useful for students interested in inter-disciplinary areas, such as: quantum computing, scientific computing, computational physics, intelligent systems, optics and optical communication, etc. Employment opportunities exist in industry, such as R&D and manufacturing, in academic institutions for research and teaching, and for research in government and private labs.

By completing the Physics with Computer Science degree, students will:

- Acquire foundational knowledge in the physical sciences
- Possess an understanding of the mathematics needed to model and solve problems
- Acquire specific knowledge in the computational sciences
- Gain an understanding and appreciation of interdisciplinary approach in the physical and computational sciences

Theoretical Physics and Applied Mathematics (BS)

The laws and theories of modern physics are formulated in the language of modern mathematics. In the past, students wishing to study the basic physical laws governing our universe might have gotten away with proficiency in multivariable calculus; but no longer. Since the advent of statistical mechanics, quantum mechanics, and the like, a solid foundation in analysis, abstract algebra, and statistics is also essential. Students pursuing a B.S. in Theoretical Physics and Applied Mathematics with gain exposure to these modern physical theories and to the abstract mathematics underpinning them. Graduating students will be well-prepared for advanced degrees in applied mathematics, physics, or engineering.

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

Loyola University Chicago's major in Theoretical Physics / Applied Mathematics is an interdisciplinary program that provides extensive training in both physics and mathematics. It prepares students for graduate study in physics, mathematics, or applied mathematics; careers in fields such as engineering or computer science that value quantitative reasoning and mathematical modeling; or technical training in professions like medicine, dentistry, or law.

Students majoring in Theoretical Physics / Applied Mathematics possess a versatile set of skills that are well-suited to data science, numerical modeling, and quantitative analysis. They may pursue careers in higher education, at research institutes or government labs, or in high-tech industries. Recent majors have gone on to world class graduate programs in fields ranging from physics to neuroscience, and programming jobs at major tech companies.

The course of study for the Theoretical Physics / Applied Mathematics major covers the core classes in the Physics major, provides laboratory experience, and adds a comprehensive mathematics component. Upon completion of this program, students will:

- Exhibit foundational knowledge in both physics and mathematics.
- Be able to develop and interpret mathematical models that provide both quantitative and qualitative understanding of physical systems.
- Possess intermediate level laboratory skills that will serve as a foundation for more advanced training in graduate or professional school.
- Recognize how careful data collection and analysis helps develop or falsify scientific theories.
- Demonstrate effective and ethical decision-making abilities in issues related to the sciences.

Political Science

About Us

Loyola University Chicago's Political Science Department offers dozens of courses each semester on various aspects of politics, including the institutions of American government; constitutional law; political systems in Africa, Asia, Europe and Latin America; foreign policy and international relations; and political theory, past and present.

The department also sponsors extensive internship experiences, making use of the extraordinary resources available in the city of Chicago and in Washington, D.C. Every member of the political science faculty teaches undergraduate courses and engages in scholarly research.

Undergraduate Programs

- Honors in Political Science (p. 579)
- Law and Politics Minor (p. 580)
- Political Science (BA) (p. 580)
- Political Science (BA/MA) (p. 1154)
- Political Science Minor (p. 583)
- International Affairs Accelerated Bachelor's Master's Programs (p. 585)
  - Advertising & Public Relations/International Affairs (BA/MA) (p. 862)
  - Advertising Creative/International Affairs (BA/MA) (p. 872)
  - Advocacy and Social Change/International Affairs (BA/MA) (p. 883)
  - Communication Studies/International Affairs (BA/MA) (p. 923)
  - Criminal Justice and Criminology/International Affairs (BS/MA) (p. 932)
  - Elementary Education/International Affairs (BSEd/MA) (p. 943)
  - Film and Digital Media: Film and Media Production Track/ International Affairs (BA/MA) (p. 1077)
  - Film and Digital Media: International Programming Track/ International Affairs (BA/MA) (p. 1089)
  - Global Studies/International Affairs (BA/MA) (p. 1096)
  - History/International Affairs (BA/MA) (p. 1113)
  - Multimedia Journalism/International Affairs (BA/MA) (p. 1139)
  - Philosophy/International Affairs (BA/MA) (p. 1147)
  - Political Science/International Affairs (BA/MA) (p. 1159)
  - Psychology/International Affairs (BS/MA) (p. 1166)
  - Secondary Education/International Affairs (BSEd/MA) (p. 1172)
  - Sociology/International Affairs (BA/MA) (p. 1190)
  - Special Education/International Affairs (BSEd/MA) (p. 1196)
  - Theology/International Affairs (BA/MA) (p. 1208)

Undergraduate Policies and Procedures

Please see Undergraduate Policies and Procedures (p. 2050) for academic policies that supersede those of academic units within the University.

Political Science (PLSC)

PLSC 100 Political Theory (3 Credit Hours)
Requirement: PHIL 130 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Philosophy or Department of Political Science. An introduction to political theory, covering the principal ideas, controversies and institutions of political society.
Knowledge Area: Tier 2 Philosophical Knowledge
Course equivalencies: ACPOL 200 / PLSC 100
Outcomes:
Students will be able to demonstrate an understanding of major approaches to the normative study of politics; to identify the assumptions underlying philosophical arguments; and to critically assess different theories of political justice

PLSC 101 American Politics (3 Credit Hours)
Requirement: ANTH 100, PLSC 102, PSYC 100 or SOCL 101 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Anthropology, Department of Criminal Justice, Department of Economics, Department of Psychology, Department of Political Science, the Department of Sociology, Human Services or the School of Nursing. American national government and politics, including institutions, group and electoral processes, and public policy.
Knowledge Area: Tier 2 Societal Knowledge
Course equivalencies: ACPOL 101 / PLSC 101
Outcomes:
Students will be able to demonstrate an understanding of the American political system, the patterns of political participation and behavior of diverse individuals and groups in American society, and evaluate the roles and processes of U.S. political institutions

PLSC 102 International Relations in an Age of Globalization (3 Credit Hours)
Competing perspectives on international politics and global issues such as North-South relations, human rights, war and peace, population growth, and environmentalism.
Knowledge Area: Foundational Societal Knowledge
Interdisciplinary Option: African Studies and the African Diaspora, Black World Studies, Global Studies, Peace Studies
Course equivalencies: PLSC/PAX/ACPOL102/AFR110/INTS2
Outcomes:
Students will be able to demonstrate an understanding of the main approaches to the study of international politics and to analyze and assess such major substantive issues as interstate war, terrorism, arms control, international political economy and sustainable development

PLSC 103 Comparative Politics (3 Credit Hours)
A cross-national comparison of political institutions and political behavior.
Knowledge Area: Tier 2 Societal Knowledge
Interdisciplinary Option: Global Studies, Global Studies
Outcomes:
Students will learn why political systems differ and how different political systems function and change

PLSC 123 Speak Up Democracy (3 Credit Hours)
"Speak Up Democracy" is a course on perennial questions about the workings of democracies. Participating students will investigate the connection between speech and political power, ruminating on whose voices are heard (and silenced) in a democracy. This summer program is animated by a central question: how should we speak to one another in a democracy? The course is open to high school students participating in the summer program.

PLSC 195 Law and Civil Rights (3 Credit Hours)
The course focuses on the political processes surrounding laws and civil rights.

PLSC 202 Mock Trial (3 Credit Hours)
Students will study the trial as a process for finding truth and administering justice by learning the dynamics of the trial, by developing trial strategy, by learning how to conduct and respond to direct and cross examination and by delivering effective opening and closing arguments. Mock trial is an engaged learning course. Prior Permission is required.
This course satisfies the Engaged Learning requirement.
Outcomes:
Mock trials are an activity that promotes critical thinking and reasoning; They call upon students to employ their problem-solving and public-speaking skills, and students gain knowledge of legal practices and procedures

PLSC 203 Moot Court (3 Credit Hours)
Students will study the appeal as a process for finding truth and administering justice by learning the dynamics of appellate advocacy, by developing oral argument strategies, by learning how to respond to questions posed by judges in competition, and by delivering effective summations and rebuttal arguments. Moot court is an engaged learning course.
This course satisfies the Engaged Learning requirement.
Outcomes:
Moot court competitions are an activity that promotes critical thinking and reasoning; They will enhance their ability-to-think- on-their-feet skills, their legal research skills, and their public-speaking skills; Students gain knowledge of legal argumentation and constitutional law

PLSC 204 Conflict Management (3 Credit Hours)
This course considers a variety of different approaches to international conflict management: direct bargaining, mediation, military intervention, economic sanctions, arbitration, adjudication, and peacekeeping. In addition to learning about the differences among these various conflict resolution techniques.
Interdisciplinary Option: Global Studies
Outcomes:
This course will treat state conflict as a natural phenomenon that must be understood before it can be mitigated; Doing so requires scientific investigation

PLSC 208 Representation in the United States (3 Credit Hours)
Considers what "political representation" means and how scholars study how well representation works in the contemporary United States.
Outcomes:
Understanding of concept of political representation and tools scholars use to study representation

PLSC 213 International Human Rights (3 Credit Hours)
This course focuses on the theoretical foundations of such international human rights as well as their practical implications. It discusses the roles of states, intergovernmental organizations, and nongovernmental organizations in shaping human rights norms and practices.
Outcomes:
Students will be able to identify assumptions of arguments and critically assess different theories of international human rights; They will also understand practical causes and consequences of human rights policies

PLSC 215 Politics of Marginalized Groups (3 Credit Hours)
This course focuses on the role that race, ethnicity, and marginalized status plays in American politics and public policy. It will provide a general overview of several groups, including Blacks, Latinxs, Asian and Muslim Americans, Women, LGBTQ, immigrants and refugees, indigenous peoples and other groups.
Outcomes:
Students will acquire an understanding of the historical exclusion of various groups from the political system and the resulting political participation and behavior patterns of minoritized groups in American society

PLSC 216 Political Numbers (3 Credit Hours)
This course will train participants to be critical consumers of political arguments that cite quantitative evidence. The course will take a hands-on approach where students learn how to conduct, interpret, and critique quantitative analysis using common statistical software packages.
Outcomes:
Students will learn to critically engage with the numbers-based claims they encounter in the political arena and beyond; They will also learn how to conduct and present quantitative analysis

PLSC 218 African-American Politics (3 Credit Hours)
The political goals, behavior, voting patterns, group structures, values, and attitudes of various segments of the African-American population, and how these affect the political system.
Interdisciplinary Option: African Studies and the African Diaspora, Black World Studies, Human Services, Race and Ethnicity
Course equivalencies: X-PLSC218/BWS 218
Outcomes:
Students will be able to demonstrate an understanding of the patterns of political participation and behavior of African-American individuals and groups in American society

PLSC 224 Chicago Politics (3 Credit Hours)
The course focuses on the local politics in the city of Chicago.
Interdisciplinary Option: Urban Studies
Course equivalencies: PLSC391 / PLSC224

PLSC 232 Politics of the United Kingdom (3 Credit Hours)
This course offers an introduction to politics in the United Kingdom (officially known as the United Kingdom of Great Britain and Northern Ireland, and unofficially referred to as Britain).
Interdisciplinary Option: European Studies, Global Studies
Outcomes:
Students will be able to demonstrate an understanding of the structure and operation of the United Kingdom's domestic political system, as well as its relations with the rest of the world, especially the European Union

PLSC 236 Political Communication (3 Credit Hours)
The purpose of this course is to explore and examine how elected officials and institutions communicate to the public - and the role journalists and PR professionals play in the process--through readings, seminar, and practicum. The class will challenge students to grapple with questions like - What is the meaning of the "truth" in today's media environment?
Outcomes:
Students will understand how and why journalists cover what they cover, and the roles PR professionals/spin doctors attempt to shape the media narrative

PLSC 238 Political Advocacy (3 Credit Hours)
Policy-making and implementation in the United States is a complicated process. In any given year laws are passed by elected officials, decisions that guide our implementation of the law are made by government agencies, and rulings handed down by the courts shape our interpretation of those laws.
Outcomes:
Students will understand their place in the policy-making ecosystem, and the efficacy of those efforts

PLSC 251 Women in American Politics (3 Credit Hours)
This course focuses on Women and Politics in the United States. It looks at women's movements both historical and current, how women and men in the United States act differently in politics in terms of voting behavior, as political candidates, and as elected leaders. Students will gain a better understanding of the U.S. political system and how and when women are treated equally and unequally when compared with men.
Interdisciplinary Option: Women & Gender Studies

PLSC 252 Capitalism and Its Discontents (3 Credit Hours)
This course analyzes the intersection of capitalist economics and politics from a critical perspective. Capitalism and Marxism will be reviewed, followed by a critical examination of how capitalism has played out in economic/political practice in the world today. Includes discussions of many economic topics recently in the news, and the potential for change in a variety of directions. Students will learn to critically analyze the ways in which modern economics leads to less than optimal solutions, including economic inequality. They will also learn to identify other options that may lead to greater equality and economic success.
Interdisciplinary Option: Global Studies

PLSC 300 Contemporary Political Issues (3 Credit Hours)
Variable titles. Investigation of selected topics or methods in politics. This course may apply to any of the four areas of the department, and may be repeated depending on subject matter.
Outcomes:
Students will gain an in-depth knowledge of a unique topic in contemporary politics

PLSC 300A Contemporary Political Issues: American Politics (3 Credit Hours)
Investigation of selected topics or methods in American Politics. This course may be repeated depending on subject matter.

PLSC 300B Contemporary Political Issues: Political Theory (3 Credit Hours)
Investigation of selected topics or methods in Political Theory. This course may be repeated depending on subject matter.

PLSC 300C Contemporary Political Issues: Comparative Politics (3 Credit Hours)
Investigation of selected topics or methods in Comparative Politics. This course may be repeated depending on subject matter.

PLSC 300D Contemporary Political issues in International Relations (3 Credit Hours)
Investigation of selected topics or methods in International Relations. This course may be repeated depending on subject matter.

PLSC 301 Political Justice (3 Credit Hours)
A study of alternative conceptions of political justice and the attempts to institutionalize them in various political systems.
Outcomes:
Students will be required to demonstrate a mastery of competing theories about how various goods should be distributed fairly, and apply the just-war doctrine to various real-world cases; This course will help students to analyze and appraise social practices and policies that claim to be consistent with principles of justice

PLSC 302 American Political Thought (3 Credit Hours)
Major political themes from the founding era to the present.
Outcomes:
Students will learn to interpret and evaluate the assumptions and principles guiding the writings of major American political theorists, and to reflect on their significance in the evolution of American politics and society

PLSC 303 Conservatism (3 Credit Hours)
A survey of modern conservative thought. Attention will be devoted to the theoretical and political cleavages within the Right.
Outcomes:
Students will learn to interpret and evaluate the assumptions and principles guiding the writings of influential conservative political theorists and their critics, and to reflect on the significance of conservative political theory in promoting a more just society

PLSC 304 Ancient Political Thought (3 Credit Hours)
(CLST 305) A study of major political theorists from Plato to the fall of the Roman republic.
Outcomes:
Students will learn to interpret and evaluate the assumptions and principles guiding the writings of major Ancient Greek and early Roman political theorists

PLSC 306 Modern Political Thought (3 Credit Hours)
A study of major political theorists from Machiavelli to the French Revolution.
Interdisciplinary Option: European Studies
Outcomes:
Students will learn to interpret and evaluate the assumptions and principles guiding the writings of the major political theorists from Machiavelli to Rousseau

PLSC 307 Democratic Theory (3 Credit Hours)
This course examines normative arguments for and against popular rule.
Outcomes:
Students will be able to explain and assess critically arguments for and against democratic government

PLSC 308 Contemporary Political Thought (3 Credit Hours)
A study of major political theorists from the nineteenth century to the present.
Interdisciplinary Option: German Studies
Outcomes:
Students will learn to interpret and evaluate the assumptions and guiding principles of the writings of major political theorists from the nineteenth century to the present

PLSC 309 Socialism (3 Credit Hours)
A survey of Marxist and post-Marxist socialist thought.
Interdisciplinary Option: Polish Studies
Outcomes:
Students will learn to interpret and evaluate the assumptions and principles guiding the writings of major socialist political theorists and their critics, and to reflect on the significance of socialist political theory in promoting a more just society

PLSC 310B Catholic Political Thought (3 Credit Hours)
A survey of classic and contemporary political thinkers in the Roman Catholic tradition. The problems examined include religious pluralism, moral decay, natural law, distributive justice, political obligation, war, and peace.

PLSC 312 Feminist Theory (3 Credit Hours)
(WOST 318) A survey of classical and contemporary feminist political theory.
Interdisciplinary Option: Women & Gender Studies
Course equivalencies: X-PLSC312/WOST318/WSGS318
Outcomes:
Students will learn to interpret and evaluate the assumptions and principles guiding the writings of influential feminist political theorists and their critics, and to reflect on the significance of feminist political theory in promoting a more just society

PLSC 313 Resistance and Obligation (3 Credit Hours)
This course examines normative arguments about the source of political obligation and the right to resist government through various means, both violent and nonviolent.
Outcomes:
Students will be able to explain and assess critically various arguments about the duty to obey and the right to disobey government

PLSC 314 Liberalism (3 Credit Hours)
A survey of classical and contemporary political theorists in the liberal tradition.
Outcomes:
Students will learn to interpret and evaluate the assumptions and principles guiding the writings of major liberal political theorists and their critics, and to reflect on the significance of liberal political theory in promoting a more just society

PLSC 316 Politics of Genocide (3 Credit Hours)
This course analyzes the politics surrounding genocide, war crimes and crimes against humanity in contemporary times. The primary focus is on occurrences since the end of the Cold War, including the former Yugoslavia, Rwanda, Sudan and the Democratic Republic of the Congo.
Interdisciplinary Option: African Studies and the African Diaspora, Global Studies, Race and Ethnicity
Outcomes:
Students will be able to demonstrate an understanding of genocide and other massive human rights violations, along with the role of the international community in preventing future atrocities

PLSC 317 Politics of International Health (3 Credit Hours)
This course discusses political issues in the field of international health, including comparing health care systems in the industrialized world, and treatment of diseases in the developing world, particularly Africa (HIV/AIDs, TB, Malaria, etc). Students will be able to demonstrate an understanding of international health and comparative health systems.
Interdisciplinary Option: African Studies and the African Diaspora, Global Studies

PLSC 318 Politics & the Economy (3 Credit Hours)
This course examines how and why the U.S. government influences the economy. The government is the single most important actor in the economy, both as a consumer and as an entity seeking to manage important aspects of the economy.
Outcomes:
At the end of the course, students should be able to demonstrate knowledge about the key public and private institutions involved in economic policy and politics; Provide explanations of the development of both historical and contemporary economic policies; Explain the underlying bases of contemporary economic issues and competing views on appropriate policy actions to address them; Be able to access available public sources to conduct research on economic problems and policies

PLSC 319 Women, Law & Public Policy (3 Credit Hours)
The legal arrangements and public policies that structure the relationships of women and men in American society.
Interdisciplinary Option: Human Services, Women & Gender Studies
Course equivalencies: X-PLSC319/WOST319/WSGS319
Outcomes:
Students will be able to analyze and appraise the impact of judicial decisions and public policies on women in the United States

PLSC 320 Constitutional Law-Due Process (3 Credit Hours)
The Supreme Court's role in defining substantive and procedural due process issues such as criminal procedure, individual autonomy, and economic regulation.
Interdisciplinary Option: Sociolegal Studies
Outcomes:
Students will be able to demonstrate an understanding of the meaning and application of due process in American law and its impact in safeguarding individual freedoms and civil rights

PLSC 321 Constitutional Law-Powers of Government (3 Credit Hours)
The Supreme Court's role in allocating power among the three branches of the national government and between the state and federal governments.
Interdisciplinary Option: Sociolegal Studies
Outcomes:
Students will be able to demonstrate an understanding of alternative judicial approaches to the separation of governmental powers

PLSC 322 Constitutional Law-Rights and Liberties (3 Credit Hours)
The Supreme Court's role in defining constitutional guarantees of equal protection and individual freedom.
Interdisciplinary Option: Sociolegal Studies
Outcomes:
Students will be able to demonstrate an understanding of the meaning, protection and boundaries of civil rights and individual liberties in American law

PLSC 323 Children, Law & Public Policy (3 Credit Hours)
The constitutional rights of children in the home, the classroom, and the courtroom, and such policy areas as public welfare assistance, child abuse and neglect, and child support enforcement.
Interdisciplinary Option: Human Services
Outcomes:
Students will be able to analyze and assess the impact of judicial decisions and public policies on children and families in the United States

PLSC 324 Civil-Military Relations (3 Credit Hours)
An exploration of the nature of military professionalism and the relationship between the military and the civil society whose task it is to defend.
Outcomes:
Students will understand the role of the military in a free society, and the complex interactions between democratic norms and military organization

PLSC 325 American Foreign Policy (3 Credit Hours)
(INTS 375) Origins and development of American foreign policies; the method of their formulation and conduct.
Interdisciplinary Option: Global Studies
Course equivalencies: X-PLSC325/INTS375
Outcomes:
Students will be able to demonstrate an understanding of the formulation, adoption and implementation of American foreign policy and its impact on domestic and international affairs

PLSC 326 American National Security (3 Credit Hours)
American national security policy, including the role of major political actors, the defense budgetary process, and the capability and effectiveness of the military.
Interdisciplinary Option: Peace Studies
Course equivalencies: X-PLSC326/PAX 327
Outcomes:
Students will be able to analyze and assess the formation, adoption and implementation of national security policies in the United States and their impact on domestic and international affairs

PLSC 327 Political Psychology (3 Credit Hours)
Political attitudes from a social psychological perspective with emphasis on cognitive development models.
Outcomes:
Students will be able to understand the psychological sources of political decision making

PLSC 328 Political Behavior (3 Credit Hours)
This course covers a range of topics pertaining to political behavior in the United States. Topics will include research on the factors that shape public attitudes about political matters, and work that examines who participates in politics and why.

PLSC 329 Interest Group Politics (3 Credit Hours)
A study of the role of interest groups in American politics and policy.
Outcomes:
Students will be able to analyze and assess the patterns of political participation and behavior of diverse interest groups and their impact on the American political system

PLSC 330 Global Justice (3 Credit Hours)
This course explores debates about global justice such as immigration, climate change, free trade, and humanitarian interventions. Rooted in political theory, the course also includes readings from sociology, philosophy, and economics.
Interdisciplinary Option: Peace Studies, Peace Studies
Course equivalencies: X-PLSC330/PAX 330
Outcomes:
Students will learn to critically assess different theories of political justice and learn how to evaluate the moral and political justifications of international practices and policies

PLSC 331 Islamic Political Thought (3 Credit Hours)
An introduction to Islamic political thought, covering main ideas, questions, debates of the Islamic religio-political society, from the Qur'an to the present. Among the authors studied include al-Farabi, al-Mawardi, Ibn Khaldun, Islamic feminists, Islamic modernists, and Islamists.
Outcomes:
Students will be able to identify assumptions of arguments, critically assess different theories, and, having been familiarized with the inherent entanglement of religion and politics, will be able to identify what is specific to Islamic governance and what may be universalized

PLSC 332 Politics of American Bureaucracies (3 Credit Hours)
The political and social aspects of American bureaucracies at the local, state and national levels with emphasis on the roles of administrators and administrative institutions in the political system and policy process.
Outcomes:
Students will be able understand the role of the federal bureaucracy in the formulation, adoption and implementation of public policies, and their impact on the everyday lives of citizens

PLSC 333 Crossing Borders: The Politics of Immigration (3 Credit Hours)
This course explores immigration policies and practices around the world. The primary goal is to gain a better understanding of the choices both countries and would-be immigrants face, as well as the consequences of the laws and policies enacted to regulate the movement of people across borders.
Interdisciplinary Option: Human Services, Human Services
Outcomes:
Understand the range of motivations that cause people to migrate, the laws and policies to regulate this movement, the consequences of migration, and contribute to societal debates about migration

PLSC 334 Urban Policies and Problems (3 Credit Hours)
An analysis of selected problems confronting governments in urban America as well as the range of public policies that address urban problems. (May be repeated with different issues.)
Interdisciplinary Option: Human Services, Race and Ethnicity, Urban Studies
Outcomes:
Students will obtain in-depth knowledge of a unique topic in the area of urban policy-making

PLSC 335 Urban Semester Seminar (3 Credit Hours)
See course description for SOCL 335.
Interdisciplinary Option: Urban Studies
This course satisfies the Engaged Learning requirement.
Course equivalencies: X-SOCL335/PLSC335
Outcomes:
See outcome for SOCL 335

PLSC 336 Politics in Contemporary China (3 Credit Hours)
This course primarily focuses on domestic politics in post-1978 China. It introduces and examines China's key political institutions and players, various forms of political participation by political elites and ordinary citizens, and issues on governance and political reforms.
Interdisciplinary Option: Asian Studies, Global & International Studies, Global Studies, Peace Studies, Asian Studies, Global & International Studies, Global Studies, Peace Studies
Course equivalencies: X-COMM304/PLSC/PAX336/INTS310
Outcomes:
Students will be able to make informed use of China as a case in more general arguments and have a solid footing from which to pursue more in-depth study of particular topics in China

PLSC 337 Terrorism (3 Credit Hours)
An analysis of different types of terrorist insurgencies across the globe and of the efforts by governments to combat terrorism
Interdisciplinary Option: Global Studies
Course equivalencies: X-PLSC337/INTS337
Outcomes:
Students will be able to explain what motives the turn to terror as a method of struggle and to assess the morality and effectiveness of the counterterrorism tactics adopted by various governments

PLSC 338 Comparative Public Policy: Policies in Western Democracies (3 Credit Hours)
The course will provide an overview of the policy process and consider the role of cultural, political, and institutional influences on policymaking in western democracies. The course will provide key concepts and strategies for evaluation of policy outcomes.
Interdisciplinary Option: Global Studies
Course equivalencies: X-PLSC338/INTS338C
Outcomes:
Students will acquire knowledge for objective and comprehensive policy analysis and recommendations

PLSC 339 Political Ideologies (3 Credit Hours)
(INTS 369) A comparative analysis of important modern political ideologies and the functions they serve in the political system. Attention will be devoted to the ideologies of non-Western regimes and movements.
Interdisciplinary Option: Global Studies
Course equivalencies: X-PLSC339/INTS339
Outcomes:
Students will be able to analyze and assess the role and impact of political ideologies in the foundation, development, and justification of various political regimes

PLSC 340 International Relations of Africa (3 Credit Hours)
(BWS 340) (INTS 340) An introduction to the international relations of the countries that comprise the African continent. The primary focus is the evolution of African international relations during the post-colonial period (c. 1960-present).
Interdisciplinary Option: African Studies and the African Diaspora, Black World Studies, Global Studies, Islamic World Studies
Course equivalencies: X-PLSC340/BWS 340/INTS340
Outcomes:
Students will be able to demonstrate an understanding of the nature and evolution of African international relations with the major northern industrialized democracies and various regions of the developing world

PLSC 342 African Politics (3 Credit Hours)
(BWS 342) (INTS 342) Forces shaping political societies south of the Sahara: the heritage of colonialism, the sociology of modernization, race related stresses, economic factors, and political movements.
Interdisciplinary Option: African Studies and the African Diaspora, Black World Studies, Global Studies, Islamic World Studies
Course equivalencies: PLSC342/BWS 342/INTS342/IWS342
Outcomes:
Students will be able to demonstrate an understanding of the formation and structure of African political systems, the patterns of political participation and behavior of diverse individuals, groups, and governments in African societies, and evaluate the roles and processes of African political institutions

PLSC 343 Latin American Politics (3 Credit Hours)
(INTS 343) (LASP 343) Historical, cultural, economic and political forces in the governments of Latin America and the Caribbean.
Interdisciplinary Option: Global Studies, Latin American Studies
Course equivalencies: X-PLSC343/INTS343/LASP343
Outcomes:
Students will be able to demonstrate an understanding of the formation and structure of Latin American and Caribbean political systems, the patterns of political participation and behavior of diverse individuals, groups, and governments in Latin American and Caribbean societies, and evaluate the roles and processes of Latin American and Caribbean political institutions

PLSC 344 Contemporary Issues in Latin America (3 Credit Hours)
(INTS 344) (LASP 344) A study of political forces and processes relating to population movement, land use, and urbanization in Latin America and the Caribbean.
Interdisciplinary Option: Global Studies, Latin American Studies
Course equivalencies: X-PLSC344/INTS344/LASP344
Outcomes:
Students will obtain in-depth knowledge of a unique topic in Latin American and Caribbean politics

PLSC 345 South & Southeast Asian Politics (3 Credit Hours)
(ASIA 343) (INTS 345) Political forces and developments of the Asian cultures.
Interdisciplinary Option: Asian Studies, Global Studies
Course equivalencies: X-PLSC345/ASIA343/INTS345
Outcomes:
Students will be able to demonstrate an understanding of the formation and structure of South and Southeast Asian political systems, the patterns of political participation and behavior of diverse individuals and groups in South and Southeast Asian societies, and evaluate the roles and processes of South and Southeast Asian political institutions

PLSC 346 East Asian Politics (3 Credit Hours)
(ASIA 342) (INTS 346) The social forces and structure of politics and government of East Asia.
Interdisciplinary Option: Asian Studies, Global Studies
Course equivalencies: X-PLSC346/ASIA342/INTS346
Outcomes:
Students will be able to demonstrate an understanding of the formation and structure of East Asian political systems, the patterns of political participation and behavior of diverse individuals and groups in East Asian societies, and evaluate the roles and processes of East Asian political institutions

PLSC 347 The European Union (3 Credit Hours)
(INTS 381) An introduction to the European Union, a regional organization linking the nations of Europe.
Interdisciplinary Option: European Studies, Global Studies, Polish Studies
Course equivalencies: X-PLSC347/INTS381
Outcomes:
Students will be able to demonstrate an understanding of the formation and structure of the European Union, the patterns of political participation and behavior of diverse individuals, groups, and governments in the European Union, and evaluate the roles and processes of the European Union's political institutions

PLSC 348 Soviet & Post-Soviet Politics (3 Credit Hours)
(INTS 382) An examination of the institutions, processes, and policies of the former Soviet Union and its successor states.
Interdisciplinary Option: European Studies, Global Studies, Polish Studies
Course equivalencies: X-PLSC348/INTS382
Outcomes:
Students will be able to demonstrate an understanding of the formation and structure of the former Soviet Union, the patterns of political participation and behavior of diverse individuals and groups in the former Soviet Union, and evaluate the roles and processes of the former Soviet Union's political institutions; Students will also be able to understand the collapse of the former Soviet Union and the formation and structure of its successor states

PLSC 349 Eastern European Politics (3 Credit Hours)
(INTS 382) An examination of the institutions, processes, and policies of the former Soviet Union and its successor states.
Interdisciplinary Option: European Studies, Global Studies, Polish Studies
Course equivalencies: X-PLSC349/INTS349
Outcomes:
Students will be able to demonstrate an understanding of the formation and structure of the former Soviet Union, the patterns of political participation and behavior of diverse individuals and groups in the former Soviet Union, and evaluate the roles and processes of the former Soviet Union's political institutions; Students will also be able to understand the collapse of the former Soviet Union and the formation and structure of its successor states

PLSC 350 Politics of International Economic Relations (3 Credit Hours)
(INTS 350) An examination of international political-economic relations with an emphasis on the post-World War II period.
Interdisciplinary Option: Global Studies
Course equivalencies: X-PLSC350/INTS350
Outcomes:
Students will be able to demonstrate an understanding of the interrelationship between the international economic and political systems

PLSC 351 Latin American International System (3 Credit Hours)
(INTS 395) (LASP 341) An introduction to the international relations of the countries of Latin America and the Caribbean. The primary focus is the evolution of Latin American and Caribbean international relations during the Cold War period Students will gain an in-depth knowledge of how U.S. influence, revolutionary insurgencies, trade, the illicit narcotics traffic, human rights concerns, and international organizations have positively and negatively affected the region.
Interdisciplinary Option: Global Studies, Latin American Studies
Course equivalencies: X-PLSC351/INTS395/LASP341
Outcomes:
Students will be able to demonstrate an understanding of the interrelationship between the international system and the foreign policies of the countries of Latin America and the Caribbean

PLSC 352 Canadian Politics (3 Credit Hours)
(INTS 320) The Canadian system of government, focusing on the Parliament, the Prime Minister and permanent government, the judiciary, political actors such as organized interests, political parties, mass media, and public opinion.
Interdisciplinary Option: Global Studies
Course equivalencies: X-PLSC352/INTS320
Outcomes:
Students will be able to demonstrate an understanding of the Canadian political system, the patterns of political participation and behavior of diverse individuals and groups in Canadian society, and evaluate the roles and processes of Canadian political institutions

PLSC 353 International Law (3 Credit Hours)
(INTS 353) (PAX 353) Introduction to legal principles and procedures of recognized international law.
Interdisciplinary Option: Global Studies, Peace Studies, Sociolegal Studies
Course equivalencies: X-PLSC353/INTS353/PAX 353
Outcomes:
Students will be able to demonstrate an understanding of the role and impact of law and legal principles and institutions in international relations

PLSC 354 Global Environmental Politics (3 Credit Hours)
(ESP 354) (INTS 354) (PAX 354) Examines the linkages between the world's natural environment and the global political system.
Interdisciplinary Option: Environmental Studies, Global Studies, Peace Studies
Course equivalencies: X-PLSC/ESP/INTS/PAX 354
Outcomes:
Students will be able to demonstrate an understanding of the role of various private, national and international actors in the formulation, adoption and implementation of environmental public policies

PLSC 355C Women and Politics: A Cross-National Perspective (3 Credit Hours)
This course offers a cross-national perspective of women's status in the political world, as voters, activists, and officeholders. It examines women's participation in the developed and developing world. Students will acquire knowledge of the role of women as political actors in a multitude of nations in the world.
Interdisciplinary Option: Global Studies, Women & Gender Studies
Course equivalencies: PLSC355C/WSGS355C/INTS361C

PLSC 356 Intervent in World Politics (3 Credit Hours)
(INTS 356) (PAX 356) Examines the purposeful use of political, economic, and military instruments by one country to influence the domestic or the foreign policies of another country.
Interdisciplinary Option: Global Studies, Peace Studies
Course equivalencies: X-PLSC356/INTS356/PAX 356
Outcomes:
Students will obtain an in-depth knowledge of the historical evolution, potential constraints, and case studies of U.S. intervention in the post World-War II era

PLSC 357 Hollywood and Law (3 Credit Hours)
This course analyzes films that focus on justice, the law, and the legal system, to see what they tell us about political and legal culture, and what messages (if any) they have for contemporary politics.
Interdisciplinary Option: Global & International Studies, Global & International Studies
Course equivalencies: X-PLSC357/INTS357
Outcomes:
Student will analyze how Hollywood portrays law, policy, and major trials and court decisions as well as be able to locate and ask questions about how the depiction of law, politics, and civic responsibility have changed across time

PLSC 358 War, Peace and Politics (3 Credit Hours)
(PAX 358) The historical evolution of war, the nature of wars in the 20th century and into the 21st century, the nature of threats, sources of conflict, and procedures for peaceful resolution of disputes.
Interdisciplinary Option: Global Studies, Peace Studies
Course equivalencies: X-PLSC358/INTS358/PAX 358
Outcomes:
Students will be able to demonstrate an understanding of the principal causes of wars, the means and ends of warfare, and the process and prospects of reestablishing peace

PLSC 358D The Scientific Study of War (3 Credit Hours)
This course provides an introduction to & overview of the concepts & approaches related to the causes of war, conflict, and peace in the international system. The main topics of the course are: (1) an introduction to understanding war as a social science topic, (2) the origins of the demands and disputes that can lead to war, (3) the escalation of these, (4) the expansion of war, (5) the consequences of war, and (6) the possibility of peace.
Interdisciplinary Option: Global Studies, Peace Studies

PLSC 359 Revolutions (3 Credit Hours)
(INTS 368) A critical examination of different empirical theories of revolution. Case studies will be drawn from Europe, Asia, Africa, and the Americas.
Interdisciplinary Option: Global Studies
Course equivalencies: X-PLSC359/INTS384
Outcomes:
Students will be able to analyze and assess the causes, development, and consequences of modern revolutionary movements and revolutions

PLSC 360 Western European Politics (3 Credit Hours)
(INTS 360) Comparative study of the structures, processes, and functions of the parties and governments of the western powers with emphasis on the United Kingdom, France and the German Federal Republic.
Interdisciplinary Option: European Studies, Global Studies
Course equivalencies: PLSC360/INTS360
Outcomes:
Students will be able to demonstrate an understanding of the formation and structure of West European political systems, the patterns of political participation and behavior of diverse individuals and groups in West European societies, and evaluate the roles and processes of West European political institutions

PLSC 362 Politics Developing Societies (3 Credit Hours)
(INTS 362) Social, economic, and ideological factors influencing political developments in emerging nations.
Interdisciplinary Option: Global Studies
Course equivalencies: X-PLSC362/INTS362
Outcomes:
Students will be able to demonstrate an understanding of the foundation and structure of emerging nations, the patterns of political participation and behavior of diverse individuals, groups, and governments in developing societies, and evaluate the roles and processes of political institutions in developing societies

PLSC 363 International Politics (3 Credit Hours)
This course is intended to serve as an advanced exploration of the field of international politics. Students will explore the most recent developments in international relations theory and select political developments within the international system, including the evolution of these developments in various regions of the world.
Interdisciplinary Option: Global Studies
Outcomes:
Students will hone their ability to assess/critique cutting edge theories and developments within the field of international politics

PLSC 364 UN & International Organization (3 Credit Hours)
(INTS 364) (PAX 364) An examination of the purposes, organization, background, and operations of existing international organizations.
Interdisciplinary Option: Global Studies, Peace Studies
Course equivalencies: X-PLSC364/INTS364/PAX 364
Outcomes:
Students will be able to demonstrate an understanding of the formation and structure of various International Organizations, especially the United Nations, the patterns of political participation and behavior of individuals, private and public groups, and governments in International Organizations, and evaluate the roles and processes of International Organizations

PLSC 365 Italian Politics & Government (3 Credit Hours)
(INTS 365) (ROST 365) An examination of the institutions, processes, and practices of Italian political life. Major concern is with post-1945 Italian politics.
Interdisciplinary Option: European Studies, Global Studies, Italian Studies
Course equivalencies: X-PLSC365/INTS365/ROST365
Outcomes:
Students will be able to demonstrate an understanding of the formation and structure of Italy's contemporary political system, the patterns of political participation and behavior of diverse individuals and groups in Italian society, and evaluate the roles and processes of Italian political institutions

PLSC 366 Dictatorship (3 Credit Hours)
This comparative politics course examines the origins, dynamics, and contradictions of various nondemocratic forms of government, including military and party dictatorships.
Interdisciplinary Option: Global Studies
Course equivalencies: X-PLSC366/INTS366
Outcomes:
Students will be able to explain why authoritarian systems rise and fall and how politics in these systems compares to the political process in democratic states

PLSC 367 Model United Nations (3 Credit Hours)
Introduction to the operations and practices of United Nations, including training for student participation in the Model U.N. program. Students taking PLSC 367 Model UN class and act as leaders of the team that represents Loyola at the New York conference. Prior permission required to enroll.
Interdisciplinary Option: Global Studies, Global Studies, Peace Studies, Peace Studies, Global Studies, Global Studies, Peace Studies, Peace Studies
Course equivalencies: X-PLSC367/INTS367/PAX 367
Outcomes:
Students will demonstrate an understanding of the formation and structure of the United Nations; Understanding in enhanced by the practical experience gained by participating in Loyola's Model UN program

PLSC 368 Politics of the Middle East (3 Credit Hours)
This course will draw upon the theoretical insights of comparative politics to examine politics in the Middle East and North Africa. The seminar focuses on issues that are important for understanding the contemporary politics of the region, from the persistence of authoritarianism, petropolitics, political Islam, Arab-Israeli conflict, and the rise of ISIS to ethnic divisions, gender relations, and social movements.
Interdisciplinary Option: Arabic Language and Culture, Global Studies, Islamic World Studies
Course equivalencies: X-PLSC368/INTS391/IWS368

PLSC 369 Politics of Energy (3 Credit Hours)
The course will discuss how the challenges of climate change, energy security, and poverty alleviation are being tackled by politicians and the public. It will also assess the degree to which changes in energy resources bring changes in economic, political, and social power.
Interdisciplinary Option: Global & International Studies, Islamic World Studies, Peace Studies, Global & International Studies, Islamic World Studies, Peace Studies
Course equivalencies: PLSC369/INTS386/PAX386/IWS369
Outcomes:
Students will gain a firm understanding of the various global and regional trends that are shaping 21st Century foreign policy behavior generally, and energy diplomacy specifically

PLSC 370 Fieldwork in Political Science-Internship (1-6 Credit Hours)
Practical experience in political and governmental agencies and organizations in Chicago and Washington, D.C.
Interdisciplinary Option: Human Services
This course satisfies the Engaged Learning requirement.
Outcomes:
Students learn about different forms of public service and the ethical responsibilities of civic engagement; Working in a professional office for fifteen weeks allows students to experience the world of public service first-hand; Students will be able to demonstrate an understanding of models of leadership and public service by working with supervisors who are normally leaders in their fields

PLSC 371 Roman Law (3 Credit Hours)
(CLST 362) An introduction to the general principles and basic concepts of Roman civil law with emphasis upon the Late Republican-Early Imperial period.
Interdisciplinary Option: European Studies, Rome Studies
Course equivalencies: X-CLST362/PLSC371/ROST362
Outcomes:
Students will be able to demonstrate an understanding of the assumptions and principles guiding the formulation and implementation of Roman civil law

PLSC 372 Crime, Race & Violence (3 Credit Hours)
This course discusses the political aspects that affect crime and violence in the United states, with a special focus on questions of race.
Interdisciplinary Option: African Studies and the African Diaspora, Human Services, Peace Studies, Psychology of Crime and Justice, Sociolegal Studies, Urban Studies
Course equivalencies: X-CJC/BWS/AFR/PLSC372/PAX373

PLSC 373 Politics and Literature (3 Credit Hours)
Literature as a medium of political analysis and political criticism. The literary tradition examined may vary, and the course may be repeated for credit, depending on the subject matter.
Outcomes:
Students will learn to interpret and evaluate the political assumptions and principles underlying the writings of major literary figures, and to reflect on the role and significance of literature in promoting a more just society

PLSC 374 Democracy (3 Credit Hours)
A critical examination of the theory and practice of democratic government. The subfield to which this course belongs varies depending on its content.
Outcomes:
Students will be able to analyze and assess the theoretical arguments for and against democracy, and to demonstrate an understanding of the various institutional arrangements of democratic government

PLSC 376 Political Behavior and Public Opinion (3 Credit Hours)
This course will cover a range of topics pertaining to public opinion and political behavior in the United States. Topics will include how public opinion is measured, research on the factors that shape public attitudes about political matters, and work that examines who participates in politics and why.
Outcomes:
Students will learn about substantive scholarly findings on these topics, as well as the methodologies researchers use to answer questions about public opinion and political participation

PLSC 377 American Public Policies (3 Credit Hours)
Public policy-making at the national and state government levels; includes social, economic, fiscal, judicial, and moral policies.
Course equivalencies: PLSC377 / PLSC205
Outcomes:
Students will obtain in-depth knowledge of a unique topic in the area of American public policy adoption and implementation

PLSC 378 Intro to Political Economy (3 Credit Hours)
The relationships between political and economic systems with an emphasis on revenues and expenditures, and the consequences of fiscal and monetary policies on economic activity.
Course equivalencies: PLSC378 / PLSC207
Outcomes:
Students will be able to analyze the role of the economy and economic actors in the adoption of public policies, especially in the formulation and implementation of the budget, and their impact on the economic lives of citizens

PLSC 379 The Legislative Process (3 Credit Hours)
Legislative campaigns and elections, the formal procedures of law making, the influence of political parties and interest groups, and the interaction with the president, the judiciary, and the bureaucracy.
Course equivalencies: PLSC379 / PLSC210
Outcomes:
Students will be able to analyze and assess the role and processes of the US Congress in the deliberation and formulation of domestic policies and their impact on the everyday lives of citizens

PLSC 380 Public Policy Analysis (3 Credit Hours)
The course offers a broad approach to the study of public policy.

PLSC 381 The American Presidency (3 Credit Hours)
The powers, roles, and responsibilities of the presidential office with special attention to political leadership, the bureaucracy, and political parties.
Course equivalencies: PLSC381 / PLSC211
Outcomes:
Students will be able to analyze and assess the role and impact of the U.S. presidency on domestic policy and foreign affairs

PLSC 384 The Judicial Process (3 Credit Hours)
The judicial process in the American court system from the Supreme Court to local trial courts, civil and criminal procedure, appellate court decision-making, and the impact of judicial policies on American politics and society.
Interdisciplinary Option: Sociolegal Studies
Course equivalencies: PLSC384 / PLSC212
Outcomes:
Students will be able analyze and assess the role and impact of the U.S. court system on the protection of individual freedoms and civil rights

PLSC 385 Introduction to Law (3 Credit Hours)
The nature of law in society, including the constitutional origins and institutional structure of legal systems, the practices of the legal profession, and the substance of selected areas of case law.
Interdisciplinary Option: Sociolegal Studies
Course equivalencies: CRMJ375/PLSC385/PLSC214
Outcomes:
Students will be able to understand the role of law and the legal system in American politics and its impact on the everyday lives of citizens

PLSC 386 Campaigns and Elections (3 Credit Hours)
The organization, functions, and behavior of political parties and elections in the United States.
Course equivalencies: PLSC386 / PLSC217
Outcomes:
Students will be able to analyze and evaluate the role and impact of political parties and elections on the American political system

PLSC 387 Politics and the Press (3 Credit Hours)
A study of the dynamics between politics and the press, including its impact on campaigns, elections, and public policy.
Course equivalencies: X-PLSC387/CMUN340
Outcomes:
Students will be able to analyze and assess the role and impact of the press on the American politics

PLSC 388 The Morality and Legality of War (3 Credit Hours)
Competing perspectives on the moral, legal, and practical challenges of military force as a tool of foreign policy, especially focused on the complexity of using force to pursue humanitarian goals.
Outcomes:
Students will be able to demonstrate an understanding of just war theory, international humanitarian law, and major theories of humanitarianism, to analyze the stakes and trade-offs involved in decisions about war and peace, and to critically engage with contemporary foreign policy events

PLSC 389 State Politics (3 Credit Hours)
A comparative study of the composition and powers of state governments.
Course equivalencies: PLSC389 / PLSC221
Outcomes:
Students will be able to demonstrate an understanding of state governments, the patterns of political participation and behavior of diverse individuals and groups in state politics, and evaluate the roles and processes of state political institutions

PLSC 390 Urban Politics (3 Credit Hours)
Political processes in cities and other local governments, Examination of mayors, city councils, bureaucrats, and their interaction with local citizens and interest groups.
Interdisciplinary Option: Human Services, Race and Ethnicity, Urban Studies
Course equivalencies: PLSC390 / PLSC222
Outcomes:
Students will be able to demonstrate an understanding of urban governments, the patterns of political participation and behavior of diverse individuals and groups in urban politics, and evaluate the roles and processes of urban political institutions

PLSC 391 Chicago Politics (3 Credit Hours)
The political groups in Chicago, their political power and impact on city politics and policy. Attention will be given to the powers and roles of city council and the mayor's office.
Interdisciplinary Option: Human Services, Italian American Studies
Course equivalencies: PLSC391 / PLSC224
Outcomes:
Students will be able to demonstrate an understanding of Chicago government, the patterns of political participation and behavior of diverse individuals and groups in Chicago politics, and evaluate the roles and processes of Chicago's political institutions

PLSC 392 Environmental Politics (3 Credit Hours)
The issues, significant actors, and public policies relating to the environment. (ESP 235) (PAX 235)
Interdisciplinary Option: Environmental Studies, Peace Studies, Urban Studies
Course equivalencies: PLSC392/PLSC/ESP/PAX235
Outcomes:
Students will be able to analyze and assess the role of various actors in the formulation, adoption and implementation of environmental public policies, and their impact on the everyday lives of citizens

PLSC 393 Black Politics (3 Credit Hours)
This course will present a general overview of black politics in America, including the major black political ideologies and their theoretical underpinnings and the role of race in urban politics in the late twentieth and early twenty-first centuries.
Interdisciplinary Option: African Studies and the African Diaspora
Course equivalencies: X-HIST374/PLSC393/BWS374
Outcomes:
Students will gain an understanding of how the circumstances of Reconstruction shaped black political ideologies; how blacks came into political power in major urban centers; and what the contours of debate are in the black community over provocative issues such as the criminal justice system, affirmative action, reparations, and education

PLSC 395 Political Science Honors Seminar (3 Credit Hours)
Variable titles. Investigation of selected topics or methods in Political Science.
Outcomes:
Students will gain an in-depth knowledge of a unique topic or method in Political Science

PLSC 396 Directed Readings (1-3 Credit Hours)
Opportunity for an unusually accomplished student to pursue a discrete area of knowledge in political studies in a format designed to stimulate highly productive effort.
Outcomes:
Students will hone research and writing skills in close collaboration with a faculty sponsor

PLSC 397 Urban Studies Research (3 Credit Hours)
The course allows students to engage in research-related projects related to urban studies.
Interdisciplinary Option: Urban Studies
Course equivalencies: X-PLSC397/URB397

PLSC 398 Washington DC Internship Seminar (3 Credit Hours)
This course requires you to combine your academic interests and your internship, allowing you to reflect on and think deeply about the relationship between your internship, experience and academic learning. This course will also explore political Washington.
Outcomes:
This course will clarify students' career goals, and demonstrate how these goals can be enhanced by their academic work

PLSC 399 Tunisia On-Site: Arab Spring, Democratic Change, Islam (3 Credit Hours)
A combination of site visits, lectures, and group discussions throughout Tunisia provides a unique experiential understanding of the relationship between the Arab spring, democratic change, Islam, gender relations, and U.S. foreign policy amidst the historical inheritances of the Carthaginian, Roman, Islamic, and French empires in North Africa.
Interdisciplinary Option: African Studies and the African Diaspora, Arabic Language and Culture, Global Studies, Islamic World Studies, Peace Studies, Women & Gender Studies
Course equivalencies: X-PLSC 399/HIST 313T
Outcomes:
Experientially based knowledge of the politics, society, culture, history, and international relations of a country (Tunisia) in a region (North Africa) at the intersection of Africa and the Middle East

Honors in Political Science

Qualified political science majors may graduate with honors in political science. This program honors students who achieve academic excellence in their studies and who successfully complete additional training in

a special topics research seminar (PLSC 395 Political Science Honors Seminar). This course is offered each spring and students may enroll in it in their junior or senior year. Admission requires a 3.5 GPA overall and in political science. Admitted students may register for PLSC 395 Political Science Honors Seminar in the spring semester of their junior or senior year provided they have successfully completed seven political science classes (21 credit hours). The Honors Seminar will not count toward the 33 credit hours required for a political science major or as one of the required subfield courses.

For more information about the Political Science Honors Program, please contact Professor David Doherty (ddoherty@luc.edu).

PLSC 395 Political Science Honors Seminar/ Honors Course / Spring 2023

Politics and Genocide in Rwanda

Professor Brian Endless

The PLSC Honors Seminar this year is a deep focus on politics in Rwanda, and how it has led to several genocidal actions over the course of modern Rwandan history. This course analyzes the politics surrounding genocide, war crimes and crimes against humanity in Rwanda. While the Rwandan genocide of 1994 will be a central focus, the course will dive deep into the history of Rwanda from pre-colonial times through the genocide, looking at how Rwandan politics and history led to a series of oligarchies and autocratic rulers, moving back and forth between the Hutu and Tutsi groups. The course will also look at politics in Rwanda since the genocide, analyzing the regime of Paul Kagame through the present day.

This class is available to students who have been admitted to the Political Science Honors Program. Registration is by permission only.

Law and Politics Minor

Curriculum

To graduate with a minor in Law and Politics, students must complete 18 hours of coursework (6 courses). Specifically, all minors must take:

Code	Title	Hours
Required Courses		
PLSC 385	Introduction to Law [1]	3
Select one of the following: [1]		3
PLSC 100	Political Theory	
PLSC 101	American Politics	
PLSC 102	International Relations in an Age of Globalization	
PLSC 103	Comparative Politics	
Select one upper-division course in EACH of the three focus areas:		9
(1) American Legal System		
(2) International Law		
(3) Law-related Engaged Learning Course		
Select one more upper-division course from one of the three focus areas.		3
Total Hours		**18**

[1] This course is not a prerequisite and can be completed at any time.

Special Note for Political Science Majors: Students majoring political science may double-count the introductory (PLSC 100 Political Theory, PLSC 101 American Politics, PLSC 102 International Relations in an Age of Globalization, or PLSC 103 Comparative Politics) course from their political science major. However, the rest of the credit requirements for a Law and Politics minor are in addition to the requirements of a Political Science major.

Learning Outcomes and Professional Success

The Minor in Law and Politics is designed to achieve the following learning outcomes:

- Acquire a foundational understanding of the interactions between law and politic and be able to demonstrate a complex understanding of the political and legal processes and their impact on societies and individuals.
- By taking at least one course focusing on legal and political aspects of the American system, students will learn and demonstrate an understanding of differences of class, gender, and race in our legal and political system, with a view to fashioning a more humane and just society.
- By taking at least one course focusing on political and legal interactions in other nations, students will be expected to demonstrate an awareness that human values and behavior, ideas of justice, and methods of interpretation are influenced by culture and time.
- Through engaged learning courses, students will integrate learning through reflection, connecting and synthesizing disciplinary knowledge and out of classroom experiences to generate new understanding.

The program has a strong emphasis on engaged learning. This will allow students not just to read about legal and political causes and effects on the way societies function, but also to experience firsthand the intricacies of such interactions. Consequently, upon completion of the program, students are expected to develop a better understanding of themselves and their role in society and the world, beyond their aforementioned demonstrated social understanding.

For more information, please contact Professor Amanda Savage (abryan2@luc.edu), Law and Politics Director for the Department of Political Science. You can also contact the Chair of the Political Science Department, Professor Alex Grigorescu (agrigor@luc.edu)

Political Science (BA)

Curriculum

To graduate with a major in Political Science, students must complete 33 hours of course work (11 courses) in the department or through transfer or advanced placement credit. All majors are required to take any three of the following four courses: PLSC 100 Political Theory, PLSC 101 American Politics, PLSC 102 International Relations in an Age of Globalization, and PLSC 103 Comparative Politics plus one upper-division (200- or 300-level) course from each of the discipline's four subfields: American Politics, Comparative Politics, International Relations and Political Theory.

Code	Title	Hours
PLSC Requirements		
Select three of the following: [1]		*9*
PLSC 100	Political Theory	
PLSC 101	American Politics	
PLSC 102	International Relations in an Age of Globalization	
PLSC 103	Comparative Politics	
Subfield Requirements		
One (1) course in American Politics Subfield		3
One (1) course in Political Theory Subfield		3
One (1) course in Comparative Politics Subfield		3
One (1) course in International Relations Subfield		3
Four (4) PLSC Electives		*12*
Total Hours		**33**

[1] If students take PLSC 100, 101, or 102 as the three required courses for the major, they can also take PLSC 103 and have it count as an elective in the major. Students in the BA/MA Political Science and Students in the BA/MA in International Affairs can count two of the graduate level courses (at the 400 or 500 level) that they take in their senior year as electives in the PLSC major, alongside the other two courses at the 200 or 300 level.

Curricular Notes

- The Political Science internship program (PLSC 370), a 3- or 6-credit hour course, counts as one of the four Political Science electives. Only 3 credits of PLSC 370 may count toward the PLSC major, the other three will be counted as general electives. An exception is made for students who complete an internship in Chicago as well as an internship via the Washington, DC program. In that case, 3 credit hours from each internship may be applied to the major.
- The following courses do not fulfill subfield requirements but do count as electives toward the PLSC major. PLSC 396 Directed Readings and PLSC 216 Political Numbers (PLSC 216 also fulfills the core quantitative reasoning requirement for PLSC majors only.)
- The following courses neither fulfill subfield requirements nor count as electives toward the PLSC major: PLSC 395 Political Science Honors Seminar. This is an extra course that students take beyond the major requirements in order to graduate with Honors in Political Science.

Subfield Courses

American Politics

Code	Title	Hours
PLSC 202	Mock Trial [1]	3
PLSC 203	Moot Court [1]	3
PLSC 208	Representation in the United States	3
PLSC 215	Politics of Marginalized Groups	3
PLSC 218	African-American Politics	3
PLSC 236	Political Communication	3
PLSC 238	Political Advocacy	3
PLSC 251	Women in American Politics	3

[1] This course is Engaged Learning.

Majors Declared Prior to July 2021

All students who declared their major prior to July 1 2021, are subject to the previous requirements: they are required to take all three of the following courses: PLSC 100 Political Theory, PLSC 101 American Politics, and PLSC 102 International Relations in an Age of Globalization plus one upper-division (200- or 300-level) course from each of the discipline's four subfields: American Politics, Comparative Politics, International Relations and Political Theory.

Transferring Credit

At least 17 credit hours of PLSC courses must be completed at Loyola.

Double Dipping Policy

Political Science adheres to the CAS Double Dipping Policy (p. 54).

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

The BA in Political Science is designed to achieve the following learning outcomes:

- Provide students with an in-depth understanding of four foundational areas in the discipline of Political Science:
  - American Politics, including U.S. institutions and political processes.
  - Comparative Politics of various regions of the world, such as Africa, Asia, Europe, Latin America, and the Middle East.
  - International Relations, most notably the impact of globalization on international affairs, and how it relates to U.S. foreign policy.
  - Political Theory, or the study of political philosophy ranging from Ancient to Modern and Contemporary political thought.
- Provide students more broadly with an in-depth understanding of political institutions and processes in the United States and abroad.
- Challenge students to think critically about various dilemmas, including achieving justice, in political life.

- Enhance the ability of students to express their thoughts in writing (all upper division Political Science classes include a significant writing component).
- Prepare majors for purposeful careers in politics, government, international affairs, law, the non-profit world, journalism, business, education, social services, and other professions.
- Prepare majors for further graduate or professional study at professional schools and institutions of higher learning, both in the U.S. and abroad.

We as a Political Science department also encourage our students to take advantage of additional learning opportunities through numerous Political Science-sponsored programs that will enhance learning outcomes:

- Obtain professional experience through our Chicago-based internship program that places students in host offices throughout Chicago during the fall, spring, and summer sessions, including participating in an internship class where you share your experiences with other student interns.
- Obtain professional experience through our Washington DC-based internship program, in which students spend either the fall or spring semester in Washington DC interning and taking classes full-time at Loyola's new Washington DC center with Loyola faculty and under the guidance of a Loyola Resident Director.
- Acquire unique experience through semester-long programs, most notably the department's Model United Nations (spring semester), Mock Trial (spring semester), and Moot Court (fall semester) programs, each of which involves national competitions and a semester-long class.
- Acquire advanced methodological training, most notably through the Political Science "Political Numbers" class that satisfies the Quantitative Knowledge requirement of the Core Curriculum for Political Science students.
- Acquire advanced research skills by working on a research project under the mentorship of individual faculty members through Loyola's Undergraduate Research Opportunities Program (LUROP) and other internal or external grants.
- Gain international, cross-cultural experience by participating in study abroad opportunities led by Political Science faculty or more broadly offered through Loyola's Office for International Programs (OIP).
- Graduate with Honors in Political Science by applying for enrollment in the Political Science Honors Seminar which is offered each spring semester and open to students in their junior and senior years.
- Strengthen class-based learning by attending Political Science-sponsored events, most notably our endowed Hartigan (fall semester) and Covey (spring semester) lecture series that bring prominent scholars and political figures to Loyola every semester to share their ideas and to meet with students.

For more information, please contact Professor David Doherty (ddoherty@luc.edu), Undergraduate Program Director for the Department of Political Science.

Political Science Minor

Curriculum

To graduate with a minor in Political Science, students must complete 18 hours of course work (6 courses) in the department or through transfer or advanced placement credit.

Learning Outcomes

The Minor in Political Science is designed to achieve the following learning outcomes:

- Provide students with an introduction to three foundational areas in the discipline of Political Science:
  - American Politics, including U.S. institutions and political processes.
  - International Relations, most notably the impact of globalization on international affairs, and how it relates to U.S. foreign policy.
  - Political Theory, or the study of political philosophy ranging from Ancient to Modern and Contemporary political thought.
- Provide students more broadly with an in-depth understanding of political institutions and processes in the United States and abroad.
- Challenge students to think critically about various dilemmas, including achieving justice, in political life.

- Enhance the ability of students to express their thoughts in writing (all upper division Political Science classes include a significant writing component)
- Prepare minors for purposeful careers in politics, government, international affairs, law, the non-profit world, journalism, business, education, social services, and other professions.
- Prepare minors for further graduate or professional study at professional schools and institutions of higher learning, both in the U.S. and abroad.

We as a Political Science department also encourage our students to take advantage of additional learning opportunities through numerous Political Science-sponsored programs that will enhance learning outcomes:

- Obtain professional experience through our Chicago-based internship program that places students in host offices throughout Chicago during the fall, spring, and summer sessions, including participating in an internship class where you share your experiences with other student interns.
- Obtain professional experience through our Washington DC-based internship program, in which students spend either the fall or spring semester in Washington DC interning and taking classes full-time at Loyola's new Washington DC center with Loyola faculty and under the guidance of a Loyola Resident Director.
- Acquire unique experience through semester-long programs, most notably the department's Model United Nations (spring semester), Mock Trial (spring semester), and Moot Court (fall semester) programs, each of which involves national competitions and a semester-long class.
- Acquire advanced methodological training, most notably through the Political Science "Political Numbers" class that satisfies the Quantitative Knowledge requirement of the Core Curriculum for Political Science students.
- Learn about the Comparative Politics of various regions of the world, such as Africa, Asia, Europe, Latin America, and the Middle East.
- Acquire advanced research skills by working on a research project under the mentorship of individual faculty members through Loyola's Undergraduate Research Opportunities Program (LUROP) and other internal or external grants.
- Gain international, cross-cultural experience by participating in study abroad opportunities led by Political Science faculty or more broadly offered through Loyola's Office for International Programs (OIP).
- Strengthen class-based learning by attending Political Science-sponsored events, most notably our endowed Hartigan (fall semester) and Covey (spring semester) lecture series that bring prominent scholars and political figures to Loyola every semester to share their ideas and to meet with students.

- Philosophy/International Affairs (BA/MA) (p. 1147)
- Political Science/International Affairs (BA/MA) (p. 1159)
- Psychology/International Affairs (BS/MA) (p. 1166)
- Secondary Education/International Affairs (BSEd/MA) (p. 1172)
- Sociology/International Affairs (BA/MA) (p. 1190)
- Special Education/International Affairs (BSEd/MA) (p. 1196)
- Theology/International Affairs (BA/MA) (p. 1208)

Psychology

Career Opportunities

After completing their undergraduate degrees, psychology graduates typically earn graduate or professional degrees or pursue employment. Graduate studies include specializations within the field in clinical, cognitive, industrial, social, educational, counseling, or developmental psychology. Employment in psychology-related professional positions include alcohol/drug counselor, child-care worker, geriatric counselor, hospital ombudsman, management trainee, market researcher, mental health specialist, human resources professional, sales representative, and teacher. For more details on the types of careers graduate pursue and details on how to pursue them please visit our Psychology Career Finder (https://www.luc.edu/psychology/resources/psychologycareerfinder/).

Prospective Students

If you are interested in learning more about undergraduate studies in the Loyola University Chicago Department of Psychology, please request additional information about Loyola and our program using the Undergraduate Request Form (https://uao.luc.edu/register/?id=09e1ac8b-c620-43cc-afe7-325cad54eec2).

Undergraduate Programs

- Honors in Psychology (p. 592)
- Psychology (BS) (p. 593)
- Psychology/Applied Social Psychology (BS/MA) (p. 1164)
- Psychology/International Affairs (BS/MA) (p. 1166)
- Psychology Minor (p. 596)

Undergraduate Policies and Procedures

Please see Undergraduate Policies and Procedures (p. 2050) for academic policies that supersede those of academic units within the University.

Psychology (PSYC)

PSYC 100 Psychological Perspectives on the Experience of Globalization (3 Credit Hours)
Globalization from a psychological perspective. Applying core psychological concepts, research and theory to cross-cultural issues of behavior and development. Topics may include human rights of children, human trafficking, immigration, moral issues of international trade, parenting across cultures.
Knowledge Area: Foundational Societal Knowledge
Outcomes:
Students will learn basic concepts and theories and apply them to real-world globalization problems

PSYC 101 General Psychology (3 Credit Hours)
Requirement: ANTH 100, PLSC 102, PSYC 100 or SOCL 101 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Anthropology, Department of Criminal Justice, Department of Economics, Department of Psychology, Department of Political Science, the Department of Sociology, Human Services or the School of Nursing. Introduction to concepts, theories, and methods in psychology. Emphasis is given to the scientific study of consciousness and human behavior. Topics include: human development, learning, thinking, perception, personality, testing, mental illness and mental health, biological and social aspects of behavior.
Knowledge Area: Tier 2 Societal Knowledge
Interdisciplinary Option: Human Services, Psychology of Crime and Justice
Course equivalencies: ACPSY 201 / PSYC 101
Outcomes:
Students will master basic concepts and key theories and learn to apply them to real-world situations

PSYC 201 Psychology Advising and Career Development (1 Credit Hour)
Pre-requisites: PSYC 101, PSYC-BS major
Overview of the psychology major at Loyola and career options in psychology. Introduces students to psychology career development resources. Students will also prepare for opportunities in independent research and internships and plan for a career including creating a resume and CV.
Outcomes:
Students will learn about career options in psychology and plan their psychology major to support and develop their career interests

PSYC 225 Psychology of Peace (3 Credit Hours)
Application of psychological theories, concepts, and research to issues of peace and conflict. Areas covered include international conflicts and international peacebuilding (including war, terrorism, and global environmental issues) as well as interpersonal conflicts and conflict resolution (including crime, family violence, and conflict arising from prejudice and perceived threat). Classic theories of peace are also analyzed and connected to psychological theory and research.
Interdisciplinary Option: Peace Studies
Course equivalencies: PSYC 225/PAX225

PSYC 235 Psychology of Human Sexuality (3 Credit Hours)
Pre-requisites: PSYC 101
Sexuality as an important aspect of human functioning and its integration into the total person will be emphasized. Topics include sexual anatomy and physiology, gender identity and roles, attraction and love, sexual orientation, human reproduction, sexual development, sexual dysfunction.
Interdisciplinary Option: Bioethics, Human Services, Women & Gender Studies
Outcomes:
Students will demonstrate an understanding of the biological, psychological and socio-cultural aspects of human sexuality, along with sexual dysfunction, and sex roles

PSYC 237 Cross-Cultural Psychology (3 Credit Hours)
Pre-requisites: PSYC 101
Students will learn about cultural factors that influence cognition, perception, emotion, behavior, motivation, and mental health. Similarities and difference in both explicit and implicit cultural factors will be emphasized. Students will explore their identities, values, and biases. Students will engage in reflection to increase cultural awareness and sensitivity towards others.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students will demonstrate an understanding of concepts and research methodologies in cross-cultural psychology; Students will develop critical thinking skills, as well as increased cultural awareness and sensitivity towards others

PSYC 238 Gender & Sex Differences & Similarities (3 Credit Hours)
Requirement: ANTH 100, PLSC 102, PSYC 100 or SOCL 101 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Anthropology, Department of Criminal Justice, Department of Economics, Department of Psychology, Department of Political Science, the Department of Sociology, Human Services or the School of Nursing. Overview of psychological research and theory concerning differences and similarities between genders. included..
Knowledge Area: Tier 2 Societal Knowledge
Interdisciplinary Option: Bioethics, Human Services, Women & Gender Studies
Course equivalencies: PSYC238/WOST238/WSGS238
Outcomes:
Students will understand similarities and differences between genders, comprehend the diversity of ideas about gender and how ideas of gender are determined by societies and cultures

PSYC 239 Understanding Bias and Inclusivity (3 Credit Hours)
Using an intersectional lens, students learn about how privilege, power, and oppression shape ourselves, perceptions of others, and our social world. They consider how ourselves and others are shaped by and operate within the larger social system. Students explore their identities, values, and biases. Students engage in self-reflection to increase self-awareness. Articulate how personal power can be used to create change.
Interdisciplinary Option: Race and Ethnicity, Women & Gender Studies
Course equivalencies: X - PSYC 239/ SOCL 239
Outcomes:
Identify feelings about course topics; Demonstrate self-awareness of identities and values, including the value of difference; Engage in intergroup dialogue

PSYC 240 Psychology-Biology of Perception (3 Credit Hours)
Pre-requisites: PSYC 101; For Biology majors: BIOL 102, BIOL 112, and PSYC 101 Introduction to the study of sensory systems, especially vision and audition, emphasizing historical development of the field, multi-disciplinary scientific approaches; recent research and theory on the mechanisms of seeing and hearing; and applications of research to real-world problems
PSYC 240 is cross-listed with BIOL 240.
Interdisciplinary Option: Neuroscience
Course equivalencies: X-PSYC240/BIOL240
Outcomes:
Students will understand and be able to explain how knowledge of the functioning of sensory systems is obtained using a variety of experimental methods, how stimulus energy is translated into neural signals, how the brain processes sensory information, and how these processes determine conscious perception

PSYC 250 Cognitive Psychology (3 Credit Hours)
Pre-requisites: PSYC 101
Overview of cognitive psychology. Topics include: human information processing, object recognition, memory, attention, language production and comprehension, reasoning and problem solving.
Outcomes:
Students will understand and be able to explain how knowledge about mental events is obtained using a variety of experimental methods, discuss current empirical research and theories of cognition, understand well established cognitive theories about attention, memory, language processing, reasoning and decision-making

PSYC 251 Learning and Memory (3 Credit Hours)
Pre-requisites: Grade of C- or better in PSYC 101 and (NEUR 101 or PSYC/BIOL 240)
This course surveys the field of learning and memory, including working, episodic, and semantic memory, nonassociative learning, classical and operant conditioning, skill learning, and neuroplasticity. Behavioral, neuroscientific, and clinical perspectives will be considered.
Interdisciplinary Option: Neuroscience

PSYC 273 Developmental Psychology (3 Credit Hours)
Pre-requisites: PSYC 101
Survey of theory and research relevant to human growth and development with emphasis on physical, cognitive, and social development from infancy through adolescence.
Interdisciplinary Option: Human Services
Course equivalencies: X-CPSY273/PSYC273
Outcomes:
Students will demonstrate understanding of basic theory and research in human development, and will develop skills in critical examination of psychological research as applied to current issues in human development

PSYC 274 Lifespan Development (3 Credit Hours)
Pre-requisites: PSYC 101
This course provides a survey of current theory, research, and applications on development (physical, cognitive, and social/emotional development) that are present at each stage of the lifespan. Normal development is emphasized; however, special human circumstances are also explored.
Outcomes:
Students will demonstrate an understanding of theory and research in development across the lifespan; Students will develop critical thinking skills, applying research to contemporary issues in lifespan development

PSYC 275 Social Psychology (3 Credit Hours)
Introduction to the field of social psychology; including topics such as social cognition, impression formation, social influence, attitude formation and change, stereotyping and prejudice, aggression, pro-social behavior, and group behavior.
Knowledge Area: Tier 2 Societal Knowledge
Interdisciplinary Option: Human Services, Psychology of Crime and Justice
Course equivalencies: ACPSY 275 / PSYC 275
Outcomes:
Students will demonstrate the ability to think critically about fundamental theoretical approaches within social psychology, scientific methods of hypothesis testing, and potential applications of social psychology that address real-world problems

PSYC 276 Philosophy of Mind (3 Credit Hours)
Pre-requisites: PHIL 130
This course is a study of the different philosophical views regarding the nature and the existence of the mind and its relation to material bodies. Students will be able to demonstrate understanding of the various philosophical views and problems regarding the mind and its relation to matter.
Course equivalencies: X-PSYC 276/ PHIL 276/PHIL 176

PSYC 277 Environmental Psychology (3 Credit Hours)
Human behavior is at the root of environmental degradation. This course examines how psychological processes influence behaviors that help or hurt the environment and how psychology can promote conservation. The course identifies theory-based interventions and evaluates their effectiveness. Class activities allow students to practice applying psychology to promote environmental sustainability.
Outcomes:
Students will be able to identify the psychological bases of environmental problems; Students will be introduced to theories and practical strategies to change behavior as it relates to environmental issues

PSYC 280 Psychology of Judgment and Decision-Making (3 Credit Hours)
Pre-requisites: PHIL 130
This course examines the forces that shape decision-making, from the individual and day-to-day to the shaping of public policy. Psychological research on cognitive biases, economic models, and philosophical perspectives on deductive reasoning and what makes a good decision will be discussed. Students can only take one course from PHIL 279, PSYC 279, PSYC 280.
Knowledge Area: Tier 2 Philosophical Knowledge
Outcomes:
Students will learn fundamental principles and theories - including various biases and decision-making errors, and learn to apply the course to improve thinking, problem-solving, and decisions

PSYC 302 History & Systems in Psychology (3 Credit Hours)
Pre-requisites: PSYC 101
A systematic treatment of the historical roots and foundation of psychology. Special emphasis is placed on relating past trends to current developments in the field.
Outcomes:
Students will demonstrate knowledge of the foundations of psychology as a science, including major schools and theoretical frameworks, and make connections between past trends and current approaches

PSYC 304 Statistics (3 Credit Hours)
Pre-requisites: PSYC 101
This course is an introduction to fundamentals of statistical analysis in psychology.
Interdisciplinary Option: Human Services
Outcomes:
Students will demonstrate the ability to analyze data, interpret the results of research using basic statistical methods, and understand the conceptual foundation, appropriate use, and limitations of these statistical methods

PSYC 306 Research Methods in Psychology (3 Credit Hours)
Pre-requisites: PSYC 304
Logic and theory of the scientific method. Basic principles of scientific research methodologies employed in approaching major problem areas in psychology. This class is writing intensive.
Interdisciplinary Option: Human Services, Urban Studies
Outcomes:
Students will demonstrate knowledge and skills necessary to formulate research questions and hypotheses, develop research designs, operationalize variables and gather data in an ethical manner, choose appropriate statistical methods for analyzing data, interpret results of statistical analyses, write a scientific paper in APA style, and critically evaluate research

PSYC 307 Psychology of Language (3 Credit Hours)
Pre-requisites: PSYC 101
Analysis of language as symbol-behavior specific to humans, language structure and competence, language performance, and the neurophysiological basis of language. Methods for investigating language processing, acquisition, bilingualism, and language disorders will be considered.
Outcomes:
Students will demonstrate understanding of major theories, research methodologies, and empirical knowledge in the study of language

PSYC 310 Lab in Program Evaluation (3 Credit Hours)
Pre-requisites: PSYC 306; PSYC 275 is also recommended
Special attention is given to the fundamental skills needed to evaluate human service programs including research methodology and research diplomacy. The strengths and weaknesses of several evaluation strategies will be discussed in terms of scientific validity, ethical constraints, and political acceptability.
Outcomes:
Students apply their developing evaluation skills in a class project and present the data in a written report

PSYC 311 Lab in Psychobiology (3 Credit Hours)
Pre-requisites: (BIOL/STAT 335 or PSYC 304) and (NEUR 101, PSYC/BIOL 240, or PSYC 382/BIOL 284); OR for PSYC-BS and Cognitive/Behavioral Neuroscience majors: PSYC 306 and (NEUR 101, PSYC/BIOL 240, or PSYC 382/BIOL 284) Minimum grades of C-
Introduction to the structures and functions of vertebrate nervous systems, how these systems compute and process information; laboratory experience with concepts and methods in the neurophysiological study of the bases of perception and other behaviors. Hearing is used as an example. PSYC 311 is cross-listed with BIOL 313.
Interdisciplinary Option: Neuroscience
Course equivalencies: X-PSYC311/BIOL313
Outcomes:
Students will learn the concepts of basic neurophysiology and the theory of signal detectability, and have experience applying the logic and formulation of neurophysiological theories of perception

PSYC 312 Lab in Cognitive Neuroscience (3 Credit Hours)
Pre-requisites: PSYC 306 and PSYC 382
This course is a laboratory practicum in the techniques of cognitive neuroscience, with an emphasis on electrophysiological and hemodynamic methods of measuring nervous system function during cognitive and behavioral tasks and the effects of noninvasive brain stimulation.
Interdisciplinary Option: Neuroscience
Outcomes:
Students will develop scientific research skills as they relate to the field of cognitive neuroscience, including experimental design, physiological methods of data collection, statistical analysis and interpretation, and reporting findings

PSYC 313 Lab in Behavioral Neuroscience (3 Credit Hours)
Pre-requisites: PSYC 306 and either PSYC 251 or PSYC 382
Provides an understanding of the structure and function of the brain as it relates to behavior through empirical data collection and analyses. Course objectives will be met through demonstrations, hands-on laboratory experience with different behavioral assays, histology, an evaluation of scientific literature, and scientific communication via poster presentations.
Outcomes:
Develop a breadth of neuroscientific knowledge and skills involving critical thinking, research ethics, experimental design, animal behavior, data collection and analysis, and dissemination of scientific findings in different formats

PSYC 314 Lab in Experimental Psychology: Cognition (3 Credit Hours)
Pre-requisites: PSYC 306 (C-) and (C- in PSYC 250, PSYC 251, PSCY 307, or PSYC 382)
Laboratory demonstrations, experiments, and microcomputer applications in the area of human cognition. Topics vary, but include learning, memory, thinking and language processing.
Interdisciplinary Option: Neuroscience
Outcomes:
Students gain skills and experience in experimental design, measurement, statistical analyses, and report writing as they relate to research on human cognition

PSYC 315 Lab: Tests & Measurements (3 Credit Hours)
Pre-requisites: PSYC 306; PSYC 331 or 338 is recommended
Topics include: theory of psychological testing and assessment; historical context and related legal and ethical considerations; basics of test construction and evaluation, including reliability, validity, and standardization; and common measures of personality, attitudes, and ability and their psychometric properties.
Outcomes:
Students will learn to demonstrate proficiency with psychological testing terminology and concepts

PSYC 316 Lab in Experimental Psychology: Sense & Perception (3 Credit Hours)
Pre-requisites: PSYC 306, NEUR 101 (formerly PSYC/BIOL 202) or PSYC 240
Laboratory demonstrations, experiments, and microcomputer applications to the psychophysical and physiological study of sensory systems. The course stresses the research methods and quantitative measures that are used in characterizing sensory processes, especially visual and auditory systems.
Interdisciplinary Option: Neuroscience
Outcomes:
Students gain skills and experience in experimental design, measurement, statistical analyses, and report writing as they relate to research in sensory processes

PSYC 318 Lab in Developmental Psychology (3 Credit Hours)
Pre-requisites: PSYC 273 and 306
Lecture and laboratory on empirical studies of developmental processes in humans. Focus is on research in particular content areas within developmental stages (e.g., infancy, childhood, adolescence, adulthood) and research on changes in behavior across time.
Outcomes:
Students will demonstrate skills and knowledge of developmental methodology, designing, conducting, and analyzing and interpreting the results of a research project, and writing a research paper in APA format

PSYC 321 Laboratory-Social Psychology (3 Credit Hours)
Pre-requisites: PSYC 275 and 306
Lectures, demonstrations, readings, and individual or group research projects illustrating various methods, such as observation, interviewing, archives, standardized tests, and experimentation, are used to learn about topics such as group influences on the individual, attitudes, prosocial and antisocial behavior, and perception of self and others.
Outcomes:
Students will demonstrate skills and knowledge of methodology in social psychological research; designing, conducting, and analyzing and interpreting the results of a research project, and writing a research paper in APA format

PSYC 327 Lab on Body Image (3 Credit Hours)
Pre-requisites: PSYC 101, 304, 306
Lab on Body Image is a new course that can be used by Psychology students to fulfill the B lab requirement. It will focus on the scholarly study of body image and eating disorders, as well as how research is conducted in the field. Students will complete smaller labs and a larger research project in the field.
Outcomes:
1) Learn about the scholarly study of body image and eating disorders; 2) Learn general research methods in Psychology and specific ones pertaining to the topic; 3) Learn about computer packages, including SPSS to analyze data

PSYC 331 Psychopathology (3 Credit Hours)
Pre-requisites: PSYC 101
Nature and causes of maladjustment and mental disorders. History of mental illness, diagnosis, research, and treatment of mental disorders.
Interdisciplinary Option: Human Services, Psychology of Crime and Justice
Course equivalencies: X-CPSY333/PSYC331/ACPSY280
Outcomes:
Students will demonstrate understanding of current approaches to researching maladaptive behavior, current views of maladaptive behavior, major categories of "mental disorders", factors contributing to development of problems, different types of intervention strategies, and appreciation of social, ethical, and legal issues

PSYC 332 Affective Neuroscience (3 Credit Hours)
Pre-requisites: PSYC 101 or NEUR 101 (formerly PSYC/BIOL 202)
Affective experiences promote human adaptability and survival, and healthy emotion function is critical to promoting physical and psychological well being. The course will provide an overview of fundamental neurobiological correlates associated with emotion function and processing affective stimuli.
Interdisciplinary Option: Neuroscience
Outcomes:
Students will understand theories regarding brain mechanisms associated with emotion processing and the techniques used for studying these mechanisms

PSYC 338 Psychology of Personality (3 Credit Hours)
Pre-requisites: PSYC 101 Facts and principles of personality study
Nature of personality, its structure, development, expression, and measurement. Exposition and evaluation of personality study methods with critical review of traditional and modern theories of personality.
Interdisciplinary Option: Psychology of Crime and Justice
Course equivalencies: X-CPSY338/PSYC338
Outcomes:
Students will acquire an understanding of different personality theories, critically evaluate these theories, and apply what they have learned

PSYC 340 Psychology of Women (3 Credit Hours)
Pre-requisites: PSYC 101
Review of psychological aspects of women's experiences. Topics include psychological aspects of biological events such as menarche, pregnancy, menopause; aspects of women's work and family roles; and mental health issues relevant to women.
Interdisciplinary Option: Human Services, Women & Gender Studies
Course equivalencies: PSYC340/WOST340/WSGS340
Outcomes:
Students will demonstrate knowledge of critical contemporary issues impacting women and girls, and critically evaluate/analyze academic theory, social institutions, and media

PSYC 346 Psychopathology of Childhood (3 Credit Hours)
Pre-requisites: PSYC 273
Consideration of the nature and causes of maladjustment, emotional disorders, and learning disabilities in children in conjunction with approaches to prevention and remediation.
Interdisciplinary Option: Human Services, Psychology of Crime and Justice
Outcomes:
Students will demonstrate knowledge of the major categories of childhood psychopathology and methods of diagnosis, theories of causes of maladjustment and mental illness in children and adolescents, and types of intervention strategies

