# UNDERGRADUATE RESEARCH

For a course to be designated as "Undergraduate Research", satisfying the University Engaged Learning requirement, it must meet all the following criteria. Criteria for undergraduate research courses are based on research, best practices, and the CAS Standards for Undergraduate Research (2009).

- 1. The field research course engages students on an original research project (not a simulation), either contributing to a faculty research project or engaging in an independent research project with a mentor
- 2. Students conduct research on an ongoing basis, working an average of 5 10 hours/week.
- Students gain knowledge of or experience in discipline-specific language, research ethics, skills in research methodologies, and important scholarship.
- 4. The learning objectives related to the research experience are clearly articulated related to their field of study, educational goals and/or career and vocational aspirations.
- There is supervision and feedback by a mentor who has expertise related to their field of study, educational goals and/or career and vocational aspirations.
- 6. The syllabus assignments include reflection assignments and a final synthesis project integrated into the course.
- 7. There is an outlet to disseminate the original research (e.g., symposium, conference, scholarly article) integrated into the course.

In addition to classes approved for EL credit in the area of Undergraduate Research, research projects students pursue under an Independent Study or Directed Readings course-number may be approved for EL credit if they meet the criteria. Students should follow the process to request EL credit on the "Requesting EL Credit (https://www.luc.edu/celts/programs/ engagedlearning/studentresources/requestingelcredit/)" page.

All courses that have been approved to satisfy the Engaged Learning University Requirement are designated with an "E" appended to their section number, e.g. ANTH 301 01E. Comprehensive listings of all approved Engaged Learning classes offered each semester can be found in LOCUS (http://www.luc.edu/locus/).

## **College of Arts and Sciences**

Code	Title	Hours
ANTH 314	Applied Anthropology	3
ANTH 317	Ethnographic Methods	3
ANTH 348	Museum & Material Culture Research	3
ANTH 361	Issues Cultural Anthropology <sup>1</sup>	3
BIOI 397 / BIOL 395	Bioinformatics Survey <sup>1</sup>	1-4
BIOI 399	Bioinformatics Research	1-4

<sup>1</sup> Only specific sections satisfy the Engaged Learning requirement. These will include the letter E in the section number. Please see LOCUS for details.

<sup>2</sup> The Ramonat Seminar (http://ramonatseminar.com/) is an interdisciplinary, two-semester course that provides Loyola undergraduates with the unique opportunity to explore changing topics within American Catholic history, literature, and culture through handson research. Taught by a Loyola faculty member, the seminar is limited to 12 participants who pursue common readings in the fall semester and individual research projects in the spring semester. Unlike standard undergraduate courses, the Ramonat Seminar provides promising students, who will be named *Ramonat Scholars*, with resources for research, travel, and even publication in digital and print formats, all aimed at their general professional development.
