

MICRO PRACTICE SPECIALIZATION WITH MIGRATION STUDIES TRACK

In response to global trends and the associated human, social, political, and spiritual challenges that migration presents, the Loyola University School of Social Work responded with the development of a Migration Studies track. This track is designed to prepare social work professionals for international, transnational, and domestic practice with internally displaced persons, immigrants, and refugees.

Application for the Migration Studies Track is required. Students need to fill out the Migration Studies Track Application (<https://www.luc.edu/media/lucedu/socialwork/pdfs/academicadvising/tracksforms/Migration%20Studies%20Track%20Application.docx>) and submit it to Professor Maria Vidal de Haymes at mvidal@luc.edu.

Curriculum

Code	Title	Hours
Required Courses		
Select three of the following: ¹		9
SOWK 730	Immigration Dynamics and U.S. Social Policy (Spring only)	
SOWK 731	Social Work Practice with Refugees and Immigrants (Spring only)	
SOWK 732	Migration, Social Justice, and Human Rights (Fall only)	
SOWK 733	North American Migration Dynamics, Challenges & Opportunity ²	
Total Hours		9

¹ Can be taken during any year of study.

² Summer in Mexico only; the course is taught in English by an SSW professor and is the equivalent of SOWK 730 Immigration Dynamics and U.S. Social Policy

Study Abroad Internship (Optional)

The study abroad program in Mexico (classes and internship) complements this track but is not required. For information and application forms, see Study Abroad: Mexico (<https://www.luc.edu/socialwork/student-support/study-abroad/mexico/>). The Mexico internship can be completed as a generalist or specialized internship (except for students pursuing a Schools specialization; a school internship must be done in the U.S.). Interested students will need to complete the application materials and be interviewed by Dr. Maria Vidal de Haymes. Information and application materials can be retrieved from Study Abroad: Mexico (<https://www.luc.edu/socialwork/student-support/study-abroad/mexico/>). A minimum of conversational Spanish is required. Students who want to pursue an internship in Mexico will meet for a second in-person interview with Dr. Vidal de Haymes.

Graduate & Professional Standards and Regulations

Students in graduate and professional programs can find their Academic Policies in Graduate and Professional Academic Standards and

Regulations (<https://catalog.luc.edu/academic-standards-regulations/graduate-professional/>) under their school. Any additional University Policies supersede school policies.

MSW Program Specialized Micro Learning Outcomes

Competency 1: Demonstrate Ethical and Professional Behavior

Social workers understand the value base of the profession and its ethical standards, as well as relevant policies, laws, and regulations that may affect practice with individuals, families, groups, organizations, and communities. Social workers understand that ethics are informed by principles of human rights and apply them toward realizing social, racial, economic, and environmental justice in their practice. Social workers understand frameworks of ethical decision making and apply principles of critical thinking to those frameworks in practice, research, and policy arenas. Social workers recognize and manage personal values and the distinction between personal and professional values. Social workers understand how their evolving worldview, personal experiences, and affective reactions influence their professional judgment and behavior. Social workers take measures to care for themselves professionally and personally, understanding that self-care is paramount for competent and ethical social work practice. Social workers use rights-based, antiracist, and anti-oppressive lenses to understand and critique the profession's history, mission, roles, and responsibilities and recognize historical and current contexts of oppression in shaping institutions and social work. Social workers understand the role of other professionals when engaged in interprofessional practice. Social workers recognize the importance of lifelong learning and are committed to continually updating their skills to ensure relevant and effective practice. Social workers understand digital technology and the ethical use of technology in social work practice.

Social workers:

- Demonstrate professional use of self as a social worker, reflecting knowledge of personal professional strengths, limitations, challenges, and cooperatively resolving interpersonal conflicts.
- Demonstrate ethical use of advanced modalities in practice and any related technological applications in the micro field of social work.
- Recognize and manage ethical violations and resolve conflicting ethical obligations.

Competency 2: Advance Human Rights and Social, Racial, Economic, and Environmental Justice

Social workers understand that every person regardless of position in society has fundamental human rights. Social workers are knowledgeable about the global intersecting and ongoing injustices throughout history that result in oppression and racism, including social work's role and response. Social workers critically evaluate the distribution of power and privilege in society in order to promote social, racial, economic, and environmental justice by reducing inequities and ensuring dignity and respect for all. Social workers advocate for and engage in strategies to eliminate oppressive structural barriers to ensure that social resources, rights, and responsibilities are distributed equitably and that civil, political, economic, social, and cultural human rights are protected.