PSYC 348 Psychology of Adolescence (3 Credit Hours)
Pre-requisites: PSYC 273
In-depth study of adolescence using an interdisciplinary approach. Integration of cultural, social, psychological, and biological perspectives.
Interdisciplinary Option: Human Services, Psychology of Crime and Justice
Outcomes:
Students will appreciate the various factors leading to similarities and differences in the experience of adolescence in America and in other cultures, and will demonstrate understanding of major theories, research methodologies, and empirical knowledge in the study of adolescence

PSYC 350 Developmental Cognitive Neuroscience (3 Credit Hours)
Pre-requisites: PSYC 101, NEUR 101 (formerly PSYC/BIOL 202)
An overview of theory and research relevant to the study of the developing child through the use of neuroscience methods; topics may include: brain plasticity and maturation, sensorimotor systems, attention, memory, executive function, language, social cognition, and typical and atypical development.
Interdisciplinary Option: Neuroscience
Outcomes:
Students will gain knowledge of basic theory and research in the field of developmental cognitive neuroscience and will acquire understanding of brain and behavior relationships in a developmental context

PSYC 352 Neuropsychology (3 Credit Hours)
Pre-requisites: PSYC 101 and NEUR 101
Neuropsychology is the interdisciplinary study of the relation between human brain function and behavior. This course is an undergraduate survey of topics related to neuropsychology, including neuroanatomy, psychophysiology, and cognitive neuroscience. A primary goal of the course is to introduce undergraduate students to neuropsychological concepts in research and applied settings.
Interdisciplinary Option: Neuroscience
Outcomes:
Successful completion of this course leads to mastery of CNS function and structure; The ability to integrate this information will allow students to develop and test hypotheses about brain-behavior relationships

PSYC 353 Applied Social Psychology (3 Credit Hours)
Pre-requisites: PSYC 275
Applications of principles and methods of social psychology to social issues and problems in such areas as: law and justice, health and health care, education, natural and built environments, population, work, life and intergroup relations.
Outcomes:
Students will demonstrate the ability to apply knowledge of major theories, research methodologies, and empirical knowledge in social psychology to real-world issues and problems

PSYC 355 Neuroethics (3 Credit Hours)
Pre-requisites: students must have taken at least two philosophy courses
This course focuses on ethical considerations emerging from contemporary research in neuroscience, as well as neuroscientific techniques for studying ethical questions. Students will be able to demonstrate understanding of the ways in which the study of ethics and neuroscience inform each other
Interdisciplinary Option: Bioethics
Course equivalencies: X - PSYC355/PHIL355

PSYC 356 Consumer Psychology (3 Credit Hours)
Pre-requisites: PSYC 101
Introduction to the field of consumer psychology; including topics such as consumer attitude formation and change, persuasive communication and consumer behavior, the psychology of advertising, consumer decision making, personality and consumer behavior, identity and consumer behavior, and culture and consumer behavior.
Outcomes:
Students will understand and apply theoretical approaches within consumer psychology and the psychology of advertising

PSYC 360 Understanding Prejudice (3 Credit Hours)
Pre-requisites: PSYC 101
Prejudice from a psychological perspective. Applying psychological concepts, research, and theory to understand the origins and consequences of prejudice as well as potential remedies.
Interdisciplinary Option: African Studies and the African Diaspora, Black World Studies, Psychology of Crime and Justice, Race and Ethnicity, Women & Gender Studies
Course equivalencies: BWS360/WSGS360
Outcomes:
Students will learn the origins of stereotypes and prejudice, the nature of prejudice against different social groups, how people are affected by prejudice and cope with prejudice, and the processes that may change stereotypes, reduce prejudice, and improve intergroup relations

PSYC 362 Industrial/Organizational Psychology (3 Credit Hours)
Pre-requisites: PSYC 101
Study of human behavior in work settings. Topics include principles of employee selection, job analysis, motivation and morale, managerial behavior, organization development and socialization, leadership, conflict management, work design and group process.
Course equivalencies: PSYC362 / PSYC364
Outcomes:
Students will demonstrate understanding and ability to think critically about how the science of behavior is applied to work environments

PSYC 368 Counseling (3 Credit Hours)
Pre-requisites: PSYC 101; PSYC 331 or 338 is also recommended
Introduction to the theory, techniques, and research behind major helping interventions, focusing on individual psychotherapy with adults.
Interdisciplinary Option: Human Services
Outcomes:
Students will critically evaluate different approaches to intervention in terms of their theoretical underpinnings, applications, goals and effectiveness, and will develop the ability to utilize some basic counseling skills

PSYC 369 Psychology Honors Readings (3 Credit Hours)
Pre-requisites: Membership in the Psychology Honors award program and approval of the Department Honors Advisor
Directed readings and development of a formal research proposal on a topic of interest to the student and the faculty member with whom he/she has chosen to work. Students are not restricted to working with the faculty member whose name is listed in the schedule of classes.
Outcomes:
Students will write a literature review and research proposal for the honors thesis

PSYC 370 Psychology Honors Research (3 Credit Hours)
Pre-requisites: PSYC 369
Students carry out the research proposed in PSYC 369 and prepare a formal report constituting the honors thesis. Approval of the thesis by the honors committee earns the psychology honors award. PSYC 370 is a capstone course.
This course satisfies the Engaged Learning requirement.
Course equivalencies: PSYC370H / PSYC370
Outcomes:
Students will conduct research, analyze and interpret data, and write a thesis

PSYC 371 Psychology of Political Behavior (3 Credit Hours)
Examination of the determinants of political judgments and decision; including topics such as voting preference, stereotypes and political thinking, racism and political behavior, ideology and public opinion, the effect of the media on political thought.
Outcomes:
Understanding of core theoretical and methodological approaches commonly applied to the study of political psychology

PSYC 372 Psychology & Law (3 Credit Hours)
Pre-requisites: PSYC 101
Introduction to the areas of overlap between psychology and the law. Topics include roles of psychologists in legal settings, accuracy of eyewitness testimony, jury processes, accuracy of polygraph examinations, and issues surrounding the insanity defense.
Interdisciplinary Option: Psychology of Crime and Justice, Sociolegal Studies
Course equivalencies: X- CJC 377 / PSYC 372
Outcomes:
Students will learn to analyze biases in the U.S. jury system, elucidate the weaknesses of eyewitness testimony, outline the issues in the insanity defense, understand the issues in Rape Trauma Syndrome and Battered Spouse Syndrome, understand the methods and effects of scientific jury selection, understand the complex issues surrounding confessions, and view the US justice system in a social justice context

PSYC 373 Health Psychology (3 Credit Hours)
Pre-requisites: PSYC 101
Survey of psychological and behavioral influences on how people stay healthy, why they become ill, and how they respond when they do become ill. Topics include: health behavior and primary prevention, stress and coping, patient-physician interaction, and management of chronic illness.
Interdisciplinary Option: Bioethics, Human Services
Outcomes:
Students will demonstrate an understanding of the complex interaction of an individual's psychology and physical health, as well as understanding of different intervention and prevention programs, the structure of the health care system, and the various roles psychologists play in this system

PSYC 374 Community Psychology (3 Credit Hours)
Pre-requisites: PSYC 101
Prevention of mental disorder and promotion of well-being, primarily through creating more mentally healthy environments, but also by enhancing individual resilience. Recognizing the toxicity of psychosocial stressors such as inequality, poverty, alienation, and discrimination, community psychologists also fight for social justice through empowerment of oppressed groups and policy advocacy. Understanding of the methods of community psychology; effects of societal, cultural, and environmental influences on psychological and community well-being.
Interdisciplinary Option: Human Services, Neuroscience

PSYC 375 Psychology of Addiction (3 Credit Hours)
Pre-requisites: PSYC 101
Survey of historical, demographical, and statistical aspects of substance abuse. Abuse of alcohol and drugs, as well as eating disorders, may be considered. A variety of theoretical models and interventions are discussed.
Interdisciplinary Option: Psychology of Crime and Justice
Outcomes:
Students will demonstrate understanding of the psychopharmacological effects of various substances, major research findings in the area of substance abuse, and prevention and intervention techniques

PSYC 376 Psychology of Religion (3 Credit Hours)
Introduction to the major issues, theories and empirical approaches in the psychology of religion; effect of religion on beliefs, motivations, emotions and behaviors.
Outcomes:
Understanding of the relationship between religion and psychological variables (eg, adjustment, prejudice, and prosocial behavior)

PSYC 377 Psychology of Music (3 Credit Hours)
Pre-requisites: PSYC 101
Engagement in musical activities is common across all human cultures. This course will introduce students to the interdisciplinary field of psychology of music and will focus on how humans perceive and are affected by music, how we create music, and how music is integrated into human life.
Outcomes:
Students will understand theories regarding brain mechanisms associated with emotion processing and the techniques used for studying these mechanisms

PSYC 378 Drugs and Behavior (3 Credit Hours)
Pre-requisites: NEUR 101
This course will introduce students to neuropsychopharmacology. Acute and long term effects of addictive drugs and drugs used to treat psychiatric disorders on neural function and behavior are discussed by integrating human and preclinical animal studies. Major types of drugs of abuse, antidepressants, antipsychotics, and anxiolytics will be discussed.
Outcomes:
Knowledge of the mechanisms of action of drugs, including illicit drugs and drugs used to treat psychiatric disorders

PSYC 381 Advanced Statistical Analysis-Computer:Social Science (3 Credit Hours)
Pre-requisites: PSYC 304 or SOCL 301
Expanded treatment of topics covered in PSYC 304 with emphasis on using standard computer analysis packages (SPSS).
Outcomes:
Students will demonstrate the ability to discuss theoretical assumptions of various statistical techniques, choose the appropriate statistical test in a variety of situations, use SPSS to enter data and perform a statistical analysis, and interpret the results of statistical analyses

PSYC 382 Behavorial and Cognitive Neuroscience (3 Credit Hours)
Pre-requisites: NEUR 101 (formerly PSYC 202 /BIOL 202)
Overview of topics and methodologies used in behavioral and cognitive neuroscience including: attention, learning and memory, language, reasoning, decision making, intelligence, emotions, social cognition, and consciousness. BIOL 284 is cross-listed with PSYC 382.
Interdisciplinary Option: Neuroscience
Course equivalencies: X-PSYC 382/BIOL 284
Outcomes:
Students will understand theories regarding brain mechanisms, underlying mental events and the technologies used for studying these mechanisms

PSYC 385 Practicum in Peace Activism (3 Credit Hours)
Students will learn how to recognize and navigate the psychological pitfalls that accompany work as a peace activist. Topics include building programs, recruiting volunteers, managing media messages, avoiding burnout, handling conflict within organizations, and securing funding for peace activities. Psychological constructs and theories such as group dynamics, perceived control, learned helplessness, attitude change, and altruism will be used to increase understanding of processes related to peace activism.
Interdisciplinary Option: Peace Studies
Course equivalencies: PSYC385/PAX385

PSYC 386 Psychology Seminar: Selected Topics (3 Credit Hours)
Pre-requisites: PSYC 101
An upper-level, intensive seminar on selected aspects of psychology.
Outcomes:
Students will demonstrate understanding of major theories, research methodologies, and empirical knowledge in the selected topic

PSYC 387 Seminar in Behavorial and Cognitive Neurosciences (3 Credit Hours)
Pre-requisites: NEUR 101 (formerly PSYC/BIOL 202); PSYC 382/BIOL 284, limited to NRCB-BS seniors
Lecture/discussions will focus on issues central to behavioral neuroscience, emphasizing human and animal mental processes and neural information processing mechanisms. Students will read primary research papers and practice analytical skills in class discussion and presentations. Presentations and exams will promote critical thinking and a general understanding of current issues in behavioral and cognitive neurosciences.
Interdisciplinary Option: Neuroscience
Outcomes:
Students will become familiar with principles of cognitive and behavioral approaches to the study of the neural bases of behavior; Students will also learn how to critically read primary research papers and present these papers to the class

PSYC 388 Laboratory in Neuroscience I (4 Credit Hours)
Pre-requisites: NEUR 101, BIOL 251; and students must be either a Molecular/Cellular Neuroscience Major, a Cognitive/Behavioral Neuroscience major, or a Neuroscience Minor
Students will be trained in various anatomical, physiological, behavioral, and neurobiological modeling techniques used to study the nervous system and the brain in the laboratory. This course is cross-listed as NEUR 301 & PSYC 388.
Interdisciplinary Option: Neuroscience
Course equivalencies: X-NEUR301/PSYC388/BIOL373
Outcomes:
Students will demonstrate understanding of several research designs and methodologies of use in neuroscience research and will gain experience with basic neuroscience laboratory techniques

PSYC 390 Internship in Psychology (3 Credit Hours)
Pre-requisites: PSYC 304 and approval via an internship application due on the 5th Friday of the previous semester
Capstone service-learning experience for psychology majors, involving application and development of psychological knowledge and skills through an internship (100 hours) in a human service organization or applied research setting, combined with regular class meetings, reading and writing assignments. Students arrange placements and complete a project on site. Application details may be found here: https://luc.edu/psychology/undergraduate/internshipinpsychology. Practical, pre-professional job skills, critical analysis and connection between theory and practice, on topics of: human service agency operation; effective working relationships; professional communication; cultural competence; values and ethics.
This course satisfies the Engaged Learning requirement.

PSYC 397 Independent Research (3 Credit Hours)
Pre-requisites: PSYC 306 and approval of internship coordinator
Limited to psychology majors with senior standing. Capstone opportunity to conduct research under the guidance of a psychology faculty member. Only one of PSYC 397 and 399 may count toward the psychology major.
Interdisciplinary Option: Neuroscience
This course satisfies the Engaged Learning requirement.
Outcomes:
Students will gain experience in all aspects of psychological research, including literature review, formulating hypotheses, designing and conducting research, analyzing data and interpreting results, communicating the results of research in written reports

PSYC 399 Special Studies in Psychology (1-3 Credit Hours)
Pre-requisites: permission of instructor and department
Opportunity for individual reading or research in a specialized area not otherwise covered by the Department's course offerings. Only one of PSYC 397 and 399 may count toward the psychology major.
Outcomes:
Students will gain experience (eg, integrating research results from various sources, conducting research) working directly with a faculty member on a current topic in psychology

Honors in Psychology

The psychology honors program is a program for outstanding students in which each student spends a minimum of two semesters working on a research project with a psychology professor. The end result of that collaboration is an honors thesis, an activity in which the student completes an individual research project under the guidance of his/her professor.

In the first semester, the student registers for PSYC 369 Psychology Honors Readings. Honors Readings. In this semester, the student does background reading in his/her subject of interest, meets periodically with his/her professor, and by the end of the semester has collaboratively designed an original research project with the professor and obtained IRB approval for the project.

In the second semester, the student registers for PSYC 370 Psychology Honors Research. Honors Research. In this semester, the student carries out the research project, collecting and analyzing data, writing up the results, submitting an honors thesis, and presenting the results of their project at a poster session at the end of the semester. On occasion, an honors theses has been presented at a professional meeting and/or published in a professional journal. All of these activities are completed

with close guidance from and in collaboration with the student's thesis director.

Advantages

Graduate schools and potential employers look very favorably at research experience, particularly if that research experience is of such merit that it leads to a professional presentation or publication. In addition, students who complete the honors thesis are presented at the annual department awards ceremony. Further, it is indicated on the students' transcripts that they have been awarded psychology honors. Perhaps most importantly, students get to pull together much of what they have learned as a psychology major in an integrative, capstone experience. In this experience, the student moves into a research colleague relationship with an experienced researcher and gets a real taste of what it is to be a research psychologist. This course sequence also satisfies the university's engaged learning requirement.

Requirements

To receive the psychology honors award, students must fulfill three requirements. Honors students must:

- Maintain a 3.5 cumulative GPA
- Receive grades of "B" or better in PSYC 369 Psychology Honors Readings / PSYC 370 Psychology Honors Research
- Complete 13 psychology courses, including PSYC 369 Psychology Honors Readings / PSYC 370 Psychology Honors Research
- Submit an Honors Thesis

Interdisciplinary Honors Program

You do not have to be in the University's Interdisciplinary Honors Program (https://www.luc.edu/honors/) to participate in the psychology honors program, and if you are in the Interdisciplinary Honors Program (https://www.luc.edu/honors/), you are not required to participate in the psychology honors program.

Eligibility

To be eligible for the psychology honors program, you must:

- Be a declared Psychology major (or co-major)
- Have an overall GPA of 3.5 or better
- Have taken the following psychology courses (or their equivalents if you are a transfer student): Identify a faculty member in the department who agrees to supervise your honors work (the honors director can help you identify such a person)
  - PSYC 101 General Psychology
  - PSYC 304 Statistics
  - PSYC 306 Research Methods in Psychology
  - One psychology laboratory course (recommended, but not mandatory)
- Formally apply for acceptance in the psychology honors program
- Have at least two more semesters of course work to complete at Loyola before graduation

Application Procedures

The application process is simple. Just submit a letter indicating your interest in applying along with a copy of your transcript to:

Dr. Jeffrey Huntsinger
jhuntsinger@luc.edu
Honors Director
Psychology Department

In the letter, indicate which faculty member has agreed to direct your honors thesis. If you don't know who to approach to be your thesis director, please consult the faculty research profiles (https://www.luc.edu/psychology/people/faculty/) or description of research labs (https://www.luc.edu/psychology/research/researchlaboratories/).

Application during your junior year is strongly preferred. This way, students will start the honors thesis during Spring Semester of their junior year, and complete the honors thesis by the end of of their senior year. This gives the student more time to get their research reviewed by the Loyola Institutional Review Board (which must approve research with human participants.)

Contact Us

For more information about the psychology honors program, please contact Dr. Jeff Huntsinger, Honors Director, at jhuntsinger@luc.edu

Psychology (BS)

Loyola offers the Bachelor of Science in Psychology which provides students with a broad-based introduction to the science of psychology as well as opportunities to learn how psychology is applied to solving individual and social problems. Within the major, students may concentrate in areas linking the major with biology and other natural sciences, with complementary disciplines in the social sciences, or with applied psychology in communities, organizations, and institutions.

Curriculum

A total of 14 psychology courses plus two ancillary quantitative courses are required. Psychology Honors requires 15 courses including PSYC 369 Psychology Honors Readings / PSYC 370 Psychology Honors Research, plus two ancillary quantitative courses.

Code	Title	Hours
Required Psychology Courses		
PSYC 101	General Psychology	3
PSYC 201	Psychology Advising and Career Development	1
PSYC 304	Statistics	3
PSYC 306	Research Methods in Psychology	3
Diversity and Inclusion Requirement Course		**3**
Choose one of the following:		
PSYC 237	Cross-Cultural Psychology	
PSYC 238	Gender & Sex Differences & Similarities	
PSYC 239	Understanding Bias and Inclusivity	
PSYC 360	Understanding Prejudice	
PSYC 374	Community Psychology	
Biological Pillar		**3**
PSYC 240	Psychology-Biology of Perception	
or NEUR 101	Introduction to Neuroscience	
Cognitive Pillar		**3**
Choose one of the following:		
PSYC 250	Cognitive Psychology	
PSYC 251	Learning and Memory	
PSYC 307	Psychology of Language	

PSYC 382	Behavorial and Cognitive Neuroscience	
Developmental Pillar		**3**
PSYC 273	Developmental Psychology	
Mental Health Pillar		**3**
PSYC 331	Psychopathology	
or PSYC 346	Psychopathology of Childhood	
Social Pillar		**3**
PSYC 275	Social Psychology	
Advanced Lab		**1**
Choose one of the following:		
PSYC 311	Lab in Psychobiology	
PSYC 312	Lab in Cognitive Neuroscience	
PSYC 313	Lab in Behavioral Neuroscience	
PSYC 314	Lab in Experimental Psychology: Cognition	
PSYC 315	Lab: Tests & Measurements	
PSYC 316	Lab in Experimental Psychology: Sense & Perception	
PSYC 318	Lab in Developmental Psychology	
PSYC 321	Laboratory-Social Psychology	
PSYC 327	Lab on Body Image	
Elective		**3**
Elective		**3**
Select one of the following:		**3**
PSYC 370	Psychology Honors Research (Capstone)	
2nd Advanced Lab Course		
PSYC 369	Psychology Honors Readings (Honors only)	3
Ancillary Quantitative Requirement		
Select two of the following:		6-8
MATH 108	Real World Modeling with Mathematics	
MATH 117	Precalculus I	
MATH 118	Precalculus II	
MATH 131	Applied Calculus I	
MATH 132	Applied Calculus II	
MATH 161	Calculus I	
MATH 162	Calculus II	
MATH 215	Object-Oriented Programming with Mathematics	
COMP 125	Visual Information Processing	
COMP 150	Introduction to Computing	
COMP 170	Introduction to Object-Oriented Programming	
COMP 180	Computing and Data Analysis for the Sciences	
DSCI 101	Fundamentals of Modern Data Science with R	
STAT 103	Fundamentals of Statistics	
Total Hours		**47-49**

List of Elective Courses

Code	Title	Hours
PSYC 235	Psychology of Human Sexuality	3
PSYC 274	Lifespan Development	3
PSYC 276	Philosophy of Mind	3
PSYC 280	Psychology of Judgment and Decision-Making	3
PSYC 332	Affective Neuroscience	3
PSYC 340	Psychology of Women	3
PSYC 348	Psychology of Adolescence	3
PSYC 350	Developmental Cognitive Neuroscience	3
PSYC 352	Neuropsychology	3
PSYC 355	Neuroethics	3
PSYC 362	Industrial/Organizational Psychology	3
PSYC 368	Counseling	3
PSYC 371	Psychology of Political Behavior	3
PSYC 372	Psychology & Law	3
PSYC 373	Health Psychology	3
PSYC 375	Psychology of Addiction	3
PSYC 376	Psychology of Religion	3
PSYC 377	Psychology of Music	3
PSYC 378	Drugs and Behavior	3
PSYC 386	Psychology Seminar: Selected Topics	3
PSYC 387	Seminar in Behavorial and Cognitive Neurosciences	3
PSYC 399	Special Studies in Psychology	1-3

Suggested Sequence of Courses

Recommended Sequence of Psychology Courses

Students should take PSYC 101 General Psychology and PSYC 201 Psychology Advising and Career Development their first year. Students should then take their Knowledge Pillar courses. It is recommended that students complete at least one of their Ancillary Quantitative Courses prior to beginning the PSYC 304 Statistics-PSYC 306 Research Methods in Psychology sequence. Note that PSYC 304 Statistics is a prerequisite for PSYC 306 Research Methods in Psychology. No other statistics course (including STAT 103 Fundamentals of Statistics) or a statistics course from another Loyola department can serve as a prerequisite for PSYC 306 if you are a Psychology Major. Students may not take PSYC 304 Statistics and PSYC 306 Research Methods in Psychology at the same time. Electives may be any 200 or 300 level psychology courses or NEUR 101 Introduction to Neuroscience. PSYC 306 Research Methods in Psychology and their specified Knowledge Pillar courses serve as prerequisites for advanced lab courses.

Recommended Sequence of Math Courses

Students should discuss the Ancillary Quantitative Requirement with their Psychology Faculty advisor as early as possible after declaring the major. It is expected that students will have completed at least one, and preferably both courses *before* beginning the PSYC 304 Statistics-PSYC 306 Research Methods in Psychology sequence. Thus, students should plan to take these courses during their first two years. Assuming a strong background in math, a computer science course is strongly recommended to prepare students for future academic and non-academic careers.

Advising for Psychology Majors

Students must take PSYC 101 General Psychology, PSYC 201 Psychology Advising and Career Development, PSYC 304 Statistics, PSYC 306 Research Methods in Psychology, one course for the Diversity and Inclusion Requirement, one course for each of the five Knowledge Pillars, one Advanced Lab Course, and one capstone course (or a 2nd Advanced Lab Course). Students graduating with Psychology Honors must take PSYC 369 Psychology Honors Readings / PSYC 370 Psychology Honors Research as their Capstone. Remaining courses may be any psychology course except PSYC 100 Psychological Perspectives on the Experience of Globalization.

When planning your course schedule with your Psychology Department Faculty Advisor, please consult the Psychology Major Checklist 2022-2023 (https://www.luc.edu/psychology/undergraduate/psychologymajorafterjuly2021/). The Psychology Course Matrix (https://www.luc.edu/psychology/undergraduate/psychologymajorafterjuly2021/) may also be of use in planning your course schedule. You can also view Psychology Course Descriptions (p. 2588) or look at many past Psychology Course Syllabi (https://www.luc.edu/psychology/undergraduate/psychologymajorafterjuly2021/).

Psychology Majors should complete PSYC 201 Psychology Advising and Career Development as soon after taking PSYC 101 General Psychology as possible. During that course you will receive a Psychology Faculty Advisor, but if you want to be assigned an advisor before you take the class please fill out this form (https://docs.google.com/forms/d/e/1FAIpQLSf5acxsvrb0-QmprGP6r075_pb4OgXyQOBiloV3wLqL4szsMg/viewform/). It is your responsibility to contact your advisor. Before meeting with your Advisor please take time to review the requirements found on this page and the Psychology Career Finder (https://www.luc.edu/psychology/resources/psychologycareerfinder/). More information on student advising at Loyola maybe found by visiting the Advising Webpage (https://www.luc.edu/psychology/undergraduate/advising/).

Co-Majoring

Psychology majors are to abide by Academic Council's double dipping policy (https://www.luc.edu/media/lucedu/cas/pdfs/Double%20Dipping%20Policy.pdf) which instructs that not more than three courses offered by one department may count towards two different majors. There are two notable exceptions for the Psychology Department:

- **Co-Majoring in Neuroscience.** Neuroscience Majors/Minors may count any psychology courses they take that count towards the Neuroscience Major/Minor towards both majors.
- **Co-Majoring in Social Work.** Social Work Majors may count PSYC 101 General Psychology and PSYC 304 Statistics and any other three PSYC classes approved by the School of Social Work towards both the Psychology and Social Work Majors.

Core Course Exemptions for Psychology Majors

Psychology majors are exempt from the “Societal and Cultural Knowledge” and “Quantitative Literacy” areas of the core. Additional information about the Core can be found here (http://luc.edu/core/core-guide.shtml/).

Transferring Courses

Three courses of the major (or the minor) can be fulfilled with courses transferred into Loyola. Please consult with your CAS Advisor to ensure that you have received transfer credit for courses taken at other universities.

Independent Study Opportunities

Loyola's psychology department offers countless opportunities for undergraduates to participate in research under the supervision of faculty members—an experience that is highly valued by employers and graduate schools. More information on Research in the department can be found under the Research Tab of the Psychology Department Website. Students can earn course credit for this research experience through independent studies and research courses, PSYC 397 Independent Research and PSYC 399 Special Studies in Psychology. Qualified students may also plan and conduct psychological research by enrolling in the two-course honors sequence (PSYC 369 Psychology Honors Readings and PSYC 370 Psychology Honors Research). PSYC 397 Independent Research and PSYC 370 Psychology Honors Research count towards the Loyola's engaged learning requirement, while PSYC 399 Special Studies in Psychology does not. More information on Independent Study courses in Psychology are available on the Independent Research webpage or by clicking the hyperlinks for the individual courses above.

Internship in Psychology

PSYC 390 Internship in Psychology is an intensive, work/academic experience that combines 100 hours (minimum) of supervised work at a psychology-related job site, arranged by the student prior to the start of the semester. PSYC 390 Internship in Psychology class meetings include class discussions and activities, reading and writing assignments, and an independent project. This is a unique and time-intensive opportunity that allows students to learn how psychology is applied in real-world settings. The course is open to psychology juniors and seniors. Students interested in the program should learn more by visiting the Internship in Psychology Webpage (https://www.luc.edu/psychology/undergraduate/internshipinpsychology/). Questions about the program should be addressed to the internship coordinator (psyc-internship@luc.edu). *Admission to the internship course is by application only. Applications are due midway through the **semester before** the internship is to be taken.*

Honors in Psychology

Students able to maintain a cumulative 3.5 GPA and interested in psychology independent research, should discuss the possibility of participating in the Honors in Psychology program with their Psychology Faculty Advisor or ideally their psychology research mentor. For more information on the program please visit the Honors in Psychology Webpage (https://www.luc.edu/psychology/undergraduate/). Questions about the program should be addressed to the program director, Dr. Jeff Huntsinger (jhuntsinger@luc.edu).

Answers to additional questions about the major may be found on the Department Website (https://www.luc.edu/psychology/) or by visiting the Frequently Asked Questions Webpage (https://www.luc.edu/psychology/undergraduate/faq/).

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

- Acquire a broad understanding of fundamental psychological principles and concepts, including the biological, cognitive,

developmental, mental health, and social pillars of psychological science.

- Expose students to theoretical approaches that deal with privilege, oppression, and social justice and encourage appreciation of differences in psychology across culture

Psychology Minor

Curriculum

A total of 6 psychology courses (18 credit hours) are required for the Psychology Minor. Three courses of the minor can be fulfilled with courses transferred into Loyola.

Code	Title	Hours
Required Courses		
PSYC 101	General Psychology	3
Select an additional five 200 or 300-level Psychology courses [1,2]		15
Total Hours		**18**

[1] Except PSYC 201 Psychology Advising and Career Development

[2] NEUR 101 Introduction to Neuroscience may be taken.

Mathematics and Statistics

While there is no explicit math requirement for the Psychology Minor, it is expected that students will have a solid background in basic math (including algebra and preferably probability) prior to taking PSYC 304 Statistics. If the student has tested out of math they may enroll in PSYC 304 Statistics immediately after taking PSYC 101 General Psychology.

Transferring Courses

Three courses of the minor can be fulfilled with courses transferred into Loyola. Please consult with your CAS Advisor to ensure that you have received transfer credit for courses taken at other universities.

Independent Study Opportunities

Loyola's psychology department offers countless opportunities for undergraduates to participate in research under the supervision of faculty members—an experience that is highly valued by employers and graduate schools. More information on Research in the department can be found under the Research Tab of the Psychology Department Website. Students can earn course credit for this research experience through independent studies and research courses, PSYC 397 Independent Research and PSYC 399 Special Studies in Psychology. Qualified students may also plan and conduct psychological research by enrolling in the two-course honors sequence (PSYC 369 Psychology Honors Readings and PSYC 370 Psychology Honors Research). PSYC 397 Independent Research and PSYC 370 Psychology Honors Research count towards the Loyola's engaged learning requirement, while PSYC 399 Special Studies in Psychology does not. More information on Independent Study courses in Psychology are available on the Independent Research webpage under the Undergraduate Tab on the department website or by clicking the hyperlinks for the individual courses above.

Internship in Psychology

PSYC 390 Internship in Psychology is an intensive, work/academic experience that combines 100 hours (minimum) of supervised work at a psychology-related job site, arranged by the student prior to the start of the semester. PSYC 390 Internship in Psychology class meetings include class discussions and activities, reading and writing assignments, and an independent project. This is a unique and time-intensive opportunity that allows students to learn how psychology is applied in real-world settings. The course is open to psychology juniors and seniors. Students interested in the program should learn more by visiting the Internship in Psychology Webpage found under the Undergraduate Tab on the department website. Questions about the program should be addressed to the internship coordinator (psyc-internship@luc.edu). *Admission to the internship course is by application only. Applications are due midway through the* ***semester before*** *the internship is to be taken.*

Double-Dipping Policy

Psychology minors are to abide by Academic Council's double dipping policy which instructs that 8 credit hours must be unique to a minor.

Learning Outcomes

- Acquire a broad understanding of fundamental psychological principles and concepts, including the cognitive, social, emotional, cultural, developmental and neurological factors that influence behavior.
- Learn to use scientific knowledge to make reasoned and ethical judgments promoting the health and well-being of the individual, community, and society.
- Develop the ability to design, conduct, and communicate the results, both orally and in writing, of basic psychological research.
- Develop the ability to think quantitatively about psychological concepts, and to quantitatively analyze experimental results.
- Participate in scientific inquiry using the methodologies and tools of psychological science in laboratory and field settings.

Sociology

Sociology is the study of the various ways that people interact and organize themselves...in nations and families, cities and tribes, in offices, churches, neighborhoods, schools and gangs. The subject matter is the world around us. A sociologist might study the work life of waitresses, the role of men in raising children, health disparities, white-collar crime, poverty and injustice, how and why people oppose nuclear power, the way rumors spread or why the birth rate in the United States is declining. The perspective gained from sociology teaches us to look in a different way at the world we often take for granted. Introducing students to sociology as a social science, the department seeks to develop a critical understanding of the ways in which people relate to each other through the organization of society and the ways in which social structures influence our lives.

Department History/Overview

Undergraduate and Graduate students entering Loyola University Chicago's Department of Sociology become part of a distinguished program with a long history of teaching, research, and service to the community begun in 1914. With seventeen full time active sociologists our department supports both an active research agenda and a teaching program that grants personal attention to our students, small class sizes, and faculty student collaborations. Our expanding number of undergraduate majors is complimented by over eighty full and part-time graduate students working toward advanced degrees in a program which has a continuing commitment to quality teaching, a plurality of methodological and theoretical styles, and the application of sociological analysis to community problems.

Undergraduate Programs

- Honors in Sociology or Sociology/Anthropology (p. 603)
- Sociology (BA) (p. 603)
- Sociology (BA/MA) (p. 1187)
- Sociology/International Affairs (BA/MA) (p. 1190)
- Sociology Minor (p. 605)
- Sociology-Anthropology (BA) (p. 606)

Undergraduate Policies and Procedures

Please see Undergraduate Policies and Procedures (p. 2050) for academic policies that supersede those of academic units within the University.

Sociology (SOCL)

SOCL 100 Urban Field Studies: Changing Chicago (3 Credit Hours)
Fieldwork-based course exploring how communities are shaped by social, economic, and political forces. Particular emphasis is placed on how grass-roots activism and community-based organizations affect social change. Taught in cooperation with Loyola's Center for Urban Research and Learning (CURL), students visit with community leaders, politicians, advocates religious leaders and others working for positive change in the city and suburbs.

SOCL 101 Society in a Global Age (3 Credit Hours)
This is a foundational course in the social sciences which explores the effect of globalization on everyday life in the United States and elsewhere, using the basic perspectives and methodologies of sociology.
Knowledge Area: Foundational Societal Knowledge
Interdisciplinary Option: African Studies and the African Diaspora, Black World Studies

SOCL 121 Social Problems (3 Credit Hours)
Requirement: ANTH 100, PLSC 102, PSYC 100 or SOCL 101 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Anthropology, Department of Criminal Justice, Department of Economics, Department of Psychology, Department of Political Science, the Department of Sociology, Human Services or the School of Nursing. This course is an opportunity to examine major issues facing society. In addition to analyzing the roots of social problems, the course addresses social policy concerns and explores solutions.
Knowledge Area: Tier 2 Societal Knowledge
Interdisciplinary Option: Human Services, Peace Studies
Course equivalencies: SOCL121/PAX 121
Outcomes:
Students will be able to critically examine the impact of a social problem and its possible solutions, to integrate knowledge gleaned from a variety of disciplines, to find and utilize relevant data and research in defining issues and solutions, and to view social problems from macro and micro perspectives as a means of applying workable solutions for the issues facing society

SOCL 122 Race and Ethnic Relations (3 Credit Hours)
Requirement: ANTH 100, PLSC 102, PSYC 100 or SOCL 101 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Anthropology, Department of Criminal Justice, Department of Economics, Department of Psychology, Department of Political Science, the Department of Sociology, Human Services or the School of Nursing. This course examines the development of cultural, society, and self-understanding by exploring the social construction of race in the United States. The course explores how social constructions of race affect interpersonal relations, laws, policies, and practices in various racial and ethnic communities.
Knowledge Area: Tier 2 Societal Knowledge
Interdisciplinary Option: African Studies and the African Diaspora, Asian Studies, Black World Studies, Human Services, Italian American Studies, Peace Studies, Race and Ethnicity
Course equivalencies: X-SOCL122/ASIA122/BWS 122/PAX
Outcomes:
Students will be able to demonstrate understanding of the conditions which have worsened racial tensions as well as how social movements have been successful at eradicating racially oppressive laws and working towards a just society

SOCL 123 Mass Media and Popular Culture (3 Credit Hours)
Requirement: ANTH 100, PLSC 102, PSYC 100 or SOCL 101 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Anthropology, Department of Criminal Justice, Department of Economics, Department of Psychology, Department of Political Science, the Department of Sociology, Human Services or the School of Nursing. This course examines the connections between the media of mass communication and multiple forms of popular art and culture. Topics considered include the social, political and cultural organization of mass communication and its impact on values, expectations, and life styles of contemporary society.
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies, Women & Gender Studies
Course equivalencies: SOCL123/WSGS123/IFMS123
Outcomes:
Students will be able to demonstrate understanding of the social relationships between mass media and the general population

SOCL 125 Chicago: Urban Metropolis (3 Credit Hours)
Requirement: ANTH 100, PLSC 102, PSYC 100 or SOCL 101 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Anthropology, Department of Criminal Justice, Department of Economics, Department of Psychology, Department of Political Science, the Department of Sociology, Human Services or the School of Nursing. This course explores the development of Chicago metropolitan region from the 1830's to the present day. Students will explore the urban area not only through texts, but also through fieldwork.
Knowledge Area: Tier 2 Societal Knowledge
Interdisciplinary Option: African Studies and the African Diaspora, Black World Studies, Urban Studies
Course equivalencies: SOCL125/URB125
Outcomes:
Students will be able to demonstrate understanding of the geography, history and people of the Chicago metropolitan region

SOCL 127 Social Analysis and Social Action (3 Credit Hours)
This course helps students who are volunteering at local congregations and agencies better understand the communities and issues they will encounter in Chicago. It emphasizes the analysis of " social solutions" to social problems as well as personal reflection and action.
Interdisciplinary Option: Peace Studies
This course satisfies the Engaged Learning requirement.
Course equivalencies: X-SOCL127/PAX127
Outcomes:
Analyzing and acting on social issues

SOCL 145 Religion & Society (3 Credit Hours)
Requirement: ANTH 100, PLSC 102, PSYC 100 or SOCL 101 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Anthropology, Department of Criminal Justice, Department of Economics, Department of Psychology, Department of Political Science, the Department of Sociology, Human Services or the School of Nursing. This course examines how religion and society interact.
Knowledge Area: Tier 2 Societal Knowledge
Interdisciplinary Option: Catholic Studies, Interreligious and Interfaith Studies
Outcomes:
Students will be able to demonstrate understanding of how individual behavior, organizations, and society as a whole are affected by religious ideas and institutions, and how religion is itself changed by its encounter with changing social circumstances

SOCL 171 Sociology of Sex and Gender (3 Credit Hours)
Requirement: ANTH 100, PLSC 102, PSYC 100 or SOCL 101 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Anthropology, Department of Criminal Justice, Department of Economics, Department of Psychology, Department of Political Science, the Department of Sociology, Human Services or the School of Nursing. This course explores the social organization of sex and gender.
Knowledge Area: Tier 2 Societal Knowledge
Interdisciplinary Option: Human Services, Women & Gender Studies
Course equivalencies: X-SOCL271/WOST271/WSGS271
Outcomes:
Students will be able to situate their pre-conceived experiences of the naturalness of gender in a particular historical and cultural context

SOCL 205 Sociological Thought (3 Credit Hours)
This course examines classical and contemporary sociological theories and uses them as frameworks for understanding modern society. Such social theories attempt to explain and understand the world, as well as inspire further research and theory.
Interdisciplinary Option: German Studies
Outcomes:
The class provides students with theoretical foundations for understanding social organizations as well as the social processes that transform societies

SOCL 206 Principles of Social Research (3 Credit Hours)
This course is an introduction to the basic research methodologies of sociology. A variety of methods used in sociological analysis and data generation will be considered. Students learn how to select and use methodologies appropriate for various research projects. They will be able to critically evaluate existing research and select appropriate techniques to undertake original research.
Interdisciplinary Option: Human Services, Urban Studies
Outcomes:
Students will learn how social science research is conducted

SOCL 210 Gender and Work (3 Credit Hours)
This course looks at the nature of work through the lens of gender. It considers how male and female labor force participation has changed over time. It examines the ways working families are transformed when women combine employment with domestic responsibilities and child care, or when men's jobs no longer provide a family wage.
Interdisciplinary Option: Women & Gender Studies
Course equivalencies: X-SOCL210/WOST210/WSGS210
Outcomes:
Students learn how gender has been and remains a fundamental organizational principle in the workplace and the labor force

SOCL 212 Patterns of Criminal Activity (3 Credit Hours)
Students are taught to examine the relevance of criminological theories to patterns of criminal activity, to efforts to control criminals, and to prevent crime.
Outcomes:
Students learn how to analyze neighborhoods to identify environments of increased crime risk and relative safety

SOCL 215 Law & Society (3 Credit Hours)
This course trains students to examine the law as a sociological concept and to look at the relationship between the legal system and society. A critical concern is whether changes in the legal system reflect societal change or do changes in the legal system stimulate change in society.
Interdisciplinary Option: Sociolegal Studies
Outcomes:
Students learn to recognize the close linkage between the law and social structure; They also gain experience examining legal texts and decisions

SOCL 216 The Sociology of Violence (3 Credit Hours)
The threat of violence is a significant concern for individuals in many societies. In this course, violence will be studied as a social phenomenon. Topics of particular concern include: family violence, gang violence and terrorism.
Interdisciplinary Option: Peace Studies, Urban Studies
Course equivalencies: X-SOCL216/PAX 291
Outcomes:
Students learn to examine the causes of violence from a sociological perspective: They also learn methods to reduce violence and the harm it causes

SOCL 220 Topics in the Life Cycle (3 Credit Hours)
An examination of the stages of the life cycle (childhood, young adulthood, parenthood, later adulthood, etc) and how such stages are defined and interpreted by social and institutional forces.
Outcomes:
Students will gain understanding of the role that individual's societies and institutions play in the definition of the life cycle and the implications it has for society

SOCL 221 Sociology and Culture of the Life Course (3 Credit Hours)
Life course studies emerged in response to the sociological need to understand how social change intersects with the aging process. Social and cultural contexts, individual experience and agency, and historical time and place are elements in the construction of a life and the social relationships that make it up.
Interdisciplinary Option: Human Services
Course equivalencies: X-ANTH221/SOCL221
Outcomes:
Students learn sociological concepts and theories relevant to the life course and how they help us understand local and global changes; Learn about programs and policies pertinent to an aging society

SOCL 222 Poverty & Welfare in America (3 Credit Hours)
In this course, students learn to think critically about the character, causes and responses to poverty in American society, using both historical and contemporary evidence.
Outcomes:
Students will understand the strengths and limitations of American welfare policy in relation to poverty

SOCL 225 Sociology of Health Care (3 Credit Hours)
This course examines the sociology of health care with particular attention to: social and psychological factors; health care professionals; inter-personal relations in health care; the organization and use of health services; and the relationship between aging and health.
Interdisciplinary Option: Bioethics
Course equivalencies: X-SOCL225/BIET225
Outcomes:
Students will understand the role that social forces play in the health and wellness of individuals, the community and society

SOCL 226 Science, Technology, & Society (3 Credit Hours)
This course serves as a broad introduction to the social study and analysis of science and technology in society. It examines how scientific knowledge and technologies are created and constructed and how they influence and are influenced by society.
Outcomes:
Students will be able to understand how scientific knowledge and technologies are developed in particular historical and cultural contexts and analyze their impact on our daily lives

SOCL 228 Sociology of the African-American Experience (3 Credit Hours)
A sociological inquiry into the historical and contemporary experience of African-Americans. Social movements and social change, urban and institutional processes, social values and collective behavior, and African-Americans and public policy are among the topics explored.
Interdisciplinary Option: African Studies and the African Diaspora, Black World Studies, Race and Ethnicity
Course equivalencies: X-SOCL228/BWS 228
Outcomes:
Students will gain a deeper understanding of the experiences that African-Americans have in American society and of the social, political and institutional forces that have contributed to the historical and contemporary experience of African-Americans

SOCL 230 Self & Society (3 Credit Hours)
This course examines the relationships between the self as a social product and the larger society in which that self is socialized, develops and expresses itself. Various theories of selfhood are explored.
Outcomes:
Students will come to appreciate how selfhood, their own and others, is a product of historical factors as well as social contexts such as class, gender, race and ethnicity

SOCL 231 Childhood and Society (3 Credit Hours)
This course looks at the social construction of childhood, the impact of parents, the media, peer groups, and educational institutions as well as changing social attitudes about the place of children in society.
Interdisciplinary Option: Human Services
Outcomes:
Students will gain a better understanding of the historical and social manner in which childhood is constructed and the impacts of various social institutions, family, religion, media, education on childhood development

SOCL 234 City, Suburbs & Beyond (3 Credit Hours)
This course studies the historical emergence of cities, focusing on the ecological, demographic, and organizational processes involved in the continuing growth and change of metropolitan areas and in the relationship of a metropolitan area to the surrounding region.
Interdisciplinary Option: Human Services, Race and Ethnicity, Urban Studies
Course equivalencies: X-SOCL234/URB234
Outcomes:
Students will understand fundamental facts and theories about the character and development of cities and urban regions

SOCL 235 Communities in a Global Age (3 Credit Hours)
This course examines communities sociologically, both as a concept and as they exist in society. The course covers urban, racial/ethnic, religious, territorial, utopian, ideological and web-based communities, and their strengths and limitations in a rapidly changing global world.
Interdisciplinary Option: Urban Studies
Outcomes:
Students will identify, describe and analyze communities using sociological concepts and be able to assess the mechanisms by which old and new communities are being formed as well as their consequences for social life

SOCL 236 Population Studies (3 Credit Hours)
This course introduces the study of demography by examining trends of fertility, work, marriage, migration and mortality.
Interdisciplinary Option: Human Services
Course equivalencies: SOCL236 / SOCL285
Outcomes:
Students will gain an understanding of how the size, composition and dynamics of a population influence the social, economic and political structure of individual nations and the world

SOCL 237 Professions and Society (3 Credit Hours)
Work involving high levels of expertise--medical, legal, technical, and much else- is a critical component of modern society. This course examines how professional work is structured, the way professionals are trained and organized, the privileges and responsibilities of professional work, and the role of conflicts over expertise in modern society.
Outcomes:
Students will gain an understanding of how work based on knowledge and expertise is organized and on the social and economic factors that contribute to the position of professionals in society

SOCL 239 Understanding Bias and Inclusivity (3 Credit Hours)
Using an intersectional lens, students learn about how privilege, power, and oppression shape ourselves, perceptions of others, and our social world. They consider how ourselves and others are shaped by and operate within the larger social system. Students explore their identities, values, and biases. Students engage in self-reflection to increase self-awareness.
Interdisciplinary Option: Women & Gender Studies
Course equivalencies: X - PSYC 239/ SOCL 239
Outcomes:
Identify feelings about course topics; Demonstrate self-awareness of identities and values, including the value of difference; Engage in intergroup dialogue; Articulate how personal power can be used to create change

SOCL 240 Families (3 Credit Hours)
Contemporary family structures encompass a variety of living arrangements and social relationships. This course considers differences and similarities among the various family types and explores the social, cultural and economic forces structuring family life.
Interdisciplinary Option: Human Services, Women & Gender Studies
Course equivalencies: X-SOCL240/WOST242/WSGS242
Outcomes:
Students will develop an expanded understanding of the varieties of family arrangements and the connections between family life and the wider social, political economic environment

SOCL 245 Sociology of Education (3 Credit Hours)
This course is a rigorous introduction into the scholarly traditions and contemporary research developments in the sociology of education. Topics include: educational stratification and inequality, how educational institutions function and with what policy implications, and social psychology/human development.
Interdisciplinary Option: Race and Ethnicity
Outcomes:
Identify areas of research interest; trace connections to studies in the field; analyze and evaluate policy effectiveness; evaluate the capacity and potential for institutions to support efforts at social justice

SOCL 247 Sociology of Culture (3 Credit Hours)
This course examines the social production, consumption, and use of culture and cultural objects, especially in the fields of literature, art, music, mass media and religion.
Outcomes:
Students will learn sociological methods of analyzing culture and cultural objects, and will understand the social organization of cultural production and consumption

SOCL 250 Inequality in Society (3 Credit Hours)
This course examines the manner in which contemporary society is divided by race, ethnicity, class, sexuality and gender, and the impact of social institutions on these divisions. An emphasis will be placed on income/wealth differences, status differences, class conflict and social conflict over time.
Knowledge Area: Tier 2 Societal Knowledge
Interdisciplinary Option: African Studies and the African Diaspora, Asian Studies, Black World Studies, Human Services, Peace Studies, Race and Ethnicity, Women & Gender Studies
Course equivalencies: ASIA/AFR/SOCL/WSGS 250
Outcomes:
Students will acquire a better understanding of social inequality and what can be done to make society more just

SOCL 251 Peoples of China: Their Cultures and Customs (3 Credit Hours)
This class introduces China's cultural diversity and unity as a whole. It provides a general overview of cultural mappings in China, and a detailed study of significant ethnic minorities.
Knowledge Area: Tier 2 Societal Knowledge
Interdisciplinary Option: Asian Studies, Chinese Language & Culture, Global Studies
Course equivalencies: SOCL251/ASIA252/INTS251
Outcomes:
Students will gain the ability to perceive cultural phenomena in a comparative framework and understand cultural differences more deeply

SOCL 252 Global Inequalities (3 Credit Hours)
This course examines inequality on a global scale, focusing on the impact of globalization processes on race, class and gender inequalities here and abroad.
Interdisciplinary Option: Global Studies, Human Services, Race and Ethnicity
Outcomes:
Students will analyze how race, class and gender inequalities influence each other across national boundaries, and will recognize global causes and consequences of inequality

SOCL 255 Deviance and Social Control (3 Credit Hours)
This course is a socio-historical look at definitions of deviant behavior and individuals, an examination of techniques of social control, and an analysis of specific forms of deviant behavior such as crime and mental illness.
Interdisciplinary Option: Human Services
Outcomes:
Students learn to analyze how history, science, and philosophy combine to define the nature of deviant behavior and to identify deviant individuals

SOCL 258 Confronting Homelessness: Local to Global (3 Credit Hours)
Pre-requisites: SOCL 101 or PSYC 100 or PLS 102 or ANTH 100
Who are homeless people in the United States and beyond? Why are they homeless? What is being done to address the issues of homelessness? This course addresses these questions from a variety of disciplinary perspectives. As an "engaged learning" course, students will also learn by assisting at various agencies. The student will be able to discuss framings of the causes of homelessness and evaluate different policy approaches for addressing it while contributing work to a local agency.
Interdisciplinary Option: Urban Studies

SOCL 260 Power in Society (3 Credit Hours)
This course focuses on sociological theories and case studies of power, authority, and social change. It explores the ways in which power relations perpetuate social inequality and the ways in which social conflicts and power struggles transforms society.
Outcomes:
Students learn about the structures of power in economic systems, political systems, and organizations; the cultural and ideological underpinnings of power relationships; and political struggles for social change

SOCL 261 Social Movements & Social Change (3 Credit Hours)
This course examines the dynamics of collective behavior and movements promoting social change.
Interdisciplinary Option: Peace Studies, Sociolegal Studies
Outcomes:
Students will demonstrate understanding of competing explanations of social movements and social change, and will be able to test various theories by analyzing historical movements for change

SOCL 262 Movements for Social Justice: 60s & Beyond (3 Credit Hours)
This course focuses on movements for social justice and human rights from the 1960s to the present.
Interdisciplinary Option: Human Services, Women & Gender Studies
Outcomes:
Students gain an understanding of how and why such movements emerged and developed the effectiveness of various strategies, and the impact of movements on American society

SOCL 263 Political and Social Movements in China (3 Credit Hours)
This course examines historical and contemporary movements pursuing political, economic and social reforms in China. It studies both state-sponsored and voluntary movements.
Interdisciplinary Option: Global Studies
Course equivalencies: SOCL263/INTS263
Outcomes:
Students will gain a deeper understanding of China's ongoing transformation, and will learn how to develop their own scholarly analysis of such social change

SOCL 265 Globalization & Society (3 Credit Hours)
This course examines the nature of contemporary globalization and considers how it influences communities, nations and the world.
The course examines the positive and negative consequences of globalization and the global justice movements that have emerged seeking more equality, tolerance and environmental stewardship.
Interdisciplinary Option: Global Studies, Urban Studies
This course satisfies the Engaged Learning requirement.
Outcomes:
Students learn how economic, political and cultural aspect of globalization impact society in an increasingly interconnected world

SOCL 266 Development and Social Change in Modern China (3 Credit Hours)
This course examines change and development in modern China from the late Qing period to the present, focusing on the movement from a planned economy to a market-based economy.
Interdisciplinary Option: Asian Studies, Global Studies, Women & Gender Studies
Outcomes:
Students will gain knowledge of China's economic development path, and will apply gender and/or class-based analysis to patterns of social change

SOCL 267 Italy Today (3 Credit Hours)
Pre-requisites: One Tier I Foundational Social and Cultural Knowledge Core course: SOCL 101, ANTH 100, PLSC 102, or PSYC 100
Italy Today traces the nation's extraordinary transformation from the ashes of World War II to the leading economic and cultural power it is today and analyses a broad range of issues in contemporary Italy, such as Catholicism, gender, family, emigration and immigration, regional identities, media and material culture.
Interdisciplinary Option: Global Studies, Italian American Studies, Italian Studies
Outcomes:
Understand the transformation of Italy since WWII Think critically about issues such as stereotypes, regional identities, and diversity

SOCL 270 Sociology of Science (3 Credit Hours)
This course examines science as a distinctive form of knowledge and social organization.
Outcomes:
Students will be able to understand science as a human, social enterprise and its relationship to society

SOCL 272 Environmental Sociology (3 Credit Hours)
This course examines the distinctively social aspect of the relationship of people to their environments, both built and natural.
Interdisciplinary Option: Bioethics, Environmental Studies, Human Services, Peace Studies, Urban Studies
Course equivalencies: X-SOCL272/ESP272PAX 272BIET272
Outcomes:
Students will recognize the role that both social and physical factors play in the environmental problems facing the world; Students will also develop critical thinking skills needed to evaluate statements and policy proposal to improve environmental quality

SOCL 275 The Sociology of Consumption (3 Credit Hours)
This course examines the profound ways society and individuals have been transformed by the abundance of consumer goods and mass media that encourage buying these good.
Interdisciplinary Option: Urban Studies
Outcomes:
Student will gain a deeper understanding of the nature and origins of contemporary consumer society and the ways in which consumerism impacts society and individuals

SOCL 276 The Sociology and Politics of Food (3 Credit Hours)
Explores the impact of globalized economic, political, and social relationships through the prism of food. Considers the cultural and ideological dimensions of food, the structure of food production and consumption, and responses to the global food system.
Interdisciplinary Option: Urban Studies
Outcomes:
Students will gain awareness of themselves as consumers of food and food products

SOCL 278 Global Health (3 Credit Hours)
This course addresses the underlying social, economic, political, and cultural mechanisms driving some of the leading issues in global health today; including the rise of non-communicable diseases in low and middle income countries, neglected infectious diseases, human resources for health, and access to global pharmaceuticals.
Interdisciplinary Option: Bioethics
Outcomes:
Students will become familiar with evaluating the global health policy process, and debating possible routes to achieving health equity

SOCL 280 Topics in Contemporary Sociology (3 Credit Hours)
The course examines selected contemporary sociological issues. Topics addressed represent specialized or newly developing areas of sociological inquiry. Topics will vary from semester to semester.
Outcomes:
Students gain insights into contemporary social issues and learn how to use the concepts, theory and methods of sociology to examine them

SOCL 281 Current Issues in Medical Education (1 Credit Hour)
Pre-requisites: Sophomore Standing or Above; Instructor Permission
This class is an opportunity to examine selected reform and innovation movements facing health professional education and training. Sophomore standing or above is required.
Outcomes:
Students will demonstrate critical analysis of selected reforms and innovations in health professional education and training

SOCL 301 Statistics for Social Research (3 Credit Hours)
Pre-requisites: SOCL 206
The course is a comprehensive introduction to statistical analysis in social research. Topics include: univariate, bivariate, and multivariate analysis, computer statistical applications and interpretation of results.
Interdisciplinary Option: Human Services
Outcomes:
Students will demonstrate understanding of statistical thinking and data analysis techniques and be able to use them to evaluate existing research and conduct original research

SOCL 302 Qualitative Research (3 Credit Hours)
An introduction to the major qualitative methods of social inquiry. Participant observation, interviewing, historical analysis, and content analysis, as well as ethical issues of field research are studied.
Outcomes:
Students will gain understanding of important methods of data collection and analysis common in social science research; Students will gain experience using these techniques to conduct research and evaluate the research of others

SOCL 304 Global Civil Society and Social Movements (3 Credit Hours)
This course focuses on global civil society groups (both advocacy groups or apolitical) and on social movements that seek to fight injustices. We discuss a variety of examples of civil society projects ranging from monitoring government corruption and promoting micro-credit to organizing transnational protest campaigns.
Interdisciplinary Option: Global Studies
Course equivalencies: X-GLST 304/SOCL 304
Outcomes:
Students will demonstrate a comprehension of the dynamics of global civil society and social movements, both for cases discussed in class and to material from outside class

SOCL 306 International Development (3 Credit Hours)
This course provides an interdisciplinary overview of the international development system and issues related to development in those countries variously referred to as third world, developing, underdeveloped, or peripheral countries.
Interdisciplinary Option: Global Studies
Course equivalencies: X-GLST 306/SOCL 306
Outcomes:
Students will develop a fundamental knowledge of the various factors that are considered to help or hinder development

SOCL 335 Urban Semester Seminar (3 Credit Hours)
Pre-requisites: Junior or senior standing
Students explore how cities work through texts, field trips, and guest speakers, and help find solutions to pressing urban issues. They fulfill civic engagement core value requirement.
Interdisciplinary Option: Urban Studies
This course satisfies the Engaged Learning requirement.
Course equivalencies: X-SOCL335/PLSC335
Outcomes:
Students will understand and address inequities in urban communities, and identify avenues of leadership and civic engagement in contemporary cities

SOCL 365 Social Theory & Social Research (3 Credit Hours)
Pre-requisites: SOCL 205, 206, 301, and senior standing, or permission of instructor or chair
In this capstone course, each student designs and conducts an empirical research project resulting in a senior research paper.
Outcomes:
Student demonstrate mastery of sociological theory and methods by writing a research paper bringing a full complement of sociological skills to bear on an issue of substantial theoretical and/or practical importance

SOCL 370 Undergrad Seminar-Special Topics (3 Credit Hours)
Using a seminar format, the course undertakes an in-depth study of selected contemporary sociological issues in depth. Topics addressed represent specialized or newly emerging areas of sociological inquiry and will vary from semester to semester.
Outcomes:
Students have opportunity to examine contemporary social issues in a seminar environment and learn how to use the concepts, theory and methods of sociology to examine them

SOCL 372 Directed Readings (3 Credit Hours)
Pre-requisites: Permission of instructor or chair
Independent study of a selected body of sociological literature on a topic defined by the student in collaboration with a faculty advisor.
Outcomes:
Student gains in-depth knowledge of a selected sub-field of sociology

SOCL 380 Internship (3-6 Credit Hours)
Pre-requisites: Permission of instructor or chair
Supervised field experience for students working in a selected community organization, government agency, social agency, or business.
Interdisciplinary Option: Human Services
This course satisfies the Engaged Learning requirement.
Outcomes:
Students have opportunity to apply the skills and analysis of sociology to a concrete situation

SOCL 380I Internship: Interreligious & Interfaith Studies Focus (3 Credit Hours)
An internship in an interreligious or multireligious setting. The student will also write an analysis of the ways diverse religious traditions interact in practical settings. Restricted to IRIF minors.
Interdisciplinary Option: Interreligious and Interfaith Studies
Course equivalencies: X-IRIF 380/SOCL 380I
Outcomes:
This capstone experience is intended to give students an opportunity to experience and reflect on developing interreligious cooperation in the contemporary world

SOCL 397 Independent Study Projects (3 Credit Hours)
Independent study of a topic delineated by the student in collaboration with an individual faculty member.
Outcomes:
Student gains experience and expertise in defining and conducting independent scholarly work

SOCL 398 Independent Study Projects (1-6 Credit Hours)
Independent research done in collaboration with a faculty member on a sociological topic defined by the student in consultation with a faculty member.
Outcomes:
Student gains experience and expertise conducting independent research

SOCL 399 Independent Study Projects (3 Credit Hours)
Advanced independent research in collaboration with a faculty member on a sociological topic relevant to the student. Limited to senior Sociology majors.
Outcomes:
Student gains experience and expertise conducting independent research

Honors in Sociology or Sociology/ Anthropology

Department Honors and Awards

1. **Alpha Kappa Delta**
   Loyola's Sociology Department started a chapter of Alpha Kappa Delta, (AKD) the International Sociology Honor Society, in 1928. Membership is open to students who are at least juniors, have an overall GPA of 3.4 and a 3.6 GPA in Sociology, and have completed five or more Sociology courses.

   Sociology students inducted into AKD must be advanced students with demonstrated excellence in both the major and the university at large. New initiates join a long line of distinguished sociology students at Loyola and around the world. Each initiate receives a lifetime membership certificate and a year's subscription to AKD's journal, Sociological Inquiry. Graduating AKD members receive AKD cords, which they wear proudly during graduation ceremonies.

   In early April the department will send a letter to eligible students, inviting them to join AKD. Students may accept or decline the invitation. Students who wish to join will be inducted into the society at the annual Sociology awards reception in late April. Graduating seniors receive a cord to wear with their academic apparel at the university graduation ceremony.
   2018 Seniors Receiving Cords & New Initiates *(*https://www.luc.edu/sociology/akdseniorsreceivingcordsandnewinitiates/*)*
2. **Honors in Sociology or Sociology/Anthropology**
   Students majoring in Sociology or Sociology/Anthropology can earn honors in the major. This option is available to students both in the College of Arts and Sciences Honors program and those who are not in that program, and may strengthen the academic background of students planning to go on to graduate or professional school.

   Honors in the major are available to students who achieve a 3.4 grade point average overall and in their major and: either
   1. write a satisfactory Honor's Thesis under the supervision of a faculty member in SOCL 365 Social Theory & Social Research or
   2. take two graduate courses in the Sociology program (as electives toward their undergraduate major) and receive a grade of B or better.
      Permission to enroll in graduate courses must be obtained from the course instructor and the Graduate Program Director. Interested students should complete this form (https://www.luc.edu/media/lucedu/sociology/pdfs/undergrad/Dept_Honors_reg(2).pdf) and speak to the Undergraduate Program Director
3. **Ross P. Scherer Award for Outstanding Sociology Junior**
   At the end of each academic year, the department recognizes an outstanding junior who has demonstrated the highest level of achievement in Sociology. The award is named for Ross P. Scherer, a former chair and longtime professor in Loyola's Department of Sociology.
4. **Wittner Award for Social Justice in Action**
   At the end of each academic year, the department recognizes an outstanding senior who is engaged and committed to social justice who has demonstrated the highest level of achievement in Sociology. The award is named for Judith Wittner, a longtime professor in Loyola's Department of Sociology.

Sociology (BA)

Curriculum

Code	Title	Hours
Required Courses		
SOCL 205	Sociological Thought [1]	3
SOCL 206	Principles of Social Research	3
SOCL 301	Statistics for Social Research	3
SOCL 365	Social Theory & Social Research [2]	3
Electives		
Complete seven total electives; five must be from SOCL 210-SOCL 380. [3,4,5]		21
Total Hours		**33**

1. Any Sociology 100-level course is considered to be a prerequisite for SOCL 205 Sociological Thought, except by special permission of the instructor.
2. SOCL 205 Sociological Thought, SOCL 206 Principles of Social Research, and SOCL 301 Statistics for Social Research are prerequisites for SOCL 365 Social Theory & Social Research. These courses provide social science students with the theory and methodology background needed for more advanced work.
3. Only one semester of SOCL 380 Internship may be counted toward the major (although this is a six credit hour course, it counts as one course).
4. In choosing electives, majors should consult with their department advisor. One course from another social science may be substituted with departmental permission.
5. A list of all Sociology (SOCL) course descriptions can be found here (p. 2616).

Suggested Sequence of Courses

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

In the suggested sequence, courses can either be taken in Fall or Spring semester dependent on student's schedules.

Course	Title	Hours
Freshman		
Fall		
SOCL 100-Level Course		3
	Hours	**3**

Spring		
Sociology Elective		3
	Hours	**3**
Sophomore		
Fall		
SOCL 205	Sociological Thought	3
SOCL 301	Statistics for Social Research	3
	Hours	**6**
Spring		
SOCL 206	Principles of Social Research	3
Sociology Elective		3
	Hours	**6**
Junior		
Fall		
Sociology Elective [1]		3
	Hours	**3**

Sociology Elective [1]		3
	Hours	**3**
Senior		
Fall		
Sociology Elective [1]		3
SOCL 365	Social Theory & Social Research	3
	Hours	**6**
Spring		
Sociology Elective [1]		3
	Hours	**3**
	Total Hours	**33**

[1] During this semester, students may pursue a possible internship as an elective credit.

Double Majors

For students with a broad range of interests, a double major may offer a desirable option.

Sociology is most frequently combined with another social science (political science, psychology, etc.), but students in philosophy, biology, and languages have also found a second major in Sociology useful.

Optional Concentrations

Health in Society Concentration

The "Health in Society" Concentration gives students a broad background in the discipline overall while allowing students to focus their coursework on the substantive areas of healthcare institutions, medical sociology, and the social sources of health-related inequalities, including attention to race, ethnicity, gender, and social class. The Health in Society Concentration is well suited for students interested in a broad range of careers and courses of graduate study in health-related fields, including: medical school, medicine, and other careers in medical care (terrific MCAT prep); healthcare administration and healthcare policy; graduate study in medical sociology and/or gerontology; graduate study and careers in counseling; advocacy and/or non-profit work focused on populations facing health-based risks and inequalities both in the U.S. and overseas.

Code	Title	Hours
Intro

Social Justice in Society Concentration

The "Social Justice in Society" Concentration gives students a broad background in the discipline overall, and in keeping with the centrality of social justice to Loyola's mission, this concentration allows students to focus their coursework on the substantive topics of social inequality, social change, and social justice. The Social Justice in Society Concentration is well suited for students interested in a broad range of careers, advocacy, and courses of graduate study in fields including: law school and legal practice in areas such as civil rights law, gender-based violence, immigration law; public policy and public administration concerning issues for marginalized populations (e.g., homelessness, education, job training/placement, housing, residency status, post-incarceration reentry, voting rights, etc.); social work and human services; teaching and educational leadership and policy; higher education and student affairs; advocacy and non-profit management in organizations

that serve marginalized populations; labor organizing and collective bargaining; research for labor unions, social service agencies, and/or non-profit organizations.

[2] Indicates experiential learning

Transferring Credit

In completing major requirements, not more than five (5) courses or 15 semester hours will be accepted in transfer from other colleges and universities.

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

- Critical Thinking - demonstrate the ability to analyze and evaluate multiple and competing social, political, and/or cultural arguments.
- Sociological Imagination - the ability to articulate and evaluate how individual biographies are shaped by social structures, social institutions, cultural routines, and multiple of elements of social difference and/or inequality.
- Communication - the ability to formulate effective and convincing written and verbal arguments.
- Diversity – an awareness of how people of different cultural, religious, and political belief systems interpret the world around them through those beliefs.
- Sociological Theory - the ability to use and evaluate both classical and contemporary perspectives in sociological theory.
- Methodology - the ability to interpret and evaluate several of the major social science research methodologies, as well as the relationship between research questions and appropriate methods.
- Substantive Areas - the ability to demonstrate knowledge of multiple key substantive areas within the field of sociology and evaluate competing perspectives.
- Social Justice in the Jesuit Tradition - the ability to articulate and evaluate how sociological insights should inform a commitment to social justice.

Sociology Minor

Curriculum

In choosing elective courses in their undergraduate program, students may wish to take a minor sequence in Sociology. They may do this by completing five courses in Sociology in addition to SOCL 101 Society in a Global Age (or its equivalent).

Students who minor in Sociology are advised to choose electives with some focus in mind (e.g., health in society, social justice in society, urban problems and policies) and to consult the Department Chairperson or the Department's Undergraduate Program Director in deciding which electives to take. Only one semester of SOCL 380 and one 100-level course in addition to SOCL 101 Society in a Global Age (or its equivalent) can count for the minor. Any courses taken for a minor in Sociology may be applied to the Department's major requirements, if the student should decide to take sociology as a major. In completing minor requirements, only three courses (nine semester credit hours) will be accepted in transfer from other colleges and universities.

Code	Title	Hours
Required Courses		
SOCL 101	Society in a Global Age (or other 100-level class)	3
Elective Courses [1]		
SOCL Elective		3

SOCL Elective	3
SOCL Elective	3
SOCL Elective	3
SOCL Elective	3
Total Hours	**18**

[1] May count only one semester of SOCL 380 Internship and one 100-level course. Only two courses (six semester hours) will be accepted in transfer credit toward the minor.

Learning Outcomes

- Critical Thinking - demonstrate the ability to analyze and evaluate multiple and competing social, political, and/or cultural arguments.
- Sociological Imagination - the ability to articulate and evaluate how individual biographies are shaped by social structures, social institutions, cultural routines, and multiple of elements of social difference and/or inequality.
- Communication - the ability to formulate effective and convincing written and verbal arguments.
- Diversity – an awareness of how people of different cultural, religious, and political belief systems interpret the world around them through those beliefs.
- Sociological Theory - the ability to use and evaluate both classical and contemporary perspectives in sociological theory.
- Methodology - the ability to interpret and evaluate several of the major social science research methodologies, as well as the relationship between research questions and appropriate methods.
- Substantive Areas - the ability to demonstrate knowledge of multiple key substantive areas within the field of sociology and evaluate competing perspectives.
- Social Justice in the Jesuit Tradition - the ability to articulate and evaluate how sociological insights should inform a commitment to social justice.

Sociology-Anthropology (BA)

This combined BA degree is designed for those students who are interested in both sociology and anthropology. It focuses on those areas of the two disciplines where there is convergence in theory and methods. Through the SANT major, students are introduced to major substantive areas in both disciplines. The major allows enough choice in electives that students may focus on a broader perspective in social science than is available in either the single sociology major or the single anthropology major.

Curriculum

Degree Requirements

Code	Title	Hours
Natural Science Intro Course		
Select one of the following:		3
ANTH 101	Human Origins	
ANTH 103	Biological Background Human Social Behavior	
ANTH 104	The Human Ecological Footprint	
ANTH 105	Human Biocultural Diversity	
ANTH 106	Sex, Science and Anthropological Inquiry	
ANTH 245	Gender in Deep Time	
Social Science Intro Courses		
ANTH 100	Globalization and Local Cultures	3
or ANTH 102	Culture, Society, and Diversity	
SOCL 101	Society in a Global Age	3
Ethnographic Area Course		
Select one ANTH course focusing on an ethnographic area of the following:		3
ANTH 207	Economies, Culture, and Development	
ANTH 208	Language and Identity	
ANTH 211	Peoples of Latin America	
ANTH 212	Peoples of Native North America	
ANTH 213	Culture in Africa	
ANTH 214	African-American Anthropology	
ANTH 215	Contemporary Japanese Culture	
ANTH 216	Cultures of Migration	
ANTH 217	Mexican Culture & Heritage	
ANTH 220	Contemporary Cultures of the Middle East	
ANTH 222	Culture in Contemporary Europe

ANTH 365	Archaeology Lab Methods	
SOCL 301	Statistics for Social Research	
Anthropology Electives		
Select one of the following:		3
ANTH 241	Principles of Archaeology	
ANTH 242	Mesoamerican Archaeology and Survivance	
ANTH 243	North American Archaeology	
ANTH 246	Ancient Human-Animal Interactions	
ANTH 280	Evolution of Human Disease	
ANTH 324	Human Evolution	
ANTH 325	Primatology-Behavior & Ecology	
ANTH 326	Human Osteology Lec/Lab	
ANTH 327	Dental Anthropology	
ANTH 359	Paleopathology	
ANTH 360	Issues in Archaeology	
ANTH 362	Issues in Biological Anthropology	
Any additional 200-300-level ANTH course		3
Sociology Electives		
Select one of the following:		3
SOCL 121	Social Problems	
SOCL 122	Race and Ethnic Relations	
SOCL 123	Mass Media and Popular Culture	
SOCL 125	Chicago: Urban Metropolis	
SOCL 145	Religion & Society	

SOCL 171	Sociology of Sex and Gender	
A 200-300-level SOCL course		
Any 200-300-level SOCL course		3
Theory/Methods Seminar		
Select one of the following:		3
ANTH 317	Ethnographic Methods (EL, WI)	
SOCL 365	Social Theory & Social Research (EL, WI)	
Total Hours		**36**

Students interested in pursuing the joint Sociology-Anthropology major should consult one of the departmental Chairpersons or Undergraduate Program Directors.

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

Students who complete the combined Sociology-Anthropology degree will:

1. Acquire an understanding of the major substantive areas in both anthropology and sociology
2. Become familiar with areas where there is convergence in theory and methods in the two disciplines as well as how the disciplines are distinct
3. Gain a broader perspective in social science than is available in either the single Sociology major or the single Anthropology major
4. Develop skills to analyze multiple kinds of social science data and communicate social science knowledge verbally and in writing

Theology

Thinking Theologically

All the degree programs offered by the Department of Theology, from undergraduate core classes to advanced Ph.D. seminars are designed to provide students with resources for the analysis of religion; for investigation of the sources, historical development and contemporary practices of particular religious traditions - principally the Roman Catholic tradition, although attention is given to other Christian traditions as well as Judaism, Islam and eastern religions; and for the critical appropriation of these traditions for one's personal faith and for sympathetic appreciation of the beliefs of others.

The best of contemporary Roman Catholic thought embraces dialogue and engagement with multiple religious traditions. And, so, the Theology Department at Loyola University Chicago welcomes dialogue with the diverse Christian and non-Christian traditions.

Theological thinking seeks not only an understanding of the nature of religion. It also seeks an understanding of the relationship of the Christian tradition to a contemporary world where social, political, and economic structures are often unjust; where secular faiths arise and challenge the self-evidentness of the Christian faith; and where scientific and technological advances pose new problems for human self-understanding.

Statement of Current Department Undergraduate Learning Goals

As teacher-scholars in the fields of Theology and Religious Studies within Loyola University Chicago's Department of Theology, we identify the following as fundamental learning goals for the undergraduate students whom we have the privilege to teach and learn. These goals express our hopes for, and our promise to, our students throughout their learning experience with us; while no single one of our courses likely achieves all of these goals (or even necessarily all of any one goal), we aim to provide a learning environment across the sum of our courses in which students may achieve all four.

- Expand awareness and critical openness to the complex interaction of religion and human experience, the diverse ways that this experience has been expressed by individuals and communities around the world, and the theological reflection on that experience in the Christian tradition.
- Deepen understanding and interpretation in the areas of religious studies and Christian theology using the fields' best methods and the best interdisciplinary resources within the university.
- Sharpen evaluative skills regarding the cognitive, ethical, and aesthetic impact of religions on human life and the natural world.
- Encourage action utilizing theological and religious studies backgrounds for the betterment of human society and the natural world.

Double-Dipping Policy

- Students may not major and minor in the same discipline.
- Majors: Not less than 21 credit hours in the individual student's transcript must be unique to each major; that is, the courses in question are considered as actually fulfilling requirements of one major, not of more than one major
- Minors and interdisciplinary minors: not less than 8 credit hours in the individual student's transcript must be unique to each minor; that is, the courses in question are considered as actually fulfilling requirements of one minor, not of more than one minor or major.
- General exceptions to Rules 2 and 3 will be made if approved by the chairs/directors of the department(s)/program(s) housing each affected major and minor. A list of standing general exceptions will be maintained by the Dean's office.
- Individual student exceptions may be made in appropriate cases by department chairs and program directors.
- Departments and Programs may enforce stricter double-dipping policies than those stated above, which also should be provided to the Dean's Office.

Undergraduate Policies and Procedures

Please see Undergraduate Policies and Procedures (p. 2050) for academic policies that supersede those of academic units within the University.

