Suggested Sequence of Courses

The School of Continuing and Professional Studies provides a high-touch advising model in order to incorporate the professional and educational outcomes of the student as well as any transfer credit accepted. In order to provide students with maximum flexibility in their education and because everyone's academic background will vary, advisors will work directly with students to determine an appropriate sequence of courses starting at admission into their respective program based on their needs and expected time to completion.

Learning Outcomes

Upon successful completion of the Organizational Psychology Certificate, candidates will be able to:

- Formulate analyses of organizational problems based on psychological theory and propose evidenced based solution.
- Analyze key dynamics in employee personality, behavior, and motivation.
- Critique leadership styles, group behavior and team dynamics.

- Practice effective organizational communication strategies related to interviewing, persuasion, conflict resolution, and negotiation.
- Design evaluation to assess the impact of workplace programs.
- Evaluate best practices in relation to employee recruitment, selection, performance evaluation, motivation, retention and training.
- Describe contemporary issues and approaches related to behavioral health and counseling.