Social workers:

- Articulate human rights violations the client and client's system are experiencing, including environmental and economic issues that endanger the health of the client system.
- Demonstrate understanding of the impact of intersectionality of marginalized identities, systemic racism, and associated oppressions and plan practice accordingly.
- Demonstrate ways in which social workers can advocate for human rights at the individual, family, group, organizational, and community system levels as it relates to the micro field of social work practice

Competency 3: Engage in Anti-racism, Diversity, Equity, and Inclusion (ADEI) in Practice

Social workers understand how racism and oppression shape human experiences and how these two constructs influence practice at the individual, family, group, organizational, and community levels and in policy and research. Social workers understand the pervasive impact of White supremacy and privilege and use their knowledge, awareness, and skills to engage in anti-racist practice. Social workers understand how diversity and intersectionality shape human experiences and identity development and affect equity and inclusion. The dimensions of diversity are understood as the intersectionality of factors including but not limited to age, caste, class, color, culture, disability and ability, ethnicity, gender, gender identity and expression, generational status, immigration status, legal status, marital status, political ideology, race, nationality, religion and spirituality, sex, sexual orientation, and tribal sovereign status. Social workers understand that this intersectionality means that a person's life experiences may include oppression, poverty, marginalization, and alienation as well as privilege and power. Social workers understand the societal and historical roots of social and racial injustices and the forms and mechanisms of oppression and discrimination. Social workers understand cultural humility and recognize the extent to which a culture's structures and values, including social, economic, political, racial, technological, and cultural exclusions, may create privilege and power resulting in systemic oppression.

Social workers:

- Understand and demonstrate an understanding of anti-racism practice at the individual, group, organizational, community, research, and policy levels that will allow for diversity, equity, and inclusion practice in the micro-level field of social work.
- Demonstrate an understanding of discrimination patterns in society and how micro-level oppression impacts micro-level social work practice regarding race, class, gender, sexual orientation, gender identity, ability, age, and any other social categories in which oppression occurs.
- Demonstrate the ability to formulate how an anti-racist practice will advance the client and client system's human rights.

Competency 4: Engage In Practice-Informed Research and Research-Informed Practice

Social workers use ethical, culturally informed, anti-racist, and anti-oppressive approaches in conducting research and building knowledge. Social workers use research to inform their practice decision making and articulate how their practice experience informs research and evaluation decisions. Social workers critically evaluate and critique current, empirically sound research to inform decisions pertaining to practice, policy, and programs. Social workers understand the inherent bias in research and evaluate design, analysis, and interpretation using an anti-racist and anti-oppressive perspective. Social workers know how to access, critique, and synthesize the current literature to

develop appropriate research questions and hypotheses. Social workers demonstrate knowledge and skills regarding qualitative and quantitative research methods and analysis, and they interpret data derived from these methods. Social workers demonstrate knowledge about methods to assess reliability and validity in social work research. Social workers can articulate and share research findings in ways that are usable to a variety of clients and constituencies. Social workers understand the value of evidence derived from interprofessional and diverse research methods, approaches, and sources.

Social workers:

- Demonstrate understanding of and be able to contribute to the evaluation of social research regarding advanced micro practice.
- Critically evaluate and select potential practice models relevant to the client's systems.
- Use their experience from their internship or practicum placement to identify real-life challenges and address the practical needs of clients
- Engage in partnerships with experienced social workers to help bridge the gap between theory and practice and broaden knowledge of social work practice as it relates to the micro field of social work.

Competency 5: Engage in Policy Practice

Social workers identify social policy at the local, state, federal, and global level that affects wellbeing, human rights and justice, service delivery, and access to social services. Social workers recognize the historical, social, racial, cultural, economic, organizational, environmental, and global influences that affect social policy. Social workers understand and critique the history and current structures of social policies and services and the role of policy in service delivery through rightsbased, anti-oppressive, and anti-racist lenses. Social workers influence policy formulation, analysis, implementation, and evaluation within their practice settings with individuals, families, groups, organizations, and communities. Social workers actively engage in and advocate for anti-racist and anti-oppressive policy practice to effect change in those settings.

Social workers:

- Communicate to stakeholders and policymakers the implications of policies and policy change in the lives of clients.
- Conduct and design a plan for organizational analysis and change, working with relevant constituencies to evaluate interventions that impact clients and communities utilizing best practice models reflecting social work values, ethics, and the organization's mission.
- Collect, maintain, interpret, and analyze data from both internal and external organizational environments, the community of stakeholders, and diverse client groups to identify and prioritize social problems.
- Recognize how oppression and social injustice affect client groups, organizations, and communities and intervene proactively for human rights and justice.
- Understand strategies and techniques for advocating at local, state, and federal levels in policy development.