Theology (THEO)

THEO 100 Christian Theology (3 Credit Hours)
This course is an introduction to reflection on and analysis of the Christian theological tradition.
Knowledge Area: Foundational Theological Knowledge
Interdisciplinary Option: Catholic Studies, European Studies
Course equivalencies: ACTHE 101 / THEO 100
Outcomes:
Students will be able to demonstrate understanding of the tasks of Christian theology in its efforts to understand the human situation from the perspective of faith, various challenges to theology in the contemporary world, and will focus on one or more current theological issues

THEO 107 Introduction to Religious Studies (3 Credit Hours)
This course is an introduction to the contemporary field of religious studies, focusing on both the theoretical investigations of religious traditions, as well as on the study of selected religious texts and practices (such as creation stories, sacred biographies, sacred scriptures of a religious tradition(s) rituals, ritual taboos, religiously motivated behaviors.
Knowledge Area: Foundational Theological Knowledge
Interdisciplinary Option: Interreligious and Interfaith Studies
Course equivalencies: THEO170 / THEO270 / ACTHE 107
Outcomes:
Students will be able to analyze and interpret various ways in which religious traditions intersect with contemporary issues

THEO 167 Religions in China (3 Credit Hours)
This course is a survey of various religions in China that may include, not only Confucianism and Taoism, but also Buddhism, Christianity, Islam, Judaism, Zoroastrianism, Manicheism and popular or "folk" religion. The course will consider the function of these various religions in the development of Chinese society and their significance in Chinese civilization from ancient mythology to contemporary practices and developments."
Interdisciplinary Option: Asian Studies, Global Studies
Course equivalencies: X-THEO167/ASIA167/INTS167
Outcomes:
Students will be able to demonstrate knowledge of the beliefs, practices, and institutions in varied contexts and historical periods in China, of various religions, both indigenous and "foreign

THEO 168 Sacred Texts of China (3 Credit Hours)
Through the study of primary sacred texts of China (in translation), this class will provide a basic understanding of Chinese thought and its historical development. Interconnections among the various periods and different schools of Chinese philosophy such as Confucianism, Taoism, Buddhism and Neo-Confucianism will be demonstrated and discussed from ancient through the medieval and modern periods.
Interdisciplinary Option: Asian Studies, Global Studies
Course equivalencies: X-THEO168/ASIA168/INTS168
Outcomes:
Students will be able to demonstrate knowledge of the major Chinese sacred texts and teachings of various religious and philosophical traditions, and how they developed and interacted historically

THEO 169 Taoism (3 Credit Hours)
Students will study the history and main ideas and practices of Taoism, meet the sages who wrote the Taoist texts, be introduced to the various schools of Taoist philosophy, and get a feel for what it means to practice Taoism today. The course will illustrate how religious Taoism established a relationship with Confucian thought and practice as well as how at each stage of its historical development, Taoism exerted a profound influence on Chinese politics, economy, culture, art, natural sciences, and social life.
Knowledge Area: Tier 2 Theological Knowledge
Interdisciplinary Option: Asian Studies, Chinese Language & Culture, Global Studies
Course equivalencies: X-THEO169/ASIA169/INTS169
Outcomes:
Students will be able to demonstrate knowledge of philosophical and religious Taoist beliefs, practices, and institutions in varied contexts and historical periods

THEO 185 Christian Ethics (3 Credit Hours)
Introduction to Christian Ethics is a core course that explores the major sources, methods, and insights of Christian social and theological ethics. Particular attention is given to Roman Catholic thought. The course will concentrate on the foundational sources in Christian ethics and examine the moral significance of major theological themes and affirmations.
Knowledge Area: Ethics
Outcomes:
Students will identify the major sources of Christian ethics (Scripture, Church tradition, philosophy, the social and human sciences, and human experience), and gain practice in identifying how different thinkers use, interpret, and prioritize these sources

THEO 186 Global Religious Ethics (3 Credit Hours)
Religious Ethics explores fundamental moral sources and methods in Christian ethics in dialogue with the ethical understandings of at least one other religious tradition, and with special attention to Roman Catholic thought. In doing so, it explores moral issues faced by individuals and communities from theological perspectives, particularly mindful of how the economic, political and cultural structures in a religiously plural world affect those issues.
Knowledge Area: Ethics
Interdisciplinary Option: Peace Studies
Outcomes:
In this course, students will explore and compare the ethical understandings of Christianity and at least one other religious tradition; With respect to each tradition, students will learn about the foundational sources, doctrines and questions that guide its ethical thinking

THEO 190 Loyola's Mission: Ignatian Traditions (3 Credit Hours)
The course introduces students to LUC's mission through theological reflection on the main themes of the Transformative Education mission-statement: spirituality and faith, interlinked human knowing, moral compass, civic and environmental responsibility.
Course equivalencies: THEO190 / THEO290
Outcomes:
Integration into the LUC community, ethos, and vision

THEO 192 Topics in Moral Problems (3 Credit Hours)
A critical examination of one or more areas of moral concern from the viewpoint of Christian ethics. May include: medical ethics, professional ethics, social justice issues, racism, environmental concerns, and war and peace studies.
Course equivalencies: THEO192 / THEO292
Outcomes:
Students will be able to demonstrate understanding of ethical comprehension, analysis, and decision-making within the context of select theological and religious traditions

THEO 203 Social Justice and Injustice (3 Credit Hours)
The Dept. recommends that students take THEO 100 or 107 before taking 2nd tier Theology Core. The course introduces students to Catholic and Protestant approaches to social justice. Students will also study theories and analyses of social injustice. Students will study specific instances of social injustice (gender, race, and class). It will increase student awareness of diversity, in the United States and globally.
Knowledge Area: Tier 2 Theological Knowledge
Interdisciplinary Option: Bioethics, Peace Studies
Outcomes:
*Summarize relevant social, economic, policy history/context that related to current sites of injustice related to racial-ethnic inequalities, economic inequality, immigration status, healthcare, and sex/gender inequality *Distinguish among distinct theories of justice in both theological and philosophical thought *Describe the moral challenges posed by injustice *Relate key ideas, traditions, & practices in Christian theological, philosophical, and other religious thought that may help individuals and societies move closer to approximating justice in society/world

THEO 204 Religious Ethics and the Ecological Crisis (3 Credit Hours)
The Dept. recommends that students take THEO 100 or 107 before taking 2nd tier Theology Core. Advances in technology and industry confront us with unprecedented abilities for altering long standing climate patterns. These capacities challenge many traditional religious and ethical assumptions about humanity and our relationship to the nonhuman world. We will examine the resources that religious traditions of the world offer for promoting ecological responsibility.
Knowledge Area: Tier 2 Theological Knowledge
Interdisciplinary Option: Bioethics, Catholic Studies, Peace Studies
Outcomes:
students will be able to:*Summarize relevant history related to scientific, policy & political data and decisions *Describe central scientific and ethical challenges posed by the climate crisis *Relate key ideas, traditions, & practices in Christian theological, philosophical, and other religious thought that may help address this crisis

THEO 231 Hebrew Bible/Old Testament (3 Credit Hours)
Pre-requisites: THEO 100 or THEO 107
This course provides an introduction to the Old Testament / Tanakh (Hebrew Scriptures).
Knowledge Area: Tier 2 Theological Knowledge
Outcomes:
Students will be able to demonstrate understanding of central texts, beliefs, ethical understanding, and practices of Judaism and Christianity

THEO 232 New Testament (3 Credit Hours)
Pre-requisites: THEO 100 or equivalent (transfer courses: THEO 190 or PHIL 190 and Honors: HONR D101)
This course is an introduction to the historical and theological reading of the various documents of early Christianity known as the New Testament.
Knowledge Area: Tier 2 Theological Knowledge
Interdisciplinary Option: Catholic Studies
Course equivalencies: X-THEO112/CATH112
Outcomes:
Students will be able to demonstrate understanding of the literary genres found in the New Testament and explain why the recognition of genre is essential to the interpretation of the New Testament, as well as the importance of how the New Testament documents have reached their present state

THEO 265 Sacraments and the Christian Imagination (3 Credit Hours)
Pre-requisites: THEO 100 or equivalent (transfer courses: THEO 190 or PHIL 190 and Honors: HONR D101)
This course studies the realities of Christian faith life as expressed and celebrated in the concrete rituals of the Christian communities.
Knowledge Area: Tier 2 Theological Knowledge
Interdisciplinary Option: Catholic Studies
Course equivalencies: X-THEO265/CATH106
Outcomes:
Students will be able to demonstrate how a sacramental system of aesthetics is often embedded in cultural artifacts such as poetry, music, painting, literature, and film, and recognize and interpret the impact of history and cultures on the development of Christian doctrine and practices

THEO 266 Church & Global Cultures (3 Credit Hours)
Pre-requisites: THEO 100 or THEO 107
This course provides an introduction to ways in which the Christian churches, and primarily the Roman Catholic Church, understand and enact their identity in relation to the secular world of culture, economics, and politics, both nationally and globally.
Knowledge Area: Tier 2 Theological Knowledge
Interdisciplinary Option: Catholic Studies, Italian Studies
Course equivalencies: X-THEO105/CATH105
Outcomes:
Students will be able to analyze and interpret contrasting Christian understandings of the notion of original sin, and demonstrate knowledge, with attention to historical development, of the central texts, beliefs, ethical understandings, and practices of at least one religious tradition

THEO 267 Jesus Christ (3 Credit Hours)
Pre-requisites: THEO 100 or equivalent (transfer courses: THEO 190 or PHIL 190 and Honors: HONR D101)
This course examines the life of Jesus Christ, utilizing the Gospels, the writings of Paul and other biblical authors, the early ecumenical councils, and the history of church doctrine, including contemporary scholarship.
Knowledge Area: Tier 2 Theological Knowledge
Interdisciplinary Option: Catholic Studies
Course equivalencies: THEO104/CATH104
Outcomes:
This course examines the life of Jesus Christ, utilizing the Gospels, the writings of Paul and other biblical authors, the early ecumenical councils, and the history of church doctrine, including contemporary scholarship

THEO 272 Judaism (3 Credit Hours)
Pre-requisites: THEO 100 or THEO 107 for students admitted to Loyola University for Fall 2012 or later
No requirement for students admitted to Loyola prior to Fall 2012. This course provides an introduction to Judaism.
Knowledge Area: Tier 2 Theological Knowledge
Interdisciplinary Option: Global Studies
Course equivalencies: THEO172/THEO272/INTS172
Outcomes:
Students will be able to name and discuss some of the most important Jewish scriptures, articulate the general outline of the historical evolution of Judaism, and define and discuss key concepts, terms, values, and religious practices foundational to Judaism

THEO 276 Black World Religion (3 Credit Hours)
Pre-requisites: THEO 100 or THEO 107
This course explores the revelatory manner in which the divine comes to unique presence and expression among African peoples throughout human history. It will examine the religious experiences and traditions of: Africa's ancient Nile valley civilizations, long recognized as cradling the world's spiritual and philosophical wisdom and as influencing the formative development of Judaism, Christianity, and Islam.
Interdisciplinary Option: African Studies and the African Diaspora, Black World Studies, Black World Studies, Interreligious and Interfaith Studies, African Studies and the African Diaspora, Black World Studies, Black World Studies, Interreligious and Interfaith Studies
Course equivalencies: THEO176 / THEO276/BWS288
Outcomes:
Students will demonstrate their knowledge of African peoples' religious experiences within their various historical and cultural contexts

THEO 278 Religion & Gender (3 Credit Hours)
Pre-requisites: THEO 100 or THEO 107
This course will study the role of women in at least one (if not more) of the major world religious traditions.
Knowledge Area: Tier 2 Theological Knowledge
Interdisciplinary Option: Women & Gender Studies
Course equivalencies: THEO178/THEO278/WSGS278
Outcomes:
Students will be able to demonstrate understanding of the influence of religion on gender roles, and how women in the contemporary world are reinterpreting their religious traditions

THEO 279 Roman Catholicism (3 Credit Hours)
Pre-requisites: THEO 100 or equivalent (transfer courses: THEO 190 or PHIL 190 and Honors: HONR D101)
This course provides an introduction to Roman Catholicism.
Knowledge Area: Tier 2 Theological Knowledge
Interdisciplinary Option: Catholic Studies, Italian Studies
Course equivalencies: THEO179/THEO279/CATH179
Outcomes:
Students will be able to demonstrate understanding of the most important Roman Catholic beliefs, the historical evolution of Roman Catholicism, the key Roman Catholic concepts, terms, values, and religious practices, and the main lines of current Roman Catholic identity in today's world

THEO 280 Theology & Interdisciplinary Study (3 Credit Hours)
Study of contemporary issues in religion in conversation with a variety of disciplines, including humanities, social sciences, and physical sciences.
Course equivalencies: THEO180 / THEO280

THEO 281 Christianity Through Time (3 Credit Hours)
Pre-requisites: THEO 100 or THEO 107
The course is a survey course in the history of Christian thought. Not a course in Church history, this is a course whose primary goal is to investigate the major interactions between Christian thought and practice and the cultures that it has been a part of in its two thousand year history.
Knowledge Area: Tier 2 Theological Knowledge
Interdisciplinary Option: Catholic Studies, German Studies, Medieval Studies
Course equivalencies: THEO181/ THEO281/CATH181
Outcomes:
Students will learn to analyze and interpret religious texts, beliefs and practices using standard scholarly methods and tools

THEO 282 Hinduism (3 Credit Hours)
Pre-requisites: THEO 100 or THEO 107 for students admitted to Loyola University for Fall 2012 or later
No requirement for students admitted to Loyola prior to Fall 2012. This course provides an introduction to Hinduism.
Knowledge Area: Tier 2 Theological Knowledge
Interdisciplinary Option: Asian Studies, Global Studies
Course equivalencies: THEO196/ASIA196/INTS294
Outcomes:
Students will be able to demonstrate understanding of the most important Hindu scriptures, the general outline of the historical evolution of Hinduism, the key Hindu concepts, terms, values, and religious practices, and the basic narratives and imagery of Hinduism

THEO 293 Christian Marriage (3 Credit Hours)
Pre-requisites: THEO 100 or THEO 107
This course examines the Christian understanding of marriage.
Knowledge Area: Tier 2 Theological Knowledge
Interdisciplinary Option: Catholic Studies
Course equivalencies: THEO193/THEO293/CATH193
Outcomes:
Students will be able to demonstrate understanding of historical & ethical principles used to evaluate particular issues relevant to the understanding of the Christian tradition of marriage

THEO 295 Islam (3 Credit Hours)
Pre-requisites: THEO 100 or THEO 107 for students admitted to Loyola University for Fall 2012 or later
No requirement for students admitted to Loyola prior to Fall 2012. This course will provide an introduction to Islam.
Knowledge Area: Tier 2 Theological Knowledge
Interdisciplinary Option: Arabic Language and Culture, Asian Studies, Global Studies, Islamic World Studies, Arabic Language and Culture, Asian Studies, Global Studies, Islamic World Studies
Course equivalencies: THEO195/ASIA195/INTS295/IWS195
Outcomes:
Students will be able to demonstrate understanding of the most important Muslim scriptures, the general outline of the historical evolution of Islam, the key Islamic concepts, terms, values, and religious practices, and the diversity within Islam

THEO 297 Buddhism (3 Credit Hours)
Pre-requisites: THEO 100 or THEO 107 for students admitted to Loyola University for Fall 2012 or later
No requirement for students admitted to Loyola prior to Fall 2012. This course provides an introduction to Buddhism.
Knowledge Area: Tier 2 Theological Knowledge
Interdisciplinary Option: Asian Studies, Global Studies, Japanese Language and Culture
Course equivalencies: THEO197/ASIA197/INTS297
Outcomes:
Students will be able to demonstrate understanding of the most important Buddhist scriptures, the general outline of the historical evolution of Buddhism, including its different major branches, and the key Buddhist concepts, terms, values, and religious practices

THEO 299 Religions of Asia (3 Credit Hours)
An introductory survey of selected teachings, institutions, and practices of the great religious traditions of South Asia and East Asia placed in historical context.
Interdisciplinary Option: Asian Studies, Global Studies
This course satisfies the Engaged Learning requirement.
Course equivalencies: X-THEO199/ASIA199/INTS199
Outcomes:
Students will be able to demonstrate understanding of the central texts, beliefs, ethical understandings, and practices of at least three Asian religions

THEO 302 Wisdom Literature and Psalms (3 Credit Hours)
Pre-requisites: THEO 111
A study of the wisdom literature of the Old Testament, attention to the nature of the wisdom tradition in Israel; study of the Psalms as the prayer of Israel.
Outcomes:
Students will be able to demonstrate understanding of central texts, beliefs, ethical understanding, and practices of Judaism and Christianity

THEO 303 Pentateuch (3 Credit Hours)
Pre-requisites: THEO 111
The literary structure of the first five books of the Bible.
Outcomes:
Students will be able to demonstrate understanding of central texts, beliefs, ethical understanding, and practices of Judaism and Christianity

THEO 304 Israel Conquest to Exile (3 Credit Hours)
Pre-requisites: THEO 111
A study of the so-called historical books of the Bible (Joshua, Judges, Samuel, Kings) with attention to the history of Israel from conquest to exile.
Outcomes:
Students will be able to demonstrate understanding of central texts, beliefs, ethical understanding, and practices of Judaism and Christianity

THEO 308 Biblical Hebrew I (3 Credit Hours)
The sound, forms and grammar of biblical language. Selected readings from the Old Testament.
Course equivalencies: X-THEO308/CLST101
Outcomes:
Students will demonstrate an understanding of Biblical Hebrew

THEO 309 Biblical Hebrew II (3 Credit Hours)
Pre-requisites: THEO 308
Further study of biblical language. Selected readings from the Old Testament.
Course equivalencies: X-THEO309/CLST102
Outcomes:
Students will demonstrate an understanding of Biblical Hebrew

THEO 311 The Meaning of Jesus Christ (3 Credit Hours)
Pre-requisites: THEO 104
Interpretations of the person and work of Jesus.
Interdisciplinary Option: Catholic Studies
Outcomes:
Students will be able to demonstrate understanding of the nature of Jesus Christ as both human and divine, what this might mean, how this formulation was derived, and the varieties of understanding of Christ within the Scriptures, the church, and modern scholarship

THEO 313 Gospels of Matthew, Mark & Luke (3 Credit Hours)
Pre-requisites: THEO 112
An analysis of the development of the synoptic tradition (the gospels of Matthew, Mark and Luke).
Interdisciplinary Option: Catholic Studies
Outcomes:
Students will be able to demonstrate understanding of the various literary elements found in these particular gospels

THEO 317 Christian Thought: Ancient-Medieval (3 Credit Hours)
The development of various Christian doctrines in light of their historical milieu during the first fourteen centuries of Christian thought.
Interdisciplinary Option: Catholic Studies, European Studies, Medieval Studies
Course equivalencies: X-THEO317/CATH317/MSTU360
Outcomes:
Students will be able to assess how various configurations of theological perspectives can both expand and foreshorten the way human thinking has gone on

THEO 318 Christian Thought: Reformation to Modern (3 Credit Hours)
The development of various Christian doctrines in light of their historical milieu during the last six centuries of Christian thought.
Interdisciplinary Option: Catholic Studies, European Studies
Course equivalencies: X-THEO318/CATH318
Outcomes:
Students will be able to assess how various configurations of theological perspectives can both expand and foreshorten the way human thinking has gone on

THEO 330 Liberation Theology (3 Credit Hours)
An introduction to the contemporary theologies of liberation emerging in Latin American, African, and Asian Christian.
Interdisciplinary Option: Catholic Studies, Global Studies, Latin American Studies, Peace Studies
Course equivalencies: X-THEO/INTS/LASP330/PAX332
Outcomes:
Students will be able to demonstrate understanding of ethical comprehension, analysis, and decision-making within the context of select theological and religious traditions

THEO 331 Theology of Secularization (3 Credit Hours)
An exploration of the history of secularization and the context it establishes for American Christianity. Focus on practical issues of Christian living.
Outcomes:
Students will be able to analyze and interpret various ways in which religious traditions intersect with contemporary issues

THEO 340 Foundations of Christian Morality (3 Credit Hours)
A survey of theological and philosophical issues which shape the articulation of specific moral principles.
Outcomes:
Students will be able to demonstrate understanding of ethical comprehension, analysis, and decision-making within the context of select theological and religious traditions

THEO 342 Perspectives on Life and Death (3 Credit Hours)
Examination of the exploration of our perception of the life range for possible reevaluation and rearticulation, in view of modern scientific developments.
Interdisciplinary Option: Bioethics
Course equivalencies: X-THEO342/BIET342
Outcomes:
Students will be able to demonstrate understanding of ethical comprehension, analysis, and decision-making within the context of select theological and religious traditions

THEO 343 Contemporary Christian Sexuality (3 Credit Hours)
Examination of inter-religious perspectives in contemporary sexual ethics.
Interdisciplinary Option: Bioethics
Course equivalencies: X-THEO343/BIET343
Outcomes:
Students will be able to demonstrate understanding of ethical comprehension, analysis, and decision-making within the context of select theological and religious traditions

THEO 344 Theology and Ecology (3 Credit Hours)
Examination of the ecological, ethical and theological analyses of humanity's relationship to the natural world.
Interdisciplinary Option: Bioethics, Environmental Studies
Course equivalencies: X-THEO344/ESP 344/BIET344
Outcomes:
Students will be able to demonstrate understanding of ethical comprehension, analysis, and decision-making within the context of select theological and religious traditions

THEO 348 Supervised Ministry (3 Credit Hours)
Placement in a ministerial position, on-site supervision, and biweekly individual or group meetings with the course director is required.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students will be able to demonstrate how a sacramental system of aesthetics is often embedded in cultural artifacts

THEO 349 Theological Topics for the Bioethics Capstone (3 Credit Hours)
Pre-requisites: Two Science courses and two Ethics courses
The interdisciplinary team-taught Bioethics capstone course examines a topic in bioethics from both scientific and ethical points of view. Topics may include bio-technologies, concepts of race and gender, the environment, reproduction, and others. This course number provides an elective for Theology students when the Bioethics capstone's topic is theological.
Interdisciplinary Option: Bioethics
Outcomes:
Students will understand the connection between ethical and scientific issues with regard to the special topic in theology

THEO 350 Topics in Islam (3 Credit Hours)
A deeper and more focused study of significant aspects of the religion of Islam.
Interdisciplinary Option: Asian Studies, Global Studies, Islamic World Studies
Course equivalencies: XTHEO350INTS387ASIA350IWS350
Outcomes:
Students will be able to demonstrate understanding of Islam

THEO 352 Topics in Buddhism (3 Credit Hours)
A deeper and more focused study of significant aspects of Buddhism.
Interdisciplinary Option: Asian Studies, Global Studies, Japanese Language and Culture
Course equivalencies: X-THEO352/INTS352/ASIA352
Outcomes:
Students will be able to demonstrate understanding of Buddhism

THEO 353 Religious Traditions (3 Credit Hours)
This course investigates the historical, social, ritual and reflective positions of one or more religious traditions. It likewise develops the student's abilities to use contemporary methods of historical, theological, and social scientific analysis of religious traditions.

THEO 356 Topics in Judaism (3 Credit Hours)
A deeper and more focused study of significant aspects of Judaism.
Outcomes:
Students will be able to demonstrate understanding of Judaism

THEO 365 Women, Gender and Embodiment in Islam (3 Credit Hours)
This course will consider gender both as articulated in normative Islamic religious and legal systems and as embodied during various historical periods in a range of Muslim societies. Students will read a number of the most important academic studies in this field and consider anthropological and cultural materials including films and short stories that disclose Muslim practices and concepts of maleness, femaleness, and gender relations.
Interdisciplinary Option: Arabic Language and Culture, Asian Studies, Global Studies, Islamic World Studies, Women & Gender Studies
Course equivalencies: THEO/ASIA/INTS/WSGS/IWS365

THEO 366 Contemporary Islamic Thought and Movements (3 Credit Hours)
This course will consider contemporary Islamic thought and movements world-wide. After a brief introduction to Islam and the historical development of the tradition up to the present, students will learn about a range of contemporary Muslim intellectual and activist movements and thinkers through the study of original writings and secondary analysis. Some major figures to be considered include: Syed Maududi, Sayyid Qutb, Fazlur Rahman, and other Muslim intellectuals representing movements such as Jama'at-i Islami, the Muslim Brotherhood, and Islamic liberalism. We will focus on the 20th century up to the most current trends. Some of the theological and social issues that will be discussed are gender, the ideal political order, Islamic law and its role in society, and pluralism.
Interdisciplinary Option: Asian Studies, Global Studies, Islamic World Studies
Course equivalencies: X-THEO/ASIA/IWS366/INTS366A

THEO 373 Theology Capstone (3 Credit Hours)
Students enrolling in this course must have junior status and be Theology majors. This 3 credit capstone course gives students an opportunity to integrate various aspects of their theological education, drawing upon the major sources of Christian and Catholic tradition, including Scripture, History, Systematic Theology, and Ethics.
Outcomes:
Students will be able to demonstrate an understanding of the varied sources within Christian theological traditions and how to make reasoned theological arguments

THEO 376 Language and Faith (3 Credit Hours)
A cultural approach to the study of religious faith through the framework of language.

THEO 378 Theology and Culture (3 Credit Hours)
This course can count as an elective for the major or minor. The course will be divided into three parts: (1) an exploration of the interaction between theological reflection & culture; (2) a look at some theological texts that compare Christian and non-Christian practices and practices in the U.S. where different cultural understandings interact; (3) a study of postmodernism.
Outcomes:
A deep level of understanding and of critical thinking with respect to the subject matter of the course

THEO 382 Readings-Liturgy (3 Credit Hours)
Examination of the readings, prayers, songs, rites of contemporary liturgies. Comparison of these materials with those of traditional liturgies and evaluation of the underlying principles.
Outcomes:
Students will be able to demonstrate how a sacramental system of aesthetics is often embedded in cultural artifacts

THEO 383 Theology Arts & Literature (1-3 Credit Hours)
Study of theological and religious symbols and themes in modern literature and/or in the arts.
Interdisciplinary Option: Catholic Studies
Course equivalencies: X-THEO383/ENGL383/CATH383
Outcomes:
The student who successfully completes this course will be able to demonstrate knowledge about religion and its intersections with selected contemporary ethical, social, political, economic, or cultural issues

THEO 392 Readings in Theology (3 Credit Hours)
A reading course with variable content in the area of theology. Open to major and non-majors with permission of instructor.

THEO 393 Seminar (3 Credit Hours)
An undergraduate seminar course for majors and minors in the Theology department; variable content, addressing topical issues that are not covered by the regular offerings at the 300 level.
Outcomes:
Students will gain an in-depth understanding of a selected topic

THEO 395 Theology Tutorial (3 Credit Hours)
Tutorials for seniors on selected topics in biblical, systematic, historical or moral theology.
Outcomes:
Students will gain an in-depth understanding of a selected topic

Honors/Distinction in Theology

Awards, Honors & Graduates

Undergraduate Paper Contest

Three prizes are awarded annually to encourage publication-level work in the fields of theology and religious studies.

The Karl Rahner Award for Excellence in Theological Studies

Awarded to the Theology Major with the highest GPA in their Major and the highest GPA in their Academic Program, overall.

The Ninian Smart Award for Excellence in Religious Studies

Awarded to the Religious Studies Major with the highest GPA in their Major and the highest GPA in their Academic Program, overall.

First Honors

First Honors in Theology is awarded to students with an overall GPA of 3.5 and a GPA of 3.7 in their theology courses.

Second Honors

Second Honors in Theology is awarded to students with an overall GPA of 3.3 and a GPA of 3.5 in their theology courses.

Departmental Distinction

Graduation with Departmental Distinction is awarded to students who qualify for First Honors and who have taken two additional Theology courses at the 300 level beyond the requirements for the major.

Certificate of Merit

This award is given to a graduating senior with an average above 3.5 in the Theology major. No minimum overall GPA is specified.

Pastoral Leadership Minor

True to its Jesuit Catholic heritage, Loyola adheres to its promise of preparing people to lead extraordinary lives. The Pastoral Leadership minor provides students with academic opportunities through a structured curriculum that supports the university's mission of seeking God in all things and working to expand knowledge in the service of humanity through learning, justice and faith. Students benefit from supervised leadership and service experiences that equip them with the knowledge and skills necessary for contemporary pastoral leadership.

The Pastoral Leadership minor affords a structured curriculum for students from all religious traditions to gain academic capacities commensurate with their leadership experience in Loyola's University Ministry and in other co-curricular and community contexts. Though the program has its foundations in the Christian (Catholic) tradition, it is open to all who are interested in experiencing what pastoral ministry could mean for their future.

In particular, the minor helps students:

- Understand the foundation of Christian theology in areas such as scripture, sacrament, ecclesiology and tradition in forming pastoral leadership.
- Gain skills in the areas of leadership practices, social and cultural analysis, and organizational development as applied to pastoral leadership.
- Demonstrate an understanding of one's faith and its call to leadership.
- Articulate a personal pastoral theology and model of pastoral leadership as it applies to a particular religious mission or identity.

Curriculum

The Pastoral Leadership Minor requires six courses. Students must complete three courses at the 100/200 level, preferably in the areas of Christian doctrine, Biblical Literature, and Christian Ethics, though the final selection is up to the individual student. Three courses at the 300-level are required. THEO 347 Creative Ministry and THEO 348 Supervised Ministry are required.

The pastoral leadership minor is offered by the Department of Theology (LSC) in conjunction with the Institute for Pastoral Studies located downtown (WTC).

Please note that students who complete the minor will also be granted 'advanced standing' towards a MA degree in Pastoral Studies or in Social Justice at the Institute for Pastoral Studies should they wish to pursue a graduate degree in one of their programs at a later date.

THEO 192	Topics in Moral Problems	
THEO 203	Social Justice and Injustice	
THEO 204	Religious Ethics and the Ecological Crisis	
Biblical Literature		
Select one of the following:		3
THEO 231	Hebrew Bible/Old Testament	
THEO 232	New Testament	
THEO 302	Wisdom Literature and Psalms	
THEO 303	Pentateuch	
THEO 308	Biblical Hebrew I	
THEO 309	Biblical Hebrew II	
THEO 311	The Meaning of Jesus Christ	
THEO 313	Gospels of Matthew, Mark & Luke	
B. Required 300-Level Courses		
THEO 300-level elective [1]		3
IPS 570	Introduction to Theology and Ministry	3
THEO 348 / IPS 580	Supervised Ministry	3
Total Hours		**18**

[1] This course should be tied to student's interests and courses taken at 100-level. Consult Director of Minors for course selection.

Suggested Sequence of Courses

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

Course	Title	Hours
Freshman		
Fall		
Doctrine Course (THEO 100)		3
	Hours	**3**
Spring		
Christian Ethics Course (THEO 185)		3
	Hours	**3**
Sophomore		
Fall		
Biblical Literature Course (THEO 231)		3
	Hours	**3**
Junior		
Fall		
IPS 570	Introduction to Theology and Ministry	3
	Hours	**3**
Spring		
THEO 300-Level or higher Course		3
	Hours	**3**

Senior		
Fall		
THEO 348 or IPS 580	Supervised Ministry or Contextual Education I	3
	Hours	**3**
	Total Hours	**18**

Transfer-Student Residency Requirement

At least 9 credit hours of PASL-MINR requirements must be completed at Loyola

Learning Outcomes

Students completing the Pastoral Leadership Minor should be able to:

- Demonstrate knowledge in at least two of the following areas:
  - the sources and historical development of beliefs and practices of Christianity with particular attention to the Roman Catholic tradition;
  - the application of scholarly methods to the understanding of scripture;
  - key theological concepts and doctrines of the Christian faith (e.g., Christology, trinity, ecclesiology, sacramental theology, etc.);
  - foundational knowledge of at least one other religious tradition outside of Christianity.
- Demonstrate an understanding of how Christian perspectives and sources inform responses to pressing ethical questions.
- Display basic good practices of service and leadership within a supervised pastoral setting.

Religious Studies (BA)

Curriculum

At least five (5) of the 12 courses required for the major must be at the 300-level or higher.

Code	Title	Hours
Christian Traditions		
Select one of the following:		3
THEO 100	Christian Theology [1]	
THEO 185	Christian Ethics	
THEO 232	New Testament	
THEO 265	Sacraments and the Christian Imagination	
THEO 267	Jesus Christ	
THEO 279	Roman Catholicism	
THEO 281	Christianity Through Time	
THEO 317	Christian Thought: Ancient-Medieval	
THEO 318	Christian Thought: Reformation to Modern	
Non-Christian Traditions		
Select three of the following:		9
THEO 272	Judaism	
THEO 282	Hinduism	
THEO 295	Islam	
THEO 297	Buddhism

Transfer-Student Residency Requirement

At least 18 credit hours of RELS-BA requirements must be completed at Loyola

Double-Dipping Policy

This department observes the CAS Double-Dipping Policy (p. 54) regarding unique credits required for each declared major/minor.

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

Students completing the **Religious Studies Major** should be able to:

- Demonstrate conceptual understanding of the general concept of religion and specific knowledge of key features of two or more religions. For example:
  - Delineate the key features of a religion and discuss how they interact.
  - Describe and compare the central elements of two or more world religions.
  - Demonstrate knowledge of the major scriptures, doctrines and practices of two or more religions.
- Know and use academic and analytical scholarly methods and terminology employed in the field of Religious Studies. For example:
  - Demonstrate knowledge of a range of scholarly methodologies
  - Accurately use the academic and scholarly terminology used in the field of religious studies
  - Be able to apply scholarly methodologies to research questions
- Analyze how a religion's components interact with the culture to which it belongs, explaining how it shapes and is shaped by the surrounding society. For example:
  - Articulate how religions shape aspects of people's everyday lives. Discuss aspects such as: family organization and relationships, social structure, food choices, clothing choices, ethical behavior, or gender roles.
- Describe how religions interact with popular culture (as evidenced by literature, visual arts, film, music, TV, the Internet, etc.) and how that interaction functions to influence public opinion and belief.
- Demonstrate knowledge and understanding of religious approaches to ethics and ethical issues.

Religious Studies Minor

Curriculum

A minor in Religious Studies requires 6 courses taken from within the Theology department. In addition to the three required Core-level courses, three electives must be taken at the 300 level. Students must study at least two (2) major world religions and take a range of other courses. Each program is individually tailored to fit the student's plans in consultation with the Director of Minors.

Code	Title	Hours
Required Foundations

1. Students may take THEO 317 Christian Thought: Ancient-Medieval or THEO 318 Christian Thought: Reformation to Modern in this term.

Transfer-Student Residency Requirement

At least 18 credit hours of THEO-BA requirements must be completed at Loyola

Double-Dipping Policy

This department observes the CAS Double-Dipping Policy (p. 54) regarding unique credits required for each declared major/minor.

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

THEO 280 Theology & Interdisciplinary Studymay be taken to fulfill a major requirement, depending on the course topic. Please consult your department for more information.

Learning Outcomes

Students completing the **Theology Major** should be able to:

- Demonstrate knowledge of the sources and historical development of beliefs and practices of Christianity with particular attention to the Roman Catholic tradition.
- Apply scholarly methods to the understanding of scripture.
- Demonstrate familiarity with key theological concepts and doctrines of the Christian faith (e.g., Christology, trinity, ecclesiology, sacramental theology, etc.) as enunciated by at least two theologians.
- Demonstrate foundational knowledge of at least one other religious tradition outside of Christianity.
- Demonstrate an understanding of how Christian perspectives and sources inform responses to pressing ethical questions.

Theology Minor

Curriculum

A minor in Theology requires 6 courses taken from within the Theology department. In addition to the three required Core-level courses, three electives must be taken at the 300 level. Three courses must be taken at the Core level, and courses must be selected from at least two (2) of the four areas of doctrine listed below.

Code	Title	Hours
Required Foundations		
Core-Level Courses		
Select three core-level courses from the following:		9

Transfer-Student Residency Requirement

At least 9 credit hours of THEO-MINR requirements must be completed at Loyola.

Double-Dipping Policy

This department observes the CAS Double-Dipping Policy (p. 54) regarding unique credits required for each declared major/minor.

Learning Outcomes

Students completing the **Theology Minor** should be able to:

- Demonstrate knowledge in at least two of the following areas:
  - the sources and historical development of beliefs and practices of Christianity with particular attention to the Roman Catholic tradition;
  - the application of scholarly methods to the understanding of scripture;
  - key theological concepts and doctrines of the Christian faith (e.g., Christology, trinity, ecclesiology, sacramental theology, etc.);

- foundational knowledge of at least one other religious tradition outside of Christianity;
- Demonstrate an understanding of how Christian perspectives and sources inform responses to pressing ethical questions.

Women's Studies and Gender Studies

Our mission is to introduce students to feminist scholarship and gender theory across the disciplines and the professional schools; to provide innovative, challenging, and thoughtful approaches to learning; and to promote social justice. The 2019–2020 academic year marked our 40th year at Loyola.

The WSGS program is interdisciplinary, offering many cross-listed courses in the humanities, social sciences, business, and law. Additionally, dual-degree program options are provided at the graduate level in conjunction with social work and theology. WSGS faculty seek to integrate knowledge about women, gender, and sexuality into the theories and practices of various disciplines and professions across the university.

To contact us, click here (wsgsprogram@luc.edu).

Mission

- To promote deeper understandings of feminist scholarship and gender theory across the humanities, social sciences, and applied professions.
- To provide innovative, challenging, and thoughtful approaches to teaching and learning for both students and faculty.
- To acknowledge and honor the diversity of our human community—especially regarding gender, race, class, and sexuality—while working toward social justice.
- To build and cultivate a community of scholars who are supportive of one another and who carry out our mission in daily practice.

Undergraduate Programs

- Women's Studies and Gender Studies (BA) (p. 622)
- Women's Studies and Gender Studies Minor (p. 624)

Women's Studies and Gender Studies Program Policies

Double Dipping Policy

Per recommendations from the CAS's Academic Council, WSGS will adhere to and enforce the following policies:

- Students may not major and minor in the same discipline.
- Majors: Not less than 21 credit hours in the individual student's transcript must be unique to each major; that is, the courses in question are considered as actually fulfilling requirements of one major, not of more than one major.
- Minors and interdisciplinary minors: not less than 8 credit hours in the individual student's transcript must be unique to each minor; that is, the courses in question are considered as actually fulfilling requirements of one minor, not of more than one minor or major.

Undergraduate Policies and Procedures

Please see Undergraduate Policies and Procedures (p. 2050) for academic policies that supersede those of academic units within the University.

Women's and Gender Studies (WSGS) Courses

WSGS 101 Introduction to WSGS from a Global Perspective (3 Credit Hours)
This is an introduction to the interdisciplinary fields of both Women's Studies and Gender Studies which explore the ways that sex and gender manifest themselves in social, cultural, and political arenas. It draws upon scholarship in women's studies, masculinities studies, and queer studies which themselves draw upon a variety of intellectual perspectives, including historical, psychological, rhetorical, sociological, literary, and biological.
Knowledge Area: Foundational Societal Knowledge
Interdisciplinary Option: Women & Gender Studies
Outcomes:
students will demonstrate understanding of historical developments, key concepts, theories and themes in women's studies and gender studies, the impact that gender can have on social, cultural, political and economic material conditions

WSGS 201 Contemporary Issues in WSGS (3 Credit Hours)
This course explores issues in women's studies, feminism, and gender studies from the perspective of a particular discipline, depending on the faculty member teaching the course. This may, for example, include Communication, English, History, Sociology, or Theology.
Knowledge Area: Tier 2 Societal Knowledge
Interdisciplinary Option: Women & Gender Studies
Course equivalencies: WOST201/WSGS201
Outcomes:
Students will examine the subjects of women and gender, as well as the challenges of conducting feminist or gender scholarship, within the discipline and how new research changes or transforms that scholarship

WSGS 297 Topics in WSGS (3 Credit Hours)
This course allows students to explore intermediate courses or seminars focused on the intersection of gender, sexuality, race, class, and other categories of power, privilege, and oppression.
Interdisciplinary Option: Women & Gender Studies

WSGS 330 History of Feminist Thought and Social Action (3 Credit Hours)
This course focuses on the history and development of feminist thought and activism since the late eighteenth century. Attention goes beyond just U.S. and European feminist history, exploring Indigenous, Black, and postcolonial feminism to investigate their unique feminist ideas and the challenges they pose to "traditional" feminist thought and action.
Interdisciplinary Option: Women & Gender Studies
Course equivalencies: X - WSGS 330 / HIST 339F
Outcomes:
Students will learn to identify key concepts, thinkers, activists; analyze and critique some of the major works; and develop an integrated understanding of the history of feminist thought, broadly conceived

WSGS 350 Global Feminisms (3 Credit Hours)
Pre-requisites: WSGS 101 or WSGS 201
This course offers critical and theoretical tools to evaluate feminist theories by women of color in the global South. Adopting a decolonial, anti-racist approach, the course evaluates how women and gender relations are affected by economic, cultural, and political changes related to the racial regimes of globalization and migratory movements.
Interdisciplinary Option: Women & Gender Studies
Outcomes:
Students will acquire and utilize key theoretical concepts in the study of feminisms, race theory, border studies, postcolonial studies, transnationalism, and migration studies

WSGS 360 Migration, Identity, Sexuality (3 Credit Hours)
Pre-requisites: WSGS 101 or WSGS 201
In this seminar WSGS course we will explore how crossing borders, identity politics, and sexuality intersect to produce a rich and necessary conversation on contemporary global immigration issues. We will explore the gendered dynamics and experiences of recent immigrants.
Interdisciplinary Option: Women & Gender Studies
Outcomes:
Acquire and utilize key theoretical concepts in the study of borders, identity politics, transnationalism, and sexuality from an intersectional lens

WSGS 370 Sexual Assault Advocacy (3 Credit Hours)
Pre-requisites: WSGS 101 or WSGS 201
This course provides specific skills of support and advocacy services to sexual assault survivors. Students will gain an understanding of the impact of sexual assault on victims, the social and cultural context in which sexual assault occurs, and the roles systems play to both support and inhibit survivors recovery.
Interdisciplinary Option: Women & Gender Studies
Outcomes:
Students who successfully complete the course may be eligible to serve as Loyola University Chicago sexual assault advocates

WSGS 375 Masculinity Studies: Equity, Race, Transformation (3 Credit Hours)
Pre-requisites: WSGS 101
This course highlights the intersectional exploration of how masculinity is embodied, experienced, and replicated in the United States and globally. With this transnational lens, students gain a better understanding of contemporary global masculinity sociocultural issues and concerns which include race/racism, "angry white men," and the "crisis of masculinity."
Interdisciplinary Option: Women & Gender Studies
Course equivalencies: WSGS 375/WSGS 475
Outcomes:
Students will acquire and utilize key theoretical concepts in Masculinity studies from an international lens; Students will apply a wide critical terminology to literary texts and visual/cultural phenomena globally

WSGS 380 Queer Theory: Beyond the Binary (3 Credit Hours)
Pre-requisites: WSGS 101 or 201
This course maps the field of Queer Theory from an interdisciplinary, global perspective in order to cover a wide range of theoretical and disciplinary approaches (race theory, transnational theory, postmodernism, Latinx-American Studies, among others) and interpretative applications (film, literature).
Interdisciplinary Option: Women & Gender Studies
Outcomes:
Students will be able to identify key concepts and thinkers of this influential field of study; they will develop an intersectional, global understanding of this field of critical theory

WSGS 388 Women's Studies Practicum (3 Credit Hours)
This supervised field experience uses experiential learning at a wide variety uses experiential learning at a variety of women's political, cultural or educational organization as the basis for learning and refining skills which cab benefit gender equity.
Interdisciplinary Option: Women & Gender Studies
This course satisfies the Engaged Learning requirement.
Course equivalencies: WOST388/WSGS388
Outcomes:
Students demonstrate skill proficiency, professional conduct, and systematic reflection on their experience; Students learn about public and private sector responses to women's issues and concerns

WSGS 389 Independent Study (1-3 Credit Hours)
This course consists of independent research or engaged learning in a specific area of WSGS; work must be completed under the supervision of a WSGS faculty member.
Interdisciplinary Option: Women & Gender Studies
Outcomes:
Students will gain a deeper understanding of a specific WSGS topic through research, service, reading, or other mode of learning; The product of this work will vary depending on the interests of the student

WSGS 390 Directed Readings Women Studies (3 Credit Hours)
An independent program of reading and research arranged between the student and the supervising faculty member in the student's major department. Students will complete a final research project integrating their major fields with women's studies. Permission of women's studies director is required.
Interdisciplinary Option: Women & Gender Studies
Course equivalencies: WOST390/WSGS390

WSGS 391 WSGS Methodologies (3 Credit Hours)
Pre-requisites: WSGS 101 or WSGS 201, and WSGS 330
This course is part of a two-semester sequence for the final year of the WSGS major and minor. In this course we review several approaches to feminist research methods and consider ways to put them into practice, individually or combined with other methods. Enrollment by permission.
Interdisciplinary Option: Women & Gender Studies
Outcomes:
Students will produce a project proposal that (1) demonstrates an interdisciplinary approach; (2) draws on theory and scholarship in WSGS; and (3) reflects the use of feminist methodologies in practice

WSGS 397 Special Topics in WSGS (3 Credit Hours)
This course allows students to explore advanced courses or seminars focused on the intersection of gender, sexuality, race, class, and other categories of power, privilege, and oppression.
Interdisciplinary Option: Women & Gender Studies
Course equivalencies: WOST397/WSGS397
Outcomes:
Students demonstrate an understanding of a unique topic in women's studies

WSGS 398 Women's Studies Internship (3 Credit Hours)
This course uses supervised project-based experiential learning to allow students the opportunity to apply feminist analysis and practical skills to a student-designed project that will be completed within the timeframe of a course term.
Interdisciplinary Option: Women & Gender Studies
This course satisfies the Engaged Learning requirement.
Course equivalencies: WOST398/WSGS398
Outcomes:
Students learn application of feminist concepts and principles to pragmatic outcomes; leadership, planning, time management, and assessment skills

WSGS 399 WSGS Capstone (3 Credit Hours)
Pre-requisites: WSGS 330 and WSGS 391; Enrollment by permission
This is a project-oriented course that represents the culmination of the WSGS major. Students build on their work in WSGS 391/WSGS Methodologies to complete a project under the direction of a faculty or community organization mentor, either individually or as a group.
Interdisciplinary Option: Women & Gender Studies
This course satisfies the Engaged Learning requirement.
Course equivalencies: WOST399/WSGS399
Outcomes:
Students will complete a project that (1) demonstrates an interdisciplinary approach; (2) draws on theory and scholarship in WSGS; and (3) reflects the intentional use of feminist methodologies in practice

Women's Studies and Gender Studies (BA)

The WSGS BA program provides students with a broad and deep understanding of feminist scholarship and gender theory from an interdisciplinary perspective. Through the WSGS lens of intersectionality, students acquire analytical skills that enable them to see the world in new ways and offer innovative solutions to social and theoretical problems. Service-learning courses, internships, and capstone projects provide opportunities to link theory and practice and advocate for social justice.

Many students combine the WSGS major with a major or minor in another discipline to further hone their skills in that area and integrate their learning in innovative ways. The BA program also provides a robust list of elective options in other disciplines, such as Anthropology, English, History, Psychology, Sociology, and Theology (among others) that enhance the foundational curriculum. In these ways, the program sustains its interdisciplinary character, honors diversity, and continually builds a community of scholars who collaborate and support one another. Our graduates go on to fulfilling careers in education, law, medicine, the non-profit sector, and a number of other fields.

Curriculum

The WSGS major can be declared at any time. You may major in WSGS with or without a second major. The major consists of 36 hours, or 12 courses. A total of at least 21 hours (7 courses) must be at the 300 level or higher. Courses are designated as follows:

Code	Title	Hours
Required Courses		
WSGS 101	Introduction to WSGS from a Global Perspective	3
WSGS 201	Contemporary Issues in WSGS	3
WSGS 330	History of Feminist Thought and Social Action	3
WSGS 391	WSGS Methodologies	3
WSGS 398	Women's Studies Internship (or cross-listed service learning course)	3
WSGS 399	WSGS Capstone	3
Theory		
Select one of the following:		3
PLSC 312	Feminist Theory	
ENGL 307	Topics in Feminist and Gender Studies	
WSGS 380	Queer Theory: Beyond the Binary	
Electives		
Select five (5) elective courses from WSGS and cross-listed offerings, with at least 2 of these at the 300 level.		15
Total Hours		**36**

Interdisciplinary Elective Courses

These are courses outside of the Women's Studies and Gender Studies (WSGS) department that permanently count toward elective requirements. For a full list of WSGS courses, click here (p. 2666). There may also be courses that are temporarily tagged to count toward interdisciplinary elective requirements. These can be found in LOCUS (https://locus.luc.edu) in the class schedule.

Code	Title	Hours
ANTH 106	Sex, Science and Anthropological Inquiry	3
ANTH 203	Violence, Social Suffering, and Justice	3
ANTH 205	Gender in Cross-Cultural Perspective	3
ANTH 245	Gender in Deep Time	3
ANTH 307	The Body and Culture	3
ANTH 346	Biology of Women	3
BIOL 346	Biology of Women	3
CJC 370	Women in The Criminal Justice System	3
CJC 373	Intimate Partner Violence	3
CLST 271G	Classical Mythology - Women/Gender Focus	3
CLST 273G	Classical Tragedy - Women/Gender Focus	3
CLST 295	Women in the Classical World	3
COMM 281	Communication, Language & Gender	3
ENGL 283	Women in Literature	3
ENGL 306	Studies in Women Writers	3
ENGL 306A	Studies in Women Writers Before 1700	3
ENGL 306B	Studies in Women Writers 1700-1900	3
ENGL 306C	Studies in Women Writers Since 1900	3
ENGL 307	Topics in Feminist and Gender Studies	3
ENGL 369A	Women in Drama Before 1700	3

ENGL 369B	Women in Drama 1700-1900	3
FNAR 207	Women, Art, and Society	3
FNAR 360	Picturing Women in Renaissance and Baroque Art	3
HIST 290A	History of Sexuality in the United States	3
HIST 310C	Medieval Women	3
HIST 310L	Love and Violence in Medieval Culture and Society	3
HIST 329	Women's Sphere in Past Society	3
HIST 329C	Empire, Sex, Violence: European Colonial History	3
HIST 331A	Food, Hunger and Power in the Modern World	3
HIST 337A	Women in Russia and Eurasia, 1860-Present	3
HIST 339F	History of Feminist Thought and Social Action	3
HIST 341C	Tunisia On-Site: Arab Spring, Democratic Change, Islam	3
HIST 349A	Women in East Asia	3
HIST 358	Women in Latin American History	3
HIST 377	African American Women's History	3
HIST 381	Rebels & Reformers in U.S. History	3
HIST 382	Teaching Race, Class, and Gender	3
HIST 389B	Topic: Gender, Race, & Class in US History	3
HIST 389C	Gender Benders	3
LITR 291	Italian & Italian-American Women Writers	3
PHIL 322	Philosophical Perspectives on Woman	3
PLSC 251	Women in American Politics	3
PLSC 312	Feminist Theory	3
PLSC 319	Women, Law & Public Policy	3
PLSC 355C	Women and Politics: A Cross-National Perspective	3
PLSC 399	Tunisia On-Site: Arab Spring, Democratic Change, Islam	3
PSYC 235	Psychology of Human Sexuality	3
PSYC 238	Gender & Sex Differences & Similarities	3
PSYC 239	Understanding Bias and Inclusivity	3
PSYC 340	Psychology of Women	3
PSYC 360	Understanding Prejudice	3
SOCL 123	Mass Media and Popular Culture	3
SOCL 171	Sociology of Sex and Gender	3
SOCL 210	Gender and Work	3
SOCL 239	Understanding Bias and Inclusivity	3
SOCL 240	Families	3
SOCL 250	Inequality in Society	3
SOCL 262	Movements for Social Justice: 60s & Beyond	3
SOCL 266	Development and Social Change in Modern China	3
SPAN 361	Hispanic Women Writers	3
THEO 278	Religion & Gender	3
THEO 365	Women, Gender and Embodiment in Islam	3

Suggested Sequence of Courses

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

Course	Title	Hours
Year One		
Fall		
WSGS 101	Introduction to WSGS from a Global Perspective	3
	Hours	**3**
Spring		
Elective		3
	Hours	**3**
Year Two		
Fall		
WSGS 201	Contemporary Issues in WSGS	3
	Hours	**3**
Spring		
Elective		3
Elective		3
	Hours	**6**
Year Three		
Fall		
WSGS 330	History of Feminist Thought and Social Action	3
PLSC 312 or ENGL 307 or WSGS 380	Feminist Theory or Topics in Feminist and Gender Studies or Queer Theory: Beyond the Binary	3
	Hours	**6**
Spring		
WSGS 398	Women's Studies Internship	3
Elective		3
	Hours	**6**
Year Four		
Fall		
WSGS 391	WSGS Methodologies	3
Elective		3
	Hours	**6**
Spring		
WSGS 399	WSGS Capstone	3
	Hours	**3**
	Total Hours	**36**

Interdisciplinary Options

For students interested in English

Code	Title	Hours

THEO 192	Topics in Moral Problems	3
THEO 365	Women, Gender and Embodiment in Islam	3
ENGL 283	Women in Literature	3

College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/cas/college-requirements/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

Upon graduating, undergraduate Women's Studies and Gender Studies students will be able to:

- Identify major influences within key historic feminist movements. These influences may include activists, authors and/or writings, or legislation.
- Articulate how women's studies and gender studies is a distinct field connected to other interdisciplinary fields of study.
- Evaluate, compare, and critique gender and feminist theories and methodologies.
- Identify the interactions and intersections of identities (e.g., gender, race, ethnicity, class, sexuality, and so on) and assess the ways in which they contribute to instances of privilege and power dynamics across cultures, space, and time.
- Recognize their relationship within their communities and understand that actions (or inactions) are integral to overcoming inequalities.
- Connect theory with practice through a service learning or internship experience.
- Identify and employ legitimate sources of information covering social inequalities and injustices.
- Read current social inequities effectively and suggest solutions based on feminist methodologies.
- Prepare for graduate study and for work in professional fields.

Women's Studies and Gender Studies Minor

The WSGS Minor serves to enhance and deepen student learning within the discipline of their major program. Through the WSGS lens of intersectionality, students acquire analytical skills that enable them to see the world in new ways and offer innovative solutions to social and theoretical problems. Minors may also engage in WSGS service-learning or internship opportunities that help them link theory and practice and advocate for social justice.

In the spirit of interdisciplinarity, the WSGS Minor includes a robust list of elective options in Anthropology, Criminal Justice, English, History, Psychology, Sociology, and Theology (among other programs) that enhance the foundational curriculum. In this way, students integrate their learning with one or more disciplines to prepare for graduate school or the professions.

Curriculum

A minor in the Women's Studies and Gender Studies Program consists of five courses (or 15 hours):

Code	Title	Hours
Required Courses		
WSGS 101 or WSGS 201	Introduction to WSGS from a Global Perspective Contemporary Issues in WSGS	3
Electives		
Select four (4) electives from courses crosslisted with the WSGS program.		12
Total Hours		**15**

Interdisciplinary Elective Courses

These are courses outside of the Women's Studies and Gender Studies (WSGS) department that permanently count toward elective requirements. For a full list of WSGS courses, click here (p. 2666). There may also be courses that are temporarily tagged to count toward interdisciplinary elective requirements. These can be found in LOCUS (https://locus.luc.edu/) in the class schedule.

Code	Title	Hours

THEO 365	Women, Gender and Embodiment in Islam	3
SOCL 250	Inequality in Society	3

Learning Outcomes

Upon graduating, undergraduate Women's Studies and Gender Studies students will be able to:

- Identify major influences within key historic feminist movements. These influences may include activists, authors and/or writings, or legislation.
- Articulate how women's studies and gender studies is a distinct field connected to other interdisciplinary fields of study.
- Evaluate, compare, and critique gender and feminist theories and methodologies.
- Identify the interactions and intersections of identities (e.g., gender, race, ethnicity, class, sexuality, and so on) and assess the ways in which they contribute to instances of privilege and power dynamics across cultures, space, and time.
- Recognize their relationship within their communities and understand that actions (or inactions) are integral to overcoming inequalities.
- Connect theory with practice through a service learning or internship experience.
- Identify and employ legitimate sources of information covering social inequalities and injustices.
- Read current social inequities effectively and suggest solutions based on feminist methodologies.
- Prepare for graduate study and for work in professional fields.

John Felice Rome Center

Academic Policies

General Academic Information & Registration

All students at Loyola University Chicago's John Felice Rome Center are continuing or visiting students of Loyola University Chicago. As such, they fall under the academic regulations as stated in Loyola's undergraduate catalog, unless there are published exceptions to these regulations specifically for students at the John Felice Rome Center (JFRC).

All students must be enrolled full-time in a minimum of four (4) classes, amounting to twelve (12) credit hours. This is the minimum course load required for all students in order to comply with the terms of the student visa provided by the Italian government. Dropping below four (4) classes is considered part-time study, and thus, not in compliance with Italian law. The maximum course load is six (6) courses for a total of eighteen (18) credit hours. *Internships carry three semester credits and require 100 hours of work experience.*

It is the students' responsibility to know their home schools' academic requirements and how the courses they propose to take at the JFRC fit into those requirements. The JFRC will not contact schools for information regarding core curriculum requirements, honors agreements, graduation requirements, pass-fail policies, withdrawal policies, etc. Before coming to Rome, students should have a clear understanding of their home schools' approval of courses they will or might take while at the Center. Alternate course selections should also be approved in the event a first choice is not available, i.e., closed courses, cancelled courses, etc. It is mandatory for all students to seek appropriate advice and counseling for any special academic situation, i.e., graduating seniors, core or other special course requirements, tutorial courses, pass-fail requirements, transfer of credit, course approval, etc.

Loyola University of Chicago reserves the right to cancel, modify or otherwise change the academic calendar, scheduling, credit or content of the courses, the books used, the final exam schedule, the fees charged, and regulations affecting the students, as announced in its schedule. Always refer to Locus for the most up-to-date and accurate listings.

Program Criteria

All students must have a 2.75 grade point average at the time of application and maintain this GPA during the semester before studying abroad at the JFRC. It is not permitted to study at the John Felice Rome Center with multiple outstanding incompletes. Any student with a pending incomplete in the previous semester before attending the JFRC will be required to submit an appeal to the Office of the Associate Dean of Academic Affairs at the JFRC.

COVID-19 and Campus Health

The collective health of the JFRC community is everyone's responsibility. The JFRC will conduct all activity according to policies and best practices as prescribed by the Italian Ministries of Health and Education and in consultation with the Loyola University Chicago main campus. A complete set of COVID policies, taking into consideration the most up-to-date mandates and recommendations, will be provided at the start of the semester. These policies will be subject to change as the situation warrants.

Pre-requisites

Students are responsible to ensure that all pre-requisites have been met with the assistance of their academic advisor at the main campus (for Loyola students) or at their home school (partnering students) before coming abroad.

Italian Language

Except for those students who have previously successfully completed the equivalent of a university-level course in the Italian language or those who demonstrate native fluency and proficiency, all students are required to register for ITAL 101 Italian I. Enrollment in ITAL 101 Italian I is the JFRC's program requirement and it cannot be waived or replaced by another language. Auditing ITAL 101 Italian I and/or withdrawing from it is not permitted.

E-mail

The JFRC considers electronic mail an official form of communication between the JFRC and the student, using the official @luc.edu e-mail address that is provided by the university to every enrolled student. Students are responsible for all communications sent by the JFRC to their Loyola e-mail accounts.

Course Fees

Certain courses at the John Felice Rome Center are subject to supplemental fees. These fees are in addition to the tuition and room and board fees that appear on a student's bill for the semester, and they are charged to the student's Locus account shown as "JFRC Course Fees." These mandatory fees are highlighted on the course schedule and on the Rome Center website. They are required for various reasons including covering the costs of course materials, on-site visits and entrance fees, and other expenses related to courses.

Course Materials and Textbooks

Some JFRC courses require textbooks, novels and other course materials that need to be purchased by the student. It is the student's responsibility to confirm the required materials needed in their classes and to purchase those within a timely manner at the start of the semester in Rome.

JFRC faculty will provide their students with recommendations and suggestions about where to find required materials.

Student Travel

No special accommodations will be made for individual student travel. The Rome Center supports travel as an opportunity for personal growth by offering excursions and trips throughout Italy and Europe. In addition, there are no classes on Friday (with the exception of 2-3 Friday class days per semester) to facilitate individual travel. Personal travel, including travel that incurs delays back to campus, is not a permitted excuse for absences or lateness. For that reason, no exams or quizzes are to be made up if missed for reasons of travel. Students are responsible for communicating any lateness or absence due to travel to the correct parties at the JFRC (Student Life, faculty, etc.).

Simultaneous Enrollment/Online Courses

Simultaneous enrollment in JFRC courses and LSC/WTC courses is not permitted while studying at the Rome Center. Simultaneous enrollment in JFRC courses and any online sections (at LUC or any other institution) is not permitted while studying at the Rome Center. The minimum of 4 courses must be taken at the Rome Center campus in person to comply with student visa regulations. Enrollment in sections outside of the JFRC is not permitted.

Fridays Class Days

The Rome Center holds classes four days a week, Monday through Thursday. On average, 2-3 Friday class days will be scheduled during any given semester. These Fridays will be indicated in the semester's academic calendar (both on the website and on campus, on the academic bulletin board on campus, and on course syllabi. The purpose of these Friday class days is to recuperate any class time lost from any holidays. These classes are obligatory for all students and no exemptions will be granted for travel or any other personal reason. Should a student choose to travel during these or any other scheduled class days, he or she will simply be marked absent. Note that individual courses may occasionally include events or visits on Fridays or otherwise outside the typical schedule that are obligatory for that course; students should check syllabi for such instances in order to avoid unexcused absences.

Examination Policy

Final examinations are given during the scheduled examination period each semester. Additional tests or examinations may be given during the semester as often as deemed helpful by the instructor. Students who miss any scheduled exam or quiz, including a final exam at the assigned hours will not be permitted to sit for a make-up examination without approval of the Associate Dean of Academic Affairs. Permission is given rarely and only for grave reason; travel is not considered a grave reason. Make-up exams will only be given for documented absences.

Mid-term examinations and/or assignments are administered around the mid-semester break. Student progress is assessed after mid-term so that students who are not performing to established academic standards may be informed of their academic progress far enough in advance to take corrective steps. Early academic alert notices are issued to students who are not performing at acceptable levels; notices may also be sent to the students' deans and/or study abroad coordinators if deemed appropriate. The policy concerning travel and make-up examinations for missed mid-term exams is identical to that for all exams.

Absence due to a serious illness must be reported to the Associate Dean of Academic Affairs prior to the examination and later substantiated by a written statement from the physician in attendance. Absences due to quarantine will be handled on a case-by-case basis. In cases where proper permission has not been granted, a grade of "F" will be assigned. In instances where proper authorization has been granted, the student may take a make-up exam by following the make-up procedure outlined above.

Final Exam Policy

In accordance with established policy at the home campus, exams must be held at the time and location indicated on the academic calendar and final exam schedule. Faculty have been instructed not to hold exams during the last week of class. With the exception of a short quiz, no exams are permitted during the last week of classes before final exams.

If students have more than three examinations in the same day, they may appeal to the Associate Dean of Academic Affairs to shift one of the exams to another day. After securing advance permission and in consultation with the Associate Dean and faculty member, an alternative time can be arranged at a mutually agreed upon time.

Student Attendance Policy

It is expected that students will attend and participate actively in all class meetings both on-campus and on-site. Class participation is an essential part of the grading policy of each instructor. All JFRC courses have the same attendance policy as is indicated explicitly on course syllabi.

JFRC Attendance Policy is as follows:

In accordance with the JFRC mission to promote a higher level of academic rigor, all courses adhere to the following absence policy. Prompt attendance, preparation and active participation in course discussions are expected from every student.

- For all classes meeting once a week, students cannot incur more than one unexcused absence.
- For all classes meeting twice a week, students cannot incur more than two unexcused absences.
- For all classes meeting three times a week, students cannot incur more than two unexcused absences.

The final course grade will drop by 1% for each unexcused absence beyond the allowance specified.

Attendance is mandatory in class including on all scheduled Friday class days. Absences will be excused only in the event of sickness or an emergency. Students should consult the on-campus nurse or call the on-call doctor if they are sick. The collective health of the JFRC is everyone's responsibility. **Do not attend class if you are ill**. In the event of missed classes due to sickness or the obligation to quarantine, the offices of the JFRC Academic Dean and Student Life will work with students and professors to ensure access to course content.

Students from Partner Institutions

Should a student's home university have certain requirements or regulations regarding academics while abroad, it is the students' responsibility to familiarize themselves with such policies. While studying at the Rome Center, all students are considered Loyola University Chicago students, and are therefore subject to LUC policies and requirements.

Student Accessibility Center (SAC) Services

Any student that is registered with the Student Accessibility Center (SAC) at Loyola Chicago's home campus, or any comparable office at another

institution, will be accommodated at the Rome Center as reasonably and as closely to their accommodations at their home campus as possible.

To request academic accommodations, official documentation from LUC's Student Accessibility Center is required. Verification of such services must come directly from Student Accessibility Center personnel (not the student) to the Office of the Academic Dean at the JFRC. It will then be the students' responsibility to confirm the use of their academic accommodations where applicable at the JFRC, after which the Office of the Academic Dean will provide written verification of the approved accommodations to the students' faculty members. Examples of applicable accommodations may include extended time for tests and quizzes, priority seating, use of audio recording software, and a distraction-reduced testing space. Students should know that certain accommodations are not applicable while studying at the JFRC.

Specific instructions for coordinating accommodations related to a distraction-reduced testing space will be provided by the Office of the Academic Dean, but students should note the following:

- Scheduling and proctoring of exams and quizzes in a distracted-reduced testing space will require coordination between the student, instructor and the Academic Dean's Office. Please note that the JFRC does not have access to the "Accommodate" system.
- Students are responsible for communicating with their individual instructors and the Dean's Office to schedule their examinations. Accommodations will not be provided to students who neglect to reach out about scheduling. Below please find the timeline for scheduling a distraction-reduced testing space and proctor.

Type of Exam	Scheduling
Regularly scheduled quizzes/ exams	7 days in advance
Midterms	2 weeks in advance of midterm date
Finals	2 weeks in advance of final date

- Students can choose to opt out of using SAC accommodations and/or opt back in, but only if the request comes seven (7) days before the exam/quiz (for those other than midterm/final) or two (2) weeks before the midterm/final exam. No petitions for SAC accommodations will be granted beyond those dates and no accommodations are retroactive.

With the JFRC's limited resources, collaboration and flexibility is appreciated during this procedure. The Rome Center is committed to providing all reasonable accommodations where possible.

Academic Integrity/Plagiarism

As one of the campuses of Loyola University Chicago, the Rome Center is committed to academic rigor and excellence. Plagiarism and academic dishonesty of any kind are unacceptable and will not tolerated. Students are advised to familiarize themselves with Loyola's standards here: http://www.luc.edu/academics/catalog/undergrad/reg_academicintegrity.shtml (http://www.luc.edu/academics/catalog/undergrad/reg_academicintegrity.shtml/). Students are responsible to comply with the LUC Student Handbook.

Pass/Fail and Audit Policy

Students should register for all courses as regularly graded courses. For inquiries about pass-no pass and/or audit, please inquire with the JFRC dean's office for additional information.

Withdrawal from Class

Students may withdraw from class with the final grade of "W" provided this is done before the conclusion of the tenth week of class. Withdrawal after the change of registration period but before the withdraw deadline will result as a "W" on a student's transcript. Withdrawal after the deadline will result in a "WF" on a student's transcript. Please refer to the Academic Calendar for further information on dates and deadlines.

Students may not withdraw from class if doing so will drop them below the 12 semester hour credit minimum required of students in attendance at the Rome Center. Official withdrawals can be made via the LOCUS system or with guidance from the Assistant Dean of Academic Programs.

Please note that withdrawal from ITAL 101 Italian I is not permitted, as this course is a requirement for all Rome Center students with no previous Italian experience.

Academic Grievances and Grade Appeals

Students are encouraged to seek resolutions for any course-related complaints directly with their course instructor. If a student feels that the issue has not been sufficiently resolved, they can bring their issue forward to the attention of the Dean's office. If a resolution cannot be found between the student and the instructor, students are required to follow Loyola University's Academic Grievance Policies as indicated here: https://www.luc.edu/academics/catalog/undergrad/reg_academicgrievance.shtml (https://www.luc.edu/academics/catalog/undergrad/reg_academicgrievance.shtml/)

Student Summer Session Academic Policies

Summer Registration Procedure

Students must register for a total of 6 credits (2 courses) as regularly graded courses. During the first two days of classes, students will be permitted to elect a change of registration with the Assistant Dean of Academic Programs. After that publicized deadline, no changes will be made to a student's schedule.

Pass/Fail Policy

To promote the academic rigor of the John Felice Rome Center curriculum, students are not permitted to elect the pass/fail option during a summer session.

Course Materials and Texts

Students are expected to arrive in Rome with their required course materials already in their possession. Summer course texts are available for purchase at the LUC bookstore (both online and in person). There is no guarantee that the required materials will be available in Rome if a student neglects to obtain them before they come.

Attendance Policy

In accordance with the JFRC mission to promote a higher level of academic rigor, all courses adhere to the following attendance policy. Prompt attendance, preparation and active participation in course discussions are expected from every student. Any lateness or leaving class early will impact the final course grade.

Attendance is mandatory at every class meeting for each course. Absence due to sickness or injury needs to be corroborated by a doctor's note. Students late to class twice will be credited with one absence in accordance with the JFRC's Attendance policy. Three (3) absences will

result in an automatic failure (F). Travel does not constitute reason to miss class.

Withdrawal from Class

Students studying at the Rome Center during the summer semester must be enrolled in two (2) classes for credit. Students will have until the end of the business day on the second day of classes to make any changes to their course schedule. Any changes after the second day of classes may result in "W" or "WF." Students may not withdraw from a class if doing so will drop them below the six (6) semester credit hour minimum required of students in attendance at the Rome Center summer program.

Final Examination Policy

All students must sit for their final examinations on the day and time scheduled. No exams are to be given on another day or at another time without consent from the Associate Dean of Academic Affairs. Travel plans or other personal commitments may not interfere with already scheduled finals.

Marcella Niehoff School of Nursing

Mission, Vision & Core Values

Our Jesuit values guide us to shape the future of health and health care

Our mission at the Marcella Niehoff School of Nursing is to advance the science of nursing and provide a transformative education in the Jesuit Catholic tradition that prepares compassionate, innovative, diverse nurse

leaders who provide care for the whole person and partner locally and globally to promote social justice and health for all.

Our vision at the Marcella Niehoff School of Nursing is to be a preeminent leader in transforming the health of persons, families, communities and populations, while promoting social justice, health equity and quality care for all.

In keeping with the University's Ignatian heritage, the School of Nursing is committed to the five hallmark characteristics of a Jesuit education. These characteristics provide the foundation for our core values, helping guide and motivate our administrators, faculty, students, and graduates to think differently about their approach to health care.

Core Values

Commitment to Excellence

Apply well-learned lessons and skills to achieve new ideas, better solutions, and vital answers.

- Promote dialogue, critical thinking, and the discernment of meaning in the process of enhancing health of persons and communities, both locally and globally.
- Foster an academic environment that supports and guides students in their transformation toward becoming health care leaders.

Faith in God and the Religious Tradition

Promote well-formed and strongly held beliefs in one's faith tradition to deepen others' relationship with God.

- Acknowledge that humans are physical, psychosocial, and spiritual beings
- Recognize that spirituality affects health.
- Respect that spirituality is lived out differently through diverse faiths, beliefs, and religious traditions.
- Create a safe place to search for meaning in the process of discovery and transformation, as well as social change.
- Respect our potential for achievement while accepting our human limitations in the pursuit of good.

Service that Promotes Justice

Use learning and leadership in openhanded and generous ways to ensure freedom of inquiry, the pursuit of truth, and care for others.

- Commit to social justice by engaging individuals, families, and communities, both locally and globally, to improve and promote health.
- Recognize that health disparities exist; those with the greatest need and with the least access hold a higher priority for action.
- Engage in research and application of evidence-based practice or best practices that limit health disparities.

Values-Based Leadership

Ensure a consistent focus on personal integrity, ethical behavior in business and in all professions, and the appropriate balance between justice and fairness.

- Foster synergistic collaborations within and between professions, disciplines, programs, and partners.
- Respect the dignity and fundamental rights of all.
- Embrace the tension that exists between competing priorities (e.g., mission-driven, financially-driven, Ethical & Religious Directives for Catholic Health Care Services) when making choices.
- Accept responsibility to make choices and act through discernment, being wise stewards of resources.
- Actively seek diversity in people, programs, professions, and practice to strengthen the communities of which we are a part.
- Promote a culture of purposeful transparency.

Global Awareness

Demonstrate an understanding that the world's people and societies are interrelated and interdependent.

- Understand that individuals are intimately connected to, live within, and operate within community.
- Recognize that communities have cultural capital with unique strengths.
- Foster relationships and engaging in partnerships in order to promote health.
- Embrace culture as a means to serve and to lead change toward better health.
- Apply the lessons we learn locally to global milieus and applying lessons learned globally to local initiatives.

Undergraduate Programs

- Nursing (Accelerated BSN) (p. 635)
- Nursing (BSN) (p. 636)
- Nursing (RN to BSN) (p. 638)

Undergraduate Policies and Procedures

Please see Undergraduate Policies and Procedures (p. 2050) for academic policies that supersede those of academic units within the University.

University Policies

Please see University Policies for academic policies that supersede those of academic units within the University

CM/MH/AD Nursing (CMAN)

CMAN 272 Mental Health Patterns (3 Credit Hours)
Co-requisites: CMAN 272L
This course is designed to prepare students in assisting persons (individuals, families, communities) to achieve and maintain optimal mental health.
Outcomes:
The student will be able to use critical thinking to apply knowledge from nursing and other disciplines in the care of persons with mental health disorders

CMAN 272L Mental Health Patterns: Lab (3 Credit Hours)
Co-requisites: Must also enroll in CMAN 272
This course is designed to prepare students in assisting persons (individuals, families, communities) to achieve and maintain optimal mental health.
Outcomes:
The student will be able to use critical thinking to apply knowledge from nursing and other disciplines in the care of persons with mental health disorders

CMAN 375 Community Health Nursing (3 Credit Hours)
Pre-requisites: NURS-BSN R & GNRS students
This course integrates nursing and public health concepts to provide a theoretical base for the care of families, aggregates, communities, and populations.
Course equivalencies: CMAN380/CMAN380A/CMAN375

CMAN 375L Community Health Nursing (3 Credit Hours)
This clinical course provides the student with an opportunity to apply nursing and public health concepts to families, aggregates, communities, and populations. Opportunities to apply epidemiology and risk assessment strategies in a community assessment are provided. The role of the community health nurse as educator is addressed.
This course satisfies the Engaged Learning requirement.
Course equivalencies: CMAN375L/CMAN380C/CMAN380L
Outcomes:
Upon completion of this course the student will be able to: 1) Apply nursing and public health concepts to community assessment utilizing databases and community engagement; 2) Evaluate the provision of health education and/or health information in the community

CMAN 380 Community Health (3 Credit Hours)
Pre-requisites: Must have taken and passed MSN 277, MSN 277L, GNUR 294, and GNUR 290 with a C- or better; Must also enroll in CMAN 380L
Nursing and public health concepts provide theoretical basis for care of families, aggregates, and communities outside institutional settings. Role of community health nurses in caring for specific aggregates is described. Clinical experiences are provided for application of concepts and implementation of nursing interventions in a variety of community settings.
This course satisfies the Engaged Learning requirement.
Course equivalencies: CMAN380/CMAN380A/CMAN375

CMAN 380L Community Health: Lab (3 Credit Hours)
Must also enroll in CMAN 380.
This course satisfies the Engaged Learning requirement.
Course equivalencies: CMAN375L/CMAN380C/CMAN380L

General Nursing (GNUR)

GNUR XXX Comprehensive Exam Semester 1 (0 Credit Hours)
Course designation for program planning master's students into the comprehensive examination requirement; First semester of the process.

GNUR YYY Comprehensive Exam Semester 2 (0 Credit Hours)
Course designation for program planning master's students into the comprehensive examination requirement; Second semester of the process.

GNUR 102 Introduction to Professional Nursing Practice (1 Credit Hour)
This course introduces the mission of the MNSON and the foundations of nursing practice. Nursing is presented as a scientific profession with a heritage of strong values-based leadership based on critical thinking and evidence based practice.
Outcomes:
Describe the mission of the MNSON and discuss the ANA Scope of Standards of Nursing Practice

GNUR 155 Human Anatomy (3 Credit Hours)
This course is designed to give students a basic understanding of the structure of the major organs and systems of the human body from the cellular to the system level. Must also enroll in GNUR 155L.

GNUR 155L Human Anatomy Lab (1 Credit Hour)
Companion laboratory course for GNUR 155, Human Anatomy Must also enroll in GNUR 155.

GNUR 156 Human Physiology (3 Credit Hours)
This course is designed to give students a basic understanding of the function of the major organs and systems of the human body from the cellular to the system level. Must have taken and passed GNUR 155, GNUR 160 with a C- or better. Must also enroll in GNUR 156L.

GNUR 156L Human Physiology Lab (1 Credit Hour)
Companion laboratory course for GNUR 156, Human Physiology Must enroll in GNUR 156.

GNUR 160 Chemistry for Health Professions (3 Credit Hours)
Introduction to general chemistry and elements of organic chemistry and biochemistry include the review of families of simple organic molecules and simple sugars, the role of enzymes in biochemical reactions, and the metabolism of carbohydrates, proteins, and lipids. Must also enroll in GNUR 160L.
Course equivalencies: GNUR160/CHEM151

GNUR 160L Chemistry for Health Professions Lab (1 Credit Hour)
Companion laboratory course for GNUR 160, Chemistry for Health Professions Must also enroll in GNUR 160.

GNUR 203 Microbiology for Health Professions (3 Credit Hours)
Basic concepts of microbial metabolism, genetics, and classification in order to understand their effects on human health. Clinically relevant microbial diseases will be explored, with a focus on microbe-human interactions, epidemiology, and methods to control microbes.

GNUR 204 Bridge Course and Nursing Concepts (3 Credit Hours)
This course provides conceptual linkage between student's previous nursing education and clinical experiences to professional nursing. The student's background in liberal arts, science and nursing is used as the basis for exploration of theories that guide contemporary nursing practice and leadership. Historical, cultural and political factors that have shaped contemporary nursing and the U.S. health care system are explored. Emphasis is placed on developing an understanding of scientific problem-solving, by accessing and evaluating data from a variety of sources. Critical thinking skills and the ability to evaluate evidence for practice are stressed.

GNUR 207 Concepts of Professional Nursing Practice (2 Credit Hours)
This course explores nursing concepts for professional nursing practice in the care of individuals, families, communities, and populations, along the health-illness continuum. Content includes client and family- centered care, client teaching, levels of prevention, the determinants of health and illness, and the principles of population- focused and culturally sensitive care. Students are introduced to the historical and political influences of the current US health care delivery system with an emphasis on the issues of health care access, health care disparities, social determinants of health, biases in the healthcare setting, and health literacy among culturally diverse and vulnerable populations.
Outcomes:
1) Describe the role of the professional nurse in health promotion and risk reduction for individuals, families, communities, and populations, with an emphasis on the impact of values, lifestyle, and cultural influences; 2) Understand the cultural basis for health beliefs and practices for individuals, families, communities, and populations; 3) Understand the epidemiological model for diseases, including the levels of prevention and population-based approaches; 4) Explain the structure and function of the US health care delivery system and the impact of these factors on access, quality, and cost of health care; 5) Understand the health goals for the nation identified by Healthy People initiative

GNUR 207A Concepts of Professional Nursing Practice (3 Credit Hours)
This course explores nursing concepts for professional nursing practice in the care of individuals, families, communities, and populations, along the health-illness continuum. Content includes client and family- centered care, client teaching, levels of prevention, the determinants of health and illness, and the principles of population- focused and culturally sensitive care. Students are introduced to the historical and political influences of the current US health care delivery system with an emphasis on the issues of health care access, health care disparities, social determinants of health, biases in the healthcare setting, and health literacy among culturally diverse and vulnerable populations. Restricted to RN-BSN Students Only.
Outcomes:
1) Describe the role of the professional nurse in health promotion and risk reduction for individuals, families, communities, and populations, with an emphasis on the impact of values, lifestyle, and cultural influences; 2) Understand the cultural basis for health beliefs and practices for individuals, families, communities, and populations; 3) Understand the epidemiological model for diseases, including the levels of prevention and population-based approaches; 4) Explain the structure and function of the US health care delivery system and the impact of these factors on access, quality, and cost of health care; 5) Understand the health goals for the nation identified by Healthy People initiative

GNUR 230 Success in Nursing I (1 Credit Hour)
This course is designed to help students to understand and develop the vocabulary and critical thinking skills necessary to increase their success in nursing courses, the nursing program, and the university.
Outcomes:
The student will be able to increase their mathematical, verbal, critical thinking, and study skills; The student will learn to use the nursing process as a problem solving method

GNUR 238 The Foundations of Clinical Practice in Nursing (3 Credit Hours)
Pre-requisites: Must have taken and passed GNUR 155, GNUR 156, and GNUR 160 with a C- or better; Must also enroll in GNUR 238L
This course introduces basic nursing concepts such as critical thinking, the nursing process, physiologic and safety needs of the client, health assessment, and fundamental nursing skills, including safe medication administration. The course prepares students for the role of the professional nurse in the clinical setting.

GNUR 238L Foundations of Clinical Practice in Nursing Lab (1 Credit Hour)
The students will utilize critical thinking skills and the nursing process to apply basic nursing concepts in the performance of health assessment and fundamental nursing skills. The course prepares students for the role of the professional nurse in the clinical setting. Must enroll in GNUR 238.

GNUR 290 Concepts in Older Adult Health (2 Credit Hours)
Pre-requisites: Must have taken and passed GNUR 238, GNUR 293 and GNUR 297 with a C- or better, OR be enrolled in GNUR 238, GNUR 293 and GNUR 297
This course introduces students to the care of older adults. It is designed to explore current concepts and practices pertaining to aging. This course provides an overview of the normal physical, psychological, and social-cultural aspects of the aging process. It addresses health and health alterations of aging and exploration of attitudes toward care of the older adult. Enrollment is restricted to students admitted to the BSN program.

GNUR 293 Pathophysiology (4 Credit Hours)
Pre-requisites: Must have taken and passed GNUR 155, GNUR 156 and GNUR 160 with a C - or better
This course provides the student with knowledge of the basic mechanisms involved in pathophysiological processes.
Outcomes:
The student will be able to use critical thinking skills in the application of pathophysiological processes to clinical practice

GNUR 294 Foundations of Pharmacology (3 Credit Hours)
Pre-requisites: Must have taken and passed GNUR 293, GNUR 203, GNUR 238, GNUR 297 with a C- or better; Must have taken and passed GNUR 238L with a P
This course introduces nursing students to pharmacology and provides them with the foundation needed to administer medications.

GNUR 297 Clinical Nutrition for Nursing Practice (2 Credit Hours)
Pre-requisites: Must have taken and passed GNUR 155, GNUR 156, and GNUR 160 with a C- or better
This course introduces foundations of nutrition for nursing practice. Evidence-based nutrition is applied across the life-span and health continuum. Nutritional assessment, cultural practices and health policies are explored.

GNUR 307 Concepts of Professional Nursing Practice (3 Credit Hours)
This course explores concepts for professional nursing practice. Major course concepts include the social contract with nursing and society, health promotion and risk reduction, social and cultural factors influencing health beliefs and practices, and the relations between theory, research, evidence and practice. Interprofessional competencies within the structure and function of the healthcare system are addressed. This course is for RN-BSN students.
Outcomes:
Upon successful completion of this course, the student is able to: 1) Explain historical, contemporary, cultural, and policy trends that have shaped nursing practice and roles; 2) Relate the mission and values of the Marcella Niehoff School of Nursing to the social contract for professional nursing; 3) Understand the social and cultural basis for health beliefs and practices in individuals, families, communities, and populations; 4) Understand the role of the professional nurse in health promotion and risk reduction; 5) Explain the integration of theory and research into professional nursing practice; 6) Analyze the impact of interprofessional competencies, collaboration skills, and advocacy skills on patient and family centered care; and 7) Analyze the structure and function of the US healthcare system in access, quality, and cost dimensions

GNUR 325 Selected Topics (1-3 Credit Hours)
This course will provide the student with content knowledge specific to particular areas of nursing. Topics may include peer teaching, critical care, emergency, high-risk childbearing families, community health, oncologic, rehabilitation, gerontologic nursing, or comparative health systems including international study.

GNUR 327 Introduction to Spiritual Care (3 Credit Hours)
Spiritual Care is essential to providing quality nursing care. This course is focused on the nurse as integral to the care of the whole person. Historical, theoretical and practical perspectives of providing spiritual care are discussed as well as the nursing process, cultural considerations, therapeutic use of self, and most frequently used nursing interventions related to spiritual care.
Knowledge Area: Tier 2 Theological Knowledge
Outcomes:
Discuss professional mandates for spiritual care; Explain importance of fostering personal spiritual self awareness in caring for spirit of the patient, family and community; Integrate elements of spiritual assessment into overall assessment of a patient; Use prayer to comfort patients; Define suffering and relationship to spiritual care

GNUR 338A Physical Assessment for R.N.s (3 Credit Hours)
Restricted to Graduate Nursing students. This course prepares students to conduct comprehensive health assessments. Students are provided experiential learning opportunities to demonstrate competency in health assessment. Emphasis is placed on the physical, psychological, social, cultural, spiritual, and economic dimensions of health and wellness, and the identification of real and potential patient health and wellness problems.

GNUR 344 Quality and Safety (3 Credit Hours)
This course focuses on quality and safety in healthcare. Historical and contemporary trends in quality and safety are addressed and major initiatives for quality and safety in healthcare are examined. The course is structured around the knowledge, skills, and attitudes of the Quality and Safety Education for Nurses initiative. This course is for RN-BSN students.
Outcomes:
1) Understand historical forces and events shaping quality and safety initiatives in health care; 2) Differentiate between quality and safety in healthcare and professional nursing practice; 3) Relate key knowledge, skills, and attitudes of patient-centered care, teamwork and collaboration, evidence-based practice, quality improvement, safety, and informatics to the contemporary health care system and professional nursing practice; 4) Understand the dimensions of patient-centered care and the factors influencing those dimensions; 5) Analyze the effectiveness of interprofessional teams; 6) Relate informatics and evidence-based practice to quality and safety for individuals, groups, communities, and populations; 7) Apply tools and processes in quality and safety initiatives

GNUR 356 Nursing Informatics (3 Credit Hours)
This course provides an introduction to nursing informatics, involving the integration of nursing, health, computer, and information science, in the support of professional nursing practice. The effective use of technology in aspects of health care deliver are explored. Information retrieval, management, and evaluation strategies are emphasized. Legal and ethical principles and standards are applied to the use of information and technology in professional nursing practice. This course is for RN-BSN students.
Outcomes:
Upon the successful completion of this course, the student is able to: 1) Analyze web-based health content resources; 2) Describe the clinician role in the design, selection, implementation, and evaluation of healthcare applications and systems; 3) Apply selection, retrieval, and evaluation strategies in the use of data relevant for patient care; 4) Relate nursing and healthcare informatics competencies to effective nursing practice; 5) Explain the data-driven healthcare culture; 6) Apply ethical and legal principles in the use of information and technologies for professional nursing practice

GNUR 360 Nursing Research: For Evidence-Based Practice (3 Credit Hours)
Pre-requisites: Must have taken and passed PSYC 304 or STAT 103 with a C- or better
This course provides basic knowledge regarding the research process and the importance of evidence-based nursing practices. Students learn to analyze how evidence is generated to make clinical judgments that inform practice in a variety of settings.
Course equivalencies: GNUR350/GNUR3660

GNUR 361 Nursing Ethics (3 Credit Hours)
Pre-requisites: Must have taken and passed GNUR 360, MSN 277, MSN 277L, GNUR 294, GNUR 290 with a C- or better
This course offers students, as future health care professionals and as health care recipients, opportunities to think philosophically, demonstrate ethical awareness, do ethical reflection, and apply ethical principles in decision-making.
Outcomes:
The student will be able to recognize and respond to ethical challenges inherent in the delivery of health care to individuals with differing philosophical views and diverse backgrounds providing reasoned arguments for views held/positions taken

GNUR 363 Healthcare Transitions (3 Credit Hours)
Patients pass between health care settings, levels of care, health care providers, and their homes and the communities where they live. These transitions require high degrees of care coordination and management to ensure continuity across settings, providers, and levels. This course examines coordination of care and management of transitions across settings, providers, and levels. Models and frameworks of transition and care coordination will be examined, along with the contemporary research in care coordination and transition management. The professional nurse's role in care coordination and transition management in health will be a focus of the course. This course is for RN-BSN students.
Outcomes:
Upon successful completion of the course, the student has the ability to: 1) Understand models and frameworks association with health care transitions and care coordination; 2) Analyze research findings related to care coordination and transition management in health care; 3) Understand facilitators and barriers for effective care coordination and transition management; 4) Describe the role of information, informatics, and technology for enhancing care coordination and transition management; 5) Understand patient, clinician, caregiver, and institutional outcomes associated with successful care coordination and transition management

GNUR 383 Leadership for Professional Nursing Practice (3 Credit Hours)
Pre-requisites: Must have taken and passed MCN 273, MCN 374, CMAN 272, CMAN 380, GNUR 360 with a C- or better , OR MCN 273L, MCN374L, CMAN 272L, CMAN 380L with a P
This course prepares the student to provide leadership in the practice setting and profession. Personal identity and role as nurse leader is addressed from unit-based to organizational and policy environments. Principles of leadership are developed and applied in clinical settings. Legal, regulatory and professional standards related to nursing practice are presented.