Competency 6: Engage with Individuals, Families, Groups, Organizations, and Communities

Social workers understand that engagement is an ongoing component of the dynamic and interactive process of social work practice with and on behalf of individuals, families, groups, organizations, and communities.

Social workers value the importance of human relationships. Social workers understand theories of human behavior and person-in-environment and critically evaluate and apply this knowledge to facilitate engagement with clients and constituencies, including individuals, families, groups, organizations, and communities. Social workers are self-reflective and understand how bias, power, and privilege as well as their personal values and personal experiences may affect their ability to engage effectively with diverse clients and constituencies. Social workers use the principles of interprofessional collaboration to facilitate engagement with clients, constituencies, and other professionals as appropriate.

Social workers:

- Apply culturally appropriate resources available to assist with problem-solving.
- Recognize and describe self-reflective competency in identifying bias, countertransference, and potential microaggressions when engaging diverse client systems.
- Implement and describe the use of reflective listening tools when needed to engage and empower members of families and groups.

Competency 7: Assess Individuals, Families, Groups, Organizations, and Communities

Social workers understand that assessment is an ongoing component of the dynamic and interactive process of social work practice. Social workers understand theories of human behavior and person-in-environment, as well as interprofessional conceptual frameworks, and they critically evaluate and apply this knowledge in culturally responsive assessment with clients and constituencies, including individuals, families, groups, organizations, and communities. Assessment involves a collaborative process of defining presenting challenges and identifying strengths with individuals, families, groups, organizations, and communities to develop a mutually agreed-upon plan. Social workers recognize the implications of the larger practice context in the assessment process and use interprofessional collaboration in this process. Social workers are self-reflective and understand how bias, power, privilege, and their personal values and experiences may affect their assessment and decision making.

Social workers:

- Collect and organize data to support their professional decision-making as well as demonstrate critical thinking to interpret information from clients and constituencies.
- Illustrate knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in the analysis of assessment data from clients and constituencies, understanding the lack of political neutrality in their work.
- Exemplify a process in which mutually agreed-on intervention goals and objectives are generated based on the critical assessment of strengths, needs, and challenges within clients and constituencies in their social environment; and
- Convey a deeper understanding of how to select appropriate intervention strategies informed by assessment, research knowledge, and values and preferences of clients and constituencies through the exercise of antiracist practice principles.

Competency 8: Intervene with Individuals, Families, Groups, Organizations, and Communities

Social workers understand that intervention is an ongoing component of the dynamic and interactive process of social work practice. Social workers understand theories of human behavior, person-in-environment, and other interprofessional conceptual frameworks, and they critically evaluate and apply this knowledge in selecting culturally responsive interventions with clients and constituencies, including individuals, families, groups, organizations, and communities. Social workers understand methods of identifying, analyzing, and implementing evidence-informed interventions and participate in interprofessional collaboration to achieve client and constituency goals. Social workers facilitate effective transitions and endings.

Social workers:

- Practices self-reflective understanding of the professional use of self in interventions with diverse types of client systems in order to understand and challenge oppressive social forces as well as to avoid perpetuating racist biases, microaggressions, and disempowerment of clients.
- Use supervision and consultation appropriate to developing skills for advanced and interdisciplinary practice.
- Demonstrate an ability to intervene collaboratively and collectively with clients in choosing treatment plans and their implementation.

Competency 9: Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities

Social workers understand that evaluation is an ongoing component of the dynamic and interactive process of social work practice with and on behalf of diverse individuals, families, groups, organizations, and communities. Social workers evaluate processes and outcomes to increase practice, policy, and service delivery effectiveness. Social workers apply anti-racist and anti-oppressive perspectives in evaluating outcomes. Social workers understand theories of human behavior and person-in-environment, as well as interprofessional conceptual frameworks, and critically evaluate and apply this knowledge in evaluating outcomes. Social workers use qualitative and quantitative methods for evaluating outcomes and practice effectiveness.

Social workers:

- Demonstrate understanding of the logic and method of single case evaluation of practice from diverse theoretical and methodological perspectives.
- Competently demonstrate case evaluation, including identifying problems and their resolution, the fulfillment of goals co-identified with client, and managing systemic problems that impinge on client well-being.
- Demonstrate competence in incorporating client feedback processes in planning and carrying out the intervention plan.