GNUR 384 Clinical Role Transition (3 Credit Hours)
Pre-requisites: Must have taken and passed MCN 273, MCN 374, CMAN 272, CMAN 380, GNUR 360,with a C- or better; Must have taken and passed MCN 273L, MCN 374L, CMAN 272L, and CMAN 380L with a P; Must also enroll in GNUR 383
Through preceptor-based learning and seminars, this experience focuses on assimilating the role behaviors of a professional nurse as a provider, designer, manager, and coordinator of care in health care systems, and a member of a profession. Clinical reasoning, critical thinking, prioritization, and the integration of knowledge are emphasized in this experience, focusing on the provision of patient-centered, evidence-based care as a member of an interprofessional health care team.
This course satisfies the Engaged Learning requirement.
Outcomes:
Upon successful completion of this course, the student is able to: 1) Incorporate standards of practice into the development, implementation, and evaluation of evidence-based, patient-centered care; 2) Apply principles of quality and safety in patient care settings; 3) Apply knowledge of prioritization and delegation in the management of care; 4) Collaborate with patients, families, and members of the interprofessional health care team in the design, delivery, and evaluation of evidence-based, patient-centered care; 5) Exemplify role behaviors consistent with a member of a profession; 6) Incorporate ethical, legal, regulatory, financial, and economic considerations into the design, delivery, management, and evaluation of care

GNUR 390 Integrative Clinical Practicum (0 Credit Hours)
This clinical practicum experience provides opportunities for the student to integrate theoretical knowledge into the role behaviors of the professional nurse as a designer, provider, manager, and coordinator of care in health care systems and the community. This course is for RN-BSN students.
Outcomes:
1) Incorporate standards of practice and professional performance into the design, implementation, and evaluation of evidence-based care strategies; 2) Apply principles of quality and safety in enacting the role of the professional nurse; 3) Collaborate with recipients of care, the interprofessional team, and community resources in the design, delivery, and evaluation of evidence-based, client centered, care strategies; 4) Exemplify the role behaviors consistent with membership in the profession of nursing; 5) Incorporate ethical, legal, regulatory, financial, and economic considerations into the design, implementation, management, and evaluation of evidence-based care initiatives

GNUR 399 Independent Study (1-5 Credit Hours)
Requires approval of Associate Dean Academic Programs in Nursing.

Healthcare Emergency Management (HEM)

HEM 100 Emergency Medical Technician - Basic (4 Credit Hours)
This course is designed to instruct a student to the level of Emergency Medical Technician-Basic, who serves as a vital link in the health care team. This includes all skills necessary to provide emergency medical care and a basic life support (BLS) level with an ambulance or other specialized service. Student must maintain active CPR recognition throughout the course.
This course satisfies the Engaged Learning requirement.

HEM 395 Emergency Management Practicum (3 Credit Hours)
Pre-requisites: HEM 201
The purpose of this course is to integrate and synthesize the theory and principles presented in the core classes of the healthcare emergency management major. To achieve this goal, the practicum will examine and assess various disaster case studies. Utilizing the resources of the Faculty Advisory Board, students will be placed in emergency services or public health positions to observe first hand the work of the healthcare emergency manager. In particular, students will observe and participate in such activities as strategic planning; inter-governmental agency communication and information sharing; risk analysis; disaster plan preparation and other aspects of public health threat preparedness; policy analysis; and related practices.

Maternal/Child Nursing (MCN)

MCN 273 Family Health Patterns I (3 Credit Hours)
Pre-requisites: Must have taken and passed MSN 277, GNUR 294 with a C- or better; Must have taken and passed MSN 277L with a P; Must also enroll in MCN 273L
This course allows students to apply concepts from systems theory and the levels of prevention models to structure the presentation of selected concepts related to health promotion and health maintenance of childbearing and parenting families.
Outcomes:
The student will be able to use critical thinking to apply knowledge from nursing and other disciplines in the care of childbearing and parenting families

MCN 273L Family Health Patterns I: Lab (3 Credit Hours)
Co-requisites: Must enroll on MCN 273
No course description is available

MCN 374 Family Health Patterns II: Care of the Child and Family (3 Credit Hours)
Pre-requisites: Must have taken and passed MSN 277 and 277L, GNUR 294 with a C- or better; Must also enroll in MCN 374L
This course uses the Health People 2010 initiative to structure the presentation of selected concepts related to the health promotion, health maintenance and health restoration of infants, children, adolescents and their families.
Outcomes:
Students will be able to use critical thinking to apply knowledge from nursing and other disciplines in the care of infants, children, adolescents and their families

MCN 374L Family Health Patterns II: Lab (3 Credit Hours)
Co-requisites: Must also enroll in MCN 374
No course description is available

Medical/Surgical Nursing (MSN)

MSN 277 Medical/Surgical Nursing: Adult Health I (4 Credit Hours)
Pre-requisites: Must have taken and passed PSYC 273 or PSYC 274 and GNUR 294 with a C- or better OR Must have taken and passed PSYC 273 or PSYC 274 with a C- or better and be enrolled in GNUR 294
This course is designed to use levels of prevention to provide nursing care for adults with selected health issues. Emphasis is placed on health promotion, early detection and treatment and restoration of health for individuals, families and communities across the health care continuum.

MSN 277L Medical/Surgical Nursing: Adult Health Lab I (3 Credit Hours)
Must also enroll in MSN 277. This course is designed to apply levels of prevention in nursing care for adults with selected health issues. Emphasis is placed on health promotion, early detection and treatment and restoration of health for individuals, families, and communities across the health care continuum.

MSN 377 Adult Health II - Advanced Medical-Surgical (4 Credit Hours)
Pre-requisites: Must have taken and passed MSN 277, MSN 277L, GNUR 290, GNUR 294, GNUR 360,with a C- or better; Must also enroll in MSN 377L
This course builds on MSN 277, Adult Health I, and focuses on the nursing care of adults experiencing selected critical health issues. Physical, psychosocial, cultural, spiritual assessments and health data are incorporated into the identification of interventions within the context of life-threatening conditions. Students incorporate evidence-based practice guidelines and interdisciplinary collaboration to maximize health outcomes.
Outcomes:
Nursing care of adults experiencing selected critical health issues

MSN 377L Adult Health II - Advanced Medical Surgical Clinical (3 Credit Hours)
Must also enroll in MSN 377. This course builds on MSN 277L, Adult Health I Clinical, and focuses on the nursing care of adults experiencing selected critical health issues. Physical, psychosocial, cultural, spiritual assessments and health data are obtained and interventions are provided within the context of life-threatening conditions. Students incorporate evidence-based practice guidelines and interdisciplinary collaboration to maximize health outcomes.
Outcomes:
Nursing care of adults experiencing selected critical health issues - clinical

Nursing (Accelerated BSN)

The Accelerated BSN track of the BSN program is designed for college graduates who want to transition to a career as a professional registered nurse. Pre-requisite arts and sciences courses are completed prior to admission. The 16-month full-time program includes the major courses of the BSN program.

The Accelerated BSN track of the BSN program is offered in two learning options.

Onsite Option

Courses meet in person on the Health Sciences Campus in Maywood, IL. Laboratory and simulation experiences are completed at the Health Sciences Campus and clinical learning experiences are completed throughout the Chicagoland area.

Hybrid Learning Option

The hybrid learning option includes online coursework, laboratory, simulation, and class meeting times at the Downers Grove learning site, and clinical learning experiences at Chicago area healthcare facilities.

Contact us (https://absn.luc.edu/contact-us/) to learn more about our Accelerated BSN program options near Chicago.

Curriculum

Code	Title	Hours

Suggested Sequence of Courses

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

Course	Title	Hours
First Semester		
GNUR 207	Concepts of Professional Nursing Practice	2
GNUR 238	The Foundations of Clinical Practice in Nursing	3
GNUR 238L	Foundations of Clinical Practice in Nursing Lab	1
GNUR 293	Pathophysiology	4
GNUR 297	Clinical Nutrition for Nursing Practice	2
GNUR 360	Nursing Research: For Evidence-Based Practice	3
	Hours	**15**
Second Semester		
GNUR 290	Concepts in Older Adult Health	2
GNUR 294	Foundations of Pharmacology	3
MSN 277	Medical/Surgical Nursing: Adult Health I	4
MSN 277L	Medical/Surgical Nursing: Adult Health Lab I	3
CMAN 272	Mental Health Patterns	3

CMAN 272L	Mental Health Patterns: Lab	3
	Hours	**18**
Third Semester		
MCN 273	Family Health Patterns I	3
MCN 273L	Family Health Patterns I: Lab	3
MCN 374	Family Health Patterns II: Care of the Child and Family	3
MCN 374L	Family Health Patterns II: Lab	3
CMAN 380	Community Health	3
CMAN 380L	Community Health: Lab	3
	Hours	**18**
Fourth Semester		
GNUR 383	Leadership for Professional Nursing Practice	3
GNUR 384	Clinical Role Transition	3
GNUR 402	Ethics for Health Professionals	2
MSN 377	Adult Health II - Advanced Medical-Surgical	4
MSN 377L	Adult Health II - Advanced Medical Surgical Clinical	3
	Hours	**15**
	Total Hours	**66**

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

The ABSN track has the same learning outcomes as the BSN Program. The goal of the BSN program is to prepare baccalaureate generalist nurses. At the completion of the program, graduates are expected to:

- Synthesize knowledge from liberal arts, sciences, and nursing science as a basis for professional nursing practice.
- Integrate levels of prevention, quality, safety concepts and principles and leadership into professional nursing practice.
- Provide culturally competent, effective and patient-centered professional nursing care to individuals, families and communities across the lifespan.
- Demonstrate the ability to effectively communicate and collaborate with the patient and interprofessional team to deliver evidence-based, safe, patient-centered care to individuals, families and communities.
- Integrate values, ethics and legal knowledge into nursing practice.
- Integrate scientific evidence and patient, family and community preferences into the planning, implementation and evaluation of professional nursing care.
- Apply skills of information technology and information management effectively in professional nursing practice.
- Analyze ways governmental, institutional and professional policies directly and indirectly influence the healthcare system and population health.

Nursing (BSN)

Preparing the next generation of nurses.

BSN nursing students have the opportunity to take part in a traditional college experience at the Loyola University Chicago's Lake Shore Campus, while gaining experience at world-class clinical sites in the Chicago area. Under the mentorship, supervision, and guidance of faculty, students will learn to think critically, analyze complex situations, make sound clinical decisions, and deliver safe nursing care. Beyond the requisite nursing competencies needed to care for clients, Loyola's BSN program truly prepares graduates to learn, adapt, and grow in their nursing career.

Not a graduating high school senior? Loyola also offers an Accelerated BSN program (p. 635).

Accreditation

The baccalaureate degree program in nursing (BSN) at Loyola University Chicago is accredited by:

Commission on Collegiate Nursing Education (CCNE)
655 K Street, NW
Suite 750
Washington, DC 20001
202-887-6791.

The BSN program has approval from the Illinois Department of Financial and Professional Regulation (IDFPR), Division of Professional Regulation.

Curriculum

Code	Title	Hours
Required Courses		
GNUR 102	Introduction to Professional Nursing Practice	1

Total credits from major: 92

Clinical Rotations

Students complete seven clinical rotations at a variety of acute care, community based, and primary care health care organizations.

Clinical Role Transition (CRT)

Through preceptor-based learning and seminars, this experience focuses on assimilating the role behaviors of a professional nurse as a provider, designer, manager, and coordinator of care in health care systems. Clinical reasoning, critical thinking, prioritization, and the integration of knowledge are emphasized in this experience, focusing on the provision of patient-centered, evidence-based care as a member of an inter-professional health care team.

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

The goal of the BSN program is to prepare baccalaureate generalist nurses.

At the completion of the program, graduates are expected to:

- Synthesize knowledge from liberal arts, sciences, and nursing science as a basis for professional nursing practice.
- Integrate levels of prevention, quality, safety concepts and principles and leadership into professional nursing practice.
- Provide culturally competent, effective and patient-centered professional nursing care to individuals, families and communities across the lifespan.
- Demonstrate the ability to effectively communicate and collaborate with the patient and interprofessional team to deliver evidence-based, safe, patient-centered care to individuals, families and communities.
- Integrate values, ethics and legal knowledge into nursing practice.
- Integrate scientific evidence and patient, family and community preferences into the planning, implementation and evaluation of professional nursing care.
- Apply skills of information technology and information management effectively in professional nursing practice.
- Analyze ways governmental, institutional and professional policies directly and indirectly influence the healthcare system and population health.

Nursing (RN to BSN)

Applications are not being accepted for the RN to BSN track of the BSN program. Please contact Jorgia Connor (jconnor3@luc.edu) for more information.

Applications are being accepted to the RN to MSN in Nursing and Healthcare Administration track. ogram.

Curriculum

The RN to BSN track of the BSN program is designed to build on prior learning. The 120-hour curriculum consists of four separate areas: transfer credits, nursing courses, University Core requirements, and a Professional Nursing ePortfolio. RN to BSN students must complete a minimum of 30 credits online through Loyola and the required clinical experiences in the RN to BSN track.

Courses & Credit Hours

Transfer credits: Maximum total 66 credit hours

- 30 nursing credits
- 36 general education credits

Nursing courses: 24 credit hours

- Concepts of Professional Nursing Practice
- Quality and Safety
- Community Health
- Nursing Informatics
- Nursing Research for Evidence-Based Practice
- Health Assessment
- Leadership for Professional Nursing Practice
- Nursing Ethics
- Health Care Transitions
- Integrative Clinical Practicum

University Core Requirements: Six to 18 credit hours

Requirements may be fulfilled by general education transfer credit.

- Quantitative Knowledge and Inquiry
- Mission specific core courses
- Artistic Knowledge and Inquiry
- Historical Knowledge and Inquiry
- Literary Knowledge and Inquiry
- Scientific Knowledge and Inquiry
- Philosophical Knowledge and Inquiry
- Theological and Religious Knowledge and Inquiry
- Ethical Knowledge and Inquiry

Professional Nursing Portfolio: Maximum of 18 credit hours

Students are required to earn credits through a Professional Nursing ePortfolio, up to 25 credits depending on professional accomplishments. If a student does not meet the needed credits from the ePortfolio, additional credits must be earned from Loyola courses. Elective or core courses may satisfy a portion of this requirement.

Program Options

Full-time and part-time enrollment options are available to online RN-to-BSN students. Each course is three credit hours and taught over six to eight weeks.

Full-Time Program Plan:
Full-time students complete a total of 12 credit hours each semester and take two courses each session. The full-time program plan may be completed in a minimum of one academic year if all core courses transfer in at the time of admission.
RN-BSN Program Plan (Full Time) (https://www.luc.edu/nursing/academics/degreeprograms/undergraduatedegrees/rn-to-bsn/)

Part-Time Program Plan:
Part-time students complete a total of six credit hours each semester and take one course each session. The part-time program plan may be completed in a minimum of two academic years if all core courses transfer in at the time of admission.
RN-BSN Program Plan (Part Time) (https://www.luc.edu/nursing/academics/degreeprograms/undergraduatedegrees/rn-to-bsn/)

Learning Outcomes

The RN to BSN track has the same learning outcomes as the BSN Program.

The goal of the BSN program is to prepare baccalaureate generalist nurses. At the completion of the program, graduates are expected to:

- Synthesize knowledge from liberal arts, sciences, and nursing science as a basis for professional nursing practice.
- Integrate levels of prevention, quality, safety concepts and principles and leadership into professional nursing practice.
- Provide culturally competent, effective and patient-centered professional nursing care to individuals, families and communities across the lifespan.
- Demonstrate the ability to effectively communicate and collaborate with the patient and interprofessional team to deliver evidence-based, safe, patient-centered care to individuals, families and communities.
- Integrate values, ethics and legal knowledge into nursing practice.
- Integrate scientific evidence and patient, family and community preferences into the planning, implementation and evaluation of professional nursing care.
- Apply skills of information technology and information management effectively in professional nursing practice.
- Analyze ways governmental, institutional and professional policies directly and indirectly influence the healthcare system and population health.

Parkinson School of Health Sciences and Public Health

Loyola University Chicago's Parkinson School of Health Sciences and Public Health brings together our call as a Jesuit institution to go to the frontiers of education, research, and practice, and help people who live at the margins.

An established leader in health care education with the Stritch School of Medicine and the Marcella Niehoff School of Nursing, the Parkinson School of Health Sciences and Public Health draws on those strengths to address today's public health challenges and train the next generation of experts in public health, health systems and informatics, dietetics, exercise science, and medical laboratory science.

Flexible degree programs as well as certificates in applied health sciences, health informatics and data science, health care administration, and public health meet student, community, and industry needs. The Parkinson School includes programs for undergraduate and graduate students, as well as career professionals who seek additional skills or a career change. Innovative and accessible program formats for adult learners along with traditional undergraduates include online instruction and hybrid learning programs on Loyola's Health Sciences Campus and Lakeshore campuses. Insight into the student experience (https://www.luc.edu/features/stories/parkinson/).

Undergraduate Programs

- Environmental Science/Public Health (BS/MPH) (p. 983)
- Environmental Science: Environmental Health/Public Health (BS/MPH) (p. 1019)
- Exercise Science (BS) (p. 647)
- Exercise Science (BS/MS) (p. 1068)
- Healthcare Administration (BS) (p. 648)
- Healthcare Administration (BS/MHA) (p. 1103)
- Healthcare Administration Minor (p. 650)
- Healthcare Administration/Business (BS/MBA) (p. 1105)
- Healthcare Administration/Public Health (BS/MPH) (p. 1106)
- Nutrition Minor (p. 651)
- Public Health (BS) (p. 651)
- Public Health (BS/MPH) (p. 1171)

Parkinson School of Health Sciences and Public Health Policies

Each student is required to abide by Loyola University Chicago policies in addition to Parkinson School of Health Sciences and Public Health policies. Loyola policies for undergraduate students may be found in the University Catalog. Parkinson School handbooks and policies are listed below:

- Parkinson Undergraduate Student Handbook 2022-2023 (https://www.luc.edu/media/lucedu/parkinson/departments/publichealthsciences/Parkinson%20Undergraduate%20Student%20Handbook%202022-2023.pdf)
- Healthcare Administration Handbook 2022-2023 (https://www.luc.edu/media/lucedu/parkinson/departments/publichealthsciences/Healthcare%20Administration%20Handbook%202022-2023.pdf)
- Exercise Science Handbook 2022-2023 (https://www.luc.edu/media/lucedu/parkinson/departments/publichealthsciences/Exercise%20Science%20Handbook%202022-2023.pdf)
- Internal Transfer Application (https://www.luc.edu/media/lucedu/parkinson/departments/publichealthsciences/Internal_Transfer_Application_19-20.pdf)

Undergraduate Policies and Procedures

Please see Undergraduate Policies and Procedures (p. 2050) for academic policies that supersede those of academic units within the University.

University Policies

Please see University Policies for academic policies that supersede those of academic units within the University

Exercise Physiology (EXCM)

EXCM 101 Introduction to Exercise Physiology (3 Credit Hours)
Introduction to the major; also includes a lab component covering Emergency Procedures and Safety Skills, introduction to common safety principles, predisposing factors and common causes of accidents, injuries and illnesses.
This course satisfies the Engaged Learning requirement.

EXCM 115 NCCA Personal Training Elective (1 Credit Hour)
This course encompasses an overview of key Exercise Science, training methodology and health behavior change principles. Students will then apply each principle into practice through screening and evaluation, exercise program design, and ethical, legal and professional responsibilities and guidelines.
Outcomes:
Upon successful completion of the course, the student will be able to: Apply key exercise science, training methodology and health behavior change principles in context to the provision of exercise; Apply the practice of exercise and fitness screening and assessment, health appraisal and risk stratification, while simultaneously integrating ethical considerations and client preferences

EXCM 117 NCCA Group Fitness (1 Credit Hour)
This course encompasses an overview of group exercise; to include cardiovascular exercise, strength training and stretching. Students will learn how to lead, instruct and motivate individuals or groups in exercise activities.
Outcomes:
Upon successful completion of the course, the student will be able to: Apply effective, exercise science-based group sessions for different fitness levels; Explain proper technique, demonstrate exercise, and teach appropriate methods to strengthen and stretch certain muscles

EXCM 170 Women's Health and Exercise (1 Credit Hour)
This course presents perspectives on physical activity and exercise science specific to women. It will include the identification of issues during various stages of development in the female body and barriers and benefits of exercise unique to women. Students will apply these perspectives to exercise program design and health care interactions with all clients.
Outcomes:
1) Understand the unique circumstances and outcomes of working with women in the field of wellness and fitness; 2) Identify preventative strategies (such as exercise prescription and nutrition guidance) that can compensate for health risks, issues, and deficiencies that female clients and patients may experience throughout their life; 3) Explain exercise modifications and varied benefits during specific periods in a woman's life (adolescents, pregnancy, postpartum, menopause)

EXCM 201 Physiology of Exercise (4 Credit Hours)
Pre-requisites: EXCM 101 and Anatomy & Physiology (GNUR 155/155L and GNUR 156/156L)
The physiological functions of the body and the effect of exercise on these functions.

EXCM 210 Program Design in Exercise (2 Credit Hours)
Pre-requisites: EXCM 201
This course focuses on the design, implementation and evaluation of exercise programs through case-based application and classroom activities. Health-related components of fitness and fitness assessments are reviewed. Individual and group exercise program designs within community-based settings for individuals through the life cycle are discussed. Evidence-based content is identified to critically analyze and develop conditioning programs and techniques for a broad range of sports and activities. Important elements of program design are used to emphasize desired client program outcomes.
Outcomes:
At the successful completion of the course, the student will be able to: 1) Lead designed group exercises and activities which consider individual needs and differences; 2) Apply training principles and program variables to increase strength, endurance, power, or hypertrophy for the identified client or population; 3) Evaluate the designed exercise prescribed over time for an individual and/ special population; 4) Integrate cognate materials necessary to support the full development of physical performance including nutrition, environment, mobility, clothing and equipment; 5) Design individualized exercise programs for individuals and special groups; 6) Adjust exercise programs based on individual performance and safety considerations

EXCM 301 Advanced Physiology of Exercise (3 Credit Hours)
Pre-requisites: EXCM 201 and Anatomy & Physiology (GNUR 155/155L and GNUR 156/156L)
An advanced course in exercise physiology covering exercise metabolism, temperature regulation and fluid balance.

EXCM 342 Physical Growth, Development and Nutrition (3 Credit Hours)
Pre-requisites: EXCM 101
A survey of the various components involved in personal health and wellness, such as personal fitness, sexuality, mental health, and environmental health as related to the stages of life development.

EXCM 345 Therapeutic Exercise and Rehabilitation (3 Credit Hours)
Pre-requisites: (EXCM 101 & 201) and (BIOL 243 or GNUR 156 &156L)
Explanation and demonstration of the use of therapeutic modalities in the healing process. This will include discussion of the use of therapeutic modalities to enhance the rehabilitation process after athletic injury.

EXCM 350 Sports Nutrition (3 Credit Hours)
Pre-requisites: EXCM 201, CHEM 102 & CHEM 112
This course introduces the essentials of human nutrition for health and emphasizes the roles of key nutrients for athletic performance. This foundational material will be applied to athletic performance including adaptation and recommendations for training and competition. Nutrient recommendations will be reviewed for specific types of sports, exercise and other athletic concerns. The metabolic basis for sports nutrition recommendations is examined.

EXCM 352 Musculoskeletal Assessment and Strength Training (4 Credit Hours)
Pre-requisites: EXCM 201 and Anatomy & Physiology (GNUR 155/155L and GNUR 156/156L)
This course will present the general principal and foundational skills for each component of the injury examination. These general principles will be applied to the recognition and examination of injuries/conditions specific to each body region. Address general medical conditions will likely encounter with patients.

EXCM 364 Intro to Clinical Exercise Testing and Prescription (3 Credit Hours)
Pre-requisites: EXCM 201 and Anatomy & Physiology (GNUR 155/155L and GNUR 156/156L)
This class summarizes recommended procedures, including EKG and other stress testing modalities, for exercise testing and exercise prescription in healthy and diseased individuals.

EXCM 368 Advanced Clinical Testing and Prescriptions (3 Credit Hours)
Pre-requisites: EXCM 201 and Anatomy & Physiology (GNUR 155/155L and GNUR 156/156L)
This course focuses on physiological implications of metabolic conditions such as diabetes, cardiac and pulmonary disease on exercise. The course includes modifications to exercise testing and in-depth preparation for exercise prescription based on diseases and special conditions. The course reviews contraindications and considerations for exercise, EKG interpretation and implications of physiological responses to exercise. Behavioral strategies to implement in client exercise planning and education are addressed. Exercise prescription is discussed as part of the ongoing evaluation of client performance.
Outcomes:
At the successful completion of the course, the student will be able to: 1) Create patient/client focused exercise programs, with modifications and progressive programming based on physiologic alterations; 2) Understand the effect of exercise on the physiological systems of the body and disease states; 3) Analyze exercise testing data from healthy individuals and individuals with physiological alterations; 4) Evaluate EKG responses to exercise; 5) Implement testing protocols and modifications for individuals with physiological alterations; 6) Understand acute responses and chronic adaptations to exercise and the impact on individuals with physiological adaptations

EXCM 375 Special Populations in Exercise Science (2 Credit Hours)
Pre-requisites: EXCM 201 and EXCM 364
This course provides practical information on exercise for persons with a wide range of health conditions, diseases and disabilities. Best-practice exercise prescription protocols for individuals across the life span will be addressed. An overview of unique physiology, effects of the condition on the exercise response, and effects of exercise training on the condition will be discussed. Recommendations for exercise testing and programming are presented for select populations.
Outcomes:
At the successful completion of the course, the student will be able to: 1) Understand the relations between health conditions, disease, disability and physical activity; 2) Establish physical activity outcomes in individuals with health conditions, diseases or disabilities; 3) Modify existing physical activity prescriptions to match individual capabilities and needs; 4) Demonstrate an understanding of the risks and benefits associated with exercise participation: 5) Analyze the results of exercise tests and fitness evaluations in various populations; 6) Modify equipment arrangement and facility resources to accommodate use by individuals with special needs

EXCM 382 Clinical Research: Methods, Design and Ethics w/Lab (3 Credit Hours)
Pre-requisites: EXCM 201 and STAT 103
Study of current literature with implications for exercise and sport science specializations; use of library resources and retrieval systems; evaluation of professional competencies.

EXCM 385 Kinesiology and Sports Biomechanics w/Lab (4 Credit Hours)
Pre-requisites: PHYS 112 and Anatomy & Physiology (GNUR 155/155L and GNUR 156/156L)
Analysis of human movement with emphasis on the biomechanics of exercise and sport movement patterns.

EXCM 387 Movement Anatomy in Exercise (3 Credit Hours)
Pre-requisites: EXCM 385
Concepts and principles from anatomy and biomechanics are integrated into the analysis of human movement. This course focuses on application of the principles of human movement for normal function and application to different levels of physical performance through case based applications and classroom activities. Content includes anatomical lever systems, moment arms, stability and laws of motion. Systematic analysis of human movement in clinical conditions, performance, and wellness settings will be reviewed. Development of individual plans to improve movement is woven throughout the course.
Outcomes:
At the successful completion of the course, the student will be able to: 1) Explain the relationship between biomechanics, anatomy and human movement; 2) Understand upper and lower limb musculoskeletal anatomy, physiology, and function; 3) Apply functional anatomy in the analysis of normal physical performance; 4) Develop individualized plans to correct movement based on the assessment of the individual; 5) Evaluate movement techniques in various populations; 6) Evaluate client outcomes as a result of prescribed exercise modifications to improve movement patterns

EXCM 390 Psychology of Health and Exercise (3 Credit Hours)
Pre-requisites: EXCM 201 and PSYC 273
This course will present current research with focus on the leading theories and applications in health and exercise psychology. The implications and applications of research and practice for health behavior change by health and fitness professionals in diverse populations at the societal and individual levels will also be reviewed.

EXCM 395 Clinical Internship and Patient Management (6 Credit Hours)
Pre-requisites: EXCM 201 and Anatomy & Physiology (GNUR 155/155L and GNUR 156/156L), 4 of 8 upper division EXCM courses
Practical experience working with exercise physiologists, physical therapists, occupational therapists, rehabilitation therapists, and others, in cardiac care and orthopedic rehabilitation.
This course satisfies the Engaged Learning requirement.

EXCM 399 Special Topics in Physical Therapy (2 Credit Hours)
This course covers the general areas of physical therapy, as well as a relevant topic in physical therapy. This course will be offered as an elective and open to all students. Recommend evidence-based practices using cases studies (ie exercise prescription, patient education, society level affects).
Outcomes:
Examine various research and writing to gain understanding and knowledge in the areas of physical therapy; Evaluate scientific literature; Explore the impact a physical therapist has on their patient through movement improvement, pain management and prevention

Food and Nutrition (FONU)

FONU 110 Culinary Explorations (3 Credit Hours)
Translate food and nutrition recommendations into delicious and realistic, food-based meals using basic culinary techniques. Examine the major food groups including both common and uncommon foods in each category. Explore ways to incorporate a variety of foods into meals considering budget, health, availability, personal values and preference.
Outcomes:
Upon successful completion of this course, the student will be able to: 1) describe foods in major food category; 2) explain food based recommendations to promote nutritional adequacy and health; 3) demonstrate culinary competence by recipe preparation; 4) critique a unique recipe that they developed; 5) plan menus for a week that meet specified criteria

FONU 215 Fundamentals of Nutrition (3 Credit Hours)
For non-majors. Nutrients essential to a healthy diet, consideration of nutrition issues of public concern.

FONU 225 Food as Culture (3 Credit Hours)
Explore culture through foods and food ways across the globe. This course examines food patterns of each continent using a multidimensional approach. Ethnic, geographical, religious, historical, geographical, and societal influences on food patterns of various regions and people will be presented through didactic and experiential activities. Information will be presented with the perspective of enhancing engagement and build positive relationships with future clients and communities served.
Outcomes:
Upon successful completion of this course, the student will be able to: 1) identify common food sources of nutrients in the eating patterns of selected cultures; 2) describe foods, dishes and preparation methods common to selected nations and cultures; 3) explain traditional food use in selected cultures including infant feeding and illness; 4) compare and contrast typical American to specialized ethnic retail food markets; 5) discuss experiences with ethnic food

FONU 320 Nutrition Through the Life Cycle (3 Credit Hours)
Pre-requisites: FONU 215 Fundamentals of Nutrition
Learn about nutrient needs through the lifecycle from birth through aging to support optimal health and human potential. Key nutrition concepts to support normal growth and development, health maintenance, and disease prevention will be included. Nutrient needs will be translated to food-based solutions as an integral component of health habits. Community resources will be examined.
Outcomes:
Upon successful completion of this course, the student will be able to: 1) describe the needs and roles of key nutrients at various stages of the life cycle; 2) translate nutrient needs into food-based solutions appropriate for life cycle stage; 3) explain common issues related to nutrition and food patterns specific to life cycle stage; 4) recommend community resources appropriate to life cycle stage

Health Systems Management (HSM)

HSM 110 Healthcare in America (3 Credit Hours)
This course introduces the U.S. healthcare system. Emphasis is given to the government's dominant role in health care delivery, payment and regulation, as well as the differences between public health and health care systems. The social justice implications of cost, quality and access are highlighted.
Interdisciplinary Option: Bioethics
This course satisfies the Engaged Learning requirement.
Outcomes:
At the successful completion of the course, the student will be able to: 1) Describe the evolution of health care in America and the influence of history on the current health care system; 2) Demonstrate knowledge of the structure and functions of the U.S. health care system; 3) Identify at an introductory level the political, economic and social factors that shape the US health care system; 4) Describe the inter-relationships among healthcare stakeholders including providers, suppliers, payers' workforce, and consumers; 5) Recognize the issues of health care disparities, access to care and social justice present in the current US health care system; 6) Identify criteria for evaluating the evolving and changing US health care system

HSM 120 Essentials of Medical Terminology for Health Professionals (1 Credit Hour)
This course introduces students to the language of the health professions. Word structure, prefixes and suffixes, and rules of building and analyzing medical words are introduced. Students explore terms relating to anatomy, pathology, diagnostic and clinical procedures, and select medical specialties. Emphasis is given to defining, interpreting and pronouncing medical terminology.
Outcomes:
Upon successful completion of this course, the student will be able to: 1) Identify structure of medical vocabulary including prefixes, suffixes and root words; 2) Apply the rules of building medical terms; 3) Recognize and define medical terms relating to anatomical structure and function, pathology, diagnostic and clinical procedures, and medical specialties; and 4) Use medical terminology accurately in context

HSM 200 Careers in Healthcare Administration (2 Credit Hours)
This course provides an introduction to healthcare administration careers. Students explore the various sectors and supporting industries making up the larger healthcare enterprise. Administrative career options and industry growth patterns are presented. Students are introduced to working professionals and professional organizations representing various sectors of the healthcare industry. Class discussions integrate healthcare industry vocabulary and jargon.
Outcomes:
Upon successful completion of this course, the student will be able to: 1) Distinguish healthcare sectors and supporting industries; 2) Describe a variety of roles and functions within healthcare administration; 3) Identify various entry points into a healthcare administration career; and 4) Explore areas of interest for career consideration

HSM 210 Introduction to Global Healthcare Delivery (3 Credit Hours)
Social determinants of health, comparative health systems, global health initiatives and their effects on health outcomes are addressed. Students examine current issues impacting global population health and improvements in care locally and worldwide. Roles of governmental, institutional and corporate organizations in financing, governing and delivering worldwide healthcare are studied.
Interdisciplinary Option: Bioethics, Global Studies, Bioethics, Global Studies
This course satisfies the Engaged Learning requirement.
Course equivalencies: X-HSM210/PUBH314/ENVS385
Outcomes:
At the successful completion of the course, the student will be able to: 1) Identify major global health care strengths and challenges; 2) Develop a broad worldview of communities and countries with different lifestyles, economics, and geopolitical systems and how these differences impact health care; 3) Explain the characteristics and roles of governments, non-governmental organizations (NGO's) and public/private partnerships as relates to health and health care around the world; 4) Analyze the impact of globalization on health and healthcare systems; 5) Assess the ethical and social justice issues associated with health inequities around the world; 6) Address a global health care issue, analyze the issue using relevant theoretical concepts and recommend a course of action

HSM 220 Continuum of Healthcare Services (3 Credit Hours)
This course examines healthcare delivery models designed to promote healthy aging, emphasizing social determinants, health promotion and care delivery for elders and people with chronic health conditions. Post-acute and long-term care services are explained, including community and facility-based options. The course highlights service delivery management, financing, quality and innovation in the context of social justice.
Interdisciplinary Option: Bioethics
This course satisfies the Engaged Learning requirement.
Outcomes:
1) Demonstrate an understanding of aging; 2) Analyze the challenges and opportunities faced by the US healthcare system as a result of changing demographics; 3) Apply theories of aging and disability to the management of long-term care services; 4) Compare healthcare delivery models used in post-acute and long-term care services; 5) Describe financing models used in long-term care services; 6) Describe quality management concepts and trends associated with long-term care services; and 7) Articulate the social justice and ethical issues associated with healthy aging and the care of people living in diverse long-term care environments

HSM 230 Fundamentals of Health Equity (3 Credit Hours)
Pre- or co-requisites: HSM 110
This course introduces the concept of health equity and provides an overview of health disparities in the U.S. Students examine the root causes of and explore populations most affected by health inequities. The course explores system approaches and strategies aimed at improving health equity.
Interdisciplinary Option: Bioethics
Outcomes:
1) Analyze pathways of causality leading to health inequities; 2) Differentiate between disease causation and disparity causation; 3) Compare and contrast strategies to improve health equity in the US; 4) Identify roles and responsibilities of healthcare professionals as agents of change; 5) Explain the relationship between community, social justice and health status; 6) Describe philosophical principles that underlie social justice priorities; and 7) Generate ideas for programs and policies that promote health equity

HSM 240 Healthcare Workforce Environment (3 Credit Hours)
Pre- or co-requisites: HSM 110
This course explores workforce environment issues associated with employment within health care organizations. Topics include infection prevention and control, workforce safety, noise, supply chain management, OSHA and disaster planning to name a few. Quality and patient safety are emphasized from the standpoint of organizational planning, continuous quality improvement, and resource allocation.
Outcomes:
1) Define the role of healthcare management in providing a safe environment for patients, staff and visitors; 2) Define the role of healthcare administrators in pandemic preparedness and response; 3) Describe how quality and patient safety initiatives impact the workforce environment; 4) Describe how physical plant assets and deficits impact the workforce environment; 5) Describe how a diverse workforce and patient population impact the workforce environment; 6) Explain the influence of healthcare regulatory organizations on management decision-making; and 7) Understand large-scale environmental planning and practices, such as hazardous waste disposal and disaster preparedness

HSM 280 Healthcare Management Ethics (3 Credit Hours)
Pre-requisites: PHIL 130 or equivalent
This course explores ethics in the management of healthcare organizations. Course content is grounded in the theoretical constructs of philosophy, moral reasoning, and justice and their influence on the healthcare environment. Students analyze different types of reasoning in the decision-making process and use ethical theories to address practical issues in healthcare management.
Outcomes:
Examine ethical issues that impact the management of healthcare organizations; articulate moral views on issues relevant to the management of healthcare organizations, Demonstrate practical application of philosophy and specifically moral reasoning to ethical conflicts in healthcare management; Apply critical thinking to challenging moral questions in the management of healthcare resources; Evaluate decision options on moral questions in healthcare management while respecting differing opinions and rationally justifying decisions

HSM 310 Healthcare Project Management (3 Credit Hours)
Pre-requisites: HSM 110
This course provides an introduction to elements of project management in a healthcare setting. Emphasizes processes and tools that are the framework of project management. Covers elements of teamwork and the leadership and managerial skills required as part of the process. Students learn how projects progress and are executed. Corequisite or
Outcomes:
Upon successful completion of this course, the student will be able to: 1) Perform the developmental steps necessary to execute a project; 2) Utilize tools critical to project management; 3) Produce project deliverables within a team environment; 4) Differentiate between a functional manager and a project manager; 5) Apply problem-solving techniques to the project management process; 6) Explore concept of risk control in project management

HSM 315 Healthcare Quality & Performance Improvement (3 Credit Hours)
Pre-requisites: HSM 240 and HSM 368
This course examines the role of management in measuring performance and achieving quality in healthcare organizations. Emphasis is on the historical evolution, current concepts and future trends associated with measuring and evaluating health care quality. Students explore fundamental concepts of quality improvement design, planning, and methodology.
Outcomes:
1) Articulate the historical evolution and current forces driving changes in healthcare quality; 2) Describe major quality improvement models that provide a framework for change; 3) Differentiate the use of structural, process and outcome indicators for measuring quality; 4) Apply quantitative and qualitative performance measurement approaches to healthcare processes; 5) Apply quality improvement tools and techniques to healthcare processes; 6) Explain operational and clinical quality improvement data; and 7) Apply a systematic quality improvement approach to healthcare processes

HSM 320 Healthcare Program Planning and Evaluation (3 Credit Hours)
Pre-requisites: (ISSCM 241 or PSYC 304) and HSM 358
This course introduces students to the process of health program planning, including development of program objectives, methods, needs assessment, budget, timelines, contracting and marketing. Health program evaluation will emphasize design of a program evaluation including measurement and analysis of program outcomes, costs, and impact on community health concerns. Psychometric, economic, political and ethical issues related to health program planning and evaluation are explored.
Outcomes:
1) Understand concepts and principles of program planning and evaluation in healthcare; 2) Identify models for the planning and evaluation of health programs; 3) Understand ethical, political, economic and psychometric issues related to health program planning and evaluation; 4) Identify data sources for planning and evaluation of health programs; 5) Develop a plan for evaluation of a local healthcare program; 6) Recognize the importance of needs assessment to program planning; 7) Describe selected methods for evaluating need, process, impact (outcome), and efficiency; 8) Identify the components of an evaluation report; 9) Evaluate a local community's healthcare program; and 10) Explain the role and responsibilities of the healthcare manager in healthcare program planning and evaluation

HSM 325 Healthcare Fiscal Management (3 Credit Hours)
Pre-requisites: HSM 110 and FINC 301
This course introduces fundamental concepts related to financial management of healthcare organizations. Students explore financial-decision tools and the role of financial decision-making in managing delivery of care. How the U.S. health system impacts an organization's financial health and management is considered. Major concepts include cost-accounting, budgeting, cost/benefit analysis, and reimbursement mechanisms.
Outcomes:
At the successful completion of the course, students will be able to: 1) Describe the impact of political, social, and economic factors on the cost of patient care delivery; 2) Analyze the impact of US healthcare payment system on the organization and delivery of healthcare; 3) Evaluate financial health of a healthcare organization; 4) Apply principles of accounting to organizational decision-making; 5) Explain revenue cycle and budgeting in a healthcare organization; 6) Explain the legal, ethical, and social justice issues surrounding fiscal management in the health care setting; 7) Describe non-profit's role in providing uncompensated care and impact on financial decision-making

HSM 330 Healthcare Legal & Regulatory Environment (3 Credit Hours)
Pre-requisites: HSM 240 and (PHIL 284 or HSM 280)
This course introduces students to the legal and regulatory environment of healthcare. The course emphasizes common law, federal and state laws, and regulations that impact and affect healthcare providers and stakeholders. Major concepts include liability, malpractice, contracts, torts, anti-trust, taxation, insurance, fraud and abuse.
Outcomes:
1) Identify components of the US legal system and their relationship to the healthcare setting; 2) Differentiate the major governmental factors that regulate healthcare corporate structure, finances and practices; 3) Identify how fraud and abuse frameworks and laws impact healthcare institutions and group practices; 4) Examine the impact of malpractice and liability on the delivery, financing and administration of healthcare; 5) Apply risk identification and risk management principles to the healthcare environment; and 6) Evaluate the complexity of the legal environment and its impact on healthcare delivery

HSM 338 Healthcare Strategy and Marketing (3 Credit Hours)
Pre-requisites: HSM 110, HSM 230, and HSM 310
This course presents an overview of healthcare strategy and marketing. Students examine the unique features of healthcare as a product. Emphasis is given to strategic processes, including competitive analysis, strategic decision-making, and marketing fundamentals. Students are provided a foundation of marketing principles and tools in the context of strategic management.
Outcomes:
1) Discuss the principles of strategic management in the context of a healthcare organization; 2) Apply principles of marketing to healthcare organizations; 3) Utilize basic market research techniques, approaches, and tools; 4) Identify ethical and legal issues related to strategy and marketing in healthcare organizations; 5) Construct a high level strategic marketing campaign for a healthcare product, program or service; 6) Demonstrate effective teamwork skills in the development and communication of a multi-media based strategic marketing plan; and 7) Demonstrate skill and comfort in presenting strategy and marketing materials to peers and clients

HSM 340 Health Care Policy (3 Credit Hours)
Pre-requisites: HSM 110 and HSM 230; HSM 230 may also be taken as a corequisite
This course explores government's role in organizing, financing and delivering healthcare. With an emphasis on policy formation, advocacy and change, students apply policy analysis tools to contemporary public health and healthcare problems. Using examples such as Medicare, Medicaid or mental health policy, the course highlights the role of leadership as a key component of successful policymaking.
Outcomes:
1) Explain how federal, state, and local health policy is formulated and implemented; 2) Assess the balance between public good and individual rights in the policy process; 3) Analyze the impact of specific healthcare policy on health outcomes and the delivery of healthcare; 4) Identify future health policy directions that would improve the health status of Americans; 5) Explore resources to enhance understanding of leadership in health policy; and 6) Explain the role of leadership in advocating for healthcare policy change

HSM 345 Healthcare Data Analytics (3 Credit Hours)
Pre-requisites: (ISSCM 241 or PSYC 304) and ACCT 201
This course explores the use of clinical and operational data to improve outcomes and achieve greater efficiencies in healthcare systems. The role of data analytics in supporting informed decision-making is emphasized. Topics include data manipulation, analysis, and visualization. Practical business intelligence tools, such as Microsoft Excel® or Tableau®, are used.
Outcomes:
1) Discuss the role of data analytics in clinical and operational improvement efforts; 2) Demonstrate basic skills in the use of assigned business intelligence tools or applications; 3) Apply analytic techniques to health and healthcare data; 4) Identify meaningful patterns and trends in data sets to inform business decisions; 5) Understand and interpret business needs and extract appropriate data necessary to solve problems

HSM 350 Healthcare Administration Capstone (3 Credit Hours)
Pre-requisites: HSM 200, 310, 315, 330, 338, 345, 358, 368, 386 and FINC 301
The capstone course is designed to demonstrate accumulated knowledge in healthcare administration. Skills and theories gained throughout the curriculum are integrated into an original team project. Students apply central concepts such as operations, strategy, quality, finance and project management to a specialized area of healthcare in a manner congruent with the Jesuit value of social justice.
Outcomes:
1) Apply healthcare administration knowledge, concepts and skills to an identified healthcare delivery project; 2) Synthesize relevant knowledge from pertinent data sources to meet complex project goals; 3) Synthesize mentor feedback into a reorganized project plan; 4) Demonstrate problem-solving skills in the context of a healthcare delivery project; 5) Manage a large-scale project; and 6) Demonstrate effective teamwork in working toward a common project goal

HSM 355 Special Topics (1-3 Credit Hours)
Pre-requisites: Variable, used as needed,
Variable hours and topics.

HSM 358 Health Services Research (3 Credit Hours)
Pre-requisites: ISSCM 241 or PSYC 304
This course introduces principles of scientific inquiry and the research process, including study design, data analysis and ethics. Students apply epidemiological methods to managerial problems, critically evaluate quantitative and qualitative evidence, and prepare a professional research presentation. The course provides a foundation for application of evidence-based practices in healthcare services.
Outcomes:
1) Outline research processes; 2) Describe epidemiological concepts relevant to healthcare management; 3) Discuss regulatory and policy factors that impact health-related research; 4) Clarify the importance of evidence-based practice to healthcare delivery and administration; 5) Articulate the ethical aspects of human subjects' research; 6) Evaluate health-related research articles; 7) Use web-based resources to examine evidence of a health-related research problem; and 8) Communicate research results to a professional audience

HSM 360 Healthcare Administration Field Internship (6 Credit Hours)
Pre-requisites: HSM 200, 310, 315, 330, 338, 345, 358, 368, 386 and FINC 301
This professional experience provides exposure to and experience in the healthcare environment. Under the supervision of a field preceptor and faculty advisor, students work with a healthcare organization integrating content gained through prior HCA coursework. Students develop and refine skills and practical knowledge by conducting a goal-based project(s) of value to the internship site. Project objectives are developed in concert between student, faculty, and preceptor. The experience involves three on-campus seminars, preparation of seminar deliverables plus a minimum of 196 on-site hours fulfilled on a weekly basis as mutually agreed between student and preceptor. The field experience as facilitated by Loyola University Chicago and the HCA Program concludes at the close of the semester and may or may not be compensated.
This course satisfies the Engaged Learning requirement.
Outcomes:
1) Apply healthcare administration theoretical knowledge, concepts, and skills to the practice setting; 2) Solve project challenges through the use of analytical and reflective tools; 3) Function as a collaborative team member; 4) Demonstrate critical thinking and refine communication skills; 5) Apply strategies of ethical reasoning to arrive at principled decisions in the Jesuit tradition; 6) Integrate supervisory, and faculty feedback to improve personal skills, knowledge, and effectiveness; and 7) Demonstrate the ability to work independently, thoughtfully, and resourcefully

HSM 368 Management of Healthcare Organizations (3 Credit Hours)
Pre-requisites: HSM 110
This course familiarizes students with the profession of healthcare administration by providing an overview to leadership, management, organizational development and change. Reflecting the uniqueness of the healthcare sector, students are introduced to key principles, practices and theories that support the socially just and ethical management of healthcare organizations.
Outcomes:
1) Differentiate between the roles of healthcare manager and healthcare leader; 2) Describe how management principles are applied in healthcare organizations; 3) Articulate organizational development challenges faced by healthcare entities; 4) Formulate strategies to manage a change intervention; and 5) Explain ethical and social justice responsibilities in healthcare management

HSM 386 Health Information Systems Management (3 Credit Hours)
Pre- or co-requisites: HSM 110
This course provides an overview of the use of information technology in the healthcare industry. Students are introduced to information systems currently used to manage and operate health care organizations, the applications designed to support consumer use, and the life cycle of an information system. The impact of information systems on an organization's overall financial and strategic planning, daily operations and quality improvement processes will be emphasized as will associated legal, ethical and security issues.
Outcomes:
1) Differentiate the major types, purposes and attributes of health information systems; 2) Assess health information needs of an organization; 3) Explain business value of health information systems; 4) Discuss how health information systems are used to manage organizational cost, quality and access; 5) Assess risk of privacy and security violations in health information systems; 6) Explain the life cycle of an information system and its management; and 7) Identify emerging trends in health information systems

Public Health (PUBH)

PUBH 300 Introduction to Public Health (3 Credit Hours)
Public health is the science of preventing disease and protecting and promoting the health of populations and communities. Through interactive exercises and application of concepts, this course considers its history; ethical principles; scientific foundation and tools; biomedical bases; socioeconomic and behavioral factors; environmental issues; and relationship to medical care.
Course equivalencies: X -PUBH 300/ ENVS 300
Outcomes:
Describe the history, core concepts, functions, and methods of public health; Define health disparities and explain how they are produced; Synthesize public health information and communicate it effectively

PUBH 301 Health and the Environment (3 Credit Hours)
This course is designed as an introduction to the field of environmental health, including regulations, research, disease prevention, and advocacy.
Course equivalencies: X-ENVS301/PUBH301/MBPH401
Outcomes:
Students will be able to outline approaches for assessing and controlling environmental hazards that affect community health and discuss major local, national, and global health challenges

PUBH 303 Introduction to Epidemiology (3 Credit Hours)
Epidemiology is the study of the distribution and determinants of disease in populations and remains the basic science of public health. The objective of this course is to familiarize students with the range of tools used to conduct epidemiologic analysis, including study design and measures of association.
Course equivalencies: X- PUBH 303/ENVS 303/MPBH 403
Outcomes:
Apply epidemiological methods to public health problems; select appropriate quantitative data collection, study designs, and analytical methods; apply adjustment techniques; and calculate measures of association; and interpret and communicate results

PUBH 304 Health Behavior and Health Promotion (3 Credit Hours)
This introductory course is designed to provide students with a foundation in behavioral theory as applied to public health practice, including health education and health promotion. Health education strategies will be examined from the perspective of health literacy, cultural competency, and adult learning behaviors among other dynamics.
Outcomes:
Describe a range of health behavior theories and frameworks commonly incorporated into public health interventions on the individual, interpersonal, and community level

PUBH 305 Public Health Communication (3 Credit Hours)
This course will teach students effective use of health literacy and health communication tools, including the use of mass media, online social media, and health professions' communication with patients in clinical settings.
Outcomes:
Students will be able to develop communication tools such as infographics and brief web-based videos and evaluate public health information

PUBH 306 Critical Thinking in Public Health (3 Credit Hours)
This course is designed to prepare students to make reasoned, intelligent decisions about public health matters by learning about and practicing how to think, read, write, and speak critically.
Outcomes:
Be able to evaluate the credibility of sources of information, scrutinize arguments, recognize biases in oneself and in others, and take a stand on public health issues and support it

PUBH 307 Foundations of Public Health Policy (3 Credit Hours)
Provides students with theoretical frameworks to understand public health policy issues, introduces public policy making processes, and enables students to analyze position papers on policy topics. Drawing from law, economics, political science, ethics and epidemiology, the course provides students with the knowledge and skills to understand policy-making processes.
Course equivalencies: PUBH 307/MPBH 407
Outcomes:
Explain how federal, state, and local health policy is formulated, implemented and evaluated; Assess the balance between the public good and individual rights in the policy process in public health

PUBH 310 Public Health Internship (3 Credit Hours)
This practical internship course will integrate theory, where students will unpack the complexities of Public Health and gain an understanding of the roles and responsibilities of professionals. Careers in Public Health are multidimensional, students will integrate real world experience reflecting on experiences of leadership, health equity, community engagement, and professional development.
This course satisfies the Engaged Learning requirement.
Outcomes:
Integrate academic internship experience with course curriculum academic content through critical reflection of leadership theory and development; assess leadership identity, leadership behavior, and civic role in a public health framework

PUBH 314 Global Public Health (3 Credit Hours)
This course is an introduction to global public health and focuses on health disparities on the international level. The course addresses the determinants, consequences and trends of infectious and non-communicable disease, maternal and child health, and refugee and migrant health in low-and-middle-income countries.
Course equivalencies: X-HSM210/PUBH314/ENVS385
Outcomes:
Students will be able to discuss major current global public health issues, identify effective and ineffective aspects of international public health programs, and create context-specific health promotion materials

PUBH 399 Public Health Capstone Experience (3 Credit Hours)
This course is a cumulative, integrative and scholarly or applied experience or inquiry project. It may include internships, service-learning projects, senior seminars, portfolio projects, or research paper. The project provides the opportunity for students to demonstrate proficiency in effective communication skills through a written report and oral presentation.
This course satisfies the Engaged Learning requirement.
Outcomes:
Demonstrate in written report and oral presentation the knowledge and skills acquired during the undergraduate program through selected projects which translate gained information into public health practice, including research

Exercise Science (BS)

Pursue a career in fitness, exercise, and physical performance and work with athletes, individuals, or people with health challenges

Whether it is fitness training at a gym or exercise physiology in a health care setting, an exercise science graduate helps people improve their health and wellness with physical activity. Through coursework and hands-on experience, students in the Loyola Exercise Science program will develop skills to evaluate health behaviors and risk factors, conduct fitness assessments, write exercise prescriptions, and motivate individuals to practice positive health behaviors.

Exercise science majors at Loyola can enroll in the five-year combined bachelor's/master's degree program and earn both degrees in only five years.

Curriculum

Learn more about the Exercise Science laboratories (https://www.luc.edu/parkinson/academics/departments/appliedhealthsciences/exercisescience/exercisesciencelaboratories/) that offer the latest health and exercise science technology to students and faculty.

Code	Title	Hours
Exercise Science Prerequisites		
BIOL 101 & BIOL 111	General Biology I and General Biology I Lab	
BIOL 102 & BIOL 112	General Biology II and General Biology II Lab	
CHEM 160 & CHEM 161	Chemical Structure and Properties and Chemical Structure and Properties Laboratory	
CHEM 180 & CHEM 181	Chemical Reactivity I and Chemical Reactivity I Lab	
PSYC 101	General Psychology	
STAT 103	Fundamentals of Statistics	
PSYC 273	Developmental Psychology	
GNUR 155 & 155L	Human Anatomy and Human Anatomy Lab	
GNUR 156 & 156L	Human Physiology and Human Physiology Lab	
PHYS 111 & 111L	College Physics I Lec / Dis and College Physics Laboratory I	
PHYS 112 & 112L	College Physics II Lec/Disc and College Physics Lab II	
EXCM 101	Introduction to Exercise Physiology	
EXCM 201	Physiology of Exercise	
Exercise Science Major Course		
EXCM 210	Program Design in Exercise	2
EXCM 301	Advanced Physiology of Exercise	3
EXCM 342	Physical Growth, Development and Nutrition	3
EXCM 345	Therapeutic Exercise and Rehabilitation	3
EXCM 364	Intro to Clinical Exercise Testing and Prescription	3
EXCM 368	Advanced Clinical Testing and Prescriptions	3
EXCM 375	Special Populations in Exercise Science	2
EXCM 382	Clinical Research: Methods, Design and Ethics w/ Lab	3
EXCM 385	Kinesiology and Sports Biomechanics w/Lab	4
EXCM 387	Movement Anatomy in Exercise	3
EXCM 390	Psychology of Health and Exercise	3
EXCM 395	Clinical Internship and Patient Management	6
Total Hours		**38**

Suggested Sequence of Courses

EXCM students must complete this list of core areas:

- **Artistic Knowledge** (1 course/3 credit hours)
- **Historical Knowledge** (2 courses/6 credit hours)
- **Literary Knowledge** (2 courses/6 credit hours)
- **Societal & Cultural Knowledge** (1 course/3 credit hours)
- **Theological Knowledge** (2 courses/6 credit hours)
- **Philosophical Knowledge** (2 courses/6 credit hours)
- **Ethics** (1 course/3 credit hours)

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

Course	Title	Hours
First Year		
Fall		
BIOL 101 & BIOL 111	General Biology I and General Biology I Lab	4
GNUR 155 & 155L	Human Anatomy and Human Anatomy Lab	4
CORE		3
CORE		3
UNIV 101	First Year Seminar	1

EXCM 395	Clinical Internship and Patient Management [2]	6
EXCM 387	Movement Anatomy in Exercise [2]	3
EXCM 390	Psychology of Health and Exercise [2]	3
	Hours	**12**
	Total Hours	**123**

1 Prerequisite: MATH 117 Precalculus I or equivalent. Co-requisite: CHEM 161 Chemical Structure and Properties Laboratory and MATH 118 Precalculus II.

2 Prerequisite: GNUR 156 Human Physiology/GNUR 156L Human Physiology Lab

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

- Demonstrate proficiency in exercise and fitness screening, health appraisal and risk stratification, fitness assessment and evaluation, and exercise techniques.
- Communicate effectively and collaboratively with clients and the interprofessional team in exercise and fitness settings.
- Integrate values, ethics, and client preferences into exercise science practice
- Participate in activities to promote lifelong learning and professional development in exercise science.
- Demonstrate proficiency in critical thinking and evidence-based decision making in Exercise science.
- Synthesize knowledge from the arts, sciences and exercise sciences as the basis for assessment of physical capabilities and exercise prescriptions.

Healthcare Administration (BS)

Be a leader in the business of health care.

Are you interested in health care with a role in operations and business? With a healthcare administration degree, you can work in the management and organization of healthcare delivery systems and health services.

Loyola's Bachelor of Science in Healthcare Administration (BSHCA) teaches the latest health industry knowledge, such as healthcare finance, quality management, and health information systems, with a solid grounding in ethics and liberal arts. Graduates are prepared for careers

in the growing field of healthcare management, and are employed in hospitals systems, post-acute care agencies, insurance companies, healthcare consulting firms, and more.

Curriculum

The BS in Healthcare Administration differs from a traditional business degree in that it focuses on understanding how the health care delivery system functions and how to best manage those functions. Students must complete 121 credit hours to graduate.

The Healthcare Administration program is guided by the External Advisory Board (https://www.luc.edu/parkinson/academics/departments/healthcareadministration/bshealthcareadministration/externaladvisoryboard/) (EAB) and is fully certified by the Association of University Programs in Health Administration (https://www.aupha.org/certification/certification/) (AUPHA).

Courses

Coursework includes the University Core, as well as the Healthcare Administration core courses, electives, business courses in the Quinlan School of Business, field internship, and a culminating capstone course. Students also have room in their program of study to add a minor, in complementary areas such as global and international studies, marketing, or bioethics. **Download HCA Curriculum 2022-2023 (https://www.luc.edu/media/lucedu/parkinson/pdfs/HCA%20Curriculum%202022-2023%20Core%20Updated.pdf)**.

- HSM 200 Careers in Healthcare Administration
- HSM 120 Essentials of Medical Terminology for Health Professionals
- HSM 110 Healthcare in America
- PSYC 304 Statistics
- HSM 345 Healthcare Data Analytics
- PHIL 284 Health Care Ethics
- ACCT 201 Introductory Accounting I
- ECON 201 Principles of Microeconomics
- FINC 301 Introductory Business Finance
- HSM 310 Healthcare Project Management
- Health Care Services for Healthy Aging
- HSM 230 Fundamentals of Health Equity
- HSM 315 Healthcare Quality & Performance Improvement
- HSM 325 Healthcare Fiscal Management
- HSM 338 Healthcare Strategy and Marketing
- HSM 340 Health Care Policy
- HSM 240 Healthcare Workforce Environment
- Health Care Management Research
- HSM 386 Health Information Systems Management
- HSM 330 Healthcare Legal & Regulatory Environment
- HSM 360 Healthcare Administration Field Internship

Internship

During their senior year, students complete a field-based internship under the supervision of a preceptor. As a result of extensive relationships between the Parkinson School and Chicago area healthcare executives and organizations, students have the opportunity to complete their internship in key segments of the health care industry. The internship consists of a goal-based project of value to the organization, plus opportunities that include shadowing and networking.

Transfer Credit

Courses taken outside of Loyola may be transferred for appropriate credit upon approval of the program advisor and provided a minimum grade of C is earned for the course. External students wishing to transfer into Loyola and the HCA program must provide official transcripts indicating a minimum 2.5 grade point average (GPA) on a four-point scale. Internal students wishing to transfer to a major in Healthcare Administration must have a minimum cumulative 2.5 GPA.

Healthcare Administration Curriculum 2023-2024

HCA students must complete this list of core areas:

Historical Knowledge (2 courses/6 credit hours)
Literary Knowledge (2 courses/6 credit hours)
Theological Knowledge (2 courses/6 credit hours)
Artistic Knowledge (1 course/3 credit hours)
Philosophical Knowledge (1 course/PHIL 130 Philosophy & Persons)
Scientific Knowledge (2 course/6 credit hours)
Ethics (1 course/3 credit hours)

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

Course	Title	Hours
First Year		
Fall		
Select one of the following:		3
UCWR 110	Writing Responsibly (student assigned to fall or spring)	
CORE [1]		
PSYC 101	General Psychology (Fulfills Tier 2 Societal & Cultural Knowledge)	3
CORE		3
Elective		3
CORE		3
UNIV 101	First Year Seminar	1
	Hours	**16**
Spring		
Select one of the following:		3
UCWR 110	Writing Responsibly (student assigned to fall or spring)	
CORE [2]		
INFS 247	Business Information Systems	3
ISSCM 241 or PSYC 304	Business Statistics or Statistics	3
ECON 201	Principles of Microeconomics	3
CORE		3

HSM 338	Healthcare Strategy and Marketing	3
	Hours	**15**
Fourth Year		
Fall		
HSM 315	Healthcare Quality & Performance Improvement	3
HSM 330	Healthcare Legal & Regulatory Environment [3]	3
HSM 340	Health Care Policy	3
Business Selective [5]		3
CORE		3
	Hours	**15**
Spring		
HSM 325	Healthcare Fiscal Management [6]	3
HSM 350	Healthcare Administration Capstone	3
HSM 360	Healthcare Administration Field Internship	6
Elective [7]		3
	Hours	**15**
	Total Hours	**121**

[1] Students assigned to UCWR 110 Writing Responsibly for spring should take a CORE in the fall

[2] Students assigned to UCWR 110 Writing Responsibly for fall should take a CORE in the spring

[3] PHIL 284 Health Care Ethics or HSM 280 Healthcare Management Ethics is a pre-requisite to HSM 330 Healthcare Legal & Regulatory Environment.

[4] Statistics (ISSCM 241 Business Statisticsor PSYC 304 Statistics), ECON 201 Principles of Microeconomics and ACCT 201 Introductory Accounting I are prerequisites to FINC 301 Introductory Business Finance.

[5] Business Selectives: ECON 329 Health Economics, ENTR 201 Introduction to Entrepreneurship, HRER 301 Principles of HR Management, or SCMG 232 Introduction to Supply Chain Management.

[6] FINC 301 Introductory Business Finance is a prerequisite to HSM 325 Healthcare Fiscal Management.

[7] Students are strongly encouraged to use program electives toward the following course HSM 210 Introduction to Global Healthcare Delivery.

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

- Apply fiscal and economic principles in the management of health care settings and services
- Apply organizational and management theories and principles in a variety of health care settings
- Apply principles of information management, data analysis, and quality improvement in the organization, delivery, and management of health care settings and services

Healthcare Administration Minor

The Healthcare Administration minor prepares students to work in healthcare settings and to understand the business side of public health and health care. The minor is built upon a foundation of Jesuit-based liberal arts, business, and public policy courses. Students adding the Healthcare Administration minor to their course of study choose from a range of classes related to the health system: healthcare fiscal management, health information technology, health policy, health equity, healthcare data analytics and more. Students will gain:

- Basic healthcare literacy
- Introduction to a wide array of healthcare trends and issues
- Insights into the operations of the multi-faceted healthcare industry

Curriculum

Two courses (six credit hours) are required and four courses (12 credit hours) are to be selected from the elective course list. The following courses are not open to Healthcare Administration minors: HSM 310, 315, 338, 358, 350 and 360.

Code	Title	Hours
Required Courses		
HSM 110	Healthcare in America	3

HSM 210	Introduction to Global Healthcare Delivery	3
Select minimum of one course and up to two courses from Group 1 (three or six credit hours).		*3-6*
HSM 220	Continuum of Healthcare Services	
HSM 230	Fundamentals of Health Equity	
HSM 240	Healthcare Workforce Environment	
Select minimum of two courses and up to three courses from Group 2 (6 or 9 credit hours).		*6-9*
HSM 325	Healthcare Fiscal Management	
HSM 330	Healthcare Legal & Regulatory Environment	
HSM 340	Health Care Policy	
HSM 345	Healthcare Data Analytics	
HSM 368	Management of Healthcare Organizations	
HSM 386	Health Information Systems Management	
ECON 329	Health Economics	
Total Hours		**18**

Nutrition Minor

Nutrition and food are integral to life. Relevant dimensions in contemporary society include those related to health, the environment, the economy and culture. Strategies to optimize nutrition include not only individual choice but also policy, systems and environmental initiatives with an interprofessional approach. Several undergraduate majors may be enhanced by foundational nutritional knowledge to foster this interprofessional approach, such as public health, exercise science, pre-health, education (early childhood, elementary, special education), environmental sciences, health systems management, business and marketing.

Curriculum

The minor requires 15 credit hours for completion.

Code	Title	Hours
Required Courses		
FONU 215	Fundamentals of Nutrition	3
FONU 320	Nutrition Through the Life Cycle	3
FONU 110	Culinary Explorations	3
Elective Courses		
Students select two of the following		6
EXCM 342	Physical Growth, Development and Nutrition	
FONU 225	Food as Culture	
HSM 230	Fundamentals of Health Equity	
PUBH 304	Health Behavior and Health Promotion	
Total Hours		**15**

Learning Outcomes

Upon successful completion of the nutrition minor, students will:

1. Describe role, rich sources, and needs of essential nutrients
2. Summarize food-based strategies to meet nutrition needs to support health
3. Compare key nutrient needs through the life cycle
4. Demonstrate competence in basic food preparation
5. Incorporate food-based recommendations into meal plans
6. Propose solutions to nutrition and food-related inequities

Public Health (BS)

Creating healthy people and communities

Grounded in the basic sciences with an emphasis on population health, the B.S. in Public Health (BSPH) degree prepares students for positions in fields such as health education, epidemiology, and environmental health, across nonprofit, industry, and government sectors. Pre-health students who seek a medical or health professions degree can broaden their experience with a multidisciplinary public health major.

Accreditation

Loyola University Chicago Public Health Programs are accredited by the **Council on Education for Public Health** (CEPH). In March 2021, CEPH Board of Councilors acted to renew our BSPH and MPH programs' accreditation for a seven-year period. For questions on accreditation, please email Dr. Ruth Kafensztok (rkafens@luc.edu).

Related Programs

Combined

- Public Health (BS/MPH) (p. 1171)

Curriculum

The BSPH program draws on courses in ethics, environmental sciences, biology, mathematics, healthcare administration, social sciences, and the humanities alongside epidemiology, biostatistics, health behavior and promotion, health communication, policy, and global health.

The program requires 71 credit hours towards the 120 credits needed for graduation. Students complete remaining credits in the University Core, minors, and general electives. Several Knowledge Areas within the University Core (p. 1212) are waived for BSPH students as they are already included in the major (Quantitative, Scientific Literacy, etc.).

Code	Title	Hours
HSM 230	Fundamentals of Health Equity	3
HSM 310	Healthcare Project Management	3
PUBH 300	Introduction to Public Health	3
PUBH 301	Health and the Environment	3
PUBH 303	Introduction to Epidemiology	3
PUBH 304	Health Behavior and Health Promotion	3
PUBH 306	Critical Thinking in Public Health	3
PUBH 307	Foundations of Public Health Policy	3
PUBH 314 / HSM 210	Global Public Health	3
PUBH 399	Public Health Capstone Experience	3
Public Health Elective Courses		6

Suggested Sequence of Courses

BS in Public Health Sample Academic Plan

Parkinson School of Health Sciences and Public Health

BSPH majors must complete this list of University Core areas:

Artistic Knowledge (1 course/3 credit hours)

Ethics (1 course/3 credit hours)

Historical Knowledge (2 courses/6 credit hours)

Literary Knowledge (2 courses/6 credit hours)
Philosophical Knowledge - Foundational (1 course/3 credit hours)
Societal Knowledge - Foundational (1 course/3 credit hours)
Theological Knowledge (2 courses/6 credit hours)
Writing Seminar (1 course/3 credit hours)

*120 Total Credit Hours (71 BSPH, 34 Core/*UNIV 101 First Year Seminar*, 15 General Electives)*

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

Course	Title	Hours

	Total Hours	**132**

[1] University Core (p. 1212)

[2] If interested in the BSPH/MPH five-year, dual-degree program, contact Keith Kramer, kkramer4@luc.edu first before taking PUBH 303 Introduction to Epidemiology, PUBH 307 Foundations of Public Health Policy, PUBH 314 Global Public Health/HSM 210 Introduction to Global Healthcare Delivery, or ENVS 380 Introduction to Geographic Information Systems. Each course above is three credits except where noted. PUBH 310 Public Health Internship, Public Health Internship, is a great elective option.

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

Students who complete the BS in Public Health program will be able to:

- Discuss the history, characteristics, roles, functions, structures, and core concepts of public health and the U.S. health system
- Debate the socioeconomic, behavioral, biological, and environmental factors that influence human health and disease and perpetuate health disparities
- Describe the legal, regulatory, ethical, and economic dimensions shaping public health policy and practice
- Locate, use, evaluate, and synthesize public health information
- Use basic statistics and perform statistical analysis in SAS, a widely-used statistical software program, to identify and describe populations' health concerns
- Communicate public health information, in both oral and written forms, through a variety of media and to diverse audiences
- Identify the basic tools for project management as well as population health assessment, planning, and evaluation
- Advocate for health equity, especially on behalf of vulnerable and marginalized populations
- Take a stand on a controversial public health issue and support it with evidence
- Craft evidence-based solutions that take account of the community dynamics and cultural contexts in which public health practitioners work
- Engage in sound ethical practice while exhibiting a high degree of professionalism

Pre-Professional Programs

- Pre-Health Professions Advising (p. 654)
- Pre-Law Advising (p. 655)

Undergraduate Policies and Procedures

Please see Undergraduate Policies and Procedures (p. 2050) for academic policies that supersede those of academic units within the University.

University Policies

Pre-Health Professions Advising

About Us

The Pre-Health Professions team offers assistance to Loyola's undergraduate and post-baccalaureate students interested in pursuing health professional careers. For those students unsure of exactly what field to choose or who want general information to begin their search, Pre-Health Professions is the place to start.

Our office provides a variety of services for students to guide them through the seemingly confusing road of health professional careers and applications. The services provided include:

- Personal advising on health careers focusing on the individual interests of the student
- A variety of workshops to serve the needs of our students
- Information on various local volunteer opportunities
- A streamlined application process that gives students the opportunity to work more closely with the Pre-Health Professions office
- Frequent updates from the Pre-Health Professions office on health career events and activities
- Referrals to other university resources

You can find further information, including how to make an appointment on Handshake or sign up for the Pre-Health newsletter on our website (https://www.luc.edu/prehealth/). We look forward to assisting you as you work toward your goals!

Commonly Required Courses

These are typical requirements and recommendations for applying to medical schools. If you are interested in applying to programs in one of the other health profession areas (dental, pharmacy, PA, PT, OT, optometry, podiatry, etc.) please review the recommended courses for that specific area.

The health professional schools themselves provide the most accurate and up-to-date source of information. Students should begin researching specific requirements of health professional schools they are interested in early in their academic careers and continue this research through their academic careers as health professional schools typically update their required and recommended courses on an annual basis.

Students should also review Loyola department websites and LOCUS to determine relevant pre-requisites for courses listed below and what terms these courses are typically offered. Please view the Pre-Health Profession website (https://www.luc.edu/prehealth/) to review specific health professional school resources, make an appointment, or to sign up for our newsletter.

Area	Subject	Loyola Equivalent
Biology	General Biology I	BIOL 101 & BIOL 111
	General Biology II	BIOL 102 & BIOL 112
	Biochemistry	BIOL 366 or CHEM 361
	Cell Biology	BIOL 251
	Genetics	BIOL 282

Chemistry (Previous Track)	Inorganic Chemistry I	CHEM 101 & CHEM 111 or CHEM 105
	Inorganic Chemistry II	CHEM 102 & CHEM 112 or CHEM 106
	Organic Chemistry I	CHEM 223 & CHEM 225 or CHEM 221
	Organic Chemistry II	CHEM 224 & CHEM 226 or CHEM 222
	Biochemistry	CHEM 361 or CHEM 370 or BIOL 366
Chemistry (New Track)*	Chemical Structure & Properties	CHEM 160 & CHEM 161
	Chemical Reactivity I	CHEM 180 & CHEM 181
	Chemical Reactivity II	CHEM 240 & CHEM 241**
	Quantitative Methods	CHEM 260 & CHEM 261**
	Biochemistry	CHEM 361 or CHEM 370 or BIOL 366
Physics	Physics I	PHYS 111 & PHYS 111L or PHYS 125 & PHYS 125L
	Physics II	PHYS 112 & PHYS 112L or PHYS 126 & PHYS 126L
Math	College Algebra	MATH 117
	Pre-Calculus	MATH 118
	Statistics	STAT 103 or STAT 203 or PSYC 304 or STAT 335
English Composition	Freshman Composition	UCWR 110
	Upper Level Composition Course	One Writing Intensive Course
Psychology	Psychology	PSYC 101
Social Science	Sociology	SOCL 101

Occasionally required courses include (but are not limited to):
Molecular Genetics, Molecular Biology, Calculus, Additional Behavioral Sciences

*The “New Track” for the Chemistry sequence denotes the new course structure beginning in Fall 2023 that will reorganize the presentation of topics but still reflect the AAMC standards of Chemistry courses. Students who have completed the “PreviousTrack” have still completed the necessary chemistry requirements for health professional schools.

**The 240/241 and 260/261 levels of courses in the New Track of Chemistry are interchangeable and can be taken in either order once the 160/161 and 180/181 sequences are complete.

Pre-Law Advising

About Us

Pre-Law Advisors are part of Loyola Career Services and provide information and guidance to Loyola students and alumni who are considering a legal career and applying to law school. The services provided include:

- Perspectives on coursework, skill acquisition, and career exploration
- Individual advising appointments; schedule via Handshake
- Monthly updates via the Pre-Law Newsletter (sign-up in Handshake (https://luc.joinhandshake.com/surveys/38012/)) about national law school trends and resources, local law school-related events and job and internship opportunities
- Law school admissions information sessions
- Relevant on-campus programming, including workshops on the law school application process, internships, and resume and personal statement writing
- Personalized guidance during the admissions process
- Referrals to other university resources
- More information can be found on the Pre-Law website (http://luc.edu/prelaw/)

Quinlan School of Business

Mission & Vision

Mission

We are an academic and scholarly community in a Jesuit Catholic University, inspiring intellectual curiosity, a concern for others and the common good. We prepare leaders to contribute to society through ethical, sustainable, and socially responsible conduct and to act effectively in complex organizational settings in a diverse global economy.

Vision

We are difference makers. We are a leading Jesuit institution of transformative learning that empowers students to discern their life’s purpose while preparing them to make an impact in the world through data-driven decision making, critical thinking and innovation. We develop ethical, responsible and forward-thinking leaders who value diversity, equity and inclusion to drive sustainable business growth and inspire positive change in organizations, communities and in society. As scholars and life-long learners, we foster a rigorous, experiential learning culture in the heart of Chicago and around the world to pursue knowledge in the service of others.

Quinlan School of Business Academic Policies

Learn more about the Quinlan School of Business policies regarding program details, transfer credits and more.

About the Quinlan School of Business

The Bachelor of Business Administration (BBA) program integrates a foundation of education through the University Core Curriculum (https://www.luc.edu/core/) that includes a total of 16 courses (48 credit hours of coursework), primarily in the arts and sciences, which develop important college-level skills and integrate an understanding of values through 10 required areas of knowledge as well as one course that satisfies Loyola's commitment to Engaged Learning. In addition, each student completes required courses in business that serve to develop individual intellect and character. Our goal is to prepare skilled business professionals who will develop into socially responsible, ethical leaders.

The Quinlan School of Business is fully accredited by AACSB International, the Association to Advance Collegiate Schools of Business. In addition, the accounting programs are separately accredited by AACSB International.

Office of the Dean
Dean: Michael Behnam, PhD
Associate Dean, Graduate Programs Operations: Pamela McCoy
Associate Dean, Undergraduate Programs Operations: Susan Ries, PhD

Academic Advising

First-year and second-year students are advised through the office of First and Second Year Advising (https://www.luc.edu/fsya/?utm_medium=redirect&utm_campaign=undergrad-redirects&utm_soure=firstandsecondyearadvising/).

Academic advising for juniors, seniors, and transfer students is handled in the undergraduate Associate Dean's office of the Quinlan School of Business. The initiation of timely class withdrawals, changes in courses, and filing of degree applications are all matters specifically requiring the dean's approval.

The undergraduate office is the primary point of contact for all matters that relate to degree requirements in the Quinlan School of Business. Students with any questions or concerns regarding academics, such as courses, scheduling, majors or minors, etc., should consult with the Associate Dean's office.

Degree Program

All Quinlan School of Business undergraduate students complete a broad-based core of foundation courses, followed by advanced study in at least one area of concentration, leading to the Bachelor in Business Administration (BBA) degree in the following:

- Accounting (BBA) (p. 683)
- Accounting and Analytics (BBA) (p. 685)
- Economics (BBA) (p. 688)
- Entrepreneurship (BBA) (p. 690)
- Finance (BBA) (p. 692)
- Human Resource Management (BBA) (p. 695)
- Information Systems and Analytics (BBA) (p. 697)
- International Business (BBA) (p. 699)
- Management (BBA) (p. 701)
- Marketing (BBA) (p. 703)
- Sport Management (BBA) (p. 706)
- Supply Chain Management (BBA) (p. 708)
- U.S./Europe Double Degree (BBA) (p. 711)

School Requirements

Writing and Writing-Intensive Courses

In order to graduate from the Quinlan School of Business, students ordinarily must complete three writing courses. These include: UCWR 110 Writing Responsibly, or the equivalent; and two writing-intensive courses. UCWR 110 Writing Responsibly must be taken in the freshman year and must be completed with a grade of "C-" or better before any writing-intensive course may be taken.

Designated sections of courses are taught with a special emphasis on writing (e.g. WI courses may not be contracted or be independent study courses). They are easily identified by a "W" in the section number. Students in these courses will have a variety of writing assignments that will be integrated closely with the learning objectives of the course. The purpose of the program is to assure that students continue to give attention to writing as an essential component of education throughout their years at Loyola.

In order to ensure that training in writing is spread throughout the undergraduate years, the program specifies that no more than one writing-intensive course per semester may be applied to this requirement. Students may register for only one writing intensive course per semester. Transfer students should consult with the dean's office about how the writing-intensive requirement applies to them. Each student must complete at least one of their writing intensive courses with a Quinlan School of Business course or ENGL 210 Business Writing. The other writing intensive course may come from any discipline.

Freshmen and transfer students with 59 or fewer transfer credit hours must take two writing-intensive courses during their undergraduate career at Loyola; transfer students with 60–89 transfer credit hours must take one writing-intensive course during their undergraduate career at Loyola; transfer students with 90 or more transfer credit hours are exempt from taking writing-intensive courses. For further information, transfer students should consult their academic advisor.

Math requirements: Students are also encouraged to satisfactorily complete the mathematics requirement of the program during the freshman year or as early in their education as possible. Student must complete MATH 131 Applied Calculus I or the equivalent with a grade of "C-" or better.

University Core Curriculum

For specific information, please refer to the University Core Curriculum section in Academic Rules and Regulations or visit the University Core Curriculum Website at www.luc.edu/core (https://www.luc.edu/core/). Specific suggestions on how to fulfill the Core through the Quinlan School of Business are detailed below.

Core Areas	School Recommended Courses
College Writing Seminar (3 credit hours)	UCWR 110 (Required as a prerequisite for writing-intensive courses)
Artistic Knowledge (3 credit hours)	
Historical Knowledge (6 credit hours)	
Quantitative Analysis (3 credit hours)	MATH 131 or MATH 161
Literary Knowledge and Experience (6 credit hours)	
Philosophic Knowledge (6 credit hours)	MGMT 341 (3 credit hours)
Scientific Literacy (6 credit hours)	
Societal and Cultural Understanding (6 credit hours)	ECON 201 and ECON 202 (6 credit hours)
Theological and Religious Studies (6 credit hours)	
Ethics (3 credit hours)	

Engaged Learning Requirement	School Recommended Courses
Engaged Learning (1 course)	BSAD 351 (may only be taken concurrently with an approved internship experience)

Required Quinlan Business Courses

Each Quinlan School of Business student must complete the following required business administration courses plus the required courses for one area of concentration. A student may choose to complete the courses for additional areas of concentration or for a minor.

Code	Title	Hours
ACCT 201	Introductory Accounting I	3
ACCT 202	Introductory Accounting II	3
ECON 201	Principles of Microeconomics	3
ECON 202	Principles of Macroeconomics	3
Select one of the following:		3
FINC 301	Introductory Business Finance	
FINC 334	Principles of Corporate Finance (required for Finance majors and minors)	
INFS 247	Business Information Systems	3
INFS 343	Business Analytics	3
ISSCM 241	Business Statistics	3
LREB 315	Law and the Regulatory Environment of Business I	3
MARK 201	Principles of Marketing	3
MGMT 201	Managing People and Organizations	3
MGMT 304	Strategic Management	3
SCMG 232	Introduction to Supply Chain Management	3

Note: Area of concentration and major are used interchangeably in the Quinlan School of Business.

Code	Title	Hours
Other School of Business Requirements		
COMM 103	Business & Professional Speaking [1]	3
Select one of the following: [2]		3-4
MATH 131	Applied Calculus I	
MATH 161	Calculus I	
MGMT 341	Ethics in Business	3
or MGMT 321	International Business Ethics	
BSAD 220	Career Preparation	2
Global Awareness		
Select one of the following: [3]		3
ANTH 100	Globalization and Local Cultures	
ANTH 102	Culture, Society, and Diversity	
GLST 101	Introduction to Global Studies	
PLSC 102	International Relations in an Age of Globalization	
Any business course from the International Business major group		
Elective Courses		
Free electives	Any courses from the undergraduate curriculum for which all prerequisites and/or restrictions have been met. Elective credit may be needed to reach 120 credit hours required for graduation.	

[1] Accounting majors with prior credit for COMM 101 Public Speaking & Critical Thinking must take ENGL 210 Business Writing to complete this requirement.
Accounting and Analytics majors with prior credit for COMM 101 Public Speaking & Critical Thinking who wish to take the CPA exam should take ENGL 210 Business Writing for Business Communication credit.

[2] Students majoring in Finance are strongly encouraged to take MATH 161 Calculus I instead of MATH 131 Applied Calculus I.
[3] A study abroad experience will also satisfy this requirement.

Students planning to study abroad are encouraged to meet with a Quinlan academic advisor early in the planning stage in order to select a location that has courses that will be counted for university core, business core, as well as a major or a minor. A student will be permitted to take up to two advanced courses while studying abroad that will be courses counted toward a Quinlan major or minor (this includes students pursuing the BA in Economics). All courses must be approved by a Quinlan Advisor or the Undergraduate Dean.

Majors and Program Details

School/Program Website

- Accounting (BBA) (p. 683)
- Accounting and Analytics (BBA) (p. 685)
- Economics (BBA) (p. 688)
- Entrepreneurship (BBA) (p. 690)
- Finance (BBA) (p. 692)
- Human Resource Management (BBA) (p. 695)
- Information Systems and Analytics (BBA) (p. 697)
- International Business (BBA) (p. 699)
- Management (BBA) (p. 701)
- Marketing (BBA) (p. 703)
- Sport Management (BBA) (p. 706)

- U.S./Europe Double Degree (BBA) (p. 711)
- U.S./Europe Double Degree (BBA) (p. 711)

Minors

The Quinlan School of Business offers a variety of minors for both business students and non-business students. Choosing a minor offers students a chance to gain working knowledge in an area in addition to their major field of concentration. All students may declare their minor. A maximum of one transfer course taken prior to matriculating at Loyola University Chicago may be allowed for non-Quinlan school students at the discretion of the Assistant Dean of the Quinlan School of Business. For non-Quinlan students double minoring in any two (or more) concentrations, only two applicable courses may be applied to both concentrations. For Quinlan School of Business students double minoring in any two (or more) concentrations, only one applicable course may be applied to both concentrations.

- Accounting Information Systems Minor (p. 687)
- Business Administration Minor (p. 687)
- Economics Minor (p. 689)
- Entrepreneurship Minor (p. 692)
- Finance Minor (p. 694)
- Human Resource and Employment Relations Minor (p. 694)
- Information Systems Minor (p. 698)
- International Business Minor (p. 701)
- Management Minor (p. 703)
- Marketing Minor (p. 705)
- Nonprofit Management Minor (p. 706)
- Sport Management Minor (p. 708)
- Supply Chain Management Minor (p. 710)
- Sustainability Management Minor (p. 710)

Grade Requirements

All, business core, business school requirements, writing intensive courses, major and minor courses must be successfully completed with a grade of C- or better. In addition, the overall GPA and any major or minor GPA must be greater than or equal to a 2.0. All grades from courses attempted in a major or minor are calculated into the major or minor GPA. University core classes may be completed with a grade of D or better.

Required Courses for Each Major

Accounting

Code	Title	Hours
Required Courses		
ACCT 303	Intermediate Accounting I	3
ACCT 304	Intermediate Accounting II	3
ACCT 311	Auditing & Internal Control Systems	3
ACCT 317	Managerial Accounting	3
ACCT 328	Concepts in Taxation	3
Select three of the following:		9
ACCT 306	Advanced Financial Accounting	
ACCT 307	Advanced Accounting: Not-For-Profit Entities & Advanced Financial Accounting Topics	
ACCT 308	Accounting Information Systems	
ACCT 323	Advanced CPA Topics	
ACCT 326	Fraud Investigation	
ACCT 341	Advanced Studies in Taxation	
ACCT 399	Special Topics in Accounting [1]	

[1] Only one ACCT 399 Special Topics in Accounting class is allowed to count for this major.

*A student who is an accounting major may be administratively removed as an accounting major if the student earns a grade below "C-" in two or more upper level accounting classes (*ACCT 303 Intermediate Accounting I *and beyond).*

accounting and analytics

Code	Title	Hours
Required Accounting and Information Systems Courses

For students double majoring or minoring in any two (or more) concentrations, only one applicable course may be applied to both concentrations. Only one XXXX 399: Selected Topics course can be applied to any Quinlan School of Business major.

Students are expected to adhere to all course prerequisites for any course as listed in the online schedule of classes each term. Specific information can be found in LOCUS.

Curricula for transfer students: Students seeking admission to Loyola University's Quinlan School of Business as a transfer student may have their transcripts from prior institutions reviewed by the undergraduate Dean's Advising Office. Coursework taken elsewhere that was taken more than eight years prior to enrolling at Loyola University's Quinlan School of Business will not be considered for transfer credit. Coursework taken within the previous eight years will be considered for transfer credit.

All transfer students must complete a minimum of 50% of all business courses at Loyola University Chicago. Additionally, 80% of a major or minor must be completed at Loyola University Chicago. This typically translates into the possibility of one course permitted for a major or minor at the discretion of the Quinlan School of Business. Please consult with the Assistant Dean of the Quinlan School of Business with any questions.

Transfer students should note that accepting courses for credit from other institutions is done at the discretion of the Quinlan School of Business. Curricular changes do occur within the Quinlan School of Business. However, transfer credit is articulated at the time of a student's matriculation to Loyola University Chicago with what curricular policies were in place at that time. The Quinlan School of Business reserves the right to not re-articulate transfer credit once a student has matriculated.

Taking Courses Elsewhere

The Quinlan School of Business adheres to the university policy regarding taking courses elsewhere (https://www.luc.edu/academics/catalog/undergrad/reg_permission.shtml/). In conjunction with the university policy, the Quinlan School of Business will not approve any courses from the Quinlan School of Business curriculum to be taken elsewhere during any semester or summer session.

Readmission to the Quinlan School of Business

A student that leaves Loyola University Chicago's Quinlan School of Business without completing their degree requirements may reapply for admission through the Office of Undergraduate Admissions for a period of 8 years from the date of separation. If the application for readmission is for a term that is within the 8 year period, the student will be able to have their transcript reviewed by the Assistant Dean. Those courses previously taken at Loyola University Chicago and at other accredited institutions, which received passing grades based on the grading policies in place at the time of readmission, may be counted toward current degree requirements.

A student that leaves Loyola University Chicago's School of Business Administration without completing their degree requirements and is separated from the university for greater than 8 years will need to reapply for admission and will not be able to count past coursework toward current degree requirements.

Honors and Awards

Dean's List

Each Fall and Spring Semester, the Quinlan School of Business acknowledges those full-time (12 or more hours) students who obtain at least a 3.5 grade point average for the term. Students on the dean's list receive personal acknowledgement from the dean.

Dean's Key

Ordinarily given to the business administration senior or seniors who, in the estimation of the dean, have made the most outstanding contributions in both leadership and scholarship to the reputation of the school. It is awarded to whomever may be expected in the years after graduation to exemplify, both as citizens and as successful business professionals, the highest ideals of the university.

Departmental Keys

Each academic major in the Quinlan School of Business ordinarily awards one silver honor key annually to the graduating senior who has demonstrated outstanding academic ability in that major field of concentration. Those considered for this award usually will have earned the highest academic average for all coursework in their particular field of concentration. Other factors such as, but not limited to, leadership achievement, cumulative grade point average, and graduation honors may, at the full discretion of the faculty, be recognized in the selection process.

Leadership Awards

Certificates of merit may be awarded to those full time Quinlan School of Business students who have distinguished themselves by active and meritorious participation in various extracurricular activities within the university.

Alpha Kappa Psi Scholarship Key

A key which is merited by the senior student in the fraternity who has demonstrated outstanding academic excellence in all undergraduate courses taken at Loyola. Ordinarily this means the highest cumulative grade point average achieved for all courses attempted at Loyola.

Delta Sigma Pi Scholarship Key

A key which is merited by the senior student in the Quinlan School of Business who has demonstrated outstanding academic excellence in all courses taken at Loyola. Ordinarily, this means the highest cumulative grade point average achieved in all courses attempted at Loyola.

Departmental Honors

The Quinlan School of Business offers departmental honors in the following departments with the requirements for each as listed. Departmental honors are available to students with majors in the Quinlan School of Business. Students must apply to a department for honors consideration. Contact the chairperson of the specific department for more information.

Honor Societies and Fraternities

The university honorary societies and professional fraternities for which business administration students may qualify are:

- **Alpha Kappa Psi**: A national professional fraternity founded with the purpose of stimulating and developing scientific research in the field of commerce and business administration.
- **Beta Alpha Psi**: A national honorary accounting fraternity with membership limited to juniors and seniors in the full- and part-time business administration programs. Students must be majoring in accounting, finance or information systems, and display high scholastic and personal character requirements.

- **Beta Gamma Sigma**: A national scholastic honor society for business administration students. Membership in the Loyola chapter is available to qualified junior and senior Quinlan School of Business students.
- **Delta Sigma Pi**: A national professional business fraternity, organized to promote closer affiliation of Quinlan students to the business community.

Undergraduate Policies and Procedures

Please see Undergraduate Policies and Procedures (p. 2050) for academic policies that supersede those of academic units within the University.

University Policies

Please see University Policies for academic policies that supersede those of academic units within the University

Accounting (ACCT)

ACCT 201 Introductory Accounting I (3 Credit Hours)
Pre-requisites: Minimum 15 earned hours
The major emphasis is on the development and reporting of accounting information for use by investors, creditors, and others. The student is required to develop skills in the preparation and use of accounting information and must demonstrate an understanding of the accounting process, and be able to evaluate the impact of estimates, alternative accounting principles, and the limitations of the accounting model on accounting information. Topics include: preparation and use of financial statements; the accounting process; and the measurement and reporting of income, assets, liabilities, and owner's equity.
Course equivalencies: ACCT201/201H/CPST310/ACACT201
Outcomes:
The student will be able to understand the underlying principles, design, concepts, limitations, and the necessity of accounting systems; The student will gain an appreciation of the uses of financial data and financial statements and their impact on business decisions

ACCT 201H Introductory Accounting I - Honors (3 Credit Hours)
Restricted to SBA honors students. The major emphasis is on the development and reporting of accounting information for use by investors, creditors, and others. The student is required to develop skills in the preparation and use of accounting information and must demonstrate an understanding of the accounting process, and be able to evaluate the impact of estimates, alternative accounting principles, and the limitations of the accounting model on accounting information. Topics include: preparation and use of financial statements; the accounting process; and the measurement and reporting of income, assets, liabilities, and owners' equity.
Course equivalencies: ACCT201/201H/CPST310/ACACT201
Outcomes:
The student will be able to understand the underlying principles, design, concepts, limitations, and the necessity of accounting systems; The student will gain an appreciation of the uses of financial data and financial statements and their impact on business decisions

ACCT 202 Introductory Accounting II (3 Credit Hours)
Pre-requisites: A minimum grade of "C-" in ACCT 201
This course highlights the differences between financial accounting and managerial accounting. The course begins by completing the study of transactions and events affecting financial statements. The cash flow statement is then explored in some detail. Finally, financial statement analysis as traditionally practiced, is considered a capstone for financial accounting. The course then focuses on the use of accounting data by management. Product costing in a manufacturing setting, assigning of costs to objects, learning how costs behave, and the use of accounting data by management in planning operations, controlling operations, and in short term decision making are all investigated.
Course equivalencies: ACCT202/ACCT202H/ACACT201
Outcomes:
The student will be able to understand the differences between cash and accrual accounting, the use of ratio analysis in investing and managing decisions, the value and importance of identifying and allocating costs, and the methods involved in the budgeting process

ACCT 202H Introductory Accounting II - Honors (3 Credit Hours)
Pre-requisites: C- or better grade in ACCT 201 or ACCT 201H; Restricted to SBA honors students
This course highlights the differences between financial accounting and managerial accounting. The course begins by completing the study of transactions and events affecting financial statements. The cash flow statement is then explored in some detail. Finally, financial statement analysis as traditionally practiced, is considered a capstone for financial accounting. The course then focuses on the use of accounting data by management. Product costing in a manufacturing setting, assigning of costs to objects, learning how costs behave, and the use of accounting data by management in planning operations, controlling operations, and in short term decision making are all investigated.
Course equivalencies: ACCT202/ACCT202H/ACACT201
Outcomes:
The student will be able to understand the differences between cash and accrual accounting, the use of ratio analysis in investing and managing decisions, the value and importance of identifying and allocating costs, and the methods involved in the budgeting process

ACCT 303 Intermediate Accounting I (3 Credit Hours)
Pre-requisites: Sophomore Standing and ACCT 202 with grade of C- or higher; ACCT 202 may also be taken as a corequisite
The first in a series of courses designed to provide in-depth coverage of the generally accepted principles underlying financial statements and financial reporting, from conceptual framework to application. Topics include alternatives for measurement of revenue and asset valuation, and presentation of financial statements. Lectures, discussions, and technical readings are supplemented with extensive problem and written assignments.
Outcomes:
Students will demonstrate their understanding of the accounting process leading to financial reports; Furthermore students will also develop the ability to apply critical thinking and analytical skills toward the solution of problems concerning valuation of assets, and revenue and expense recognition

ACCT 304 Intermediate Accounting II (3 Credit Hours)
Pre-requisites: Sophomore standing, a minimum grade of "C-" in ACCT 303 or Graduate Business student
This course is an extension of Intermediate I where students use the conceptual framework to consistently evaluate and explain accounting practice. This allows the student to not only understand the accounting methodologies but also recognize why these approaches are generally superior to alternative accounting treatments. Topics include concepts of present and future value, investments in financial instruments (debt and equity), leases, pensions, income taxes, earnings per share, and the statement of cash flow.
Outcomes:
Students will be able to demonstrate an understanding of the professional pronouncements as they relate to the measurement, recognition, and reporting of financial information; Students will also be able to demonstrate an understanding of how to research relevant accounting issues to better prepare for professional certification

ACCT 306 Advanced Financial Accounting (3 Credit Hours)
Pre-requisites: Junior standing; minimum grade of C- in ACCT 304
Topics include accounting for business combinations, cost & equity method investments, consolidated financial statements, governmental & not-for-profit, & accounting for multinational entities. Course includes extensive problem assignments.
Interdisciplinary Option: International Business
Outcomes:
Students will understand the accounting for corporate acquisitions, corporate consolidations including intercompany transactions, governmental and not-for-profit and international accounting issues

ACCT 307 Advanced Accounting: Not-For-Profit Entities & Advanced Financial Accounting Topics (3 Credit Hours)
Pre-requisites: Sophomore standing, a minimum grade of "C-" in ACCT 303
Topics include accounting concepts as applied to state and local government, along with financial reporting for other not-for-profit entities including hospitals, universities, and voluntary health and welfare organizations. Class may be taken prior to ACCT 306.
Outcomes:
Students will gain a comprehensive knowledge of the reporting requirements of not-for-profit entities

ACCT 308 Accounting Information Systems (3 Credit Hours)
Pre-requisites: Minimum grade of "C-" in ACCT 303 & INFS 247; Sophomore standing
Enrollment is open to Graduate Business Students. Included among the topics covered in this course are the primary accounting cycles, accounting information system internal controls, and selective fraud issues. Students will also build flowcharting skills and gain experience working on an enterprise resource planning system (ERP) with real-world company data.
Outcomes:
Students develop an application and analysis level of learning regarding the function of an accounting information system in business with specific emphasis on risk management, along with the ability to work with and deploy ERP tools

ACCT 311 Auditing & Internal Control Systems (3 Credit Hours)
Course involves an in-depth investigation of internal control structure and systems and the theory of audit evidence. Theoretical principles and practical issues involved in planning and executing an audit are explored. Internal control policies and procedures and principal evidence techniques for major transaction cycles or account groups are studied in depth. Study of appropriate AICPA professional standards is an integral part of this course.
Outcomes:
Students who successfully complete this course will be able to: understand the role of professional standards in the audit of financial statements; demonstrate their ability to research those standards; and demonstrate their understanding of the audit process in particular the roles of evidence and internal control

ACCT 317 Managerial Accounting (3 Credit Hours)
Pre-requisites: Sophomore standing; minimum grade of "C-" in ACCT 303
This course critically evaluates product cost for inventory valuation and income determination. In addition, budgeting and control procedures are emphasized. Topics discussed include job order costing, process costing, activity-based costing, full absorption and direct costing, an introduction to overhead allocation, cost estimation, cost-volume-profit analysis, budgeting, standard costs, analysis of variances, and capital budgeting. The course incorporates computer applications to managerial accounting analysis.
Course equivalencies: ACCT 317/ACCT 301

ACCT 323 Advanced CPA Topics (3 Credit Hours)
Pre-requisites: Sophomore standing; minimum grade of "C-" in ACCT 311
Topics include: audit and other reports, statistical sampling in auditing, attestation standards, reporting on future-oriented information, accountant's legal liability, Securities & Exchange Commission practice, professional ethics and using technology in auditing.
Outcomes:
Students will be familiar with issues under the AICPA Code of Professional Conduct, pronouncements of the Public Companies Accounting Oversight Board, the Sarbanes-Oxley Act, federal securities laws, and cases relating to CPA malpractice; Students will have a thorough professional knowledge of CPA reports on financial statements and special reports; Students will also learn how to apply statistical sampling in auditing

ACCT 326 Fraud Investigation (3 Credit Hours)
Pre-requisites: Sophomore Standing, minimum grade of "C-" in ACCT 311
Theoretical principles and practical issues involved in planning and executing an investigation are explored including internal control structure and evidence.
Outcomes:
Understand fraud investigation and the role it plays in the legal process; Understand and be able to apply investigative techniques in solving financial crimes

ACCT 328 Concepts in Taxation (3 Credit Hours)
Pre-requisites: Sophomore standing; minimum grade of "C-" in ACCT 201 and 202
This course provides a thorough exposure to federal income tax concepts and planning principles, with particular reference to individual taxpayers.
Outcomes:
Students will be able to demonstrate a basic core of technical knowledge concerning the federal income tax as it applies to individuals, an understanding of the conceptual and tax policy issues that underlie tax legislation, and fundamental skills in tax compliance, tax planning, and tax research

ACCT 341 Advanced Studies in Taxation (3 Credit Hours)
Pre-requisites: Sophomore standing, minimum grade of "C-" in ACCT 328
This course provides a thorough exposure to the federal income tax concepts and planning principles applicable to business entities, trusts, and estates and to federal transfer taxes.
Outcomes:
Students will be able to demonstrate a basic core of technical knowledge concerning the federal income tax as it applies to business entities and to the federal gift, estate, and generation-skipping-transfer taxes, an enhanced understanding of the conceptual and tax policy issues that underlie tax legislation, and enhanced skills in tax compliance, tax research, and tax planning

ACCT 350 Accounting Full Time Winter Internship (6 Credit Hours)
Department Chair permission is required for registration. Students enrolled in this course are participating in a full time internship experience with an accounting firm.
Outcomes:
Students will work 40+ hours for an accounting firm during the spring semester

ACCT 395 Independent Study in Accounting (1-3 Credit Hours)
Pre-requisites: Junior standing, Instructor and Dean permission required
Independent study is in-depth research or reading, initiated by the student and jointly developed with a faculty member, into a specialized area of accounting not otherwise covered by department course offerings. Variable credit is allowed for the course. This course will not count toward major requirements. Permission of dean required.
Outcomes:
Students will demonstrate an in-depth understanding of a technical accounting topic

ACCT 399 Special Topics in Accounting (1-3 Credit Hours)
Pre-requisites: Sophomore standing or above
Scheduled classes are offered on an ad hoc basis. Specific titles, prerequisites and content will vary.
Outcomes:
Students will be able to demonstrate understanding of specialized topics not otherwise covered by department regular course offerings

Business Honors (BHNR)

BHNR 300 Business Honors Seminar-Required (0 Credit Hours)
Pre-requisites: Restricted to students in the Quinlan Business Honors program
This seminar is a non-graded program requirement providing honors students with opportunities to learn from and network with leaders at major companies and organizations. Seminar is primarily a speaker series presenting honors students with opportunities to attend corporate and organizational site visits, social activities, and other events. Through seminar, honors students are able to network with each other and build community.
Outcomes:
Encourage bonding, stimulate thoughtful interaction, provide connections with the faculty, and connect to the broader business and alumni community

BHNR 338 Business Management: A Global and Social Perspective (3 Credit Hours)
This is a course on managing international businesses in a sustainable and humane global environment. The course contents are designed to have you discover the differences in economic, social and political environments of countries around the world so that one can be good global citizens in the international arena.
Course equivalencies: IBUS 201/BSAD 202/BHNR 338

BHNR 343 Integrated Analytical Decision Making (3 Credit Hours)
Pre-requisites: Enrollment is restricted to Business Honors students; Junior Standing, C- or better in ISSCM 241 or ISSCM 241H
This course will focus on the analysis of business data, and use both statistical and data mining methodologies to make evidence-based decisions, with applications of these techniques to business problems. Students will conduct an original data mining research project in any field of business administration, and create both a written analysis and presentation.
This course satisfies the Engaged Learning requirement.
Outcomes:
At the end of this course, the student will know how to formulate a business problem in a data mining context, then build, run, evaluate, and interpret a data mining model that addresses the problem

BHNR 353 Research Practicum (3 Credit Hours)
This course introduces students to the process of business research, including research ethics as well as implications of research outcomes in the broader business and social context. Good research helps business managers understand issues and make informed decisions.
This course satisfies the Engaged Learning requirement.

BHNR 395 Independent Study in Business Honors (3 Credit Hours)
Pre-requisites: Sophomore standing, Department Consent Required
Student will conduct in-depth research or reading, initiated by the student and jointly developed with a faculty member into a specialized area as determined between student and faculty member.
Outcomes:
Students will be able to demonstrate an in-depth understanding of a specialized area or topic of research

Business Administration (BSAD)

BSAD 220 Career Preparation (2 Credit Hours)
Career Preparation provides an introduction to the critical skills required for successful career development and job search navigation. Students will learn about career development; develop job/internship search skills; establish a job/internship search action plan and begin to become oriented to employer research. Topics addressed will include resume/job search correspondence; interviewing skills; network building; career & employer research and career development resource building. Pre-requisites: Sophomore standing, Quinlan School of Business student.

BSAD 300 Business Internship - Elective Credit (1-3 Credit Hours)
Pre-requisites: Sophomore standing
Business Internship for elective credit is for SBA students, and non-SBA students pursing a minor in the School of Business, who wish to earn academic, elective credit while pursuing an internship opportunity. The course is variable credit from 1-3 hours and may be repeated for credit for a total of 3 earned hours. BSAD 300 is not a course for credit in any SBA major or minor.

BSAD 351 Business Internship-Engaged Learning (3 Credit Hours)
Pre-requisites: Junior standing, School of Business student, & "C-" or better in BSAD 220
Business Internship connects academic learning with the internship experience. Students will be challenged to analyze the theory and practices from the world of work that impact the ethics of leading, interpersonal and organizational dynamics, and competent work place contributions required for success in the modern business world. Concepts associated with internship/experiential learning as related to career development will be addressed. Students must be working in an internship during the term of enrollment into BSAD 351.
This course satisfies the Engaged Learning requirement.

BSAD 399 Special Topics (3 Credit Hours)
This course will cover a variety of special topics in Economics.

Economics (ECON)

ECON 201 Principles of Microeconomics (3 Credit Hours)
Requirement: ANTH 100, PLSC 102, PSYC 100 or SOCL 101 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Anthropology, Department of Criminal Justice, Department of Economics, Department of Psychology, Department of Political Science, the Department of Sociology, Human Services or the School of Nursing. This course is an introduction to demand and supply, consumer choice, price analysis in alternative industrial organizations, and the distribution of income.
Knowledge Area: Tier 2 Societal Knowledge
Course equivalencies: ECON201/201H/ACECO201/CPST243
Outcomes:
Students will be able to think critically about price formation in different market structures, and how prices, household incomes and income distribution in a diverse society are determined with interpretations based on the concepts of opportunity costs and decision making under uncertainty

ECON 201H Principles of Microeconomics - Honors (3 Credit Hours)
Requirement: ANTH 100, PLSC 102, PSYC 100 or SOCL 101 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Anthropology, Department of Criminal Justice, Department of Economics, Department of Psychology, Department of Political Science, the Department of Sociology, Human Services or the School of Nursing. Restricted to SBA honors students or Honors students. This course is an introduction to demand and supply, consumer choice, price analysis in alternative industrial organizations, and the distribution of income.
Knowledge Area: Tier 2 Societal Knowledge
Course equivalencies: ECON201/201H/ACECO201/CPST243
Outcomes:
Students will be able to think critically about price formation in different market structures, and how prices, household incomes and income distribution in a diverse society are determined with interpretations based on the concepts of opportunity costs and decision making under uncertainty

ECON 202 Principles of Macroeconomics (3 Credit Hours)
Requirement: ANTH 100, PLSC 102, PSYC 100 or SOCL 101 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Anthropology, Department of Criminal Justice, Department of Economics, Department of Psychology, Department of Political Science, the Department of Sociology, Human Services or the School of Nursing. This course is an introduction to national product, its components, money and the real sectors and business fluctuations.
Knowledge Area: Tier 2 Societal Knowledge
Course equivalencies: ECON202/ECON202H/ACECO202/245
Outcomes:
The students will be able to think critically about the economic environment of the nation and to measure growth, unemployment, inflation, fiscal and monetary policies of the government, to ultimately understand economic stability and the welfare of the individual citizen

ECON 202H Principles of Macroeconomics - Honors (3 Credit Hours)
Restricted to SBA honors students or Honors students. This course is an introduction to national product, its components, money and the real sectors and business fluctuations.
Course equivalencies: ECON202/ECON202H/ACECO202/245
Outcomes:
The students will be able to think critically about the economic environment of the nation and to measure growth, unemployment, inflation, fiscal and monetary policies of the government, to ultimately understand economic stability and the welfare of the individual citizen

ECON 303 Intermediate Microeconomics (3 Credit Hours)
Pre-requisites: Sophomore standing, minimum grade of "C-" in ECON 201 and 202
This course is a detailed study of consumer and firm behavior, market structures, and the elementary propositions concerning welfare economics.
Course equivalencies: ECON303/303H
Outcomes:
The students will develop analytical skills to understand and predict consumer and firm behavior, understand the underlying pinning of antitrust legislation and dynamic market strategies

ECON 304 Intermediate Macroeconomics (3 Credit Hours)
Pre-requisites: Sophomore standing, minimum grade of "C-" in ECON 201 and 202
This course develops the framework used by economists in government, business and academia to analyze the key determinants of economic growth, the business cycle, unemployment, inflation, the level of interest and exchange rates, as well as explaining how all these variables are influenced by monetary and fiscal policy.
Outcomes:
The students are able to understand and critically analyze business cycles, financial market fluctuations, and to study inflation and unemployment policies

ECON 320 Urban Economics (3 Credit Hours)
Pre-requisites: Sophomore standing, minimum grade of "C-" in ECON 201 and 202
This course analyzes the economic role and functioning of cities and examines urban issues such as real estate markets, transportation, economic development, and crime.
Interdisciplinary Option: Urban Studies
Course equivalencies: X-ECON320/URB320
Outcomes:
Students will understand the economic forces that shape urban agglomerations; Students will understand the economic and ethical trade-offs of various urban economic policies; They will be able to think critically about the economic forces that make a city grow and contract over time

ECON 323 International Economics (3 Credit Hours)
Pre-requisites: Sophomore standing, minimum grade of "C-" in ECON 201 and 202
This course analyzes microeconomic and macroeconomic theories of global trade; balance of payments, adjustment problems and the international monetary system.
Interdisciplinary Option: Global Studies, International Business
Course equivalencies: X-ECON323/INTS323
Outcomes:
Students will be able to demonstrate the ability to critically apply microeconomic and macroeconomic concepts to the understanding of international economic phenomena/problems; This course emphasizes the role of economic leadership to promote peace and justice in a global diverse world

ECON 324 International Monetary Relations (3 Credit Hours)
Pre-requisites: Sophomore standing, minimum grade of "C-" in ECON 201 and 202
Examination of the operation of the international monetary system and an analysis of the determination of currency flows between countries, with topics of balance of payments statements, currency flows between countries, determination of exchange rates, and international liquidity problems.
Interdisciplinary Option: Global Studies, International Business
Course equivalencies: X-ECON324/INTS324
Outcomes:
Student will be able to demonstrate an understanding of the operation of the international currency market and be able to analyze exchange rates with an emphasis on international liquidity and currency problems, and risk management of currency fluctuations

ECON 325 Economics of Growth & Development (3 Credit Hours)
Pre-requisites: Sophomore standing, minimum grade of "C-" in ECON 201 and 202
This course describes and analyzes the problems and policy issues facing developing countries and the third world with respect to their economic and social policies and programs.
Interdisciplinary Option: Global Studies, International Business
Course equivalencies: X-ECON325/INTS325
Outcomes:
The students are trained to evaluate the economic conditions that are conducive to economic growth and critically assess ethical arguments as they relate to growth, trade, and poverty in emerging countries; The role of leadership is emphasized

ECON 327 American Economic & Business History (3 Credit Hours)
Pre-requisites: Sophomore standing, minimum grade of "C-" in ECON 201 and 202
This course emphasizes the evolution and the role of past business leaders of the American economy from the colonial times to the present, emphasizing the entrepreneurs and the environments in which they operated. Economic and business change in the period 1865-1914 receives particular attention, as do the enterprises of Chicago-area entrepreneurs.
Outcomes:
Students learn the skills required of entrepreneurs and business leaders and their contribution to society; Students will develop an awareness of the historical dynamics that produced the current economy, and how its institutions evolved and the importance of markets in allocating resources

ECON 328 Environmental Economics (3 Credit Hours)
Pre-requisites: Sophomore standing, minimum grade of "C-" in ECON 201
This course applies economic theory to environmental and natural resource problems and policies, investigates the role economic incentives play, and discusses externalities, property rights, common property problems, pollution and pollution control, and renewable and non-renewable resource management.
Interdisciplinary Option: Environmental Studies
Course equivalencies: X-ECON328/ESP 328
Outcomes:
Students will understand that environmental problems are fundamentally economic problems that come about because there is a market failure (eg, an externality or public good) and that environmental problems have economic solutions

ECON 329 Health Economics (3 Credit Hours)
Pre-requisites: Sophomore standing and a minimum grade of "C-" in ECON 201
This course provides an understanding of the unique economic complexities of the health care industry and individual health behaviors. Relying on economic principles of scarcity, efficiency, productivity, and market behavior, demand and supply of health care, the role of government in determining health care policy, and medical practices are explored.

ECON 334 Economics of Government Expenditures & Taxation (3 Credit Hours)
Pre-requisites: Sophomore standing, minimum grade of "C-" in ECON 201 and 202
This course is an analysis of taxation and expenditure, instruments and policies as they relate to the allocative, distributive, and stabilization functions of government and society and ethical responsibilities of each.
Outcomes:
The student are able to understand and analyze public policy issues, specifically as it relates to the voting process, size of government, tax policy debates, and long-term problems of transfer payments in an aging society

ECON 336 Monetary and Fiscal Policy (3 Credit Hours)
Pre-requisites: Sophomore standing, minimum grade of "C-" in ECON 201, 202 and 304
This course uses macroeconomics to critically analyze the evolution of monetary and fiscal policy from the late 19th century to the present as well as current trends and topics relating to monetary and fiscal policy.
Outcomes:
Students will develop critical economic thinking skills as they apply macroeconomic theory to historical events and discuss the potential future paths of the world economy and for assessing the leadership role of the government and Federal Reserve System in stabilizing the domestic and world economy

ECON 346 Econometrics (3 Credit Hours)
Pre-requisites: Sophomore Standing; minimum grade of "C-" in ECON 201, 202, MATH 131 and ISSCM 241
This course teaches students how to use statistical tools to evaluate hypotheses about economic models.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students will be able to interpret and critically analyze quantitative information related to economics; Students will understand regression analysis and understand how to use it to test economic models and to measure important economic parameters, and to predict economic relationships

ECON 360 Labor Economics (3 Credit Hours)
Pre-requisites: Sophomore standing, minimum grade of "C-" in ECON 201 and 202
This course is an intensive examination of the market for labor services, and discusses wage determination, occupational and earnings differentials, diversity, investments in education, collective bargaining, and the ethical implications of labor market inequality.
Outcomes:
Students will gain a broad understanding of how economists study labor market issues and outcomes, and be able to use critical economic reasoning to better appreciate such issues as labor force participation decisions, human capital, and the variation in wages across individuals

ECON 364 China in the World Economy (3 Credit Hours)
Pre-requisites: ECON 201 and ECON 202, Sophomore Standing
No course description is available
Interdisciplinary Option: Chinese Language & Culture, International Business

ECON 370 Pricing & Industrial Organization (3 Credit Hours)
Pre-requisites: Sophomore standing, minimum grade of "C-" in ECON 201 and 202
This course investigates firm behavior, strategies and market outcomes in settings of less than perfect competition.
Outcomes:
Students learn to evaluate various strategies both in terms of firm profitability as well as consumer surplus

ECON 395 Independent Study in Economics (1-3 Credit Hours)
Pre-requisites: Sophomore standing, instructor and dean permission required
Student will conduct in-depth research or reading, initiated by the student and jointly developed with a faculty member, into a specialized area of Economics not otherwise covered by department course offerings.
Outcomes:
Students will be able to demonstrate in-depth understanding of a specialized area or topic in Economics

ECON 399 Special Topics in Economics (1-3 Credit Hours)
Pre-requisites: Sophomore standing
Scheduled classes are offered on an ad hoc basis. Specific titles, prerequisites and content will vary.
Outcomes:
Students will be able to demonstrate understanding of specialized topics not otherwise covered by department regular course offerings

Entrepreneurship (ENTR)

ENTR 201 Introduction to Entrepreneurship (3 Credit Hours)
Introduces students to the process of innovation & how to think like an entrepreneur. Students will learn how new venture ideas are conceived, vetted & tested. Course knowledge & skills presented through combination of theory & application that will prepare students to move to next level of entrepreneurial studies.
Course equivalencies: MGMT381/ENTR310/ENTR201
Outcomes:
Students gain insight into process of innovation & entrepreneurial mindset; Students able to identify problems in marketplace & translate these ideas into viable products & services

ENTR 311 Social Entrepreneurship (Not for Profit Ventures) (3 Credit Hours)
Pre-requisites: Junior Standing, minimum grade of "C-" in ENTR 201 or ENTR 310
This course introduces the student to the financial similarities of the traditional, not-for-profit organization; however, it also provides students with new insights and tools to effectively measure the social benefit and return on capital spent by applying entrepreneurial business principles.
This course satisfies the Engaged Learning requirement.
Outcomes:
Demonstrate an understanding of the term "social entrepreneurship," what it includes and what makes it different; Demonstrate the use of analytical tools to quantify social issues with potential for a sustainable positive outcome; Demonstrate an understanding of non-for-profit market characteristics

ENTR 313 Entrepreneurship - Global Opportunity Scan (3 Credit Hours)
Pre- or co-requisites: Junior Standing, minimum grade of "C-" in ENTR 201 or ENTR 310
This course addresses today's changes to global economies and the transformation of domestic markets to global markets. The new millennium entrepreneur is required to think beyond traditional borders.
Outcomes:
Demonstrate an understanding of the characteristics of international markets; Demonstrate the application of research to scan for international business opportunities; Demonstrate an understanding of internal barriers to entry (laws, culture, monetary values)

ENTR 345 Entrepreneurial Marketing (3 Credit Hours)
Pre-requisites: Junior Standing, minimum grade of "C-" in ENTR 201 or ENTR 310
Concepts presented in the classroom will be anchored in a real world context. Students will be required to conduct comprehensive primary research towards the objective to build a unique business model. These skills will be applied through analytical modeling and testing of various market factor configurations.
Course equivalencies: MGMT385/ENTR345

ENTR 390 Entrepreneurship Strategies - Capstone (3 Credit Hours)
Pre-requisites: Junior Standing, minimum grade of "C-" in ENTR 201 or ENTR 310
This course prepares students for entry into the real business world either as a corporate entrepreneur or a new venture entrepreneur. This course satisfies the Engaged Learning requirement.

ENTR 395 Independent Study (1-3 Credit Hours)
Pre-requisites: Junior Standing, minimum grade of "C-" in ENTR 201 or ENTR 310
No course description is available

ENTR 399 Selected Topics in Entrepreneurship (3 Credit Hours)
Pre-requisites: Junior Standing, minimum grade of "C-" in ENTR 201 or ENTR 310
No course description is available

Executive Education (EXED)

EXED 101 High-Impact Leadership: Maximizing Your Leadership Potential (0 Credit Hours)
High-Impact Leadership: Maximizing Your Leadership Potential combines the best practices and principles behind the art and science of leadership, decision-making, problem solving and organizational effectiveness.
Outcomes:
Gain an understanding of your leadership style, explore the discipline of leadership, learn the best practices for improving individual and organizational decision making, gain the strategies to build successful teams, manage conflict more effectively and link individual performance to organizational strategy

EXED 102 Project Management Certificate Program (0 Credit Hours)
This program will improve participants' performance by providing industry-standard tools approved by the Project Management Institute (PMI®) to help successfully manage any type of project regardless of scope or industry.
Outcomes:
Gain a comprehensive, formal training in project management, based on the industry-standard body of knowledge; Learn the fundamental tools to effectively manage any project; Learn how to manage projects from initiation, to planning, control and closeout; Learn how to communicate more effectively to project sponsors and team members

EXED 103 mini-MBA Certificate Program (0 Credit Hours)
The Loyola mini-MBA is a comprehensive management development program that provides cutting-edge business skills, coaching and leadership training to help propel your organization and your career forward.
Outcomes:
Strengthen overall business acumen and gain a better understanding of the key functional areas of business, including the frameworks, models and levers that drive organizational success; Develop the skills needed to think strategically and cross-functionally

EXED 104 Digital Marketing Strategy Certificate Program (0 Credit Hours)
This program provides a thorough foundation in the rapidly changing world of digital marketing and prepare you to strategically choose, measure, and implement the right digital marketing components into your overall marketing plan.
Outcomes:
This program provides a thorough foundation in the rapidly changing world of digital marketing and prepare you to strategically choose, measure, and implement the right digital marketing components into your overall marketing plan

EXED 105 Baumhart Center Learning Institutes (0 Credit Hours)
Professional Development skills in Social Enterprise Responsibility

EXED 107 Practical Finance and Accounting (0 Credit Hours)
Participants will learn a comprehensive approach to financial analysis. This program provides a grounding in basic managerial finance, including terminology like valuation, capital investment, financing, and capital structure.
Outcomes:
Develop comfort with the terminology and techniques used in managerial accounting and financial analysis; Learn to confidently read and analyze corporate financial statements; Understand the role of capital budgeting

EXED 108 Strategic Business Communications (0 Credit Hours)
This program teaches techniques to communicate fluently in a variety of situations. Participants learn simple and effective methods to become a more powerful communicator with peers, subordinates, and supervisors.
Outcomes:
Learn to present ideas at face-to-face and virtual meetings; Gain tools to confidently express yourself; Learn to gain support for ideas and suggestions; Understand how to use technology to support communication; Reduce conflict

EXED 109 Supply Chain Management Essentials (0 Credit Hours)
Participants learn the fundamentals of effective supply chain management across the end-to-end supply chain. The certificate program addresses a wide spectrum of supply chain techniques designed to reduce cost, improve profitability, and maximize the customer experience while balancing social, environmental, and economic concerns.
Outcomes:
Learn techniques to create a more efficient and effective supply chain and understanding of key trends, opportunities, and challenges in supply chain management

EXED 110 Lean Certification (0 Credit Hours)
Loyola will offer a new, online platform Lean Certification.
Outcomes:
To have more knowledge on Lean practices in Supply Chain and Logistics areas

EXED 111 Six Sigma Certification (0 Credit Hours)
Loyola will offer a new, online platform for Six Sigma Certifications.
Outcomes:
To have more knowledge on Six sigma for managers

EXED 151 Sysmex America mini-MBA (0 Credit Hours)
Customized mini-MBA that includes Accounting/Finance, Strategy, Marketing, Project Management and Management.
Outcomes:
The mini-MBA is intended for employees across various Sysmex functional areas, from both the home office as well as field operations; The content will be delivered electronically for two cohort groups

EXED 152 Sysmex America Birth of a Customer (0 Credit Hours)
Sysmex Birth of a Customer provides participants with an in-depth look at the internal strategy at Sysmex.
Outcomes:
Panels of senior executives assisted by a faculty moderator talk about how the various elements of organizational strategy combine to meet client needs; Participants complete a related case study

EXED 153 Presence Healthcare Ministry Leadership Program (0 Credit Hours)
Providing training in the basics of Catholic mission, identity, ethics, and leadership, the Certificate in Heath Care Ministry Leadership will prepare Presence Health staff to carry out its mission of providing compassionate, holistic care in the spirit of healing and hope to the communities it serves.
Outcomes:
This program is designed to build a community of leaders with shared formation experience, explore authentic paths to spirituality, develop an understanding of how vacation and call relates to Catholic healthcare, and strengthen overall leadership acumen and strategic thinking abilities

EXED 165 Barilla Leadership & Management Development Program (0 Credit Hours)
This custom program is designed to support the development of a leadership pipeline at Barilla. The program consists of 3 learning modules and integrated capstone projects and covers leadership and business acumen topics.
Outcomes:
Strengthen overall business acumen and gain a better understanding of the key functional areas of business, including the frameworks, models and levers that drive organizational success; Develop strategy skills

EXED 170 McShane Companies Leadership Emphasis (0 Credit Hours)
Formal leadership training provided as a component of the McShane Future Leaders Program.
Outcomes:
Improved leadership and strategy acumen

EXED 173 American College of Surgeons - Leadership (0 Credit Hours)
Customized leadership training for the executive leadership team at American College of Surgeons, includes Leadership Legacy and Decision-Making.
Outcomes:
Provide senior leaders with ongoing leadership skill development

EXED 174 The Cradle (0 Credit Hours)
Participants will learn Leadership Development and Change Management Essentials.
Outcomes:
To have more leadership team at The Cradle

EXED 175 Yaskawa America Inc. (0 Credit Hours)
Participants will learn Negotiation Skills for their Supply Chain team.
Outcomes:
To have more knowledge on negotiations skills for their sales team

EXED 176 MorrisAnderson (0 Credit Hours)
Participants will learn Leadership skills in a 3 hour workshop.
Outcomes:
To assist their team with new managers getting up to speed on their leadership soft skill

EXED 177 Family Business Center Learning Institutes (0 Credit Hours)
Three institutes from FBC are moving their education to EE. This includes Family Business Stewardship Institute, Next Generation Leadership Institute and Governance Institute.
Outcomes:
To assist family business staff with challenges they face within their family organization

EXED 178 Cook County State's Attorney's Office Leadership (0 Credit Hours)
Participants will learn leadership skills during their 3-hour seminar.
Outcomes:
to have more knowledge on managing their teams with the CCSAO

EXED 179 C.H. Robinson Professional Development Programs (0 Credit Hours)
Participants will learn negotiations and sales training.
Outcomes:
To have more knowledge for their team on sale tactics

EXED 180 World's Finest Chocolate Anti Harasssment Training (0 Credit Hours)
The entire staff of WFC will participate in a Loyola created and moderated Anti-Harassment Training.
Outcomes:
To have more knowledge to speak up against harassment in the workplace

EXED 181 Campus Brasil MBA International Program (0 Credit Hours)
Campus Brasil is partnering with a University in Brazil to send 40 MBA students to Loyola this summer.
Outcomes:
To have more knowledge on business global affairs in America vs Brazil

EXED 182 Centene Corporation (0 Credit Hours)
Participants will learn Strategy skills for the management team.
Outcomes:
To have more knowledge on negotiations skills for their sales team

EXED 183 Litera Microsystems (0 Credit Hours)
Participants will learn leadership development skills during an off-site three-day program for their team.
Outcomes:
To have more knowledge of leadership skills for their sales team

EXED 184 Medline Industries (0 Credit Hours)
Participants will learn negotiation skills during an off-site two-day program for their engineering team.
Outcomes:
To have more knowledge of negotiation skills for their team

EXED 185 Anthony Marano Company (0 Credit Hours)
Participants will learn leadership development skills during a two month program for their Executive Team and Sales Team.
Outcomes:
To have more knowledge of leadership and negotiation skills for their team

EXED 186 Box Studio (0 Credit Hours)
Participants will learn project management skills during a two day program for executive team of their small business.
Outcomes:
To have a company wide understanding for a project management model

EXED 187 Triple S (0 Credit Hours)
Participants will learn business soft skills for their family owned businesses who are identified as "emerging leaders" via an association called Triple S.
Outcomes:
To have a good business background when finishing the program

EXED 188 Real Estate Investment Strategy (0 Credit Hours)
Participants will learn from industry experts on how to invest smartly in real estate.
Outcomes:
To have more knowledge of the real estate industry and the Chicago market

EXED 189 Edelman Procurement 101 Program (0 Credit Hours)
Participants will learn best practices in procurement.
Outcomes:
To have more knowledge of the real estate industry and the Chicago market

EXED 190 FBC Peer Advisory Group (0 Credit Hours)
FBC Peer Advisory Group for Family Business Center Members.
Outcomes:
Resolution of family business issues thru discussion

EXED 191 Fundraising for Good (0 Credit Hours)
Baumhart Center Fundraising Sessions.
Outcomes:
Social Impact Fundraising Seminar

EXED 192 Ciena 1 - Day Negotiations Conference Program (0 Credit Hours)
Participants will learn negotiations strategies and skills.
Outcomes:
To have more knowledge on negotiation skills for their sales team

EXED 193 Cook County Sheriff's Office - Executive Leadership Management Program (0 Credit Hours)
Participants will learn management / leadership strategies and skills.
Outcomes:
To have more knowledge on negotiation skills for their sales team

EXED 194 Next Generation Leadership Institute (0 Credit Hours)
Next generation leadership class for family businesses.

EXED 195 Chicago Community Trust (0 Credit Hours)
Participants will learn leadership development skills during a two day program for their Executive team.
Outcomes:
To have more knowledge of leadership skills for their team

EXED 196 Lumberman Leadership Summit 2019 (0 Credit Hours)
Participants will learn leadership development skills during a two day program for their Executive team.
Outcomes:
To have more knowledge of leadership skills for their team

EXED 197 Open Enrollment: SHRM Certification Prep Class (0 Credit Hours)
Participants will learn HR principals for prep for the SHRM Certification Classes.
Outcomes:
To have more knowledge of human resource practices

EXED 198 Custom Program: The Northern Trust Company (0 Credit Hours)
Participants will learn how to be professional advisors for their clients.
Outcomes:
To have more knowledge of business skills in cultivation

EXED 199 Custom Program: Peco Foods Supply Chain and Coms. (0 Credit Hours)
Participants will learn more supply chain skills and how to communicate these skills to their groups.
Outcomes:
To have more knowledge of business skills in cultivation

EXED 200 Custom Program: Bish Creative Display Leadership (0 Credit Hours)
Participants will learn more skills in executive presence via leadership training courses.
Outcomes:
To have more knowledge of business skills leadership, management and communication

EXED 201 FBC Goverence Institute (0 Credit Hours)
Participants will learn Gov. Institute Skills for the alumni of FBC.
Outcomes:
To have more knowledge of business skills leadership, management and communication

EXED 202 Custom Program - Invenergy (0 Credit Hours)
Participants will learn leadership, management, presentation and communication skills.
Outcomes:
To have more knowledge of business skills leadership, management and communication

EXED 203 Custom Program - BluJay (0 Credit Hours)
Participants will learn negotiation skills.
Outcomes:
To have more knowledge communication skills via negotiations

EXED 204 Executive Education Master Classes - Open Enrollment Classes (0 Credit Hours)
These 2-3 classes are designed to pipeline to additional paid programming at LUC.

EXED 205 Diversity, Equity and Inclusion (0 Credit Hours)
Classes for Baumhart Center.
Outcomes:
Business Acumen skill sets

EXED 206 Executive Education - Custom Program - Palo Alto Networks (0 Credit Hours)
These 10 classes are designed to pipeline to additional paid programming at LUC.
Outcomes:
Business Acumen skill sets

EXED 207 Executive Education Custom Program - PNC Bank (0 Credit Hours)
5 - 1.5 hour lecturette series for professional development for the PNC Bank team.
Outcomes:
Business Acumen skill sets

EXED 208 Executive Education Custom Program - Allstate (0 Credit Hours)
3 month long professional development skills for the Allstate procurement officer.
Outcomes:
Business Acumen skill sets

EXED 209 Executive Education Custom Program - Mother McAuley Liberal Arts High School (0 Credit Hours)
3 month long professional development skills for the Mother McAuley leadership team on strategic planning.
Outcomes:
Business Acumen skill sets

EXED 210 Executive Education Custom Program - ILSBDC a partnership with Loyola Limited and InQbate (0 Credit Hours)
3 month long professional development skills small business owners, in partnership with ILSBDC and Loyola Limited/InQbate
Outcomes:
Professional Marketing Skills Sets

EXED 211 Executive Education Custom Program-Transunion Women in Ldrshp (0 Credit Hours)
A 15-18 month long professional development program with customized case studies related to TU projects and business.
Outcomes:
Business Accument and Leadership Development skills

EXED 212 Executive Education Custom Program - Topco Associates (0 Credit Hours)
A 12 month, professional development program with customized classes focused on Leadership.
Outcomes:
Business Accument and Leadership Development skills

EXED 213 Executive Education Custom Program - National Concierge Association (0 Credit Hours)
A 1 day project management webinar. 90 minutes.
Outcomes:
Project Management Essentials

A 10 day program, broken up over two weeks, non-profit managers learning about putting good business skills, merging profit and purpose.
Outcomes:
Non-profit management skills

EXED 215 Executive Education Custom Program - Cristo Rey Network for DEI Strategy Program (0 Credit Hours)
Six sessions program for non-profit managers learning about DEI Strategy.
Outcomes:
Non-profit management skills

EXED 216 Executive Education Custom Program - Dog Tag Fellows Business Acumen program (0 Credit Hours)
Six-month program for Dog Tag Fellows (veterans) for small business skill sets.
Outcomes:
Non-profit management skills

EXED 217 Executive Executive Custom Program - City of Chicago Leadership program (0 Credit Hours)
Three session program for the City of Chicago's IG office. on leadership and management skills sets.
Outcomes:
Non-profit management skills

Finance (FINC)

FINC 215 Personal Finance (3 Credit Hours)
Pre-requisites: None, does not count toward a concentration in finance
This is an applied course in planning, organizing, and managing an individual's personal finances.
Outcomes:
Students will demonstrate knowledge of financial planning, individual income tax, time value of money, liquidity management, consumer credit, insurance, employee benefits, and the basics of personal investing

FINC 301 Introductory Business Finance (3 Credit Hours)
Pre-requisites: Sophomore Standing and C- or better in ECON 201, ISSCM 241, ACCT 201
ACCT 201 can be taken as co-requisite. The objective of this course is to provide students with a basic understanding of the general principles of business finance: capital investment, financing, capital structure, and related areas including the basics of valuation.
Course equivalencies: FINC332/FINC332H/CPST371
Outcomes:
Students will demonstrate basic knowledge of financial analysis, time value of money, financial decision making, the valuation of financial and physical assets, the risk-return tradeoff, capital budgeting, and dividend policy

FINC 334 Principles of Corporate Finance (3 Credit Hours)
Pre-requisites: Sophomore standing and "C-" or better in ECON 201, ISSCM 241, ACCT 201, MATH 131 or MATH 161; (ACCT 201 may taken as a co-requisite)
This course provides students with a foundational and integrated knowledge of corporate finance. Topics include discounted cash flows, firm valuation, capital budgeting, principals of the risk and return relationship, market efficiency, capital structure, and financing. Students will be asked to independently complete the Bloomberg Market Concepts (BMC) course.
Course equivalencies: FINC332/FINC 334/CPST271
Outcomes:
Students will demonstrate knowledge of valuation principles, raising funds for investment decisions, capital investment choices, risk and return relationship, capital markets and instruments, all in the context of real-world problems and situations

FINC 334H Principles of Corporate Finance- Honors (3 Credit Hours)
Pre-requisites: Sophomore standing and "C-" or better in ECON 201 or ECON 201H, ISSCM 241 or ISSCM 241 H, ACCT 201 or ACCT 201H, MATH 131 or MATH 161; (ACCT 201 may taken as a co-requisite)
This course provides students with a foundational and integrated knowledge of corporate finance. Topics include discounted cash flows, firm valuation, capital budgeting, principals of the risk and return relationship, market efficiency, capital structure, and financing. Students will be asked to independently complete the Bloomberg Market Concepts (BMC) course.
Course equivalencies: FINC332/FINC 334/CPST271
Outcomes:
Students will demonstrate knowledge of valuation principles, raising funds for investment decisions, capital investment choices, risk and return relationship, capital markets and instruments, all in the context of real-world problems and situations

FINC 335 Investments (3 Credit Hours)
Pre-requisites: Sophomore Standing and minimum grade of "C-" in FINC 334, FINC 334H or FINC 332
This course is an introductory course of capital market theory which includes the topics of risk and return analysis of stocks, bonds and cash equivalents; modern portfolio theory; bond pricing, the term structure of interest.
Outcomes:
Students will be able to demonstrate the analytical tools and finance theory necessary for making good investment decisions and for understanding the pricing of financial securities

FINC 336 Introduction to Derivatives (3 Credit Hours)
Pre-requisites: Junior standing, C- or better in FINC 335
This course offers a high level introduction to three categories of derivative markets: futures-forwards, swaps and options. Skills to be developed include analytical and decision-making, creative thinking and communication. Risk as both potential loss and opportunity for gain will be highlighted. Cases will be used.
Outcomes:
Exploring ethical and social dimensions of risk management and use and abuse of derivative securities

FINC 337 Banking, Money & Capital Markets (3 Credit Hours)
Pre-requisites: Junior Standing, Minimum grade of "C-" in: FINC 301 or FINC 332 or FINC 332H or FINC 334 or FINC 334H
Introduction to financial markets and institutions and to the Federal Reserve and monetary policy.
Outcomes:
Students will be able to demonstrate an understanding of how financial markets and institutions work and are important to financial decision making, how interest rates and bond prices are determined and interrelated, why and how financial institutions are regulated by the government, and who the Federal Reserve is and how its actions affect the economy

FINC 338 Risk Management and Insurance (3 Credit Hours)
Pre-requisites: Junior Standing, Minimum grade of "C-" in FINC 301 or FINC 332 or FINC 332H or FINC 334 or FINC 334H
Intro to risk identification, risk evaluation & risk treatment methods. Consideration is given to both business & personal risks, with an emphasis on insurance as a risk management tool.
Outcomes:
This course will prepare students with practical risk management and insurance principles/fundamentals, introduce risk management and insurance techniques and apply risk management analytical methods

FINC 342 Advanced Business Finance (3 Credit Hours)
Pre-requisites: Junior standing; Minimum grade of "C-" in FINC 335
This is an advanced course in corporate finance where students are given a thorough grounding in firm valuation and exposed to various financial decisions including raising capital, mergers and acquisitions, leveraged buyouts, spin-offs, and carve-outs, all in the context of their impact on firm value.
Outcomes:
Students will be able to demonstrate an understanding of firm valuation, as well as the impact of various corporate decisions on firm value

FINC 345 Portfolio Management (3 Credit Hours)
Pre-requisites: Junior standing; Minimum grade of "C-" in FINC 335
Topics include a critical appraisal of the efficient market hypothesis, asset allocation using the Markowitz mean-variance framework, fundamental and technical analysis, and mutual fund performance evaluation.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students will understand how stocks and other assets are selected; how economic and company information is monitored and used to adjust portfolio holdings; and how portfolios can be optimized to achieve targeted risk/return characteristics

FINC 346 Introduction to Options (3 Credit Hours)
Pre-requisites: Junior standing; Minimum grade of "C-" in FINC 335
This class offers a comprehensive introduction to options, including a detailed examination of option markets, option properties, trading strategies using options, binomial tree and Black-Scholes valuation models, and hedging strategies using options.
Outcomes:
Students will be able to demonstrate an understanding of option markets, option pricing models and how options can be used to hedge risks

FINC 347 Financial Institutions (3 Credit Hours)
Pre-requisites: Junior Standing, Minimum grade of "C-" in FINC 301 or FINC 332 or FINC 332H or FINC 334 or FINC 334H
A study of the crucial role played by financial institutions. The course will be a blend of theory and analysis of the present institutional structure.
Outcomes:
Students will demonstrate an understanding of the following: the important role of financial intermediaries, interest rate risks, credit risks, market risk, and also risk management through capital adequacy and hedging risk with financial derivatives

FINC 349 Real Estate Finance & Investments (3 Credit Hours)
Pre-requisites: Junior standing, Minimum C- in FINC 334
Basic principles of real estate finance as well as practical applications. Learn topics, theories and current developments in real estate. Solve quantitative problems.
Outcomes:
General & working knowledge of real estate jargon and legal documents; Calculate mathematical solutions to problems in real estate; Understand time value of money related to real estate; Valuation of residential and commercial properties

FINC 355 International Finance Management (3 Credit Hours)
Pre-requisites: Junior Standing, Minimum grade of "C-" in FINC 301 or FINC 332 or FINC 332H or FINC 334 or FINC 334H
This course examines the international dimensions of financial management. It introduces additional economic and financial opportunities/challenges faced by multinational corporations.
Interdisciplinary Option: Global Studies, International Business
Course equivalencies: X-FINC355/INTS369
Outcomes:
Students will be able to demonstrate understanding of foreign exchange markets, fundamental international parity relationships, reasons for international diversification, steps in foreign exchange risk management, and capital budgeting for multinational corporation

FINC 356 Advanced Topics in Investment Banking and Asset Management (3 Credit Hours)
Pre-requisites: B- or higher in FINC 335
This course examines selected topics in investment banking and asset management, including stock and bond offerings, private equity, buyouts, mergers and acquisitions. Students in the course research publicly traded companies, write equity research reports and pitch investment ideas; they also mentor junior analysts in the Rambler Investment Fund (RIF). This course satisfies the Engaged Learning requirement.
Outcomes:
Conduct research; Write an equity investment report and pitch a trade idea; Value companies; Analyze investment banking transactions

FINC 357 Cases in Corporate Finance (3 Credit Hours)
Pre-requisites: Senior standing; Minimum grade of "C-" in FINC 335
This cases based course is designed to explore the practical application of the major corporate finance topics.
Outcomes:
Students will be able to understand how corporations use the conceptual aspects of corporate finance in real life settings; They will also learn to use the necessary tools in evaluating various corporate investment and financing decisions; They will apply these tools in solving the cases involving investment (such as building a new plant, or acquiring another firm) and financing (such as capital structure policy, and cost of capital) decisions

FINC 358 Financial Analytics (3 Credit Hours)
Pre-requisites: Junior Standing and minimum "C-" in FINC 335
This course focuses on how to use Python to build financial models. The course will examine financial securities, portfolio optimization, and valuation problems.
Outcomes:
Building financial models with Python; Translating raw data into meaningful variables for statistical analysis; Estimating statistical models to drive investment decisions; Valuation of securities; Portfolio optimization and implementing trading strategies

FINC 365 Advanced International Financial Management (3 Credit Hours)
Pre-requisites: A minimum grade of "C-" in FINC 335 and FINC 355
This course covers advanced topics in international financial management. The course builds on materials discussed in International Financial Management (FINC 355). Specifically, this course exposes the students to: foreign exchange risk management, currency swaps, foreign exchange rate forecasting, efficiency of foreign exchange markets, international capital structure and cost of capital, global investment, multinational capital budgeting, multinational cash management, cross-border acquisitions, and international trade finance.
Outcomes:
Understand the global financial markets, perform multinational capital budgeting, and understand global portfolio management

FINC 395 Independent Study in Finance (1-3 Credit Hours)
Pre-requisites: Junior standing; instructor and dean permission required
Student will conduct in-depth research or reading, initiated by the student and jointly developed with a faculty member, into a specialized area of Finance not otherwise covered by department course offerings.
Outcomes:
Students will be able to demonstrate in-depth understanding of a specialized area or topic in finance

FINC 396 Speaker Series: Risk Management and Insurance (0 Credit Hours)
Professional speaker series for all students majoring in Finance.
Outcomes:
Students will benefit from hearing professionals in the finance industry discuss current events, opportunities and challenges within the industry

FINC 399 Special Topics in Finance (1-3 Credit Hours)
Pre-requisites: Junior standing
Scheduled classes are offered on an ad hoc basis. Specific titles, prerequisites and content will vary.
Outcomes:
Students will be able to demonstrate an understanding of specialized topics not otherwise covered by department regular course offerings

Human Resources & Employment Relations (HRER)

HRER 301 Principles of HR Management (3 Credit Hours)
Pre-requisites: Sophomore standing
This course provides an overview of the various functional areas within the field of human resource management for those who will be working in general management positions as well as in the human resources function. Topics will follow a logical sequence beginning with pre-employment planning and continuing through organizational exit. Specifically, topics will include forecasting human resource needs, employee recruitment and selection, training, performance evaluation, wage and salary administration, collective bargaining, legal constraints on personnel practices and organizational exit.
Course equivalencies: HRER 301/HRER 375

HRER 311 Employment Relations (3 Credit Hours)
Pre-requisites: Junior Standing, C- or better in HRER 301
This course provides an introduction to employee relations, and how companies, labor unions, human resources professionals and the law shape the contemporary relationship between employees and their employers in the United States.
Course equivalencies: MGMT311/HRER311
Outcomes:
Students will demonstrate how management representatives, unions, and government dynamically interact to provide employees voice, balance group interests and power, and resolve workplace conflict

HRER 313 Compensation Management (3 Credit Hours)
Pre-requisites: Junior standing; minimum grade of "C-" in ISSCM 241 and HRER 301
This course examines reward policies, programs and practices over such matters as base-pay, employee benefits and incentive in private and public organizations.
Course equivalencies: MGMT313/HRER313
Outcomes:
Students will learn how to design and implement reward programs that will give their employers a competitive advantage; to resolve compensation problems from both a human resource professional and managerial perspective; and to negotiate fair pay packages with their employers; Students will improve their team leadership, analytical and writing skills

HRER 317 Human Resource Staffing (3 Credit Hours)
Pre-requisites: Junior Standing, "C-" or better in HRER 301
This course covers topics related to organizational staffing, including job analysis, forecasting, use of biographical information, interviewing, statistical analysis, performance evaluation and legal issues related to selection.
Course equivalencies: MGMT317/HRER317
Outcomes:
Students will acquire the knowledge and skills necessary for the development, implementation and evaluation of a staffing system

HRER 322 Human Resource Development (3 Credit Hours)
Pre-requisites: Junior Standing, "C-" or better in HRER 301
This course examines how organizations develop employees with the technical, interpersonal and leadership skills to be effective in their jobs. The course will incorporate training, development, and performance management topics.
Course equivalencies: MGMT322/HRER322/CPST350
Outcomes:
Students will learn how to conduct a training needs assessment, set learning objectives, establish evaluation criteria, select the best instructional methods, conduct a training program and evaluate the impact of the program on the learner and organization; Students will also improve their presentation, team leadership, analytical and writing skills

HRER 325 Global Employment Relations (3 Credit Hours)
Pre-requisites: Junior Standing, C- or better in HRER 301
This course has two basic objectives: to familiarize students with different employment relations systems in advanced industrial economies in North America, Europe, and Asia; and to introduce students to labor problems associated with a global economy (e.g., sweatshops, child labor, slavery and other coercive labor systems) and to proposed approaches to redressing these problems (e.g., transnational institutions like the ILO, trade agreements, voluntary codes of conduct, labor unions).
Interdisciplinary Option: International Business

HRER 329 Global HR and Organizational Behavior (3 Credit Hours)
Pre-requisites: Junior standing, C- or better in HRER 301 or MGMT 201
This course provides an understanding of the critical roles of Human Resource professionals throughout the strategic globalization process. The course will also teach one to become aware of cross-cultural issues that affect organizational dynamics and behaviors central to management processes, such as staffing, motivation, negotiation, communication, and leadership.
Interdisciplinary Option: International Business

HRER 364 Negotiations for HR Professionals (3 Credit Hours)
Pre-requisites: Junior standing; minimum grade of "C-" in MGMT 201
It is generally accepted that a manager spends some 60% of his or her time involved in some form of conflict management and negotiations regarding these five (5) primary functions of any enterprise: (1) human capital (i.e., managing workers); (2) finance (3) service and production (4) vendors and suppliers and (5) general government relations, regulations and public relations (for example labor and employment laws).

HRER 395 Independent Study in Human Resources and Employment Relations (1-3 Credit Hours)
Pre-requisites: Junior Standing, C- or better in HRER 301, department consent required
No course description is available

HRER 399 Special Topics in Human Resources and Employment Relations (1-3 Credit Hours)
Pre-requisites: Junior Standing , C- or better in HRER 301
No course description is available

International Business (IBUS)

IBUS 201 Introduction to International Business (3 Credit Hours)
This course will introduce students to the theory and practice of international business with a focus on international environments and activities of multinational enterprises (MNEs). Topics to be included: cultural, social, legal, trade, and financial characteristics in the world markets. The course will also discuss diverse functional areas of MNEs across national borders such as international: production, logistics, finance, human resource management, and marketing.
Interdisciplinary Option: Global Studies
Course equivalencies: IBUS 201/BSAD 202/BHNR 338
Outcomes:
Develop students' theoretical and practical insights for understanding the real world of international business in terms of both external environmental forces and internal strategic management issues surrounding multinational enterprises (MNEs) in the world markets

IBUS 370 Inernational Business Internship - Engaged Learning (3-6 Credit Hours)
Pre-requisites: Sophomore standing, Permission of Instructor
IBUS 370 is a seminar course that challenges students to analyze the theory and practices from the world of work that impact the ethics of leading, interpersonal and organizational dynamics, and competent work place contributions required for success in the modern business world. Concepts associated with internship/engaged learning as related to career development will be addressed. Students are required to work a minimum of 120 hours over the course of one semester. All internships must be supervised by professionals and may be paid or unpaid.
This course satisfies the Engaged Learning requirement.
Outcomes:
a) Developing a foundation on which a student may build a career; b) Understanding the role of the Jesuit tradition as it relates to leadership and service

IBUS 399 Special Topics in International Business (3 Credit Hours)
Special Topics are classes offered on an ad hoc basis. Specific titles, prerequisites and content will vary.

Information Systems (INFS)

INFS 247 Business Information Systems (3 Credit Hours)
Focuses on using information technology to support business processes. The purpose and composition of information systems, the utilization of technology and hands-on experience in developing microcomputer business applications with productivity tools (Microsoft Excel and Access).
Course equivalencies: INFS247/ISOM/MGSC247/ACINF247
Outcomes:
Understanding of using information technology to support business processes, and of developing business spreadsheet and database applications

INFS 247H Business Information Systems - Honors (3 Credit Hours)
Restricted to SBA honors students. Focuses on using information technology to support business processes. The purpose and composition of information systems, the utilization of technology and hands-on experience in developing microcomputer business applications with productivity tools (Microsoft Excel and Access).
Course equivalencies: INFS247/ISOM/MGSC247/ACINF247
Outcomes:
Understanding of using information technology to support business processes, and of developing business spreadsheet and database applications

INFS 336 Global Perspectives on Digital Business (3 Credit Hours)
Pre-requisites: Minimum grade of "C-" in INFS 247
This course will present topics related to managing information systems projects and digital business from a global perspective. Project management issues such as analyzing stakeholders, defining expectations, defining project deliverables, analyzing scope, collecting requirements, developing schedules, and mitigating risk, will be covered. Also, variety of digital business issues, such as digital business models, disruptive forces, and digital strategies will be covered from a global perspective.
Outcomes:
Understanding of concepts and steps related management of digital business project in a global environment; Understanding of general and global digital business concepts and issues

INFS 343 Business Analytics (3 Credit Hours)
Pre-requisites: Sophomore standing, C- or better in ISSCM 241, INFS 247 and MATH 131 or MATH 161
This course covers basic principles in data modelling, and turning big data into intelligent actionable insights. Through the use of real business case studies and lab sessions students will develop a comprehensive, innovative and practical approach to data analytics that enables them to solve diverse and complex business problems.
Course equivalencies: BSAD343/BSAD343H
Outcomes:
Explain core design concepts, appraise various technological solutions, determine proper analytics methods, integrate data visualization, and make a compelling presentation of a novel use case depicting current market trends

INFS 343H Business Analytics - Honors (3 Credit Hours)
Pre-requisites: C- or better in ISSCM 241H or ISSCM 241 and INFS 247H or ISSCM 247 and MATH 131 or MATH 161
This course covers basic principles in data modeling, and turning big data into intelligent actionable insights. Through the use of real business case studies and lab sessions students will develop a comprehensive, innovative and practical approach to data analytics that enables them to solve diverse and complex business problems.
Course equivalencies: BSAD343/BSAD343H
Outcomes:
Explain core design concepts, appraise various technological solutions, determine proper analytics methods, integrate data visualization, and make a compelling presentation of a novel use case depicting current market trends

INFS 346 Database & Data Warehousing Systems (3 Credit Hours)
Pre-requisites: Sophomore Standing, minimum grade of "C-" in INFS/ISSCM 247
Covers current concepts in database theory and use. The course teaches design, implementation, and utilization of relational database management systems by covering the processes, tools, and methodologies such as business requirement collection, ER modeling, relational modeling, normalization, SQL, and MS Access.
Course equivalencies: ISOM346 / MGSC346
Outcomes:
Students will be able to demonstrate understanding of how to effectively develop and use business database system

INFS 347 Systems Analysis & Design (3 Credit Hours)
Pre-requisites: Sophomore Standing, minimum grade of "C-" in INFS 247
This course studies methods for analyzing, developing and implementing business information systems. Stages of the systems development life cycle are explored in depth. Tools and techniques for structured and object-oriented analysis and design are discussed.
Outcomes:
Understanding of the development and implementation of business information systems

INFS 348 Advanced Data Analytics (3 Credit Hours)
Pre-requisites: Minimum grade of C- in INFS 346 or COMP 353
This class covers current concepts in computer analytics applications. The course emphasis is on how clients can leverage modern computing architectures and technology such as, Hadoop and R, to analyze patterns across large amounts of data. These relevant technologies (Hadoop and R) will be heavily utilized in the course.
Course equivalencies: ISOM348 / MGSC348
Outcomes:
The student will be able to demonstrate understanding of how to effectively use technologies such as Hadoop & R for solving business problems of varying levels of complexity

INFS 360 Data Visualization & Business Intelligence (3 Credit Hours)
Pre-requisites: Minimum grade of "C-" in INFS 346
The amount of data that our world generates is growing at a torrid pace. Sifting through & making sense of these humongous mountains of data is crucial to ensuring business growth, success and to making scientific discoveries & advancements. Data visualization plays an important role in this process.
Outcomes:
Students will be able to process & visualize large amounts of data in order to enable efficient & effective analysis using industry standard software

INFS 394 Programming in Python (3 Credit Hours)
Pre-requisites: Junior standing and a minimum grade of C- in INFS 346
This course focuses on how to effectively use the Python computer programming language to support decision making in business. We will particularly focus on using Python for manipulating and analyzing data. In addition to covering the concepts of programming, this course covers working with external data, debugging code and developing user interfaces.
Outcomes:
To learn how to develop computer programs in the Python programming language; To understand the process of debugging code to resolve errors; To read data from external files including from an external database using embedded SQL within Python code

INFS 395 Independent Study in Information Systems (1-3 Credit Hours)
Independent study is in-depth research or reading, initiated by the student and jointly developed with a faculty member in a specialized area of Information Systems not otherwise covered by departmental course offerings. Variable Credit. May count for Information Systems major or minor. Permission of Assistant Dean required.

INFS 397 VBA Programming with MS Office (3 Credit Hours)
Pre-requisites: Junior Standing, minimum grade of "C-" in INFS 346
This course focuses on how to effectively use Microsoft Office's built-in programming language, Visual Basic for Applications (VBA), to build models, primarily in Excel. We will cover issues that facilitate the construction of robust and readily understandable models in the VBA language. Starting with basic modeling functions, the course will progress through complex modeling skills. This course assumes that you are familiar with Basic Excel operations. By the end of this course, the student should be able to: build models using Excel built-in functions, build, customize and store Excel macros, design and build accurate, robust models with VBA, build custom VBA procedures, and create user-defined financial functions in VBA.

INFS 399 Special Topics in Information Systems (1-3 Credit Hours)
Special topics are scheduled classes offered on an ad hoc basis. Specific titles, prerequisites and content will vary.

Information Systems and Supply Chain Management (ISSCM)

ISSCM 241 Business Statistics (3 Credit Hours)
This course examines the steps and procedures required to solve problems in science, social science, and business where data are useful - from the definition of the managerial problems to the use of statistical analysis to address these problems.
Knowledge Area: Quantitative Knowledge
Course equivalencies: ISOM/H/MGSC241/STAT103/ACST101
Outcomes:
Students will be able to demonstrate understanding of statistical thinking and data analysis technique for decision-making purposes

ISSCM 241H Business Statistics - Honors (3 Credit Hours)
Restricted to SBA honors students. This course examines the steps and procedures required to solve problems in science, social science, and business where data are useful - from the definition of the managerial problems to the use of statistical analysis to address these problems.
Course equivalencies: ISOM/H/MGSC241/STAT103/ACST101
Outcomes:
Students will be able to demonstrate understanding of statistical thinking and data analysis technique for decision-making purposes

ISSCM 349 Project Management (3 Credit Hours)
Pre-requisites: Junior Standing; Grade of C- or higher in ACCT 201 & MGMT 201
The art and science of project management as applied to business, industrial, and public projects. Covers: the project life cycle; project teambuilding; techniques for planning, scheduling and controlling projects; project organizations; project leadership and stakeholders.
Course equivalencies: ISOM 349/ISOM 357/MGSC 349
Outcomes:
Understanding of the broader role of the project manager with regard to all project stakeholders, and of methods and steps for initiating, defining, and executing projects

ISSCM 393 Requirements Analysis and Communication (3 Credit Hours)
Pre-requisites: Junior Standing, minimum grade of "C-" or better in ISSCM 247
This course focuses on Information Systems requirements and related communication skills. Students will learn how to gather requirements for Information Systems from an organization's users and executives based on a general understanding of organizations and business goals. Students learn techniques of how to translate between organizational needs and requirements for systems and processes, and how to analyze, validate, and prioritize those requirements. A special focus of the course will be to improve business communication skills such as interviewing, listening, presenting and negotiating.
This course satisfies the Engaged Learning requirement.
Course equivalencies: ISOM393 / MGSC393

ISSCM 395 Independent Study in ISSCM (1-3 Credit Hours)
Pre-requisites: Junior Standing, Instructor and Dean permission
Independent study is in-depth research or reading, initiated by the student and jointly developed with a faculty member, into a specialized area of information Systems and Operations Management not otherwise covered by department course offerings. Variable credit. This course is for students who major in either Information Systems or Operations Management. Will count toward major requirements. Permission of Assistant Dean required.

ISSCM 399 Special Topics in ISSCM (1-3 Credit Hours)
Pre-requisites: Junior Standing
Special Topics are scheduled classes offered on an ad hoc basis. Specific titles, prerequisites and content will vary.
Course equivalencies: ISOM399 / MGSC399

Legal Environment of Business (LREB)

LREB 315 Law and the Regulatory Environment of Business I (3 Credit Hours)
Pre-requisites: Junior standing
This course is designed to familiarize the student with the American legal system. Intended primarily for students who have not previously studied law, the course includes a review of the concept of law, the function of the courts, and the dual judicial system of the United States. An appreciation of legal history and the operation of law are developed through the vehicle of a detailed analysis of contract law and a survey of other topical headings.
Course equivalencies: LREB315/315H
Outcomes:
The students should achieve an awareness of the necessity of voluntary compliance with general legal concepts in order for society to enable all persons to live together in harmony; An understanding of the court system as a substitute for self-help is deemed essential and knowledge of binding contract law is fostered as a basis for all agreements

LREB 315H Law and the Regulatory Environment of Business I - Honors (3 Credit Hours)
Pre-requisites: Junior standing; restricted to SBA honors students
This course is designed to familiarize the student with the American legal system. Intended primarily for students who have not previously studied law, the course includes a review of the concept of law, the function of the courts, and the dual judicial system of the United States. An appreciation of legal history and the operation of law are developed through the vehicle of a detailed analysis of contract law and a survey of other topical headings.
Course equivalencies: LREB315/315H
Outcomes:
The students should achieve an awareness of the necessity of voluntary compliance with general legal concepts in order for society to enable all persons to live together in harmony; An understanding of the court system as a substitute for self-help is deemed essential and knowledge of binding contract law is fostered as a basis for all agreements

Marketing (MARK)

MARK 201 Principles of Marketing (3 Credit Hours)
Pre-requisites: Sophomore standing
This course develops an understanding of the marketing systems by which organizations plan, price, promote and distribute products and services to selected target markets.
Course equivalencies: MARK201/201H/301/CPST340
Outcomes:
Students analyze market conditions and apply the basic tools to develop marketing strategies to successfully meet the customers' needs resulting in a viable, profitable organization

MARK 201H Principles of Marketing - Honors (3 Credit Hours)
Pre-requisites: Sophomore standing or above; Restricted to SBA honors students
This course develops an understanding of the marketing systems by which organizations plan, price, promote and distribute products and services to selected target markets.
Course equivalencies: MARK201/201H/301/CPST340
Outcomes:
Students analyze market conditions and apply the basic tools to develop marketing strategies to successfully meet the customers' needs resulting in a viable, profitable organization

MARK 310 Consumer Behavior (3 Credit Hours)
Pre-requisites: Junior standing, minimum grade of "C-" in MARK 201
This course develops an understanding of how consumers behave before, during and after the consumption process through a discussion of cultural, social and perceptual factors.
Outcomes:
Students evaluate consumer behavior and apply their understanding in the creation of a marketing plan designed to improve the brand equity of a firm

MARK 311 Marketing Research (3 Credit Hours)
Pre-requisites: Junior standing, minimum grade of "C-" in MARK 310 and ISSCM 241
This course develops an understanding of the research process from problem formulation through research report preparation. Both qualitative and quantitative research methodologies are discussed. The focus is on using research results in marketing decision making. Empirical data are analyzed using state of the art analytical tools.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students identify managerial problems, research objectives, design data collection instruments, and sampling procedures; Data collection and analysis is discussed; Cases, exercises and/or a written research proposal or report is a primary outcome of the course

MARK 312 Gender and Marketing (3 Credit Hours)
Pre-requisites: Junior standing; Minimum grade of "C-" in MARK 201
How do the 4Ps of Marketing, product, price, place, and promotion, influence gender, and how does gender influence the 4Ps? Students will learn how to address the relationship between Gender and Marketing. Example topics may include, but are not limited to, Masculinity, Media, and Marketing, Women, Media, and Marketing, and Millennials, Gender and Marketing.
Outcomes:
Understand how marketing strategy reflects and shapes socio-cultural norms so that you can build strategies that reflect and shape those norms; Learn how research on social trends is conducted and how it is used in strategy, so that you can perform such research in marketing contexts

MARK 320 Marketing for Environmental Sustainability (3 Credit Hours)
Pre-requisites: MARK 201 and Junior Standing
The course shows students how to use marketing to address the complexities of sustainability including: climate change, poverty, food shortages, oil depletion and species extinction. Design-for-environment, full-cost pricing, greening the channels of distribution and life-cycle impact are some of the concepts covered in this course.
Outcomes:
Provide students with the knowledge and skills needed to develop marketing products that contribute to environmental sustainability

MARK 321 Ignatian Design Thinking (3 Credit Hours)
Pre-requisites: Minimum grade of C- in MARK 201 and Junior standing
This course will provide an in-depth look into the role design thinking plays in our Ignatian tradition for servant leadership. Through human-centered design practices, we will explore our Ignatian imagination to seek and solve for our world's grandest challenges.
This course satisfies the Engaged Learning requirement.
Outcomes:
An understanding in the scope and application of human-centered design as a Mindset and a Method

MARK 323 Personal Selling (3 Credit Hours)
Pre-requisites: Junior standing, minimum grade of "C-" in MARK 201
This course develops an understanding of the role of personal selling and sales force management, which are extremely critical in business-to-business marketing strategies, and the ethical and legal responsibilities of sales managers.
Outcomes:
Students develop skills in sales force organization and sales techniques as well as in the recruiting, selecting, training, motivating, compensating and evaluating sales people

MARK 334 Services Marketing (3 Credit Hours)
Pre-requisites: Junior standing and minimum grade of C- in MARK 201
Service organizations (e.g. banks, transportation companies, hotels, hospitals, educational institutions, & professional services) require a distinctive approach to marketing strategy in both development and execution. Also, the course focuses on the role of service in manufacturing businesses. The course will cover why people are essential to service success. Differentiate between product & service characteristics; understand, analyze, develop, modify employee behavior in a service environment, identify critical issues to service design, understand importance of facility location.

MARK 360 Retailing Management (3 Credit Hours)
Pre-requisites: Junior standing, minimum grade of "C-" in MARK 201
This course develops an understanding of retailing and the role that retailing plays in the marketing system and in marketing strategies.
Outcomes:
Students analyze and develop retail strategies that fit and support overall marketing strategies

MARK 363 International Marketing (3 Credit Hours)
Pre-requisites: Junior standing, minimum grade of "C-" in MARK 201
This course develops an understanding of how marketing strategies are developed in the global environment.
Interdisciplinary Option: Global Studies, International Business
Course equivalencies: X-MARK363/INTS363
Outcomes:
Students evaluate cultural, governmental, economic and competitive conditions to illustrate how these factors impact an organization's marketing strategy; Attention is paid to the positive and negative consequences of globalization

MARK 367 Multicultural Marketing (3 Credit Hours)
Pre-requisites: Junior Standing, minimum grade of "C-" in MARK 201
In this course, we address (1) past and current knowledge on multicultural marketing, (2) important challenges with respect to marketplace diversity and inclusion, and (3) what approaches can be used to construct better marketing plans and tactics.
Outcomes:
Students should have a working knowledge of the principal theories and research findings in multicultural marketing and should be able to integrate and apply this knowledge with respect to effective strategies for marketplace diversity and inclusion

MARK 370 Political Marketing (3 Credit Hours)
Pre-requisites: Junior standing, minimum grade of "C-" in MARK 201
No course description is available

MARK 373 Integrated Marketing Communications (3 Credit Hours)
Pre-requisites: Junior standing, minimum grade of "C-" in MARK 201
This course develops an understanding of advertising strategy and advertising campaigns, including the external environment, how agencies are structured and how consumer metrics are integrated.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students develop skills in managing the integration of media, strategy and creative design in developing sound advertising campaigns

MARK 380 Digital Marketing (3 Credit Hours)
Pre-requisites: Junior standing, minimum grade of "C-" in MARK 201
Emphases is on strategies and tactics for creating, retaining, and enhancing customer relationships via the World Wide Web, and on integrating the digital environment into the marketing mix. In addition to learning fundamental principles of the digital channel, students will apply the learned principles of the digital channel in a class project. Readings, lectures, and industry professionals may be used to provide insights and relevance to this area of marketing.
Outcomes:
Students will be able to analyze and assess online marketing platforms and develop an integrated digital marketing plan

MARK 390 Marketing Strategies (3 Credit Hours)
Pre-requisites: Senior standing, minimum grade of "C-" in MARK 310, (FINC 301 or FINC 334 or FINC 334H), (SCMG 332 or SCMG 332H or SCMG 232 or SCMG 232H), and prior or concurrent enrollment in MARK 311
This capstone course develops an understanding of all marketing decisions involved in planning marketing strategies.
Course equivalencies: MARK390 / MARK324
Outcomes:
Students develop a comprehensive marketing plan by applying skills in financial analysis, competitive scanning, and appropriate marketing strategies

MARK 395 Independent Study (1-3 Credit Hours)
Pre-requisites: Junior standing; Instructor and Dean permission
Independent Study is an in-depth research or reading, initiated by the student and jointly developed with a faculty member, into a specialized area of marketing not otherwise covered by the department course offerings.
Outcomes:
Varies with topic

MARK 399 Special Topics in Marketing (1-3 Credit Hours)
Pre-requisites: Junior standing
Special Topics are scheduled classes offered on an ad hoc basis. Specific titles and content will vary.
Outcomes:
Varies with topic

Management (MGMT)

MGMT 201 Managing People and Organizations (3 Credit Hours)
Pre-requisites: Sophomore standing
This course introduces students to the dynamics of human behavior in the workplace through the study of such topics as perception, learning, motivation, leadership and group behavior.
Course equivalencies: MGMT201/201H/301/CPST250/ACMGT
Outcomes:
Students will learn principles of interpersonal influence, conflict resolution, and effective group behavior and develop an awareness of ethical issues in the workplace and organizational social responsibility

MGMT 201H Managing People and Organizations - Honors (3 Credit Hours)
Sophomore standing or above; Restricted to SBA honors students. This course introduces students to the dynamics of human behavior in the workplace through the study of such topics as perception, learning, motivation, leadership and group behavior.
Course equivalencies: MGMT201/201H/301/CPST250/ACMGT
Outcomes:
Students will learn principles of interpersonal influence, conflict resolution, and effective group behavior and develop an awareness of ethical issues in the workplace and organizational social responsibility

MGMT 304 Strategic Management (3 Credit Hours)
Pre-requisites: Senior Standing; C- in MGMT 201, MARK 201, (SCMG 332 or SCMG 332H or SCMG 232 or SCMG 232H), and (FINC 301 or FINC 334)
This is a capstone course that analyzes the responsibilities of general management in formulating, communicating and implementing a strategic plan. Through case studies, the course applies the principles of strategic analysis to business situations so as to integrate all of the core courses in the undergraduate business program.
Course equivalencies: MGMT304/304H
Outcomes:
Students will develop executive and general management skills through an understanding of how the various functions of an organization operate as a whole; Students will also build their skills in conducting strategic analyses in a variety of industries and competitive situations and gain a stronger understanding of the competitive challenges of the market environment

MGMT 304H Strategic Management - Honors (3 Credit Hours)
Pre-requisites: Senior standing; minimum grade of "C-" in MGMT 201 or MGMT 201H, MARK 201 or MARK 201H, SCMG 332 or SCMG 332H or SCMG 232 or SCMG 232H, and FINC 301 or FINC 334 or FINC 334H; restricted to SBA honors students
This is a capstone course that analyzes the responsibilities of general management in formulating, communicating and implementing a strategic plan. Through case studies, the course applies the principles of strategic analysis to business situations so as to integrate all of the core courses in the undergraduate business program.
Course equivalencies: MGMT304/304H
Outcomes:
Students will develop executive and general management skills through an understanding of how the various functions of an organization operate as a whole; Students will also build their skills in conducting strategic analyses in a variety of industries and competitive situations and gain a stronger understanding of the competitive challenges of the market environment

MGMT 315 International Management (3 Credit Hours)
Pre-requisites: Junior Standing, minimum grade of "C-" in MGMT 201
This course analyzes the problems of managing in an international marketplace by focusing on cultural differences, political/economic influences, global market factors, and other contingencies with which managers of multinational enterprises must contend.
Interdisciplinary Option: Global Studies, International Business
Course equivalencies: X-MGMT315/INTS315
Outcomes:
Students will be able to demonstrate an understanding of the major theoretical perspectives and frameworks underlying international management, as well as evaluate and develop international and cross-cultural skills through self-observation and reflection

MGMT 318 Organizational Development and Change (3 Credit Hours)
Pre-requisites: Junior Standing, minimum grade of "C-" in MGMT 201 or HSM 368
This course examines the theory and practice of organizational development and change, with an emphasis on effective change management.
Outcomes:
Students will understand the complexity of change in organizations and learn how to use change interventions to manage different types of organizational changes, including the redesign of jobs and restructuring

MGMT 320 Leading and Managing Teams (3 Credit Hours)
Pre-requisites: Junior Standing, minimum grade of "C-" in MGMT 201
This course examines the characteristics of effective teams and team players in an organizational context and covers theories and concepts of team composition, roles and leadership, decision making, team charters, conflict management, team networks and international teams.
Outcomes:
Students will gain an understanding of team processes and team performance in organizations, learn tools that make teams effective, develop team skills and practice creating, monitoring and improving an ongoing team effort

MGMT 321 International Business Ethics (3 Credit Hours)
Pre-requisites: Sophomore standing; minimum grade of C- in MGMT 201 and ECON 202
No course description is available
Course equivalencies: PHIL185/283/MGMT341/H/BHNR341

MGMT 331 Managing Nonprofit Organizations (3 Credit Hours)
Pre- or co-requisites: MGMT 201
Students will learn the knowledge, skills, and values for managing nonprofit organizations. We will examine how non-profits develop their mission, strategic plan, and program model, as well as how they fund their efforts and continuously improve their performance. Students will apply their knowledge through case study explorations of different Chicagoland non-profits. Students will demonstrate an understanding of the evolving non-profit sector; students will demonstrate an analytic ability to assess non-profit strategy; students will understand the management skills needed at high-performing non-profits

MGMT 335 Micro-Enterprise Consulting (3 Credit Hours)
Pre-requisites: Junior Standing, minimum grade of "C-" in MGMT 201; Instructor permission
In the Jesuit tradition of using knowledge to serve humanity, students utilize and improve their business knowledge and skills by meeting the real-life business consulting needs of individual entrepreneurial and not-for-profit clients starting up or operating businesses in economically distressed communities.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students improve skills in service-oriented communication, project management, teamwork, and cross-functional business analysis; and learn how locally-owned business can foster community economic development; Consulting clients receive a feasibility analysis or business plan to help guide business operations and obtain financing for a new or struggling business

MGMT 341 Ethics in Business (3 Credit Hours)
Pre-requisites: Junior standing; minimum grade of C- in MGMT 201 or HSM 368 and ECON 202
This course focuses on ethical issues in the world of business and commerce. This course will address a number of interrelated questions: What are the rights and obligations of business in society? Can businesses "do good" and "do well"? Is business ethics a viable goal or an unachievable ideal?
Course equivalencies: PHIL185/283/MGMT341/H/BHNR341

MGMT 341H Ethics in Business - Honors (3 Credit Hours)
Pre-requisites: Junior standing; minimum grade of "C-" in MGMT 201 or MGMT 201H and ECON 202 or ECON 202H; restricted to SBA honors students
This course focuses on ethical issues in the world of business and commerce. This course will address a number of interrelated questions: What are the rights and obligations of business in society? Can businesses "do good" and "do well"? Is business ethics a viable goal or an unachievable ideal?
Course equivalencies: PHIL185/283/MGMT341/H/BHNR341

MGMT 345 Ethics, Economics & Entrepreneurship (3 Credit Hours)
Pre-requisites: Junior Standing, 'C-' or better in MGMT 201
The entrepreneur has been reviled as a social parasite and cheered as a moral hero. Through an examination of some classic works on entrepreneurship and the writings of our guest speakers, in Ethics, Economics, and Entrepreneurship we will take up three main questions: Who is the entrepreneur - that is, what activities or characteristics make one an entrepreneur?; Why did the entrepreneur largely disappear from intellectual discourse in the middle 20th century?; How ought we to evaluate the entrepreneur morally - and does the answer depend upon who we understand the entrepreneur to be?

MGMT 360 Values-Based Leadership (3 Credit Hours)
Pre-requisites: Junior Standing, minimum grade of "C-" in MGMT 201
An examination of several major approaches to leadership that are based on personal and organizational values.
Course equivalencies: MGMT360/360H
Outcomes:
Students will understand major approaches to leadership, examine their own values and approach to leadership and improve their leadership skills

MGMT 395 Independent Study in Management (1-3 Credit Hours)
Pre-requisites: Junior standing; Instructor and Dean permission
No course description is available

MGMT 399 Special Topics in Management (1-3 Credit Hours)
Pre-requisites: Junior standing
No course description is available

Supply Chain Management (SCMG)

SCMG 232 Introduction to Supply Chain Management (3 Credit Hours)
Introduction to the concept of supply chain management, including a broad overview of main functional roles such as procurement, transportation, and inventory. Introduction to best practice methods for planning and managing supply chains, including how to do so efficiently, ethically, and sustainably. Methods include analytics and lean management.
Course equivalencies: SCMG332/332H/SCMG232/232H
Outcomes:
Understanding of fundamental activities in supply chain management, methodologies to support those activities, and how they impact a firm both in terms of its profit and its impact on society and the planet

SCMG 232H Introduction to Supply Chain Management-Honors (3 Credit Hours)
Introduction to the concept of supply chain management, including a broad overview of main functional roles such as procurement, transportation, and inventory. Introduction to best practice methods for planning and managing supply chains, including how to do so efficiently, ethically, and sustainably. Methods include analytics and lean management.
Course equivalencies: SCMG332/332H/SCMG232/232H
Outcomes:
Understanding of fundamental activities in supply chain management, methodologies to support those activities, and how they impact a firm both in terms of its profit and its impact on society and the planet

SCMG 332 Operations Management (3 Credit Hours)
Pre-requisites: Sophomore standing and minimum grade "C-" ISSCM 241
Introduction to concepts and methods for managing production and service operations. Topics include demand forecasting, aggregate and capacity planning, inventory management, facility layout and location, just-in-time, managing quality, project planning, resource allocation, and logistics.
Course equivalencies: SCMG332/332H/SCMG232/232H
Outcomes:
Understanding of basic issues and role of operations management in organizations, and of tools for problem-solving in operations management

SCMG 332H Operations Management - Honors (3 Credit Hours)
Pre-requisites: Sophomore Standing or above; minimum grade of "C-" in ISSCM 241 or ISSCM 241H; Restricted to SBA Honors Students
Introduction to concepts and methods for managing production and service operations. Topics include demand forecasting, aggregate and capacity planning, inventory management, facility layout and location, just-in-time, managing quality, project planning, resource allocation, and logistics.
Course equivalencies: SCMG332/332H/SCMG232/232H
Outcomes:
Understanding of basic issues and role of operations management in organizations, and of tools for problem-solving in operations management

SCMG 337 Fundamentals of Lean Production (3 Credit Hours)
Pre-requisites: Junior Standing, minimum grade of "C-" in SCMG 332 or SCMG 332H or SCMG 232 or SCMG 232H
Methods for managing manufacturing and service operations based upon Toyota Production System. Topics include the principles of JIT and lean production, pull production, setup reduction, preventive maintenance, cellular manufacturing, employee empowerment, and supplier partnerships.
Course equivalencies: OPMG337 / MGSC337
Outcomes:
Understanding of concepts and tools for reducing waste and continuously improving operations based upon Toyota's success-proven approach

SCMG 338 Global Supply Chain Management I (3 Credit Hours)
Pre-requisites: Sophomore Standing; minimum grade of "C-" in SCMG 332 or SCMG 332H or SCMG 232 or SCMG 232H
This course examines how business partners like suppliers, manufacturers, distributors, and retailers work together to gain competitive advantage in moving products and services around the world to satisfy customers.
Interdisciplinary Option: International Business
Course equivalencies: OPMG338 / MGSC338
Outcomes:
Understanding best practices like vendor managed inventory and category management and the application of information technologies for sharing information

SCMG 340 Global Supply Chain Management II (3 Credit Hours)
Pre-requisites: Sophomore Standing; minimum grade of "C-" in SCMG 332 or SCMG 332H or SCMG 232 or SCMG 232H
An examination of the planning and management of global supply chain operations. Emphasis placed on the areas of sourcing and procurement. Each area analyzed in terms of key goals, operational processes, technology applications and performance control mechanisms. Focus on strategic issues that face a sourcing organization.
Outcomes:
Develop critical thinking skills concerning the supply and sourcing function

SCMG 341 Quality Management & Continuing Improvement (3 Credit Hours)
Pre-requisites: Junior Standing, minimum grade of "C-" in SCMG 332 or SCMG 332H or SCMG 232 or SCMG 232H
This course examines various philosophies, methods, and tools for quality management and continuous improvement of products, services, and processes. Topics include total quality, quality costs and measures, quality of design, quality awards and standards, statistical process control, Six Sigma and problem-solving techniques.
Course equivalencies: ISOM341 / MGSC341
Outcomes:
Basic understanding of total quality, quality costs, measures, statistical process control, Six Sigma, process improvement, and problem-solving techniques

SCMG 342 Supply Chain Modeling (3 Credit Hours)
Pre-requisites: Junior Standing, minimum grade of "C-" in SCMG 332 or SCMG 332H or SCMG 232 or SCMG 232H
This course studies various analytical methods and tools for making decisions that will lead to cost effective products, services and processes. Topics include developing decision-making optimization models and implementing those models in Excel. The course will highlight models used in supply chain management; including facility location, transportation network design and vehicle routing.
Outcomes:
Basic understanding of optimization modeling, implementing optimization models in Excel and problem-solving techniques

SCMG 346 Sustainable Supply Chain (3 Credit Hours)
Pre-requisites: Junior Standing, minimum grade of "C-" in SCMG 332 or SCMG 332H or SCMG 232 or SCMG 232H
Sustainability has emerged as a central issue in today's business world. Environmental issues such as global warming, increasing waste and pollution, depleting natural resources combined with societal issues such as health, safety, equality and development put an unprecedented pressure on companies to realign their businesses while remaining profitable and competitive.
Outcomes:
The course consists of three main modules: Eco-Efficiency; Eco-Effectiveness; and Sustainable Supply Chain

SCMG 383 Management of Service Operations (3 Credit Hours)
Pre-requisites: Junior Standing, minimum grade of "C-" in SCMG 332 or SCMG 332H or SCMG 232 or SCMG 232H
This course studies the management of service businesses in general, and how services are delivered to the customer in particular.
Course equivalencies: ISOM383 / MGSC383
Outcomes:
Understanding how services differ from manufactured goods, and how service management requires unique tools for managing customer expectations while simultaneously delivering services that exceed those expectations

SCMG 395 Independent Study in Operations Management (1-3 Credit Hours)
Independent study is in-depth research or reading, initiated by the student and jointly developed with a faculty member in a specialized area of Operations Management not otherwise covered by departmental course offerings. Variable Credit. May count for Operations Management major or minor. Permission of Assistant Dean required.

SCMG 396 Supply Chain Seminar (0 Credit Hours)
Professional speaker series for all students majoring in Supply Chain Management. Students will benefit from hearing professionals in the supply chain industry discuss current events, opportunities and challenges within the industry.

SCMG 399 Special Topics in Operations Management (1-3 Credit Hours)
Special topics are scheduled classes offered on an ad hoc basis. Specific titles, prerequisites and content will vary.

Sport Management (SPRT)

SPRT 130 The Business of Sports (3 Credit Hours)
An overview of the sport industry intended to increase student awareness of the structure and operations of sport organizations from a management and leadership perspective.

SPRT 320 Social Aspects of Sport Management (3 Credit Hours)
Pre-requisites: Junior Standing, minimum grade of "C-" in SPRT 130
This course provides an examination of the role and relevance of sport in modern American society; impact of sport on society and the influence which cultural institutions have on sport. Sport related issues and controversies in contemporary sport as framed from a sociological and ethical perspective will be discussed.

SPRT 330 Economics of Sport (3 Credit Hours)
Pre-requisites: Junior Standing, minimum grade of "C-" in SPRT 130, ECON 201 and ECON 202
Using the tools of economic analysis, this course will examine issues pertaining to professional and amateur sports. It will also address economic policy of various sport industry segments.

SPRT 335 Fundamentals of Sport Finance (3 Credit Hours)
Pre-requisites: Junior standing, minimum grade of "C-" in SPRT 130
No course description is available

SPRT 339 Sports Facility Management and Operations (3 Credit Hours)
Pre-requisites: Junior standing; minimum grade of "C-" in SPRT 130
This course examines the comprehensive planning for development and operations of new and existing sport and fitness facilities and the management of those events.
Course equivalencies: X-SPRT339/ISOM339

SPRT 345 Globalization of Sport Industry (3 Credit Hours)
Pre-requisites: Junior Standing, minimum grade of "C-" in SPRT 130
The course provides an analysis of the impact of the globalization of sport in relation to the organization and management of international sport, including the Olympic movement and the examination of U.S. professional sports. A comprehensive investigation of international governance, political, social, and economic issues which leagues and corporations must consider in conducting business in foreign markets.
Interdisciplinary Option: International Business

SPRT 365 Fundamentals Sport Marketing (3 Credit Hours)
Pre-requisites: Junior Standing, minimum grade of "C-" in SPRT 130 and MARK 201
This course focuses on the application of marketing principles and practices to the sport industry. Consideration given to marketing sport both as a spectator and a participant.
Course equivalencies: X-SPRT365/MARK365

SPRT 375 Sport Media (3 Credit Hours)
Pre-requisites: Sophomore Standing, minimum grade of "C-" in SPRT 130
No course description is available

SPRT 380 Legal Aspects in Sport Management (3 Credit Hours)
Pre-requisites: Junior Standing, minimum grade of "C-" in SPRT 130
An examination of legal issues which arise in the sport industry, including both amateur and professional sports with a strong emphasis on ethical concerns.

SPRT 385 Sport Analytics (3 Credit Hours)
Pre-requisites: Junior standing, C- or better in SPRT 130 and BSAD 343
This course examines the collection and analysis of data to enhance decision making within sport. The course reviews analytic usage across different sport management segments such as finance, marketing, sales and logistics. Additionally, data and analytics within sport performance, wearable technology, coaching and player management are investigated.
Outcomes:
Obtain introductory knowledge and technical competence using statistical and analytical software; Determine and perform appropriate statistical analysis to think critically; reason, analyze and problem solve sport industry specific issues

SPRT 395 Independent Study (1-3 Credit Hours)
This course will provide independent study opportunity in Sports Management.

SPRT 399 Special Topics in Sport Management (1-3 Credit Hours)
Pre-requisites: Junior Standing & C- or better in SPRT 130
No course description is available

Accounting (BBA)

All businesses need skilled accountants to help them determine what they have to spend and how they should spend it to ensure a successful future.

You'll be well-prepared for these responsibilities with the Quinlan School of Business BBA in Accounting degree program. We'll also help you get ready for the CPA, CMA, CFM, and CIA.

Related Programs

Major

- Accounting and Analytics (BBA) (p. 685)

Curriculum

All Quinlan School of Business students must complete the University Core Curriculum, Business Core Curriculum, and Undergraduate School of Business program requirements. Students pursuing the BBA degree in Accounting must also complete 24 required hours from the Major Requirements listed below.

Code	Title	Hours
Undergraduate Business Program Requirements		
COMM 103	Business & Professional Speaking [1]	3
Select one of the following: [2]		3-4
MATH 131	Applied Calculus I	
MATH 161	Calculus I	
MGMT 341	Ethics in Business	3
BSAD 220	Career Preparation	2
Writing Intensive		
Select two Writing Intensive courses [3]		6
Global Awareness		
Select one of the following: [4]		3
ANTH 100	Globalization and Local Cultures	
ANTH 102	Culture, Society, and Diversity	
GLST 101	Introduction to Global Studies	
PLSC 102	International Relations in an Age of Globalization	
Any business course from the International Business major group		
Business Core Curriculum		
ACCT 201	Introductory Accounting I	3
ACCT 202	Introductory Accounting II	3
ECON 201	Principles of Microeconomics	3
ECON 202	Principles of Macroeconomics	3
Select one of the following:		3
FINC 301	Introductory Business Finance	
FINC 334	Principles of Corporate Finance (required for Finance majors and minors)	
INFS 247	Business Information Systems	3
INFS 343	Business Analytics	3

LREB 315	Law and the Regulatory Environment of Business I	3
MARK 201	Principles of Marketing	3
MGMT 201	Managing People and Organizations	3
MGMT 304	Strategic Management	3
SCMG 232	Introduction to Supply Chain Management	3
Major Requirements		
ACCT 303	Intermediate Accounting I	3
ACCT 304	Intermediate Accounting II	3
ACCT 311	Auditing & Internal Control Systems	3
ACCT 317	Managerial Accounting	3

ACCT 328	Concepts in Taxation	3
Select three of the following:		9
ACCT 306	Advanced Financial Accounting	
ACCT 307	Advanced Accounting: Not-For-Profit Entities & Advanced Financial Accounting Topics	
ACCT 308	Accounting Information Systems	
ACCT 323	Advanced CPA Topics	
ACCT 326	Fraud Investigation	
ACCT 341	Advanced Studies in Taxation	
ACCT 399	Special Topics in Accounting [5]	
Total Hours		**83-84**

[1] Accounting majors with prior credit for COMM 101 Public Speaking & Critical Thinking must take ENGL 210 Business Writing to complete this requirement.

[2] Students majoring in Finance are strongly encouraged to take MATH 161 Calculus I instead of MATH 131 Applied Calculus I.

[3] One must be a Quinlan course or ENGL 210 Business Writing.

[4] A study abroad experience will also satisfy this requirement.

[5] Only one ACCT 399 Special Topics in Accounting class is allowed to count for this major.

A student who is an accounting major may be administratively removed as an accounting major if the student earns a grade below "C-" in two or more upper-level accounting classes (ACCT 303 Intermediate Accounting I and beyond).

Suggested Sequence of Courses

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

Course	Title	Hours
Year 1		
Fall		
ECON 201	Principles of Microeconomics	3
INFS 247	Business Information Systems	3

Global Awareness		3
	Hours	**9**
	Total Hours	**83**

CPA Exam Requirements

Students taking the CPA examination in Illinois are required to have earned 120 semester hours of college credit. At least 150 earned credit hours are required for licensure. The additional credit hours can be earned at Loyola at either the undergraduate or the graduate-level MSA.

For more information about the CPA examination, visit the Illinois Board of Examiner's CPA Exam (https://www.ilboe.org/) page.

Specialized Requirements

Transfer Students

At the discretion of the Quinlan School of Business, a maximum of one transfer course (https://www.luc.edu/quinlan/academics/studentresources/undergraduate/transfercredit/) taken prior to matriculating at Loyola University Chicago may be allowed to satisfy major requirements.

Study Abroad

Students planning to study abroad are encouraged to meet with their academic advisor early in the planning stage. A student will be permitted to take up to two approved courses in any Quinlan major or minor (and including BA Economics majors). All courses must be approved by the Quinlan Undergraduate Dean.

Important Details

A 2.0 average GPA is required for all attempted business courses. (BA in Economics students must also earn a 2.0 average GPA for all attempted Economics courses).

Quinlan students are limited to double dipping once (that is, counting one course twice) between any major or minor combination, regardless of what program the major or minor is taken in. Non-Quinlan students are limited to double dipping twice (that is, counting two courses twice) between business school minors and/or their respective majors.

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

- Strategic cost management
- Financial management
- Auditing and business risk
- Legal and regulatory knowledge

Accounting and Analytics (BBA)

The BBA in Accounting and Analytics at the Quinlan School of Business is a specialized degree program combining accounting skills with an understanding of broad data sets within a client firm's operations.

And the combined skills of accounting and analytics are much in demand. According to an American Institute of Certified Public Accountants (AICPA) trends report (https://www.aicpa.org/content/dam/aicpa/interestareas/accountingeducation/newsandpublications/downloadabledocuments/2019-trends-report.pdf):

"The accounting profession is rapidly evolving. Technological innovations, especially in data science and analytics, are becoming a more common part of the profession and are changing the way we do business and whom we hire to do it."

Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

- Managerial accounting
- Taxation concepts
- Database & data systems
- Data analytics
- Business intelligence
- CPA exam preparation

Accounting Information Systems Minor

Quinlan students who are pursuing other majors but who wish to expand their skills in accounting may pursue a minor in accounting information systems.

Curriculum

The requirements are 15 credit hours in the following courses:

Code	Title	Hours
ACCT 303	Intermediate Accounting I	3
ACCT 308	Accounting Information Systems	3
ACCT 317	Managerial Accounting	3
INFS 346	Database & Data Warehousing Systems	3
INFS 347	Systems Analysis & Design	3
or ISSCM 393	Requirements Analysis and Communication	
Total Hours		**15**

Of the courses required for the minor, accounting majors may apply only ACCT 317 Managerial Accounting and ACCT 303 Intermediate Accounting I to their major requirements. Information Systems majors may apply only INFS 346 Database & Data Warehousing Systems and INFS 347 Systems Analysis & Design or ISSCM 393 Requirements Analysis and Communication to their major requirements. A student majoring in both accounting and information systems is not eligible for this minor.

This minor is only available for students in the Quinlan School of Business.

Important Details

At the discretion of the Quinlan School of Business, a maximum of one transfer course (https://www.luc.edu/quinlan/academics/studentresources/undergraduate/transfercredit/) taken prior to matriculating at Loyola University Chicago may be allowed to satisfy minor requirements. A 2.0 average GPA is required for all attempted business courses. (BA in Economics students must also earn a 2.0 average GPA for all attempted Economics courses).

Quinlan students are limited to double dipping once (that is, counting one course twice) between any major or minor combination, regardless of what program the major or minor is taken in. Non-Quinlan students are limited to double dipping twice (that is, counting two courses twice) between business school minors and/or their respective majors.

Students planning to study abroad are encouraged to meet with their academic advisor early in the planning stage. A student will be permitted to take up to two approved courses in any Quinlan major or minor (and including BA Economics majors). All courses must be approved by the Quinlan Undergraduate Dean.

Business Administration Minor

Students who are not enrolled in the Quinlan School of Business may want to have working knowledge of business administration and may pursue a business administration minor.

Curriculum

Requirements for this minor include 18 total credit hours taken from the following courses:

Code	Title	Hours
Required Courses		
Select three of the following:		9
ACCT 201	Introductory Accounting I	
ACCT 202	Introductory Accounting II	
ECON 201	Principles of Microeconomics	
ECON 202	Principles of Macroeconomics	
INFS 247	Business Information Systems	
ISSCM 241	Business Statistics	
Select three of the following:		9
ECON 303	Intermediate Microeconomics	
ECON 304	Intermediate Macroeconomics	
FINC 301	Introductory Business Finance	
or FINC 334	Principles of Corporate Finance	
LREB 315	Law and the Regulatory Environment of Business I	
MARK 201	Principles of Marketing	
MGMT 201	Managing People and Organizations	
SCMG 232	Introduction to Supply Chain Management	
Total Hours		**18**

This minor is not available for students in the Quinlan School of Business. Students may not take more than two economics courses for this minor and must satisfy all prerequisites for each course selected.

Important Details

At the discretion of the Quinlan School of Business, a maximum of one transfer course (https://www.luc.edu/quinlan/academics/

studentresources/undergraduate/transfercredit/) taken prior to matriculating at Loyola University Chicago may be allowed to satisfy minor requirements. A 2.0 average GPA is required for all attempted business courses. (BA in Economics students must also earn a 2.0 average GPA for all attempted Economics courses).

Quinlan students are limited to double dipping once (that is, counting one course twice) between any major or minor combination, regardless of what program the major or minor is taken in. Non-Quinlan students are limited to double dipping twice (that is, counting two courses twice) between business school minors and/or their respective majors.

Students planning to study abroad are encouraged to meet with their academic advisor early in the planning stage. A student will be permitted to take up to two approved courses in any Quinlan major or minor (and including BA Economics majors). All courses must be approved by the Quinlan Undergraduate Dean.

Economics (BBA)

The BBA in Economics will equip you with a knowledge of principles, theories, and concepts of economics and business, which will help you to become a responsible and successful leader in your chosen fields. Our students who continue their education are accepted at many top universities.

Loyola University Chicago offers two undergraduate programs in economics:

- Bachelor of Business Administration (BBA) in Economics through the Quinlan School of Business
- Bachelor of Arts (BA) degree in Economics through Loyola's College of Arts and Sciences

Related Programs

Major

- Economics (BA) (p. 350)

Minor

- Economics Minor (p. 689)

Curriculum

All Quinlan School of Business students must complete the University Core Curriculum, Business Core Curriculum, and Undergraduate School of Business program requirements. Students pursuing the BBA degree in Economics must also complete 18 required hours from the Major Requirements listed below.

Code	Title	Hours
Undergraduate Business Program Requirements		
COMM 103	Business & Professional Speaking	3
Select one of the following:		3-4
MATH 131	Applied Calculus I	
MATH 161	Calculus I [1]	
MGMT 341	Ethics in Business	3
BSAD 220	Career Preparation	2
Writing Intensive		
Select two Writing Intensive courses [2]		6
Global Awareness		
Select one of the following: [3]		3
ANTH 100	Globalization and Local Cultures	
ANTH 102	Culture, Society, and Diversity	
GLST 101	Introduction to Global Studies	
PLSC 102	International Relations in an Age of Globalization	
Any business course from the International Business major group		
Business Core Curriculum		
ACCT 201	Introductory Accounting I	3
ACCT 202	Introductory Accounting II	3
ECON 201	Principles of Microeconomics	3
ECON 202	Principles of Macroeconomics	3
Select one of the following:		3
FINC 301	Introductory Business Finance	
FINC 334	Principles of Corporate Finance (required for Finance majors and minors)	
ISSCM 241	Business Statistics	3
INFS 247	Business Information Systems	3
INFS 343	Business Analytics	3
LREB 315	Law and the Regulatory Environment of Business I	3
MGMT 201	Managing People and Organizations	3
MGMT 304	Strategic Management	3
MARK 201	Principles of Marketing	3
SCMG 232	Introduction to Supply Chain Management	3
Major Requirements		
In addition to Core Curriculum and Business Core Curriculum requirements, students pursuing the BBA degree in economics must complete 18 credit hours in the following courses:		
ECON 303	Intermediate Microeconomics	3
ECON 304	Intermediate Macroeconomics	3
Select four (4) of the following:		12
ECON 320	Urban Economics	
ECON 323	International Economics	
ECON 324	International Monetary Relations	
ECON 325	Economics of Growth & Development	
ECON 327	American Economic & Business History	
ECON 328	Environmental Economics	
ECON 329	Health Economics	
ECON 334	Economics of Government Expenditures & Taxation	
ECON 336	Monetary and Fiscal Policy	
ECON 346	Econometrics	
ECON 360	Labor Economics	
ECON 370	Pricing & Industrial Organization	
ECON 399	Special Topics in Economics [4]	
MATH 360	Introduction to Game Theory	
Total Hours		**77**

1. Students majoring in Finance are strongly encouraged to take MATH 161 Calculus I instead of MATH 131 Applied Calculus I
2. One must be a Quinlan course or ENGL 210 Business Writing.
3. A study abroad experience will also satisfy this requirement.
4. Only one ECON 399 Special Topics in Economics class is allowed to count for this major.

Students wishing to pursue doctoral study in economics are advised to take additional mathematics courses including the calculus course sequence (MATH 161 Calculus I, MATH 162 Calculus II and MATH 263 Multivariable Calculus); MATH 212 Linear Algebra; and two 300-level mathematical statistics courses (STAT 304 Introduction to Probability, STAT 305 Introduction to Mathematical Statistics). Students should consult with their economics advisor about completing mathematics courses.

Suggested Sequence of Courses

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

Course	Title	Hours
Year 1		
Fall		
ECON 201	Principles of Microeconomics	3
INFS 247	Business Information Systems	3
MATH 131	Applied Calculus I	3
	Hours	**9**
Spring		
ACCT 201	Introductory Accounting I	3
ECON 202	Principles of Macroeconomics	3

Specialized Requirements

Transfer Students

At the discretion of the Quinlan School of Business, a maximum of one transfer course taken prior to matriculating at Loyola University Chicago may be allowed to satisfy major requirements.

Study Abroad

Students planning to study abroad are encouraged to meet with their academic advisor early in the planning stage. A student will be permitted to take up to two approved courses in any Quinlan major or minor. All courses must be approved by the Quinlan Undergraduate Dean.

Important Details

A 2.0 average GPA is required for all attempted business courses.

Quinlan students are limited to double dipping once (that is, counting one course twice) between any major or minor combination, regardless of what program the major or minor is taken in. Non-Quinlan students are limited to double dipping twice (that is, counting two courses twice) between business school minors and/or their respective majors.

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

- Analysis of real-world economic policies
- Principles of economics reasoning
- Business and professional presentations
- Business ethics and the market economy
- Graphical and quantitative modelings

Economics Minor

Any Loyola student who wishes to expand his or her skills in economics may pursue an economics minor.

Curriculum

The minor requires 18 credit hours in the following courses:

Code	Title	Hours
Required Courses		
ECON 201	Principles of Microeconomics	3
ECON 202	Principles of Macroeconomics	3
Select one of the following:		3
ECON 303	Intermediate Microeconomics	
ECON 304	Intermediate Macroeconomics	
Select three of the following:		9
ECON 303	Intermediate Microeconomics (if not taken above)	
ECON 304	Intermediate Macroeconomics (if not taken above)	
ECON 320	Urban Economics	
ECON 323	International Economics	
ECON 324	International Monetary Relations	
ECON 325	Economics of Growth & Development	
ECON 327	American Economic & Business History	
ECON 328	Environmental Economics	
ECON 329	Health Economics	
ECON 334	Economics of Government Expenditures & Taxation	
ECON 336	Monetary and Fiscal Policy	
ECON 346	Econometrics	
ECON 360	Labor Economics	
ECON 370	Pricing & Industrial Organization	
ECON 399	Special Topics in Economics	
MATH 360	Introduction to Game Theory	
Total Hours		**18**

Important Details

At the discretion of the Quinlan School of Business, a maximum of one transfer course (https://www.luc.edu/quinlan/academics/studentresources/undergraduate/transfercredit/) taken prior to matriculating at Loyola University Chicago may be allowed to satisfy minor requirements. A 2.0 average GPA is required for all attempted business courses. (BA in Economics students must also earn a 2.0 average GPA for all attempted Economics courses).

Quinlan students are limited to double dipping once (that is, counting one course twice) between any major or minor combination, regardless of what program the major or minor is taken in. Non-Quinlan students are limited to double dipping twice (that is, counting two courses twice) between business school minors and/or their respective majors.

Students planning to study abroad are encouraged to meet with their academic advisor early in the planning stage. A student will be permitted to take up to two approved courses in any Quinlan major or minor (and including BA Economics majors). All courses must be approved by the Quinlan Undergraduate Dean.

Entrepreneurship (BBA)

It takes more than a great idea to build a great business. The Quinlan School of Business BBA in Entrepreneurship degree program provides the real-world insights and skills you need to translate your creativity into a workable business plan. The skills you learn will help you as a new venture entrepreneur or a corporate professional.

Specialized Requirements

Transfer Students

At the discretion of the Quinlan School of Business, a maximum of one transfer course (https://www.luc.edu/quinlan/academics/studentresources/undergraduate/transfercredit/) taken prior to matriculating at Loyola University Chicago may be allowed to satisfy major requirements.

Study Abroad

Students planning to study abroad are encouraged to meet with their academic advisor early in the planning stage. A student will be permitted to take up to two approved courses in any Quinlan major or minor (and including BA Economics majors). All courses must be approved by the Quinlan Undergraduate Dean.

Important Details

A 2.0 average GPA is required for all attempted business courses. (BA in Economics students must also earn a 2.0 average GPA for all attempted Economics courses).

Quinlan students are limited to double dipping once (that is, counting one course twice) between any major or minor combination, regardless of what program the major or minor is taken in. Non-Quinlan students are limited to double dipping twice (that is, counting two courses twice) between business school minors and/or their respective majors.

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

- Translating ideas into viable products or services
- Responsible, ethical leadership
- Launching and growing a new venture
- Tactics entrepreneurs use to attract customers
- Characteristics of international markets
- Social entrepreneurship vs. traditional entrepreneurship
- Problem-solving and critical thinking skills

Entrepreneurship Minor

Students who wish to expand their skills in entrepreneurship may pursue a minor in this field. The minor in entrepreneurship provides excellent foundational knowledge of strategic aspects of the entrepreneurial process. Starting with the identification of business opportunities, the development of unique business models, the formation of the entrepreneurial team, the securing of financial resources, and the importance and practical application of marketing, economics, accounting, finance, and management skills.

Curriculum

The Entrepreneurship minor for non-Quinlan students requires 18 credit hours in the following courses:

Code	Title	Hours
Required Courses		
ENTR 201	Introduction to Entrepreneurship	3
Select two of the following:		6
ACCT 201	Introductory Accounting I	
ECON 201	Principles of Microeconomics	
INFS 247	Business Information Systems	
MARK 201	Principles of Marketing	
MGMT 201	Managing People and Organizations	
Select three of the following:		9
ENTR 311	Social Entrepreneurship (Not for Profit Ventures)	
ENTR 313	Entrepreneurship - Global Opportunity Scan	
ENTR 345	Entrepreneurial Marketing	
ENTR 390	Entrepreneurship Strategies - Capstone	
ENTR 395	Independent Study	
ENTR 399	Selected Topics in Entrepreneurship [1]	
Total Hours		**18**

[1] Only one ENTR 399 Selected Topics in Entrepreneurship class is allowed to count for this minor.

Quinlan students pursuing the Entrepreneurship minor will complete 12 credit hours including ENTR 201 Introduction to Entrepreneurship and three 300-level Entrepreneurship courses from the list above.

Important Details

At the discretion of the Quinlan School of Business, a maximum of one transfer course (https://www.luc.edu/quinlan/academics/studentresources/undergraduate/transfercredit/) taken prior to matriculating at Loyola University Chicago may be allowed to satisfy minor requirements. A 2.0 average GPA is required for all attempted business courses. (BA in Economics students must also earn a 2.0 average GPA for all attempted Economics courses).

Quinlan students are limited to double dipping once (that is, counting one course twice) between any major or minor combination, regardless of what program the major or minor is taken in. Non-Quinlan students are limited to double dipping twice (that is, counting two courses twice) between business school minors and/or their respective majors.

Students planning to study abroad are encouraged to meet with their academic advisor early in the planning stage. A student will be permitted to take up to two approved courses in any Quinlan major or minor (and including BA Economics majors). All courses must be approved by the Quinlan Undergraduate Dean.

Finance (BBA)

Invest in your future with our BBA in Finance.

The Quinlan School of Business has one of the finest undergraduate finance programs in Chicago. The finance faculty is especially well-known for its expertise in socially responsible investing and derivatives.

Curriculum

All Quinlan School of Business students must complete the University Core Curriculum (https://www.luc.edu/core/index.shtml/#den240660), Business Core Curriculum, and Undergraduate School of Business program requirements. Students pursuing the BBA degree in Finance must also complete 18 required hours from the Major Requirements listed below.

Code	Title	Hours
Undergraduate Business Program Requirements		
COMM 103	Business & Professional Speaking	3
Select one of the following: [1]		3-4
MATH 131	Applied Calculus I	
MATH 161	Calculus I	
MGMT 341	Ethics in Business	3
BSAD 220	Career Preparation	2
Writing Intensive		
Select two Writing Intensive courses [2]		6
Global Awareness		
Select one of the following: [3]		3
ANTH 100	Globalization and Local Cultures	
ANTH 102	Culture, Society, and Diversity	
GLST 101	Introduction to Global Studies	
PLSC 102	International Relations in an Age of Globalization	
Any business course from the International Business major group		
Business Core Curriculum		
ACCT 201	Introductory Accounting I	3
ACCT 202	Introductory Accounting II	3
ECON 201	Principles of Microeconomics	3
ECON 202	Principles of Macroeconomics	3

MGMT 304	Strategic Management	3
SCMG 232	Introduction to Supply Chain Management	3
Major Requirements		
In addition to Core Curriculum and Business Core Curriculum requirements, students pursuing the BBA degree in finance must complete 18 credit hours in the following courses:		
ECON 303	Intermediate Microeconomics	3
FINC 335	Investments	3
Four additional 300-level finance courses		
Select at least one of the following (Group A):		3
FINC 336	Introduction to Derivatives	
FINC 342	Advanced Business Finance	
FINC 345	Portfolio Management	
FINC 346	Introduction to Options	
FINC 356	Advanced Topics in Investment Banking and Asset Management	
FINC 357	Cases in Corporate Finance	
FINC 358	Financial Analytics	
Select up to three of the following (Group B):		9
FINC 337	Banking, Money & Capital Markets	
FINC 338	Risk Management and Insurance	
FINC 347	Financial Institutions	
FINC 349	Real Estate Finance & Investments	
FINC 355	International Finance Management	
FINC 395	Independent Study in Finance	
FINC 399	Special Topics in Finance [4]	
Total Hours		**77-78**

[1] Students majoring in Finance are strongly encouraged to take MATH 161 Calculus I instead of MATH 131 Applied Calculus I

[2] One must be a Quinlan course or ENGL 210 Business Writing.

[3] A study abroad experience will also satisfy this requirement.

[4] Only one FINC 399 Special Topics in Finance class is allowed to count for this major.

Suggested Sequence of Courses

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

Specialized Requirements

Transfer Students

At the discretion of the Quinlan School of Business, a maximum of one transfer course (https://www.luc.edu/quinlan/academics/studentresources/undergraduate/transfercredit/) taken prior to matriculating at Loyola University Chicago may be allowed to satisfy major requirements.

Study Abroad

Students planning to study abroad are encouraged to meet with their academic advisor early in the planning stage. A student will be permitted to take up to two approved courses in any Quinlan major or minor (and

including BA Economics majors). All courses must be approved by the Quinlan Undergraduate Dean.

Important Details

A 2.0 average GPA is required for all attempted business courses. (BA in Economics students must also earn a 2.0 average GPA for all attempted Economics courses).

Quinlan students are limited to double dipping once (that is, counting one course twice) between any major or minor combination, regardless of what program the major or minor is taken in. Non-Quinlan students are limited to double dipping twice (that is, counting two courses twice) between business school minors and/or their respective majors.

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

Financial tools are introduced and applied to problem-solving in a variety of areas including:

- Financial markets and institutions
- Financial management
- Capital budgeting
- International financial management
- Portfolio theory
- Derivatives
- Risk management

Finance Minor

Students who are pursuing other majors but who wish to expand their skills in this field may pursue a minor in finance.

Curriculum

The Finance minor for non-Quinlan students requires 18 credit hours in the following courses:

Code	Title	Hours
Required Courses		
ACCT 201	Introductory Accounting I	3
ECON 201	Principles of Microeconomics	3
ISSCM 241	Business Statistics [1]	3
FINC 334	Principles of Corporate Finance	3
FINC 335	Investments	3
Select one of the following:		3
FINC 336	Introduction to Derivatives	
FINC 337	Banking, Money & Capital Markets	
FINC 338	Risk Management and Insurance	
FINC 342	Advanced Business Finance	
FINC 345	Portfolio Management	
FINC 346	Introduction to Options	
FINC 347	Financial Institutions	
FINC 349	Real Estate Finance & Investments	
FINC 355	International Finance Management	
FINC 356	Advanced Topics in Investment Banking and Asset Management	
FINC 357	Cases in Corporate Finance	
FINC 358	Financial Analytics	
FINC 365	Advanced International Financial Management	
FINC 395	Independent Study in Finance	
FINC 399	Special Topics in Finance	
Total Hours		**18**

[1] Students who have completed STAT 103 Fundamentals of Statistics must take INFS 247 Business Information Systems in place of ISSCM 241 Business Statistics.

Quinlan students pursuing the Finance minor will complete 9 credit hours including FINC 335 Investments and two additional 300-level Finance courses from the list above.

Important Details

At the discretion of the Quinlan School of Business, a maximum of one transfer course (https://www.luc.edu/quinlan/academics/studentresources/undergraduate/transfercredit/) taken prior to matriculating at Loyola University Chicago may be allowed to satisfy minor requirements. A 2.0 average GPA is required for all attempted business courses. (BA in Economics students must also earn a 2.0 average GPA for all attempted Economics courses).

Quinlan students are limited to double dipping once (that is, counting one course twice) between any major or minor combination, regardless of what program the major or minor is taken in. Non-Quinlan students are limited to double dipping twice (that is, counting two courses twice) between business school minors and/or their respective majors.

Students planning to study abroad are encouraged to meet with their academic advisor early in the planning stage. A student will be permitted to take up to two approved courses in any Quinlan major or minor (and including BA Economics majors). All courses must be approved by the Quinlan Undergraduate Dean.

Human Resource and Employment Relations Minor

The Human Resource and Employment Relations minor helps prepare students to direct employees toward attaining their personal as well as organizational goals.

Curriculum

The Human Resource and Employment Relations minor for non-Quinlan students requires 18 credit hours in the following courses:

Code	Title	Hours
Required Courses		
HRER 301	Principles of HR Management	3
Select two of the following:		6
ISSCM 241	Business Statistics	
or PSYC 304	Statistics	

ECON 201	Principles of Microeconomics	
or ECON 202	Principles of Macroeconomics	
MGMT 201	Managing People and Organizations	
or PSYC 362	Industrial/Organizational Psychology	
INFS 247	Business Information Systems	
Select three of the following:		9
HRER 311	Employment Relations	
HRER 313	Compensation Management	
HRER 317	Human Resource Staffing	
HRER 322	Human Resource Development	
HRER 329	Global HR and Organizational Behavior	
HRER 364	Negotiations for HR Professionals	
Total Hours		**18**

Quinlan students pursuing the Human Resource and Employment Relations minor will complete 9 credit hours including HRER 301 Principles of HR Management and two additional 300-level HRER courses from the list above.

Important Details

At the discretion of the Quinlan School of Business, a maximum of one transfer course (https://www.luc.edu/quinlan/academics/studentresources/undergraduate/transfercredit/) taken prior to matriculating at Loyola University Chicago may be allowed to satisfy minor requirements. A 2.0 average GPA is required for all attempted business courses. (BA in Economics students must also earn a 2.0 average GPA for all attempted Economics courses).

Quinlan students are limited to double dipping once (that is, counting one course twice) between any major or minor combination, regardless of what program the major or minor is taken in. Non-Quinlan students are limited to double dipping twice (that is, counting two courses twice) between business school minors and/or their respective majors.

Students planning to study abroad are encouraged to meet with their academic advisor early in the planning stage. A student will be permitted to take up to two approved courses in any Quinlan major or minor (and including BA Economics majors). All courses must be approved by the Quinlan Undergraduate Dean.

Human Resource Management (BBA)

Skills shortages. Work-life balance. Diversity needs. These are just a few of the challenges in finding and retaining talented employees. The BBA in Human Resource Management degree program will help you develop a socially responsible managerial philosophy in directing employees in their personal ambitions and your organizational goals.

Curriculum

All Quinlan School of Business students must complete the University Core Curriculum, Business Core Curriculum, and Undergraduate School of Business program requirements. Students pursuing the BBA degree in Human Resource Management must also complete 15 required hours from the Major Requirements listed below.

Code	Title	Hours
Undergraduate Business Program Requirements		
COMM 103	Business & Professional Speaking	3
Select one of the following: [1]		3-4
MATH 131	Applied Calculus I	
MATH 161	Calculus I	
MGMT 341	Ethics in Business	3
BSAD 220	Career Preparation	2
Writing Intensive		
Select two Writing Intensive courses [2]		6
Global Awareness		
Select one of the following: [3]		3
ANTH 100	Globalization and Local Cultures	
ANTH 102	Culture, Society, and Diversity	
GLST 101	Introduction to Global Studies	
PLSC 102	International Relations in an Age of Globalization	
Any business course from the International Business major group		
Business Core Curriculum		
ACCT 201	Introductory Accounting I	3
ACCT 202	Introductory Accounting II	3
ECON 201	Principles of Microeconomics	3
ECON 202	Principles of Macroeconomics	3
Select one of the following:		3
FINC 301	Introductory Business Finance	
FINC 334	Principles of Corporate Finance (required for Finance majors and minors)	
INFS 247	Business Information Systems	3
INFS 343	Business Analytics	3
ISSCM 241	Business Statistics	3
LREB 315	Law and the Regulatory Environment of Business I	3
MARK 201	Principles of Marketing	3
MGMT 201	Managing People and Organizations	3
MGMT 304	Strategic Management	3
SCMG 232	Introduction to Supply Chain Management	3
Major Requirements		
In addition to Core Curriculum and Business Core Curriculum requirements, students pursuing the BBA degree in human resource management must complete 15 credit hours in the following courses:		
HRER 301	Principles of HR Management	3
Select four of the following:		12
HRER 311	Employment Relations	
HRER 313	Compensation Management	
HRER 317	Human Resource Staffing	
HRER 322	Human Resource Development	
HRER 329	Global HR and Organizational Behavior	
HRER 364	Negotiations for HR Professionals	
HRER 395	Independent Study in Human Resources and Employment Relations	
HRER 399	Special Topics in Human Resources and Employment Relations [4]	
Total Hours		**74-75**

[1] Students majoring in Finance are strongly encouraged to take MATH 161 Calculus I instead of MATH 131 Applied Calculus I.

[2] One must be a Quinlan course or ENGL 210 Business Writing.

[3] A study abroad experience will also satisfy this requirement.

[4] Only one HRER 399 Special Topics in Human Resources and Employment Relations class is allowed to count for this major.

Suggested Sequence of Courses

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

Course	Title	Hours
Year 1		
Fall		
ECON 201	Principles of Microeconomics	3
INFS 247	Business Information Systems	3
MATH 131	Applied Calculus I	3
	Hours	**9**
Spring		
ACCT 201	Introductory Accounting I	3
ECON 202	Principles of Macroeconomics	3
	Hours	**6**
Year 2		
Fall		
ACCT 202	Introductory Accounting II	3
BSAD 220	Career Preparation	2
ISSCM 241	Business Statistics	3
HRER 301	Principles of HR Management	3
	Hours	**11**

	Total Hours	**74**

Specialized Requirements

Transfer Students

At the discretion of the Quinlan School of Business, a maximum of one transfer course (https://www.luc.edu/quinlan/academics/studentresources/undergraduate/transfercredit/) taken prior to matriculating at Loyola University Chicago may be allowed to satisfy major requirements.

Study Abroad

Students planning to study abroad are encouraged to meet with their academic advisor early in the planning stage. A student will be permitted to take up to two approved courses in any Quinlan major or minor (and including BA Economics majors). All courses must be approved by the Quinlan Undergraduate Dean.

Important Details

A 2.0 average GPA is required for all attempted business courses. (BA in Economics students must also earn a 2.0 average GPA for all attempted Economics courses).

Quinlan students are limited to double dipping once (that is, counting one course twice) between any major or minor combination, regardless of what program the major or minor is taken in. Non-Quinlan students are limited to double dipping twice (that is, counting two courses twice) between business school minors and/or their respective majors.

Note: You can take four of the five HRER courses required for the Major in any order and two of them if offered during any term.

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

- Interpersonal skills theory
- Understanding of ethical perspectives and sustainable outcomes with respect to all aspects of HR management
- Methods for sustaining employee diversity
- Develop a global perspective as it relates to human resources
- Training, organizing, motivating, and evaluating people in work settings
- Compensation and benefits and employment relations

Information Systems and Analytics (BBA)

The ability to combine systems knowledge with an understanding of the "big picture" means job-ready value. Our BBA in Information Systems and Analytics degree program (formerly Information Systems) at the Quinlan School of Business prepares students for a professional career in the rapidly changing fields of information systems and data analysis. Students majoring in Information Systems prior to Fall '22 will retain that major name.

Curriculum

All Quinlan School of Business students must complete the University Core Curriculum (p. 1212), Business Core Curriculum, and Undergraduate School of Business program requirements. Students pursuing the BBA degree in Information Systems and Analytics must also complete 15 required hours from the Major Requirements listed below.

Code	Title	Hours
Undergraduate Business Program Requirements		
COMM 103	Business & Professional Speaking	3
Select one of the following: [1]		3-4
MATH 131	Applied Calculus I	
MATH 161	Calculus I	
MGMT 341	Ethics in Business	3
BSAD 220	Career Preparation	2
Writing Intensive		
Select two Writing Intensive courses [2]		6
Global Awareness		
Select one of the following: [3]		3

MGMT 304	Strategic Management	3
SCMG 232	Introduction to Supply Chain Management	3
Major Requirements		
In addition to Core Curriculum and Business Core Curriculum requirements, students pursuing the BBA degree in information systems and analytics must complete 15 credit hours in the following courses:		
INFS 346	Database & Data Warehousing Systems	3
INFS 347	Systems Analysis & Design	3
or ISSCM 393	Requirements Analysis and Communication	
Select one of the following:		3
INFS 394	Programming in Python	
INFS 397	VBA Programming with MS Office	
COMP 170	Introduction to Object-Oriented Programming	
Select two of the following. Any Analysis or Programming course not taken above may be taken as an elective in this major.		6
INFS 336	Global Perspectives on Digital Business	
INFS 347	Systems Analysis & Design	
INFS 348	Advanced Data Analytics	
INFS 360	Data Visualization & Business Intelligence	
INFS 394	Programming in Python	
INFS 395	Independent Study in Information Systems	
INFS 397	VBA Programming with MS Office	
INFS 399	Special Topics in Information Systems [4]	
ISSCM 349	Project Management	
ISSCM 393	Requirements Analysis and Communication	
COMP 170	Introduction to Object-Oriented Programming	
Total Hours		**74-75**

1. Students majoring in Finance are strongly encouraged to take MATH 161 Calculus I instead of MATH 131 Applied Calculus I.
2. One must be a Quinlan course or ENGL 210 Business Writing.
3. A study abroad experience will also satisfy this requirement.
4. Only one INFS 399 Special Topics in Information Systems class is allowed to count for this major.

Suggested Sequence of Courses

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

Specialized Requirements

Transfer Students

At the discretion of the Quinlan School of Business, a maximum of one transfer course (https://www.luc.edu/quinlan/academics/studentresources/undergraduate/transfercredit/) taken prior to matriculating at Loyola University Chicago may be allowed to satisfy major requirements.

Study Abroad

Students planning to study abroad are encouraged to meet with their academic advisor early in the planning stage. A student will be permitted to take up to two approved courses in any Quinlan major or minor (and including BA Economics majors). All courses must be approved by the Quinlan Undergraduate Dean.

Important Details

A 2.0 average GPA is required for all attempted business courses. (BA in Economics students must also earn a 2.0 average GPA for all attempted Economics courses).

Quinlan students are limited to double dipping once (that is, counting one course twice) between any major or minor combination, regardless of what program the major or minor is taken in. Non-Quinlan students are limited to double dipping twice (that is, counting two courses twice) between business school minors and/or their respective majors.

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

- Integrating values and ethics into data analysis and information systems projects and solutions
- Conduct data analysis and information systems focused projects
- Demonstrate competence with SQL and at least one programming language
- Requirements analysis and specification
- Systems analysis and design
- Conceptual and logical data modeling
- Implementation and testing of back and front ends

The Loyola student network provides the student with access to current systems development environments such as Oracle, Teradata, OLAP/BI Tools, Data Visualization Tools, VBA, and C#.

Information Systems Minor

Students who wish to expand their skills in information systems may pursue a minor in this field. The minor in information systems management provides excellent foundational knowledge of applications, data and systems used in business and nonprofit organizations.

The minor in information systems is designed to increase job opportunities and enhance your career path, regardless of your primary major. When it is combined with a liberal arts major, students gain a better understanding of the role of information systems in business and technology, particularly data management and project management systems.

Curriculum

The Information Systems minor for non-Quinlan students requires 18 credit hours in the following courses:

Code	Title	Hours
Required Courses		
INFS 247	Business Information Systems	3
Select two of the following:		6
ACCT 201	Introductory Accounting I	
ECON 201	Principles of Microeconomics	
or ECON 202	Principles of Macroeconomics	
MARK 201	Principles of Marketing	
MGMT 201	Managing People and Organizations	
INFS 346	Database & Data Warehousing Systems	3
Select two of the following:		6
INFS 336	Global Perspectives on Digital Business	

INFS 347	Systems Analysis & Design
INFS 348	Advanced Data Analytics
INFS 360	Data Visualization & Business Intelligence
INFS 394	Programming in Python
INFS 395	Independent Study in Information Systems
INFS 397	VBA Programming with MS Office
INFS 399	Special Topics in Information Systems
ISSCM 349	Project Management
ISSCM 393	Requirements Analysis and Communication
COMP 170	Introduction to Object-Oriented Programming
Total Hours	**18**

Quinlan students pursuing the Information Systems minor will complete 9 credit hours including INFS 346 Database & Data Warehousing Systems and two additional 300-level Information Systems courses from the list above.

Important Details

At the discretion of the Quinlan School of Business, a maximum of one transfer course (https://www.luc.edu/quinlan/academics/studentresources/undergraduate/transfercredit/) taken prior to matriculating at Loyola University Chicago may be allowed to satisfy minor requirements. A 2.0 average GPA is required for all attempted business courses. (BA in Economics students must also earn a 2.0 average GPA for all attempted Economics courses).

Quinlan students are limited to double dipping once (that is, counting one course twice) between any major or minor combination, regardless of what program the major or minor is taken in. Non-Quinlan students are limited to double dipping twice (that is, counting two courses twice) between business school minors and/or their respective majors.

Students planning to study abroad are encouraged to meet with their academic advisor early in the planning stage. A student will be permitted to take up to two approved courses in any Quinlan major or minor (and including BA Economics majors). All courses must be approved by the Quinlan Undergraduate Dean.

International Business (BBA)

The BBA in International Business degree at the Quinlan School of Business prepares students to excel in positions involving global trade and commerce. We offer the business and communication skills needed to compete internationally.

The major combines courses in international accounting, marketing, economics, finance, management, supply chain management, some international political science choices and cultural anthropology choices with foreign-language study. A study abroad (http://www.luc.edu/studyabroad/) experience is required for the major.

The program draws on the resources of Chicago, which is a center of global commerce, including some of the country's largest venture capital firms, the Chicago Board of Trade, Chicago Mercantile Exchange, Chicago Board Options Exchange, corporate headquarters, and Fortune 500 companies.

Curriculum

All Quinlan School of Business students must complete the University Core Curriculum, Business Core Curriculum, and Undergraduate School of Business program requirements. Students pursuing the BBA degree in International Business must also complete 18 required hours from the Major Requirements listed below.

Code	Title	Hours
Undergraduate Business Program Requirements		
COMM 103	Business & Professional Speaking	3
Select one of the following: [1]		3-4
MATH 131	Applied Calculus I	
MATH 161	Calculus I	
MGMT 341	Ethics in Business	3
BSAD 220	Career Preparation	2
Writing Intensive		
Select two Writing Intensive courses [2]		6
Global Awareness		
Select one of the following: [3]		
ANTH 100	Globalization and Local Cultures	
ANTH 102	Culture, Society, and Diversity	
GLST 101	Introduction to Global Studies	
PLSC 102	International Relations in an Age of Globalization	
Any business course from the International Business major group		
Business Core Curriculum		
ACCT 201	Introductory Accounting I	3
ACCT 202	Introductory Accounting II	3
ECON 201	Principles of Microeconomics	3
ECON 202	Principles of Macroeconomics	3
Select one of the following:		3
FINC 301	Introductory Business Finance	
FINC 334	Principles of Corporate Finance (required for Finance majors and minors)	
INFS 247	Business Information Systems	3
INFS 343	Business Analytics	3
ISSCM 241	Business Statistics	3
LREB 315	Law and the Regulatory Environment of Business I	3
MARK 201	Principles of Marketing	3
MGMT 201	Managing People and Organizations	3
MGMT 304	Strategic Management	3
SCMG 232	Introduction to Supply Chain Management	3
Major Requirements		
In addition to Core Curriculum and Business Core Curriculum requirements, students pursuing the BBA degree in international business must complete the following courses to earn 18 hours in this major:		
Select one of the following:		3
IBUS 201	Introduction to International Business	
BHNR 338	Business Management: A Global and Social Perspective (Quinlan Honors only)	
Select five of the following:		15
Group A (select at least two)		
ACCT 306	Advanced Financial Accounting	
ECON 323	International Economics	
ECON 324	International Monetary Relations	
ECON 325	Economics of Growth & Development	
FINC 355	International Finance Management	
INFS 336	Global Perspectives on Digital Business	

SCMG 338	Global Supply Chain Management I	
Group B (select at least two)		
HRER 329	Global HR and Organizational Behavior	
MARK 363	International Marketing	
MGMT 315	International Management	
SPRT 345	Globalization of Sport Industry	
ANTH 100	Globalization and Local Cultures [4]	
ANTH 102	Culture, Society, and Diversity [4]	
PLSC 350	Politics of International Economic Relations [4]	
PLSC 362	Politics Developing Societies [4]	
PLSC 363	International Politics [4]	
Total Hours		**74-75**

1 Students majoring in Finance are strongly encouraged to take MATH 161 Calculus I instead of MATH 131 Applied Calculus I.
2 One must be a Quinlan course or ENGL 210 Business Writing.
3 A study abroad experience will also satisfy this requirement.
4 Students may choose one non-Quinlan course from this list for the INTL Business major. Students may only take up to two courses in the same subject area for this major.

Language Requirement

In addition, students pursuing the International Business major must study abroad for at least one full semester and must complete through the 103-level of a foreign language (or 3 years of the same language in high school). Study abroad experience does not have to match the language studied.

Suggested Sequence of Courses

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

Course	Title	Hours

Specialized Requirements

Transfer Students

At the discretion of the Quinlan School of Business, a maximum of one transfer course (https://www.luc.edu/quinlan/academics/studentresources/undergraduate/transfercredit/) taken prior to matriculating at Loyola University Chicago may be allowed to satisfy major requirements.

Study Abroad

Students planning to study abroad are encouraged to meet with their academic advisor early in the planning stage. A student will be permitted to take up to two approved courses in any Quinlan major or minor (and including BA Economics majors). All courses must be approved by the Quinlan Undergraduate Dean.

Important Details

A 2.0 average GPA is required for all attempted business courses. (BA in Economics students must also earn a 2.0 average GPA for all attempted Economics courses).

Quinlan students are limited to double dipping once (that is, counting one course twice) between any major or minor combination, regardless of what program the major or minor is taken in. Non-Quinlan students are limited to double dipping twice (that is, counting two courses twice) between business school minors and/or their respective majors.

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

- Strategic management skills for multinational enterprises (MNEs)
- International financial management
- Business ethics
- Foreign language skills

International Business Minor

Students who wish to expand their skills in international business may elect to pursue a minor in this field.

Curriculum

The International Business minor for non-Quinlan students requires 18 credit hours in the following courses. Additional courses may be needed to satisfy prerequisites for upper-level courses. No more than two courses may be applied from any subject area.

Code	Title	Hours
Required Courses		
IBUS 201	Introduction to International Business	3
Select two of the following:		6
ACCT 201	Introductory Accounting I	
ECON 201	Principles of Microeconomics	
or ECON 202	Principles of Macroeconomics	
INFS 247	Business Information Systems	
MARK 201	Principles of Marketing	
MGMT 201	Managing People and Organizations	
Select three of the following:		9
Group A (choose at least one)		
ACCT 306	Advanced Financial Accounting	
ECON 323	International Economics	
ECON 324	International Monetary Relations	
ECON 325	Economics of Growth & Development	
FINC 355	International Finance Management	
INFS 336	Global Perspectives on Digital Business	
SCMG 338	Global Supply Chain Management I	
Group B (choose at least one)		
HRER 329	Global HR and Organizational Behavior	
MARK 363	International Marketing	
MGMT 315	International Management	
SPRT 345	Globalization of Sport Industry	
ANTH 100	Globalization and Local Cultures [1]	
ANTH 102	Culture, Society, and Diversity [1]	
PLSC 350	Politics of International Economic Relations [1]	
PLSC 362	Politics Developing Societies [1]	
PLSC 363	International Politics [1]	
Total Hours		**18**

[1] Students may take no more than one non-Quinlan course toward this minor.

Quinlan students pursuing the International Business minor will complete 12 credit hours including IBUS 201 Introduction to International Business and three 300-level International Business courses from Groups A and B above (at least one course per group).

Minor Language Requirement

The minor also includes a foreign language requirement.

- Option 1) 103 level (3 yrs of same language in HS) + Study Abroad
- Option 2) 104 level (4 yrs of same language in HS)

Important Details

At the discretion of the Quinlan School of Business, a maximum of one transfer course (https://www.luc.edu/quinlan/academics/studentresources/undergraduate/transfercredit/) taken prior to matriculating at Loyola University Chicago may be allowed to satisfy minor requirements. A 2.0 average GPA is required for all attempted business courses. (BA in Economics students must also earn a 2.0 average GPA for all attempted Economics courses).

Quinlan students are limited to double dipping once (that is, counting one course twice) between any major or minor combination, regardless of what program the major or minor is taken in. Non-Quinlan students are limited to double dipping twice (that is, counting two courses twice) between business school minors and/or their respective majors.

Students planning to study abroad are encouraged to meet with their academic advisor early in the planning stage. A student will be permitted to take up to two approved courses in any Quinlan major or minor (and including BA Economics majors). All courses must be approved by the Quinlan Undergraduate Dean.

Management (BBA)

Our BBA in management degree program provides students with a theoretical and practical foundation for effective and responsible leadership in both entrepreneurial and established business enterprises.

Curriculum

All Quinlan School of Business students must complete the University Core Curriculum, Business Core Curriculum, and Undergraduate School of Business program requirements. Students pursuing the BBA degree in Management must also complete 15 required hours from the Major Requirements listed below.

Code	Title	Hours
Undergraduate Business Program Requirements		
COMM 103	Business & Professional Speaking	3
Select one of the following: [1]		3-4
MATH 131	Applied Calculus I	
MATH 161	Calculus I	
MGMT 341	Ethics in Business	3
BSAD 220	Career Preparation	2
Writing Intensive		

Select two Writing Intensive courses [2]		6
Global Awareness		
Select one of the following: [3]		3
ANTH 100	Globalization and Local Cultures	
ANTH 102	Culture, Society, and Diversity	
GLST 101	Introduction to Global Studies	
PLSC 102	International Relations in an Age of Globalization	
Any business course from the International Business major group		
Business Core Curriculum		
ACCT 201	Introductory Accounting I	3
ACCT 202	Introductory Accounting II	3
ECON 201	Principles of Microeconomics	3
ECON 202	Principles of Macroeconomics	3
Select one of the following:		3
FINC 301	Introductory Business Finance	
FINC 334	Principles of Corporate Finance (required for Finance majors and minors)	
INFS 247	Business Information Systems	3
INFS 343	Business Analytics	3
ISSCM 241	Business Statistics	3
LREB 315	Law and the Regulatory Environment of Business I	3
MARK 201	Principles of Marketing	3
MGMT 201	Managing People and Organizations	3
MGMT 304	Strategic Management	3
SCMG 232	Introduction to Supply Chain Management	3
Major Requirements		
In addition to Core Curriculum and Business Core Curriculum requirements, students pursuing the BBA degree in management must complete 15 credit hours in the following courses:		
MGMT 360	Values-Based Leadership	3
HRER 301	Principles of HR Management	3
Select three 300-level management courses of the following:		9
MGMT 315	International Management	
MGMT 318	Organizational Development and Change	
MGMT 320	Leading and Managing Teams	
MGMT 331	Managing Nonprofit Organizations	
MGMT 335	Micro-Enterprise Consulting	
MGMT 345	Ethics, Economics & Entrepreneurship	
MGMT 395	Independent Study in Management (Department consent required)	
MGMT 399	Special Topics in Management [4]	
ENVS 363	Sustainable Business Management	
Total Hours		**74-75**

1 Students majoring in Finance are strongly encouraged to take MATH 161 Calculus I instead of MATH 131 Applied Calculus I.
2 One must be a Quinlan course or ENGL 210 Business Writing.
3 A study abroad experience will also satisfy this requirement.
4 Only one MGMT 399 Special Topics in Management class is allowed to count for this major.

Suggested Sequence of Courses

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

Course	Title	Hours
Year 1		
Fall		
ECON 201	Principles of Microeconomics	3
INFS 247	Business Information Systems	3
MATH 131	Applied Calculus I	3
	Hours	**9**
Spring

Specialized Requirements

Transfer Students

At the discretion of the Quinlan School of Business, a maximum of one transfer course (https://www.luc.edu/quinlan/academics/studentresources/undergraduate/transfercredit/) taken prior to matriculating at Loyola University Chicago may be allowed to satisfy major requirements.

Study Abroad

Students planning to study abroad are encouraged to meet with their academic advisor early in the planning stage. A student will be permitted to take up to two approved courses in any Quinlan major or minor (and including BA Economics majors). All courses must be approved by the Quinlan Undergraduate Dean.

Important Details

A 2.0 average GPA is required for all attempted business courses. (BA in Economics students must also earn a 2.0 average GPA for all attempted Economics courses).

Quinlan students are limited to double dipping once (that is, counting one course twice) between any major or minor combination, regardless of what program the major or minor is taken in. Non-Quinlan students are limited to double dipping twice (that is, counting two courses twice) between business school minors and/or their respective majors.

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

- Management concepts and theories
- Leadership skills for career success
- Business ethics
- The dynamics of human behavior in the workplace
- Team processes and performance in organizations
- Team-based management and negotiation skills

Management Minor

Students who wish to expand their skills in management may pursue a minor in management.

Curriculum

The Management minor for non-Quinlan students requires 18 credit hours in the following courses:

Code	Title	Hours
Required Courses		
MGMT 201	Managing People and Organizations	3
Select two of the following:		6
ACCT 201	Introductory Accounting I	
ECON 201	Principles of Microeconomics	
or ECON 202	Principles of Macroeconomics	
INFS 247	Business Information Systems	
MARK 201	Principles of Marketing	
Select three of the following:		9
MGMT 315	International Management	
MGMT 318	Organizational Development and Change	
MGMT 320	Leading and Managing Teams	
MGMT 331	Managing Nonprofit Organizations	
MGMT 335	Micro-Enterprise Consulting	
MGMT 345	Ethics, Economics & Entrepreneurship	
MGMT 360	Values-Based Leadership	
MGMT 395	Independent Study in Management	
MGMT 399	Special Topics in Management	
HRER 301	Principles of HR Management	
ENVS 363	Sustainable Business Management	
Total Hours		**18**

Quinlan students pursuing the Management minor will complete three 300-level Management courses from the list above. MGMT 304 Strategic Management and MGMT 341 Ethics in Business may not be applied toward this minor.

Important Details

At the discretion of the Quinlan School of Business, a maximum of one transfer course (https://www.luc.edu/quinlan/academics/studentresources/undergraduate/transfercredit/) taken prior to matriculating at Loyola University Chicago may be allowed to satisfy minor requirements. A 2.0 average GPA is required for all attempted business courses. (BA in Economics students must also earn a 2.0 average GPA for all attempted Economics courses).

Quinlan students are limited to double dipping once (that is, counting one course twice) between any major or minor combination, regardless of what program the major or minor is taken in. Non-Quinlan students are limited to double dipping twice (that is, counting two courses twice) between business school minors and/or their respective majors.

Students planning to study abroad are encouraged to meet with their academic advisor early in the planning stage. A student will be permitted to take up to two approved courses in any Quinlan major or minor (and including BA Economics majors). All courses must be approved by the Quinlan Undergraduate Dean.

Marketing (BBA)

Marketing involves creating, communicating, delivering, and exchanging value, and can take various forms. From an Instagram influencer's posts to a vendor in an open market—marketing shapes our everyday lives.

The BBA in Marketing degree program at the Quinlan School of Business concentrates on developing difference-makers who value diversity, equity, inclusion, sustainability, and ethics in the aim to use marketing as a force for good in society.

Curriculum

All Quinlan School of Business students must complete the University Core Curriculum, Business Core Curriculum, and Undergraduate School of Business program requirements. Students pursuing the BBA degree in Marketing must also complete 15 required hours from the Major Requirements listed below.

Code	Title	Hours
Undergraduate Business Program Requirements

MARK 370	Political Marketing	
MARK 373	Integrated Marketing Communications	
MARK 380	Digital Marketing	
MARK 390	Marketing Strategies	
MARK 395	Independent Study	
MARK 399	Special Topics in Marketing	
SPRT 365	Fundamentals Sport Marketing	
Total Hours		**18**

Important Details

At the discretion of the Quinlan School of Business, a maximum of one transfer course (https://www.luc.edu/quinlan/academics/studentresources/undergraduate/transfercredit/) taken prior to matriculating at Loyola University Chicago may be allowed to satisfy minor requirements. A 2.0 average GPA is required for all attempted business courses. (BA in Economics students must also earn a 2.0 average GPA for all attempted Economics courses).

Quinlan students are limited to double dipping once (that is, counting one course twice) between any major or minor combination, regardless of what program the major or minor is taken in. Non-Quinlan students

are limited to double dipping twice (that is, counting two courses twice) between business school minors and/or their respective majors.

Students planning to study abroad are encouraged to meet with their academic advisor early in the planning stage. A student will be permitted to take up to two approved courses in any Quinlan major or minor (and including BA Economics majors). All courses must be approved by the Quinlan Undergraduate Dean.

Nonprofit Management Minor

The Nonprofit Management Minor supports students in gaining the skills, knowledge, and values to be future leaders in the social sector, including at nonprofit institutions, philanthropies, and government agencies. Students will:

- Explore the principles and practices of successful leadership
- Examine how nonprofits develop their missions, strategic plans, fundraising initiatives, and program models
- Develop economic analysis and entrepreneurial skills that they can apply in nonprofit settings
- Participate in an internship at a nonprofit organization that provides hands-on exposure and experience in management

Curriculum

The Nonprofit Management minor requires the following credit hours for completion:

- Quinlan students require 12 credit hours
- Non-Quinlan students require 18 credit hours

Students may choose from the following courses:

Code	Title	Hours
Required Courses		
MGMT 201	Managing People and Organizations [1]	3
MGMT 331	Managing Nonprofit Organizations	3
ECON 201	Principles of Microeconomics [1]	3
ENTR 201	Introduction to Entrepreneurship	3
EXPL 390	Internship Seminar: Organizational Change and Community Leadership	3
Electives		
Select one of the following:		3
ACCT 201	Introductory Accounting I [1]	
MARK 201	Principles of Marketing [1]	
ECON 202	Principles of Macroeconomics [1]	
INFS 247	Business Information Systems [1]	
ISSCM 241	Business Statistics [1]	
ENTR 311	Social Entrepreneurship (Not for Profit Ventures)	
ENVS 284	Environmental Justice	
ENVS 363	Sustainable Business Management	
ENVS 364	Sustainability Management in the Global Context	
SOWK 307	Social Work Policy and Community Intervention	
Total Hours		**18**

[1] Quinlan students are ineligible to take this course to meet requirements for the minor.

Important Details

At the discretion of the Quinlan School of Business, a maximum of one transfer course (https://www.luc.edu/quinlan/academics/studentresources/undergraduate/transfercredit/) taken prior to matriculating at Loyola University Chicago may be allowed to satisfy minor requirements. A 2.0 average GPA is required for all attempted business courses. (BA in Economics students must also earn a 2.0 average GPA for all attempted Economics courses).

Quinlan students are limited to double dipping once (that is, counting one course twice) between any major or minor combination, regardless of what program the major or minor is taken in. Non-Quinlan students are limited to double dipping twice (that is, counting two courses twice) between business school minors and/or their respective majors.

Students planning to study abroad are encouraged to meet with their academic advisor early in the planning stage. A student will be permitted to take up to two approved courses in any Quinlan major or minor (and including BA Economics majors). All courses must be approved by the Quinlan Undergraduate Dean.

Sport Management (BBA)

The BBA in Sport Management degree program at the Quinlan School of Business combines comprehensive business skills with an in-depth understanding of the sport industry. The sport management program focuses on the essentials in sport finance, facility management, and marketing, as well as on the economics of this dynamic industry.

Curriculum

All Quinlan School of Business students must complete the University Core Curriculum, Business Core Curriculum, and Undergraduate School of Business program requirements. Students pursuing the BBA degree in Sport Management must also complete 18 required hours from the Major Requirements listed below.

Code	Title	Hours
Undergraduate Business Program Requirements		
COMM 103	Business & Professional Speaking	3
Select one of the following: [1]		3-4
MATH 131	Applied Calculus I	
MATH 161	Calculus I	
MGMT 341	Ethics in Business	3

Specialized Requirements

Transfer Students

At the discretion of the Quinlan School of Business, a maximum of one transfer course (https://www.luc.edu/quinlan/academics/studentresources/undergraduate/transfercredit/) taken prior to matriculating at Loyola University Chicago may be allowed to satisfy major requirements.

Study Abroad

Students planning to study abroad are encouraged to meet with their academic advisor early in the planning stage. A student will be permitted to take up to two approved courses in any Quinlan major or minor (and including BA Economics majors). All courses must be approved by the Quinlan Undergraduate Dean.

Important Details

A 2.0 average GPA is required for all attempted business courses. (BA in Economics students must also earn a 2.0 average GPA for all attempted Economics courses).

Quinlan students are limited to double dipping once (that is, counting one course twice) between any major or minor combination, regardless of what program the major or minor is taken in. Non-Quinlan students are limited to double dipping twice (that is, counting two courses twice) between business school minors and/or their respective majors.

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

- How the economy impacts every facet of sport organizations and the sport industry
- Leadership and ethical aspects of sport management
- Management strategies for today's sport business challenges.
- Sport facility management
- Sport marketing
- Legal areas relevant to the operation of sport programs and organizations

Sport Management Minor

Students who wish to expand their skills in sport management may pursue a minor in this field.

Curriculum

The Sport Management minor for non-Quinlan students requires 18 credit hours in the following courses:

Code	Title	Hours
Required Courses		
SPRT 130	The Business of Sports	3
Select two of the following:		6
ACCT 201	Introductory Accounting I	
ECON 201	Principles of Microeconomics	
or ECON 202	Principles of Macroeconomics	
INFS 247	Business Information Systems	
MGMT 201	Managing People and Organizations	
MARK 201	Principles of Marketing	
Select three of the following:		9
SPRT 320	Social Aspects of Sport Management	
SPRT 335	Fundamentals of Sport Finance	
SPRT 339	Sports Facility Management and Operations	
SPRT 345	Globalization of Sport Industry	
SPRT 365	Fundamentals Sport Marketing	
SPRT 375	Sport Media	
SPRT 380	Legal Aspects in Sport Management	
SPRT 385	Sport Analytics	
SPRT 395	Independent Study	
SPRT 399	Special Topics in Sport Management	
Total Hours		**18**

Quinlan students pursuing the Sport Management minor will complete 12 credit hours including SPRT 130 The Business of Sports and three additional 300-level Sport Management courses from the list above.

Important Details

At the discretion of the Quinlan School of Business, a maximum of one transfer course (https://www.luc.edu/quinlan/academics/studentresources/undergraduate/transfercredit/) taken prior to matriculating at Loyola University Chicago may be allowed to satisfy minor requirements. A 2.0 average GPA is required for all attempted business courses. (BA in Economics students must also earn a 2.0 average GPA for all attempted Economics courses).

Quinlan students are limited to double dipping once (that is, counting one course twice) between any major or minor combination, regardless of what program the major or minor is taken in. Non-Quinlan students are limited to double dipping twice (that is, counting two courses twice) between business school minors and/or their respective majors.

Students planning to study abroad are encouraged to meet with their academic advisor early in the planning stage. A student will be permitted to take up to two approved courses in any Quinlan major or minor (and including BA Economics majors). All courses must be approved by the Quinlan Undergraduate Dean.

Supply Chain Management (BBA)

Achieve a sustainable competitive advantage for your organization by learning how to manage its supply chains. Effective supply chain management helps provide quality products, outstanding customer service, and effective cost control.

Curriculum

All Quinlan School of Business students must complete the University Core Curriculum, Business Core Curriculum, and Undergraduate School of Business program requirements. Students pursuing the BBA degree in Supply Chain Management must also complete 18 required hours from the Major Requirements listed below and the zero-credit SCMG 396 Supply Chain Seminar. SCMG 396 is a seminar series that meets five times per semester with a variety of company representatives discussing their supply chain challenges. It is pass/no pass with only attendance required.

Code	Title	Hours
Undergraduate Business Program Requirements		
COMM 103	Business & Professional Speaking	3
Select one of the following: [1]		3-4
MATH 131	Applied Calculus I	
MATH 161	Calculus I	
MGMT 341	Ethics in Business	3
BSAD 220	Career Preparation	2
Writing Intensive		
Select two Writing Intensive courses [2]		6
Global Awareness		
Select one of the following: [3]		3

ANTH 100	Globalization and Local Cultures	
ANTH 102	Culture, Society, and Diversity	
GLST 101	Introduction to Global Studies	
PLSC 102	International Relations in an Age of Globalization	
Any business course from the International Business major group		
Business Core Curriculum		
ACCT 201	Introductory Accounting I	3
ACCT 202	Introductory Accounting II	3
ECON 201	Principles of Microeconomics	3
ECON 202	Principles of Macroeconomics	3
Select one of the following:		3
FINC 301	Introductory Business Finance	
FINC 334	Principles of Corporate Finance (required for Finance majors and minors)	
INFS 247	Business Information Systems	3
INFS 343	Business Analytics	3
ISSCM 241	Business Statistics	3
LREB 315	Law and the Regulatory Environment of Business I	3
MARK 201	Principles of Marketing	3
MGMT 201	Managing People and Organizations	3
MGMT 304	Strategic Management	3
SCMG 232	Introduction to Supply Chain Management	3
Major Requirements		
In addition to Core Curriculum and Business Core Curriculum requirements, students pursuing the BBA degree in Supply Chain Management must complete 18 hours in the following courses, including the zero-credit Supply Chain Seminar:		
SCMG 338	Global Supply Chain Management I	3
SCMG 340	Global Supply Chain Management II	3
SCMG 396	Supply Chain Seminar	0
Select at least three of the following:		9
SCMG 337	Fundamentals of Lean Production	
SCMG 341	Quality Management & Continuing Improvement	
SCMG 342	Supply Chain Modeling	
SCMG 346	Sustainable Supply Chain	
SCMG 383	Management of Service Operations	
Select no more than one of the following, or a fourth SCMG course from the above options:		3
INFS 347	Systems Analysis & Design	
ISSCM 349	Project Management	
ISSCM 393	Requirements Analysis and Communication	
SCMG 395	Independent Study in Operations Management	
SCMG 399	Special Topics in Operations Management [4]	
Total Hours		**77-78**

[1] Students majoring in Finance are strongly encouraged to take MATH 161 Calculus I instead of MATH 131 Applied Calculus I.

[2] One must be a Quinlan course or ENGL 210 Business Writing.

[3] A study abroad experience will also satisfy this requirement.

[4] Only one SCMG 399 Special Topics in Operations Management class is allowed to count for this major.

Suggested Sequence of Courses

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

Course	Title	Hours
Year 1		
Fall		
ECON 201	Principles of Microeconomics	3

Specialized Requirements

Transfer Students

At the discretion of the Quinlan School of Business, a maximum of one transfer course (https://www.luc.edu/quinlan/academics/studentresources/undergraduate/transfercredit/) taken prior to matriculating at Loyola University Chicago may be allowed to satisfy major requirements.

Study Abroad

Students planning to study abroad are encouraged to meet with their academic advisor early in the planning stage. A student will be permitted to take up to two approved courses in any Quinlan major or minor (and including BA Economics majors). All courses must be approved by the Quinlan Undergraduate Dean.

Important Details

A 2.0 average GPA is required for all attempted business courses. (BA in Economics students must also earn a 2.0 average GPA for all attempted Economics courses).

Quinlan students are limited to double dipping once (that is, counting one course twice) between any major or minor combination, regardless of what program the major or minor is taken in. Non-Quinlan students are limited to double dipping twice (that is, counting two courses twice) between business school minors and/or their respective majors.

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

- Operational methodologies
- Data analytics
- Business ethics
- Process design and improvement
- Transportation management
- Inventory management
- Purchasing management

Supply Chain Management Minor

Students who wish to expand their skills in supply chain management may pursue a minor in this field.

Curriculum

The Supply Chain Management minor requires the following credit hours for completion:

- Quinlan students require 9 credit hours
- Non-Quinlan students requires 18 credit hours

Students may choose from the following courses:

Code	Title	Hours
Required Courses		
SCMG 232	Introduction to Supply Chain Management [1]	3
SCMG 338	Global Supply Chain Management I	3
SCMG 340	Global Supply Chain Management II	3
Select two of the following:		6
ACCT 201	Introductory Accounting I [1]	
ECON 201	Principles of Microeconomics [1]	
or ECON 202	Principles of Macroeconomics	
INFS 247	Business Information Systems [1]	
MARK 201	Principles of Marketing [1]	
MGMT 201	Managing People and Organizations [1]	
Select one of the following:		3
SCMG 337	Fundamentals of Lean Production	
SCMG 341	Quality Management & Continuing Improvement	
SCMG 342	Supply Chain Modeling	
SCMG 346	Sustainable Supply Chain	
SCMG 383	Management of Service Operations	
SCMG 395	Independent Study in Operations Management	
SCMG 399	Special Topics in Operations Management	
Total Hours		**18**

[1] Quinlan students are ineligible to take this course to meet requirements for the minor.

Important Details

At the discretion of the Quinlan School of Business, a maximum of one transfer course (https://www.luc.edu/quinlan/academics/studentresources/undergraduate/transfercredit/) taken prior to matriculating at Loyola University Chicago may be allowed to satisfy minor requirements. A 2.0 average GPA is required for all attempted business courses. (BA in Economics students must also earn a 2.0 average GPA for all attempted Economics courses).

Quinlan students are limited to double dipping once (that is, counting one course twice) between any major or minor combination, regardless of what program the major or minor is taken in. Non-Quinlan students are limited to double dipping twice (that is, counting two courses twice) between business school minors and/or their respective majors.

Students planning to study abroad are encouraged to meet with their academic advisor early in the planning stage. A student will be permitted to take up to two approved courses in any Quinlan major or minor (and including BA Economics majors). All courses must be approved by the Quinlan Undergraduate Dean.

Sustainability Management Minor

Students who wish to learn more about sustainability in business and industry may pursue the sustainable business minor.

The minor in sustainability management provides foundational knowledge of the applications of sustainability in management, marketing, and economics. Students will:

- Learn the social, environmental, and economic impacts of current business systems and consumer society

- Explore alternatives to the current system
- Gain an understanding of the scientific, moral, and business case for sustainability
- Learn standards and metrics for gauging sustainability impacts

Curriculum

The Sustainability Management minor for non-Quinlan students requires 21 credit hours (15 hours, effectively, for Quinlan students) in the following courses. Additional courses may be needed to satisfy prerequisites for upper-level courses.

Code	Title	Hours
Prerequisites		
ENVS 283	Environmental Sustainability (Tier 2 Scientific Knowledge course)	3
ECON 201	Principles of Microeconomics (Quinlan Business Core requirement and Tier 2 Societal Knowledge course)	3
MGMT 201	Managing People and Organizations (Quinlan Business Core requirement)	3
Required Advanced Courses		
ENVS 335	Ecological Economics	3
ENVS 363	Sustainable Business Management	3
Advanced Elective Courses		
Select two of the following:		6
ECON 328	Environmental Economics	
ENVS 332	Industrial Ecology	
ENVS 333	Introduction to the Circular Economy	
ENVS 336	Design for Circular & Sustainable Business	
ENVS 364	Sustainability Management in the Global Context	
MARK 320	Marketing for Environmental Sustainability	
SCMG 346	Sustainable Supply Chain	
No more than one of the following:		
MGMT 399	Special Topics in Management ((on a sustainable business topic and with pre-approval))	
ENVS 398	Special Topics (on a sustainable business topic and with pre-approval)	
Total Hours		**21**

Important Details

At the discretion of the Quinlan School of Business, a maximum of one transfer course (https://www.luc.edu/quinlan/academics/studentresources/undergraduate/transfercredit/) taken prior to matriculating at Loyola University Chicago may be allowed to satisfy minor requirements. A 2.0 average GPA is required for all attempted business courses. (BA in Economics students must also earn a 2.0 average GPA for all attempted Economics courses).

Quinlan students are limited to double dipping once (that is, counting one course twice) between any major or minor combination, regardless of what program the major or minor is taken in. Non-Quinlan students are limited to double dipping twice (that is, counting two courses twice) between business school minors and/or their respective majors.

Students planning to study abroad are encouraged to meet with their academic advisor early in the planning stage. A student will be permitted to take up to two approved courses in any Quinlan major or minor (and including BA Economics majors). All courses must be approved by the Quinlan Undergraduate Dean.

U.S./Europe Double Degree (BBA)

The U.S./Europe Double Degree in Business is an immersive experience that will widen your marketability and extend your career possibilities in the U.S. and Europe.

As part of the program, you'll study two semesters in Spain, one semester in Rome, and your remaining semesters in Chicago.

Current Loyola freshmen are encouraged to apply to the program.

Curriculum

Suggested Sequence of Courses

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

Learning Outcomes

- Foundational business knowledge for the U.S. and Europe
- How to live and interact with different cultures
- Global approaches to social justice and sustainability
- Unique challenges facing multinational corporations

School of Communication

Mission

The School of Communication is a community of learners that fosters critical thinking and innovation, integrates big ideas in communication theory and practice, tells stories across multiple platforms and adapts to changing technology and social needs. We develop ethical professionals with the knowledge and dedication to make a lasting contribution through communication and service in the world.

For more information on Loyola's Jesuit mission, visit:

- University Mission Statement (https://www.luc.edu/mission/mission_vision.shtml/)
- Transformative Education in the Jesuit Tradition (https://jobs.luc.edu/media/lucedu/president/pdfs/FINAL-LoyolaTransformativeEducation-2015.pdf)

Values Statement

Members of the SOC community are dedicated to the well-being, growth and success of our students and our colleagues.

We are guided by our mission statement and by the Jesuit vision of *cura personalis*.

We believe:

- Members of this community should treat others with empathy and kindness.
- Honesty and trust-building should define our interactions.
- Collaboration should be the signature of our work.
- The core of all we do must reflect values of ethics, social justice, diversity, equity, and inclusion.

Through these beliefs and the actions that bring them to life, the SOC community fosters an environment of learning and belonging for all.

Degree Requirements

Students must fulfill the following requirements in order to graduate from the School of Communication with a bachelor's degree:

- Core Requirements
- College Requirements: Writing Intensive Course Sections and the Language Requirement
- General Electives
- Residency Requirement

Core Requirements

The university Core Curriculum (p. 1212) seeks to play a key educational role in every Loyola student's undergraduate experience. Designed to provide both breadth and depth to a student's program of study, the Core Curriculum introduces students to key concepts and modes of thought in a variety of areas of human intellectual endeavors. In particular, the Core introduces students to ten central Knowledge Areas of university learning, with a consistent focus on learning outcomes for those Areas. Core coursework develops students' understanding through knowledge and experience in the Knowledge Areas of artistic, historical,

literary, quantitative, scientific, societal and cultural, philosophical, theological and religious studies, and ethical learning, plus written communication. In addition, the Core reinforces the development of six Skills crucial to facing the challenges of contemporary society. Each core course promotes at least one of the following skills: communication, critical thinking, ethical awareness and decision-making, information literacy, quantitative and qualitative analysis and research methods, and technological literacy. Finally, the Core integrates the understanding and promoting of four Values essential to a Loyola education: understanding diversity in the US or the world; understanding and promoting justice; understanding spirituality or faith in action in the world; and promoting engaged learning.

To complete the Core Curriculum, students will take 16 courses across ten Knowledge Areas. Two courses are required in six of these areas (Historical Knowledge, Literary Knowledge and Experience, Scientific Literacy, Societal and Cultural Knowledge, Philosophical Knowledge, and Theological and Religious Studies Knowledge). Students will begin their studies in these six areas with a Foundational (or Tier I) course that will introduce them to critical ideas and methods of analyses in that area. After completing the Foundational course, students will have an array of options to further their studies by taking one of a variety of Tier II classes to pursue their particular interests in more depth. The other four Knowledge Areas (College Writing, Artistic Knowledge and Experience, Quantitative Analysis, and Ethics) require one course each.

Additionally, students will have the opportunity to apply their Loyola education to real world experiences through the Engaged Learning requirement. This requirement may be satisfied by a course within the Core Curriculum, or in a student's major or minor, or through an elective course.

Note: As of Fall 2005, students must earn a 2.00 overall cumulative GPA in Core Knowledge Areas and Engaged Learning courses. To calculate your cumulative Core GPA, use the GPA calculator available at http://www.luc.edu/advising/gpa_calculator.html (https://www.luc.edu/advising/gpa_calculator.shtml/).

Click on the links below to view the guides and worksheets about Loyola's Core Curriculum and Values Across the Curriculum requirements.

- Core Curriculum (p. 1212)
- Student Resources (https://www.luc.edu/core/studentresources.shtml/)

School Requirements

All SOC students are required to complete a language competency requirement and two writing-intensive sections of curses. These courses must be completed with a C- or better.

Writing Intensive Sections

Students should expect that virtually all of their courses will include a writing component. In addition, the college requirement for writing intensive courses is a means of strengthening the writing of all students throughout their years at Loyola.

In order to graduate with a degree from the School of Communication, students ordinarily must complete three writing courses. These include:

- UCWR 110 Writing Responsibly (3 credit hours) (Core Curriculum requirement)
- Two writing-intensive sections

Writing-intensive sections are designated sections of courses that are taught with a special emphasis on writing. They are identified by a "W" in the section number. Students in these course sections will have a variety of writing assignments that will be integrated closely with the learning objectives of the course. Often, students will be able to complete a writing-intensive course within their chosen major(s) and minor(s). The purpose of the program is to assure that students continue to give attention to writing as an essential component of education throughout their years at Loyola. Note: UCWR 110 Writing Responsibly must be taken in the freshman year and must be completed with a grade of "C-" or better before any writing-intensive course may be taken.

In order to ensure that training in writing is spread throughout the undergraduate years, the program specifies that no more than one writing-intensive course per semester may be applied to this requirement. Students must earn a C- or better in each writing intensive course in order for the requirement to be satisfied.

Transfer students who have taken and passed (with a C- or higher) both semesters of a two-semester requirement in college composition at their previous institutions or who have taken a composition course that is equivalent to UCWR 110 Writing Responsibly are not required to take UCWR 110 Writing Responsibly at Loyola. Transfer students with 59 or fewer transfer credit hours (completed prior to matriculation) must take two writing-intensive courses during their undergraduate career at Loyola; transfer students with 60-89 transfer credit hours must take one writing-intensive course during their undergraduate career at Loyola; transfer students with 90 or more transfer credit hours are exempt from taking writing-intensive courses. For further information, transfer students should consult their academic advisor.

Language

Competency in reading, writing, and speaking at the 102-level or higher in a language other than English is required for all SOC students. Students may complete this requirement in one of the following ways:

- In a language other than English, complete Loyola language coursework, earning a C- or better at the 102-level or above. (If a student wishes to study a language for which they have no background, this equates to taking two semesters of the same language, i.e. 101 and 102.). If coursework in a language is not offered at Loyola, a student may review eligibility and seek permission to take coursework at another college or university during the summer in accordance with the Policy on Prior Permission to Take Coursework at Other Universities (https://catalog.luc.edu/undergraduate-academic-standards-regulations/permission-take-coursework-universities/). Students must first consult an academic advisor about this policy.
- Earn the 102-level or above equivalent in transfer credit from another college/university, prior to Loyola matriculation.
- If a student wishes to continue studying a language that is offered at Loyola, they may complete an online placement test that helps place them into the most appropriate language course. Scores are recorded for future reference and are valid for 15 months. (Past 15 months, students should retake the exam.) Students who take this exam must adhere to the Loyola policy on Academic Integrity —they should not receive help. This placement exam does not fulfill the language requirement. Rather, it determines at what level of a language a student should begin taking coursework.
- Earn a score of 4 or 5 on an Advanced Placement (https://www.luc.edu/undergrad/academics/creditbyexam/) examination (a

score of 3 on an AP exam will satisfy the Language Requirement, but will not award academic credit). **or**

- Demonstrate competency by passing a Language Competency examination. Students are permitted to take only one competency exam. Multilingual students who wish to take this exam should test in the language they know best. If a student does not pass their one competency exam, they must take language coursework, adhering to the above rules. Note: Language Competency exam results may take up to six weeks to return. Students who wish to take an exam are strongly encouraged to schedule the exam as soon as possible upon matriculation, and no later than the end of their junior year.

For a list of Language Competency exams offered, please consult the Department of Modern Languages and Literatures website (https://www.luc.edu/modernlang/placementcompetency/foreignlanguagecompetencyexam/).

To schedule an appointment to take a Language Competency exam, send an email (from your Loyola account) to LanguageTesting@luc.edu. Include your Name, Student ID number, current SoC major, and the language in which you would like to be tested. The Department of Modern Languages and Literatures will reply with instructions on how to schedule your specific exam. Note: Students are responsible for the $100.00 cost of the exam. Language Competency exams that are conducted in the Language Learning Resource Center (LLRC) may not be scheduled during the first week of each semester or during registration week in each semester.

Requesting a Language Competency Exam in a Language Not Offered at Loyola

Students who would like to test in a language that is not offered at Loyola may submit a request (during their first semester in the SoC) to the Department of Modern Languages and Literatures by completing the Language Exam Request (https://www.luc.edu/media/lucedu/cas/pdfs/languageexamrequest.pdf) (PDF) for a competency exam in that language. The request form must be submitted to LanguageTesting@luc.edu. Once a request is submitted, the Department of Modern Languages and Literatures will make a reasonable effort to locate an academically qualified tester at Loyola or at another college or university. If a Language Competency exam is made available and the student passes the exam, they will meet the 102-level language requirement.

If no qualified tester can be found within one academic semester, the student's request will be denied, and the student will be required to satisfy the SoC language requirement via language coursework at the 102-level or higher.

Elective Courses

Students must complete at least 120 credit hours (as of Fall 2011) to graduate from Loyola. By definition, electives are courses not used toward completing the major, minor, or Core requirements, and which students take to complete the graduation requirement of 120 credits. We encourage students, when choosing electives, to think of the knowledge, values, and skills you hope to gain in exploring a particular academic interest or in anticipation of a career after graduation. For undeclared students, elective courses present an excellent opportunity to develop academic interests leading toward a major or minor. General electives also present an opportunity to broaden your liberal arts education, add to your skill set, or simply try a new subject for the joy of it.

Residency Requirement (Required Hours in Residence)

In-residence hours refers to the course credit hours taken at Loyola University, the Rome Center, or taken from any of the Loyola sponsored study abroad programs through the Office for International Programs.

Students must take their final, uninterrupted 45 hours of instruction or a minimum of 60 hours in residence at Loyola University Chicago.

COMM 100 SOC Career Prep Seminar (1 Credit Hour)
This is a professional development course to help students expand their knowledge of communication fields and to begin career preparation for those fields.
Outcomes:
Develop and polish professional communication tools (resume, cover letters, LinkedIn, etc); prepare for professional interactions (interviews, etc); and make connections within the SOC and beyond

COMM 101 Public Speaking & Critical Thinking (3 Credit Hours)
This introductory course is designed to supply students with the skills of public address, a fundamental understanding of critical thinking practices, foundational tenets of communication theory, a grasp of the relationship between context and communication, and a sense of the social responsibility that comes with the capacity for communication. Students can take one course from COMM 101 and 103, but not both.
Interdisciplinary Option: Forensic Science
Course equivalencies: ACCOM 101/103 COMM 101/103
Outcomes:
Students gain skills in public speaking and an understanding of critical thinking

COMM 103 Business & Professional Speaking (3 Credit Hours)
This class examines the theory and practice of audience analysis, message design, and oral presentation for professional speakers, with an emphasis on communication in organizational settings.
Course equivalencies: ACCOM 101/103 COMM 101/103
Outcomes:
Students will demonstrate presentation skills in simulated organizational settings

COMM 130 Intro to Audio Production (3 Credit Hours)
This class offers a study of basic audio production methods across new media platforms. Topics include acoustics, recording methods, digital editing, and sound as an industry and art form.
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies
Course equivalencies: X-COMM130/ICVM238/IFMS238
Outcomes:
Students will produce creative projects using the skills they have learned

COMM 135 Intro to Video Production (3 Credit Hours)
This course is a hands-on introduction to video field production. By designing and executing a series of short, creative production projects of varied forms, students explore how video techniques are used to structure meaning in media messages.
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies
Course equivalencies: X-COMM135/ICVM235IFMS235
Outcomes:
Student will be able to demonstrate an understanding of basic video production skills, such as preproduction planning, lighting, filming and editing, by producing several video texts

COMM 140 Intercollegiate Debate (1 Credit Hour)
This course offers students active participation in Loyola Debating Society. A maximum of six hours in intercollegiate debate credit allowed.
Outcomes:
Students will gain experience in debate

COMM 145 Video for Journalists (3 Credit Hours)
Pre-requisites: MJRN majors and minors may enroll, as well as EVCM minors
Entry-level course that will serve as an introduction to basic video/audio journalism. The goal of the course is for the student to develop the ability to capture great video images and audio, and to be able to edit those two elements together to tell a non-fiction video story. For MJRN majors and minors only An understanding of how to operate a video camera; how to capture/edit video; how to tell a journalistic story with video, and the differences between journalistic videos and fictional videos.
Course equivalencies: X-COMM135/ICVM235IFMS235
Outcomes:
An understanding of how to operate a video camera; how to capture/edit video; how to tell a journalistic story with video, and the differences between journalistic videos and fictional videos

COMM 175 Introduction to Communication (3 Credit Hours)
This course gives a general historical and theoretical overview of communication. By looking at communication through a critical, historical and theoretical lens, students will acquire an intellectual framework for further study and practice in communication.
Course equivalencies: COMM 175 /COMM 160 /ACCOM 201
Outcomes:
Students will increase communication literacy

COMM 200 Digital Communication and Society (3 Credit Hours)
This course explores the ways technology affects personal, cultural and mass communication through examining the historical, societal and ethical implications of newer and interactive forms of media.
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies
Course equivalencies: COMM200 / IFMS200 / ACCOM 205
Outcomes:
Students use audio, video and digital tools to research and produce essays, projects and presentations that analyze the impact of technology on communication

COMM 201 Media Theory and Criticism (3 Credit Hours)
This course is an introduction to the study of traditional mass media and new media from a critical and interpretive perspective. Students taking the course should be able to understand and apply textual analysis methods to specific media texts, such as films, TV shows or videogames.
Course equivalencies: X-IFMS201/COMM201
Outcomes:
This course reviews semiotics and other methods of textual analysis of media

COMM 202 Story for Film and Television (3 Credit Hours)
Pre-requisites: COMM 274
An introduction to visual writing, story structure and character development for film and TV. Through in-class exercises, analysis of scripts, and assignments focused on storytelling fundamentals, students will learn what makes a compelling concept, where great ideas come from, and effective ways to build a narrative for the screen.
Outcomes:
Story will: write pitches, synopses, loglines and titles for the screen; create original characters; learn 3-act storytelling structure; develop original story treatments, outlines and pitches for film, TV or webseries

COMM 203 Topics in Cinema History (3 Credit Hours)
The course examines the aesthetic, social, technical, and theoretical evolution of cinema offered as specific topics that include, but are not limited to: war and revolution, social history and cinema, the role of women, Indian cinema, musicals, technology and style, and the realistic impulse.
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies
Course equivalencies: X-COMM203/ICVM260IFMS260
Outcomes:
Students are offered a variety of topics, broadening their view of the film industry

COMM 204 Community as Story (3 Credit Hours)
This course uses children's literature as a means of understanding urban community and individual identities within that community. Students will though, community service, interaction with local experts and ethnographic research, explore communities surrounding Loyola's lake shore campus and create their own children's picture books in collaboration with experienced student artists.
This course satisfies the Engaged Learning requirement.

COMM 205 Reporting Basics I: Writing and Interviewing (3 Credit Hours)
Pre-requisites: UCWR 110
This course examines current issues in U.S. journalism with strong emphasis on developing skills in news reporting, interviewing, and writing.
Outcomes:
News Judgment; Writing Concisely and Clearly; Writing on Deadline; AP Style; Interviewing Techniques; Grammar, Spelling & Punctuation; Ethics & Legal Issues; Basic Research Methods

COMM 206 Hip Hop Culture and Social Change (3 Credit Hours)
Pre-requisites: COMM 175 or 201
Grounded in Black studies, communication studies, critical cultural studies, political advocacy, popular culture, and the growing field of hip hop studies, we will investigate hip hop's evolving relationship with social change in the U.S. and beyond. Particular attention will be paid to Chicago's hip hop scene and its community building.
Outcomes:
1) Gaining a basic understanding of the subject; 2) Developing knowledge and understanding of diverse perspectives, global awareness, or other cultures; 3) Gaining a broader understanding and appreciation of intellectual/cultural activity (music, etc)

COMM 207 Photojournalism (3 Credit Hours)
Photojournalism introduces students to the art of photographic storytelling.
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies
Course equivalencies: X-COMM207/IFMS207
Outcomes:
Students learn to distinguish journalistic photography from self-expressive photography through editing, critique and digital manipulation, and also understand the ethics of photojournalism through graphic concepts and page design

COMM 208 Reporting Basics II: Technology for Journalists (3 Credit Hours)
This course teaches 21st century journalism skills and how to use the equipment and software to report and edit across platforms, including radio, television and the Internet. Instruction will include how to use audio and video recording equipment, basic Web design, use of audio and video editing software, blogging and social media programs.
Outcomes:
News Judgment; Writing Concisely and Clearly; Writing on Deadline: AP Style; Interviewing Techniques; Grammar, Spelling & Punctuation; Ethics & Legal Issues; Basic Research Methods

COMM 210 Principles of Public Relations (3 Credit Hours)
Pre-requisites: COMM 175; EVCM minors are waived from COMM 175
This course introduces the theory and practice of public relations in communicating and establishing relationships with diverse publics. Topics include professional roles and ethical responsibilities, strategies and tools, media resources, and public relations writing.
Outcomes:
Students will be able to demonstrate an understanding of the roles and practices of the public relations professional, develop PR plans, and create a portfolio or writing samples

COMM 211 Principles of Advertising (3 Credit Hours)
Pre-requisites: COMM 175
This course provides an overview of the theory and hands-on practice of advertising including planning, strategy, creative development, and media planning. Elements of direct response, promotion, internet, and public relations are also presented.
Outcomes:
Students will be able to demonstrate an understanding of the principles of advertising and practice creative and decision-making skills in developing an advertising campaign

COMM 212 International Advertising (3 Credit Hours)
This course will build an understanding of the cultural, language, social, national and business factors that drive international markets. A key outcome is to broaden student perspectives on how organizations communicate with Italian and other European audiences.
Interdisciplinary Option: Global Studies

COMM 213 Digital Foundations (3 Credit Hours)
Pre-requisites: COMM 175 or 201; EVCM minors are waived from pre-requisite
Students will be introduced to digital media tools, including online content creation, SEO, website management, email marketing, social media engagement, digital advertising, analytics and emerging technologies that are used to create and build integrated digital campaigns for advertising and public relations.
Outcomes:
Ability to demonstrate elementary knowledge of digital communication tools; Practical understanding and capabilities for creating content across a wide range of media platforms; Knowledge of digital media platform technical requirements

COMM 214 Introduction to Creative Concepts (3 Credit Hours)
Pre-requisites: COMM 211
This course introduces students to the creative process and idea generating techniques. Students explore what constitutes strong advertising concepts through exposure to award-winning ads and work in teams to create ads for assigned products.
Outcomes:
The emphasis is on conceptual development with students expected to express their ideas in rough rather than tightly finished layouts; The course focuses on print advertising but also provides opportunities to work across various other media

COMM 215 Ethics & Communication (3 Credit Hours)
Pre-requisites: COMM 175
COMM 215 does not meet Core Ethics. This course explores various approaches to ethical decision-making and applies that process to diverse aspects of every day, contemporary life.
Outcomes:
Students learn to discern a wide variety of ethical issues concerning communication behavior, apply systematic ethical analysis to various communication situations, and clearly explain their analyses

COMM 220 Introduction to Rhetoric (3 Credit Hours)
This course introduces theories of rhetoric, emphasizing the relevance of classical disputes for understanding current controversies over the nature and function of discourse. A central theme is the tension between rhetoric's promise for constructing a rich and meaningful civic life and the dangers of its descent into demagoguery and irrationality.
Course equivalencies: ACENG 220 / COMM 220
Outcomes:
Students will work through theoretical issues, by examining speeches, films, and other rhetorical artifacts

COMM 227 Social Justice & Communication (3 Credit Hours)
Pre-requisites: COMM 175; EVCM minors are waived from the pre-requisite
This course examines the implications of communication processes and practices for democracy and social justice.
Interdisciplinary Option: Peace Studies
Course equivalencies: X-COMM227/PAX 227
Outcomes:
Students will be able to articulate and defend their conception of the role of communication in achieving a just society and demonstrate an understanding of how existing communication institutions, laws, and norms impede or assist movement towards that goal

COMM 230 Argumentation & Advocacy (3 Credit Hours)
This course is an introduction to analyzing and critiquing arguments, and inventing extended arguments to advocate positions.
Outcomes:
Students will be able to analyze and critique both individual arguments and extended cases; demonstrate understanding of the relationship of argumentation to audience and context; and invent arguments and develop cases for advocacy

COMM 231 Conflict Management and Communication (3 Credit Hours)
This course explores the role of communication in conflict resolution. Special attention is paid to mediation and other forms of alternative dispute resolution.
Interdisciplinary Option: Peace Studies
Course equivalencies: X-COMM231/PAX 231
Outcomes:
Students will acquire methods of analyzing the nature of conflict and applying appropriate communicative strategies for managing conflict

COMM 232 Cinematography I (3 Credit Hours)
In this course, students will demonstrate their ability to apply aesthetic and theoretical principles and cinema production skills. Topics include pre-visualizations, preproduction planning, digital cameras system, cinematography and lighting. Students work on individual and group projects involving project development, filming and editing.
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies
Course equivalencies: X-COMM232/ICVM232/IFMS232

COMM 234 Interviewing for Communication (3 Credit Hours)
This course explores the crucial skill of interviewing necessary for many aspects of professional and daily life. Students will learn different ways of interviewing depending on communication context.
Outcomes:
These approaches will enhance students' interviewing ethics as they gain practical experience

COMM 236 Persuasive Presentations (3 Credit Hours)
Pre-requisites: COMM 220 or COMM 230 or COMM 268; EVCM minors are waived from pre-req
This class focuses on the creation and delivery of persuasive messages to develop a variety of persuasive strategies and implement them in both individual and group presentations.
Outcomes:
Students engage in situation analysis and message critique

COMM 237 Small Group Communication (3 Credit Hours)
This class is an introduction to theory, research, and practice of communication that contribute to effective task-group discussion and decision making.
Outcomes:
The development of personal leadership skills and observational/analytic skills through guided, structured group activities

COMM 239 Moving China (3 Credit Hours)
This course offers a unique opportunity to film and document China as it changes virtually before our eyes.
Interdisciplinary Option: Asian Studies, Film & Digital Media Studies, Global Studies, International Film & Media Studies
Outcomes:
Students will have an intimate knowledge of China and Chinese culture and the talent and skill to produce a 15-minute documentary video in digital format

COMM 256 Broadcast Newswriting (3 Credit Hours)
This course introduces basics of broadcast news and broadcast writing style. Students learn script writing and formatting, an introduction to radio and TV reporting, standard terms and basic newscast production, and an introduction to the studio. This course also provides a foundation for more advanced courses in the broadcast curriculum.
Outcomes:
Students gain experience writing for radio and TV news, as well as basic knowledge of the broadcast news industry and contemporary issues pertinent to the field

COMM 258 Game Studies (3 Credit Hours)
This course examines games and their complex role within contemporary culture. Games are approached as "texts" that can be "read" using a variety of theoretical lenses. Students will explore what games say about the nature of identity, community presence, learning, and communication and reflect on their own experience in a blog.
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies
Course equivalencies: X-COMM258/IFMS258

COMM 259 News Editing (3 Credit Hours)
This course examines problems and methods of copy editing, design and typography, and newspaper management and competition.
Outcomes:
Students will gain experience with production skills in the print medium

COMM 260 Environmental Journalism (3 Credit Hours)
The mission of environmental journalism is to raise public awareness about environmental news and issues. It is about being ethical, accurate, fair, and clear, whether reporting, investigating, or advocating for change.
Course equivalencies: X-ENVS 260/ COMM 260
Outcomes:
Students will be able to find, report, and present challenging stories around this topic, in print and in broadcast writing

COMM 261 Social Media (3 Credit Hours)
Pre-requisites: COMM 200
Starting from the foundation of traditional offline business and social communities and communication, this course will show how the real relationships of online business and social communities use content to build personal and business success at the speed and reach of the Internet.
Outcomes:
Articulate how the Internet and social media has changed the way we produce and consume content and how social media has affected the way we work, shop, and interact online and off

COMM 262 Feature & Opinion Writing (3 Credit Hours)
This course examines methods of researching and writing editorials, commentaries, and features for print media.
Outcomes:
Students will broaden their research and writing skills

COMM 263 Editorial Design I: Newspaper & Online (3 Credit Hours)
Pre-requisites: COMM 175 or COMM 201
Editorial Design I is an introduction to information processing and readership, and basic principles of layout and editing.
Outcomes:
Students experiment with a variety of printed formats and practice copy fitting, typography, and photo-editing

COMM 265 Sports Broadcasting (3 Credit Hours)
This course will teach students how to report and produce broadcast stories about athletes and athletic events. Students will have access to players and coaches on the professional and collegiate levels, attending games, practices and training. Students will learn to produce stories for radio and television, as well as sound broadcast presentation skills.
Outcomes:
Students will learn to conduct journalistic research, interviewing techniques, public speaking skills and how to produce stories for radio and television

COMM 266 Advertising Copywriting (3 Credit Hours)
This course will focus on the art of copywriting for advertising, be it for TV, print, outdoor, social media and the ever changing landscape of digital media. Students will learn to craft their words to make creative advertising based on strategies and insights.
Outcomes:
Through a series of creativity building exercises, short lectures, and readings, learners develop both an understanding of creativity and increase their own ability

COMM 268 Persuasion (3 Credit Hours)
Students will get practical experience in the analysis, criticism, and application of persuasive discourse across a wide variety of contexts. This course is designed to explore theories related to persuasion, social influence, and compliance-gaining.

COMM 269 Observing China (3 Credit Hours)
This course is about street-level China, as it is seen and as it happens. This course is a practicum, in which students, through a mix of lectures, briefings and discussions, will delve into nature of observation and engagement with and in China.
Interdisciplinary Option: Asian Studies, Global Studies
Outcomes:
Students will have a deeper understanding of how journalists and documentarians observe and write (or film) China, and over the course of the semester will make some efforts of their own to do original journalism and essay writing

COMM 271 Media Culture and Communication (3 Credit Hours)
This course examines contemporary U.S. American culture from a critical-theoretical standpoint while examining popular icons and social practices with particular attention to their influence on individual and collective identities.
Outcomes:
Students will learn critical cultural theories and do projects where they reflect upon the influences of contemporary cultural texts and practices with an eye for their economic, social and political influence on individual and collective identities

COMM 272 Intercultural Communication (3 Credit Hours)
This course introduces students to intercultural communication theory and research. Students explore how differences in ethnic, religious, economic, and geographical experiences produce social biases and engender conflict. Students are expected to explore their own cultural histories to understand how they create meaning and adopt attitudes.
Interdisciplinary Option: African Studies and the African Diaspora, Black World Studies, Global Studies, Latin American Studies, Peace Studies
Course equivalencies: X-COMM272/INTS213/PAX 218

COMM 273 Interpersonal Communication (3 Credit Hours)
Students study speech to understand its role in human relationships. This course focuses on self-exploration of communication patterns by asking life's big questions about self and other. Students will gain competence in interpersonal communication through the development of perceptual accuracy, and clarification of values with regard to relational goals.

COMM 274 Introduction to Cinema (3 Credit Hours)
This course is an introduction to the study of cinema as a complex medium of communication. This course will provide students with the basic terminology, observational skills and theoretical background for the study of film aesthetics, language, cultural analysis, history and the production of cinematic texts.
Knowledge Area: Artistic Knowledge and Experience
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies
Course equivalencies: COMM274/ICVM222IFMS222
Outcomes:
Students will be able to demonstrate an understanding of the basic approaches to film studies such as formal analysis; critical practices, and narrative studies

COMM 275 Web Design and Usability (3 Credit Hours)
Pre-requisites: COMM 200; for FNVC majors/minors, pre-requisite is FNAR 383; EVCM minors are waived from COMM 200 pre-requisite
This course will explore the design and usability of websites from several perspectives: how they look (aesthetics), how they work (navigability and usability), and how they are made (tools and software). Lectures, demonstrations, and in-class lab time will introduce students to the creative tools and software that power contemporary web design and usability. Emphasis will be on using a variety of tools and resources to meet one's own goals, rather than achieving the level of expert in any one piece of software.
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies

COMM 277 Organizational Communication (3 Credit Hours)
This course is an introduction to theory and practice of organizational communication, with an emphasis on organization contexts, culture, and systems, and the role of communication in building relationships with internal and external stakeholders.
Outcomes:
Students will be able to analyze organizational communication, and understand the impact of technology, globalization, community and diversity on organizational systems

COMM 278 International Public Relations (3 Credit Hours)
This course explores the growing impact of globalization on public relations. As multinationals grow and social, economic, and environmental issues become worldwide in focus, PR professionals work in increasingly interconnected world. Students will explore the growth of international public relations by comparing countries, analyzing and discussing cases, and learning best practices.
Interdisciplinary Option: Global Studies

COMM 279 Critical Issues in Journalism (3 Credit Hours)
This course examines different approaches to understanding the role of journalism in contemporary society, emphasizing the historical development of issues that surround journalism today.
Outcomes:
Students explore varied critical perspectives on news and news-gathering to gain a broader understanding of the role of journalism in society

COMM 280 Media Technology & Society (3 Credit Hours)
Pre-requisites: COMM 175 or 201
Through lectures, discussions, and assignments, learn the evolutionary history of media technologies from the telegraph through film, television, and digital media, and review contemporary theories about how technology shapes society.

COMM 281 Communication, Language & Gender (3 Credit Hours)
This course explores the role of communication practices in the production, reinforcement and transformation of gendered identities. Students will learn how gender expectations within cultural contexts are created. They will also learn some of the ways that deeply-rooted assumptions limit social change and guide communication.
Interdisciplinary Option: Women & Gender Studies
This course satisfies the Engaged Learning requirement.
Course equivalencies: X-CMUN254/WOST208/WSGS208

COMM 282 Media Law (3 Credit Hours)
Pre-requisites: COMM 175 or COMM 201; EVCM minors are waived from pre-requisites
This course examines cases and issues in constitutional, statutory, and regulatory law affecting print and electronic media including First Amendment rights, libel, privacy, copyright and trademarks, Freedom of Information, and telecommunication regulations.
Course equivalencies: COMM282/CMUN252
Outcomes:
Students will be able to understand major legal precedents affecting current media communication and recognize their impact on professional practices in print, electronic media and the Internet

COMM 290 Branding and Positioning (3 Credit Hours)
Pre-requisites: COMM 210 or COMM 211
Examines the theory and practice of branding, target segmentation, and how the digital space and the rapid rise of consumer-generated content have impacted brand management. The course explores each stage of the communication planning process and introduces students to the way audience research, and the competitive sets are used to develop brand positions and benefits.

COMM 296 Themes in Advertising/Public Relations (3 Credit Hours)
Pre-requisites: COMM 175 or 201
Intermediate-level Advertising/Public Relations lecture course that examines specific areas of study. Topics vary each semester. This course may be repeated (with different topics) for a total of 9 hours, but only 6 may count toward the major. Students will gain access to a wide variety of topics in AD/PR.

COMM 297 Themes in Communication Studies (3 Credit Hours)
Intermediate-level Communication Studies lecture course that examines specific areas of study. Topics vary each semester. This course may be repeated (with different topics) for a total of 9 hours, but only 6 may count toward the major. Students will gain access to a wide variety of topics in COMM.

COMM 298 Themes in Multimedia Journalism (3 Credit Hours)
Pre-requisites: COMM 175
Intermediate-level multimedia journalism lecture course that examines specific areas of study. Topics vary each semester. This course may be repeated (with different topics) for a total of 9 hours, but only 6 may count toward the major. Students will gain access to a wide variety of topics in MJRN.

COMM 299 Themes in Film and Digital Media (3 Credit Hours)
Beginner to Intermediate-level Film and Digital Media course that examines specific areas of study. Topics vary each semester. This course may be repeated (with different topics) for a total of 9 hours, but only 6 may count toward the major.
Outcomes:
Students will gain access to a wide variety of topics in Film and Digital Media

COMM 300 Persuasive Campaigns (3 Credit Hours)
Pre-requisites: COMM 175
This course analyses the structure, development, and role of communication in political and advertising campaigns, with a focus on theories of media effects, message construction, and audience analysis.
Outcomes:
Students will use their analytic and research skills to broaden their understanding of the use and effects of communication as a means of public persuasion

COMM 301 Discovering China Through Film (3 Credit Hours)
This course will give an overview of major films produced in mainland China since 1949. Students will examine the genres of Chinese film better known in contemporary China and consider them a major source of reflection upon, and critique of, contemporary Chinese society and culture.
Interdisciplinary Option: Asian Studies, Film & Digital Media Studies, Global Studies, International Film & Media Studies
Course equivalencies: CMUN301/ASIA/INTS/AIFMS302
Outcomes:
All films chosen for the course will help inform students' understanding of modern China in terms of its material conditions and ideology

COMM 303 Media, Politics, & Propaganda (3 Credit Hours)
Pre-requisites: COMM 175 or 201, and COMM 200
This course will enable students to understand the relationship between media and politics as well as be able to identify strategies used in propaganda, disinformation and misinformation campaigns, and the impact of technology on its history and evolution.
Interdisciplinary Option: International Studies, Peace Studies
Course equivalencies: X-CMUN330/INTS331/PAX 331
Outcomes:
Students will be able to articulate the media's impact on the circulation of propaganda as well as be able to identify disinformation/misinformation and understand its significance in the political process

COMM 304 Rhetorics of Utopia & Revolution (3 Credit Hours)
Pre-requisites: UCWR 110
This reading-intensive course will examine rhetorics of utopia, revolution, and strategies of change. Students will read a variety of texts from activists, scholars, and revolutionary thinkers to understand the ways (historically and presently) that utopias and revolutions are imagined and created through communication, media texts, and discourse.
Interdisciplinary Option: Global & International Studies, Peace Studies, Global & International Studies, Peace Studies
Course equivalencies: X-COMM304/PLSC/PAX336/INTS310
Outcomes:
By the end of this course, students will have a better understanding of utopia and revolution, how ideology operates and solidifies via discourse, and ways to enact social change

COMM 305 Animation (3 Credit Hours)
Pre-requisites: COMM 135; For FNVC majors/minors, FNAR 233 is the required pre-requisite in lieu of COMM 135
This course will focus on animation with specific emphasis on the creation, refinement, and publishing of a visual story. Students will learn 2D and 3D techniques, cameras, CGI and other software and equipment to create animated works.
Course equivalencies: COMM 305/COMM 455
Outcomes:
theories of visual and image-based storytelling; script writing; character development; storyboarding; creating visual stories from images; animation enhancement/manipulation; graphic design; and contemporary animation design options for visual storytelling/promotion

COMM 306 Environmental Advocacy (3 Credit Hours)
Pre-requisites: Sophomore standing; For SES undergrads and EVCM minors, pre-req is waived
This course explores the rhetorical means by which citizens influence the policies and practices affecting our natural and human environments. The focus is on current controversies.
Interdisciplinary Option: Environmental Studies, Peace Studies, Urban Studies
Course equivalencies: XCOMM306/ESP 329/PAX 329
Outcomes:
The course seeks to provide an understanding of the history and range of communication styles in the U.S. environmental movement and to help students develop practical skills relevant to entering into environmental debates

COMM 307 Communication & Social Movements (3 Credit Hours)
Pre-requisites: COMM 175; EVCM minors are waived from pre-requisites
This course explores the communication strategies used to promote and/or resist significant socio-political change. Students will demonstrate an understanding of how communication is used in particular societal struggles to effect socio-cultural change at an individual, community, institutional or global level.
Interdisciplinary Option: Peace Studies

COMM 308 Screen Directing (3 Credit Hours)
Pre-requisites: COMM 135 and 274
This advanced course in screen directing is designed to further students' narrative filmmaking skills. Geared toward creating fiction films, the course focuses primarily on blocking for the camera, directing actors for the screen, and structuring dramatic scenes. Students should have a working knowledge of basic videography, nonlinear editing, shot composition and film grammar.
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies
Course equivalencies: X-COMM308/IFMS309

COMM 309 Designing Media for Social Change (3 Credit Hours)
Pre-requisites: COMM 220, 227, 230, 231,237, 268, 272,277, or 281; GSCM-MS or DMST-MC or ECVM-MINR students may enroll with no prerequisites
This course examines media and social change at the intersection of theory and practice. The class will be dedicated to analyzing the way social change is catalyzed and communicated through various media platforms. Students will gain a historical and multi-media perspective on a variety of design and communication strategies tied to a range of social and cultural issues.
Outcomes:
Grounded in theories of media power, communication networks, political advocacy, engaged scholarship, and the digital, materials in this course will explore the past, present, and future of designing media and communication practices

COMM 310 Production Design (3 Credit Hours)
Pre-requisites: COMM 274 or COMM 135 or THTR 252; Or instructor permission; MC in DMST students may enroll without pre-requisites
Students develop an understanding for the evolution and history of production design, as it relates to film production, from its inception to the present. Students will pre-visualize and implement art direction--sets, costumes, makeup, color palettes--for student films in production. They learn pre-visualization techniques, script breakdowns and build-out processes for art direction on film sets.
Outcomes:
Students acquire the visual language and historical precedents for production design in film and television

COMM 311 Health Communication (3 Credit Hours)
Pre-requisites: COMM 205 or COMM 210
This course focuses on the growing field of health communication. Building on students' knowledge of public relations, advertising, communication and marketing, this class aims to help students develop an area of specialization that offers career opportunities in many settings. Through guest speakers and field trips, the class is designed to provide an overview of what health communicators do and where they work.
Course equivalencies: COMM 311/COMM 461
Outcomes:
Provide a foundation of knowledge about the US healthcare system and acquaint students with how communications can play a vital role in accomplishing public health objectives

COMM 312 Special Events Planning (3 Credit Hours)
Pre-requisites: COMM 210
Students will gain hands-on experience in event planning. They will learn to anticipate and execute the needs of an organization or community planning special events.

COMM 313 Corporate and Organizational Communication (3 Credit Hours)
Pre-requisites: COMM 210
Students will learn the theory and practice of responsive and strategic organizational communication in developing corporate identity and image.
Outcomes:
Students understanding of the theory and practice of responsive and strategic organizational communication, public relations and advertising will be enhanced

COMM 314 Public Relations Cases (3 Credit Hours)
Pre-requisites: COMM 210
The course focuses on issues, strategies, and solutions in creating and maintaining relationships with key publics including media relations, internal communications, community relations, public affairs, investor relations, and crisis communications.
Outcomes:
Students will gain experience analyzing, formulating and applying case-specific solutions and developing an integrated campaign

COMM 315 Advanced Reporting Topics (3 Credit Hours)
Pre-requisites: COMM 205, 362 , and Junior Standing and above
This course offers in-depth attention to the challenges of writing complex stories characterized by careful research, use of sources, interviewing, and reporting and writing. Students examine writing for a "lay" audience in such areas as science and technology, finance, government, and religion. Can be repeated once with a different topic. Second completion can count as major elective in MJRN.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students will broaden their writing and research experience

COMM 317 Media Planning (3 Credit Hours)
Pre-requisites: COMM 211
This course examines the advertising and marketing processes required to research, develop and implement an effective media plan for budgeting appropriate advertising time and space.
Course equivalencies: COMM 317/COMM 417
Outcomes:
Student teams will develop competencies in decision-making processes and tools, including research methods, objectives, strategies and tactics to construct an advertising media plan

COMM 318 Public Relations Writing (3 Credit Hours)
Pre-requisites: COMM 210
This course focuses on strategic public relations, writing for publics including print, broadcast and digital media with understanding of objectives, news values and formats.
Outcomes:
Students develop competency writing and editing news releases, pitch letters, fact sheets, public service announcements, newsletters, and Web content to develop a portfolio of individual writing samples

COMM 320 Public Service Communication (3 Credit Hours)
Pre-requisites: COMM 210 and 211
This course examines public relations strategies and applications in cause-related campaigns, public service initiatives, and community relations activities for corporate and nonprofit organizations.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students will be able to analyze current issues and advocacy campaigns, define ethical communication and social responsibility, and develop a public service campaign for an organization

COMM 321 Advertising Campaigns (3 Credit Hours)
Pre-requisites: COMM 211
This is an advanced advertising course in a simulated agency environment to provide practical experience in the campaign planning process.
Outcomes:
Student teams develop competencies in creating and producing a professional advertising campaign that includes market research, development of creative and media recommendations, and an integrated marketing communication strategy

COMM 322 Guerilla Media (3 Credit Hours)
Pre-requisites: COMM 200
This course covers provocative, unexpected, and alternative methods for distributing media and gaining new audiences. It includes the history, theories and ethics behind the appropriation of "guerrilla" strategies as found in artistic, civic, commercial and political media work. SES majors and EVCM minors are waived from pre-requisites.
Interdisciplinary Option: Film & Digital Media Studies
Outcomes:
Students gain experiences with understanding, creating and distributing media work with guerrilla strategies around environmental, journalistic and commercial themes of their choice

COMM 323 Remixing Culture (3 Credit Hours)
Pre-requisites: COMM 200
This course explores the remix culture as cultural exchange. While studying about remix culture and collaborative process, students will manifest projects that involve mashing up media using various web-based and mobile media creation, web-based editing, live online broadcasting and sharing and techniques of online presentation.
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies
Course equivalencies: X-COMM323/ICVM323/IFMS323
Outcomes:
Students will learn about the intermixing of cultures through individual projects in which they will combine different types of media

COMM 324 Film Genre (3 Credit Hours)
Pre-requisites: COMM 274
Traces the evolution of independent filmmaking in the U.S, from the pioneering cinema of Maya Deren and John Cassavetes to seminal works of Spike Lee, Kelly Reichardt, and Barry Jenkins.
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies
Course equivalencies: X-COMM324/ICVM324/IFMS324
Outcomes:
Students will be able to demonstrate knowledge what constitutes a genre and the varied approaches used to analyze films within the context of genre studies

COMM 326 Screenwriting (3 Credit Hours)
Pre-requisites: COMM 202
This course introduces students to the process of writing for the screen. Through exercises and analysis of structure and storytelling fundamentals, students will develop a working sense of the art of crafting a screenplay, learning how to build a script, step by step, from an original and compelling idea.
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies
Course equivalencies: X-COMM326/THTR209/IFMS209
Outcomes:
Extensive writing requirements cover all aspects of screenwriting, from creating a treatment and character bios to writing action and dialogue, culminating in the development of a detailed step outline and polished first act of a feature-length script (20+ pages); Students are required to bring an original movie idea to the first class

COMM 327 Video Storytelling (3 Credit Hours)
Pre-requisites: COMM 135 or COMM 145, or DMST-MC student
This course prepares students to report and produce video stories for broadcast and other similar media distribution. It emphasizes information gathering, source development and visual storytelling, and builds on the video and editing skills students learn in the beginning video production class.
Outcomes:
Students will learn how to capture great video and audio, write, produce and edit complex, effective video stories

COMM 328 Editorial Design II: Magazine & Interactive (3 Credit Hours)
Pre-requisites: COMM 175 and COMM 205
This course gives advanced instruction in multi-page editorial layout and design by incorporating writing and photography into a complete, full-color magazine. Students will work as editors and designers in applying principles of design and production to existing articles; and understand ethical issues in serving the readers of the magazine.

COMM 329 Advertising and Public Relations Design (3 Credit Hours)
Pre-requisites: COMM 210 or COMM 211
This course is for AD/PR majors who want to understand the creative and design discipline of the fields. Students will learn the fundamentals of print-based messages used in advertising and public relations. Students will employ various design programs applied in today's industry to develop visual communications projects, which will culminate in a final portfolio.
Course equivalencies: COMM 329/COMM 429
Outcomes:
Students will learn and become competent in the following: Current design programs including InDesign and Photoshop; Basic design principles, such as color, space, and typography; Common formats for designing integrated marketing communication print materials

COMM 330 Intermediate Advertising Design (3 Credit Hours)
Pre-requisites: COMM 214
Builds on the creative skills and understanding acquired in the introductory advertising creative courses to enhance students' conceptual abilities. Utilizing Adobe InDesign and Photoshop, students learn to design for various advertising formats including digital, print and for client presentations.
Course equivalencies: COMM 330/COMM 463
Outcomes:
The best work is finished on computers and reviewed by advertising professionals at the end of the semester

COMM 331 Social Media Advertising (3 Credit Hours)
Pre-requisites: COMM 211 and COMM 213
This course covers the latest theories and practices of social media advertising. Students will be exposed to 1) evolving concepts and theories related to social media advertising, 2) case studies that discuss the strategies of social media campaigns, and 3) hands-on practices of digital technologies to implement social media campaigns.
Course equivalencies: COMM 331/COMM 444
Outcomes:
Knowledge of theories relating to social media advertising, ability to create strategic plans on social media, skills for digital technologies in social media advertising campaigns, and understanding social media advertising ethics

COMM 332 Investigative & Public Affairs Reporting (3 Credit Hours)
Pre-requisites: COMM 205, COMM 362, and Junior Standing and above
This course will teach you how to do Investigative and Public Affairs Reporting with a data journalism approach. Through discussion of examples and our own work, we will explore how to find, request, and use data that can reveal important information about society.
Outcomes:
Students will learn how to conduct their own data-driven Investigative and Public Affairs Reporting; They will also be able to critically assess this type of journalism

COMM 333 Cinematography II (3 Credit Hours)
Pre-requisites: COMM 232, or instructor permission
Students learn and demonstrate techniques and roles for advanced cinematography: virtual production, assistant directing, sound stages, and location lighting.
Outcomes:
Camera/lighting setups for commercial spaces, virtual locations, lens/cameras for advanced aesthetic choices, assistant directing role/practices, drones, cranes, Steadicams, and other mobile camera framing techniques

COMM 334 Mobile Advertising (3 Credit Hours)
Pre-requisites: COMM 211 and COMM 213
Mobile is one of the most valued investments for advertisers. This course covers the latest practices and trends of mobile advertising which includes 1) branded mobile application design and development; 2) advanced mobile experiences with AR/VR experiments; and 3) various practices, tactics, and ethical concerns for native mobile advertising experiences.
Course equivalencies: COMM 334/COMM 464
Outcomes:
Knowledge of relevant human-computer interaction theories and branded mobile design/development; Ability to use digital tools to create mobile advertising campaigns; Understanding of importance and implications of ethics in mobile advertising

COMM 335 City News Bureau (3 Credit Hours)
In this hard news reporting and writing course students cover events in Chicago and Cook County.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students will learn ethical standards of accuracy, objectivity, fairness and balance

COMM 336 Search & Display Advertising (3 Credit Hours)
Pre-requisites: COMM 211 and COMM 213
This course covers search engine optimization and advertising practices through lectures and hands-on practices. Students will learn technical terms and tactics involved in optimizing the search result and user experience with brand websites. Google AdWords, search network campaigns, display network campaigns and Google merchandiser set-up training will be included. (Consider scheduling to coincide with Google Challenge.)
Outcomes:
Understand the major concepts in search engine optimization; Working knowledge of the structure and terms used in Google AdWords; Be able to develop effective search engine and display advertising campaigns

COMM 337 AD/PR Multimedia Commercial Production (3 Credit Hours)
Pre-requisites: COMM 135, COMM 145, or COMM 211
This is an advanced video and advertising course designed to give students an introduction to various types of multimedia commercials as well as practical considerations of producing branded content and television spots, including for real clients.
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies
This course satisfies the Engaged Learning requirement.
Course equivalencies: COMM 337/COMM 437
Outcomes:
Build experience in effective multi-tasking and teamwork, gain skills with technology and strategy, creative, and application process of broadcast production, and practice engaging with the community in media development efforts

COMM 338 Narrative Production (3 Credit Hours)
Pre-requisites: Junior standing and either COMM 232, COMM 308, OR COMM 359; Graduate students majoring in Digital Media Storytelling are also eligible to enroll
Students work in teams to create short-subject narrative films taking their projects from preproduction to exhibition. Students will experience working as a part of a film production crew, be exposed to a variety of jobs, and produce and exhibit original films.
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies

COMM 339 Video Documentary (3 Credit Hours)
Pre-requisites: COMM 135 or COMM 145
This course offers hands on production of video documentaries through the study of electronic field production technology, the analysis of documentary texts, and the application of documentary research methods.
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies
This course satisfies the Engaged Learning requirement.
Course equivalencies: X-COMM339/439/ICVM339/IFMS339
Outcomes:
Students will gains hands-on video production experience in a non-narrative genre

COMM 342 Human Rights Reporting (3 Credit Hours)
In this course, Students will study the history of the concept of human rights and the legal mechanisms for enforcing human rights law, and they will read work by reporters covering human rights worldwide.
Outcomes:
Students will learn how to report on international conflicts by finding local angles of interest to Chicago readers and how to approach articles on domestic human rights issues

COMM 344 Portfolio I (3 Credit Hours)
Pre-requisites: COMM 266; and (COMM 329 or COMM 330)
Builds on skills acquired in intermediate creative courses to help students enhance their conceptual abilities and generate both print and integrated multimedia campaigns. Students work in teams to develop an extensive body of work that's exhibited in an awards show judged by advertising professionals.

COMM 345 Student Agency (3 Credit Hours)
Pre-requisites: COMM 175 and Instructor Consent
Course involves actual client work in Inigo, the student-run communications agency. Students gain skills/put theory into action as they provide public relations, digital communication, strategy and other services to companies and non-profits. Students apply prior semester; contact instructor at cmcphil@luc.edu for details. Undergraduates only. All majors encouraged. 3.0 GPA required. COMM 210 or 211 strongly recommended. Open to undergraduate students only. A 3.0 GPA is required.
Outcomes:
A fundamental understanding of what agencies are and how they function; A heightened sense of professionalism; Advanced-level teamwork; Increased written and verbal communication skills

COMM 350 Producing for Film & Digital Media (3 Credit Hours)
Pre-requisites: COMM 135 OR COMM 274; COMM 405 (for DMST students); OR Instructor Consent
Aesthetic choices meet the ethics and business of filmmaking in COMM 350. Producing covers how to develop story ideas from conception to writing, financing, production and distribution. Relevant issues in script breakdowns, safety, communication and contracts are covered. Students create pitch decks, basic budgets and a longer prospectus for potential investors.
Outcomes:
Understanding DEI issues while choosing stories to produce, hiring performers or crew; templates for budgets; best practices for safety on the set; creating engaging pitch decks and treatments

COMM 357 Programming Film & Media: Festivals, TV & Digital (3 Credit Hours)
Pre-requisites: COMM 200
This course examines programming and curating (selecting) media for film festivals, museums, streaming services and other platforms. Through work on a festival or similar project, students examine how audiences are identified, learn about distribution, and explore the challenges facing media outlets in selecting, reviewing and archiving media.
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies
Course equivalencies: X-COMM357/IFMS369
Outcomes:
Evaluate, curate and present media work; improve critical thinking and writing about media; learn legal, creative and financial implications of programming and curating media

COMM 358 Newscasting and Producing (3 Credit Hours)
Pre-requisites: COMM 205; and (COMM 256 or COMM 327)
This is designed as a capstone course for the broadcast journalism emphasis. It covers all aspects of TV (or web) newscasts, including producing, anchoring, reporting, photography and editing, as well as studio production. The class produces and delivers newscasts, designed to prepare students for work in the TV news industry.
Course equivalencies: COMM 358/COMM 458

COMM 359 Advanced Post Production (3 Credit Hours)
Pre-requisites: COMM 135 and COMM 274
This course combines advanced editing theory and practice, aimed at providing students with the skills required for editing motion pictures of all genres and for all platforms.
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies
Course equivalencies: X-COMM359/459/IFMS359
Outcomes:
Students will learn how to edit for motion pictures of all forms

COMM 360 Digital Media Ethics (3 Credit Hours)
Pre-requisites: COMM 200
This course is designed to familiarize students with a new set of ethical dilemmas that have sprung up in the last decade with the rise of new media. Using classical ethical theories, students will formulate appropriate and responsible solutions to ethical dilemmas emerging in a new/digital media context.
Outcomes:
Students will learn about current ethical issues and solve these issues using classical ethical theories

COMM 361 New Media Criticism (3 Credit Hours)
Pre-requisites: COMM 200 and UCWR 110
Wikipedia, Google, YouTube, Twitter and mobile applications are complex designed objects. Students will learn a critical language for thinking of new media as art, narrative, culture, and code. This course is Writing Intensive.
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies

COMM 362 Multimedia Journalism Research Methods (3 Credit Hours)
Pre-requisites: COMM 175 and COMM 205; EVCM minors are waived from the pre-requisite
This course advances student knowledge of resources, methods, and credibility standards for gathering and reporting news stories.
Outcomes:
Students will learn how to conduct research that is both accurate and balanced

COMM 363 Research Methods in Advertising/Public Relations (3 Credit Hours)
Pre-requisites: COMM 210 or 211
Course will introduce majors to sound and effective social science research methods used in Ad/PR, including surveys, focus groups, content analysis, and audience analyses. It will also give students a chance to apply for the national PR student Bateman Competition that would continue in a designated course the following spring.
Outcomes:
Students will learn the research process and how to apply it to establish, build, and evaluate Ad/PR strategies, goals, and campaigns

COMM 365 Naturalistic Methods Communication Research (3 Credit Hours)
Pre-requisites: COMM 175 or COMM 201
This course examines how communication research is conducted in naturalistic settings using qualitative methods associated with observation and in-depth interviewing.
Interdisciplinary Option: Urban Studies
This course satisfies the Engaged Learning requirement.
Outcomes:
Students will become familiar with the reading and evaluation of communication research, and apply the concepts studied in class to the design and development of a research project

COMM 366 Observing/Measuring Cmun Behavior (3 Credit Hours)
This course examines how communication processes and behaviors are studied, using the social-scientific techniques of observation and measurements. It also looks at the limitations of these methods; appropriate methodologies and ways of analyzing quantitative (numerical) data.
Interdisciplinary Option: Urban Studies
Outcomes:
Students will become familiar with the analysis of quantitative data, and apply their knowledge to the design of a research project

COMM 367 Rhetorical Criticism (3 Credit Hours)
Pre-requisites: UCWR 110 and (COMM 175 or COMM 201)
This course examines theory, research, and application of critical methods for analyzing historical and contemporary persuasive discourse.
Interdisciplinary Option: Urban Studies
Outcomes:
Students will be able to analyze rhetorical situations and critically assess efforts to respond to them

COMM 368 Ethnographic Research Methods in Communication (3 Credit Hours)
Pre-requisites: (COMM 175 or COMM 201) and Junior standing
This course teaches principles of participant-observation research as a critical practice to produce a 'thick description' of meanings, values, hierarchies of interests, power structures and ideals of a particular cultural group or community.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students learn to conduct ethnographic research and its procedures - taking field notes, conducting interviews, examination of data and artifacts, and producing research results to a public audience

COMM 370 Special Topics in Advertising & Public Relations (3 Credit Hours)
These are advanced courses in specialized AD/PR areas. Titles and content vary and prerequisites are established according to course content. May be repeated with different topics for a total of 9 credit hours, but only 6 may count toward the major.
Course equivalencies: COMM 370/COMM 470

COMM 371 Special Topics Communication Studies (3 Credit Hours)
Pre-requisites: COMM 175; DMST-MC and GSCM-MS students may enroll without prerequisites
These courses offer in-depth reading, research, and discussion in specialized areas dealing with current social issues and communication practices. Course titles and content vary. May be repeated for up to 9 hours, but only 6 may count toward the major.

COMM 372 Special Topics: Multimedia Journalism (3 Credit Hours)
Pre-requisites: COMM 175, or DMST student
These courses offer in-depth reading, research, and discussion in specialized areas dealing with current issues in multimedia journalism. Course titles and content vary. May be repeated for up to 9 hours, but only 6 may count toward the major.

COMM 373 Digital Storytelling Abroad (3 Credit Hours)
Pre-requisites: COMM 135 or 145
Participants will learn and execute multimedia storytelling in an international setting. This course will help students enhance their video, writing, interviewing, photography and editing skills within another country and cultural context.
This course satisfies the Engaged Learning requirement.
Course equivalencies: COMM 373/COMM 473
Outcomes:
The course will require students to enterprise and execute a range of multimedia skills that help participants tell stories; The course will have an emphasis on community engagement and social justice; The course will give students an opportunity to apply technical knowledge and skills to a uniquely-designed study abroad experience

COMM 374 Special Topics: Film & Digital Media (3 Credit Hours)
These courses offer in-depth experiences in the production, design, writing and development of film and digital media. Course titles and content vary. May be repeated for up to 9 hours, but only 6 may count toward the major.

COMM 375 Media Relations (3 Credit Hours)
Pre-requisites: COMM 210 or 211
Students learn to develop influence through earned media. Skills taught include identifying news values, writing/creating multimedia press releases and media alerts, AP style, media training, creating media lists using Cision, working with syndication services, search engine optimization for news releases, creating a social presence and working with social influencers.
Outcomes:
Students learn to develop influence through earned media and how to build relationships with the media and other influencers in order to amplify stories for clients

COMM 378 Advertising/Public Relations Practicum (3 Credit Hours)
Pre-requisites: COMM 100; GSCM-MS students may also enroll; Restricted to Juniors and Seniors in the Advertising and Public Relations major; Department consent is required to enroll
Students will gain advanced practical experience advertising/public relations projects.

COMM 379 Digital Sustainability (3 Credit Hours)
Pre-requisites: Sophomore standing; SES undergrads can also enroll
Digital Sustainability explores the environmental impact of digital media. Mining precious metals to manufacture devices, burning fossil fuels to run data centers, global black market trading of e-waste are points where the digital world meets the physical world. Students will explore digital sustainability problems, and work toward creative solutions.
Course equivalencies: COMM 379 / COMM 479
Outcomes:
Learn about environmental issues stemming from digital media infrastructure; Critically evaluate different disciplinary perspectives to gain a broader understanding; Develop ethical reasoning regarding environmental impact resulting from digital media ecology

COMM 380 Debate Practicum (3 Credit Hours)
Pre-requisites: Instructor Consent
Students gain advanced practical experience in the Loyola Debate Society.

COMM 381 Communication Practicum (1-3 Credit Hours)
Pre-requisites: Department Consent
Students gain advanced practical experience in service experiential learning projects. Student must develop a project with a full-time faculty member in COMM Studies. Paperwork is required: https://www.luc.edu/media/lucedu/soc/pdfs/resourceforms/ONLINEDirectedStudyPracticumForm.pdf.
This course satisfies the Engaged Learning requirement.

COMM 382 Multimedia Journalism Practicum (1-3 Credit Hours)
Students gain hands-on practical experience in developing multimedia journalism projects. Student must develop a project with a full-time faculty member in Multimedia Journalism. Paperwork is required: https://www.luc.edu/media/lucedu/soc/pdfs/resourceforms/ONLINEDirectedStudyPracticumForm.pdf. Pre-requisites: Department Consent.
This course satisfies the Engaged Learning requirement.

COMM 383 Radio Practicum (3 Credit Hours)
Students will work with WLUW radio station under the supervision of a faculty member participating in one or several of the following activities: generating story ideas, booking guests, interviewing guests, doing promotions using social networking and on-air productions, recording, editing and producing audio segments, learning several facets of what it takes to produce a radio show.
This course satisfies the Engaged Learning requirement.

COMM 384 Film & Digital Media Practicum (1-3 Credit Hours)
Pre-requisites: Requires Instructor Consent for all majors; DMST may also enroll with instructor consent
Students will gain advanced practical experience creating digital cinema projects. They may choose to focus on a certain role and section--director/producer, writer, cinematographer, editor, production designer, sound designer, publicist.
Interdisciplinary Option: Film & Digital Media Studies, International Film & Media Studies
This course satisfies the Engaged Learning requirement.
Course equivalencies: ICVM384/IFMS384/COMM384
Outcomes:
Students will gain advanced practical experience producing and collaborating on digital cinema projects

COMM 386 Advertising/Public Relations Capstone (3 Credit Hours)
Pre-requisites: Senior Standing (90 credits earned); Restricted to ADPR majors
Students focus on integrating and applying knowledge and skills related to advertising and public relations. They will research a career interest area, interview working professionals, and create strategic communication portfolio materials. Students gain specialized industry knowledge, improve professional communication competence, and build contacts.

COMM 387 New and Digital Media Capstone (3 Credit Hours)
Students focus on integrating and applying knowledge and skills related to new and digital media applications. They will gain specialized research and industry knowledge and skills, improve professional communication competencies, and build digital industry contacts.

COMM 388 Film and Digital Media Capstone (3 Credit Hours)
Pre-requisites: Instructor Consent and Senior Standing; Restricted to FDMD majors: Students must complete the COMM 388 form, describing your project, any participants/support materials/technology needed, and submit to Instructor; Form: https://www.luc.edu/media/lucedu/soc/pdfs/resourceforms/COMM388Form.pdf
Project proposal must be approved by the program director and course supervisor by the end of the first week of the semester. A Public presentation of the project is required. Examples of appropriate capstone projects include, assisting in the development of a film festival or presentation of a significant research project.
Outcomes:
Synthesize previous course work into a public presentation in the students' area of interest

COMM 389 Advertising Creative Capstone: Portfolio II (3 Credit Hours)
Pre-requisites: COMM 266 and COMM 344; Must be an ADCR major, senior standing
Gives students an opportunity to develop new campaigns and refine existing work. Students receive feedback from advertising professionals throughout the semester to help them edit and develop their portfolios. Each member of the class creates a portfolio website and develops a job search plan. Final portfolios are critiqued by faculty and professionals. Have a plan for pitching work to potential employees.
Outcomes:
Develop a portfolio of innovative ideas and creative ads across multiple platforms; Learn skills to critique and edit portfolio material

COMM 391 Advertising/Public Relations Internship (3 Credit Hours)
Pre-requisites: Junior Standing (60 credits earned); Completed 18 credit hours in COMM courses; Restricted to ADPR majors; Instructor Consent; More info at: https://www.luc.edu/soc/resources/internships/
This supervised field experience enables students to have hands-on professional learning at a wide range of agency, corporate, and non-profit organizations as the basis for learning and refining professional communication skills.
This course satisfies the Engaged Learning requirement.
Course equivalencies: CMUN396/COM391/392/393/491/492

COMM 392 Multimedia Journalism Internship (3 Credit Hours)
Pre-requisites: Junior Standing (60 credits earned); Restricted to MJRN majors; Instructor Consent required; More info at: https://www.luc.edu/soc/resources/internships/
This supervised field experience enables students to have hands-on professional learning at a wide range of agency, corporate, and non-profit organizations as the basis for learning and refining professional communication skills.
This course satisfies the Engaged Learning requirement.
Course equivalencies: CMUN396/COM391/392/393/491/492
Outcomes:
Students gain proficiency in professional conduct and industry skills while systematically reflecting on their experiences

COMM 393 Communication Studies Internship (3 Credit Hours)
Pre-requisites: Junior Standing (60 credits earned); Restricted to CMAS and CMUN majors; Instructor Consent required; More info at: https://www.luc.edu/soc/resources/internships/
This supervised field experience enables students to have hands-on professional learning at a wide range of agency, corporate, and non-profit organizations as the basis for learning and refining professional communication skills. Students gain proficiency in professional conduct and industry skills while systematically reflecting on their experiences.
This course satisfies the Engaged Learning requirement.
Course equivalencies: CMUN396/COM391/392/393/491/492

COMM 394 Film & Digital Media Internship (3 Credit Hours)
Pre-requisites: Junior Standing (60 credits earned); Restricted to FDMD majors; Instructor Consent required; More info at: https://www.luc.edu/soc/resources/internships/
Complete an internship providing an opportunity to use their visual and technical and/ or skills in a professional setting.
This course satisfies the Engaged Learning requirement.
Course equivalencies: COMM 394/COMM 494
Outcomes:
Students work with others to develop and complete projects on a predetermined schedule; they get the opportunity to learn from professionals in the field; they find out how well they are doing as judged by the world outside the classroom

COMM 398 Directed Study (1-3 Credit Hours)
Pre-requisites: Department Consent; Student must develop a project with a full-time faculty member in their SOC major; Paperwork is required: https://www.luc.edu/media/lucedu/soc/pdfs/resourceforms/ONLINEDirectedStudyPracticumForm.pdf
Course may be taken for variable credit (1-3 hours). Student will work independently in their area of interest with a supervising faculty member whose expertise is in that area. Projects may include, but are not limited to: a reading course, where the student contracts to read and create an annotated bibliography of research materials; a writing course, where a student has developed a strong paper for a course and wants to refine it for possible conference presentation and/or publication, etc.

Advertising & Public Relations (BA)

In the Advertising/Public Relations Major you will learn to use strategic communication to develop creative and effective messages delivered across multiple media platforms for selected audiences. Loyola's Chicago location provides close proximity to agencies, brands, and organizations, giving students the opportunity to get first-hand exposure to the industry.

Curriculum

Students must choose and declare a focus in Advertising, Public Relations, or Integrated, which determines the specific three courses they will take as part of their chosen focus.

Code	Title	Hours

	Total Hours	**46**

School of Communication Graduation Requirements

All Undergraduate students in the School of Communication are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/soc/undergrad/soclanguagerequirement/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

- Create and implement strategic communication campaigns that integrate advertising, public relations and integrated marketing communication, and are responsive to community needs and organizational goals in local and global contexts.
- Write copy and design messages to reach diverse publics and for distribution through multiple channels, including both traditional and digital media.
- Understand the implications and applications of integrated strategies for digital media in marketing, advertising and public relations practices.
- Apply appropriate research methods to plan, monitor and evaluate public relations, advertising and other communication campaigns and activities.
- Practice ethical communication in professional practices that are socially responsible and in the mutual interests of the organization and the community.
- Demonstrate the competencies to work as an entry-level professional in advertising or public relations.

Advertising Creative (BA)

The Advertising Creative program offers students the opportunity to earn a four-year degree and build a career-ready creative portfolio, all while developing a well-rounded set of critical skills and a deep sense of ethics and responsibility. Students in this program prepare for careers in art

direction, copywriting, production, and other creative roles at agencies and other organizations.

School of Communication Graduation Requirements

All Undergraduate students in the School of Communication are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/soc/undergrad/soclanguagerequirement/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

- Gain knowledge for how creative strategies bring insights into focus to meet challenges and solve problems for industry and organizations.
- Understand the creative process employed for developing big ideas that can be used across multiple and changing communication platforms.
- Demonstrate skills for writing copy and designing messages in traditional and digital media.
- Enhance skills for creating content that is relevant and delivers strategy.
- Apply ethical and inclusive decision making throughout the creation of communications.
- Develop a professional portfolio of creative material.

Advertising Minor

Students pursuing an Advertising Minor learn about the dynamic and complex advertising industry, such as consumer insights, strategic planning, account management, design, media, creative, production, and branding. Typical job areas include market research, graphic design, account service, art director, copywriting, content creator, influencer management, media planning/buying, special event planning, and account management.

The Advertising Minor would be of interest to students in a variety of academics, such as Theater, Fine Arts, Graphic Design, English, Business, Marketing, Psychology, Sociology, Anthropology, Political Science, History, and Women and Gender Studies.

Learning Outcomes

Want to make the most of your field of study and communicate to a wider audience through advertising, social media, influencers, mobile messaging, or other platforms? Students pursuing an Advertising Minor learn about the dynamic and complex advertising industry, such as consumer insights, strategic planning, account management, design, media, creative, production, and branding. Typical job areas include market research, graphic design, account service, art director, copywriting, content creator, influencer management, media planning/buying, special event planning, and account/strategic planning. The Advertising Minor would be of interest to students in a variety of academics, such as those involving theater, fine Arts, graphic design, English, business, marketing, psychology, sociology, anthropology, political science, history, and women and gender studies.

Advocacy and Social Change (BA)

The mission of Loyola University Chicago calls for all of its members "to make a difference as 'persons for others.'" The advocacy and social change major helps students prepare for the fulfillment of that mission, not only while at the university, but also as they move into the rest of their lives.

The program's coursework and faculty help students understand everything from community organizing to lobbying to political campaigns, preparing them for a number of possible career paths. Students will explore and reflect on how to promote social justice in coursework, but also through engagement outside of the classroom.

Recent graduates have found employment with media literacy groups, domestic and international service organizations, Internet start-ups, and government officials, and gone on to pursue graduate and professional degrees.

School of Communication Graduation Requirements

All Undergraduate students in the School of Communication are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/soc/undergrad/soclanguagerequirement/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

Students who successfully complete the undergraduate program in Advocacy and Social Change will be able to:

- Select and use various communication strategies (including persuasion, argumentation, conflict management, negotiation and mediation) leading to ethical social change.
- Create, define, analyze, and interpret messages.
- Demonstrate effectiveness as rhetors, critics and decision makers.
- Serve the needs of diverse groups, communities and organizations which strive for equity, inclusion and fairness.

Advocacy and Social Change Minor

The mission of Loyola University Chicago calls for all of its members "to make a difference as "persons for others." The Advocacy and Social Change minor helps students understand how that mission can be carried on through engaged communication while at the University and for the rest of their lives.

Through a course load of 21 Credit Hours, students will gain a deeper understanding of the role of communication in advocating for others and in promoting positive social change.

The skills students acquire from this minor will enrich any course of study. They will also facilitate employment in pro-social areas such as media literacy groups, domestic and international service organizations, Internet start-ups, NGOs and government agencies concerned with social welfare.

Learning Outcomes

- Understand the role that communication plays in upholding, changing or transforming social hierarchies, institutions, and identities.
- Select and use various communication strategies (including persuasion, argumentation, conflict management, negotiation, and mediation) leading to ethical social change.
- Use communication skills and knowledge to create, define, analyze, interpret, and critique messages, texts, campaigns, and projects.
- Demonstrate effectiveness as rhetors, critics and decision makers.
- Serve the needs of diverse groups, communities and organizations which strive for equity, diversity, inclusion, and social justice.

Communication Studies (BA)

The communication studies major proudly places itself at the intersection of theory and practice. Its students are led to understand and to use, to critique and to appreciate, to embrace communication as it is presently practiced in society and to hone it for more effective service to the human community. Our communication studies majors benefit from

our unparalleled location within the scholarly Loyola community and in the midst of the Chicago media hub.

Communication studies courses help students understand how communication can persuade, comfort, alienate, or bring the world together.

Total Hours	**40**

School of Communication Graduation Requirements

All Undergraduate students in the School of Communication are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/soc/undergrad/soclanguagerequirement/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

Students who complete an undergraduate program in Communication Studies will be able to:

- Identify some of the fundamental communication issues that our contemporary world face, and the ways in which the communication field approaches and interprets them.
- Remember the situated, contextual and historical nature of communication processes and practices.
- Identify the relationship between communication processes and practices and the construction and transformation of human identities, communities, and cultures.
- Assess, interpret and use communication research to apply and generate communication knowledge.
- Use communication skills and knowledge to produce messages, texts, campaigns, and projects.
- Formulate creative, culturally literate, and convincing oral, written, and multimodal arguments which are responsive to context and situation.
- See the crucial role that communication holds in advancing or deterring social justice.
- Apply communication knowledge and perform communication skills within different social contexts, such as interpersonal communication, group communication, intercultural communication, gender and communication, and traditional and new media platforms.

Communication Studies Minor

The communication studies minor equips students to understand the fundamental communication social issues faced by our globalized world. They come to appreciate how communication can persuade, comfort, alienate, or bring the world together.

This 18 credit minor will help students learn to use communication skills to produce messages, texts, campaigns, and projects in a way that is creative, culturally literate and convincing. Because of this, the minor is a very good complement for majors in the College of Arts and Sciences as well as Education, Business, and Social Work.

Curriculum

Code	Title	Hours
Required Course		
COMM 175	Introduction to Communication	3
Electives		
Select five from the following menus—two of these courses must be selected from at least two different menus.		15
Menu 1: Theory/Critical Analysis		
COMM 215	Ethics & Communication

	Hours	**3**
Spring		
Minor Elective #5 [1]		3
	Hours	**3**
	Total Hours	**18**

[1] Two (2) courses must come from different menus: Theory/Critical Analysis, Applied, Research Methods, any COMM class not previously taken.

Learning Outcomes

- Learn how the communication field interprets and approaches fundamental communication social issues faced by our globalized world.
- Understand the situated, contextual, and historical nature of communication processes and practices.
- Identify the relationship between communication processes and practices and the construction and transformation of human identities, communities, and cultures.
- Use communication skills and knowledge to produce messages, texts, campaigns, and projects.
- Formulate creative, culturally literate, and convincing oral, written, and multimodal arguments which are responsive to context and situation.

Digital Media Minor

The Digital Media Minor is designed for students with a broad interest in the study of digital culture. Courses within this minor provide students a flexible and rigorous program examining digital technology and everyday life, ethical concerns in digital practices, contemporary games and game culture, digital media production, the persuasive communicative power of global digital media industries, and emergent user practices.

Total Hours		**21**

[1] Writing Intensive (p. 713)
[2] Satisfies Engaged Learning (p. 1224) requirement.

Environmental Communication Minor

The Environmental Communication minor is a collaborative effort between the School of Communication and the School of Environmental Sustainability. This 18 credit minor equips students with a deeper understanding of the role of communication in effectively advocating for environmental sustainability.

The minor is enriched with access to state-of-the-art facilities at the Lakeshore and Water Tower campuses. At Lakeshore, the facilities of the School of Environmental Sustainability are designed to minimize energy use, reduce waste, and conserve water. At Water Tower, the School of Communication offers students on-site multi-media production facilities, labs, and specialized equipment.

The skills student acquire from this minor will prepare them for future work in environmental advocacy across diverse platforms.

Curriculum

Only three courses may count toward an SoC or SES major and the Environmental Communication minor. Please consult your academic advisor with any questions.

Total Hours		**43**

1 Writing Intensive (p. 713)
2 Satisfies Engaged Learning (p. 1224) requirement
3 May be repeated if different topic
4 Inigo (https://www.inigocomm.com/)

Suggested Sequence of Courses

The below sequence of courses is meant to be used as a suggested path for completing coursework. An individual student's completion of requirements depends on course offerings in a given term as well as the start term for a major or graduate study. Students should consult their advisor for assistance with course selection.

Course	Title	Hours
First Year		
Fall		
COMM 274	Introduction to Cinema	3
COMM 130 or COMM 135 or COMM 275	Intro to Audio Production or Intro to Video Production or Web Design and Usability	3
	Hours	**6**
Spring		
COMM 201	Media Theory and Criticism	3
	Hours	**3**
Second Year		
Fall		
COMM 200	Digital Communication and Society	3
COMM 202	Story for Film and Television	3
	Hours	**6**
Spring		
COMM 203 or COMM 324	Topics in Cinema History or Film Genre	3
	Hours	**3**
Third Year		
Fall		
Media Studies Elective		3
Media Studies Elective		3
COMM 100	SOC Career Prep Seminar	1
	Hours	**7**
Spring		
COMM 350	Producing for Film & Digital Media	3
COMM 394	Film & Digital Media Internship	3
	Hours	**6**
Fourth Year		
Fall		
Media Studies Elective		3
Major Elective		3
	Hours	**6**
Spring		
COMM 357 or COMM 388	Programming Film & Media: Festivals, TV & Digital or Film and Digital Media Capstone	3
Major Elective		3
	Hours	**6**
	Total Hours	**43**

School of Communication Graduation Requirements

All Undergraduate students in the School of Communication are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (https://www.luc.edu/soc/undergrad/soclanguagerequirement/).

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

LEARNING OUTCOMES

- Develop fundamental knowledge and skills essential in media production, exhibition and distribution.
- Connect theory, analysis, and hands-on work in the development and review of original ideas in film and digital media.
- Identify their social values as a critical thinker.
- Gain proficiency in the story development, programming, financing and distribution of media works

Multimedia Journalism (BA)

Loyola's multimedia journalism major engages students in the issues shaping today's media landscape, from the decline of newspapers, the rise of apps, virtual reality, and fake news. As part of Loyola's mission-based education, students learn to stand on Jesuit values and ethics in an uncertain and ever-changing world.

Multimedia journalism students practice the skills that every journalist must master, including researching, interviewing, reporting, and writing. Students also gain exposure to the latest technology, equipment, and software through Loyola's Convergence Studio, Owl Lab, and on-site radio station, WLUW.

Courses are offered at Loyola's Water Tower Campus, located in the heart of downtown Chicago. In addition to Loyola's on-campus media outlets, such as our student newspaper, *The Phoenix*, students can gain experience through professional internships at renowned media outlets like the *Chicago Tribune*, *Sun-Times*, WLS, and WMAQ, as well as major corporations, nonprofits, and agencies.

Learning Outcomes

Despite all of the changes in the news industry over the last decade, one thing has stayed the same - journalism is an essential part of democracy.

At Loyola University Chicago, we're committed to ensuring journalism survives and thrives in the future. We teach students the skills every journalist must master, including:

- Researching
- Interviewing
- Reporting
- Writing
- A commitment to ethics and social justice

We know technology has changed the way the public consumes journalism. So we also teach our students the *other* skills storytellers must excel at, including:

- Shooting and editing photos and video
- Recording and editing audio
- Designing web sites and other types of content
- Promoting content and understanding metrics
- A willingness to explore emerging media

Multimedia Journalism Minor

The minor in Multimedia Journalism is designed to help students in other majors learn how to communicate with the general public. The minor teaches students how to:

- write clearly and concisely as journalists do
- research using tools and databases that working journalists use
- relate facts through words, images, videos, podcasts and/or designs

The minor in Multimedia Journalism is perfect for any student who hopes to communicate effectively about their fields of interest.

Professional Communication Minor

The Professional Communication minor is designed for students outside of the School of Communication who are seeking to improve their communication skills, including speaking, writing, and multi-media presentations.

The 18-credit-hour minor will help students improve their public speaking, persuasive abilities, understanding of organizational communication and creative use of media technologies.

Students with this minor will have an advantage in professional settings that reward excellence in communication.

Public Relations Minor

A Minor in Public Relations complements other majors as most careers require understanding of internal and external communications. Studying public relations will enable students to better communicate with customers, clients, audiences, supervisors, and teammates. Students will study the variety of communication strategies, tactics, and media platforms public relations practitioners use to build and maintain positive relationships and favorable images for clients. Common job areas include media relations, event planning, corporate communications, content creator, crises management, publicity, public affairs, and government relations. A Minor in Public Relations would offer benefits to students in multiple disciplines, including Business, Marketing, English, Theater, Fine Arts, Political Science, Healthcare, Environmental Sustainability, Education, Women and Gender Studies, and Social Work.

Learning Outcomes

Learn how to create and implement strategic public relations communication campaigns for industry products and services that are relevant to consumer needs and wants.

Write and design messages to reach diverse audiences and for distribution through multiple channels, including both traditional and digital media.

Implement ethical communication practices that are socially responsible and in the mutual interests of the organization and the community.

School of Continuing and Professional Studies

At the School of Continuing and Professional Studies, lives change. New possibilities emerge. New knowledge is formed. New skills are gained. We exist to serve adult learners and to help our students write energizing new chapters in their personal and professional lives.

For more than a century, Loyola University Chicago has been transforming the trajectory of student lives, driving professional and personal pursuits with high-quality academic offerings and lively learning environments. A forward-thinking, responsive institution, we have designed accredited academic programs to meet market needs and introduced novel online coursework to deliver the flexibility students need. We have emerged a national leader in online education and created spirited learning environments where students develop tangible skills they can apply in the contemporary workplace.

SCPS offers undergraduate programs to propel your career, enrich your life, and power social mobility.

Whether you're interested in a career in the digital revolution, IT, business, law, or psychology, SCPS undergraduate programs will develop and enhance your skills in:

- Effective communication techniques
- Leadership, critical thinking, and problem solving
- Information Technologies and digital market trends
- Faith, civic, and global engagement as well as intercultural dialogue
- Ethical reasoning, teamwork, and collaboration

With fully online classes and flexible 8-week schedules, you will be able to balance your degree pursuits with your life's other responsibilities. And with courses led by scholars and active practitioners in their respective fields, you can be assured you will gain the relevant knowledge and practical skills to advance in your career.

Our Mission

Loyola University Chicago's School of Continuing and Professional Studies empowers adult learners through an accessible, impactful and holistic education that positions them for success.

Our applicable programs and flexible formats enable students to advance careers and fulfill personal goals. Guided by Loyola's Jesuit tradition, SCPS creates a supportive environment that fosters social justice, ethics, and service to others.

School of Continuing and Professional Studies Policies

Transfer Credit

Loyola SCPS accepts transfer credit earned from regionally accredited institutions. We can accept up to 64 credit hours across all two-year institutions (community colleges), and an unlimited number of credit hours from four-year universities.

Students who have completed either an A.A., A.S., or General Education Core Curriculum (http://itransfer.org/courses/worksheet.php) will have met Loyola's Core Curriculum requirements, with the exception of mission-specific courses.

Request a Free Transfer Credit Evaluation

Determine how your transfer credit applies to a Loyola degree and your timeline to completion by requesting a Free Transfer Credit Evaluation (https://gpem.luc.edu/register/EvaluationRequest/). The transcript evaluation is an **unofficial** document, and an error will not exempt you from a requirement.

Illinois Articulation Initiative (IAI)

Loyola is a receiving institution in the Illinois Articulation Initiative program for awarding transfer credit. Students who have completed 30 or more transfer credits may follow either the Illinois General Education curriculum (http://www.itransfer.org/IAI/gened/) or the Loyola CORE requirements (http://luc.edu/core/coreknowledge-first.shtml/) to satisfy general education requirements. Students with less than 30 will follow the CORE. We'll advise you how to choose the most effective path for you. Just submit your transcripts. For more information, see itransfer.org (http://itransfer.org).

Transferology

Transferology allows student to create an account and track how their classes from prior institutions will transfer to Loyola. Learn more here: https://www.transferology.com/index.htm (https://www.transferology.com/).

Non-Traditional Credit

Adult students, in particular, often have a reservoir of college-level learning gained through professional and personal accomplishments that they can use to earn non-traditional credit toward select SCPS programs.

- Students may apply up to 36 non-traditional credit hours to the completion of their undergraduate degree.
- Non-traditional credit may not be applied toward mission-specific requirements (THEO or PHIL) or school (CPST 200, 201, 397) requirements

Credit by Examination (CLEP/DSST)

Students may take CLEP and/or DSST examinations only if they:

- have not previously completed, failed, or received credit from Loyola University Chicago (transfer or otherwise) in a comparable or more advanced course in the specific examination area
- will not receive comparable credit in the CLEP examination area in the same term the examination is taken or in a subsequent term.

Students must receive a passing score on a CLEP or DSST exams approved by the University to count for college-level credit:

- CLEP Exam List (https://docs.google.com/spreadsheets/d/1NXC8EYBVDPkYMiB-Wpkqpf97FDCNuhpwMULdFIzIZCw/edit/?usp=sharing)
- DSST Exam List (https://docs.google.com/spreadsheets/d/1QCIBkot-n3Xku3VwiIyi8mLfxx7wBxS3WjbyCuhUnbQ/edit/?usp=sharing)

American Council on Education (ACE)

The American Council on Education (ACE) evaluates 35,000+ workplace, military and non-collegiate learning experiences and training programs for college credit. Depending on the program or experience completed and approved by ACE, students may apply those credits to major and/or general elective hours, if applicable.

- **For work already completed**, students can move forward with ordering the transcript from ACE. Once submitted, your transcript will be reviewed to determine how the credit will transfer.
- If a student is considering taking an exam or course that has been reviewed by ACE, and they **haven't yet completed the work**, they should work with their primary academic advisor first to determine if the credit will be accepted and how it may apply toward requirements.

Students who believe they have completed an evaluated program should review the ACE National Guide (https://www.acenet.edu/national-guide/Pages/default.aspx).

Year Up

The School of Continuing and Professional Studies is a partner with Year Up Chicago. Year Up courses have been reviewed by the American Council on Education (ACE). Students who have completed coursework through Year Up should submit an official ACE transcript. All Year Up courses will transfer as general elective credit and go toward the 120 credit hours students need to complete their bachelor's degree with Loyola.

Military Education

Students who have completed military training should order their military transcript (https://www.acenet.edu/Programs-Services/Pages/Credit-Transcripts/Request-Transcripts.aspx) (both JST And CCAF) through the American Council on Education (ACE).

Police Training

Students who have completed the education provided by the Chicago Police Department (CPD) Police Academy will be awarded **20 credit hours** to be applied as general elective credits.

Students must submit a copy of their CPD Academic certificate of completion to their academic advisor. This certificate of completion will also be cross-checked against the Illinois Law Enforcement Training and Standards Board database (http://www.ptb.illinois.gov/resources/ptb-id-lookup/).

Undergraduate Policies and Procedures

Please see Undergraduate Policies and Procedures (p. 2050) for academic policies that supersede those of academic units within the University.

University Policies

Please see University Policies for academic policies that supersede those of academic units within the University

Applied Criminal Justice Leadership (ACJL)

ACJL 310 Organizational Leadership in Criminal Justice (3 Credit Hours)
This course provides an introduction to the study of criminal justice organizations and leadership practices. It includes a review of leadership styles, budgeting, communication with members, personnel problems, maintaining organizational accountability, promoting and responding to internal and externally-imposed reforms, and other leadership challenges. Restricted to Applied Criminal Justice Leadership majors only.
Outcomes:
Discuss leadership challenges in criminal justice organizations and institutions; Describe best leadership practices for continuing improvement and effectiveness; Research and review the academic literature associated with police leadership and management; Critically assess the strengths and weaknesses of the major theories of police leadership and management

ACJL 320 Ethics, Justice, Leadership (3 Credit Hours)
Study of ethical obligations of criminal justice personnel and the meaning of justice, with emphasis on law enforcement and corrections components; includes management strategies and accountability for ensuring ethical conduct, civilian review and discipline, civil liability, and importance of leadership in promoting and maintain an ethical and just work environment. Restricted to Applied Criminal Justice Leadership majors only.
Outcomes:
Apply basic principles of moral theory and concepts of justice to ethical issues, moral dilemmas, and other challenges facing actors working within the criminal justice system; Use methods and strategies for effective leadership skills to promote an ethical environment in criminal justice organizations; Foster an ethical organizational environment, including ethics training, development of codes of ethics and rules of professional responsibility; Adopt methods of promoting accountability, including technological and civilian review of accountability systems, and effective disciplinary mechanisms; Identify strategies for investigating systemic criminal justice system misconduct

ACJL 330 Community Policing in the 21st Century (3 Credit Hours)
This course examines the history and development of police community relations and its importance for crime control. Topics covered include community policing, problem oriented policing, and the effect of aggressive patrol strategies on community relations. The recommendations of the President's Task Force on 21st Century Policing are also examined. Restricted to Applied Criminal Justice Leadership majors only.
Outcomes:
Examine the history and development of effective police community relations and its importance for crime control; Recognize the role of racial, class, and cultural identities in a diverse American society and the effect of racial profiling and unconscious bias on community relations; Describe community policing, problem-solving policing, and other emerging strategies; Research and review the academic literature associated with the study of community policing; Critically assess the strengths and weaknesses of the major theories of community policing; Discuss the recommendations of the President's Task Force on 21st Century Policing, including the adoption of internal and external procedural justice, a guardian culture, and less than lethal force standards

ACJL 340 Effective Communication in Criminal Justice (3 Credit Hours)
Effective written and oral communication for CJ personnel; includes grammar, spelling, punctuation, chronological articulation, and writing style in investigative reports and other documentation, public speaking, active listening skills, conducting interviews, providing oral witness testimony in criminal prosecutions, and managing media relations and communications. Restricted to Applied Criminal Justice Leadership majors only.
Outcomes:
Develop effective written and oral communication for rank and file and supervisory criminal justice personnel; Use proper grammar, spelling, punctuation, chronological articulation, and writing style in investigative notes, reports, and other documentation; Practice effective public speaking; Employ active listening skills and positive personal interactions with citizens; Practice conducting interviews, providing oral witness testimony in criminal prosecutions, and managing media relations and communications

ACJL 350 Conflict Management and Communication (3 Credit Hours)
Study of challenges confronting police and correctional personnel in conflict situations arising from order maintenance and other forms of social control; the role of systemic social problems such as mental illness, family violence, and substance abuse in conflict situations; strategies and best practices for violence avoidance and de-escalation. Restricted to Applied Criminal Justice Leadership majors only.
Outcomes:
Discuss the challenges confronting police and correctional personnel in conflict situations arising from order maintenance, arrests, supervision of offenders, and other forms of social control; Describe the role of systemic social problems, mental illness, family violence, elder abuse and neglect, and substance and alcohol abuse in conflict situations; Identify strategies and best practices for violence avoidance and de-escalation; Apply theories of how conflict happens; Practice the essential skills of effective listening, negotiating, mediating, and leading others to resolve conflicts

ACJL 360 Cyber-Crime Detection and Investigation (3 Credit Hours)
Reviews computer-based criminal activities and criminal investigative methods used for investigation, apprehension, and prevention; includes hacking, identity theft, bitcoins, stalking, human trafficking, and other forms of computer fraud and crime; reviews digital security methods, cell phone tracking, social media, and other means of investigating such crimes. Restricted to Applied Criminal Justice Leadership majors only.
Outcomes:
Describe contemporary, computer-based criminal activities, including hacking, identity theft, bitcoins, stalking, human trafficking, and other forms of computer fraud and crime; Identify modern criminal investigative methods used for investigation, apprehension, and prevention; Evaluate digital security methods, cell phone tracking, social media, and other means of investigating such crimes

ACJL 370 Crime Analysis (3 Credit Hours)
This course provides an overview of the analytical methods used by criminal justice agencies including crime analysis, mapping, and program evaluation. The class will focus on best practices and the application of current technology. Restricted to Applied Criminal Justice Leadership majors only.
Outcomes:
Discuss issues in crime analysis and crime mapping; Critique current practices; Identify technologies used in crime analysis; Describe the techniques of crime analysis and crime mapping and how they are practiced in everyday policing; Apply social science research methods and data analysis to crime analysis

ACJL 380 Investigation Management (3 Credit Hours)
A review of best practices in the management of investigative personnel, resources, and strategies in major and routine criminal investigation including proactive and reactive tactics for crimes against property, persons, vice, and narcotics. Traditional versus intelligence-led policing, COMPSTAT, and state versus federal investigations are also covered. Restricted to Applied Criminal Justice Leadership majors only.
Outcomes:
Describe best practices in management of investigatory personnel, resources, and strategies in major and routine criminal investigation; Assess proactive and reactive tactics for crimes against property, persons, and vice and narcotics, traditional versus intelligence-led policing, COMPSTAT, and state versus federal investigations; Research and analyze the academic literature associated with managing criminal investigations; Critically assess the practices used to manage criminal investigations

ACJL 385 Advanced Criminal Procedure (3 Credit Hours)
This course reviews basic 4th Amendment search and seizure law, including exceptions to the general warrant requirement, and exceptions to the exclusionary rule. It proceeds to study individual and agency liability for excessive force by law enforcement and correctional officers, unauthorized eavesdropping, digital information gathering, and related topics. Restricted to Applied Criminal Justice Leadership majors only.
Outcomes:
Define the legal principles governing law enforcement emanating from the 4th, 5th, and 6th Amendments to the Constitution of the US; Describe the manner in which those principles have been derived from both the text and the interpretations of those constitutional amendments; Practice the language of criminal law practitioners and others in the courthouse "workgroup"; Identify legal issues arising from law enforcement criminal investigations and methods in different factual circumstances; Apply constitutional law principles for the resolution of criminal procedure issues

ACJL 395 Special Topics in Criminal Justice Leadership (3 Credit Hours)
This course focusses on different relevant, special topics in criminal justice. These include criminal profiling, terrorism, private security, new constitutional developments in search and seizure law, gang intelligence, militarization of police, and other timely topics. Restricted to Applied Criminal Justice Leadership majors only.
Outcomes:
Students will learn about a specific, timely topic critical to contemporary criminal justice functions

Continuing Professional Studies (CPST)

CPST 165 Special Topics (1-3 Credit Hours)
Course titles and content vary from term to term. Permission is required to enroll.

CPST 195 Special Topics in Management (3 Credit Hours)
Introductory course focusing on specialized areas in management leadership.
Outcomes:
The student will become familiar with the practices of the specific discipline under each subheading, as well as the technical and theoretical means to accomplish the goals of each topic

CPST 200 Introduction to Degree Completion (3 Credit Hours)
Enrollment is restricted to SCPS degree students only. CPST 200 exists to give newly admitted adult students a chance to ease themselves back into the academic environment while highlighting all of the tools and services available through the university. Improved academic writing through use of multiple drafts.
Outcomes:
Exposure to/familiarity with LUC resources

CPST 201 Civic Identity and Development (3 Credit Hours)
Pre-requisites: CPST 200; Co-requisite: UCWR 110; Enrollment is restricted to students in the School of Continuing and Professional Studies
In this course, students will examine their interconnected identities as engaged professionals in their communities using a variety of frameworks. They will learn to leverage the assets of their communities to enact positive change while also leveraging their own assets to grow as individuals. This course will also prepare students for the design and execution of the SCPS portfolio and capstone project later on in their academic program.
Outcomes:
Students will develop civic awareness through examination of their identities and meaningful engagement with their communities

CPST 205 Prior Learning Assessment Portfolio (1 Credit Hour)
In the course, students will learn to develop a PLA Portfolio and document their prior learning by reflecting on relevant prior experiential learning and identifying college level learning outcomes.
Outcomes:
Submission of draft portfolio with resume, autobiographical essay, proposed learning essays, and at least one completed section that demonstrates learning and evidence of relevant professional and/or personal experience

CPST 210 Introduction to Leadership Studies (3 Credit Hours)
This course begins the Leadership certificate program and the Bachelor of Arts in Leadership. This course consists of the SCPS Assessment Center experience, a 2-day leadership assessment. At the conclusion of the Assessment Center experience, students will receive an assessment of the skills and knowledge in each of six domains. These are Problem Solving and Decision Making, Organizing and Planning, Relationship Building, Influence, Communications, and Intra-personal Leadership. These are equated to the 6 courses in the Leadership certificate/major. A credit award toward the course satisfied will be posted to the student's transcript. The student will then enroll in the remaining courses and will have one year from first enrollment to complete the remaining courses. Students in CPST 210 will subsequently meet with the advisor and develop a plan for completion of the certificate/major. Students who complete the SCPS Assessment Center and develop their plan for completion of the certificate or major will have successfully completed the course. Restricted to students in SCPS.

CPST 215 Individual Finance & Planning (3 Credit Hours)
This course focuses on the methods, features and techniques for personal financial planning. Tools applicable for financial decision-making, such as marginal analysis, opportunity cost, and the balancing or risk and return will be covered in this class. The course will also discuss the aspects of such topics as budgeting, credit cards, insurance 401k-investments and portfolio investments. The course will concentrate on personal finance topics with an emphasis on planning (budgeting, tax and insurance coverage), financing large asset purchases, money management, investing strategies and retirement planning. Restricted to students in the School of Continuing & Professional Studies. At the end of the course the student will be able to 1. Develop a financial plan and create personal financial statements 2. Evaluate present/future value of a dollar/annuity 3. Describe components of interest rates 4. Identify risks associated with money market investments and identity theft tactics 5. Manage credit scores and financing options for personal loans (car/house) 6. Protect wealth with insurance (auto, home, medical, life) 7. Assess common types of investments, risk and rate of return 8. Analyze a stock, bond value, diversification, retirement plans and social security 9. Utilize different financial tools such as budgeting, managing liquidity, personal loans, insurance, and investing fundamentals (stocks, bonds, mutual funds, asset allocation and retirement planning).

CPST 242 Design for the Web (3 Credit Hours)
This course prepares students to develop webpages through a study of Hypertext Markup Language (HTML), Cascading Style Sheets (CSS), Usability principles and Design principles. This course will teach students to plan, design, and construct webpages to work properly in modern web browsers, conforming to web standards while following best practices. Students will be able to: identify graphic design principles that relate to web design, develop webpages with HTML; style webpages with CSS; design and implement wireframes and mockups for websites.

CPST 243 Microeconomics (3 Credit Hours)
Restricted to students in the School of Continuing & Professional Studies. Introduction to economic analysis of the smaller components of the economy, household, firm and industry. Topics include economic, socio-economic, and political economic issues; includes a focus on behavioral economics; and provides students with an opportunity to analyze real world economic and public policy decisions that have been influenced by non-economic factors included within its field.
Course equivalencies: ECON201/201H/ACECO201/CPST243
Outcomes:
1) Explain the law of supply and demand; 2) Distinguish characteristics of different market structures; 3) Analyze how consumers maximize utility; 4) Apply behavioral theory to economic decision-making; 5) Analyze real world microeconomic decisions; 6) Research a topic and present recommendations

CPST 245 Macroeconomics (3 Credit Hours)
Restricted to students in the School of Continuing & Professional Studies. Introduces economic analysis that studies system wide phenomena including inflation, economic growth and development and unemployment. Includes a focus on behavioral economics, and provides students with an opportunity to analyze real world economic and public policy decisions that have been influenced by non-economic factors included within its field.
Course equivalencies: ECON202/ECON202H/ACECO202/245
Outcomes:
1) Explain the law of supply and demand; 2) Describe the nature of macroeconomic issues and problems; 3) Articulate the objectives of monetary and fiscal policies and the function of the two principal policy makers; 4) Analyze historical macroeconomic crises; 5) Discuss basic macroeconomic goals such as GDP, CPI and unemployment; 6) Assess public policy decisions from a behavioral economic perspective

CPST 247 Computer Concepts and Applications (3 Credit Hours)
An introduction to computer and internet resources and skills with an emphasis on effective use of technology in the work place. Students will learn to identify and provide recommendations for technology-based issues in business using industry standard language, identify changes in information technologies and assess the impact on business and society. Restricted to students in the School of Continuing and Professional Studies.
Outcomes:
Understand the purpose and composition of information systems in business, and receive hands on experience developing business applications with tools such as Microsoft Office, social media, basic website construction

CPST 248 User Experience Design Fundamentals (3 Credit Hours)
Students are introduced to UX research and learn techniques of how to effectively evaluate and compare designs objectively. Students will be able to read and draw actionable conclusions from UX studies. Students will understand the UX Design process, including the use of personas, task models, and user journey mapping. Students will be able to: evaluate UX Design using objective metrics; conduct UX studies to derive actionable conclusions from UX Research; Understand personas, task models, and user journey mapping.

CPST 249 User Experience Design Tools and Techniques (3 Credit Hours)
Pre-requisites: CPST 248 with C- or better
The course focuses on user and task analysis (goal setting and problem framing), field research (interviews, personas, planning, etc.), usability testing, the UX process (from wireframes through user journey mapping). These topics are explored through Design assignments that utilize the complete UX Design process. Students will be able to: apply the UX Prototyping process and UX Design Tools; apply the UX Design process, including the use of personas, task models, and user journey mapping.

CPST 250 Foundations of Organizations (3 Credit Hours)
Pre-requisites: CPST courses are restricted to students in the School of Continuing and Professional Studies
An introduction to contemporary management with emphasis on organizational culture, decision making, organizational structure and design, planning, communication and information technology.
Course equivalencies: MGMT201/201H/301/CPST250/ACMGT
Outcomes:
Students will demonstrate an understanding of the managerial roles in organizations, the four levels at which behavior is examined in organizations and will develop a framework for basic business operations

CPST 265 Special Topics (1-3 Credit Hours)
Course titles and content will vary from term to term. Permission is required to enroll.

CPST 270 Effective Boards and Plans (3 Credit Hours)
Students will cultivate strategic planning with governing bodies by applying leadership principles to broad-based organizational structures, diverse constituents and situations. Course content to include: Leadership and Governing Board Responsibilities, Board Membership and Policy Development, and Planning and Program Development (Writing the Strategic Plan).
Outcomes:
Apply leadership styles to mission-based functions; Discuss relationship between board membership, church leadership, staff, and volunteers; Apply strategic methods for organizational policy and responsibility building

CPST 272 Building a Volunteer and Support Base (3 Credit Hours)
Students will examine proven practices which sustain volunteer commitments, membership, support bases and stakeholders using effective human resource practices and internal communications. Students will assess high impact practices in broad-based organizations. Course content includes: Volunteer and Support Management, Servant Leadership and Motivation Theories, and Internal Communications.
Outcomes:
Recognize the needs of service volunteers; Identify best practices in human resource development relevant to broad-based organizational structures; Develop effective internal communication skills

CPST 273 Building and Leading an Effective Workforce (3 Credit Hours)
Restricted to students in the School of Continuing & Professional Studies. Coordinating operational aspects, overseeing employee functions, and directing marketing efforts are components within this survey of leadership skills. Course content to include: Hiring effectively, Developing talent, Supervising the workforce, Maximizing resources Define and implement the various stages of the hiring process. Identify leadership styles and attributes relevant to small group effectiveness. Coordinate systems and resources in a broad-based organization.

CPST 274 Advocacy and Program Promotion (3 Credit Hours)
Sustaining success through keeping stakeholders informed; planned marketing and communication strategies; application of models that promote mission, program and impact. Course content includes: Marketing strategies, External Communications and Social Media, and Community Engagement Practices
Outcomes:
Explain marketing functions explicit to fund development and program support; Apply social media practices to mission-based projects and organizational awareness; Present effective marketing information

CPST 275 Successful Small Business Ventures (3 Credit Hours)
Restricted to students in the School of Continuing & Professional Studies. Business development through case studies and best practices in successful small businesses, incorporating risk assessment and management. Dynamic roles and challenges of small businesses in today's competitive global marketplace. Survey of financial relationships in small business development. Identify and discuss the role of small business in U.S. economic development. Analyze components of successful small business development and management. Discuss the impact and changing potentials of small business at the local and the global level.

CPST 276 Introductory Finance and Budgetary Best Practices (3 Credit Hours)
This course prepares students to analyze and to present financial records. Oriented to the financial record-keeping requirements of a broad-based organization, this course prepares students to analyze basic budget and cash flow functions and projections. Course content includes: Basic accounting practices, program cost allocation, financial reporting, and budget analysis.
Outcomes:
Present and explain financial information and functions relevant to the daily operations of a broad-based organization; Budget for and evaluate program-based expenditures; Prepare and manage financial records

CPST 277 Writing the Business Proposal (3 Credit Hours)
Restricted to students in the School of Continuing & Professional Studies. Students will develop their own business proposal, incorporating their vision as the proposal's foundation. The proposal will include business description, product or service, organization, market analysis, marketing strategies, financial plan and projections. Course content includes: - Technical Writing - Small Business Research Streams and Techniques - Integration of Small Business functions in proposal design - Presentation (graphic and oral) Techniques
Outcomes:
Develop a viable start-up plan for a desired small business; Create a document that reflects the needed components within the business proposal; Present a comprehensive business proposal with real-life application

CPST 278 Fundraising and Financial Sustainability (3 Credit Hours)
The culture and role of philanthropy, power of relationships, and key fundraising principles are addressed in regard to mission-based sustainability. Course content includes: Grant Writing Principles, Fundraising Principles, Financial and Program Accountability in Philanthropy, Differentiated gift-giving applications
Outcomes:
Identify best practices in sustaining donors and core memberships; Explain effective relationship-building practices; Describe the process of generating grant proposals and securing grant awards

CPST 279 Tactical Communications for Small Businesses (3 Credit Hours)
Restricted to students in the School of Continuing & Professional Studies. Students focus on emerging contemporary communications formats as they build upon marketing knowledge and communication skills. Networking skills, promotional writing, and sales strategies are integrated into written and oral constructs. Course content to include: - Strategic marketing - Networking best practices and formats - Social media applications - Presentation skills Implement best practices in strategic communications relevant to small business and organizational promotion and sustainability. Develop networking and social media skills in promoting product and services within appropriate industry and marketplace.

CPST 280 Mission and Organizational Development & Assessment (3 Credit Hours)
This course focuses on organizational mission as it is projected in its programs and projects; measurement methods in determining program and performance success; the value of transparency in using internal and external resources. Course content includes: Assessing goals, Program and performance accountability, Transparency as a best practice. Students will: Develop goal-setting skills relevant to organizational effectiveness; Describe performance measurement processes relevant to mission/impact; Apply transparency practices in the use of contributed resources.

CPST 290 World Geography (3 Credit Hours)
Restricted to current SCPS BA students. This course introduces the four main themes of the study of geography: physical, cultural, economic, and historical. Using two basic approaches for the discipline: regional and spatial, this course studies not only geographic locations, but also provides an overview of modern globalization and the human impact on the geographical world.
Outcomes:
Geographical knowledge of different continents, awareness of social-political trends globally

CPST 291 Dynamic Programming Languages (3 Credit Hours)
Restricted to students in the School of Continuing & Professional Studies. Introduction to programming in dynamically typed languages, sometimes known as scripting languages. The primary language example will be Python; the course will cover Python data types, control structures, function definitions, objects and lambda expressions. A second language may be Ruby, PHP, Scheme or a similar language. The course will also briefly address how Javascript fits into the category of dynamic languages. - Ability to create a dynamic web page using Python or some other language
Outcomes:
Ability to write short programs in Python, using loops, lists and dictionaries; Ability to create graphical effects using Python; Familiarity with the software-development process, and how software can be organized using classes and functions; Familiarity with the advantages and disadvantages of dynamic languages, versus static typing; Ability to compare Python to some other dynamic language, such as Ruby or PHP

CPST 295 The Internship Experience (3 Credit Hours)
Pre-requisites: CPST 200 and CPST 201 (minimum grade of C+); Enrollment is restricted to SCPS degree seeking students; Minimum 2.5 GPA is required
This course provides an opportunity to broaden work and experiential base through immersion within a selected organization. Students spend approximately 8 hours a week interning with their chosen company, institution, nonprofit, small business or other professional setting. Optional to extend the internship a second term.
Outcomes:
To gain real-world professional experience within a targeted work environment; To apply skills and knowledge within context of selected environment; To develop networking opportunities within new professional workplace

CPST 310 Accounting Principles and Application (3 Credit Hours)
CPST courses are restricted to students in the School of Continuing and Professional Studies. This course introduces major concepts in the areas of financial and managerial accounting and develops understanding of accounting process and principles. Students will gain a deeper understanding of financial statements, accounting mechanics, accrual accounting, financial planning, variance analysis, internal controls and financial and financial analysis.
Course equivalencies: ACCT201/201H/CPST310/ACACT201
Outcomes:
Students will gain a deeper understanding of financial statements, accounting mechanics, accrual accounting, financial planning, variance analysis, internal controls and financial and financial analysis; The students will complete a final course project that demonstrates their ability to manage the financial data of a fictional organization

CPST 314 Problem Solving and Decision Making in Leadership (3 Credit Hours)
Pre-requisites: CPST 210; Restricted to Leadership majors only
Problem solving and decision making call on critical thinking skills. Using decision making formats, whether in teams or individually, provides a roadmap to strategic, ethical, and well-analyzed decisions, in both usual and crisis situations. Through a systematic approach which involves root- cause analysis, creative thinking and risk analysis, problems are delineated, information is gathered, ethical ramifications are analyzed, alternative actions are evaluated, and follow-through is planned. At the end of this course, the student will be able to 1. Apply techniques of logic and problem analysis to organizational situations. 2. Assemble tools used to identify and select the best decisions among alternatives. 3. Review standards of ethics and quality control for decision-making. 4. Develop implementation techniques and methods of follow-through.

CPST 315 Professional Technical Writing (3 Credit Hours)
Pre-requisites: UCWR 110; Restricted to students in the School of Continuing and Professional Studies
Technical Writing prepares students to design effective technical documents for both written and digital media, with particular emphasis upon technical memos, problem-solving and decision-making reports, and organizational, product-support, and technical-information webs.
Outcomes:
Students able to write standard prose with appropriate citations, use a range of current online platforms and technology

CPST 320 Program Evaluation (3 Credit Hours)
Enrollment is restricted to students in the School of Continuing and Professional Studies. Conceptual frameworks and methods related to program evaluation will be covered including process, developmental, outcome, and impact evaluation. Students will be exposed to best practices to measure and document change on the individual, organizational, and macro level including the use of logic models. Quantitative, qualitative, and mixed methods design will be presented. Students will be exposed to analytical tools to interpret qualitative and quantitative data. The use of Big Data will be explored including the implications for behavioral change. Ethical issues in real world evaluation will be addressed. Course Objectives 1. Describe the main conceptual frameworks used in program evaluation including process(formative), developmental, outcome and impact. 2. Compare and contrast quantitative, qualitative, and mixed methods design for program evaluation. 3. Evaluate best practices in relation to the measurement and documentation of change (individual, organizational, and macro-level). 4. Develop process and outcome objectives and logic models. 5. Interpret data including Big Data to make judgements about the efficacy of program activities and intervention. 6. Describe ethical dilemmas with real world research.

CPST 322 Strategic Communication Tools for Applied Psych (3 Credit Hours)
Communication tools commonly employed in the behavioral sciences will be covered: interview development and implementation; best practices for conflict management, negotiation, consultation and persuasion; group facilitation best practices; change facilitation communication techniques including motivational interviewing; the impact of computer mediated communication on interpersonal dynamics; and cultural norms and interpersonal communication. Students interested in counseling and other helping professions, Human Resources, organizational development and the persuasion sciences will benefit from these tools. Enrollment is restricted to students in the School of Continuing and Professional Studies. Course Objectives 1. Identify best practices for core communication tools used in applied psychology (and behavioral sciences). 2. Develop skills in interview development and implementation, group facilitation, and motivational interviewing. 3. Evaluate techniques for conflict management, negotiation, consultation and persuasion. 4. Critique the impact of computer mediated communication of interpersonal dynamics. 5. Describe culturally agile communication techniques.

CPST 324 Organizing and Planning Techniques for Leaders (3 Credit Hours)
Pre-requisites: CPST 210; Restricted to Leadership majors only
This course provides the framework for setting and maintaining priorities and setting efficiencies throughout the organization, balancing priorities and time, and establishing team and individual roles. Integration of ethical practices is reviewed within the processes of organizing and planning high performance functions. At the end of this course, the student will be able to 1. Identify best practices for large and small group project organizing and planning. 2. Develop techniques for prioritizing competing priorities and individual work responsibilities. 3. Establish methods for building tactical and operational plans. 4. Differentiate team roles and individual roles and required organizational structures.

CPST 325 Data Processing, Analysis, and Visualization (3 Credit Hours)
Pre-requisites: STAT 103; CPST 291 with C- or better; Restricted to students enrolled in the School of Continuing and Professional Studies
This course studies the concepts, methods, and tools required to infer meaningful information and generate useful visualizations from large data sets. Visualize and analyze structured data using appropriate statistical data mining and visualization tools. Analyze distributed computing frameworks for processing large data sets.
Outcomes:
Implement scripting to convert raw data to structured data

CPST 334 Relationship Building for Organizational Leaders (3 Credit Hours)
Pre-requisites: CPST 210; Restricted to Leadership majors only
Relationship building calls on the critical skill set of emotional intelligence. This course develops the framework for productive leader-follower relationships. Reflecting on intra-personal leadership skill and building on inter-personal leadership capabilities is of primary focus. Personal assessment and active assignments provide opportunity to develop the important ability to perceive needs of followers in order to ethically motivate towards accomplishment of organizational goals. At the end of this course, the student will be able to 1. Identify and apply skills of emotional intelligence. 2. Develop best practices for building trust and motivation within teams. 3. Recognize the importance of internal as well as external networking. 4. Differentiate between formal and informal communication approaches.

CPST 335 Law and Regulations for Organizational Leaders (3 Credit Hours)
The role of the organization (for profit, non-profit and governmental) from the dual perspective of private and public law. Includes foundations of law and judicial process; contracts, torts, and property law; intellectual property rights; legal, securities and employment regulations; ethical considerations and policy issues.
Outcomes:
-Differentiate ethics and law/private and public law -Discuss Constitutional Law and government's role to regulate business -Apply basic legal principles to the private market -Explain legal principles of contracts

CPST 340 Marketing Concepts and Strategies (3 Credit Hours)
Pre-requisites: CPST 250; Restricted to SCPS
Students will demonstrate an understanding of the fundamental principles of marketing identifying organizational goals, marketing objectives, and variables that affect marketing. Students will examine the roles of advertising, public relations, and sales; integrated and strategic marketing within an organization.
Course equivalencies: MARK201/201H/301/CPST340
Outcomes:
Students will develop a comprehensive marketing plan analyzing a real marketing problem, determining strategies, developing sample materials and devising metrics to evaluate success for an organization

CPST 341 User Experience Design to Drive Business (3 Credit Hours)
Pre-requisites: CPST 249 with C- or better
In this course students will learn how to connect and align business objectives with UX Design goals. Students will learn how to bring high-level planning into concrete actionable steps. Students learn Strategy for continuously Developing Brand and Identity through Design. Students will be able to: Understand how effective UX is a strategic advantage for business; Connect and align business objectives with UX Design goals; Apply Design Thinking to create good UX.

CPST 342 Introduction to Web Application Development (3 Credit Hours)
This course studies the concepts, methods, and tools used in the analysis, design, implementation, testing, and deployment of typical multi-tier web applications. Specific topics include presentations, business, and data access layers, as well as integration with database systems. An introduction to webpage development using JavaScript, jQuery and associated client-side tools.
Course equivalencies: X- DIGH403/CPST342/COMP342
Outcomes:
Experience with commonly used web application development frameworks; Familiarity with database integration and deployment environments; Create webpages using JavaScript and related tools and protocols, and interface a webpage with a database

CPST 343 Software Development for Mobile Devices (3 Credit Hours)
Pre-requisites: COMP 170 with C- or better; Restricted to students enrolled in the School of Continuing and Professional Studies
This course introduces software development for the Android environment, using the App Inventor framework. The course also introduces the basics of user-interface design and mobile architecture. Development work may be done on either an Android device or on an Android emulator running on a Windows/Mac/Linux laptop.
Outcomes:
Be able to develop simple Android applications using the App Inventor framework; Be able to explain the basics of mobile-application architecture and design; Be familiar with the basics of user-interface design; Understand the role of mobile-device sensors, such as the touchscreen, the accelerometer and GPS; Understand the use of Wi-Fi versus mobile wireless, and the use of the cloud in mobile applications; Be able to work with developers to create applications

CPST 344 Influence and Leadership (3 Credit Hours)
Pre-requisites: CPST 210; Restricted to Leadership majors only
Influence allows leaders to motivate follower movement towards organizational goals. This course establishes methods for leveraging expertise, communicating skillfully, and functioning with integrity. It integrates general management skills with the motivation to assume responsibility over others and create a positive and ethical organizational climate. At the end of this course, the student will be able to 1. Differentiate between the roles of leaders and managers, and various sources of power. 2. Identify ethical influencing principles that guide teams toward accomplishment of goals. 3. Develop a plan for leadership identity and ethical application of personal influence. 4. Recognize best practices for influencing others in situations of crisis.

CPST 345 Introduction to IT: Networking, Cloud & Security (3 Credit Hours)
Pre-requisites: COMP 170 with C- or better; Restricted to students enrolled in the School of Continuing and Professional Studies
This course covers the fundamentals of IT systems, networking, and security. The course will cover fundamental computer networking concepts and principles, including the basics of the TCP/IP model and packet-based networking. Other topics include an overview of Wireless Networking, Cloud Computing, and an introduction to Cybersecurity.
Course equivalencies: CPST 345 / ITLS 445
Outcomes:
Students will be able to: Describe how the Internet works; Make connections between devices Assess how data is transferred end to end; Perform basic Cloud Computing implementation and deployment; Describe essential features of Mobile Computing; and, identify and assess Cybersecurity threats and describe solutions to those threats

CPST 349 Project Management (3 Credit Hours)
Pre-requisites: CPST 250; Restricted to students in the School of Continuing and Professional Studies
The art and science of project management as applied to a variety of business, commercial, and public management situations. Covers all phases of the project life-cycle; techniques for planning, scheduling and control of projects; project organizations; and techniques for building effective project teams. Student will gain a working knowledge of the fundamental principles and techniques of effective project management, and how to apply these principles and techniques in the business environment.

CPST 350 Human Resources Principles & Practices (3 Credit Hours)
Pre-requisites: CPST 250; Students must be enrolled in the School of Continuing and Professional Studies
Students will gain understanding human of resource management functions including the legal environment, equal employment opportunities requirements; job design and analysis; recruiting, orientation and training; performance appraisal; compensation systems; labor relations; collective bargaining and grievance processes; and health and safety.
Course equivalencies: MGMT322/HRER322/CPST350
Outcomes:
Students will make a presentation about human resource components for an organization including job description, recruiting plan, hiring procedures, performance evaluation and collective bargaining considerations

CPST 354 Communications for Organizational Leaders (3 Credit Hours)
Pre-requisites: CPST 210; Restricted to Leadership majors only
Communicating clearly and persuasively is at the core of this topic. Individuals can leverage their unique leadership style to effectively communicate and inspire action. By developing practices for formal as well as informal communication, students learn to manage frequency, volume and medium chosen in order to construct messages that reach various audiences. Practicing clear and effective oral communication is established through multiple exercises in this course. At the end of this course, the student will be able to 1. Identify leadership style and use for connecting in verbal presentations. 2. Develop the ability to communicate simply and effectively through written communication. 3. Evaluate communication forms for inspiration and motivation. 4. Recognize the importance of ethical communication and technology.

CPST 355 Introduction to Global Trade Compliance (3 Credit Hours)
Pre-requisites: CPST 243 or ECON 201, CPST 245 or ECON 202, STAT 103 or ISOM 241, CPST 310 or ACCT 201; Restricted to students in the School of Continuing & Professional Studies
Understanding the principles of global trade compliance helps personnel in compliance and other key functional areas (e.g., accounting, logistics, talent, purchasing, R&D) understand the opportunities and risks associated with international trade. Topics include key principles of import and export compliance, the government's role in the regulatory framework, and common risk areas that impact business activities.
At the end of the course, the student will be able to 1. Identify the basic regulatory framework for import compliance (e.g., customs valuation, tariff classification and country of origin) 2. Identify the basic regulatory framework for export compliance 3. Explain and understand the role of voluntary cargo security programs (e.g., Customs-Trade Partnership Against Terrorism) 4. Identify and analyze actual import/export compliance risk areas (e.g., free trade agreements and associated eligibility issues) 5. Create and implement a team project that identifies a compliance risk area and presents a cross-functional response to the regulatory risk.

CPST 356 Environmental Economics & Resource Management (3 Credit Hours)
Pre-requisites: CPST 243 or ECON 201, CPST 245 or ECON 202, STAT 103 or ISOM 241, CPST 310 or ACCT 201; Restricted to students in the School of Continuing & Professional Studies
The purpose of this course is to help students understand the role of economics in analyzing natural resource management and the role of economics in the development of environmental policy. An understanding economic models of efficiency is integral to any discussion of innovative ways to approach our natural resource constraints in the 21st century and beyond. The focus of the course will be on energy, energy efficiency and renewable energy sources, and the cost of pollution and climate change. The renewed interest in innovative technologies that reduce emissions, waste and improve bottom lines provides a new impetus for investment in renewables and new technologies. The second part of the course will be devoted to highlighting opportunities for companies, citizens and entrepreneurs to create jobs and improve communities. By the end of the course, it is hoped that students will find that as citizens, entrepreneurs or corporate executives, they can do well financially by doing good environmentally. By the end of the course, the student will be able to 1. Apply supply and demand models to natural resource management 2. Evaluate the role of economics in the development of environmental policy 3. Identify methods used in the economic valuation of the environment 4. Discuss the transition from depletable to renewable energy resources 5. Connect sustainable environmental practices with economic growth

CPST 360 Development and Change in Organizations (3 Credit Hours)
Pre-requisites: CPST 250
Students will investigate the theory and practice of organizational development, examine assumptions, strategies, models, intervention techniques for organizational development and change processes. Students will also study the formation of collaborative relationships, overcoming resistance, gaining commitment and realigning culture.
Outcomes:
Students will provide case studies that integrate data; design interventions, change strategies and an evaluation for diagnosing organizations, groups and jobs

CPST 364 Intra-personal Leadership (3 Credit Hours)
Pre-requisites: CPST 210; Restricted to Leadership majors only
Intra-personal leadership principles highlight the drive, energy and motivation one has toward leading effectively. Exploring what it means to bring positive organizational energy to the leadership role in a way that ethically supports organizational mission is at the foundation of this course. Effectively leading through complexity begins at the individual level and requires the ability to develop, motivate, and support the accomplishment of others. At the end of this course, the student will be able to 1. Examine personal goals for growth, challenge, achievement, and success 2. Develop requirements for fulfilling relationships and balancing work and life. 3. Establish personal parameters and professional practices for ethical leadership. 4. Develop methods for supporting goals and accomplishments of individuals and teams.

CPST 365 Advanced Special Topics (1-3 Credit Hours)
Course titles and content vary. Variable (1-3) credit hours. Permission required to enroll. Restricted to students in the School of Continuing & Professional Studies. SCPS permission required to enroll.

CPST 370 Leadership Theories and Applications (3 Credit Hours)
Pre-requisites: CPST 250
Students will study leadership theory, concepts and the practical application of leadership at all levels. Students will analyze historical approaches to leadership and focus on influential contemporary leadership perspectives such as servant leadership, situational leadership, transformational leadership, and principle-centered leadership.
Outcomes:
Students will complete a leadership development plan and apply leadership theories to workplace situations through reflection, real-life examples, and case studies

CPST 371 Organizational Finance (3 Credit Hours)
Pre-requisites: CPST 243 or ECON 201, CPST 245 or ECON 202, STAT 103 or ISOM 241, CPST 310 or ACCT 201; Restricted to students in the School of Continuing & Professional Studies
Management involves the allocation and distribution of resources as well as an ongoing knowledge of the financial impact of the local, regional and national economies. This course offers an overview of the inter-relations of money and markets, investment, and financial management. It will focus on financial analysis, design and reporting from a managerial perspective, as well as organizational issues which have a financial impact on the entity. It will concentrate on organizational finance topics with an emphasis on financial analysis, fixed income securities, stocks, projects and their valuations, corporate valuation and governance and cash distribution.
Course equivalencies: FINC332/FINC 334/CPST271
Outcomes:
At the end of this course, the student will be able to 1) Read, develop and write financial analyses for managerial roles; 2) Develop concrete skills in regard to fiscal leadership; 3) Analyze cash flow and financial statements; 4) Describe the time value of money, bonds, and bond valuation regarding changes in interest rates; 5) Evaluate risk and return, valuation of stocks and corporations, and financial options in corporate finance; 6) Apply the cost of capital and cash flows to capital budgeting; 7) Describe how local, regional and national economies impact the success of the allocation of financial resources

CPST 372 Banking & Financial Intermediaries (3 Credit Hours)
Pre-requisites: CPST 243 or ECON 201, CPST 245 or ECON 202, STAT 103 or ISOM 241, CPST 310 or ACCT 201; Restricted to students in the School of Continuing & Professional Studies
This course is designed to provide the student with a knowledge of banking and financial intermediaries. Concepts covered in the course will include the following: an overview of financial markets and interest rates; the functions and structure of the Federal Reserve System; the role of the Federal Reserve system in setting monetary policy; commercial banking operations and regulations; non-bank financial intermediaries, including thrift and finance companies; the role of insurance and pension fund operations. As a result of taking this course, students will understand the role that financial institutions play in developing and implementing monetary policies, as well as the inter-relationships between financial institutions and capital markets. At the end of this course, the student will be able to 1. Describe the types of financial markets, as well as the role played by the various institutions comprising those markets. 2. Recognize the market and institutional forces that contribute to the determination of short and long -term interest rates. 3. Explain the function and structure of the Federal Reserve system, as well as the role played by the Federal Reserve in determining monetary policy. 4. Analyze the nature and function of commercial banking including the sources and uses of funds by banking operations, the regulatory environment in which commercial banks operate, and the management of banking assets to achieve desired management strategies. 5. Discuss the interrelationships among commercial banks and other financial intermediaries. 6. Identify various non-bank financial intermediaries, including thrifts, credit unions, finance companies and mutual funds and explain how these institutions interact with commercial banking operations, as well as with end consumers. 7. Examine the role that pension and insurance funds play in providing liquidity and security to consumers and businesses. 8. Discuss interrelationships among pension and insurance funds and other financial intermediaries

CPST 373 Capital Markets (3 Credit Hours)
Pre-requisites: CPST 243 or ECON 201, CPST 245 or ECON 202, STAT 103 or ISOM 241, CPST 310 or ACCT 201,CPST 372 Banking and Financial Intermediaries; Restricted to students in the School of Continuing & Professional Studies
This course is designed to provide the student with a knowledge of capital markets, banking, and measures of money supply. The course will include an overview of financial markets and interest rates; the functions and structure of the Federal Reserve System; the role of debt securities markets; the role played by equity securities markets; the nature and function of derivative markets. As a result of taking this course, students will understand the role played by capital markets, the Federal Reserve system, debt, equity and derivative markets as well as the inter-relationships between financial institutions and capital markets.
Outcomes:
At the end of this course, the student will be able to 1) Analyze the nature and function of the market for debt instruments, as well as the various types of debt instruments currently in use, including Treasury bills, commercial paper, CDs, repurchase agreements, federal funds, mortgages and banker's acceptances; 2) Assess the valuation of debt securities, pricing, and yields; 3) Describe the market for equity securities and the types of equity securities available for investment; stock market transactions, trading, and securities regulations; 4) Employ valuation methods to evaluate equity securities and performance measures related to them; 5) Explain the role that derivatives play in attempting to mitigate risk, as well as the speculative nature of some derivative products and the role of regulatory agencies in attempting to reduce speculative transactions

CPST 380 Leadership, Culture and Ethics (3 Credit Hours)
Pre-requisites: CPST 250
Students examine organizational ethics, values, strategy, culture, leadership and coaching. Students self-assess and refine their own concept of leadership and decision-making in the context of attitudes, environments, cultures, and issues faced by leaders in organizations.
Outcomes:
Students will analyze descriptive and normative models of ethical decision making in business, leadership strengths and management style using real life situations, self-assessment and cases studies

CPST 381 Cybersecurity Governance (3 Credit Hours)
Effective Cybersecurity Leadership requires that there is a cogent Governance structure. Students in this course will learn how to manage Cybersecurity processes while meeting the needs of the Enterprise. Students will learn how to establish a Governance program, Cybersecurity management frameworks, how to develop and implement a Cybersecurity strategy. Students will be able to: Explain the strategic importance of effective, interdisciplinary, and multifunctional enterprise information security governance and information security management program and its execution.

CPST 382 Cybersecurity Incident Response Management (3 Credit Hours)
Students in this course learn key aspects of Cybersecurity Incident Response Management (CIRM). Students in this course will learn how to plan for, respond to, investigate, and report on Cybersecurity Incidents. Students in this course will learn from case studies of past cyber incidents. Skills developed include the developing of an Incident Response Plan; ethical, best practices on handling communications/ disclosures after an incident; incident investigation techniques (forensics); interfacing with law enforcement; and post-incident recovery.

CPST 383 Cloud Security Strategy and Architecture (3 Credit Hours)
This course leverages cloud computing security guidelines set forth by the International Organization for Standardization (ISO), National Institute of Standards and Technology (NIST), European Union Agency for Network and Information Security (ENISA), and Cloud Security Alliance (CSA) to develop a Strategic perspective for the Cybersecurity practitioner. Skills developed include knowing best practices and standards; the ability to design and implement a cloud security architecture; and carefully working with 3rd party cloud infrastructure providers and other stakeholders.

CPST 390 Organizational Theory and Practice (3 Credit Hours)
Pre-requisites: CPST 380
This course extends knowledge of organizations by examining organizational behavior at the macro-level. Students will gain a deeper understanding of organizational theory and research including historical and modern era approaches. Students will also analyze organizational behavior and settings including an in-depth case study of a single company.
Outcomes:
Students will be able to explain and apply concepts within the main areas of organizational structure, culture, communication and process

CPST 395 Advanced Special Topics in Management (1-3 Credit Hours)
Permission required to enroll.

CPST 397 Capstone (3 Credit Hours)
This course must be taken by SCPS students during the last semester prior to graduation. Students will research a problem, conceptualize solutions and develop a solution as their service-learning project. Within this project, students will synthesize and apply knowledge from prior courses. Course content also includes an analysis of leadership challenges and values-driven leadership. They will also present their professional portfolios as a graduation requirement.
This course satisfies the Engaged Learning requirement.
Outcomes:
Students will chronicle their projects and present a final presentation of their work

CPST 398 Professional Studies Internship Seminar (2 Credit Hours)
To enroll students must complete the internship forms through the Center for Experiential Learning. The Internship Seminar is a way to earn academic credit for an internship completed while finishing one of the SCPS BA programs. Students taking CPST 398 must take CPST 399 the following session to get complete credit for the internship.
This course satisfies the Engaged Learning requirement.
Course equivalencies: CPST398/UNIV390
Outcomes:
Applied experience in a professional setting

CPST 399 Professional Studies Internship Seminar II (2 Credit Hours)
To enroll students must complete the internship forms through the Center for Experiential Learning. The Internship Seminar is a way to earn academic credit for an internship completed while finishing one of the SCPS BA programs. Students taking CPST 399 must first take CPST 398 the previous session to get complete credit for the internship.
This course satisfies the Engaged Learning requirement.
Outcomes:
Applied experience in a professional setting

Exercise Physiology (EXEC)

EXCM 101 Introduction to Exercise Physiology (3 Credit Hours)
Introduction to the major; also includes a lab component covering Emergency Procedures and Safety Skills, introduction to common safety principles, predisposing factors and common causes of accidents, injuries and illnesses.
This course satisfies the Engaged Learning requirement.

EXCM 115 NCCA Personal Training Elective (1 Credit Hour)
This course encompasses an overview of key Exercise Science, training methodology and health behavior change principles. Students will then apply each principle into practice through screening and evaluation, exercise program design, and ethical, legal and professional responsibilities and guidelines.
Outcomes:
Upon successful completion of the course, the student will be able to: Apply key exercise science, training methodology and health behavior change principles in context to the provision of exercise; Apply the practice of exercise and fitness screening and assessment, health appraisal and risk stratification, while simultaneously integrating ethical considerations and client preferences

EXCM 117 NCCA Group Fitness (1 Credit Hour)
This course encompasses an overview of group exercise; to include cardiovascular exercise, strength training and stretching. Students will learn how to lead, instruct and motivate individuals or groups in exercise activities.
Outcomes:
Upon successful completion of the course, the student will be able to: Apply effective, exercise science-based group sessions for different fitness levels; Explain proper technique, demonstrate exercise, and teach appropriate methods to strengthen and stretch certain muscles

EXCM 170 Women's Health and Exercise (1 Credit Hour)
This course presents perspectives on physical activity and exercise science specific to women. It will include the identification of issues during various stages of development in the female body and barriers and benefits of exercise unique to women. Students will apply these perspectives to exercise program design and health care interactions with all clients.
Outcomes:
1) Understand the unique circumstances and outcomes of working with women in the field of wellness and fitness; 2) Identify preventative strategies (such as exercise prescription and nutrition guidance) that can compensate for health risks, issues, and deficiencies that female clients and patients may experience throughout their life; 3) Explain exercise modifications and varied benefits during specific periods in a woman's life (adolescents, pregnancy, postpartum, menopause)

EXCM 201 Physiology of Exercise (4 Credit Hours)
Pre-requisites: EXCM 101 and Anatomy & Physiology (GNUR 155/155L and GNUR 156/156L)
The physiological functions of the body and the effect of exercise on these functions.

EXCM 210 Program Design in Exercise (2 Credit Hours)
Pre-requisites: EXCM 201
This course focuses on the design, implementation and evaluation of exercise programs through case-based application and classroom activities. Health-related components of fitness and fitness assessments are reviewed. Individual and group exercise program designs within community-based settings for individuals through the life cycle are discussed. Evidence-based content is identified to critically analyze and develop conditioning programs and techniques for a broad range of sports and activities. Important elements of program design are used to emphasize desired client program outcomes.
Outcomes:
At the successful completion of the course, the student will be able to: 1) Lead designed group exercises and activities which consider individual needs and differences; 2) Apply training principles and program variables to increase strength, endurance, power, or hypertrophy for the identified client or population; 3) Evaluate the designed exercise prescribed over time for an individual and/ special population; 4) Integrate cognate materials necessary to support the full development of physical performance including nutrition, environment, mobility, clothing and equipment; 5) Design individualized exercise programs for individuals and special groups; 6) Adjust exercise programs based on individual performance and safety considerations

EXCM 301 Advanced Physiology of Exercise (3 Credit Hours)
Pre-requisites: EXCM 201 and Anatomy & Physiology (GNUR 155/155L and GNUR 156/156L)
An advanced course in exercise physiology covering exercise metabolism, temperature regulation and fluid balance.

EXCM 342 Physical Growth, Development and Nutrition (3 Credit Hours)
Pre-requisites: EXCM 101
A survey of the various components involved in personal health and wellness, such as personal fitness, sexuality, mental health, and environmental health as related to the stages of life development.

EXCM 345 Therapeutic Exercise and Rehabilitation (3 Credit Hours)
Pre-requisites: (EXCM 101 & 201) and (BIOL 243 or GNUR 156 &156L)
Explanation and demonstration of the use of therapeutic modalities in the healing process. This will include discussion of the use of therapeutic modalities to enhance the rehabilitation process after athletic injury.

EXCM 350 Sports Nutrition (3 Credit Hours)
Pre-requisites: EXCM 201, CHEM 102 & CHEM 112
This course introduces the essentials of human nutrition for health and emphasizes the roles of key nutrients for athletic performance. This foundational material will be applied to athletic performance including adaptation and recommendations for training and competition. Nutrient recommendations will be reviewed for specific types of sports, exercise and other athletic concerns. The metabolic basis for sports nutrition recommendations is examined.

EXCM 352 Musculoskeletal Assessment and Strength Training (4 Credit Hours)
Pre-requisites: EXCM 201 and Anatomy & Physiology (GNUR 155/155L and GNUR 156/156L)
This course will present the general principal and foundational skills for each component of the injury examination. These general principles will be applied to the recognition and examination of injuries/conditions specific to each body region. Address general medical conditions will likely encounter with patients.

EXCM 364 Intro to Clinical Exercise Testing and Prescription (3 Credit Hours)
Pre-requisites: EXCM 201 and Anatomy & Physiology (GNUR 155/155L and GNUR 156/156L)
This class summarizes recommended procedures, including EKG and other stress testing modalities, for exercise testing and exercise prescription in healthy and diseased individuals.

EXCM 368 Advanced Clinical Testing and Prescriptions (3 Credit Hours)
Pre-requisites: EXCM 201 and Anatomy & Physiology (GNUR 155/155L and GNUR 156/156L)
This course focuses on physiological implications of metabolic conditions such as diabetes, cardiac and pulmonary disease on exercise. The course includes modifications to exercise testing and in-depth preparation for exercise prescription based on diseases and special conditions. The course reviews contraindications and considerations for exercise, EKG interpretation and implications of physiological responses to exercise. Behavioral strategies to implement in client exercise planning and education are addressed. Exercise prescription is discussed as part of the ongoing evaluation of client performance.
Outcomes:
At the successful completion of the course, the student will be able to: 1) Create patient/client focused exercise programs, with modifications and progressive programming based on physiologic alterations; 2) Understand the effect of exercise on the physiological systems of the body and disease states; 3) Analyze exercise testing data from healthy individuals and individuals with physiological alterations; 4) Evaluate EKG responses to exercise; 5) Implement testing protocols and modifications for individuals with physiological alterations; 6) Understand acute responses and chronic adaptations to exercise and the impact on individuals with physiological adaptations

EXCM 375 Special Populations in Exercise Science (2 Credit Hours)
Pre-requisites: EXCM 201 and EXCM 364
This course provides practical information on exercise for persons with a wide range of health conditions, diseases and disabilities. Best-practice exercise prescription protocols for individuals across the life span will be addressed. An overview of unique physiology, effects of the condition on the exercise response, and effects of exercise training on the condition will be discussed. Recommendations for exercise testing and programming are presented for select populations.
Outcomes:
At the successful completion of the course, the student will be able to: 1) Understand the relations between health conditions, disease, disability and physical activity; 2) Establish physical activity outcomes in individuals with health conditions, diseases or disabilities; 3) Modify existing physical activity prescriptions to match individual capabilities and needs; 4) Demonstrate an understanding of the risks and benefits associated with exercise participation: 5) Analyze the results of exercise tests and fitness evaluations in various populations; 6) Modify equipment arrangement and facility resources to accommodate use by individuals with special needs

EXCM 382 Clinical Research: Methods, Design and Ethics w/Lab (3 Credit Hours)
Pre-requisites: EXCM 201 and STAT 103
Study of current literature with implications for exercise and sport science specializations; use of library resources and retrieval systems; evaluation of professional competencies.

EXCM 385 Kinesiology and Sports Biomechanics w/Lab (4 Credit Hours)
Pre-requisites: PHYS 112 and Anatomy & Physiology (GNUR 155/155L and GNUR 156/156L)
Analysis of human movement with emphasis on the biomechanics of exercise and sport movement patterns.

EXCM 387 Movement Anatomy in Exercise (3 Credit Hours)
Pre-requisites: EXCM 385
Concepts and principles from anatomy and biomechanics are integrated into the analysis of human movement. This course focuses on application of the principles of human movement for normal function and application to different levels of physical performance through case based applications and classroom activities. Content includes anatomical lever systems, moment arms, stability and laws of motion. Systematic analysis of human movement in clinical conditions, performance, and wellness settings will be reviewed. Development of individual plans to improve movement is woven throughout the course.
Outcomes:
At the successful completion of the course, the student will be able to: 1) Explain the relationship between biomechanics, anatomy and human movement; 2) Understand upper and lower limb musculoskeletal anatomy, physiology, and function; 3) Apply functional anatomy in the analysis of normal physical performance; 4) Develop individualized plans to correct movement based on the assessment of the individual; 5) Evaluate movement techniques in various populations; 6) Evaluate client outcomes as a result of prescribed exercise modifications to improve movement patterns

EXCM 390 Psychology of Health and Exercise (3 Credit Hours)
Pre-requisites: EXCM 201 and PSYC 273
This course will present current research with focus on the leading theories and applications in health and exercise psychology. The implications and applications of research and practice for health behavior change by health and fitness professionals in diverse populations at the societal and individual levels will also be reviewed.

EXCM 395 Clinical Internship and Patient Management (6 Credit Hours)
Pre-requisites: EXCM 201 and Anatomy & Physiology (GNUR 155/155L and GNUR 156/156L), 4 of 8 upper division EXCM courses
Practical experience working with exercise physiologists, physical therapists, occupational therapists, rehabilitation therapists, and others, in cardiac care and orthopedic rehabilitation.
This course satisfies the Engaged Learning requirement.

EXCM 399 Special Topics in Physical Therapy (2 Credit Hours)
This course covers the general areas of physical therapy, as well as a relevant topic in physical therapy. This course will be offered as an elective and open to all students. Recommend evidence-based practices using cases studies (ie exercise prescription, patient education, society level affects).
Outcomes:
Examine various research and writing to gain understanding and knowledge in the areas of physical therapy; Evaluate scientific literature; Explore the impact a physical therapist has on their patient through movement improvement, pain management and prevention

EXEC 101 Introduction to Exercise Physiology (4 Credit Hours)
Introduction to the major; also includes a lab component covering Emergency Procedures and Safety Skills, introduction to common safety principles, predisposing factors and common causes of accidents, injuries and illnesses.

Healthcare Emergency Management (HEM)

HEM 100 Emergency Medical Technician - Basic (4 Credit Hours)
This course is designed to instruct a student to the level of Emergency Medical Technician-Basic, who serves as a vital link in the health care team. This includes all skills necessary to provide emergency medical care and a basic life support (BLS) level with an ambulance or other specialized service. Student must maintain active CPR recognition throughout the course.
This course satisfies the Engaged Learning requirement.

HEM 395 Emergency Management Practicum (3 Credit Hours)
Pre-requisites: HEM 201
The purpose of this course is to integrate and synthesize the theory and principles presented in the core classes of the healthcare emergency management major. To achieve this goal, the practicum will examine and assess various disaster case studies. Utilizing the resources of the Faculty Advisory Board, students will be placed in emergency services or public health positions to observe first hand the work of the healthcare emergency manager. In particular, students will observe and participate in such activities as strategic planning; inter-governmental agency communication and information sharing; risk analysis; disaster plan preparation and other aspects of public health threat preparedness; policy analysis; and related practices.

Institute of Paralegal Studies (PLST)

PLST 331 Introduction to Paralegal Studies (2 Credit Hours)
Required of all students in their first session of study. An introduction to the function and sources of American law (including the U.S. Constitution), the American legal system, the civil litigation process, and legal practice, focusing on the role of the paralegal. Trends in the paralegal field, including regulation and career issues.
Outcomes:
Students will recognize typical paralegal responsibilities in various areas of legal practice and be aware of recent developments in the field, especially regulatory proposals affecting paralegals

PLST 332 Legal Research and Writing I (2 Credit Hours)
Required of all students. An introduction to the fundamentals of legal research, focusing on locating, analyzing and updating case law (court opinions). Practice in researching case law in hard copy and online, and in writing case briefs.
Outcomes:
Students will be able to use various reference books and online services (LEXIS and WESTLAW) to locate, analyze, and update case law, and will be able to write case briefs

PLST 333 Legal Research and Writing II (2 Credit Hours)
Pre-requisites: PLST 332
Required of all students. Further instruction in legal research skills, focusing on locating, analyzing and updating statutory and administrative law. Practice in researching statutory and administrative law in hard copy and online. Drafting routine legal correspondence.

PLST 334 Legal Analysis: Practical Applications (2 Credit Hours)
Pre-requisites: PLST 332 and PLST 333
This writing intensive course will provide extensive practice analyzing factual scenarios, summarizing and applying legal authority and developing written legal arguments. Drafts and rewrites are required.
Course equivalencies: PLST334/PLST370

PLST 335 Legal Ethics (2 Credit Hours)
Pre-requisites: PLST 331
Required of all students. Ethical considerations in the practice of law that paralegals are likely to encounter, especially the unauthorized practice of law, client confidentiality and conflicts of interest. Review of ethical codes for attorneys and paralegals.

PLST 336 Corporate Topics for Litigation Paralegals (2 Credit Hours)
Required for the Litigation Practice Certificate. An introduction to the basic principles of agency law, contract law, and the forms of business organizations: sole proprietorships, partnerships (general, registered limited liability and limited), limited liability companies, and corporations.

PLST 339 Secured Transactions and Bankruptcy (2 Credit Hours)
Pre-requisites: PLST 336 or PLST 362; Required for the Corporate Practice Certificate (Water Tower Campus)
An introduction to transactions under Uniform Commercial Code Article 9 (Secured Transactions) and federal bankruptcy law, primarily as it applies to businesses.
Outcomes:
Students will be able to draft UCC forms to perfect security interests as well as bankruptcy forms

PLST 340 Civil Litigation I (2 Credit Hours)
Required for the Litigation Practice Certificate. An introduction to the civil litigation process in state (Illinois) and federal courts, and proceedings in administrative agencies generally, focusing on the initial phases. Instruction in client interviews and pre-litigation investigations, evidentiary issues, and practice in drafting pleadings initiating lawsuits and proceedings through pre-trial motion practice.
Outcomes:
Students will understand the structure and basic operations of these courts, and will be familiar with the rules of procedure governing civil litigation proceedings

PLST 341 Civil Litigation II (2 Credit Hours)
Pre-requisites: PLST 340
Required for the Litigation Practice Certificate. Further instruction in the litigation process, focusing on the discovery, trial, and post-trial stages. Topics include interrogatories, depositions, document production and inspection requests, other discovery tools, settlement negotiations, organization of case files, document control systems, trial preparation, trial procedure, and post-trial proceedings. Overview of alternative dispute resolution.
Outcomes:
Students will be able to conduct client interviews and pre-litigation investigations, and to draft the pleadings initiating lawsuits and proceeding through pre-trial motion practice

PLST 342 Litigation Technology & eDiscovery (2 Credit Hours)
Pre-requisites: PLST 340 and PLST 341; Previous completion of PLST 345 strongly recommended
Required for the Litigation Practice Certificate. Hands-on instruction in software programs (Relativity) commonly used for litigation support, including electronic court filing, eDiscovery, case management, document control and trial presentation.
Outcomes:
Students will be able to assist attorneys in preparing for and conducting trials

PLST 343 Real Estate Transactions I (2 Credit Hours)
Pre-requisites: PLST 336 or PLST 362
An introduction to the concepts of real estate ownership and real estate sales transactions. Practice in preparing standard documents required for real estate transactions: purchase/sale agreements, deeds and other closing documents, title insurance commitments and policies, and surveys.
Outcomes:
Students will be able to draft documents for basic real estate transactions and to assist attorneys in conducting real estate closings

PLST 344 Real Estate Transactions II (2 Credit Hours)
Pre-requisites: PLST 343
Further instruction in real estate transactions, examining issues that arise in all real estate transactions and especially the documentation and closing of these transactions. Commercial real estate leasing.
Outcomes:
Students will be able to prepare documents for these transactions, and to assist attorneys in conducting commercial real estate closings and other transactions

PLST 345 Law Office Computer Applications (2 Credit Hours)
Required of all students. Hands-on instruction in software programs commonly used in law offices: word processing (templates, redlining, tables), spreadsheets (financial data, charts and graphs), pdf management (creating and combining pdfs, creating a portfolio, redacting, adding security) and presentation graphics.
Outcomes:
Students will be proficient in the fundamentals of word processing (templates, redlining, tables), spreadsheets (financial data, charts and graphs), database management (organizing, sorting, and retrieving information), and presentation graphics

PLST 346 Advanced Litigation Technology (2 Credit Hours)
Pre-requisites: PLST 340, PLST 341, PLST 342
Additional instruction in online resources and software typically used in litigation support (e.g. Relativity).
Outcomes:
Students will prepared to use typical litigation resources and software at a basic to intermediate level

PLST 348 Advanced Online Research Skills (2 Credit Hours)
Pre-requisites: PLST 332
This course focuses on research strategies for paralegals and specifically develops skills in the area of online public database research. Students practice researching within publically available online resources in a wide variety of subject areas including court procedure and docketing, business entities, real property, criminal law, environmental compliance, etc. Multiple practical assignments as well as one main research assignment.
Outcomes:
Students will research and write memoranda in support of motions, and will be familiar with the mechanics of appellate court briefs

PLST 349 Torts (2 Credit Hours)
An introduction to civil tort liability, including the intentional torts, negligence, strict liability, and product liability. Role of the paralegal in personal injury litigation. Practice in client interviewing techniques. Basic factual investigation techniques.
Outcomes:
Students will be familiar with the paralegal's role in personal injury litigation from both the plaintiff's and defendant's viewpoints, including typical pleadings and other documents

PLST 350 Medical Malpractice (2 Credit Hours)
Negligence lawsuits brought against health care organizations and health care professionals, from both the plaintiff's and defendant's viewpoints. Illinois law and rules of procedure for medical malpractice cases. Practical skills for locating and organizing medical information.
Outcomes:
The student will be familiar with Illinois law and rules of procedure governing medical malpractice lawsuits and will be able to draft a malpractice complaint as well as locate and organize medical information

PLST 351 Intellectual Property: Patents and Trade Secrets (2 Credit Hours)
An introduction to the terminology, basic principles and documentation requirements of patent protection. Subject matter of patents, the concept of patentability, the patent application process and patent infringement litigation. Trade secret misappropriation.
Outcomes:
Students will be familiar with the concept of patentability, the patent application process (including preparation of basic forms and documents), and patent infringement litigation

PLST 352 Intellectual Property: Trademarks and Copyrights (2 Credit Hours)
An introduction to the terminology, basic principles and documentation requirements of trademark and copyright protection. Registration procedures and infringement disputes.
Outcomes:
Students will be familiar with registration procedures (including preparation of basic forms and documents) and infringement disputes

PLST 353 Securities Regulation (2 Credit Hours)
Pre-requisites: PLST 336 or PLST 362
Federal and state regulation of securities transactions. The stock market and the roles of brokers, specialists and underwriters. Requirements for public offerings of stock, notably the registration statement and prospectus, as well as the anti-fraud provisions.
Outcomes:
Students will be familiar with the requirements for public offerings of stock, notably the registration statement and prospectus, and will be able to complete basic forms required under these laws

PLST 355 Estates, Trusts & Wills (2 Credit Hours)
An introduction to basic principles of estate and trust administration. Practical aspects of administration of estates and trusts for the paralegal. Probate proceedings in Illinois, including the preparation of probate court pleadings, inventories, collection and valuation of assets, distribution of assets to beneficiaries, and accountings. Overview of tax considerations.
Outcomes:
Students will be familiar with wills and will be able to prepare the documents required to administer estates in Illinois

PLST 357 Family Law (2 Credit Hours)
An introduction to the laws governing family relationships, specifically the Illinois Marriage and Dissolution of Marriage Act and related statutes. Factual investigation, preparation of pleadings and other documents, court procedures, settlement agreements, and post-decree modifications. Brief overview of adoption and paternity proceedings.
Outcomes:
Students will be able to prepare pleadings, notices, settlement agreements, and other documents, and to assist the attorney in domestic relations court proceedings

PLST 358 Criminal Law and Litigation (2 Credit Hours)
An introduction to the purpose and scope of substantive criminal law, considering various crimes against persons and property, criminal liability and punishment, and defenses to crimes. Procedural topics, including court forms and pleadings commonly used in the Illinois criminal trial process.
Outcomes:
Students will be able to prepare court forms and pleadings commonly used in the criminal trial process, and to assist attorneys preparing for trial

PLST 359 Environmental Law (2 Credit Hours)
An introduction to federal environmental statutes regulating water quality, waste management and remediation of hazardous substances (Superfund). Issues leading to enforcement proceedings. Research strategies for this technical area.
Outcomes:
Students will be familiar with permit applications, enforcement proceedings, and research strategies for this technical area

PLST 360 Employment Law (2 Credit Hours)
An overview of the legal relationship between employers and employees, including the employment-at-will doctrine, employment contracts, federal and state anti-discrimination laws, and worker's compensation proceedings. Administrative procedures and trial court actions.
Outcomes:
Students will be familiar with federal and Illinois law regulating employment status, employment contracts, anti-discrimination claims, and worker's compensation, and will be able to assist attorneys in administrative agency proceedings and civil lawsuits

PLST 361 Immigration Law (2 Credit Hours)
An overview of U.S. immigration law with emphasis on the paralegal's role. History of immigration law and current policy considerations. Preparation of visa applications, admission and removal of immigrants and non-immigrants, citizenship and naturalization, and humanitarian relief. Document organization and preparation, working with clients, litigation assistance, legal research, and ethical dilemmas.
Outcomes:
Students will be able to prepare various visa applications

PLST 362 Business Organizations (2 Credit Hours)
Required for Corporate Practice Certificate (Water Tower Campus and Cuneo Cohort). This course focuses on the formation and operation of sole proprietorships, partnerships (general, limited, and limited liability), limited liability companies, and corporations. Preparation of standard forms and agreements will be emphasized. Due diligence procedures for mergers and acquisitions and other transactions will be covered.

PLST 363 Contract Administration & Analysis (2 Credit Hours)
Required for Corporate Practice Certificate (Water Tower Campus and Cuneo Cohort). This course focuses on both common-law and Uniform Commercial Code (UCC) Article 2 contracts. The elements of a valid contract will be studied, as well as standard contractual provisions and basic principles of contract interpretation. Students will work with several sample contracts: a confidentiality/nondisclosure agreement, a licensing agreement, and a general trade agreement.

PLST 364 Topics in Corporate Practice (2 Credit Hours)
Pre-requisites: PLST 362 Business Organizations
This course provides an overview of laws relating to business operations, including secured transactions (Uniform Commercial Code Article 9), federal bankruptcy law, and employment law. Compliance with various regulatory requirements will also be covered.

PLST 366 Litigation Topics for Corporate Paralegals (2 Credit Hours)
Required for Corporate Practice Certificate (Water Tower Campus and Cuneo Cohort). This course introduces the civil litigation process in state (Illinois) and federal courts, from the initial phases of pre-litigation investigations and pleadings through the discovery, trial, and post-trial phases. Technological innovations affecting civil litigation, such as electronic court filing and e-discovery procedures, will be given special emphasis.

PLST 368 Corporate Compliance Topics (2 Credit Hours)
Pre-requisites: PLST 362 or PLST 336
This course provides an overview of various regulatory provisions applicable to the financial services industry, including the Anti-Money Laundering (AML) and Business Continuity Plans (BCP) rules, the Foreign Corrupt Practices Act, and insider trading prohibitions. Compliance with the requirements of these laws will be the focus of the course.
Outcomes:
Students will learn practices and procedures to monitor and document compliance with these laws

PLST 369 Advanced Topics in American Law (3 Credit Hours)
Pre-requisites: CPST 200; Enrollment is limited to students in the BA in PLST degree program
This course will build on students' knowledge of the American legal system, examining the role of law in 21st century American society. The course will focus on the interpretation of selected portions of the U.S. Constitution and their effect on American life.
Outcomes:
Students will learn how the US Constitution governs the American legal system and protects individual rights

PLST 370 Advanced Legal Analysis & Writing I (3 Credit Hours)
Pre-requisites: UCWR 110; Enrollment is limited to students in the BA in PLST degree program
This course will provide students with extensive practice in reading and summarizing case law, with particular attention to the rationale for court decisions and the use of precedent, as well as statutory and administrative law. This course will focus on analysis rather than retrieval of legal reference sources.
Course equivalencies: PLST334/PLST370
Outcomes:
Students will learn how to prepare summaries of court decisions, statutes, and administrative regulations

PLST 371 Advanced Legal Analysis & Writing II (3 Credit Hours)
Pre-requisites: PLST 370; Enrollment is limited to students in the BA in PLST degree program
This course will focus on the interaction of case law, statutory law, and administrative law in resolving legal issues. Students will learn to develop legal arguments and write a legal memorandum.
Outcomes:
Students will learn how to use court decisions, statutes, and administrative regulations to develop legal arguments

PLST 395 Applied Paralegal Study (1 Credit Hour)
Pre-requisites: Director's permission required; this course is limited to students in the BA in Paralegal Studies program
This course will require students to explore a contemporary issue in the paralegal field or the practice of law generally. Students will be expected to participate in a minimum of two class meetings and several online activities, concluding with a presentation of their research.

PLST 398 Internship (2 Credit Hours)
Consent of Director and completion of 14-16 semester hours of study. Limited to student's last or second-last term of study. Practical experience (120 hours on site) for advanced students in applying paralegal skills within selected law firms, corporate law departments and governmental agencies. One mandatory class meeting, online journal, online discussions, and final paper. All internships are unpaid; only one internship may be completed for credit toward certificate.

PLST 399 Internship (3 Credit Hours)
Consent of Director and completion of 14-16 semester hours of study. Limited to student's last or second-last term of study. Practical experience (160 hours on site) for advanced students in applying paralegal skills within selected law firms, corporate law departments and governmental agencies. One mandatory class meeting, online journal, online discussions, and final paper. All internships are unpaid; only one internship may be completed for credit toward certificate.

Applied Pastoral Studies Certificate

This 6-class certificate is designed specifically for degree-seeking students who have an interest in expanding their understanding of ethics and social justice. You will develop advanced skills in public speaking, leadership principles, social justice foundations, and organizational development. Students completing this certificate will complete 3 classes counting toward an MA with the Institute of Pastoral Studies at Loyola.

Please Note: This certificate can only be completed by students working toward an undergraduate degree within the School of Continuing & Professional Studies.

Curriculum

Total Hours		**18**

[1] These courses will count toward an M.A in Social Justice at the Institute of Pastoral Studies at Loyola University Chicago.
[2] These courses will count toward an M.A in Pastoral Studies at the Institute of Pastoral Studies at Loyola University Chicago.

Suggested Sequence of Courses

The School of Continuing and Professional Studies provides a high-touch advising model in order to incorporate the professional and educational outcomes of the student as well as any transfer credit accepted. In order to provide students with maximum flexibility in their education and because everyone's academic background will vary, advisors will work directly with students to determine an appropriate sequence of courses starting at admission into their respective program based on their needs and expected time to completion.

LEARNING OUTCOMES

Upon certificate completion, graduates will be able to:

1. Critique social structures in terms of oppression and marginalization.
2. Develop leadership skills based on a foundation of theological principles.
3. Demonstrate effective persuasive communication to relevant pastoral stakeholders.
4. Identify contemporary ethical issues impacting society.
5. Apply social justice framework to addressing social problems.

Applied Psychology (BA)

Individual, organizational, and global problems require innovative solutions based on psychological research concerning what motivates people to change. Moreover, robotics and increased automation

continues heightening demand for employees who are adept at systems thinking to address the complexity of human behavior.

The BA in Applied Psychology program is a differentiated, high-quality program tuned to the needs of adult learners. Expert faculty provide training in the scientific study of human behavior, emotion, cognition, and motivation and prepare students for occupations applying psychological theory and methods to promote creative, evidence-based problem solving, critical systems thinking, cultural agility, and persuasive communication.

Curriculum

The BA in Applied Psychology comprises 120 credit hours. Courses are offered in an 8 week session format with online and evening options.

Code	Title	Hours

Suggested Sequence of Courses

The School of Continuing and Professional Studies provides a high-touch advising model in order to incorporate the professional and educational outcomes of the student as well as any transfer credit accepted. In order to provide students with maximum flexibility in their education and because everyone's academic background will vary, advisors will work directly with students to determine an appropriate sequence of courses starting at admission into their respective program based on their needs and expected time to completion.

Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (p. 1212) area.

Learning Outcomes

Upon degree completion, graduates will be able to:

1. Apply scientific thinking to solve individual, interpersonal, organizational and social problems in real world case studies and organizational/community projects.
2. Analyze theories in human behavior, cognition, emotion, and motivation in written assignments and oral presentations.
3. Use strategic communication and persuasion skills based in the behavioral sciences in role plays and real-world applications.
4. Interpret statistical and evaluation data to discern meaningful patterns and assess the impact of interventions in course work and organizational/community applications.
5. Recognize best practices including ethical and pragmatic constraints of applied research with people in course work and organizational/community projects.

Applied Studies (BA)

The B.A. in Applied Studies degree provides a strong foundation in communication and business. The Applied Studies major represents the best way to make the most of your prior credit in a particular subject and accelerate your path to graduation. The required certificate may also allow each student to focus on a complimentary discipline preparing them to excel in the professional world. SCPS understands that adult students often wish to take a wide range of courses to meet their professional and personal interests, so we have designed this degree to enhance your current career or establish a new one.

Curriculum

The B.A. in Applied Studies comprises 120 credit hours. Courses are offered in an 8-week session format with online, evening, and Saturday morning options.

Learning Outcomes

Upon degree completion, graduates will be able to:

1. Apply communication theories to promote change in personal and professional settings.
2. Demonstrate effective business writing in written narratives, memos, argumentative narratives, and collaborative documents.
3. Analyze organizational theory, structure, power dynamics and culture in persuasive written and oral presentations.
4. Describe the basic components of an organization's control structure and the role of accounting in an organization, through the analysis of organizational financial statements.
5. Develop leadership skills through self-assessment exercises, reflection activities, and critical thinking assignments.

Computer Science Certificate

This concise, nine-hour certificate program prepares you to enter the computer science field. It also positions you to complete a master's degree in Information Technology or Software Engineering as well. In this program, you will: develop a thorough understanding of the principles of object-orientation, such as abstraction, delegation, inheritance, and polymorphism; learn basic design patterns; and gain programming experience in mainstream object-oriented languages such as C++ and Java.
